Rules Suspended -- TRIBUTE TO LATE MR. CESAR CHAVEZ.

Alderman Medrano moved to *Suspend the Rules Temporarily* for the purpose of going out of the regular order of business for the immediate consideration of and action upon a proposed resolution. The motion *Prevailed*.

The following is said proposed resolution presented by Aldermen Medrano, Munoz, Ocasio and Suarez:

WHEREAS, God in his infinite wisdom has called to his eternal reward Cesar Chavez, who rose from an agricultural valley in Arizona to found America's first successful union of farm workers, April 23, 1993; and

WHEREAS, Cesar Chavez rose to prominence in the 1960s. First leading an initially lonely battle to unionize the workers in the fields and orchards of

California, he called a boycott of grapes which ultimately attracted nationwide attention and focused on the unfair situation of migrant workers; and

WHEREAS, So successful was the grape boycott, that growers and shippers who for generations had defeated unionization efforts suddenly realized the strength and solidity of this formerly "invisible" group, and unionization of migrant workers -- most of them Mexican-Americans -- took place in 1965. Cesar Chavez thus gave face, then stability and security, to thousands of workers and became a symbol of strength and leadership for Mexican-Americans; and

WHEREAS, Cesar Chavez remained an active force throughout his life. He reached a 1977 agreement with the Teamsters that the United Farm Workers would organize farm workers, and the Teamsters would represent cannery workers. He started another grape boycott in 1984 which remains in effect to this day, and in 1986 he called for the abolition of five pesticides which he found harmful to workers; and

WHEREAS, The influence and example of Cesar Chavez have extended to urban Mexican-Americans as well, and he will remain an inspiration to many long after his death; and

WHEREAS, Cesar Chavez leaves to mourn his wife, Helen; eight children; and untold thousands who benefit from his legacy; now, therefore,

Be It Resolved, That we, the Mayor and members of the City Council of the City of Chicago, gathered here this nineteenth day of May, 1993, A.D., do hereby express our sorrow on the death of Cesar Chavez, and extend to his family, friends and thousands of followers our deepest sympathy; and

Be It Further Resolved, That suitable copies of this resolution be prepared and presented to the family of Cesar Chavez and the United Farm Workers of America.

On motion of Alderman Medrano, seconded by Aldermen Preckwinkle, Munoz, Ocasio, Watson and Mell, the foregoing proposed resolution was *Adopted* by a rising vote.

At this point in the proceedings, The Honorable Richard M. Daley, Mayor, rose to recall that as the State's Attorney for Cook County, he had the opportunity to meet Cesar Chavez and immediately found him to be a very special person. The Mayor stated that as a passionate advocate for human rights, not only in the United States but throughout the world, Cesar Chavez would be sorely missed.

WHEREAS, Susan Devaney was known for her unfailing generosity to her family, friends and neighbors, and never forgot a birthday, graduation or special occasion; and

WHEREAS, Susan Devaney's strength of character, kindness and humor touched the lives of all those around her, and she will be dearly missed; now, therefore,

Be It Resolved, That we, the Mayor and members of the City Council of the City of Chicago, assembled this nineteenth day of May, 1993, do hereby commemorate the life and many contributions of Susan C. Devaney, and do hereby extend our sincere condolences to her family; and

Provider agrees to bring any federal or state legal proceedings arising under this Agreement in which First Health is a party in a court of competent jurisdiction within the State of Illinois. This section shall not be construed to limit any rights a party may have to intervene in any action, in any court or wherever pending, in which the other is a party.
- 16.2 The unenforceability of any clause or particular in this Agreement shall in no way affect enforceability of any other clause or particular or this Agreement as a whole.

The approval by First Health of assignment or subcontracting in any one instance shall not constitute approval of any other assignment or subcontracting.

- 16.7 The relationship of Provider to First Health is that of independent contractor only. Nothing contained in this Agreement shall be deemed or construed to create any partnership, joint venture or other relationship between First Health and Provider, nor shall any of their respective employees be construed or deemed to be agents, employees or representatives of the other.

The time study will account for all activities of staff assigned to deliver direct case management services, and the allocation of indirect and administrative costs. Provider shall submit the time study to First Health using a special time sheet and employee survey to be completed by Provider's employees. From this information a report will be prepared by Provider using manual time records and other time accounting systems. The time study will include Case Managers, other direct program staff, and administrative and management staff. They will record all their time by program or indirect cost center and activity within the program following procedures specified by First Health, I.D.P.A. and approved by Health Care Finance Administration (H.C.F.A.). 2. For I.D.P.A. cases, case management agencies shall make attempts to contact all (100%) cases assigned to them not less than three times. In the event that more than 20% of the families assigned to the case management agencies are not able to be contacted, the Provider shall be required to document the reasons for such a failure and implement a plan of correction in conjunction with First Health, as appropriate, to reduce this failure rate. Provider agrees to contact at least 95% of all cases within thirty days of enrollment, document such attempts and to repeat attempts on a quarterly basis.

4. At least 75% of all assigned and successfully contacted cases with pregnant women and families with infants and 25% of all assigned and successfully contacted cases with eligible children from age one year through age five, will receive the required home visits and follow-up case management as indicated in their care plans.

These penalties will be assessed and recovered through adjustments to provider advance payments under (Sub)Exhibit B-(1).

- (P) Grievances: Provider shall develop a grievance procedure for disagreements between the case manager and members of the family. Said procedure shall guarantee at least two levels of appeal, or for small agencies, an appeal to the Chief Executive of the Provider. (Sub)Exhibit "B-(1)".

- (1) Case Management Service Payment Procedures: The system of payment for case management services shall be one of prospective payments subject to later adjustment downward, and repayment to First Health as necessary, on the basis of allowable costs actually incurred. Paragraph (A) sets forth procedures for prospective payment. Paragraph (B) sets forth limits on the payment of I.D.P.H. funds. Paragraph (C) sets forth procedures for review of allowable costs and repayment to First Health as necessary. Paragraph (D) sets forth limitations on First Health's payment obligations.
- (A) Prospective payments to Provider shall be made according to the following procedures:
1. First Health shall pay Provider a prospective rate for case management services at the following rates: (a) \$315 per case per year payable monthly at \$26.25 per case management month for cases including a pregnant woman or infant up to the age of twelve months; or (b) \$201 per case per year payable monthly at \$16.75 per case management month for cases having a child up to the age of six (but not covered under (a) above). For cases enrolled for a partial month, the monthly rates will be prorated on a daily basis.
 2. Provider will be paid for services based upon a case management month prorated for partial months by the case management days delivered in the month.

For the purposes of this agreement, a "case management month" shall mean a full calendar month in which an eligible case is open and under management by the Provider as outlined in the Provider Manual and (Sub)Exhibit A-(1), Section (E) of this agreement. A "case management day" shall mean a calendar day during which an eligible case is open and being case managed by Provider. A case will be open from the day of assignment to the day of transfer, case closure, ineligibility of the case or termination of Provider.

3. Payment procedures: Provider shall be paid by First Health, with funds advanced by I.D.P.A. and I.D.P.H., using prospective payments for case management services in the Healthy Moms/Healthy Kids Managed Care Program. A reconciliation of these advances with actual enrollment will be performed on a monthly basis.
 - A. In April 1993, First Health shall transmit the funds outlined in Section B-(1)(A)3.D below to Provider as advance payment for services for the month of April, 1993. These funds shall be paid within five (5) days of receipt of payment for the case management service component from I.D.P.A. and I.D.P.H..
 - B. On or before the fifth day of each calendar month during the term of this agreement, beginning in May, 1993, Provider shall submit to First Health a Certification of Services Delivered in the form provided by First Health certifying that all cases appearing in C.M.I.T.S., or otherwise reported to First Health, as cases under management by the Provider during the month just ended were in fact under management by the Provider in compliance with the terms of this agreement for the periods indicated.
 - C. Beginning with May, 1993, subject to the minimum monthly payment terms of Subparagraph D below, First Health will make prospective payments for services to Provider within five (5) days of receipt of payment for the case management service

component from I.D.P.A. and I.D.P.H., calculated as: the product of the number of case management months of services provided by Provider during the immediately preceding month multiplied by the applicable rate per case management month as set forth above (the "Earned Payment") increased by any excess of the Earned Payment over the advance payment for said month or decreased by any excess of such advance payment over the Earned Payment for said month.

- D. Notwithstanding the foregoing, and pursuant to projected enrollment levels or grandfathering provisions in the R.F.P. and as later modified by First Health, the minimum monthly payments to be paid by First Health to Provider (provided that Provider is in compliance with its obligations under the Provider Services Agreement) for the month of June, 1993, shall be as follows:

June, 1993 -- \$68,890.00

This minimum monthly payment shall be reconciled with the allowable costs of the Provider as noted below. First Health, after consultation with Provider and with approval of I.D.P.A. and I.D.P.H., may agree to pay Provider minimum amounts for any or all of the subsequent months of the implementation period of this contract, July -- December, 1993 (provided that Provider is in compliance with its obligations under the Provider Services Agreement). In the event that the actual enrollment of the Provider would result, pursuant to Subparagraph C above, in the payment of the Provider in a sum that exceeds the minimum monthly payment, then First Health shall pay the higher amount. In the event that enrollment for Provider is not matching projections, First Health shall modify or eliminate the minimum monthly payment.

- E. All minimum amounts shall be paid at the time advances are due under Subparagraphs 3.A and C above.
- F. Expenditures by Provider shall conform to a budget, in a form specified by First Health, submitted by Provider to First Health by April 15, 1993 and approved by First Health.

- (B) The maximum obligation for funds to be provided under this agreement for I.D.P.H. eligible cases shall not exceed:

\$55,740.00 for the first three months without the express written approval of First Health. This shall be computed as the proportion of case management days for I.D.P.H. eligible cases of the total number of case management provided by Provider. This proportion shall be applied to the monthly amounts paid during this period. First Health shall also establish an I.D.P.H. maximum obligation for the balance of the contract period prior to July 1, 1994. This maximum shall be applied using the same method as outlined above for the first three months. I.D.P.H. eligible cases that are unable to receive case management services due to the lack of available funds within the maximum obligation specified above shall be placed on a waiting list with the Provider. This waiting list shall be reported to First Health on a monthly basis. In the event that I.D.P.H. funds should not continue to be available, First Health reserves the right to limit I.D.P.H. reimbursement for all case management providers to a level below the maximum obligation by providing written notice to Provider.

- (C) Cost Reconciliation: The Provider must demonstrate, through its required financial expenditure reports, that the I.D.P.A. and I.D.P.H. payments do not exceed the Provider's allowable costs in performing the case management functions authorized by I.D.P.A., I.D.P.H. and First Health. Should the Provider incur allowable costs (pursuant to the M.C.H. Services Code, the Provider's approved budget, and O.M.B. Circular A-133) that are in the aggregate less than the I.D.P.A. and I.D.P.H. payments, I.D.P.A., I.D.P.H. and First Health may recoup the overpayment by setoff, crediting against future payments or by requiring direct repayment to I.D.P.A. or I.D.P.H. through First Health. In no event shall Provider be entitled to any upward adjustment, in light of costs incurred, of payments made pursuant to Paragraph (A) above.

1. During the initial months of this agreement, when Provider is receiving minimum monthly payments, these amounts shall be adjusted downward by the difference between the actual allowable costs of services reported by Provider to First Health and the minimum payment indicated above. Expenditure reports (see (Sub)Exhibit A-(1)(M)2), in a form to be determined by First Health, shall be filed by Provider by the tenth day (or the next workday) of each month in which Provider has received minimum monthly payments. Reconciliations shall be performed by First Health on a monthly basis and adjusted against the next payment to Provider.
 2. Once the provider has moved to a unit rate of reimbursement, quarterly expenditure reports shall be filed by the tenth of the month following the end of the quarter. Reconciliation shall be performed by First Health for each quarter and adjusted against the next payment to Provider.
 3. Based upon a review of the annual audit, First Health shall notify Provider of any additional information that may be required to reconcile the audit with the cost reports filed by Provider and any payments that may be due to First Health from Provider.
- (D) Notwithstanding the foregoing, and as provided in the H.M./H.K. Standard Terms and Conditions, First Health shall be liable to Provider for payment only if, when and to the extent First Health has received payment from I.D.P.A. and I.D.P.H.. In no event shall Provider be entitled to receive, for any given payment period or in the aggregate for this agreement, any amounts in excess of amounts allowed by I.D.P.A. and I.D.P.H., and received by First Health, for payment to Provider, whether as prospective payments or as adjusted payments following cost reconciliation. Healthy Moms/Healthy Kids Services Agreement

First Amendment.

Reference is made to a Healthy Moms/Healthy Kids Services Agreement (the "Agreement") entered into by and between First Health Services Corporation ("First Health") and Chicago Department of Health (the "Provider") effective as of April 1, 1993:

50 West Washington Street
Chicago, Illinois 60602.

Pursuant to Section 10 of the H.M./H.K. Standard Terms and Conditions forming a part of the Agreement, First Health hereby notifies the Provider that the Agreement is amended effective as of April 1, 1993, as follows:

- XXXI. In (Sub)Exhibit A-(1), Section (1)(M) 2 to the Agreement, references in the first and second sentences to "ten (10) days" are changed to "twenty (20) days".
- XXXII. In (Sub)Exhibit A-(2), Section (2)(E) to the Agreement, if made a part of this Agreement, reference to "ten (10) days" is changed to "twenty (20) days".
- XXXIII. In (Sub)Exhibit B-(1), Section (1)(B) to the Agreement, the second sentence is amended to read as follows:

This shall be computed as the proportion of case management days for I.D.P.H. eligible cases of the total number of case management days provided by Provider as a part of the Healthy Moms/Healthy Kids Program.

- XXXIV. (Sub)Exhibit B-(1) to the Agreement is amended by the insertion of the following sentence at the end of Subsection (1)(A)3-F:

In no event shall allowable administrative costs exceed 15%.

XXXV. (Sub)Exhibit B-(1) Section (1)(C) to the Agreement, through Subparagraph 2, is amended to read as follows:

(C) Cost Reconciliation: The Provider must demonstrate, through its required financial expenditure reports, that the I.D.P.A. and I.D.P.H. payments do not exceed the Provider's allowable costs in performing the case management functions authorized by I.D.P.A., I.D.P.H. and First Health. Should the Provider incur allowable costs (pursuant to the M.C.H. Services Code, the Provider's approved budget, and standards for Federal Financial Participation established by the Health Care Finance Administration) that are in the aggregate less than the I.D.P.A. and I.D.P.H. payments, I.D.P.A., I.D.P.H. and First Health may recoup the overpayment by setoff, crediting against future payments or by requiring direct repayment to I.D.P.A. or I.D.P.H. through First Health. In no event shall Provider be entitled to any upward adjustment, in light of costs incurred, of payments made pursuant to Paragraph (A) above.

1. Expenditure reports (see (Sub)Exhibit A-(1)(M)2), in a form to be determined by First Health, shall be filed by Provider by the twentieth (20th) day (or next workday) following the end of each month in which Provider has received minimum monthly payments. If expenditure reports or audits demonstrate that allowable costs are significantly below the minimum monthly payments, First Health, after consultation with the Provider, may modify or eliminate the minimum monthly payment. A reconciliation shall be performed by First Health in July, 1993 for the period from April 1, 1993 through June 30, 1993, and in January, 1994 for the period July 1, 1993 through December 31, 1993, and any excess of payments over allowable costs for either of those periods may be adjusted against subsequent payments to Provider.
2. Once the Provider has moved to a unit rate of reimbursement, quarterly expenditure reports shall be filed by the twentieth (20th) of the month following the end of the quarter. Reconciliation shall

be performed by First Health in July, 1994, for the period of January 1, 1994 through June 30, 1994 and upon notice from First Health, Provider shall repay First Health any excess funds advanced to Provider.

XXXVI. (Sub)Exhibit B-(2) if made a part of this Agreement, is amended by the insertion of the following sentence after the first sentence in Subparagraph (2)(A)2:

In no event shall allowable administrative costs exceed 15%.

Parcels as stated above.

(c) Acceptance. The City shall not be obligated to accept any offer of dedication until the City has inspected and approved the Work, if any, and the applicable Dedication Parcels and Improvements. M.P.E.A. shall grant no other easements for utilities or other purposes which are or will be superior rights to the easements or licenses to be granted and conveyed to the City pursuant to this subsection, without the City's approval. The parties shall execute and record an instrument of conveyance and grant of easement or license with the Cook County Recorder of Deeds memorializing the transaction.

(c) Funding Of City Improvements.

(1) Representations and Warranties. The parties acknowledge that the City has entered into its obligations under this Article III contingent upon the M.P.E.A.'s agreement to pay or reimburse all Direct Costs up to an amount not to exceed the Committed Funds. M.P.E.A. agrees to use a portion of the Bond Fund, up to the amount of the Committed Funds, to pay for or reimburse the City and its Contractors for the portion of the Direct Costs not paid or reimbursed using City Funds. Accordingly, M.P.E.A. hereby represents and warrants to City that the City Improvements as described in (Sub)Exhibit B are "appropriate on account of the expansion of the Authority's grounds, buildings, and facilities at Site B" as provided in the M.P.E.A. Act and may be paid for or reimbursed using the Committed Funds in accordance with the Bond Limitations.

The M.P.E.A. and the City have identified \$107,000,000 in the Bond Fund to pay for the Stevenson Ramp Project and to pay for or reimburse the Direct Costs as provided in this Agreement. The M.P.E.A. and the City agree that the portion of such amount allocated for the Direct Costs shall be the Committed Funds.

In addition, the City agrees to utilize, to the extent permitted by Law, the City Funds to pay for and reimburse itself and its Contractors for Direct Costs of City Improvements.

(2) Bond Fund Subaccount; Accounting. Within seven (7) days of the Execution Date, M.P.E.A. shall cause the Trustee to create on its books and records a subaccount of the Bond Fund ("Subaccount") to be available and, subject to the Indenture, used solely for the payment or reimbursement of the Direct Costs in accordance with this Agreement, and M.P.E.A. shall cause the Trustee to credit \$89,205,000 to such Subaccount. Subject to the Indenture, M.P.E.A. shall take no action which would alter or adversely affect the Subaccount or the amount of the Committed Funds without the approval of the City; provided, however, that interest and investment income generated by the Committed Funds shall not be compounded or credited to the Committed Funds. On a monthly basis, M.P.E.A. shall cause the Trustee to provide the City with a statement identifying the balance of the Subaccount for the prior month. If the M.P.E.A. otherwise receives an annual audited statement itemizing activity relating to the Bond Fund including the Subaccount for the prior year, it shall promptly provide the City with a copy of such statement including the portions relating to

disbursements made from the Subaccount, and the balance of the Bond Fund.

(3) Draw Requests, Certifications and Disbursements. The City shall submit monthly Draw Requests for Direct Costs in the form set forth in (Sub)Exhibit H which is attached and incorporated. Upon submission of a Draw Request, the M.P.E.A. shall verify that it is in complete form and if incomplete promptly remit such Draw Request to the City for correction and resubmission. If the City submits a completed Draw Request by the 20th day of each month, the M.P.E.A. shall include the amount requested therein in the M.P.E.A.'s disbursement request to the Trustee for that month. If the City submits a completed Draw Request subsequent to the 20th day of any month, the M.P.E.A. shall include the amount requested therein in the M.P.E.A.'s disbursement request to the Trustee for the following month. The M.P.E.A. shall cause the Trustee to pay to the City's Contractor or reimburse the City the requested amount from the Subaccount by check or wire transfer by the 25th day of the following month.

In the event that (a) the City incurs Direct Costs in completing any portion of the City Improvements and submits Draw Requests pursuant to this Agreement; and (b) M.P.E.A. is unable or unwilling to cause the Trustee to pay or reimburse such Direct Costs in accordance with this Agreement, then M.P.E.A. shall pay for or reimburse such Direct Costs from its other funds. This obligation shall be limited to the amount of the Committed Funds, and shall be a general obligation enforceable against the M.P.E.A..

The Committed Funds shall be reduced by such amounts paid or reimbursed from the Subaccount or from M.P.E.A.'s other funds as provided in this Section 3.1(c)(3).

In the event that either M.P.E.A. or the City anticipates that the total of the Direct Costs exceeds or will exceed the Project Budget Funds, such party shall immediately notify the other party. Upon request by either party, the City and M.P.E.A. agree to promptly meet and discuss any such shortfall or expected shortfall and cooperate to achieve reasonable means for funding such shortfall.

(4) Other City Fund Sources. Before submitting Draw Requests, the City shall obtain reimbursement for the Direct Costs relating to applicable City Improvements from the City Funds to the extent permitted by Law.

If C.D.O.T. shall request changes required by the City Standards, by Law, or by another provision of this Agreement, M.P.E.A. shall make such appropriate revisions to the Plans, Specifications and Estimates. In no event shall any changes to the Plans, Specifications and Estimates result in the elimination of either the Stevenson Ramp Project or the Dr. Martin Luther King, Jr. Drive Project from the M.P.E.A. Improvements.

Upon approval by I.D.O.T. or C.D.O.T. or both of any Plans, Specifications and Estimates, M.P.E.A. shall not make any substantial changes to the Plans, Specifications and Estimates except at the direction or request or

upon the approval of such agencies. In no case shall C.D.O.T. withhold or delay its approval where the Plans, Specifications and Estimates are in accordance with this Agreement.

(b) Construction. M.P.E.A. shall be responsible to construct and install the M.P.E.A. Improvements and M.P.E.A. shall award and administer the Contracts therefor. Said construction, installation and Contract administration shall be:

Job Training Programs.

1.

Hospitality Program.

Goal.

M.P.E.A. is responsible for creating thousands of jobs in the Illinois hospitality industry by attracting millions of out-of-town visitors to the state. These positions need to be filled by workers who are well trained and highly motivated to meet the industry's needs. To meet this need, the Authority is working to create the first partnership between the industry and those untrained individuals who will seek the positions by creating the Hospitality Program.

Plan.

This program will be based on a monitoring philosophy, whereby Chicagoland hotels, restaurants and exhibit companies will commit to a financial and job placement partnership with the Authority, and will sponsor an agreed upon number of students for their property.

Once selected for the program, students will receive pre-placement training and will, subsequently, serve an "internship" at their sponsoring hotel. Successful completion will lead to permanent placement. Once permanently placed, career path options will be developed, enabling the students to progress in their career goals within the industry.

This will be an ongoing program, with approximately 15-25 students participating per class.

Timetable.

A new class will be held every six months with more components added as the program takes hold. First participants to start in winter of 1993.

2.

Sheltered Laborers Training Program.

Goal.

In order to have an immediate impact on those who are unemployed and have not previously been in a union construction job, the Authority is seeking to open a portion of laborers jobs to people who are not currently employed and are not members of a union.

Plan.

The Authority has received commitments from contractors to shelter approximately 10% of the laborers jobs on all three of the construction projects (both ongoing and planned).

Potential laborers will be sent to a two or three week class at the Laborers' Union Training Facility to receive orientation in such things as tool identification, job site safety (O.S.H.A.) and concrete. The Authority will pay for transportation to the class. Each of the classes will be 15 in number and will be held periodically. Attendance of all class meetings will be required.

After the training, the people will be placed on one of the job sites and admitted to the union. These people will earn the union prevailing wage (\$12.88 -- \$18.75).

Timetable.

The first class was completed October 30, 1992, with placement beginning on the McCormick Place Retrofit projects (and Navy Pier redevelopment). It is our goal to have a second class in 1993 and additional classes in 1994 and 1995, as work on the New South Hall and Concourse reaches peak work levels (also at Navy Pier).

3.

Temporary Trade Show Work Program.

Goal.

In an effort to create job opportunities immediately for those in the most need, the Authority has set aside a portion of the positions involved with the current trade show productions at McCormick Place to be filled by people forwarded by the Authority instead of usual employment services.

Plan.

This will be an employment program for work available on a day by day basis. It involves performing such work as crate storage duties during set-up and tear down of trade shows or coat check during trade shows at McCormick Place.

In the beginning, 105 -- 15% of the daily call for crate storage work will be reserved for M.P.E.A. to fill. In addition, as much of the coat check call beyond the regular pool of people will be reserved for M.P.E.A. placement. These employment opportunities will be available in relation to the shows held at McCormick Place, and will vary depending on the size and scope of each show.

Temporary Trade Show Workers will receive an orientation and explanation of duties upon reporting for employment. The number of employment opportunities will range anywhere from five to ninety, depending on the need per show. Workers will earn \$5.00 an hour working crate storage and \$4.50 an hour plus tips working coat check.

Timetable.

This program was implemented with the close of the Sporting Goods Show, August 4, 1992, with twenty workers being employed by our crate storage contractor. As this is an ongoing program, we are continuing to work with our contractor on his labor needs for future shows.

4.

Apprenticeship Preparedness Training Program.

Goal.

In order to assist in fulfilling the affirmative action goals of the McCormick Place Project -- 40% minority and 10% female laborers, and 25% minority and 7% women skilled workers -- the building trades unions, contractors associations, contractors building the expansion and the Authority have agreed to work together to establish a new Apprenticeship Preparedness Training (A.P.T.) Program.

Plan.

Based on work force projections for the construction phase of the Project, the M.P.E.A. will work with the developer and contractors to analyze the number of apprentices and journeymen that will be needed in each of the skilled trades during each year of the Project. The A.P.T. Program will be a pre-apprenticeship program to prepare minorities and women currently on apprenticeship waiting lists for apprenticeship programs in trades. Subject to priority for minority or women apprentices on lay-off status, graduates of the A.P.T. Program will be hired by the contractors building the expansion project and will be admitted into the relevant union apprenticeship program.

The A.P.T. Curriculum will be designed by staff from the City Colleges, in collaboration with the Joint Apprenticeship Training Committee of each affected and interested craft under the umbrella of M.P.E.A..

To help set policy and monitor the program, the A.P.T. Program will establish an advisory council composed of the Building Trades Council, Contractor Associations, Minority/Female Contractors Associations, the Bureau of Apprenticeship and Training, the Apprenticeship Information Center, and representatives from the Illinois House and Senate.

Timetable.

A program coordinator is on board with M.P.E.A.. Minorities and women will be recruited from the current waiting lists who live in the Chicago Metropolitan Area. Ground breaking for the New South Hall and Concourse is targeted for mid 1993. Training will be held throughout Spring/Summer of 1993, timed to feed people into the construction project as needed.

WHEREAS, Section 8-10-20 of the Municipal Purchasing Act provides for the adoption and publication of official ordinances in conformity with the provisions of the Municipal Purchasing Act; and

WHEREAS, For most roof repair, building demolition, and board-up projects there is a short period between the time that a need for work is identified and the time that the work must be performed in order to prevent additional damage to property or to reduce hazards to the public safety; and

WHEREAS, Prequalification of contractors as responsible bidders could significantly reduce the time required for initiation and completion of work in a potentially hazardous situation; and

WHEREAS, Section 8-10-11 and Section 8-10-16 of the Municipal Purchasing Act provides that the Purchasing Agent may determine responsibility of bidders; and

WHEREAS, The Purchasing Agent desires to prequalify contractors as responsible bidders for contracts involving roof repair, building demolition, or board-up work; now, therefore,

Be It Ordained by the City Council of the City of Chicago:

SECTION 1. The above recitals are hereby incorporated by reference as though fully set forth in this ordinance.

SECTION 2. Chapter 2-92 of the Municipal Code of the City of Chicago is hereby amended by adding thereto Sections 2-92-340 through 2-92-370, as follows:

2-92-340

The Purchasing Agent is hereby authorized to prequalify contractors as the exclusive responsible bidders for: i) roof repair, ii) building demolition, or iii) board-up work based on such contractors' responses to a Request for Qualifications ("R.F.Q.") which has been publicly advertised and issued by the Purchasing Agent for the respective type of work. Any such R.F.Q. shall specify those criteria that the Purchasing Agent deems necessary to determine whether respondents are qualified to perform the type of work addressed by the R.F.Q.. Such criteria may include the respondent's financial capability, experience, past performance, adequacy of equipment, ability to perform the work on a timely basis, and other pertinent considerations. The R.F.Q. shall also set forth terms and conditions which will govern the performance of any work which may be awarded to a respondent who becomes prequalified as a responsible bidder.

Respondents shall have at least twenty (20) calendar days from the date of issuance of the R.F.Q. to submit their responses to the Purchasing Agent. The Purchasing Agent shall publicly advertise any material addenda to the R.F.Q. and respondents shall have at least ten (10) calendar days thereafter to submit their responses to the Purchasing Agent.

2-92-350

For each R.F.Q. issued, an evaluation committee shall be designated by the Purchasing Agent and shall include members of those City departments likely to require the type of work addressed by the R.F.Q.. Such evaluation committee shall evaluate responses to the R.F.Q. in accordance with the criteria set forth in the R.F.Q. and shall recommend that the Purchasing Agent deem as responsible those respondents who meet those criteria.

Based on the recommendation of the evaluation committee, the Purchasing Agent shall develop a list of contractors who are prequalified as the exclusive responsible bidders on contracts for the type of work addressed in the R.F.Q..

The Purchasing Agent may, at any time, delete from such responsible bidder list any contractor which the Purchasing Agent determines to be non-responsible. If the Purchasing Agent subsequently determines such a deleted contractor to be responsible, the Purchasing Agent may reinstate such contractor to the responsible bidder list from which it was deleted.

Each year that the Purchasing Agent elects to continue the prequalification of contractors, the Purchasing Agent shall, no later than 90 days after the anniversary date of the issuance of the original R.F.Q. for the particular type of work, readvertise and reissue such R.F.Q. in order to allow for renewal of the responsible bidder list.

2-92-360

All contractors on a responsible bidder list shall be required to execute a two year master agreement which shall apply to any work which may be awarded and which contains, without exception, the terms and conditions set forth in the R.F.Q. and any other terms and conditions which may be required by the Purchasing Agent. Failure of a contractor otherwise qualifiable as responsible to execute a master agreement shall result in such contractor's deletion from the responsible bidder list.

Prequalification of a contractor as a responsible bidder shall be effective for the term of the master agreement with that contractor, except to the extent that the Purchasing Agent has deleted the contractor from the responsible bidder list pursuant to Section 2-92-350. The Purchasing Agent may extend the term of a master agreement up to 90 days in order to provide continuity of services until the responsible bidder list can be renewed in accordance with Section 2-92-350.

2-92-370

Whenever a using department identifies a need for roofing repair, building demolition, or board-up work, the Purchasing Agent shall provide all of the contractors on the responsible bidder list for the respective type of work a sufficiently detailed description of the work to enable them to submit sealed bids for the work. The Purchasing Agent may require such contractors to inspect the work site and shall allow them at least ten days, exclusive of Sundays and legal holidays, to submit sealed bids. The Purchasing Agent shall award the contract for the work to the responsive bidder offering the lowest sealed bid price.

If the contract award procedure set forth in the above paragraph would, in a specific instance, result in a delay which would cause imminent hazard to public safety or substantial damage to property, the Purchasing Agent may, in such an instance, follow an expedited contract award procedure which solicits bids from less than all contractors on the responsible bidder list and/or which allows less than 10 days for the submittal of bids.

SECTION 3. This ordinance shall be effective upon its passage and approval.

WHEREAS, Courthouse Place has value as an example of the historic heritage of the City of Chicago, being the former Cook County Criminal Courts Building, which replaced an earlier county courthouse that, in turn, had replaced a municipal market and police station, thus representing the growth of Chicago from a small town to a great American city; and

WHEREAS, On or about August 30, 1985, the 54 West Hubbard Partnership, which holds legal title to Courthouse Place, entered into, as Grantor, a certain "Deed of Architectural Facade Easement and Conservation Right" with the City of Chicago, as Grantee, which agreement

are hereby designated a Chicago landmark. The sole and exclusive critical features of the landmark are all exterior aspects of said facades except for: the flagpoles, fire escapes and fire escape landings, and any and all interior elements visible from the exterior.

SECTION 2. In the event that a conflict arises between this ordinance and the terms of the "Deed of Architectural Facade Easement and Conservation Right", the terms of the "Deed of Architectural Facade Easement and Conservation Right" shall control.

"Code" shall mean the Municipal Code of Chicago, as amended.

Section 1.6

"Contractor" shall mean collectively any contractor, subcontractor, agent or consultant employed by Grantee or an Affiliate to construct, install, operate or maintain Grantee's System. A Contractor may be Affiliate.

Section 1.7

"Existing System" shall mean Grantee's existing System occupying one hundred ninety-eight and one-half feet (198.5') along the Authorized Routes, as described in Exhibit 1.

Section 1.8

"Interoffice Telecommunications Services" or "Services" shall mean the transmission of primarily networked communications signals (including the collection, storage, forwarding, private switching and delivering of such signals point-to-point between separate locations within the System), provided that the term "Services" shall not include: (i) the provision of programming and other services that would constitute Grantee as a Cable Television System, (ii) the sale, resale, lease or exchange of telecommunications facilities or services to or with Third Parties or (iii) the operation of a public switched network. The term "Services", as used herein, shall include the transmission and distribution of internal educational audio and visual programming described in Section 2.1.3. The limitation concerning "operation of a public switched network", as used herein, shall not preclude, restrict or limit interconnection of the Grantee's Network to any public switched telephone network or other facility operated by a telecommunication carrier authorized by the State of Illinois and the City to operate such public switched network or facilities in the City.

Section 1.9

"Interoffice Telecommunications System" or "System" shall mean a system occupying 198.5 linear feet along the Authorized Routes, consisting primarily of fiber optic cables, designed and operated by Grantee solely to provide Services by means of electromagnetic, including light transmission, together with all related instrumentalities, facilities,

apparatus, repeaters, conduit, fiber optic cables, splicing boxes and services and appurtenances; provided that no portion of a System shall constitute all or any portion of a Cable Television System, or shall be used to sell, resell, lease or exchange telecommunications services or facilities with Affiliates or Third Parties. Grantee's System is set forth in Exhibit 1.

Section 1.10

"Not-For-Profit Private Telecommunications System" or "System" shall mean a private network designed and operated by Grantee solely to provide Interoffice Telecommunications Services to Grantee's facilities and to the Affiliates for their use and not with the intent of generating profits, which System uses electromagnetic, including light transmission, all related instrumentalities, facilities, apparatus, repeaters, conduit, fiber optic cables, splicing boxes and services and related appurtenances; provided that no portion of Grantee's System shall (i) constitute all or any portion of a Cable Television System, (ii) constitute a public switched network, or (iii) be used to sell, resell, lease or exchange Services or facilities to or with Third Parties.

Section 1.11

"Prior Ordinance" shall mean the ordinance adopted by the City Council on November 26, 1986 which authorized Rush-Presbyterian-Saint Luke's Medical Center to construct, operate and maintain a telecommunications system in the public way along the Authorized Route.

Section 1.12

"Public Ways" shall mean the surface, the air space above the surface, and the area below the surface of any public street and any highway, and any lane, path, alley, sidewalk, boulevard, drive, bridge, tunnel, park, parkway, waterway or other public right-of-way, including public utility easements or rights-of-way, and any temporary or permanent fixtures or improvements located thereon now or hereafter held by the City in which the City holds rights sufficient, without consent of any other party, to permit Grantee to the use thereof for the purpose of installing or maintaining Grantee's System.

Section 1.13

"Risk Management" shall mean the City Comptroller's Office of Risk Management.

Section 1.14

"Third Parties" shall mean any individual, partnership, corporation or entity which is not an Affiliate.

SECTION 2. Grant Of Rights; Restrictions.

Section 2.1 Grant Of Rights.

Subject to Section 3.4, the City hereby grants to Grantee the non-exclusive right to operate and maintain its System, along the Authorized Routes, on the terms and conditions set forth herein, within its own conduits and/or existing conduits, constructed and maintained by other individuals or entities which are authorized or otherwise lawfully permitted to occupy the City's public ways. This ordinance does not authorize Grantee to operate a Cable Television System or to sell, lease, re-lease, exchange or resell Telecommunications Services to Third Parties. This ordinance does not authorize telecommunications facilities to be located in the Public Ways except the System described in Exhibit 1.

Section 2.1.2

Grantee is expressly permitted to provide Interoffice Telecommunication Services to any Affiliate subject to the following limitations: (1) Grantee's System facilities are dedicated for the internal use of the Affiliates (including the Affiliates' employees, faculty, staff, patients and students), (2) Grantee's operation of its System is not conducted for profit or with the objective of generating revenues or profits, (3) Grantee charges the Affiliates only for the recovery of costs and expenses, and (4) Grantee does not operate or maintain a public switched network. The limitation concerning dedication of the network facilities to "the internal use of the Affiliates" as used in subsection 2.1.2 (1) hereof, is not intended to preclude, restrict or limit interconnection of the Grantee's System to any public switched telephone network or other facility operated by a telecommunication carrier authorized by the State of Illinois and the City to operate such public switched network or facility in the City.

Section 2.1.3

It is further understood that Grantee may use portions of its System to transmit video programming solely to its Affiliates, provided that such transmission is (1) not for hire, (2) not with the intent or result of distributing such programming to members of the public who subscribe

to such service or of charging any fee related thereto, (3) at cost and not with the intent of generating profits, (4) consistent with the not-for-profit purposes of the Affiliates. In the event that Grantee operates any such portion of its System in a manner inconsistent with the requirements of the preceding sentence, then Grantee must apply to the City for a franchise to become a Cable Television System for the applicable portions of its System. This paragraph does not constitute a franchise for a Cable Television System and does not exempt Grantee from any applicable provisions of Section 4-48 of the Code.

Section 2.1.4

The granting of this ordinance and the exercise of any privileges thereunder does not waive or extinguish any rights the City may have to regulate or charge for portions of Grantee's System not located in the authorized Routes which, in fact, are located in the Public Ways. This reservation obtains regardless of the original basis for permission for the installation of such portions of Grantee's System.

Section 2.1.5 Right Of Renegotiation.

The City, acting through its Director of the Department of Revenue (the "Director"), reserves the right to renegotiate and amend any or all provisions of this Ordinance at any time in any way consistent with fairness and equity in the event that, after review of the information provided by Grantee pursuant to Section 8.4, the Director shall determine that Grantee operates its System substantially for other than the not-for-profit or charitable purposes of the Grantee and Affiliates. Before requiring renegotiation and amendment of this Ordinance pursuant to this Section, the Director shall give the Grantee thirty (30) days prior written notice of its intention to require renegotiation and shall give Grantee the opportunity to appear before the Director to show cause why the Ordinance should not be amended. After such meeting if the Director reaffirms the necessity of renegotiation, and no agreement is reached by the parties within six months of the meeting, the Director may suspend or revoke the permit described in Section 11.2.

Section 2.1.6 Right Of Termination.

The City may terminate Grantee's rights under the Agreement at any time if the City determines Grantee is, in fact, operating a Cable Television System or is operating its System for substantially other than the not-for-profit or charitable purposes of Grantee or its Affiliates.

Section 2.2 Term And Expiration Date.

The term of this Ordinance and of the rights granted hereunder shall be five (5) years from and after the date of passage of this ordinance by the Chicago City Council (the "Expiration Date").

Section 2.3 Interim Extension In The Absence Of Default Or Termination.

If, on the Expiration Date, Grantee shall not be in default under this Ordinance and if neither party has notified the other of its intent to terminate this Agreement on or before the Expiration Date, then the terms of this Ordinance shall be deemed extended on an interim basis until terminated, renewed or renegotiated or further extended by order of the Director for a term not to exceed sixty (60) days after which time, this Ordinance shall be considered terminated and all rights of the Grantee to use the Authorized Routes to provide Telecommunications Services shall cease.

Section 2.4 Renewal.

Grantee is responsible for obtaining from the City a new ordinance for submission to the City Council preserving or extending the privileges granted herein prior to the Expiration Date. The City has no obligation to renew any particular terms or to renew the rights granted by this Ordinance if the Director determines such terms or such renewal are not in the best interests of the City. Any proposed renewal, extension or modification through such Ordinance is subject to approval, modification or rejection by the Chicago City Council in its sole discretion.

Section 2.5 Location Of Authorized Routes.

Grantee's Existing System may extend in three components for a total distance of one hundred ninety-eight and one-half feet (198.5') along the Authorized Routes as set forth in Exhibit 1 attached hereto and made a part hereof.

Section 2.6 Acts Or Omissions Of Affiliates And Other Entities.

During the term of this Ordinance, Grantee (and not the City) shall be liable for any costs incurred by the City or Third Parties for damage to any City facilities in the Public Way caused by the acts or omissions of any entity employed or otherwise authorized by Grantee (including an Affiliate) when such entity is involved, directly or indirectly, in the installation, maintenance or operation of Grantee's System as if the acts or omissions of such entity were the acts of omissions of Grantee.

SECTION 3. Nature Of Limitation Of Rights Granted.

Section 3.1 Rights Not Exclusive.

This is a nonexclusive privilege to use the Public Ways and is made expressly subject to and subordinate to the right of the City to use the Authorized Routes for any public purpose.

Section 3.2 Other Permittees.

The City does not agree to restrict the number of Interoffice Telecommunications Systems, franchises, licenses or permits in any part of the City. The permission and authority herein granted are not intended to limit or modify any franchise, license or permit previously granted or which may be granted by the City to any other entity for use of the Public Ways. Therefore, the Grantee, recognizing the rights of other franchisees, licensees and permittees in the Public Ways, shall exercise the authority herein granted in such a manner as not to interfere unreasonably with the rights of other prior or future franchisees, licensees and permittees in the Public Ways and to act so as not to endanger or to impair the facilities of any other such franchisee, licensee or permittee. Prior and future franchisees, licensees or permittees shall also, in like manner, be required to respect the Grantee's rights and not unduly interfere with those rights.

Section 3.3 City's Rights Over Authorized Routes.

Section 3.3.1 City's Authority Is Paramount.

At Grantee's own risk, upon notice given as provided in Section 3.3.2 the City may make use in the future of the Authorized Routes in which Grantee's System is located in a manner inconsistent with Grantee's use thereof; provided Grantee shall be given the opportunity, if feasible, to relocate its system within the Public Way as provided in Section 3.3.2.

Section 3.3.2 Removal And Relocation.

The City reserves the right to exercise its police or proprietary powers, to modify, vacate or transfer what is now the Authorized Routes for a public purpose. Grantee acknowledges that the City has a

predominant right to use the Authorized Routes in the placement, maintenance and repair of sewers, water mains and other public utility facilities or to relocate or remove Grantee's System where the City determines public convenience would be enhanced or for any other public purpose, including, but not limited, to the use of the Authorized Routes for public transportation purposes. The permit referred to in Section 11.1 may be amended or revoked in whole or in part by the Director whenever the Director or the Commissioner of the Department of Transportation consider it necessary or advisable for a public purpose. Grantee shall make no claim for costs or damages against the City by reason of such removal or relocation provided advance notice is given and such removal or relocation is required for a proper public purpose. Upon thirty (30) days written notice to Grantee of partial or complete revocation of such permit from the Director, Grantee shall remove, modify, replace or relocate all or any portion of its facilities as required at its own expense. Said thirty (30) day period may be extended by the Director in his or her sole discretion. In the event that Grantee does not remove, modify, replace or relocate its facilities as required by said notice within the thirty (30) day period (or extension thereof) described in the preceding sentence, the Director may cause the same to be done at Grantee's expense and all expenses incurred or damages paid by the City on account of such action shall be paid by Grantee upon demand. Grantee shall remove, replace or relocate or modify at its own expense, the installation of any of its facilities as may be deemed necessary by any other appropriate governmental authority to meet its proper responsibilities. In the event the City exercises its predominant right to use any part of the Authorized Routes for a public purpose, the City shall reasonably cooperate with Grantee in finding an alternate site for any telecommunications facilities removed and in avoiding disruption to Grantee's Services. In an emergency, as determined by the Commissioner of the Department of Transportation, the City may order Grantee to remove or relocate its facilities within forty-eight (48) hours, provided such order and time-frame does not threaten the lives of any patient or present the potential of serious disruption to patient care or to the delivery of medical services so as to put any patient or recipient of health care from Grantee or its Affiliates at serious risk, in which case Grantee shall so advise City. If notice is given orally it must be confirmed in writing within an additional 48 hours. Upon receipt of such notice, City and Grantee shall provide for such removal or relocation as promptly as possible within such time frame as shall be reasonable to avoid medical and patient care risk and Grantee shall diligently proceed on such agreed-on basis. If the City exercises any of its rights pursuant to this Section 3.3, Grantee shall have the option, upon notice to the Director, of abandoning the portion of its System to be so removed or relocated and deleting such portion from the Authorized

Routes. Any relocation or abandonment of Grantee's System pursuant to this Section 3.3.2 shall be conducted with the approval of the Director and shall be automatically considered within the Authorized Routes and an amended or restated Exhibit 1 shall be filed with this ordinance. The calculation of the Annual Fee shall be adjusted according to such abandonment or relocation.

Section 3.3.3 Fire Or Other Disaster.

Wherever, in case of fire or other disaster, it becomes necessary in the judgment of the City to remove or damage any part of Grantee's System, no charge shall be made by Grantee against the City for restoration and repair.

Section 3.3.4 Temporary Relocation Or Removal.

At the request of any person holding a valid building permit issued by the City or other appropriate governmental authority and upon reasonable notice, depending on the circumstances, but not, in any case, less than thirty (30) days, Grantee shall temporarily raise, lower or remove its cables as may be necessary for the performance of the work so permitted, subject to payment in advance by the permit holder to the Grantee of the direct expenses of such temporary move, including standby time.

Section 3.4 No Burden On Public Ways.

Grantee shall not attempt to construct or install its Interoffice Telecommunications System in such a fashion as to unduly burden the present or future use of the Authorized Routes. In designing its System, Grantee shall not provide for conduit space in excess of Grantee's present or reasonably anticipated future needs. The Commissioner of the Department of Transportation is authorized to regulate the size of the conduit system used or to be used by Grantee, as well as other physical characteristics of Grantee's System. In the event that the Commissioner of the Department of Transportation shall determine that any portion of Grantee's System, either planned or presently constructed, unduly burdens any portion of the Public Ways, now or in the future, Grantee shall be required either to modify its System, or to take such actions as the Commissioner of the Department of Transportation shall determine for the sake of public convenience to eliminate the problem within the time frame provided by the Commissioner of the Department of Transportation and the Code. Failure to comply with this Section 3.4 in a timely fashion shall be grounds for revocation of the permit described in Section 11.1.

SECTION 4. Change Of Control Or Transfer.

Section 4.1 Change Of Control.

Section 4.1.1 Privilege Is Personal To Grantee.

Other than pursuant to a Permitted Transfer as hereinafter defined, the rights granted pursuant to this Ordinance shall be a privilege to be held in personal trust by Grantee. Grantee shall not transfer, assign or lease the rights granted in this Ordinance or its ownership or operation of its System, or any portion thereof, through sale, merger, corporate reorganization, consolidation, foreclosure, leaseback or in any other manner transfer, lease or assign in any manner any conduit space occupied by its System, without prior consent of the Chicago City Council expressed by resolution and then only on such conditions as may be therein prescribed. Any sale, transfer, lease, assignment or other transfer not made according to the procedures set forth in Section 4 shall void the rights granted by this Ordinance. The sale, transfer, lease, assignment or other transfer in bulk of a major portion of the tangible assets of Grantee other than pursuant to a Permitted Transfer shall be considered a transfer subject to the provisions of this Section 4.

Section 4.1.2 Authorization By City Council.

Any transfer described in Section 4.1.1 authorized by City Council shall be evidenced by a bill of sale or similar document, an executed copy of which shall be filed with the Director within thirty (30) days after any such transfer, provided however, that the transferee must agree to comply with this Ordinance and amendments thereto, and must be able to provide proof of its legal, technical, financial, and character qualifications as determined by the City and provide disclosure of ownership interests as required by Chapter 26.1 of the Code and provide such other certifications as the City shall require.

Section 4.1.3

Notwithstanding anything to the contrary set forth in this Section 4.1, subject to the written approval of the Director which shall not be unreasonably withheld, Grantee may transfer, assign, or lease the rights granted in this Ordinance without prior approval of the City Council to: (1) an Affiliate or Affiliates; (2) pursuant to a merger or corporate re-organization providing the surviving entity or transferee, assignee or lessee resulting from such merger or corporate reorganization controls or is controlled, directly or indirectly, by an Affiliate or Affiliates or by a majority of the members of the Controlling

Body of Grantee or an Affiliate or Affiliates of Grantee, as the term "Controlling Body" is defined in the definition of Affiliates set forth in Section 1.1; or (3) a wholly-owned subsidiary.

Section 4.1.4 Disclosure Of Ownership.

Prior to adoption of this Ordinance, Grantee has submitted to the Director the Economic Disclosure Statement required by Chapter 26-1 of the Code. Grantee, or any transferee or assignee permitted hereunder, within thirty (30) days of any such transaction, shall file an amendment to the foregoing statement of ownership interest with the Director in the event ownership of ten percent (10%) or the right to control Grantee, is acquired during the term of this Ordinance by any person or one or more groups of persons acting in concert after the date of passage of this Ordinance.

SECTION 5. Compensation.

Section 5.1 Annual Fee.

Except as set forth below, throughout the term of this Ordinance, Grantee agrees to pay the City for the use of the Authorized Routes the Annual fee of \$1,188.00 on or prior to the anniversary date of this Ordinance representing payment for the succeeding year. The Annual Fee shall be due in advance of the year to which it relates. An amount representing the first year's Annual Fee (together with amounts representing compensation equivalent to the Annual Fee for use by the System from November 26, 1991 to the date of passage of this Ordinance) shall be payable within thirty (30) days after passage of this Ordinance.

Section 5.2 Not A Tax.

Payment by Grantee to the City of the Annual Fee is compensation for use of the Public Ways and shall not be considered in the nature of a tax. Such payments shall be separate from, and in addition to, any and all federal, state, local and municipal taxes, as may be due, which are separate and distinct obligations of Grantee.

Section 5.4 Subsequent Action Affecting Compensation.

If during the term of this Ordinance any court, agency or other authority of competent jurisdiction takes any action, or makes any declaration, that adversely affects the legality or collection of the Annual

Fee, the City and Grantee shall enter into negotiations to amend this Ordinance to make the City whole in a manner consistent with said action or declaration by restoring the City to a position equivalent to that which it held prior to said action or declaration.

Section 5.5 Other Fees.

In addition to and related to the payment of the Annual Fee, Grantee shall pay all other fees necessary to obtain federal, state, local and City licenses, permits and authorizations required for installation, repair, maintenance or operation of its System; provided, however, that no fee shall be especially imposed on Grantee by the City for any such license, permit or authorization other than standard fees of general application required by City Ordinance or the Code, which fees include, but are not limited to, fees required in connection with obtaining electrical wiring permits from the Building Department. Grantee shall also pay such additional fees for the use of City-owned conduits as may be required by the Code.

SECTION 6. Insurance And Indemnification.

Section 6.1 Insurance.

Prior to issuance of the permit described in Section 11.1 and at all times during the term of this Ordinance, and, thereafter, during such time as may be required to remove Grantee's System and restore the Authorized Routes to their prior condition, Grantee shall obtain, pay all premiums for, and file with Risk Management on the City's standard Certificate of Insurance form attached hereto as Exhibit 4, of the insurance coverages covering all risk associated with the installation, repair, maintenance, removal and operation of Grantee's System specified below:

- (A) **Worker's Compensation and Occupational Disease Insurance.** Worker's Compensation and Occupational Disease Insurance, in statutory amounts, covering all employees of any Contractor performing work under this Agreement. Employer's liability coverage with limits of not less than \$100,000 each accident or illness shall be included.
- (B) **Commercial Liability Insurance.** Commercial Liability Insurance or Comprehensive General Liability (Broadform) Insurance with limits of not less than \$1,000,000 per occurrence, combined single limit, for bodily injury and/or property damage liability shall be obtained. Products/completed operation,

independent contractors, contractual liability, explosion, collapse and underground coverages are to be included. The City is to be named as an additional insured. Any self-insured retention provision must be approved in advance by Risk Management.

- (C) Railroad Protective Liability Insurance. When any work is to be done adjacent to or on transit property with respect to the operations Grantee or any Contractor performs, Railroad Protective Liability Insurance (AAR-AASHTO or RIMA form) in the name of the transit entity shall be provided. The policy shall have limits of not less than \$2,000,000 per occurrence, combined single limit, for losses arising out of injuries to or death of any and all persons, and for damages to or destruction of property, including the loss of use thereof. In lieu of providing Railroad Protective Insurance, the exclusion for work around railroads in the Commercial Liability Insurance set forth in (B) above may be deleted.
- (D) Automobile Liability Insurance. When any motor vehicles are used in connection with the construction, installation, maintenance and operation of Grantee's System, Automobile Liability Insurance shall be maintained with limits of not less than \$500,000 per occurrence, combined single limit, for bodily injury and property damage. The City is to be named as an additional insured.
- (E) Grantee and any of Grantee's Contractors agree that all insurers issuing coverage related to Section 6 shall waive their rights of subrogation against the City, including its appointed and elected officials, representatives, agents and employees.

In lieu of purchasing the above coverages, Grantee may file a Certificate of Self-Insurance provided that such Certificate is satisfactory to Risk Management.

Section 6.2 Qualified Companies.

All insurance policies called for in this Ordinance shall be issued by companies authorized to do business in Illinois and satisfactory to Risk Management and each insurance policy shall be satisfactory to Risk Management. Each insurance policy shall contain a covenant or endorsement of the insurance company to provide sixty (60) days written notice by registered mail of the insurance company's intention to cancel, substantially change, or not to renew such policy to both Risk Management and the Grantee, and Grantee shall in the event of any such notice, obtain, pay premiums for, and file with Risk Management written

evidence of the issuance of any replacement policies within sixty (60) days following receipt by the City or the Grantee of a termination notice. Failure to carry or keep such insurance in force throughout the period set forth in Section 6.1 shall constitute a material violation of this Ordinance. The City reserves the right to stop any work related to Grantee's System until proper evidence of insurance is furnished.

Section 6.3 Right To Require Replacement Of Insurance.

If the financial condition of any insurance company providing an insurance policy pursuant to Section 6 or if Grantee's financial condition materially and adversely changes, Risk Management may, at any time, require that such insurance policy or self-insurance provisions be replaced with such other insurance policy consistent with the requirements set forth in Section 6.

Section 6.4 Alteration.

Grantee shall not materially change or alter the terms or conditions of the insurance policies referred to herein or replace or cancel said insurance policies without prior approval of Risk Management.

Section 6.5 City's Right To Increase Minimum Limits.

In the event of changed circumstances that would render the limits of the insurance policies set forth in this Section 6 inadequate, Risk Management reserves the right to reasonably increase the minimum required limits of such insurance policies upon sixty (60) days written notice to Grantee in order to ensure adequate protection for the City. Within sixty (60) days after such notice, Grantee shall increase such limits to an amount equal to or greater than the increased minimum amounts.

Section 6.6 No Excuse From Performance.

None of the provisions contained herein, nor the insurance policies required herein, shall be construed to excuse the faithful performance by Grantee of the terms and conditions of this Ordinance or limit the liability of the Grantee under this Ordinance for any and all damages in excess of the amounts of such insurance policies. Any insurance protection furnished by the Grantee hereunder shall in no way limit its responsibility to indemnify and save harmless the City under the indemnity provisions of this Ordinance.

Section 6.7 Insurance For Contractors And Subcontractors.

Grantee shall provide coverage for any Contractor by either obtaining the necessary endorsements to its insurance policies or requiring such contractor or subcontractor to obtain appropriate insurance coverage consistent with Section 6.1 and appropriate to the extent of its involvement in the installation, maintenance or operation of Grantee's System and shall provide evidence of the foregoing as required in Section 6.1.

Section 6.8 Indemnity.

Grantee shall be solely responsible for the support, safety and protection of its System and the Authorized Routes being used by Grantee and for the safety and protection of all persons and all property coming into contact with Grantee's facilities or their operations. Grantee shall, at its sole cost and expense, indemnify, defend, keep and save harmless the City, its officials, boards, commissions, agents and employees (collectively the "Indemnified Parties") against any and all suits, causes of action, proceedings and judgments, claims, losses, damages (whether such claims and damages are for personal injury, property damage or interruption of utility service), liabilities, judgments, costs and expenses (collectively referred as "Claims") arising out of, caused by or directly resulting from the grant of rights pursuant to this Ordinance and Grantee's installation, maintenance and operation of its System; provided that the Indemnified Parties may not be indemnified to the extent a court of final adjudication determines that a Claim or portion thereof has been caused by negligence of the City. The City shall have the right, at its option and at Grantee's expense to participate in the defense of any suit without relieving Grantee of any of its obligations under this Section. The term "Claim" specifically shall be deemed to include, but not be limited to, any liability for the payment of Workmen's Compensation under Illinois law which the City is required to make and the Grantee shall reimburse the City for any such payments made by the City. Grantee, in accepting the terms of this Ordinance, shall be deemed as a condition of its acceptance, to understand and agree that the insurance required by Section 6 of this Ordinance shall in no way limit the responsibility of Grantee to indemnify, keep and save harmless and defend the Indemnified Parties pursuant to this Section. Indemnified expenses shall include, but not be limited to, all out-of-pocket expenses of the Indemnified Parties, such as reasonable attorney fees, and shall also include the reasonable value of any services rendered by the Corporation Counsel or her assistants or any consultants, employees or agents of the City. The indemnities contained in this Section shall survive the expiration or repeal of this Ordinance.

SECTION 7. Construction And Installation Of Grantee's System.

Section 7.1 Approval Of Specific Location.

Grantee has filed as built drawings showing the exact location of each telecommunication facility comprising a part of Grantee's System, and the location of each conduit to be entered and the number of manholes or other openings to gain access to said conduit. Plans or similar information shall be filed with the Commissioner of the Department of Transportation for approval, prior to the issuance of a permit for any proposed reduction or removal of any portion of Grantee's System along the Authorized Routes. Grantee shall also obtain such performance or other bonds or letters of credit of such type and in such amounts as may be required by the Commissioner of the Department of Transportation.

Section 7.2 Maintenance Requirements And Standards.

Section 7.2.1 In General.

Grantee shall maintain and operate, as now constructed, its System in a safe, orderly and workmanlike manner utilizing only materials of good, durable quality with due respect for engineering considerations and in accordance with applicable federal, state and local laws and regulations, including but not limited to, the standards set by the City's Department of Transportation and the Building Department.

Section 7.2.2 Compliance Standards.

Grantee shall at all times comply with the following:

- (A) U.L. Code (latest edition),
- (B) Applicable provisions of the Code,
- (C) Written standards of the Department of Transportation and the Building Department applicable to Grantee's installation, operation and maintenance of its System.

Section 7.2.3 "As Built" Drawings.

Grantee shall update its as built drawings previously filed with the City within sixty (60) days of a material change whenever material

changes are made to Grantee's System which impact the Public Ways and submit such updated drawings to the Commissioner of the Department of Transportation. Said drawings shall at a minimum include cable routings and the location of amplifiers, power supplies and system monitor test points.

Section 7.2.4 Emergency Or Disaster.

In case of emergency or disaster, Grantee shall, upon request of the City, make available its facilities to the City, without cost, for emergency use.

Section 7.2.5 Use Of Existing Conduits.

Grantee shall use existing conduits and other facilities whenever economically feasible and shall not install any new, different or additional conduits or other facilities for its System without approval of the City and any other applicable governmental agency. If Grantee is using existing conduit owned by any other person, Grantee shall comply with all applicable City safety standards as well as the safety standards imposed by the entities owning the existing conduit and any applicable tariffs.

Section 7.2.6 Adjoining Property Owners.

All of Grantee's System shall be installed and located so as to cause minimum interference with the rights and appearance and reasonable convenience of adjoining property owners and at all times shall be kept and maintained in a safe condition and in good order and repair. Grantee shall at all times employ reasonable care and shall install and maintain in use commonly accepted methods and devices for preventing failures and accidents which are likely to cause damage, injuries or nuisance to the public. Suitable barricades, flags, lights or other devices shall be used at such times and places as are reasonably required for the safety of all members of the public. Any fixtures placed in any Public Ways by Grantee shall not interfere with the usual and customary uses of, or any specifically permitted or licensed use of, the Public Ways.

Section 7.2.7 Adjustment Of Utility Facilities.

In the event that the location of Grantee's System will require an adjustment of the location of existing public or private utility facilities, Grantee must obtain written consent of the owner of such utility including, where applicable, all relevant City departments, to such

adjustment and make such arrangements for the payment or reimbursement of the cost of such adjustment as are satisfactory to the owner of such utility including, where applicable, all relevant City departments. In no case shall Grantee be entitled to perform such adjustment or disturb such utility facilities without the written consent of the owner of such utility.

Section 7.2.8 Electrical Permit.

All installation work for Grantee's System, after passage of this Ordinance, shall be performed by electrical contractors licensed pursuant to Chapter 86 of the Code.

Section 7.3 Restoration.

In the event of disturbance of the Public Ways or private property by Grantee, Grantee shall, at its own expense and in a manner approved by the City or other appropriate governmental authority and/or the owner of such private property, rebuild, restore and repair the Public Ways, including any cartways or sidewalks, or private property in as good a condition as before the work causing such disturbance was done. In the event Grantee fails to perform such rebuilding, replacement or restoration, the City or the owner shall have the right to do so at the sole expense of Grantee.

Section 7.4 Suspension Or Revocation Of Construction Permit.

The Commissioner of Transportation may suspend or revoke any permit issued by the Department of Transportation or take any action he or she deems necessary, including the stopping of work, should Grantee violate the terms of said permit, until said violation has been corrected to the Commissioner's satisfaction.

Section 7.5 Other Requirements And Approvals.

Issuance of a permit by the Commissioner of Transportation as to the installation of any portion of Grantee's System does not waive other applicable requirements of federal or Illinois law or the Code and Grantee shall comply with such other requirements. Grantee is further responsible for obtaining approvals related to Grantee's use of the Authorized Routes contemplated in this Ordinance from other applicable City departments (such as the Department of Transportation and the Building Department) in a timely fashion when and as required.

SECTION 8. Inspection And Physical Audit.

Section 8.1 Inspection.

The City reserves the right to make, at any time after the date of passage of this Ordinance and throughout the duration of this Ordinance, physical on-site inspections of Grantee's System, including Grantee's telecommunications terminals. Grantee will accommodate the City's monitoring needs by providing the Department of Revenue and the Department of Transportation with a map and the "as built" drawings required by Section 7.2.3 which Grantee shall update annually or indicate "no change" (as the case may be) and shall submit these documents to the City at the time of Grantee's payments of its Annual Fee. These documents submitted will identify the locations of all terminals and junction boxes, and the linear footage of each portion of Grantee's System located in the Public Ways.

Section 8.2 Physical Audit.

In the event that the Director has reason to believe at any time that there is a material discrepancy between information submitted by Grantee pursuant to this Section 8 and the size, location or nature of Grantee's System, then the Department may send its own personnel, or hire an engineering firm of the Department's choice (the "City's Inspector"), to perform an unannounced physical audit of Grantee's Telecommunications System. Grantee shall cooperate with such an audit. Grantee shall pay the reasonable costs and fees of any such physical audit. If the City's Inspector determines in said audit that a material discrepancy exists between the results of such physical audit and the information contained in the specifications, summaries, maps and drawings that Grantee has placed on file with the City pursuant to Sections 7.2.3, 7.2.4 and 8.1 of this Ordinance, Grantee shall be given written notice of a material discrepancy and be given ten (10) days to file a written response explaining or contesting the discrepancy. If thereafter the Director reasonably determines the existence of said material discrepancy, Grantee shall owe the City the sum of any underpayment which has resulted from the discrepancy (plus liquidated damages, if applicable, as specified in Section 10), and shall pay to the Department, within thirty (30) days of Grantee's receipt of the Director's decision the costs and fees of the audit by the City's Inspector as well as any required follow-up by the City's Inspector.

Section 8.3 Trespassing Facilities.

Any portion of Grantee's System in the Public Ways but not along the Authorized Routes is known as a "Trespassing Facility". Upon discovery

of a Trespassing Facility by the City, the Director shall have the following options:

- (A) Order the immediate removal of the Trespassing Facilities from the Public Ways;
- (B) Seek to obtain liquidated damages to the extent provided pursuant to Section 10 hereof; and/or
- (C) Seek other remedies available to the City under the Code, this Ordinance or under Illinois Law;

provided that the Director may waive for a period of thirty (30) days any such sanctions in the event he or she determines that (i) the trespass was inadvertent and (ii) Grantee is making a timely and reasonable effort to remove or relocate the Trespassing Facility promptly, so as to correct any violation of this Ordinance. The Director may extend this thirty (30) day correction period for circumstances beyond the reasonable control of Grantee, but only upon receipt and approval by the Director of Grantee's timetable specifying the anticipated date the Trespassing Facility will be removed or relocated. Any portion of Grantee's System attached to an existing Chicago Transit Authority facility and authorized by the Chicago Transit Authority shall not be a "Trespassing Facility".

Section 8.4 Annual Certifications.

Annually, on or before June 1, and commencing June 1, 1994, Grantee shall deliver to the Director a certificate substantially in form of Exhibit 3, signed by an authorized officer of Grantee, stating that (A) Grantee has provided no Services along the Authorized Routes with the objective of generating revenue or profit, operating or maintaining a public switched network or operating a Cable Television System; and (B) the Grantee shall provide no Services for sale, re-sale, exchange or lease to any Affiliate or Third Party using Grantee's System located within the City other than those Affiliates or Third Parties set forth in Exhibit 2. The Grantee shall provide the Director with such further information as the Director shall reasonably require about any new Affiliates and list any new Affiliates on such annual certificate.

SECTION 9. Repeal Of Privileges.

Section 9.1 Basis For Repeal Of Ordinance.

This Ordinance may be repealed by the City Council, upon referral from the Mayor or on its own motion, at any time.

Section 9.2 Removal Or Abandonment Of Grantee's Interoffice Telecommunication System.

Section 9.2.1 Removal By Grantee.

Upon repeal of this Ordinance pursuant to Section 9.1, or upon revocation or termination of the privilege herein granted, the Grantee, without cost or expense to the City, shall promptly remove or abandon in place, at the option of the City, its System and restore the Public Ways where disturbed to a proper condition under the supervision and to the satisfaction of the Director and the Commissioner of the Department of Transportation and in accordance with this Ordinance and the Code. In all cases, such facilities which are not removed within six (6) months of such date of termination or revocation shall become the property of the City. In determining whether and the extent to which such facilities shall be removed or abandoned, the Director shall take into account the best interests of the City and shall consider all other relevant factors.

Section 9.2.2 Removal By The City.

In the event of the failure or refusal of the Grantee to remove facilities or restore the Public Ways where facilities are removed as required by Section 9.2.1, the City may remove or cause the removal of Grantee's System; provided, however, that the City shall be reimbursed by Grantee for the total costs of such removal.

SECTION 10. Sanctions.

Section 10.1 Liquidated Damages.

The events set forth below will result in damages that will be impracticable or difficult to ascertain. Grantee, therefore, shall pay the City the sum of One Hundred Dollars (\$100) a day from the date of receipt of written notice of the violation and the expiration of the applicable grace or cure period described below until the violation is corrected or resolved to the City's reasonable satisfaction, which amount shall not be considered in the nature of a penalty. Such written notice is to be given to the parties set forth in Section 18.2 by certified mail. Such events are as follows:

- (A) Installation of "Trespassing Facilities" as defined in Section 8.3 of this Ordinance,

- (B) Material nonconformance of Grantee's Telecommunications System or any portion thereof with the standards of general applicability of the City set forth in the Code or furnished in writing by the Department of Transportation or the Building Department,
- (C) Failure to remove, modify, replace or relocate facilities within the permitted time frame (and granted extensions) after notice from the Director or the Department of Transportation to remove, modify, replace or relocate such facilities pursuant to Section 3.3.2 or Section 9.2.1.

Notwithstanding anything set forth above in Section 10.1, in the event of the occurrence of any of the events described in Section 10.1(A), (B), or (C) above, with respect to removal and relocation not involving a risk to the public or the delay of a public purpose or project, Grantee shall be entitled to a grace period of fifteen (15) days in which to initiate action to cure or reverse any such event or occurrence and further provided that Grantee shall have provided the City with notice of the initiation of such action, facts to reasonably demonstrate to the City that Grantee is proceeding with reasonable diligence to pursue and conclude such action, and an estimated date of completion of such action, prior to the end of such fifteen (15) day grace period. Upon approval of the Director Grantee shall be entitled to an additional fifteen (15) day grace period in which to cure or reverse any such event or action. No liquidated damages shall accrue or be payable during such grace periods.

Section 10.2 Other Rights Of City.

The right of the Director to impose upon Grantee liquidated damages pursuant to Section 10.1 shall be in addition to any other rights or remedies the City has under this Ordinance, the Code or other applicable laws including the right of the Chicago City Council to repeal this Ordinance pursuant to Section 9 and the right of the Director under Section 11.2 to revoke the permit described in Section 11.1.

Section 10.3 No Waiver Of Rights.

The decision by the Director to forego the imposition of liquidated damages or other monetary sanctions in a particular instance shall in no way act to waive the City's rights under this Section with respect to subsequent violations of this Ordinance.

SECTION 11. Permit Needed.**Section 11.1 Permit.**

The permission and authority herein granted shall not be exercised until (i) Grantee has filed a written acceptance of the terms of this Ordinance executed by Grantee containing such representations and in such form as is satisfactory to the Director and the City's Corporation Counsel, (ii) proof of insurance as required in Section 6 hereof has been submitted to and approved by Risk Management, (iii) payment of the first year's Annual Fee of \$1,188.00 and the other amounts required in Section 5.1 has been made to the Department and (iv) a permit authorizing use of the Authorized Routes pursuant to the length of term specified in Section 2 has been issued to Grantee by the Commissioner of the Department of Transportation.

Section 11.2 Revocation Of Permit.

In addition to the provisions of Section 3.3.2, and of Section 7.4, the Director may revoke the permit referred to in Section 11.1 if Grantee at any time shall fail to comply with the provisions and conditions of this Ordinance and the Director, in exercise of his or her discretion, shall determine that revocation is necessary and proper. In case of such revocation, the City shall be entitled to its remedies hereunder, under the Code and under Illinois law. Such permit may be reinstated by the Director if the Director, in the exercise of his or her discretion, concludes that the cause of such revocation has been cured by Grantee in a timely fashion.

SECTION 12. Special Conditions.**Section 12.1 No Recourse.**

Except as expressly provided in this Ordinance or at law, Grantee shall have no recourse against the City for any loss, expense or damage resulting from the terms and conditions of this Ordinance or because of the City's enforcement thereof nor for the City's failure to have authority to grant the rights conveyed in this Ordinance. In applying for its permit pursuant to Section 11.1, Grantee will be deemed to agree to this Ordinance, relying upon its own investigation and understanding of the power and authority of the City to grant the Grantee the rights and privileges granted under this Ordinance.

The status of Grantee's membership shall be as a notice member, requiring that Grantee shall only pay the cost of hook-up and an annual participants fee which shall be approximately \$1,200 or such other amount as the board of C.U.A.N. shall determine and such fees as are charged by C.U.A.N. from time to time, for the transmission of notice or other information to Grantee solely with respect to Grantee's System or construction work to be performed in close proximity to Grantee's System. Other than the hook-up and transmission fees, Grantee shall have no obligation to pay the general operating expenses of C.U.A.N..

SECTION 13. Conflict Of Interest.

No payment, gratuity or offer of employment shall be made in connection with this Ordinance by or on behalf of any Contractors or subcontractors to the Grantee or higher tier subcontractors or anyone associated therewith, as an inducement for the award of contracts, subcontracts or orders. Any agreement entered into, negotiated or performed in violation of any of the provisions of Chapter 2-156 shall be voidable as to the City.

SECTION 14. Anti-Apartheid Covenant.

Grantee shall execute the appropriate Anti-Apartheid Affidavit (the "Affidavit") attached hereto as Exhibit 5.

The City may declare a default and terminate all existing contracts, including repeal of the Ordinance, with Grantee if the Grantee violates any provision of Chapter 3-68 of the Municipal Code of Chicago (as applicable), including but not limited to (i) a violation of the certifications contained in the Affidavit; (ii) the concealment of an existing contractual relationship or entering into a contractual relationship with (a) South Africa, (b) a South African business or (c) any business or corporation for the express purpose of assisting operations in, or trading with any private or public entity located in South Africa; (iii) the sale to the City of goods principally manufactured, produced, assembled, grown or mined in South Africa. This right of termination is supplemental to any other remedy which the City may have under this Ordinance, at law or in equity, and shall entitle the City to direct, indirect, special and consequential damages and any other applicable legal or equitable remedy.

Further, any person who violates any provision of Chapter 3-68 of the Municipal Code of Chicago shall be subject to a fine of not less than \$500 and not more than \$1,000 for each offense. Every day that the violation continues shall constitute a separate and distinct offense. This fine shall be in addition to the remedy of termination enumerated above, and any other remedy available under applicable law.

Notes 1 -- 5.

1. In accordance with Chapter 2-92-320 of the City of Chicago Municipal Code, the Contractor or a subcontractor shall be chargeable with the conduct of an affiliated entity. Business entities are affiliated if, directly or indirectly, one controls or has the power to control the other, or if a third person controls or has the power to control both entities. Indicia of control include without limitation: interlocking management or ownership; identity of interests among family members; shared facilities and equipment; common use of employees; or organization of a business entity following the ineligibility of a business entity under Chapter 2-29-320 of the City of Chicago Municipal Code using substantially the same management, ownership or principals as the ineligible entity.

2. No corporation shall be barred from contracting with any unit of State or local government as a result of a conviction, under either Section 33E-3 or Section 33E-4 of Article 33 of the State of Illinois Criminal Code of 1961, as amended, of any employee or agent of such corporation if the employee so convicted is no longer employed by the corporation and: (1) it has been finally adjudicated not guilty or (2) if it demonstrates to the governmental entity with which it seeks to contract and that entity finds that the commission of the offense was neither authorized, requested, commanded, nor performed by a director, officer or a high managerial agent in behalf of the corporation as provided in paragraph (2) of Subsection (a) of Section 5-4 of the State of Illinois Criminal Code.

3. For purposes of Section I of this certification, a person commits the offense of and engages in bid-rigging when he knowingly agrees with any person who is, or but for such agreement would be, a competitor of such person concerning any bid submitted or not submitted by such person or another to a unit of State or local government when with the intent that the bid submitted or not submitted will result in the award of a contract to such

person or another and he either (1) provides such person or receives from another information concerning the price or other material term or terms of the bid which would otherwise not be disclosed to a competitor in an independent noncollusive submission of bids or (2) submits a bid that is of such a price or other material term or terms that he does not intend the bid to be accepted. Ill. Rev. Stat., 1989, Ch. 38, §33E-3.

4. For purposes of Section I of this certification, a person commits the offense of and engages in bid-rotating when, pursuant to any collusive scheme or agreement with another, he engages in a pattern over time (which, for the purposes hereof, shall include at least 3 contract bids within a period of ten years, the most recent of which occurs after January 1, 1989) of submitting sealed bids to units of State or local government with the intent that the award of such bids rotates, or is distributed among, persons or business entities which submit bids on a substantial number of the same contracts. Ill. Rev. Stat., 1989, Ch. 38, §33E-4.

5. Chapter 24, §11-42.1-1 of the Illinois Revised Statutes provides that a municipality may not enter into a contract or agreement with an individual or other entity that is delinquent in the payment of any tax administered by the Illinois Department of Revenue unless the contracting party is contesting, in accordance with the procedures established by the appropriate Revenue Act, its liability for the tax or the amount of the tax or unless the contracting party has entered into an agreement to pay the tax and is in compliance with the Agreement. Notwithstanding the above, the municipality may enter into the contract if the contracting authority for the municipality determines that:

SECTION 1. Permission and authority are hereby given and granted to Americold Services, upon the terms and subject to the conditions of this ordinance to maintain and use as now constructed, an elevated railroad switchtrack across South Throop Street, from a point on the east line thereof three hundred eighty-one (381) feet north of the center line of West 16th Street, to a point on the west line thereof three hundred seventy-two (372) feet north of the center line of West 16th Street. Authority herein granted for a period of five (5) years from and after February 28, 1992.

The location of said privilege shall be as shown on print hereto attached, which by reference is hereby incorporated and made a part of this ordinance. Such privilege and the structures and appliances herein authorized shall be maintained and used in accordance with all applicable laws, including the ordinances of the City of Chicago, and the directions of the Commissioner of Streets and Sanitation, the Commissioner of Buildings, the Commissioner of Transportation and the Director of Revenue. The grantee shall keep that portion of the public way in, over, under or adjacent to said privilege in good condition and repair, safe for public travel, free from snow, ice and debris to the satisfaction of the Commissioner of Streets and Sanitation.

SECTION 2. The grantee shall pay to the City of Chicago as compensation for the privilege herein granted the sum of Three Hundred and no/100 Dollars (\$300.00) per annum, in advance. In case of termination of the privilege herein granted or the grantee transfers title or vacates its property, the grantee shall, nevertheless, remain liable to the City of Chicago for the annual compensation which shall become due and payable under the provisions hereof, until the structures and appliances herein authorized are removed and the public way is restored as herein required.

Further renewal authority for the continued maintenance and use of the public ways as herein described shall be obtained prior to the date of expiration of this ordinance.

SECTION 3. This ordinance is subject to amendment, modification or repeal, and permission and authority herein granted may be revoked by the Mayor of the City of Chicago and the Director of Revenue at their discretion, at any time for good cause without the consent of said grantee. Upon termination of the privilege herein granted, by lapse of time or otherwise, the grantee, without cost or expense to the City of Chicago, shall remove the structures and appliances herein authorized and restore the public way where disturbed by said structures or appliances or by the removal thereof, to a proper condition under the supervision and to the satisfaction of the Commissioner of Streets and Sanitation and in accordance with the City Municipal Code.

SECTION 4. In the event of failure, neglect or refusal of grantee so to perform any of its obligations under this ordinance, the City may, at its option, either (a) perform such work and charge the cost thereof to said grantee, or (b) determine what the cost of said work shall be and bill the grantee for said cost, or (c) combine the two methods. Immediately upon receipt of notice of such cost, grantee shall pay the City such amount.

SECTION 5. Grantee shall be responsible and pay for the removal, relocation, alteration, repair, maintenance and restoration of City-owned structures or appliances located in or adjacent to the public way including pavement, bridges, subways, tunnels, vaults, sewers, water mains, conduits, pipes, poles and other facilities and utilities, which are necessary or appropriate on account of grantee's use of the public way. The Commissioner of Streets and Sanitation is hereby authorized, in his or her discretion and from time to time during grantee's use and occupancy of the public way until the restoration of the public way, to determine the work which is or will be necessary or appropriate and the cost involved to perform such work. The Commissioner is authorized to collect a deposit prior to commencing any work and to charge grantee all actual costs for causing all such work to be performed. The decision of such Commissioner shall be final and binding. The grantee, upon receiving written notification from the Commissioner of Streets and Sanitation of the required deposit or the cost of such work, shall immediately pay or deposit such amount as directed by the Commissioner.

SECTION 6. The grantee shall furnish to the Department of Revenue, prior to issuance of the permit for this privilege, a Certificate of Insurance evidencing coverage in an amount not less than \$1,000,000 Combined Single Limit with said insurance covering all liability, both Public Liability and Property Damage that may result from the granting of said privilege. The following is said substitute ordinance transmitted with the foregoing committee report:

WHEREAS, Chicago is a city of neighborhoods with unique histories and special physical and architectural characteristics; and

WHEREAS, It is the intent of the City Council to arrest the proliferation of incompatible land subdivisions and developments within special established areas of the City; and

WHEREAS, It is the intent of the City Council to promote compatible infill development that respects the special features of established residential, business, commercial or manufacturing areas within the City and to provide a process for establishing special zoning district regulations for this purpose; and

WHEREAS, Traditional zoning regulations are inadequate for establishing the appropriate compatibility standards for new development constructed within existing neighborhoods with special or unique characteristics; and

WHEREAS, The City needs a mechanism whereby special neighborhood areas or unique districts can be afforded special zoning protections and whereby an area's special physical characteristics can be maintained; and

WHEREAS, Chicago is a home rule unit of local government as defined in Article VII, Section 6(a) of the Illinois Constitution and may exercise any power and perform any function relating to its government and affairs; and

WHEREAS, The Chicago City Council is authorized under Section 11.9-1 of the Chicago Zoning Ordinance to amend the text of the Zoning Ordinance; now, therefore,

Be It Ordained by the City Council of the City of Chicago:

SECTION 1. That Section 3.2 of Title 17 of the Municipal Code of Chicago, the Chicago Zoning Ordinance, is hereby amended by adding a new definition as follows:

Special District. A zoning district that has been established pursuant to the amendment procedures in Section 11.9A and which imposes special, supplemental zoning regulations for the use and development of land within such district.

SECTION 2. That Title 17 of the Municipal Code of Chicago, the Chicago Zoning Ordinance, is hereby amended by adding a new Section 11.9A, as follows:

Special District Amendments.

11.9A-1 Purpose.

The purpose of this section is to establish a process for amending the zoning ordinance to establish supplemental zoning regulations for certain established residential, business, commercial and manufacturing areas within the City which have unique cultural, historical and physical characteristics that contribute positively to the city's diversity and livability. Special supplemental zoning regulations are intended to reduce conflicts between new construction and existing development, encourage city beautification and conserve the character of the city's unique, established areas.

11.9A-2 Effect.

Special district regulations function as supplemental zoning requirements that apply in addition to existing zoning regulations. All existing zoning regulations shall apply except those which conflict with regulations imposed for a particular Special District. In case of conflict between special district regulations and existing, underlying zoning district regulations, the special district regulations shall govern.

11.9A-3 Minimum Size Requirements.

An area shall be eligible for designation as a Special District after a recommendation by the Plan Commission if it contains at least four (4) contiguous acres compactly configured and contiguous except for separation by a public way or railroad right-of-way.

11.9A-4 Procedure For Creation Of Special District.

(a) Initiation of Special District Amendment. An amendment to create a special zoning district may be proposed by the Mayor, members of the City Council, by the Commissioner of Planning and Development, the Zoning Administrator or by the owners of all property within a proposed Special District.

(b) Application Requirements. An application for an amendment to create a special zoning district shall be filed and notice given in the same manner as other amendments under Sections 11.9-3 and 11.9-3.1; provided, however, that upon receipt of any such application, the Zoning Administrator shall transmit an original copy without delay to the Commissioner of Planning and Development. All such applications shall be submitted by the Commissioner of Planning and Development to the Chicago Plan Commission for review within five (5) days after receipt thereof. The application shall address the factors to be considered by the Commissioner of Planning and Development and the Chicago Plan Commission and shall be submitted in a form acceptable to the Department of Planning and Development. At the time of application, the Commissioner shall determine whether an inventory of the unique characteristics of a Special District is necessary or whether a formal plan or set of design guidelines should be adopted by the Plan Commission and accompany the passage of a special district amendment.

(c) Department of Planning and Development -- Community Meeting and Report. Before a formal public hearing by the Plan Commission to consider recommending the designation of any area as a Special District, as provided for in Section 11.9A-4(d), the Commissioner of Planning and Development shall hold at least one public meeting in the ward in which the proposed district is located for the purpose of explaining the proposal, soliciting comments on it, and making findings regarding the factors listed in Section 11.9A-5. The Commissioner shall notify the alderman of the ward in writing of the time, place and purpose of the meeting and shall also publish notice of the same in a newspaper of general circulation within the ward. The Commissioner shall submit a written report and recommendation on the proposed special district amendment to the Plan Commission prior to the date scheduled for a formal public hearing before the Plan Commission. Failure to make such a recommendation

within such time shall be deemed to be a finding that the conditions necessary to justify adoption of a Special District do not exist.

(d) Plan Commission Review. Within seven (7) days of receipt of an application for a special district amendment, the Chicago Plan Commission shall schedule a public hearing and publish notice of the same, in the same manner required for planned developments, as set forth in Section 11.11-3 of this Ordinance; provided, however, that no special district amendment shall be considered by the Plan Commission in the absence of the report and recommendation of the Commissioner of the Department of Planning and Development. No special district amendment shall be considered by the City Council Committee on Zoning in the absence of the report and recommendation of the Plan Commission, which report shall include the report and recommendation of the Commissioner of Planning and Development and which report shall become a part of the record. The recommendation of the Plan Commission shall be based on findings with respect to the factors set out in Section 11.9A-5. Upon receipt of the report and recommendation of the Plan Commission, the Committee on Zoning of the City Council and City Council shall hold a hearing and take action on the proposal in the same manner set forth in Sections 11.9-5 through 11.9-7 for other zoning amendments.

(e) Compliance With Special District Regulations. The regulations for a particular Special District shall specify whether compliance with the special district regulations is to be determined by the Zoning Administrator or the Department of Planning and Development. After adoption of a special district ordinance, every application for a permit or license required under the zoning ordinance for a proposed use or development within the Special District boundaries shall be reviewed by the Zoning Administrator or, if required by the regulations adopted for a particular Special District, by the Department of Planning and Development. This review shall determine that the proposed use, building, structure or development plan complies with all the provisions of the special district ordinance. If the regulations applicable to a particular Special District require the Department of Planning and Development to determine compliance with one or more special district regulations, then zoning permits and occupancy certificates shall be issued by the Zoning Administrator for use of buildings or structures within the Special District only upon receipt of written approval by the Department of Planning and Development.

11.9-A-5 Factors To Be Considered.

In reviewing an application for a special district amendment filed pursuant to Section 11.9A-4, the Commissioner of Planning and Development, the Chicago Plan Commission and the City Council Committee on Zoning shall give consideration to the following factors:

(a) *Whether the proposed boundaries delineate a reasonably compact and contiguous area of at least four (4) acres;*

(b) *Whether unique zoning, platting or building characteristics predominate throughout the proposed district, including unique: uses, floor area ratios, maximum number of dwelling units, lot size, lot coverage, yards or setbacks, minimum street frontage, building entrances, building orientation, building height, exterior building materials and design, vehicular and pedestrian circulation patterns, signage, landscaping, amount or location of parking and loading or other unique zoning, platting or development features;*

(c) *Whether the existing zoning of the property, or any other existing zoning classification to which the property might be rezoned, would allow new development that is inconsistent with the unique characteristics within the proposed district;*

(d) *The area's importance to the City's heritage or identity, whether comprehensive plans exist for the area and the nature of recent and planned public and private investment within the area;*

(e) *Whether supplemental special district regulations are needed to maintain the stability and unique character of the area or to promote development that is consistent with any adopted comprehensive plans or design guidelines for the area; and*

(f) *The proportion of land within the proposed district that would become nonconforming if the special district amendment was approved.*

11.9A-6 Variations/Exceptions.

Within any established Special District, any applicant may seek exceptions or variations from the special district regulations, pursuant to the general exception or variation procedures set forth in the Chicago Zoning Ordinance, or variations in the nature of special uses, as authorized by existing or special district regulations, pursuant to the general procedures set forth in the Chicago Zoning Ordinance. In the case where an applicant seeks a variation in the nature of a special use, the applicant shall demonstrate that any proposed use will be compatible with the special district regulations applicable to a particular Special District.

SECTION 3. That Title 17 of the Municipal Code of Chicago, the Chicago Zoning Ordinance, is hereby amended by adding a new Article 10A, as follows:

Article 10A.

Special Districts.

The following special districts have been duly established in accordance with the purposes and procedures described in Section 11.9A of the Chicago Zoning Ordinance.

Waterway Planned Development

For

Plan Of Development Statements.

1. The area delineated herein as Waterway Planned Development (the "Planned Development") consists of approximately 1.17 acres of property which is depicted on the attached Property Line and Boundary Map (the "Property") and is owned or controlled by the Applicant, W.W. Grainger, Inc., an Illinois corporation.
2. The Applicant shall obtain all necessary official reviews, approvals or permits associated with the Planned Development.

All rights granted hereunder to the Applicant shall inure to the benefit of the Applicant's successors and assigns. Furthermore, pursuant to the requirements of Section 11.11-1 of the Chicago Zoning Ordinance, the Property, at the time applications for amendments, modifications or changes (administrative, legislative or otherwise) to this Planned Development are made, shall be under single ownership or control or single designated control. Single designated control for purposes of this paragraph shall mean that any application to the city for any amendment to this Planned Development or any other modification or change thereto (administrative, legislative or otherwise) shall be made or authorized by all the owners of the Property and any ground lessors. Nothing herein shall be construed to mean that any individual owner of the Property or any portion thereof is relieved of obligations imposed hereunder or rights granted herein or is not subject to City action pursuant to this Planned Development. In addition, nothing herein shall prohibit or in any way restrict the alienation, sale or any other transfer of all or any portion of the Property of any rights, interests or obligations therein. Upon any alienation, sale or any other transfer of all or any portion of the Property or the rights therein, except any assignment or transfer of rights pursuant to a mortgage or otherwise as collateral for any indebtedness, and solely with respect to the portion of the Property so transferred, the term Applicant shall be deemed amended to apply to the transferee thereof (and its beneficiaries if such transferee is a land trust) and the seller or transferor thereof (and its beneficiaries if such seller or transferor is a land trust) shall thereafter be released from any and all obligations or liability hereunder.
4. This Plan of Development consists of 15 statements, an Existing Zoning Map, a Property Line and Boundary Map, an Existing Land Use Map, an Existing Land Use Area Map, a Site/Landscape Plan prepared by Pence-Schwartz and Associates, Inc. (Architects), dated April 8, 1993, and Elevations prepared by Pence-Schwartz and Associates, Inc., dated April 8, 1993.

Full size sets of the Site/Landscape Plan and Elevations are on file with the Department of Planning and Development. The Planned Development is applicable to the area delineated herein and these and no other controls shall apply. The Planned Development conforms to the intent and purpose of the Chicago Zoning Ordinance, Title 17 of the Municipal Code of Chicago, and all requirements thereof, and satisfies the established criteria for approval as a Planned Development.
5. The following uses shall be permitted in the Planned Development subject to the conditions of this Planned Development: warehousing,

storage and wholesale distribution of industrial and commercial products and equipment and over-the-counter and shipped sales, with associated office use and product display.

6. Business identification signs shall be permitted subject to the review and approval of the Commissioner of the Department of Planning and Development.
7. Any dedication or vacation of streets or alleys, or easements or adjustments of right-of-way, or consolidation or resubdivision of parcels shall require a separate submittal on behalf of the Applicant and approval by the City Council.
8. Off-street parking and loading facilities shall be provided in compliance with this Planned Development and the Site Plan submitted herewith subject to the review of the Department of Transportation and the Department of Planning and Development. A minimum of 2% of all parking spaces shall be designated for the handicapped.
9. Any service drives or other ingress or egress shall be designed and paved in accordance with the regulations of the Department of Transportation in effect at the time of construction, and in compliance with the Municipal Code of Chicago, to provide ingress and egress for motor vehicles, including emergency vehicles. There shall be no parking within such paved areas. Ingress and egress shall be subject to the review and approval of the Department of Transportation, Bureau of Traffic Engineering and Operations and of the Commissioner of the Department of Planning and Development.
10. Height restriction of any building or any appurtenance thereto shall, in addition to the restrictions in Statement 12 and the Table of Use and Bulk Regulations and Data, be subject to:
 - a. Heights limitations as certified and approved by the Federal Aviation Administration; and
 - b. Airport zoning regulations as established by the Department of Planning and Development, Department of Aviation and Department of Law and approved by the City Council.
11. This Planned Development shall be subject to the "Rules, Regulations and Procedures in Relation to Planned Development Amendments" as promulgated by the Commissioner of the Department of Planning and Development and in effect on the date hereof.

12. The improvements on the Property, including the on-site exterior landscaping and the landscaping along the adjacent rights-of-way and all entrances and exits to and from the parking and loading areas, shall be designed, constructed and maintained in substantial conformance with the Site/Landscape Plan and the Elevations. In addition, the improvements on the Property shall be subject to the following regulations:

- a. Landscaping. Parkway trees shall be installed and maintained in accordance with the parkway tree planting provisions of the Chicago Zoning Ordinance.
- b. River Edge Improvements. The Applicant acknowledges the importance of the Chicago River as a resource for both commerce and recreation and also acknowledges the City's goals of improving the appearance and quality of Chicago's waterways, and, wherever possible, establishing a continuous landscaped walkway and bicycle path along Chicago's waterways. To further these goals, the Applicant agrees to set back all buildings and parking areas to a minimum of 25 feet from the existing river edge as depicted on the Site/Landscape Plan.

The river edge setback area shall be landscaped and improved as depicted on the Site/Landscape Plan simultaneously with construction of the proposed building. Upon construction of the paved pathway depicted on the Site/Landscape Plan, the Applicant shall provide additional landscaping as reasonably required by the Department of Planning and Development. The Applicant shall not be required to provide the paved pathway or install additional landscaping or make the setback area open to the public, unless and until similarly improved areas are available on both properties adjacent to the subject property. After installation, the pathway shall be open and available for use by the general public, free of charge, during the hours of 6:00 A.M. to 11:00 P.M. everyday (or any lesser time period which may be established by the Department of Planning and Development for the continuous pathway).

Notwithstanding any provision of this Planned Development, the requirement that a paved pathway and public access be provided along the river edge shall not be construed to require the Applicant to permit the public use of such pathway or access for any purpose other than pedestrian movement along the river edge or to restrict the Applicant's ability to close off public access from time to time to prevent the establishment of any public or constructive easements.

Applicant will use good faith efforts to promptly implement measures to prevent erosion of the existing shoreline; provided, however, the Applicant's rights to construct the proposed building and operate its business under this planned development ordinance shall not be affected if any necessary permits or approvals for such erosion control measures are not obtained.

13. The terms, conditions and exhibits of this Planned Development may be modified administratively by the Commissioner of the Department of Planning and Development upon the request of the Applicant and after a determination by the Commissioner that such a modification is minor, appropriate and consistent with the nature of the development of the Property contemplated herein and will not result in increasing the maximum floor area ratio for the total net site area in this Planned Development. Any such modification shall be deemed a minor change in the Planned Development as contemplated by Section 11.11-3(c) of the Chicago Zoning Ordinance.
14. The Applicant acknowledges that it is in the public interest to design, construct and maintain all buildings in a manner which promotes and maximizes the conservation of energy resources. The Applicant shall use best and reasonable efforts to design, construct and maintain all buildings located within this Planned Development in an energy efficient manner, generally consistent with the most current energy efficiency standards published by the American Society of Heating, Refrigeration and Air Conditioning Engineers ("A.S.H.R.A.E.") and the Illuminating Engineering Society ("I.E.S."). Copies of these standards may be obtained from the Department of Planning and Development.
15. Unless substantial construction has commenced within ten (10) years following adoption of this Planned Development and unless completion is thereafter diligently pursued, then this Planned Development shall expire; provided, however, that if the City Council amends the Chicago Zoning Ordinance to provide for a shorter expiration period which is applicable to all Planned Developments, then this Planned Development shall expire upon the expiration of such shorter time period as provided by said Amendatory Ordinance (the first day of which as applied to this Planned Development shall be the effective date of the Amendatory Ordinance). If this Planned Development expires under the provisions of this section, then the zoning of the property shall automatically revert to that of an M3-3 Heavy Manufacturing District.

WHEREAS, Global Committee utilizing their Student's Coalition of Conscience, Caretakers of Culture and Patriotism Project, has prepared a 120 foot laminated scroll with over 5,000 student names, inviting the President to lead the August 28 -- Dream Day Quest/parade in Chicago, Illinois; and

WHEREAS, The 9th Annual Dream Day Celebration is a special observance that commemorates the August 28, 1963 Dream March on Washington, led by Reverend Dr. Martin Luther King, Jr. that prompted the passage of the Civil Rights Bill of 1964 and this year's theme is the "Emancipating Dream and Patriotic Practice"; and

WHEREAS, Dream Day also commemorates the August 28, 1955 Nightmare (kidnap/lynching) of 14 year old Chicagoan, Emmett Till, that ignited the Civil Rights Renaissance of the 60s, when 600,000 viewed his remains and focused worldwide media attention on the unjust plight of American-born Blacks, due to white supremacy, segregation laws and institutionalized racism; and

WHEREAS, Emmett Till and Medgar Evers, a civil rights hero assassinated in the movement, are mentioned in Dr. King's "I Have a Dream" speech which is played in its entirety during the four block long Dream Day Quest/parade where black and white colors are worn in the Spirit of WAO (way-o, WeAreOne) in Humanity as a visible affirmation of cultural co-existence, patriotism and peace; and

WHEREAS, June 12, 1993 will mark the thirtieth anniversary of the assassination of Medgar Evers, the Student's Coalition of Conscience will salute him by highlighting their objective of honorarily naming a portion of Mann Drive, which runs through Marquette Park, where Dr. King was

WHEREAS, Global Committee, the only organization in the world that observes three days that coincide with the birth (January 15), death (April 4) and August 28 (Dream March on Washington) anniversaries of Dr. King in a color commemorated consciousness concept called the Days of Respect tradition to culturally capture the principles of human rights, nonviolence and peace, is working with a university in Canada to present the Days of Respect to the United Nations for global observance; and

WHEREAS, Dee D. Smith Simmons, founder of Global Committee Commemorating King Days of Respect, a Montessori educator, author, evangelist, activist and poet conceived the idea for Emmett Till Road and uses street namings as an educational tool for the dissemination of sacrifices and contributions to history and humanity made by American-born Blacks into the larger community to promote consciousness, social equality and institutional respect; and

WHEREAS, Dream Day will commemorate the one hundred thirtieth anniversary of slavery in America by recommending that President Clinton issue an "Emancipation Proclamation Part II" in remembrance of the "mental" abolition of slavery that has not been constitutionally addressed to enhance human relations and institutional respect by having all eighth grade public school students learn the "I Have a Dream" speech which he learned by heart as a youth and says is the "the greatest political speech ever given in the history of the world"; and

WHEREAS, Learning the "I Have a Dream" speech, along with the Gettysburg Address, as part of the eighth grade graduation exercise, will facilitate mental sui juris and promote the practice of Patriotic Principles in the Spirit of WAO America and overcome the legacy of damage done to the hearts and minds of slavery descendants due to the cycle of victimization that was not understood when Abraham Lincoln freed the body of the slave but left the mind in chains; now, therefore,

**ILLINOIS GENERAL ASSEMBLY URGED TO ADOPT
LIVE AND LEARN PROPOSAL.**

A proposed resolution, presented by Aldermen Schulter, Levar, Shiller, M. Smith and Moore reading as follows:

WHEREAS, Public libraries are irreplaceable public resources that all communities and all age groups rely on for access to books, periodicals and research materials that would not otherwise be available to non-specialists; and

WHEREAS, The Chicago Public Library was recently forced to reduce its operating budget because of reductions in the amount of monies allocated by the Illinois Library System to the various regional systems throughout the state; and

WHEREAS, In an effort to offset these reductions in available funds, Illinois Secretary of State George H. Ryan has introduced a 33 Million Dollar plan to establish new, permanent sources of revenue for Illinois libraries and the state's organ donor programs; and

WHEREAS, This program will be funded by increases in title and transfer fees paid by people purchasing new and used cars in Illinois so that 18.9 Million Dollars will be allocated to the state's library systems, 2 Million Dollars to the state's organ donor program and 12.1 Million Dollars to Secretary of State's office; and

WHEREAS, The Chicago Public Libraries will receive 2.6 Million Dollars which will go towards the restoration of hours at our City's branch libraries and for the Harold Washington Library to reopen on Mondays; and

WHEREAS, The Honorable Richard M. Daley, Mayor of the City of Chicago, has endorsed the Live and Learn proposal as a "creative solution to the library's funding crisis"; now, therefore,

Be It Resolved, That the members of the City Council of the City of Chicago call upon all members of the Illinois legislature to vote in favor of all the elements of the Live and Learn proposal so that libraries throughout the state will receive the fiscal support that is needed to ensure the survival and growth of these essential public resources.

The Commissioner shall approve only those locations which do not

substantially interfere with ordinary pedestrian, vehicular and utility use of the public ways. The boulders herein authorized to be located pursuant to such privilege shall be maintained and used in accordance with all applicable laws, including the ordinances of the City of Chicago, and the directions of the Commissioner of Transportation. The grantee shall keep that portion of the public way in, over, under or adjacent to said boulders in good condition and repair to the satisfaction of the Commissioner of Transportation.

SECTION 2. Permission and authority shall commence on May 10, 1993, and terminate on September 15, 1993. This ordinance is subject to amendment, modification or repeal, and permission and authority herein granted may be revoked by the Mayor of the City of Chicago and the Commissioner of Transportation at their discretion, at any time for good cause without the consent of said grantee. Upon termination of the privilege herein granted, by lapse of time or otherwise, the grantee, without cost or expense to the City of Chicago, shall remove the boulders placed in the public way and restore the public way where disturbed by said placement, maintenance or removal of said boulders to a proper condition under the supervision and to the satisfaction of the Commissioner of Transportation and in accordance with the City Municipal Code.

In the event of failure, neglect or refusal of grantee to perform any of its obligations under this ordinance, the City, at the direction of the Commissioner of Transportation, may, at its option, either (a) perform such work and charge the cost thereof to said grantee, or (b) determine what the cost of said work shall be and bill the grantee for said cost, or (c) combine the two methods. Immediately upon receipt of notice of such cost, grantee shall pay to or deposit with the City such amount, as directed.

SECTION 4. The grantee shall furnish to the Commissioner of Transportation, prior to issuance of the permit for this privilege, a Certificate of Insurance evidencing coverage in an amount not less than Two Million Dollars General Liability (One Million Dollars per occurrence) and One Million Dollars Automobile Liability with said insurance covering all liability, arising from injury or death of persons or damage or destruction of property that may result from the granting of said privilege. The Certificate of Insurance shall name the City of Chicago and its agents and employees as Additional Insureds and shall also clearly indicate that the privilege being granted by this ordinance is covered by the insurance policy. Certificates renewing such insurance coverages must be furnished to the Commissioner of Transportation no later than 30 days prior to the expiration of the policy. The aforementioned insurance coverage shall be maintained at all times by the grantee until boulders described in this ordinance are removed and the public way is restored as herein required.

SECTION 5. The Permittee(s) shall indemnify, keep and save harmless the City of Chicago, its agents and employees against all claims, liabilities, judgments, costs, damages and other expenses which may in any way arise

or accrue against, be charged to or recovered from the City, its agents or employees in consequence of the permission given by this ordinance, or any act or thing done or omitted or neglected to be done by the grantee, its agents or employees in and about the construction, reconstruction, maintenance, operation, use or removal of the authorized structures or appliances or the use, operation or restoration of the public way as herein permitted or required, including those arising from any personal injuries or death or damage or destruction of property.

Such permit shall be conditioned upon the faithful observance and performance of all of the conditions and provisions of this ordinance, including the obligations to indemnify, keep and save harmless the City of Chicago and provide insurance coverage. Such permit shall not be issued unless and until grantee has filed with the Commissioner a written acceptance of the terms and conditions of this ordinance, and evidence of the required insurance coverage.
