- b. "Program": means a planned, integrated approach to an identified problem which is characterized by clear goals, measurable objectives, the implementation of strategies to achieve those objectives and a mechanism for assessing the effectiveness of those strategies.

Section 2. Term Of Agreement.

This agreement shall commence on December 15, 1988 and shall terminate no later than September 30, 1989 unless the period is extended by an amendment to this agreement. Costs incurred prior to the effective date, or after termination pursuant to the provisions of this agreement, shall not be paid by the Authority.

Section 3. Program Description And Budget.

The Implementing Agency agrees to undertake and perform in a satisfactory manner the program mutually determined in and set out in the Program Description attached and incorporated herein as Exhibit A and the Budget attached and incorporated herein as Exhibit B.

Match, as included in Exhibit B of this agreement, may be contributed at any time during the term of this agreement but must be paid in full with supporting documentation before September 30, 1989. Match shall be documented so as to be subject to audit.

Section 6. Funding Limitation.

Payment under this agreement is subject to passage of a suitable and sufficient appropriation by the Illinois General Assembly. Obligations of the State of Illinois will cease immediately without penalty of further payment being required in any fiscal year should the actions of the General Assembly or any applicable funding source result in the failure to appropriate or otherwise make available sufficient funds for this agreement.

Section 7. Non-Supplantation.

The Implementing Agency agrees that federal funds made available under this agreement will not be used to supplant available local funds, but will be used to increase the amounts of such funds that would, in the absence of federal funds, be made available to the Implementing Agency for criminal justice activities.

Section 8. Reporting Requirements.

Chicago Police Department Criminal History Record Program: Phase I.

I. Summary.

The Chicago Police Department maintains criminal history records manually. To address this problem, the Department convened its Information Systems Policy Committee, comprised of first level management, on November 14, 1988. At this meeting, problems were identified and conceptual solutions were outlined by members of the Records Division and presented to the Committee. Automation of the Department's criminal history file became the Committee's priority.

Proposed is a two-phase program to automate the Department's criminal history records. During Phase I the following steps will be accomplished:

- a. Identification of Department members to manage the program. Because separate functional areas are involved, responsibilities may be shared;
- b. Identification and hiring of a subcontractor to complete a system analysis;
- c. Identification of Department units and selected Department members for user input;
- d. Completion of system analysis; preparation of all specifications for automated criminal history record system; and
- e. Inclusion of components for exchange of information with other criminal justice agencies.

The resulting program will not only address user requirements but also take into account technological developments and capabilities, and complement and supplement other systems, plans and operations, internal and external with regard to criminal history and investigation information.

II. Statement Of Problem.

Background -- The Chicago Police Department's *Criminal History File*, commonly referred to as the *Chicago Identification Record* or simply as the *I.R.* file, is a large manual information system which includes identification, arrest, and disposition information on persons arrested by Chicago police officers. The methods used in collecting, updating and disseminating data from this system are the same as used over fifty years ago.

The manual *I.R.* files contain criminal history record information and are used to assist prosecutors in approving appropriate charges and the judiciary in setting bonds and administering adequate sentences. State statutes mandate the Illinois State Police to serve as the official central repository of criminal history record information within Illinois. However, the state does not accept some arrest data, particularly certain misdemeanor charges. By contrast, the Chicago rap sheets are often more complete with respect to Chicago arrests and, thus in many cases, more informative and useful.

Despite its ability to manually produce criminal history records, the Department is experiencing problems with its system.

- The Department's Identification Section has created and maintains well over 750,000 rap sheets. Because this is a manual, labor intensive clerical task, mountains of paper are produced and handled repetitively.
- In the typical arrest process, a minimum of 3 to 5 inquiries for every offender are made against the criminal histories via phone, manual search and the semi-automated *Identification System Index*. These redundant searches are made independently by Department members concerned with positive identification so that the most effective and appropriate police action can be taken.
- Problems with delivery of fingerprint cards and poor quality of fingerprints result in a percentage of inefficient or inaccurate identification and updating of the criminal histories.
- Typists manually enter each arrest's court disposition from a court sergeant's notification or one from the Clerk of the Circuit Court despite the fact that the Clerk has made available all disposition information on computer tape.
- Frequently time is of the essence when information is requested from rap sheet files. The manual method of updating court dispositions, out-of-Chicago arrest and sentencing information reduces the likelihood of complete information being available.
- The potential for catastrophic loss of manual files is great as the manual system has no back-up.
- Because the files are manually generated, maintained and updated, inaccuracies or omissions are cumbersome to locate and correct, frequently only being discovered by a concerned arresting officer, investigative detective or prosecuting attorney. Since these files do not lend themselves to comparison against the other sources of the same information, it is difficult to validate important information.
- Managerial, administrative, and criminal investigative data and statistics which might be retrievable by analysis of these rap sheet files, are beyond the reach of the Department or academic community researchers because of constraints inherent in a manual system.

III. Goal(s) And Objective(s).

The goal of the proposed program is to identify the long-range information requirements of the Chicago Police Department with respect to arrest information and to implement the criminal history record information component of this system.

The objective of the proposed program is to produce a long-range information system strategy with respect to arrest and criminal history data processed by the Chicago Police Department.

IV. Program Strategies.

Clearly, the Chicago Police Department cannot continue to maintain its criminal history information manually without suffering increased inefficiencies and risking errors in posting, filing or retrieval of information. The volume of requests for information -- 175,000 in 1987 -- has grown beyond a scale that can be stored and tracked manually. Automation of the Department's criminal history files is a must.

In developing and implementing an automated system, the Department proposes a two-phase effort. Phase I calls for the design of a system which will meet the needs of all users of the system. Among the issues to be addressed during this phase are:

- The information to be collected and entered into the system;
- Who will have access to the system and how that will take place;
- Integration of the new system with the Department's other automated information systems;
- The exchange of information with other criminal justice agencies;
- Staffing needs; and
- The long-range needs of the Department with respect to criminal history record information.

Phase II of the proposed plan calls for the implementation, testing and fine-tuning of the criminal history record system component of the plan. During Phase II the Department's work group will continue to be consulted about changes in their respective units which may have an impact on the system's output. Where possible and when deemed necessary, an attempt will be made to include the changes in the system.

The following is said ordinance as passed:

WHEREAS, Pursuant to Chapter 21, Section 21-72 of the Municipal Code of Chicago, the City of Chicago through its Commission on Chicago Landmarks has determined that the Old Edgebrook District, generally bounded by West Devon, North Caldwell, North Lehigh, and North Central Avenues, the North Branch of the Chicago River, and the south right-of-way of North Prescott and North McClellan Avenues, in Chicago, Illinois, is worthy of designation as a Chicago landmark; and

WHEREAS, The Commission has found that the Old Edgebrook District meets certain criteria for landmark designation as set forth in Sections 21-66 (1), (3), (4), (6), and (7) of the Municipal Code of Chicago; and

WHEREAS, The Old Edgebrook District has value as an example of the economic heritage of the City of Chicago as it was principally developed as a railroad suburb, one particularly identified with the Chicago, Milwaukee, St. Paul and Pacific Railroad Company and further, Old Edgebrook has value as part of the cultural and historic heritage of the City of Chicago and the State of Illinois as it was sited on land once home and hunting grounds for the Potawatomi Indians, among the first Native Americans to occupy the state; and

WHEREAS, Billy Caldwell, the legendary Indian chief, also known as Sauganash, is associated with Old Edgebrook as well as Arthur Dixon, an important Chicago businessman and alderman who initiated the development of Old Edgebrook in 1894; and

WHEREAS, The collection of houses in the Old Edgebrook District are classic illustrations of the types and styles of domestic housing built extensively throughout the United States from 1890 to 1940, and further exhibit distinctive architectural detailing and craftsmanship; and

WHEREAS, Old Edgebrook, as a historic district, represents the architectural, social, and cultural forces that shaped our identity as Americans during the transition from the Victorian to the modern times; and

WHEREAS, Old Edgebrook is unique in Chicago both in terms of physical appearance and location as it is situated in groves of trees along the North Branch of the Chicago River so that its topography and landscaping suggest the rural ambience of the suburbs, yet it is definitely within the city limits, making it a legitimate urban neighborhood, albeit an atypical one for a major metropolis; and

WHEREAS, The Commission on Chicago Landmarks has concluded that the Old Edgebrook District is truly important to Chicago and deserves to be preserved, protected, enhanced, rehabilitated, and perpetuated, and the Commissioner of Planning of the City of Chicago and the City Council Committee on Historical Landmark Preservation have concurred in the Commission's recommendation that the Old Edgebrook District be designated as a Chicago landmark; now, therefore,

OLD EDGEBROOK DISTRICT

Shading represents the area of the proposed Old Edgebrook District. The boundary on the south is along the south right-of-way of Prescott and McClellan avenues; these streets are not paved to the full width of the right-of-way (66') therefore, on average, there is a strip of wooded land 25 feet deep to the south of the pavement that falls within the proposed district. The boundary on the west is the east bank of the Chicago River from a point where the river bank meets the south property line of Outlot "C" (A on the map) to the point where the river meets the east line of the right-of-way of the now-vacated North Madrid Avenue (B on the map) if extended from West Devon.

The City Council of the City of Chicago hereby approves and the Mayor, Commissioner of the Department of Aviation, City Comptroller, and Corporation Counsel are hereby authorized to enter into and execute, and the City Clerk is directed to attest to, on behalf of the City of Chicago a settlement agreement ("Settlement Agreement") with the airlines listed in Exhibit A ("Airlines"), which is attached hereto and made a part hereof, with respect to certain fees and charges assessed against the Airlines at Chicago-O'Hare International Airport in the years 1983 through 1987. The Settlement Agreement shall be in substantial conformity with Exhibit A.

SECTION 2. The City Council of the City of Chicago hereby approves and the Mayor, Commissioner of the Department of Aviation, City Comptroller, and Corporation Counsel are hereby authorized to execute and the City Clerk is directed to attest to, on behalf of the City of Chicago an amendment to the Chicago-O'Hare International Airport Amended and Restated Use Agreement and Terminal Facilities Lease dated as of January 1, 1985 ("Use Agreement"), C.J.P. pp. 15697 -- 15797, which amendment authorizes the City of Chicago to make payments from the Airport Development Fund pursuant to the Settlement Agreement. Such amendment shall be in substantial conformity with Exhibit B which is attached hereto and made a part hereof.

SECTION 3. The Mayor and Commissioner of the Department of Aviation are further authorized to take such actions and to execute such other documents as may be necessary to implement the terms of the Settlement Agreement.

SECTION 4. Any and all prior ordinances and resolutions of the City Council of the City of Chicago in conflict with this ordinance are hereby repealed insofar as such prior ordinances and resolutions are in conflict with this ordinance, but such prior ordinances and resolutions shall remain in effect as to any other matter not covered by this ordinance.

SECTION 5. This ordinance shall be in effect from and after its passage.

Exhibits "A" and "B" attached to this ordinance read as follows:

Exhibit A.

Settlement Agreement.

This Settlement Agreement (the "Agreement") made and entered into as of this _____ day of December, 1988, by and between the City of Chicago, a municipal corporation and home rule unit of local government organized and existing under the laws of the State of Illinois (the "City"), and _____, a corporation organized and existing under the laws of the State of _____ (the "Airline").

Witnesseth:

Whereas, the City and the Airline have entered into the Chiago-O'Hare International Airport Amended and Restated Airport Use Agreement and Terminal Facilities Lease dated as of January 1, 1985 (the "Amended and Restated Use Agreement"); and

Whereas, there has been a dispute between the City and the Airline and certain other Airline Parties (collectively, the "Airlines") with respect to the inclusion in Airport Fees and Charges of certain indirect salaries and expenses, as further described herein; and

Whereas, the City and the Airlines have agreed to resolve that dispute with respect to Airport Fees and Charges for Fiscal Years 1983 through 1987 and to resolve certain other matters related to the Amended and Restated Use Agreement in the manner described herein;

Now, Therefore, in consideration of the premises and of the mutual covenants and agreements herein contained, the City and the Airline agree as follows:

Section 1. Except as otherwise defined herein, capitalized terms shall have the same meanings given such terms in the Amended and Restated Use Agreement or in the General Airport Revenue Bond Ordinance.

Section 2. As soon as practicable after the issuance of the Chicago-O'Hare International Airport General Airport Second Lien Revenue Bonds, 1988 Series A and B, the City shall make cash payments, from Airport funds, to the Airlines in the amount of \$6,141,155. These payments shall discharge the City's payment obligations under Section 7.07 of the Amended and Restated Use Agreement for Fiscal Years 1983 through 1985.

Section 3. The City shall also pay the Airlines an additional sum of \$2,755,682 (the "deferred payment") through the mechanism described in Section 6 below.

Section 4. The cash payments and deferred payment described above shall be paid to the individual Airlines in the following amounts:

	Principal	Deferred Payment	Total
American	\$1,381,544	\$800,931	\$2,182,475
Delta	(355,166)	106,424	(248,742)
Northwest	799,982	245,780	1,045,762
Piedmont	116,923	12,218	129,141
TWA/Ozark	141,221	162,182	303,403
United	3,665,146	1,405,121	5,070,267
USAir	36,339	34,291	70,630

The precise amounts of repayments pursuant to Section 7.07 for Fiscal Years 1983 through 1987 shall be subject to verification and adjustment on the City's submission of final audits for Fiscal Years 1983 through 1987.

Section 5. For Fiscal Years 1984 through 1987, the City assessed Airport Fees and Charges attributable to full absorption indirect salaries and expenses at levels in excess of 5 percent of the direct salaries and expenses charged by five City departments. These full absorption indirect charges exceeded 5 percent of direct salaries and expenses by approximately \$11 million. The City shall make deferred repayments to the Airlines of approximately \$11 million (the "excess indirect charges") for Fiscal Years 1984 through 1987 through the mechanism described in Section 6 below. The repayments of excess indirect charges for Fiscal Years 1984 through 1986 shall be made with respect to the individual Airlines in the following amounts:

American	\$ 3,024,548
----------	--------------

Delta	682,557
Northwest	560,105
Piedmont	23,641
TWA	579,573
United	4,378,717
USAir	159,629

The excess indirect charges for Fiscal Year 1987 (and the corresponding repayments) shall be determined on the City's submission of a final audit for 1987.

Section 6. In order to implement the repayments of excess indirect charges and deferred payments, the City shall include in the calculation of Airport Fees and Charges for each Fiscal Year the Airport Development Fund payment requirement described in Section 10.02 of the Amended and Restated Use Agreement, as adjusted in accordance with Section 10.03 thereof. The City shall instruct the Trustee to transfer, on the business day of the Trustee immediately preceding each January 1 and July 1, to the City for deposit into the Airport Development Fund an amount equal to one-half of the Airport Development Fund Deposit Requirement, if any, for the Fiscal Year which includes such January 1 and July 1. The City shall then deposit such amount into the Airport Development Fund. Commencing no later than the January 1, 1990 deposit, the City shall, within 60 days of such deposit, make repayments to the Airlines from cash in the Airport Development Fund for the deferred payment and excess indirect charges. The amount of each such repayment to the Airline shall be the amount which was included in the Airline's Airport Fees and Charges for the previous six month period and collected from the Airline to meet the Airline's share of the Airport Development Fund Deposit Requirement for such January 1 or July 1. The City's obligation to make each such repayment is limited to the amount so collected from the Airline. The City's obligation to make repayments to the Airline is limited in the aggregate to the amounts set forth opposite the Airline's name in Section 4 under the Deferred Payment column and in Section 5.

Section 7. The precise amounts of repayments for excess indirect charges shall be subject to verification and adjustment on the City's submission of final audits for Fiscal Years 1984 through 1987. No amounts collected from the Airline in accordance with Section 6 hereof and deposited into the Airport Development Fund shall be used for any purpose other than such repayment to the Airline until the Airline has been completely reimbursed for its share, as described herein, of the excess indirect charges and the deferred payment.

Section 8. The methodology for determining settlement for excess indirect charges shall be final for Fiscal Years 1983 through 1987. The parties shall remain free to assert and litigate their respective positions on the inclusion in Airport Fees and Charges of certain indirect expenses for Fiscal Years 1988 and beyond. The City's repayment of the excess

indirect charges will in no way prejudice the City's position in any subsequent litigation over fees and charges for indirect expenses in Fiscal Years 1988 and beyond.

Section 9. The City and the Airline acknowledge that in order for the City to make the repayments of excess indirect charges and deferred payment with funds in the Airport Development Fund, the Amended and Restated Use Agreement must be amended to allow such use of funds in the Airport Development Fund. The City and the Airline hereby agree to expeditiously take all actions necessary to authorize and execute an amendment to the Amended and Restated Use Agreement, in the form attached hereto as Exhibit A. The City and the Airline further agree that this Agreement shall become effective upon the execution and delivery hereof and the execution and delivery of such amendment by the City and the Airline.

Section 10. Upon execution of this Agreement, the parties shall negotiate in good faith with respect to fees and charges to be assessed for indirect expenses at the Airport. In the course of such negotiations the parties shall be free to raise and discuss other issues relating to the Amended and Restated Use Agreement and other agreements between the parties. However, the City's agreement to make repayments in an amount equal to the excess indirect charges for Fiscal Years 1983 through 1987 shall be final, and shall not be rescinded or terminated in the event that the parties are unable to reach agreement on fees and charges for indirect expense for Fiscal Years 1988 and beyond. This settlement is being made solely to terminate the dispute described herein and does not constitute an admission by the City of any liability to the Airlines.

Section 11. This Agreement supersedes the agreement in principle between the City of Chicago and the Airlines set forth in the letter from Stephen C. Neal, P.C. to William H. Farley, Jr. dated October 19, 1988.

In Witness Whereof, the City has caused this Agreement to be executed on its behalf by its _____ Mayor, pursuant to due authorization of the City Council of the City, and its seal to be hereunto affixed and attested by the City Clerk of the City, and the Airline has caused this Agreement to be executed on its behalf by its _____ President and its _____ Secretary, pursuant to due authorization of its Board of Directors, all as of the day and year first above written.

CITY OF CHICAGO

YEAR XV COMMUNITY DEVELOPMENT BLOCK GRANT

Proposed Statement of Community Development
Objectives and Projected Use of Funds

Introduction

Beginning January 1, 1989, the City enters the fifteenth year of the Community Development Block Grant (CDBG) program. The U.S. Department of Housing and Urban Development (HUD) has notified the City that the projected Year XV CDBG entitlement is \$80,375,367. Programs will be continued at approximately current service levels by combining the Year XV entitlement with \$6,602,012 in prior year unspent CDBG funds, \$6,500,000 in anticipated land sale revenues, \$2,050,000 in loan proceeds, \$1,827,400 in UDAG recapture, \$278,600 in program income and \$700,000 in Rental Rehabilitation Administrative recapture for a total Year XV proposed program of \$98,333,379. This represents an increase of \$4,718,012 or 5.0% over CDBG Year XIV.

The projected use of funds for CDBG Year XV allocates all available funds among the major program categories as follows:

<u>Program Category</u>	<u>Allocation</u>	<u>% of Total</u>
Housing	\$31,076,702	31.6%
Public Services	36,391,818	37.0%
Economic Development	13,834,936	14.1%
Community Improvements	6,688,000	6.8%
Administration and Planning	<u>10,341,923</u>	<u>10.5%</u>
	\$98,333,379	100.0%

This statement includes general objectives of the overall programs and the types of projects which will be carried out with Year XV funds. The proposed funding meets new federal guidelines which require the City's program to serve 61% low and moderate income persons. To fulfill a requirement resulting from the 1983 amendments to Title I of the Housing and Community Development Act, a separate statement which describes the use of CDBG entitlement funds expended since preparation of last year's Final Statement is available upon request from the City's Office of Budget and Management, Room 604, City Hall.

Residential Antidisplacement and Relocation Assistance
Plan under SECTION 104(d) of the Housing and Community
Development Act of 1974, as Amended

The City of Chicago will replace all occupied and vacant occupiable low/moderate-income dwelling units demolished or converted to a use other than as low/moderate-income housing as a direct result of activities assisted with funds provided under the Housing and Community Development Act of 1974, as amended, as described in 24 CFR 570.606(b)(1).

All replacement housing will be provided within three years of the commencement of the demolition or rehabilitation relating to conversion. Before obligating or expending funds that will directly result in such demolition or conversion, the City of Chicago will make public and submit to the HUD Field Office the following information in writing:

1. A description of the proposed assisted activity;
2. The general location on a map and approximate number of dwelling units by size (number of bedrooms) that will be demolished or converted to a use other than as low/moderate-income dwelling units as a direct result of the assisted activity;
3. A time schedule for the commencement and completion of the demolition or conversion;
4. The general location on a map of the approximate number of dwelling units by size (number of bedrooms) that will be provided as replacement dwelling units;
5. The source of funding and a time schedule for the provision of replacement dwelling units; and
6. The basis for concluding that each replacement dwelling unit will remain a low/moderate-income dwelling unit for at least 10 years from the date of initial occupancy.

The City of Chicago will provide relocation assistance, as described in Section 570.606(b)(2), to each low/moderate-income household displaced by the demolition of housing or by the conversion of a low/moderate-income dwelling to another use as a direct result of assisted activities.

Consistent with the goals and objectives of activities assisted, the City of Chicago will take the following steps to minimize the displacement of persons from their homes:

It is the policy of the City of Chicago that UDAG and CDBG funded Programs involving acquisition, rehabilitation or demolition, be so administered as to minimize permanent displacement. Under acquisition programs, the City shall consider vacant parcels to the extent feasible. Under rehabilitation programs, owners will be urged to consider the feasibility of staging activities in such a manner as to make units available to existing tenants.

However, where permanent displacement becomes necessary the following relocation assistance will be provided:

1. Choice between (i) actual reasonable moving expenses under Section 42.301 or (ii) fixed expense and dislocation allowance under Section 42.302.
2. Advisory services as described in 24 CFR Part 42, Subpart C.
3. Reimbursement for reasonable and necessary security deposit and credit checks.
4. Replacement housing assistance.
 - a. A person choosing to rent will be offered either (i) Section 8 housing voucher/certificate (through housing authority) and referrals to comparable replacement dwelling units where owner agrees to participate in Section 8 Program or (ii) cash rental assistance to reduce rent and utility costs to 30% of income (adjusted, as determined by grantee) for a 5-year period and appropriate referrals to comparable replacement dwelling units.
 - b. A person buying interest in a housing cooperative or mutual housing association may elect to receive a lump sum payment based on capitalized value of rental assistance installments.

or

Should the displacee elect Uniform Relocation Act assistance in lieu of the above, full services and financial assistance at the level of the Uniform Relocation Assistance and Property Acquisition Policies Act of 1970, as amended, will be accorded those who must move. These persons will be entitled to referrals (private sales and rental), to decent safe and sanitary units in areas of their choice, processing of applications for subsidized housing (conventional public housing and Section 8), social services as would affect the orderly processes of relocation and the filling of appropriate relocation claims. Non-residential displacees will also be entitled to full benefits.

A "displaced person" is defined as a person that is required to move permanently and involuntarily as a direct result of an assisted activity. The term includes a residential tenant who moves from the real property if the tenant has not been provided a reasonable opportunity to lease and occupy a suitable, decent, safe and sanitary dwelling in the same building or in a nearby building on the real property following completion of the assisted activity at a monthly rent/utility cost that does not exceed the greater of:

1. 30 percent of the tenant household's average monthly gross income, or
2. The tenant's monthly rent and average cost for utilities before the owner requested the financial assistance (or, in the case of a unit owned or to be acquired by State agency, the submission of the application/final statement).

A residential tenant who is required to move to another unit in the property or is required to relocate temporarily, but is not reimbursed for his/her reasonable out-of-pocket expenses, would also be considered a "displaced person", if he/she moves from the real property permanently.

WHEREAS, The City Council of the City of Chicago passed an ordinance in December 1987, which set forth procedures for the Community Development Block Grant Program requiring that the City shall not reprogram funds in excess of \$10,000 appropriated for any object of purpose set forth in the Community Development Block Grant ordinance or allocations from prior block grants without the approval of the City Council; and

WHEREAS, The Commissioner of the Department on Aging and Disability requests the reprogramming of \$37,880 of Year XIV C.D.B.G. funds from Helping Care Services, Inc. delegate to the Open Kitchens delegate which will be used to purchase 3600 shelf stable emergency food boxes. This request comes at a time when the need for the services that Open Kitchens provides has increased. These funds are available due to a decrease in demand for services provided by Helping Care Services, Inc., and will not negatively affect the agency or its efforts. This request will transfer funds from one existing program to another and will not result in an increase in the Department on Aging and Disability's C.D.B.G. Year XIV Budget; now, therefore,

Be It Resolved by the City Council of the City of Chicago:

SECTION 1. The sum of \$37,880 of Community Development Block Grant funds be reprogrammed between the existing program budgets from Helping Care Services, Inc., to Open Kitchens to purchase 3600 shelf stable emergency food boxes.
