The following is said resolution as adopted:

WHEREAS, The need for a comprehensive plan to eliminate serious flooding and pollution problems associated with the combined sewer overflows in the Chicago area has long been recognized; and

WHEREAS, 550,000 homes in Cook County tributary to the Des Plaines River and Chicago River systems are subject to flooding from combined sewer back-up; and

WHEREAS, The City of Chicago and other communities in the Chicago metropolitan area have recognized the need for a plan that will prevent backflows of polluted water into Lake Michigan; and

WHEREAS, Effective plans to solve these problems exist. The Tunnel and Reservoir Plan (T.A.R.P.) has been recommended by experts since 1972, and the U. S. Corps of Engineers' studies have confirmed that T.A.R.P. is the most cost-effective approach to pollution and flood control in the Chicago

metropolitan area. In addition, Section 108 of the 1976 Water Resources Development Act (Public Law 94-587) has authorized the undertaking of advanced engineering and design of the Chicagoland Underflow Plan (C.U.P.) for flood control and other purposes; and

WHEREAS, The Metropolitan Water Reclamation District of Greater Chicago is the local sponsor for T.A.R.P. and C.U.P., and is responsible for acquiring the right-of-way necessary to implement these badly needed programs and to ensure continued federal participation in both T.A.R.P. and C.U.P., and the Water Reclamation District has recently concluded several years of negotiations with the owner of the McCook Quarry to acquire the land necessary for the construction of the T.A.R.P. reservoir; and

WHEREAS, The Congressional Conference Report regarding appropriations for energy and water development for the fiscal year ending September 30, 1993, urges that the project proceed in a timely manner, and that the U. S. Army Corps of Engineers take such necessary actions so that construction of the reservoir in McCook (McCook C.U.P. Staged Reservoir Project) would be initiated in fiscal year 1994; and

WHEREAS, For each year that the Chicago metropolitan area does not have the flood relief that will be provided by the reservoir project, an estimated 61 Million Dollars in flood damage will be caused to homes; and

WHEREAS, Any delay in the project may jeopardize federal participation in and support for the reservoir projects; now, therefore,

*Be It Resolved*, That the Mayor and members of the City Council of the City of Chicago do hereby memorialize the United States Congress, the U. S. Army Corps of Engineers, the State Legislature, the Illinois Department of Transportation and the Villages of Hodgkins, Countryside and McCook to support the McCook C.U.P. Staged Reservoir Project to alleviate the flooding problems in the Chicagoland area; and

*Be It Further Resolved*, That suitable copies of this resolution be prepared for presentation to the appropriate governmental units and agencies.

*Nays* -- None.

Alderman Natarus moved to reconsider the foregoing vote. The motion was lost.

The following is said ordinance as passed:

*Be It Ordained by the City Council of the City of Chicago:*

SECTION 1. Title 13 of the Municipal Code of Chicago is hereby amended by adding a new Chapter 13-11 as follows:

*Chapter 13-11. Vacant, Abandoned And Deteriorating Buildings.*

*13-11-010*

*The City Council of the City of Chicago finds, after due investigation:*

*(1) that some owners of large commercial, industrial and residential buildings which are or are about to become vacant, in order to avoid the costs of repairing, enclosing or demolishing such buildings, transfer title to not-for-profit organizations or other entities, or sell the structures for less than their appraised value to persons without the financial resources to maintain, repair or demolish such buildings; and*

(2) *that in such instances the buildings deteriorate and become public nuisances, threats to public safety and welfare and causes of neighborhood deterioration; and*

(3) *that the costs of enclosing and demolishing such buildings often become, by default, the responsibility of the city, causing taxpayers to bear the costs of remedial action. Accordingly, it is the purpose of this chapter to assure that owners of such buildings cannot evade their legal responsibilities by transferring title to persons who do not have the resources to maintain or demolish such buildings.*

13-11-020

*When used in this chapter, unless the context requires otherwise:*

*"Category A building" shall mean any structure having, by itself or when combined with all other structures on the parcel of property, an enclosed area of over 500,000 cubic feet, that is primarily devoted to institutional, assembly, business, manufacturing, mercantile, industrial, storage, hazardous or miscellaneous use, or any structure primarily devoted to residential use if the structure contains 24 or more residential units.*

*"Category A property" shall mean property on which is situated a Category A building and the building itself, whether or not the building is owned by a person who owns the land on which the building is situated.*

*"Committee" means the Large Building Transfer Review Committee.*

*"Demolition costs" shall mean a reasonable estimate of the costs to demolish a Category A building as determined by the building department or as submitted by a licensed contractor whose primary business involves the demolition of buildings or, in the event the building is demolished, the actual cost of such demolition.*

*"Owner" shall mean the legal title holder or holders of Category A property, except if legal title is held by an Illinois land trust, "owner" shall mean the beneficial owner or owners of the trust. If a Category A building is owned by a person who does not own the land upon which the building is situated, "owner" shall also mean the owner or beneficial owner of the building.*

*"Real Estate Entity" shall mean any person, including but not limited to any partnership, corporation, trust, or single or multi-tiered entity, that exists or acts substantially for the purpose of receiving rental income.*

*from, or holding directly or indirectly title to or beneficial interest in real property upon which a Category A building is situated, whether for personal use, the production of rental income, or investment. It shall be presumed, unless proved otherwise, that an entity is a real estate entity if it owns directly or indirectly real property located in the city having a fair market value greater than 75% of the total fair market value of all of the entity's assets (determined without deduction for any mortgage, lien or encumbrance).*

*"Transfer" shall mean any conveyance or other transfer of an interest in Category A property on or after the effective date of this chapter by:*

- (1) deed or other instrument of conveyance; or*
- (2) assignment of a total of more than 50% of the beneficial interest in a land trust over a period of three years or less; or*
- (3) instrument of transfer from the owner or beneficial owner of a real estate entity.*

*However, "transfer" shall not include conveyances made by:*

- (1) tax deed; or*
- (2) deed of partition; or*
- (3) deed or trust document issued pursuant to a foreclosure or transfer in lieu of foreclosure or transfer otherwise to enforce a security interest; or*
- (4) deed or other instrument of transfer to secure a debt or other obligation; or*
- (5) deed or other instruments of transfer that is a release of property that is security for a debt or other obligation.*

*"Vacant Category A building" shall mean a Category A building that has remained substantially unoccupied by persons legally entitled to occupy the building, or at which substantially all lawful business operations have ceased, for at least three months.*

*"Vacant and open" refers to a vacant Category A building that has a significant portion of its doors or windows missing or unsecured.*

13-11-030

*Any owner of Category A property that has situated on it or consists of a vacant Category A building must notify the commissioner of such fact by certified mail within 30 days after the building becomes vacant, or within 30 days after the effective date of this ordinance, whichever is later. The notice shall identify the property and the contemplated use, if any, of the property, and shall provide the name and address of the owner or other person who is authorized to receive notices on behalf of the owner pursuant to this section. If at any time after making an inspection of the property the commissioner determines that the building is vacant and open, the commissioner shall notify the owner that the building must be enclosed, or substantial action must be taken to demolish the building, within 30 days after the date of the notice. The notice shall also state that if the owner fails to take either such action within the 30 day period the owner will be required to post a surety bond or other financial security or insurance as provided in this section. If, at the expiration of the 30 day period, the commissioner determines that the building has not been enclosed, or that substantial action has not been undertaken to demolish the building, the commissioner shall order the owner to post with the city and continuously maintain a surety bond or other financial security or insurance, in an amount equal to the estimated demolition costs, and in a form and duration approved by the commissioner. The commissioner shall also order the owner to post and maintain such security if such action to demolish the building has not been completed within a reasonable time. The order shall be accompanied by a written statement by the commissioner setting forth the basis for his or her determination.*

13-11-040

*Every owner shall notify the building commissioner by certified mail no less than 60 days before transferring any Category A property if:*

- (1) the property will be donated or otherwise transferred without consideration to a not-for-profit organization or to any other person; or*
- (2) the property will be sold for less than 50% of its most recently ascertainable estimated market value as determined by the assessor for real estate taxation purposes or, if the assessor has not made such a determination, its reasonably estimated fair cash market value; or*
- (3) more than 50% of the purchase price will be financed, directly or indirectly, by the owner by loan or installment contract; or*
- (4) the property has situated thereon or consists of a vacant Category A building; or*

*(5) the property will be sold for more than 50%, but less than 80%, of its most recently ascertainable estimated market value as determined by the assessor for real estate taxation purposes or, if the assessor has not made such a determination, its reasonably estimated fair cash market value.*

*Such notice shall identify the property, the proposed transferee, the proposed date of the transfer and the purchase price. The commissioner may within 14 days after receiving the notice request from the proposed transferee such documentation as may be necessary for the commissioner to determine whether the proposed transferee has the financial resources to repair, maintain, enclose or demolish the Category A building. Such documentation must be given within seven days of the request. If the commissioner determines that the proposed transferee does not have the financial resources to repair, maintain, enclose or demolish the Category A building and that there is a significant likelihood that the Category A building is likely to deteriorate substantially or require demolition within five years, the commissioner shall order the building owner or the transferee to post with the city and continuously maintain a surety bond or other financial security or insurance, in an amount equal to the estimated demolition costs, and in a form and duration approved by the commissioner. Any such order shall be accompanied by a written statement by the commissioner setting forth the basis for his or her determination. Any order issued by the commissioner pursuant to this section shall be made no later than 30 days after receipt of notice of the proposed transfer, or 30 days after receipt of all information requested by the commissioner and the Large Building Transfer Review Committee, whichever occurs later. Factors that the commissioner may consider when determining whether a building is likely to deteriorate substantially or require demolition within five years include, but are not limited to: the physical condition of the building, the present degree of the deterioration of the building, the proposed use of the building and the lack of plan to reoccupy the building.*

*An owner may request that the commissioner conduct an expedited review of the proposed transfer. The request shall be submitted as part of the notice, shall be in writing, and shall suggest a time period for the completion of the review. The commissioner shall make reasonable efforts to accommodate such a request.*

*Notwithstanding any other provision of this section to the contrary, whenever any owner is required to notify the commissioner under this section solely because the property to be transferred falls within the description set forth in paragraph (4) or (5) of this section or the descriptions in both paragraphs, the owner may, at the time initial notification is made, submit to the commissioner proof that the reasonably estimated value of the property, as determined by a competent appraiser, exceeds the reasonably estimated costs of demolishing the Category A building or buildings, as determined by a licensed contractor whose*

*primary business involves the demolition of buildings. If the commissioner determines that such proof is satisfactory, no further documentation, and no security or insurance, shall be required under this chapter.*

*13-11-050*

*(a) There is hereby created the Large Building Transfer Review Committee, which shall consist of no fewer than five members appointed by the Mayor. Members of the Committee shall have experience and expertise in the areas of real estate development or finance, or building design, construction, repair or finance. Members of the Committee shall serve a three year term or until their successors are appointed and qualified. Members shall serve without compensation. Three members of the Committee shall constitute a quorum. The affirmative vote of a majority of those members present and voting shall be necessary for any action of the Committee.*

The best of friends must sometimes part  
And yet we do not see,  
The hand of God writing still  
From eternity;

From us it is trying to understand  
That our friends must go,  
But in the final resurrection  
All of us will know;

In our parting there is a blessing  
That we do not see,  
The ones that leave us here  
Are better off than we

; and

On motion of Alderman Stone, the said proposed ordinance was *Passed* by yeas and nays as follows:

*Yeas* -- Aldermen Mazola, Haithcock, Tillman, Preckwinkle, Bloom, Steele, Beavers, Dixon, Shaw, Buchanan, Huels, Fary, Madrzyk, Burke, Jones, Coleman, Streeter, Murphy, Troutman, Evans, Munoz, Laski, Medrano, Ocasio, Watson, E. Smith, Burrell, Bialczak, Suarez, Mell, Austin, Wojcik, Giles, Allen, Laurino, O'Connor, Natarus, Eisendrath, Levar, Shiller, Schulter, M. Smith, Moore, Stone -- 44.

*Nays* -- None.

Alderman Natarus moved to reconsider the foregoing vote. The motion was lost.

The following is said ordinance as passed:

WHEREAS, The Reminiscent Bar & Grill, on behalf of William R. Finkler, General Manager, as licensee, filed on February 1, 1993, an

application for an exception pursuant to Article 11.7A-3 of the Chicago Zoning Ordinance for the approval of the change of licensee and continued operation of an existing tavern in a two-story building, in an R4 General Residence District, on premises at 3614 North Damen Avenue; and

WHEREAS, The decision of the Office of the Zoning Administrator rendered February 1, 1993, reads:

"Application not approved. Requested certification does not conform with the applicable provisions of the Chicago Zoning Ordinance, Chapter 194A of the Municipal Code of Chicago, specifically, Article 7.3-4, 11.7A-1."

; and

WHEREAS, The district maps show that the premises is located in an R4 General Residence District; and

WHEREAS, The Zoning Administrator, having fully reviewed all information and being fully advised of the premises, hereby makes the following findings of fact: the said use is located in an R4 General Residence District; that the subject site is improved with a two-story building containing an existing tavern; that on July 12, 1990, the City Council passed an ordinance requiring an exception for the approval of the change of licensee of an existing tavern located in a residence district; that the existing tavern is to be operated under a new license; that the majority of the tavern patrons come from the local neighborhood and that the continued operation of the tavern at this location is necessary for the public convenience; that the applicant, as the new licensee, proposes to operate the tavern in such a manner to insure that the public health, safety and welfare will be adequately protected; and that the continued operation of the existing tavern will not cause substantial injury to the value of other property in the neighborhood; now, therefore,

*Be It Resolved*, That the application for an exception is approved for the change of licensee and continued operation of an existing tavern in a two-story building, on premises at 3614 North Damen Avenue, and that all applicable ordinances of the City of Chicago shall be complied with before a license is issued; and

*Be It Further Resolved*, That the granting of this exception shall run only with the applicant, Reminiscent Bar & Grill, on behalf of William R. Finkler, General Manager, as licensee, and that a change of license shall terminate the exception granted herein; and

*Be It Further Resolved*, That the tavern in the subject building is, and shall continue to be, subject to all applicable provisions of Article 6 of the Zoning Ordinance.

Any service drive or other ingress or egress shall be adequately designed and paved, in accordance with the regulations of the Department of Transportation in effect at the time of construction and in compliance with the Municipal Code of the City of Chicago, to provide ingress and egress for motor vehicles, including emergency vehicles. There shall be no parking within such paved areas. Ingress and egress shall be subject to the review and approval of the

Bureau of Traffic Engineering and Operations and of the Commissioner of Planning and Development.

10. In addition to the maximum heights of the buildings and any appurtenance attached thereto prescribed in this Planned Development, the height of the improvements and any appurtenance attached thereto also shall be subject to:
  - (A) Height limitations as certified and approved by the Federal Aviation Administration; and
  - (B) Airport Zoning Regulations as established by the Department of Planning, Department of Aviation and Department of Law and approved by the City Council.
11. This Planned Development shall be subject to the "Rules, Regulations and Procedures in Relation to Planned Development Amendments" as promulgated by the Commissioner of the Department of Planning and Development and in effect on the date hereof.
12. For purposes of Floor Area Ratio (F.A.R.) calculations, the definitions in the Chicago Zoning Ordinance shall apply; provided, however, that in addition to the other exclusions from floor area for purposes of determining F.A.R. permitted by the Chicago Zoning Ordinance, all floor area devoted to mechanical equipment in excess of 5,000 square feet in a single location, regardless of placement in the building, shall be excluded.
13. The improvements on the Property, including the on-site exterior landscaping and the landscaping along the adjacent rights-of-way and all entrances and exits to and from the parking and loading areas, shall be designed, constructed and maintained in substantial conformance with the Site Plan, the Elevations and the Massing Diagram. In addition, the improvements on the Property shall be subject to the following regulations:
  - A) Landscaping.

Parkway trees shall be installed and maintained in accordance with the parkway tree planting provisions of the Chicago Zoning Ordinance.

B) Modification And Maintenance Of Facade.

The East Lake Shore Drive facade of the existing Mayfair Hotel building which has been designated a Chicago landmark shall be modified and maintained in accordance with approvals received from the Commission on Chicago Landmarks.

C) Public Improvements.

Upon the issuance of a certificate of occupancy for the development authorized under this Planned Development, the Applicant shall file plans for the rehabilitation and improvement of the pedestrian passageway to Oak Street Beach located immediately east of the access ramps to Lake Shore Drive from North Michigan Avenue and lying below Lake Shore Drive and for the installation of decorative street lights along the south side of East Lake Shore Drive between the east line of North Michigan Avenue and the west line of Lake Shore Drive (the "Public Improvements"). The Public Improvements shall be undertaken by the Applicant in accordance with plans, specifications and cost estimates approved by the Department of Planning and Development. Provided, however, that: 1) the City of Chicago may, at its option, undertake such improvements; and 2) in no event shall the Applicant be required to pay for any Public Improvements, the cumulative cost of which exceeds \$125,000. If the City of Chicago notifies the Applicant in writing that it will undertake the construction of the Public Improvements, then, upon the issuance of a Certificate of Occupancy for the development authorized under this Planned Development, the Applicant shall deposit in an account designated by the Department of Planning and Development the maximum sum which it is required to expend on the Public Improvements under this provision.

D) Rosenbaum Garden.

In the event that it is alleged by either the Chicago Park District or its permittee, the Paul and Gabriela Rosenbaum Foundation, that construction of the development authorized under this Planned Development (the "Development") has caused damage to the plantings in the garden located immediately north of East Lake Shore Drive and east of North Michigan Avenue (the "Rosenbaum Garden"), then the issue shall be submitted to a three person arbitration

panel. One member of the arbitration panel shall be selected by the entity making the allegation (i.e., either the Chicago Park District or the Paul and Gabriela Rosenbaum Foundation). A second member of the arbitration panel shall be selected by the Applicant. The third member of the arbitration panel shall be selected by the other two members of the arbitration panel. The decisions of the arbitration panel shall be binding on all parties thereto and on the City of Chicago and the Chicago Park District. The costs of having the matter submitted to arbitration shall be borne equally by the parties thereto. If the arbitration panel decides that the Development has caused damage to the plantings in the Rosenbaum Garden, then the Applicant shall pay for the cost of making modifications to the garden that the arbitration panel determines would mitigate future damage to the plantings therein. This provision shall apply only to damages to the plantings in the Rosenbaum Garden that are alleged to have been caused by the Development after its construction and before the fifth anniversary of the issuance of a Certificate of Occupancy therefor. In addition, the Applicant shall create a video record of the Rosenbaum Garden in its current condition by recording its conditions during one day during each season for the year following the effective date of this Planned Development.

14. The terms, conditions and exhibits of this Planned Development may be modified administratively by the Commissioner of the Department of Planning and Development upon the request of the Applicant and after a determination by the Commissioner that such a modification is minor, appropriate and consistent with the nature of the development of the Property contemplated herein and will not result in increasing the maximum floor area ratio for the total net site area or the maximum number of dwelling units for the total net

site area established in this Planned Development. Any such modification shall be deemed a minor change in the Planned Development as contemplated by Section 11.11-3(c) of the Chicago Zoning Ordinance. Notwithstanding the provisions of subclauses (4) and (5) of Section 11.11-3(c) of the Chicago Zoning Ordinance, such minor changes may include a reduction in the minimum required distance between structures, a reduction in periphery setbacks or an increase in the maximum percent of land coverage.

15. The Applicant acknowledges that it is in the public interest to design, construct and maintain all buildings in a manner which promotes and maximizes the conservation of energy resources. The Applicant shall use best and reasonable efforts to design, construct and maintain all buildings located within this Planned Development in an energy efficient manner, generally consistent with the most current energy efficiency standards published by the American Society of Heating, Refrigeration and Air-Conditioning Engineers ("A.S.H.R.A.E.") and the Illuminating Engineering Society ("I.E.S.").
16. If any court of competent jurisdiction shall adjudge any provision of this Planned Development to be invalid, such judgment shall not affect any other provision of this Planned Development not specifically included in said judgment.
17. Unless substantial construction of the improvements contemplated by this Planned Development (which may be defined to include commencement of only caisson work) has commenced by the later of: 1) the second anniversary of the effective date hereof; or 2) the second anniversary of the date on which a court of competent jurisdiction has issued a final decision on any litigation which is filed on or before the second anniversary of the effective date of this Planned Development and the subject matter of which are the approvals required for the construction of the improvements contemplated herein, and unless completion of those improvements is diligently pursued, then this Planned Development shall expire. Provided, however, that the time periods for commencement of substantial construction may be extended by the Commissioner of the Department of Planning and Development for a maximum of three additional consecutive one year periods upon the receipt by the Commissioner prior to the expiration of the initial two-year period or any extensions thereof of the Applicant's written request for an extension of time. The Commissioner shall grant such requested extensions if the written request therefor contains a statement, sworn under oath, specifically stating: 1) that the reasons the commencement of substantial construction as aforesaid is delayed are reasons or circumstances beyond the reasonable control of the

Applicant and its affiliates; 2) the specific cause or causes of such delay; and 3) that the Applicant and its affiliates and agents have not taken any action or failed to take any action which could reasonably have resulted in such delay. If this Planned Development expires under the provisions of this Statement, then the zoning of the Property shall automatically revert to a B6-6 Restricted Central Business District.
