Rules Suspended -- CHICAGO POLICE OFFICER VINCENT JAMISON
HONORED FOR HEROIC ACTIONS ON APPREHENSION
OF VIOLENT OFFENDER.

The Honorable Richard M. Daley, Mayor, presented the following communication:

OFFICE OF THE MAYOR
CITY OF CHICAGO

November 19, 2008.

To the Honorable, The City Council of the City of Chicago:

LADIES AND GENTLEMEN -- I transmit herewith a congratulatory resolution concerning Officer Vincent Jamison of the Chicago Police Department, and his exemplary conduct during the events of September 13, 2008.

Your favorable consideration of this resolution will be appreciated.

Very truly yours,

(Signed) RICHARD M. DALEY,
Mayor.

Alderman Burke moved to *Suspend the Rules Temporarily* to permit immediate consideration of and action upon the said proposed resolution. The motion *Prevailed*.

The following is said proposed resolution:

WHEREAS, On the morning of September 13, 2008, off-duty Chicago Police Officer Vincent Jamison (Star Number 9727), who was in Utah to attend a law enforcement training camp, had just finished eating breakfast at a local IHOP pancake house on University Parkway in Orem, Utah, when he observed an apparently random attack taking place in the restaurant's parking lot; and

WHEREAS, A man and his girlfriend were saying good-bye to one another in the parking lot, when a stranger approached them, and began stabbing the man repeatedly in the face, arm and neck with a pair of fabric scissors; and

WHEREAS, Officer Jamison, a firearms instructor at the Chicago Police Education and Training Academy, witnessed the assault from a distance, while he was exiting the restaurant and standing outside the front door. Without hesitating, Officer Jamison rushed to break up the assault; and

WHEREAS, Not realizing at first that the assailant had a weapon, Officer Jamison identified himself as a police officer and ordered the man to stop the attack; and

WHEREAS, Seeing that the assailant was brandishing sharp scissors and was inflicting serious injury on his victim, Officer Jamison drew his gun and ordered the man to drop the scissors; and

WHEREAS, When the scissor-wielding man moved to stab his victim once again, Officer Jamison fired his weapon, striking the offender. The assailant then attempted to flee, but was apprehended by Officer Jamison, who detained him until local Orem police officials arrived at the scene; and

WHEREAS, It was subsequently learned that the assailant's car had broken down nearby, and he was trying to steal the victim's car; and

WHEREAS, The victim, a local doctor, has now recovered fully and the offender has been charged with attempted murder in the attack; and

WHEREAS, Under the circumstances, Officer Jamison's actions were nothing less than heroic. Officer Jamison's quick and decisive actions in the face of this horrific and wholly unanticipated event were praised by Orem's local police officials and reflected great credit on all of the men and women of the Chicago Police Department; and

WHEREAS, The victim would not be alive today if it were not for Police Officer Vincent Jamison, who, in keeping with the highest traditions of the Chicago Police Department, went beyond the call of duty to keep the peace and to protect an innocent bystander from harm; now, therefore,

Be It Resolved, That we, the Mayor and members of the City Council of the City of Chicago, assembled this nineteenth day of November, 2008, do hereby applaud Police Officer Vincent Jamison for his dedication, professionalism and valor; and

Be It Further Resolved, That a suitable copy of this resolution be presented to Police Officer Vincent Jamison, and placed on permanent record in his personnel file, as a token of our appreciation and esteem.

On motion of Alderman Burke, seconded by Aldermen Dowell, Balcer and Carothers, the foregoing proposed resolution was *Adopted* by yeas and nays as follows:

Yeas-- Aldermen Flores, Fioretti, Dowell, Preckwinkle, Hairston, Lyle, Jackson, Harris, Beale, Pope, Balcer, Cárdenas, Olivo, Burke, Foulkes, Thompson, Thomas, Lane, Rugai, Cochran, Brookins, Muñoz, Zalewski, Dixon, Solis, Ocasio, Burnett, E. Smith, Carothers, Reboyras, Suarez, Waguespack, Mell, Austin, Colón, Banks, Mitts, Allen, Laurino, O'Connor, Doherty, Reilly, Daley, Tunney, Levar, Shiller, Schulter, Moore, M. Smith Stone -- 50.

Nays -- None.

Alderman Carothers moved to reconsider the foregoing vote. The motion was lost.

At this point in the proceedings, the Honorable Richard M. Daley, Mayor, rose and on behalf of the people of Chicago, extended congratulations and expressed appreciation to off-duty Police Officer Vincent Jamison for his heroic actions in subduing a violent assailant. Lauding Officer Jamison for his willingness to become involved, Mayor Daley noted that while actions by law enforcement officers often face public scrutiny, the selfless and courageous response by Officer Jamison to a life threatening situation is emblematic of the men and women who have dedicated themselves to the service and protection of others. After calling the City Council's attention to the presence in the visitors' gallery of the family of Police Officer Vincent Jamison, Mayor Daley invited Officer Jamison to the Mayor's rostrum where he expressed his personal thanks and presented him with a parchment copy of the congratulatory resolution.

Rules Suspended -- PARAMEDIC IN CHARGE CHRISTINE LONA AND FIRE
PARAMEDIC ROBERT HICKEY OF CHICAGO FIRE DEPARTMENT
HONORED FOR HELP WITH EMERGENCY NATAL DELIVERY.

The Honorable Richard M. Daley, Mayor, presented the following communication:

OFFICE OF THE MAYOR
CITY OF CHICAGO

November 19, 2008.

To the Honorable, The City Council of the City of Chicago:

LADIES AND GENTLEMEN -- I transmit herewith a congratulatory resolution concerning Paramedic in Charge Christine Lona and Fire Paramedic Robert Hickey of the Chicago Fire Department, and their exemplary conduct during the events of October 21, 2008.

Your favorable consideration of this resolution will be appreciated.

Very truly yours,

(Signed) RICHARD M. DALEY,
Mayor.

Alderman Burke moved to *Suspend the Rules Temporarily* to permit immediate consideration of and action upon the said proposed resolution. The motion *Prevailed*.

The following is said proposed resolution:

WHEREAS, In the early evening of October 21, 2008, Ambulance 49 of the Chicago Fire Department's Bureau of Emergency Medical Services responded to a call for help with an emergency natal delivery at the 2300 block of West 72nd Street; and

WHEREAS, Upon arriving at the scene, the ambulance crew, under the direction of Paramedic in Charge Christine Lona and Fire Paramedic Robert Hickey, found a young woman giving birth in the back seat of an automobile. The woman had been in labor for many hours, with little progress; and

WHEREAS, Complications of a breech delivery, with the baby's feet presenting first, transformed the usual maternity scenario into a true medical emergency, with the possibility of a grim outcome for both mother and newborn; and

WHEREAS, Paramedic in Charge Lona took immediate control of the scene as she and Fire Paramedic Hickey moved the patient onto a stretcher and into the back of the ambulance. Fire Paramedic Hickey started an I.V. on the mother and administered oxygen; and

WHEREAS, Paramedic in Charge Lona concentrated on helping the mother focus on pushing and increasing the intensity of contractions to hasten the birth of her baby. In a short time, with manual pressure on the mother's abdomen during the next contraction, the baby emerged; and

WHEREAS, The baby boy was about two months premature and more fragile than a full-term infant. An early assessment and rating of the baby's condition were not encouraging, for the newborn's color was fair, but his movement and crying were minimal to absent; and

WHEREAS, The medics' first concern was to suction the baby's airway to improve breathing. Once this was done, they turned their attention to warming him. Several techniques were introduced, including the use of a special warming blanket; and

WHEREAS, The suctioning and warming resulted in a quick improvement in the infant's condition. With the situation stabilized, mother and infant departed by ambulance en route to the Little Company of Mary emergency room; and

WHEREAS, Due to the extraordinary care and professionalism displayed by Paramedic in Charge Christine Lona and Fire Paramedic Robert Hickey, the mother and her newborn baby survived this difficult delivery. The baby boy will now share the same birthday as his mother, a miraculous result to a potentially risky beginning; and

WHEREAS, This duo of responders used their considerable training and years of emergency experience to come to the rescue of a mother-to-be who was in desperate need. Under difficult, stressful conditions, the crew made quick decisions, exercised correct judgment and provided expert care, resulting in the successful delivery of a child who happened to choose a car as the unlikely setting for his entrance into the world; now, therefore,

Be It Resolved, That we, the Mayor and members of the City Council of the City of Chicago, assembled this nineteenth day of November, 2008, do hereby honor Paramedic in Charge Christine Lona and Fire Paramedic Robert Hickey of the Chicago Fire Department for their care, skill and exceptional efforts in bringing a medical emergency to a successful conclusion; and

Be It Further Resolved, That suitable copies of this resolution be presented to these members of the City of Chicago Fire Department, and placed on permanent record in their personnel files, as a token of our honor and esteem.

On motion of Alderman Burke, seconded by Aldermen Rugai and Carothers, the foregoing proposed resolution was *Adopted* by yeas and nays as follows:

Yeas-- Aldermen Flores, Fioretti, Dowell, Preckwinkle, Hairston, Lyle, Jackson, Harris, Beale, Pope, Balcer, Cárdenas, Olivo, Burke, Foulkes, Thompson, Thomas, Lane, Rugai, Cochran, Brookins, Muñoz, Zalewski, Dixon, Solis, Ocasio, Burnett, E. Smith, Carothers, Reboyras, Suarez, Waguespack, Mell, Austin, Colón, Banks, Mitts, Allen, Laurino, O'Connor, Doherty, Reilly, Daley, Tunney, Levar, Shiller, Schulter, M. Smith, Moore, Stone -- 50.

Nays -- None.

Alderman Carothers moved to reconsider the foregoing vote. The motion was lost.

At this point in the proceedings, the Honorable Richard M. Daley, Mayor, rose and on behalf of the people of Chicago, extended congratulations and expressed appreciation to Paramedic In Charge Christine Lona and Fire Paramedic Robert Hickey for their quick and decisive response to an emergency natal delivery. Citing the heroic yet too often unrecognized actions of the city's uniformed services; Mayor Daley hailed Paramedics Lona and Hickey for their professionalism and dedication and noted that such commitment to public service is shaped not only by personal integrity but through the guidance and support of nurturing and loving families. In recognizing the honorees for their heroic actions under extraordinary circumstances, Mayor Daley also commended the Chicago Fire Department which he declared the "best Fire Department in the country". After calling the City Council's attention to the presence in the commissioners' gallery of the families of Paramedic In Charge Christine Lona and Fire Paramedic Robert Hickey, Mayor Daley invited the honorees to the Mayor's rostrum where he expressed his personal thanks and presented each with a parchment copy of the congratulatory resolution.

(2) "Burglar alarm user" means the person or entity that owns, leases or subscribes to a burglar system, but does not include a private alarm company. (3) "False alarm" means a burglar alarm system activated in the absence of an emergency whether wilfully or by inadvertence, negligence or unintentional act, including any mechanical or electrical malfunction of the alarm system, to which the department of police is alerted for a response. A false alarm shall not include an alarm activated by a temporary surge or loss of electrical power or loss of telephone service to the burglar alarm user; the testing or repairing of telephone or electrical lines or equipment outside the premises if prior notice of the testing or repair is given to the department of police; unusually violent conditions of nature; an illegal entry, theft or robbery, or an attempt thereof; or an observable act of vandalism; where evidence of such activity exists.

(b) No burglar alarm user shall use a burglar alarm system that emits a false alarm. The building commissioner shall have the authority, pursuant to Section 2-22-040, to impose document review fees rather than the inspection fees specified in this Code this chapter and in Sections 11-4-160, 11-4-180, 13-192-740, and 14-40-170 which are assessed for annual, semiannual and periodic inspections required by this Code. The document review fee may be authorized upon submission to the commissioner of such documents as he may require which indicate that in a particular instance an inspection by the department of buildings is not necessary or that such inspection may be undertaken pursuant to the mandate of, rather than by, the department. Such documents may include reports, photographs, maintenance agreements, contracts, schedules and sworn affidavits regarding the item which is subject to inspection. ARTICLE IV - EXPEDITED LAND SALE PROCEDURE

SECTION 1. The below recitals are hereby adopted as the findings of the City Council:

1. The City of Chicago owns thousands of vacant land parcels with a zoning designation of RT-4 and lower (the "City Land Parcels").
2. The Department of Planning and Development, which is responsible for compiling and maintaining a list of such City Land Parcels, from time to time reviews the City's inventory of City Land Parcels and identifies parcels that have not previously been reserved or otherwise set aside for current or anticipated City development projects and are available for sale (the "City Surplus Land Parcels").
3. The City Council of the City (the "City Council") finds that it is necessary and appropriate to establish an efficient and expedited procedure for selling the City Surplus Land Parcels in order to return such parcels to the property tax rolls and generate additional revenues for the City from such sales.
4. Chapter 2-158-010 et seq. of the Municipal Code of the City currently sets forth certain procedures applicable to the sale of individual parcels of City-owned land through a sealed bid process.

5. The City Council finds that it is necessary and appropriate to establish a program whereby, through a similar sealed bid process, the City may also arrange for the efficient and expedited sale of the City Surplus Land Parcels.

SECTION 2. Sections 2-158-010 through 2-158-060 of the Municipal Code, inclusive, are hereby designated as "Article I - Standard Procedure."

SECTION 3. Chapter 2-158 of the Municipal Code of Chicago is hereby amended by adding a new "Article II - Expedited Procedure" as follows:

Article II - Expedited Procedure

2-158-070 Authorization.

The commissioner of community development or his designee (for purposes of this Article II, "commissioner") is hereby authorized to sell City Surplus Land Parcels in accordance with the procedures set forth in Section 2-158-090. For purposes of this Article II, "City Surplus Land Parcels" shall mean City-owned vacant land parcels with a zoning designation of RT-4 or lower that have not previously been reserved or otherwise set aside for current or anticipated City development projects and are available for sale.

2-158-080 Eligible parcels.

The City Surplus Land Parcels eligible for sale pursuant to this Article II shall be designated from time to time by ordinance passed by the city council. Such ordinance may designate parcels individually or as a group.

2-158-090 Procedures.

(a) Beyond the authorization conferred by this Article II, no ordinance authorizing the publication of a notice of a proposal to sell the City Surplus Land Parcels shall be required.

(b) The commissioner shall cause notice of a proposal to sell the City Surplus Land Parcels to be published in a newspaper of general circulation once each week for three consecutive weeks. Such notice shall specify, for each City Surplus Land Parcel, such parcel's: (i) address; (ii) permanent tax identification number ("PIN"); (iii) estimated value; and (iv) minimum bid price. Such notice shall also describe the qualifications of the buyers, the conditions under which the land will be sold, the date and time when all bids must be received (which shall be not less thirty (30) days after the date on which the first notice of the proposal is published) and such other matters as the commissioner deems necessary or appropriate.

(c) The department of community development (for purposes of this Article II, "department") shall determine the estimated value of the City Surplus Land Parcels in consultation with licensed appraisers qualified as vendors by the department of procurement services. A separate, MAI-certified market value appraisal shall not be required for each parcel.

(d) The department shall determine the appropriate marketing time for solicitation of offers to purchase. The department may sell the City Surplus Land Parcels as individual parcels, in pools of parcels, or in such other manner as the department may reasonably determine, subject to the approval of the corporation counsel. The department may re-advertise those parcels that failed to sell in the initial marketing period for sale in accordance with the terms of this Article II.

(e) The minimum bid price for the purchase of any City Surplus Land Parcel shall be no less than 60% of its estimated value as determined pursuant to paragraph (c) of this section. If any City Surplus Land Parcels are sold on a pooled basis, the minimum bid price for such pooled parcels shall be no less than 60% of the aggregate estimated value of the parcels in such pool.

(f) The City shall not pay any commissions, brokerage or finder fees, or other charges to any party representing a purchaser of any City Surplus Land Parcel(s).

(g) The department is authorized to sell the City Surplus Land Parcels on an "as is" basis and without imposing any additional requirements for the development of such parcels beyond those requirements that are generally applicable to the sale and development of privately-owned land. Notwithstanding the foregoing, any City Surplus Land Parcels located within a tax increment financing redevelopment project area must be redeveloped in accordance with the land uses set forth in the redevelopment project and plan for such area during the life of such redevelopment project area.

(h) For a bid to be responsive and acceptable, the bidder must provide the following information and submissions:

1. A completed application form listing the bidder's name and address, the address and P.I.N. of City Surplus Land Parcel(s), the minimum acceptable bid for the parcel(s), and the bidder's proposed purchase price;
2. Earnest money in the form of a certified check payable to the City of Chicago for an amount equal to five percent of the bidder's proposed purchase price for the City Surplus Land Parcel(s);
3. A signed affidavit that the buyer did not previously lose ownership of any proposed purchase parcel due to property tax delinquency;
4. Separate submissions must be made for each City Surplus Land Parcel offered for sale, unless any such parcels are offered on a pooled basis, in which case one submission may be made for such pooled parcels.

(i) Each City Surplus Land Parcel will be awarded to the highest bidder whose submission package is timely and complete (such winning bidder, together with any entity or

land trust of which such bidder is the owner and controlling party, the "purchaser"). The successful purchasers will receive written notice of their selection and the procedures for closing the purchase. Such closing and the purchaser's payment of the balance of the purchase price shall occur not later than ninety (90) days after the bid opening. The commissioner shall have discretion to extend such ninety (90) day period one time for a period of up to an additional thirty (30) days. In the event that the purchaser does not close within such required period, the City shall be entitled to retain the purchaser's earnest money deposit as liquidated damages and to offer the subject parcel(s) to the next highest bidder. The department is further authorized to refund deposit checks to the unsuccessful bidders.

(j) Before a closing can take place: (1) the department shall obtain from the department of revenue a current statement that the purchaser has no outstanding debt to the City. For purposes of this paragraph, "debt" means a specified sum of money owed to the City for which the period granted for payment has expired; and (2) the purchaser shall submit the Economic Disclosure Statement ("EDS") required by the city, containing the ownership information required by Chapter 2-154 of the code and the other representations, disclosures and acknowledgments contained in the EDS.

(k) The commissioner shall have the administrative discretion to adopt such forms, procedures and additional requirements as may be reasonably necessary to implement the sealed bid program described in this Article II, including the discretion to adopt an online or other electronic method of implementing such program.

(l) The mayor or his proxy is authorized to execute, and the city clerk is authorized to attest, quitclaim deeds from time to time conveying the City Surplus Land Parcels to the Purchasers, or to a land trust of which the purchaser is the sole beneficiary, or to a business entity of which the purchaser is the sole controlling party. The department shall not convey any City Surplus Land Parcel to, nor accept payment from, from any person or entity other than the purchaser.

2-158-100 Costs.

The department is authorized to charge purchasers for any recording and other third party costs associated with the preparing, recording and closing of the City's quitclaim deed, including any outside counsel fees incurred by the City, up to a maximum of Seven Hundred Fifty Dollars (\$750) in aggregate per parcel closing.

The certification shall be issued no later than 30 days after a complete application for an eligible location is received. A certification by the alderman of the ward in which the telephone is or is to be located setting forth facts establishing that it is not in the public interest for the telephone to

The preliminary hearing shall be informal and shall provide the registrant with an opportunity to address the reasons for the director commissioner's preliminary determination. If no preliminary hearing is requested or if the director commissioner determines that there is probable cause for revocation of the certificate of registration after the preliminary hearing, the director commissioner shall issue an order requiring the telephone and its appurtenances to be removed within seven days after the order is issued pending a final determination. Telephones that are not timely removed may be removed by a representative of the City of Chicago. The owner of a telephone for which a determination of probable cause for revocation of a certification of registration has been issued may contest such determination by timely removing the telephone and its appurtenances and by filing with the director of revenue a request for a final hearing within 14 days after removal in accordance with rules promulgated with the director. Prior to the exercise of exclusive jurisdiction by the department of administrative hearings in accordance with Section 2-14-190(c) of this Code, if, after a final hearing, the director of revenue determines that it is not in the public interest for the telephone to be located on the private property, or that the telephone has a deleterious impact on the surrounding neighborhood the director shall revoke the certification of registration for that telephone. After the exercise of exclusive jurisdiction by the department of administrative hearings in accordance with Section 2-14-190(c) of this Code, upon receipt of a request for a hearing, the director of revenue shall institute an action with the department of administrative hearings which shall appoint an administrative law officer who shall conduct the hearing and determine whether the certification of registration shall be revoked. Notwithstanding the exercise of exclusive jurisdiction by the department of administrative hearings, if no timely request for a final hearing is made the director of revenue shall revoke the certification of registration for that telephone. No certificate of registration may be issued for a telephone at a zoning lot with respect to which a previous certificate has been revoked for a period of one year after revocation. At the preliminary and the final hearing, the formal or technical rules of evidence shall not apply. Evidence, including hearsay, may be admitted only if it is a type commonly relied upon by reasonably prudent persons in the conduct of their affairs. The director may establish and impose a fee for preliminary and final hearings conducted under this section. 17-8-0500 Mandatory planned development thresholds.

Planned development review and approval, in accordance with the procedures of Sec. 17-13-0600, is required for all of the following.

17-8-0515 Expansions of Existing Development.

17-8-0515-A If an approved planned development is proposed to be expanded or changed, the regulations of Sec. 17-13-0611 apply.

17-8-0515-B Proposed expansions of any other existing development that will result in an increase in building height, lot area or number of dwelling units must be reviewed and approved in accordance with the planned development procedures of Sec. 17-13-0600 if the expanded development meets the threshold for a mandatory planned development.

2. For new construction in such locations, the ~~Commissioner of the Department of Planning and Development~~ Zoning Administrator is authorized to approve off-street parking ratio reductions of up to 25 percent if the Commissioner determines, based on information provided by the applicant, that transit use and alternatives to private automobile use will be actively promoted and/or that other factors are likely to result in automobile ownership rates that are lower than indicated by applicable off-street parking ratios.

3. The 600-foot distance specified in this section must be measured along a straight line between the rail station entrance and the entrance of the building for which the parking reduction is requested.

17-10-0102-D Small Dwelling Units. building permit is applied for 3 years or more after the date of the approval of the zoning change by the City Council.

(4) Subject to subsection (d)(2), for every planned development, the development of affordable housing shall be as follows:

(i) For every planned development that does not meet the eligibility requirements of subsection 17-4-1004-B of the Zoning Code and for which the city approves the rezoning of a lot as described in clauses (b)(1)(i), (ii) or (iii) or sells real estate to the developer, and in which a residential housing project is developed, the developer shall be required to establish ten percent of the housing units as affordable housing or the equivalent as provided in subsection (d).

(B) an amendment to a planned development agreement or other agreement is specifically authorized by the City Council after August 20, 2007 (the effective date of this 2007 amendatory ordinance); provided, however, that if such amendment authorizes the addition of floor area for the development of 10 or more housing units, the development of the additional housing units shall be subject to the affordable housing requirement of this subsection.

(c) Subject to subsection (d)(2), whenever financial assistance is provided to any developer in connection with the development of a residential housing project, the developer shall be required to establish 20 percent of the housing units as affordable housing or the equivalent as provided in subsection (d).

Such fees shall be deposited into the Affordable Housing Opportunity Fund, unless required to be deposited into another fund pursuant to federal or state law.

(2) The number of affordable housing units developed in a residential housing project may be less than ten percent as required by subsection (b) or less than twenty percent as required by subsection (c), if the developer develops on-site owner occupied affordable housing units at a price that is affordable to households earning up to eighty percent of the Chicago Primary Metropolitan Statistical Area median income, and the commissioner determines that the development of the lesser amount of such housing units is substantially equivalent to the developer's total affordable housing requirement pursuant to this section. The development of a housing unit pursuant to this clause shall be subject to all of the other provisions of this section.

(e) A separate fund is hereby established designated the Affordable Housing Opportunity Fund which shall be supported by the fees collected under this section. The revenues of the Affordable Housing Opportunity Fund shall be disbursed as follows:

(2) The seller of an affordable housing unit has sold the unit to a household that does not meet the eligibility criteria and has paid the recapture fees required by subsection (i) of this section; or

(3) The affordable housing unit is placed in or administered by the CLT, in which case the requirements of subsection (j) of this section shall apply.

(g) Except as provided in subsections (i) and (j) (i) of this section, the rental or sale of an individual affordable housing unit required under this section shall be made only to a household meeting the eligibility criteria.

(h) With respect to the development of residential housing projects and planned developments assisted by the city with tax increment revenues ("T.I.F. Funds") in redevelopment project areas established pursuant to the T.I.F. Act, to the extent that the requirements of this section conflict with the T.I.F. Guidelines, the T.I.F. Guidelines shall prevail.

To the extent that redevelopment plans approved pursuant to the T.I.F. Act provide that developers who receive T.I.F. Funds for market rate housing set aside 20 percent of the units to meet "affordability criteria established by the Department of Housing", the requirements of this section shall be deemed to be the "affordability criteria established by the Department of Housing" and shall supersede all others.

(i) Prior to the issuance of a building permit, for any planned development or residential housing project subject to the affordable housing requirements of this section:

(1) the developer shall pay an amount equal to the required fee in lieu pursuant to subsection (d)(1)(ii); or

(2) the commissioner shall cause a lien, regulatory agreement or similar instrument to be recorded, initially, prior to development, against the land comprising the planned development or residential housing project, and subsequently, in connection with the sale or rental of any affordable housing unit, against the land on which such affordable housing unit is located

to secure the requirements of this section and the recapture of the following amounts:

(i) Upon the initial sale of any housing unit required to be affordable housing under this section at a price that renders the housing unit not affordable housing, or to a household that does not meet the eligibility criteria, the developer shall pay an amount equal to the payment of fees in lieu of creating the affordable housing unit as provided in subsection (d)(1)(ii) of this section;

(ii) Upon the resale or transfer of any housing unit required to be affordable under this section at a price that renders the housing unit not affordable housing, or to a household that does not meet the eligibility criteria, the seller or transferor shall pay an amount equal to the difference, at the time of the initial sale, between the affordable housing unit's market value and its affordable housing price plus three percent per year interest from the date of the initial sale on that difference, unless the affordable housing unit is placed in or administered by the CLT, in which case the requirements of subsection (j) this section shall apply;

(iii) Upon the rental of any housing unit required to be affordable under this section at a rental price that renders the housing unit not affordable housing, or to a household that does not meet the eligibility criteria, the owner shall pay a fee of \$500.00 per unit per day for each day that the owner is in noncompliance; provided that prior to the assessment of the penalty, the owner shall have 90 days, after written notice from the commissioner, to cure the noncompliance. If after 90 days the owner fails to cure the noncompliance, the fees shall be assessed from the first day of noncompliance. The 90-day time period to cure the noncompliance may be extended by the commissioner for good cause;

(iv) Any fines or penalties imposed by the city for a violation of this section.

The fees collected under this subsection shall be deposited into the Affordable Housing Opportunity Fund, unless required to be deposited into another fund pursuant to federal or state law.

(j) Subject to prior notification to the alderman of the affected ward and approval of the commissioner, affordable housing units required to be provided pursuant to this section may be placed in or administered by the CLT. The initial rental or sale of such affordable housing units shall be subject to the income eligibility and price restrictions set forth in this section, but the resale or transfer of such affordable housing units, and the amounts subject to recapture in connection with a violation of the CLT's resale and transfer restrictions, shall be governed by the terms of a restrictive covenant, long-term ground lease, or similar instrument, designed to balance the competing goals of long-term affordability and providing a fair return on the homeowner's investment.

(k) Failure to pay the required fee in lieu or develop the on-site affordable housing units required by this section shall be a violation of this section punishable by a fine in an amount equal to two times the payment of fees in lieu required in subsection (d)(1)(ii) of this section and, in the case of a residential real estate developer licensed pursuant to chapter 4-40, the revocation of the developer's residential real estate developer license.

(l) The commissioner is authorized to adopt such rules and regulations as the commissioner may deem necessary for the proper administration and enforcement of this section.

(C) Notification To department – Required when. If the owner of an assisted housing development intends to prepay the mortgage, or to terminate participation in the federal program, or to sell or otherwise dispose of an assisted housing development, such owner shall so notify the department. Provided, however, that if an owner is not required under Section 8 of the Act to provide notice to tenants of the owner's intent to prepay the mortgage, or to terminate participation in the federal program or to sell or otherwise dispose of the development, the owner shall provide notice to the department in accordance with the requirements of subsection (F) of this section.

If, after an owner notifies or is required to notify under the Federally Assisted Housing Preservation Act the tenants of an assisted housing development of the owner's intent to prepay the mortgage, or to terminate participation in the federal program or to sell or otherwise dispose of the development, the tenants of such development (1) do not exercise their right under the Act to form a tenant association, or (2) fail to provide notice to the owner pursuant to Sections 4 or 6 of the Act, or (3) fail to meet any of the requirements of Section 7 of the Act, then it shall be unlawful for the owner to sell or otherwise dispose of the development to any qualified entity or non-qualified entity except in conformity with the requirements of subsection (E) of this section. Provided, however, that this prohibition on the sale or disposal of the development to a non-qualified entity shall not apply if the owner enters into an affordability preservation agreement, as defined in subsection (B) of this section, with a non-qualified entity.

(E) Contingent sales agreement – Right of first refusal – Required when. An owner may negotiate with any non-qualified entity that is interested in purchasing an assisted housing development. Provided, however, that any agreement of sale executed between the owner and such non-qualified entity shall be contingent upon the right of first refusal of a qualified entity, unless the owner enters into an affordability preservation agreement, as defined in subsection (B) of this section, with a non-qualified entity.

The contingent sales agreement required by this subsection shall contain the essential terms of the sale, including, at a minimum, the right of first refusal of a qualified entity; the sales price; the terms of seller financing, if any, including the amount, the interest rate and the amortization rate thereof; the terms of assumable financing, if any, including the amount, the interest rate and the amortization rate thereof; and, if applicable, any proposed improvements to the property to be made by the owner in connection with the sale.

Upon execution of such contingent sales agreement, the owner shall provide the commissioner with a copy of the agreement, which shall be a public record. Upon receipt of the contingent sales agreement, the commissioner shall immediately make a copy of such agreement available to all qualified entities for their review and consideration. Such qualified entities shall have a period of 120 days, measured from the date of receipt by the commissioner of a contingent sales agreement meeting the requirements of this subsection, to make a bona fide offer to the owner to purchase the affordable housing development from the owner on terms that are economically substantially identical to the terms of the contingent sales agreement submitted by the owner pursuant to the requirements of this subsection.

If, within the 120-day period provided for in this subsection, a qualified entity makes a bona fide offer to the owner to purchase the affordable housing development from the owner on terms that are economically substantially identical to the terms of the contingent sales agreement and agrees to close on the sale within 120 days from the date the parties sign the contract to purchase the development, the owner shall sell the affordable housing development to the qualified entity upon those terms. If more than one qualified entity submits an offer to purchase the affordable housing development, the owner shall select from among such offers and shall sell the development pursuant to the terms of the selected offer. The owner shall enter into an affordability preservation agreement with the qualified entity purchasing the affordable housing development. Nothing in this subsection shall be construed to require any owner to extend any form of owner financing to a qualified entity.

If, within the 120-day period provided for in this subsection, a qualified entity fails to make a bona fide offer to the owner to purchase the affordable housing development from the owner on terms that are economically substantially identical to the terms of the contingent sales agreement, or fails to agree to close on the sale within 120 days from the date the parties sign the contract to purchase the development, or fails to close on the sale within 120 days of such date, the owner may sell the development to the non-qualified entity identified in the contingent sales agreement submitted by the owner in accordance with the requirements of this subsection. Provided, however, that any substantial deviation in the terms of sale from those set forth in such contingent sales agreement or the failure of the non-qualified entity identified in such contingent sales agreement to close on the sale of the development shall require the owner to resubmit any new terms of sale to the commissioner for distribution to all qualified entities in conformity with the requirements of this subsection.

(F) Duties of owners exempt from compliance with the State Act. Except as otherwise provided in subsection (G) of this section, if an owner is not required under Section 8 of the Federally Assisted Housing Preservation Act to provide notice to tenants of the owner's intent to prepay the mortgage, or to terminate participation in the federal program, or to sell or otherwise dispose of the assisted housing development, such owner shall provide such notice to the department, not less than 12 months before the prepayment, termination, sale or disposal occurs, in conformity with the applicable requirements of subsection (C) of this section. It shall be unlawful

for such owner to sell an affordable housing development to any qualified entity or non-qualified entity except in accordance with the requirements of subsection (E) of this section. Provided, however, that this prohibition on the sale or disposal of the development to a non-qualified entity shall not apply if the owner enters into an affordability preservation agreement, as defined in subsection (B) of this section, with a non-qualified entity.

(G) Exceptions. Notwithstanding any other provision of this section, the requirements of this section shall not apply to (1) any sale or other disposition of assisted housing in a manner pursuant to which the development, after the sale or other disposition, continues to be assisted housing as defined in subsection (B) of this section; or (2) any government taking of an assisted housing development by eminent domain or negotiated purchase; or (3) any forced sale of a development to an entity not affiliated with the owner pursuant to a foreclosure; or (4) any other involuntary sale, transfer or other disposition of assisted housing which occurs without the consent (whether direct, indirect, express or implied) of the owner of such assisted housing.

(H) Duties of owner relative to existing tenancies. To the extent allowed by H.U.D., an owner shall (1) maintain in good standing any available H.U.D. Section 8 contract, executed pursuant to the United States Housing Act of 1937, as amended, during the notice period set forth in subsection (C) of this section and during both of the 120-day periods identified in subsection (E) of this section; and (2) refrain from taking any action, other than notifying H.U.D. of the owner's intention to prepay the mortgage, or to terminate participation in the federal program or to sell or otherwise dispose of the development, that would preclude a qualified entity or other potential purchaser of the development from succeeding to the contract or negotiating with the owner for purchase of the development during the time periods set forth in item (1) of this subsection. No owner shall disturb any tenancy, other than for a just cause eviction, during the time periods set forth in item (1) of this subsection.

(I) Duties of the commissioner – Qualified entities – Eligibility criteria. The commissioner shall establish and maintain a list of qualified entities who are interested in and capable of maintaining an assisted housing development in a manner that preserves the development's existing affordability restrictions or qualifies the housing development as affordable housing within the meaning of the Illinois Affordable Housing Act. No entity shall be deemed to be a qualified entity by the commissioner, unless such entity is capable of demonstrating compliance with the following eligibility criteria:

- (1) a history of providing safe and sanitary affordable housing services;
- (2) sufficient capacity to provide additional affordable housing services in the City, demonstrated through the adequacy of current fiscal and administrative resources;
- (3) a history of encouraging and facilitating resident participation while providing affordable housing services;
- (4) a history of sound fiscal management of affordable housing services; and
- (5) adoption of, and compliance with, standards of financial accountability that conform to applicable state and/or federal law.

The commissioner shall (i) ensure that all notices and contingent sales agreements received by the department from owners pursuant to the requirements of this section are posted on the City of Chicago website without delay; (ii) periodically notify owners of assisted housing developments of the owner's duties and obligations under this section; and (iii) remove from the list of qualified entities any entity that fails to continue to meet the eligibility criteria set forth in items (1) through (5) of this subsection.

(J) Rules and regulations. The commissioner shall have the authority to promulgate rules and regulations necessary to implement the requirements of this section.

(K) Penalties. Any person who violates this section shall be fined not less than \$200.00 nor more than \$1,500.00 for each offense. Each day that a violation continues shall constitute a separate and distinct offense to which a separate fine shall apply.

(L) Private right of action. Any aggrieved person including, but not limited to, any tenant

or tenant association, may enforce the provisions of this section by means of a civil action in which the court may provide injunctive relief or award treble damages and the plaintiff's court costs and reasonable attorney fees.

(M) Remedies cumulative. The penalties and remedies provided in this section shall be in addition to any other penalty or remedy provided by law.

2-45-150 Condominium conversion of subsidized rental property.

(A) If the owner of a property containing subsidized housing records a declaration pursuant to the requirements of the Condominium Property Act, codified at 765 ILCS 605/1, et seq., as amended, such owner shall so notify the department. Such notification shall be given to the department on the same date that the owner records or is required to record the declaration. The notice required by this section shall be delivered in person or mailed to the commissioner by certified mail, return receipt requested, on a form provided by the department, and shall contain the following information: (1) whether the property owner has notified the tenants of the property identified in the declaration that a declaration has been filed, and, if so, the date the tenants were so notified; (2) the estimated time frame of conversion; (3) whether the owner has a relocation plan for tenants, and, if so, the nature of the plan; and (4) whether federal funds are being used for the conversion, and, if so, the nature of the federal funds, including any affordability restrictions on the use of such funds. Upon receipt of the notice, the commissioner shall immediately make a copy of such notice available to any entity designated as a qualified entity pursuant to Section 2-45-140 of this code. Any person who violates this section shall be fined not less than \$500.00 nor more than \$1,500.00 for each offense. Each day that a violation continues shall constitute a separate and distinct offense.

(B) As used in this section:

"Declaration" means the declaration referred to in the Condominium Property Act.

"Subsidized housing" means any housing or unit of housing subject to a Section 8 contract with the United States Department of Housing and Urban Development entered into pursuant to Section 8 of the United States Housing Act of 1937, as amended.

2-92-325 Predatory lenders.

(a) No financial institution shall be awarded a contract with the city if the financial institution, or any of its affiliates, has been determined by the chief financial officer or the city comptroller to be a predatory lender. For purposes of this section, "financial institution", "predatory lender" and "affiliate" shall have the meaning ascribed to the terms in Section 2-32-455.

(b) With each bid submitted by a financial institution for any contract with the city there shall be a pledge signed by the chairman of the board, chief executive officer or other officer of the financial institution acceptable to the chief financial officer or the city comptroller. The pledge shall be in substantially the following form:

We pledge that we are not and will not become a predatory lender as defined in Chapter 2-32 of the Municipal Code of Chicago. We further pledge that none of our affiliates is, and none of them will become, a predatory lender as defined in Chapter 2-32 of the Municipal Code of Chicago. We understand that becoming a predatory lender or becoming an affiliate of a predatory lender may result in the loss of the privilege of doing business with the city.

(c) Nothing in this section shall affect the validity of any contract entered into in connection with any debt obligations issued by or on behalf of the city prior to a determination by the chief financial officer or the city comptroller that an entity participating in the contract is a predatory lender. Any other contract awarded in violation of this section shall be voidable at the option of the city.

(d) The chief financial officer or the city comptroller, together with the chief procurement officer and the commissioner of housing community development, may suspend the ineligibility of a financial institution in order to allow execution of a contract with the financial institution upon written application by the head of a city agency or department affected by the proposed contract, setting forth facts sufficient in the judgment of the chief procurement officer to establish:

(i) that the public health, safety or welfare of the city requires the goods or services of the financial institution; and

(ii) that the city is unable to acquire the goods or services at comparable price and quality, and in sufficient quantity from other sources.

2-92-440 Award goal – Implementation.

In order to achieve the goal stated in Section 2-92-430 of this chapter, the chief procurement officer shall undertake, in addition to the other measures provided herein, the following measures:

(a) Insert within specifications for each contract let through competitive bidding with an estimated value in excess of \$10,000.00 a requirement that the contractor commit to the expenditure of at least the M.B.E. percentage of the dollar value of the contract with one or more M.B.E.'s and at least the W.B.E. percentage of the dollar value with one or more W.B.E.'s. This commitment may be met by the contractor's status as M.B.E. or W.B.E., or by joint venture with one or more M.B.E.'s or W.B.E.'s as prime contractor (to the extent of the M.B.E. or W.B.E. participation in such joint venture), or by subcontracting a portion of the work to one or more M.B.E.'s or W.B.E.'s, or by purchase of materials or services for the work from one or more

M.B.E.'s or W.B.E.'s, or by the indirect participation of M.B.E.'s or W.B.E.'s in other aspects of the contractor's business (but no dollar of such indirect M.B.E. or W.B.E. participation shall be credited more than once against a contractor's M.B.E. or W.B.E. commitment with respect to all contracts of such contractor), or by any combination of the foregoing;

(Omitted text is unaffected by this ordinance)

(i) Include with the bid specifications for each competitively bid contract a list of certified M.B.E.'s and W.B.E.'s that are available to perform the work required by the specifications or otherwise make such a list available to potential bidders;

(j) Working with the department of planning and community development, review the bonding and insurance requirements applicable to M.B.E.'s and W.B.E.'s and evaluate methods for reducing the burden imposed by such requirements consistent with the protection of the city's interest;

(k) To the extent practicable, ensure that M.B.E./W.B.E. invoices for payment are processed expeditiously by the relevant city user departments;

(l) Working with the board, issue rules and regulations relating to the credit program;

(m) Working with the law department, issue rules and regulations relating to appeals of the decisions of the chief procurement officer under the program;

(n) Issue rules and regulations to implement the procedures designed by the contract compliance officer.

2-92-460 Target market program.

In order to achieve the goal stated in Section 2-92-430 of this chapter, the chief procurement officer shall develop and coordinate a target market program including the following elements:

(a) In January of each year the chief procurement officer shall estimate the dollar value of all contracts to be awarded by the city during that year and shall multiply that total by the M.B.E. target market percentage and the W.B.E. target market percentage for that year. Contracts with an estimated dollar value equal to such products shall be set aside (prior to advertisement in the case of contracts to be awarded by bid) to be let only to qualified M.B.E.'s and qualified W.B.E.'s, respectively.

(b) The chief procurement officer shall work with the officers, departments and agencies of the city and the board to determine the appropriate designation of contracts as target market contracts. To the extent practicable, the chief procurement officer shall divide the procurements so designated into contract award units of economically feasible production runs in order to facilitate offers or bids from M.B.E.'s and W.B.E.'s. In making his annual designation of target market contracts, the chief procurement officer shall attempt to vary the included procurements so that a variety of goods and services produced by different M.B.E.'s and W.B.E.'s shall be set aside each year. M.B.E.'s and W.B.E.'s shall remain eligible to seek the procurement award of contracts which have not been designated as target market contracts.

(c) D.P.S. shall develop a list of M.B.E.s and W.B.E.s who are interested in participating in the target market program, including the type of contract in which each M.B.E. and W.B.E. is interested in participating. D.P.S. may make participation in the target market program dependent upon submission to stricter compliance audits than are generally applicable to participants in the program. No contract shall be eligible for inclusion in the target market program unless the list developed by D.P.S. indicates that there are at least three qualified M.B.E.s or W.B.E.s interested in participating in that type of contract. D.P.S. may develop guidelines to regulate the level of participation of individual M.B.E.s and W.B.E.s in the target market program in order to prevent the domination of the target market program by a small number of such entities. Where necessary or useful, D.P.S. may require M.B.E.s and W.B.E.s to participate in training programs offered by the

department of ~~planning and~~ community development or other city departments or agencies as a condition to participation in the target market program.

(d) Participation in the target market program shall be limited to M.B.E.s, W.B.E.s and joint ventures consisting exclusively of M.B.E.s, W.B.E.s or both. The prime contractor on a target market contract may subcontract up to 50 percent of the dollar value of the target market contract to subcontractors who are not M.B.E.s or W.B.E.s.

(e) D.P.S. may include in the target market program contracts which are funded by the state or federal government and may vary the standards of eligibility of the target market program (for example, by allowing the participation of D.B.E.s,) to the extent necessary to comply with the requirements of the government agency supplying the funding.

(f) If no satisfactory bid or response is received with respect to a contract which has been designated as part of the target market program, D.P.S. may delete such contract from the target market program, in which case the contract shall be subject to the requirements of Section 2-92-440 of this chapter. In addition, the chief procurement officer shall thereupon designate and set aside for the target market program additional contracts corresponding in approximate value to the contract which was deleted from the target market program, to the extent feasible.

(g) In order to facilitate the performance of target market contracts by M.B.E.'s and W.B.E.'s, the chief procurement officer may expedite payments under target market contracts, may reduce retainages under target market contracts where appropriate and may pay the contractor a portion of the value of a target market contract at the time of award as an advance to cover start-up and mobilization costs.

(a) The following terms are defined for the purposes of this chapter, as follows:

(1) "Parade" means any march, procession or other similar activity consisting of persons, animals, vehicles or things, or combination thereof, upon any public street, sidewalk, alley or other public place, which requires a street closing or otherwise requires police officers to stop or reroute vehicular traffic because the marchers will not comply with normal and usual traffic regulations or controls. "Large parade" means any parade that is held in the "central business district", as defined in Section 9-4-010, and any parade that is anticipated to require city services exceeding \$20,000.00 in value, to be adjusted for inflation in a manner specified by regulation.

(2) "Public assembly" means (i) a company of persons which is reasonably anticipated to obstruct the normal flow of traffic upon the public way and that is collected together in one place, or (ii) any organized march or procession of persons upon any public sidewalk that is reasonably anticipated to obstruct the normal flow of pedestrian traffic on the public way, but which does not meet the definition of parade set forth in this subsection.

(3) "Athletic event" means any event involving the conduct of exercises, sports or games which is reasonably anticipated to obstruct the normal flow of traffic upon the public way.

(c) A person, partnership, voluntary association or other organization seeking to obtain a parade permit shall file an application with the ~~executive director~~ commissioner in the same calendar year as, and not less than 15 business days before, the date for which the parade is proposed, unless the requested permit is for a parade to be held in January, in which case the application must be filed not less than 15 business days before, and not more than one year before, the date for which the parade is proposed. The ~~executive director~~ commissioner shall, however, consider an application for a parade which is filed less than 15 business days before the proposed event, where the purpose of such event is a spontaneous response to a current event, or where other good and compelling causes are shown.

(d) A person, partnership, voluntary association or other organization seeking to obtain an athletic event permit shall file an application with the ~~executive director~~ commissioner in the same calendar year as, and not less than 45 days before, the date for which the athletic event is requested, unless the requested permit is for an event to be held in January or February, in which case the application must be filed 45 days before the date for which the athletic event is requested.

(e) No person or organization may submit more than one application for the same parade date and route, or for a parade substantially similar in theme or units described but requesting an alternate date or route, whether using the same name, different names, or different

affiliations that the person or organization may control or be a member of. No person or organization may submit an application on behalf of another person or entity that is also filing such an application. Where a person or organization submits multiple applications for the same parade date and route, or for a parade substantially similar in theme or units described but requesting an alternate date or route, whether by using one name or multiple names, that person or organization shall not be eligible for such a permit and shall be in violation of this ordinance. The executive director commissioner is authorized to disregard any such multiple applications and to deny any permit on the basis of a violation of this subsection. Any applicant who disagrees with the executive director commissioner's actions hereunder may appeal, in the manner set forth in subsection (m).

(f) The application for a parade or athletic event permit shall contain the following information, which must be updated by the applicant as circumstances change:

(1) The name, address, and day-time telephone number of the person signing the application, and the organization with which that person is affiliated or on whose behalf the person is applying, if applicable;

(2) Where an organization is involved in requesting a permit, which includes voluntary associations entered into for the purpose of organizing a parade or athletic event, the name, address, day-time telephone number, pager number, if applicable, and fax number, if available, of the authorized and responsible leaders of the organization conducting the parade or athletic event; and where the applicant at a later date becomes affiliated with an organization for purposes of producing a parade or athletic event, this information shall be submitted at such time;

(3) The name, address, day-time telephone number, pager number, if applicable, and fax number, if available, of one individual who shall be designated as the responsible planner and on-site manager for the event, which person shall be referred to for purposes of this section as the parade organizer, where applicable, or the event organizer; and where the parade organizer or event organizer is not designated until a later date, this information shall be submitted at such time;

(4) The date of the proposed parade or athletic event and the hours that it will commence and terminate;

(5) The location and exact street address of the assembly and disbanding area and the time when the parade or athletic event will begin to assemble and disband;

(6) The approximate number of persons and vehicles, floats or other units to participate in the parade or athletic event and the basis on which this estimate is made;

(7) The route along which the parade or athletic event will proceed and the sidewalks or lanes of traffic it will occupy; and

(8) A list identifying the type and number of all animals that applicant intends to have at the parade or athletic event.

The application for a parade or athletic event permit shall be accompanied by a nonrefundable processing fee of \$35.00.

(g) The executive director commissioner shall investigate the facts set out in the application, in consultation with the mayor's office of special events and the police department, which shall be sent copies of the application immediately upon receipt. Where the executive director commissioner determines that additional information on the factors set forth in subsection (h)(1) - (3) is required, copies of the application and a request for such information also shall be sent to any of the persons and entities listed below. Where the executive director commissioner determines that any of such persons or entities may need to make advance preparations for the permitted event, or may have information useful to planning for city services supporting the event, a copy of the granted permit or an alternative form of notice, shall be sent to any of the following listed persons or entities:

- (1) the department of streets and sanitation;
- (2) the fire department;
- (3) the department of law;

- (4) the Chicago Transit Authority;
- (5) the Chicago Park District;
- (6) the police department's local district commander for the district in which the parade or athletic event is to be held;
- (7) the director of the commission on animal care and control; and
- (8) the department of transportation office of emergency management and communications.

The executive director commissioner shall send a copy of each permit application to the alderman of the ward or wards in which the parade or athletic event is to be held, with a request for any information on the factors set forth in subsection (h)(1) – (3), and also shall send a copy of the grant or denial of such permit. Every February 1st and August 1st the executive director commissioner shall send to the special events and the transportation committees of the city council of the City of Chicago a list of all parade and athletic event permits granted which have not previously been reported.

(h) After such investigation, the executive director commissioner shall issue a permit when he or she finds that:

(1) the proposed activity will not substantially or unnecessarily interfere with traffic in the area contiguous to the activity, or that, if the activity will substantially interfere with such traffic, that there are available at the time of the proposed activity sufficient city resources to mitigate the disruption;

(2) there are available at the time of the parade or athletic event a sufficient number of peace officers and traffic control aides to police and protect lawful participants in the activity and non-participants from traffic related hazards in light of the other demands for police protection at the time of the proposed event or activity;

(3) the concentration of persons, animals, vehicles or things at the assembly and disbanding areas and along the parade or athletic event route will not prevent proper fire and police protection or ambulance service;

(4) the event will not be conducted for any purpose or in any manner made unlawful elsewhere in this code or by state or federal law;

(5) an applicant for an athletic event permit has complied with subsection (n) herein;

(6) if the application is for an athletic event for which fees will be charged for participation in the event, the proposed athletic event will be in the best interest of the city in light of (i) the apparent ability of the applicant to comply with the requirements of this section, and (ii) the willingness and financial ability of the applicant to conduct the event in a manner appropriate to the type of the event, and to pay any prizes that the applicant has advertised or is likely to advertise. In making a determination under this paragraph (6), the executive director commissioner may consider the experience of the applicant in conducting the same or similar events, and may require additional information from the applicant with respect to the proposed event and the applicant's financial situation;

(7) the proposed activity will not interfere with the use of requested area by another party to whom a valid permit has been issued for the same area or route, or does not conflict with another application, or with a traditional parade, as defined in subsection (l); and

(8) the application contains sufficient information about the proposed route and crowd.

(i) Except as otherwise provided in this subsection, all applications for any parade or athletic event permit shall be processed on a first-in-time basis.

With respect to parade permits, during the first two business days of each calendar year, the executive director commissioner shall accept all applications for a parade permit filed hereunder without giving priority to applications filed first in time. For purposes of calculating the decision times set forth in this section, all applications filed within the first two business days of the calendar

year shall be deemed as filed on the third business day of the year.

Where a parade has been conducted on or about a certain date, on a substantially similar route, and in connection with a specific holiday or consistent theme, for at least the prior five years, it shall be referred to herein as a traditional parade, and it shall be given a preference to continue on that date and route for the purpose of protecting the expectations and enjoyment of the public. Every December, the ~~executive director~~ commissioner shall contact the prior year's organizer for each traditional parade to ascertain whether the parade shall continue, and he or she shall publish a list of traditional parades that shall be given preference in the permit assignment process. Where the prior organizer of a traditional parade has been consistent and is ascertainable, that person or organization shall be given the preference. Where two or more applications are filed purporting to represent the prior organizer of a traditional parade, or where there have been different organizers over the past five years, or where there is any type of dispute regarding which person or organization should receive the traditional parade preference, the ~~executive director~~ commissioner may request those involved to submit documentation to resolve such conflict. Where the ~~executive director~~ commissioner finds no clear resolution of the conflict, he or she shall conduct a lottery to select the permittee, and shall notify each applicant in writing of the existence of the conflict and of the date, time and place of the lottery. Any applicant who disagrees with the ~~executive director~~ commissioner's actions hereunder may appeal, in the same manner as set forth in subsection (m).

Where there is a conflict between two or more applications filed during the first two business days and not involving a traditional parade, or between any such application and a traditional parade, the ~~executive director~~ commissioner shall evaluate whether the conflict could be resolved by assigning the applicants consecutive times on the same day and route, giving consideration to criteria set forth in the regulations. Where the ~~executive director~~ commissioner finds that consecutive times are appropriate, he or she shall notify each applicant that the permit shall be granted for the specified alternative time. For those applicants who are not assigned their requested time period, such notice shall be treated as a denial and offer of alternative, under subsection (1), for purposes of the five-day time period in which to file an acceptance or appeal. Where consecutive times are not deemed appropriate, then the traditional parade shall receive the permit, as set forth above. With respect to any remaining conflicts among permit applications, the ~~executive director~~ commissioner shall notify the applicants that the conflict shall be resolved by lottery, and of the date, time and place of the lottery. Within seven days after the lottery, the applicants not chosen may submit alternative preferences to the ~~executive director~~ commissioner. Any requests for alternative preferences submitted by applicants under this subsection shall be treated as a new application, for purposes of all time limitations under this section, and any conflicts arising among the alternative preferences shall be resolved in accordance with the procedures set forth herein. Except as described in this subsection for traditional parades, applications for a parade permit received during the first two business days of the calendar year shall be given priority over applications received thereafter.

(j) The ~~executive director~~ commissioner shall take action upon the application for a parade permit, and provide notice thereof, within five business days after the filing thereof or, if any lottery is held pursuant to paragraph (h) of this section, within five business days of the lottery, except that where the purpose of such event is a spontaneous response to a current event, or where other good and compelling cause is shown, the ~~executive director~~ commissioner shall act within two business days. Notice shall be by facsimile transmission or telephonically and by mail directed to the applicant, stating the facts and conclusions which are the basis for any denial of the permit and, if the action taken is setting a lottery date or offering a consecutive time, then describing the conflict among application requests. If the ~~executive director~~ commissioner denies an application for failure to provide sufficient information about the proposed route or crowd estimate, he shall specify what additional information must be provided in a new or amended application.

In the event that the ~~executive director~~ commissioner fails to act within five business days

after the date upon which the application was filed, said application for a permit shall be deemed approved and the permit deemed granted in conformance with the application.

(k) The ~~executive director~~ commissioner shall inform such applicant for an athletic event permit whether the application is approved or disapproved within 30 days after the filing thereof. If the ~~executive director~~ commissioner approves the application, he or she shall inform the applicant within such time of the compensation, insurance or bond, if any, required pursuant to subsection (n). If the ~~executive director~~ commissioner disapproves the application, the ~~executive director~~ commissioner shall provide written notice of his or her action within such time, stating the specific facts and conclusions which are the basis for his or her denial of the permit. If the ~~executive director~~ commissioner fails to act within 30 days after the date upon which the application was filed, said application for an athletic event permit shall be deemed approved and the permit deemed granted in conformance with the application.

(l) When the ~~executive director~~ commissioner denies an application for a parade or athletic event permit he or she shall authorize the conduct of a parade or athletic event on a date, at a time, at a location, or over a route different from that named by the applicant. This alternate permit shall to the extent practicable authorize an event that will have comparable public visibility and a similar route, location and date to that of the proposed event. An applicant desiring to accept an alternate parade or athletic event permit shall, within five business days after notice of the action by the ~~executive director~~ commissioner, file a written notice of acceptance with the ~~executive director~~ commissioner. Where the denial and alternate are based on a conflict between applications for a parade permit, however, the procedures set forth in subsection (l) shall apply.

The ~~executive director~~ commissioner is empowered to limit the parade or athletic event to the sidewalk or to one or more traffic lanes of the street where it is determined that such limited area is capable of accommodating the number of people anticipated based upon the information submitted by the applicant and the experience of previous comparable events, and such limitation shall not be considered a denial.

(m) Any applicant who believes that his or her application for a parade permit is wrongfully disapproved may appeal to the mayor the propriety of said action by notifying the department of administrative hearings of the intent to appeal. If no appeal is filed within five business days of the date notice of the ~~executive director's~~ commissioner's decision is given, that decision shall be deemed final. Upon the filing of such appeal, the department of administrative hearings shall cause a hearing to be held within three business days and based upon the evidence contained in the record of such hearing, either affirm or reverse the decision of the ~~executive director~~ commissioner. Any final decision of the ~~executive director of emergency management and communications~~ commissioner or the department of administrative hearings shall be subject to judicial review in accordance with applicable law. In the event that the department of administrative hearings fails to act within two business days of the conclusion of a hearing held under this section, said application for a permit shall be deemed approved and the permit deemed granted in conformance with the application.

(n) Upon the filing of an application to conduct an athletic event, the ~~executive director~~ commissioner shall investigate the facts set forth in the application and determine:

(1) the amount, if any, to be tendered to the City of Chicago by the applicant to compensate the city for the provision of any city services deemed necessary by the ~~executive director~~ commissioner for the safe and orderly conduct of the athletic event; and

(2) the amount, if any, of any bond or insurance, naming the City of Chicago as the insured, that the ~~executive director~~ commissioner determines is necessary to insure the city against any liability arising from the athletic event.

No athletic event permit shall be issued until such fees are paid or bonds furnished. The ~~executive director~~ commissioner shall adopt rules and regulations to govern the determination of whether any fees or bonds are required and the amount of any such fees or bonds.

(o) For large parades, the ~~executive director~~ commissioner shall require, as a condition

of the permit, that the parade organizer (1) obtain a \$1,000,000.00 commercial general liability insurance policy, naming the City of Chicago as an additional insured; (2) indemnify the city against any additional or uncovered third party claims against the city arising out of the parade; and (3) agree to reimburse the city for any damage to the public way or to city property.

(p) At least one week prior to the scheduled parade, the parade coordinator shall submit to the mayor's office of special events a line of march, which shall list all parade units in numerical order, with a description and an estimate of the size or length of each unit. For any new parade, and for any parade for which in the prior year the estimate of the number or size of units was substantially inaccurate, the parade coordinator also shall be required to submit documentation demonstrating the planned participation of the stated units. At least one week prior to the scheduled parade, the parade organizer also is required to have furnished to the ~~executive director~~ commissioner documents demonstrating compliance with the insurance requirement set out in subsection (o). Where any animals will participate or be involved in the event, the parade coordinator must provide: a health certificate for each animal to be used; the name of the attending local veterinarian who shall provide care for any sick or injured animals; a copy of the handler's Federal Exhibitor's license for any animal identified in the Illinois Dangerous Animal Act; and access to an animal ambulance.

(q) The parade shall last no longer than two hours and 15 minutes, except that where a traditional parade consistently has lasted longer, and the ~~executive director~~ commissioner determines that there is no traffic safety or undue congestion problem in continuing to allow the longer time period, the permit may provide for additional hours. The parade permit time may be reduced by the mayor's office of special events after receipt of the parade lineup, where the number and size of the planned units are not sufficient to fill the permit time while proceeding at a reasonable pace, or may be reduced by the police department on location, for the same reason, where the actual size and number of units at the lineup are insufficient to require a two hour and 15 minutes street closing. The parade units shall proceed at a uniform pace, with no gaps in the lineup, and no stopping allowed. Once the last unit has started on the parade route, the department of streets and sanitation will begin cleaning the street, and the police department will reopen the street to traffic as street cleaning is completed. Once the last unit has completed the parade route, all parade participants must disperse from the street so that it may be safely cleaned and reopened to traffic.

Where the parade permit was limited to the sidewalk or one lane of traffic based on the estimated number of units participating, and in the event that the number of persons in attendance exceeds anticipated levels, members of the police department are authorized to make reasonable accommodation to increase the portion of the public way made available in order to preserve public health and safety. Alternatively, where the number or size of parade units participating are substantially less than expected, members of the police department are authorized to limit the available portion of the public way, where one lane of traffic or the sidewalk is capable of accommodating the number of people and units present.

In addition, at a parade, in order to protect the health and safety of the public, employees of the commission on animal care and control are authorized to inspect animals prior to their use in activities upon the public way and to prohibit the use of animals found to be diseased, unhealthy or which pose a danger to public health and safety.

(r) Any person or organization planning to lead or initiate any type of public assembly, including a march or procession upon a public sidewalk, as defined in subsection (a), shall notify the ~~executive director~~ commissioner, at least five business days in advance, or as soon as practicable if the event is of a spontaneous or urgent nature, and shall inform him or her of the date, time, location, route and estimated number of persons participating, so that the city can make any preparations necessary to provide personnel or other city services to minimize the obstruction to pedestrian and other traffic and to otherwise protect the participants and the public. Such public assemblies shall be allowed unless the ~~executive director~~ commissioner informs the person or

organization giving the notice, within two days or as soon as practicable before the scheduled event, that there would be a direct interference with a previously planned permitted activity or public assembly, or that there is a significant public safety issue, limited to those set forth for parades in subsection (h)(1) – (3). If the ~~executive director~~ commissioner does this, he or she must state the reasons in writing and give an alternative date, time, location or route, as provided for parades in subsections (j) and (l) herein. If the public assembly organizer desires to appeal such decision, then the appeal shall be governed by the procedures set forth for parade permits in subsection (m) herein, if the notification was received in sufficient time that the appeals process could be completed before the planned date; if not, the decision by the ~~executive director~~ commissioner shall be deemed a final decision subject to judicial review in accordance with applicable law. Upon request, the ~~executive director~~ commissioner will provide the organizer of the public assembly with a stamped copy of the notice given under this subsection.

(s) The ~~executive director~~ commissioner, in consultation with other city departments and agencies, including the mayor's office of special events, shall promulgate rules and regulations to implement this section.

(l) Any person who knowingly interferes with any other person or organization lawfully conducting a parade, public assembly or athletic event or any person violating any of the provisions of this ordinance, or any of the provisions of the regulations promulgated hereunder, shall be subject to incarceration for up to ten days and fined not less than \$50.00 nor more than \$1,000.00. In addition to the penalties specified above and those set forth elsewhere in this section, the following violations are subject to additional penalties. Any person who makes a fraudulent misrepresentation on a permit application for a parade or athletic event shall be prosecuted to the full extent of the law, including criminal sanctions. Any person who sells or assigns a permit granted under this ordinance shall be barred from applying for another permit for a period of three years. Where the conduct of any parade or athletic event causes or results in a threat to public safety, the permit holder, including any affiliated organization identified on the permit application, and the parade or other event organizer, shall be barred from receiving another permit under this section for a period of one year, except that if the public safety problem was caused by crowd reactions to a parade's message, then there shall be no penalty, but additional safety conditions shall be imposed on any similar event.

10-20-100 License.

(a) No person shall make an opening in, or construct or repair any pavement in, any public way or other public place pursuant to this chapter unless that person holds a public way work license as required by this article. The public way work permit required by this article to make an opening in, or construct or repair any pavement in, any public way or other public place shall only be issued to a person holding such a license. Before the ~~office of emergency management and communications department of transportation~~ issues any such permit, the ~~office of emergency management and communications department of transportation~~ shall first require proof that the permit applicant holds such a license. Such a license shall be effective for one calendar year, and the fee for such a license shall be \$125.00. Such a license may be issued at any time during a calendar year, but shall be effective only for the calendar year in which it is issued. The ~~executive director of emergency management and communications~~ commissioner of transportation is hereby authorized to issue such a license and is authorized to promulgate regulations relating to such a license, including but not limited to terms and conditions for the issuance, maintenance and renewal of the license, the scope of work that may be performed under the license, and terms and conditions applicable to the insurance and letter of credit required by this article.

(b) The public way work license specified in this section shall not be required for the placement, planting, cultivation, maintenance or removal of any tree, shrub, flower, sod or other plant material in the public way.

(c) The public way work license specified in this section shall not be required of a government agency.

10-20-105 License application.

(a) The application for the public way work license required by this article shall be made in writing to the ~~executive director of emergency management and communications~~ commissioner of transportation on a form provided for that purpose and shall require the signature of the licensed applicant. The ~~executive director of emergency management and communications~~ commissioner of transportation shall be the custodian of all such applications.

(b) Every application for such a license shall contain, in addition to such other information as the ~~executive director of emergency management and communications~~ commissioner of transportation may require, the name of the person desiring the license and the place of business of such applicant, as well as the names, residence (or, if not a natural person, business) addresses, social security numbers (or tax identification numbers or other government identification numbers acceptable to the ~~executive director of emergency management and communications~~ commissioner of transportation), and percentages of ownership interest of all substantial owners of the applicant.

(c) Every application for such license shall provide that, as a condition for receiving the license, the applicant shall indemnify, save and keep harmless the city from any and all loss, cost, damage, expense or liability of any kind whatsoever which the city may suffer, or which the city may be put to, or which may be recovered from the city, from or on account of the issuance of such license, or from or on account of any act or thing done by virtue of the authority given in such license, or for any damage, loss or expense to any person caused by the tearing up, constructing, repairing or removing of such public way or part thereof, whether or not performed pursuant to a valid license.

(d) The willful misstatement or omission of any material information required by the license application process shall be grounds for revocation of the license for a period of up to three years.

10-20-110 License renewal.

(a) The ~~executive director of emergency management and communications~~ commissioner of transportation may renew the public way work license required by this article at the beginning of a new license period upon proper application and payment of a renewal fee of \$125.00. (b) The willful misstatement or omission of any material information required by the license renewal process shall be grounds for revocation of the license for a period of up to three years.

10-20-115 Insurance required for license.

No public way work license shall be issued pursuant to this article until the applicant for such license shall first have liability of any kind whatsoever which the city presented to the ~~executive director of emergency management and communications~~ commissioner of transportation proof of insurance against any liability, loss or claim arising out of the issuance of the license, or out of work performed pursuant to the license. Such insurance shall be issued by an insurer authorized to do business in Illinois, shall be in an amount no less than \$1,000,000.00 per occurrence and shall name the City of Chicago, its officers, employees and agents as additional insured. The insurance policy shall provide for 30 days written notice to the ~~executive director of~~

A licensee shall bear the costs of establishing, maintaining and renewing such letter of credit, and shall bear any costs associated with a draw upon the letter of credit.

10-20-125 Letter of credit – Conditions for draw.

(a) Upon the happening of all three of the following numbered subparagraphs:

(1) the amount of any restoration fee assessed pursuant to this article is insufficient to cover the cost of restoring the bituminous surface, or a licensee fails to restore the pavement or other materials in accordance with the standards and requirements of this article and other applicable provisions of this Code, or any damage is done to any underground work or connections, or otherwise, any of which will require the City of Chicago to make expenditures to correct the problem or problems and;

(2) the ~~executive director of emergency management and communications~~ commissioner of transportation provides notice of the problem or problems described in subsection (a)(1) of this section to that licensee by certified mail; and

(3) after receiving notice, the licensee does not remit funds sufficient to cover the deficiency in restoration fee or the City of Chicago's required expenditures within 45 days of receipt of the notice, or does not correct the problem or problems within a time period specified by the ~~executive director of emergency management and communications~~ commissioner of transportation, then the ~~executive director of emergency management and communications~~ commissioner of transportation may draw upon that licensee's letter of credit in such amounts as are sufficient to cover the deficiency, or cover the City of Chicago's cost of correcting the problem or problems, in accordance with the standards and requirements of this article and other applicable provisions of this Code. In the event such a draw results in insufficient funds, the director of revenue shall collect the amount of the shortfall from that licensee.

(b) Upon the happening of all four of the following numbered subparagraphs:

(1) the ~~executive director of emergency management and communications~~ commissioner of transportation determines that a licensee has failed to restore the pavement or other materials in accordance with the standards and requirements of this article and other applicable provisions of this Code, and that such failure to restore or improper restoration has resulted in a dangerous condition that poses an imminent threat to the safety of pedestrians, motorists, or others on or near the public way; and

(2) after determining that the licensee is unable to immediately eliminate the dangerous condition, the ~~executive director of emergency management and communications~~ commissioner of transportation eliminates the dangerous condition; and

(3) ~~the executive director of emergency management and communications commissioner of transportation~~ notifies the licensee, by certified mail, of the problem or problems described in subsection (b)(1) of this section, and of the action taken by or on behalf of the ~~office of emergency management and communications department of transportation~~, and in the notification demands that the licensee reimburse the ~~office of emergency management and communications department of transportation~~ for the funds expended to eliminate the dangerous condition; and

(4) after receiving notice, that licensee does not remit the demanded funds within 45 days of receipt of the notice, then the ~~executive director of emergency management and communications commissioner of transportation~~ may draw upon that licensee's letter of credit in such amounts as are sufficient to cover the City of Chicago's cost of correcting the problem or problems in accordance with the standards and requirements of this article and other applicable provisions of this Code. In the event such a draw results in insufficient funds, the director of revenue shall collect the amount of the shortfall from that licensee.

(c) ~~The executive director of emergency management and communications commissioner of transportation~~ may in his or her discretion apply the procedures set forth in this section, either simultaneously or sequentially, to any one or more licensees either holding, or performing work pursuant to, a permit issued pursuant to this article.

(d) The City of Chicago shall have the right, but not the obligation, to arrange for or carry out any restoration, repairs or other work pursuant to this section or other applicable provision of this chapter, and any action taken by the City of Chicago in arranging for or carrying out any such restoration, repairs or other work shall not relieve a licensee of liability for, or diminish a licensee's liability for, any condition created by, or created as a result of the acts or omissions of, the licensee.

10-20-130 License suspension.

In addition to any other penalties that may be imposed under applicable law, a public way work license issued pursuant to this article may be suspended for a period of up to six months if:

(1) a licensee's insurance or letter of credit required by this article is cancelled or is allowed to expire or otherwise lapse and such cancellation, expiration or lapse is not promptly remedied upon written notice sent by certified mail to that licensee; or

(2) ~~the executive director of emergency management and communications commissioner of transportation~~ is required to draw upon a licensee's letter of credit pursuant to this article; or

(3) ~~the executive director of emergency management and communications commissioner of transportation~~ receives notification from any city board, commission, department or other city agency that another city-issued license held by the licensee has been suspended or revoked; or

(4) a licensee is repeatedly issued either a notice provided for in Section 10-20-125 of this article, or a citation pursuant to this article, or any combination of notices and citations, within a license period. The number of notices and/or citations necessary for this subsection to apply shall be set forth in regulations promulgated by the ~~executive director of emergency management and communications commissioner of transportation~~. If any one or more of a licensee's substantial owners was a substantial owner of another licensee during the license period and that other licensee received a notice provided for in Section 10-20-125, or a citation pursuant to this article, during that license period, such prior notice or citation shall be included in determining the number of notices or citations received by the current licensee.

10-20-140 Suspension or revocation – Procedure and scope.

(a) Proceedings for the suspension or revocation of the public way work license required by this article shall be conducted pursuant to Section 4-4-280 of this Code, upon referral by the

~~executive director of emergency management and communications commissioner of transportation.~~

(b) When a license suspension or license revocation is imposed on a licensee pursuant to any provision of this article, such suspension or revocation shall apply to all substantial owners of that licensee, and no such substantial owner may apply for or be issued, or be an officer, director, member, partner, shareholder, or owner in an entity that applies for or is issued, a public way work license under this article for the duration of such suspension or revocation.

10-20-150 Permit – Fees – Issuance.

(a) It shall be unlawful for any person to make an opening in, or to construct or repair any pavement in, any public way or other public place without first obtaining a public way work permit from the ~~executive director of emergency management and communications commissioner of transportation~~; provided, however, that any such opening, construction or repair may be performed by a person holding the public way work license required by this article, who is not a permittee under this section but who is acting as subcontractor for, or otherwise acting under instructions from, as agent for, on behalf of, or in concert with, a permittee under this section. A permit fee shall be required for creating any opening in, or for constructing or repairing any pavement in, the public way. The permit fee for creating a pavement opening and for pavement construction or repair shall be \$110.00 for each such opening to be created or each such construction or repair project prior to January 1, 1994. The permit fee for creating an opening, or for construction or repair, in any parkway or unimproved portion of the public way shall be \$30.00 for each such opening to be created, or each such construction or repair project conducted, prior to January 1, 1994. All permit fees required under this section shall be increased by five percent per annum beginning January 1, 1994. The fee for any permit issued during the time periods specified in subsection (b) of this section shall be twice the normal fee.

The foregoing fees, however, shall not be required of any person who has been granted the right to use the public way pursuant to a franchise ordinance approved by the city council and which franchise ordinance specifically prohibits the imposition of such fees in addition to the compensation to be received by the city pursuant to the franchise ordinance.

(b) Unless the ~~executive director of emergency management and communications commissioner of transportation~~ determines that circumstances warrant the opening or repairing of pavement, no permit shall be issued for:

(i) opening or repairing any pavement that has been newly constructed or reconstructed after January 1, 1994, for a period of ten years after completion of the construction or reconstruction;

(ii) opening or repairing any pavement that has been resurfaced after January 1, 1994, within five years after completion of the repaving or;

(iii) opening or repairing any pavement at anytime located within the area bounded by North Avenue, Halsted Street, 22nd Street and Lake Michigan. Whenever the ~~executive director commissioner~~ determines that circumstances warrant the opening or repairing of pavement under this subsection, the ~~executive director commissioner~~ may require that the entire surface of the public way abutting the excavated pavement be restored from curb line to curb line but shall, at a minimum, require that the surface of the public way abutting the excavated pavement be restored to the furthest quarter point in all directions. For purposes of this subsection, "quarter point" means each point situated at a distance equal to one-quarter of the distance from curb line to curb line. Any person who opens or repairs a newly constructed, reconstructed or resurfaced pavement without a permit within the time period specified herein or without the approval of the ~~executive director of emergency management and communications commissioner of transportation~~, or who falsifies information in order to obtain a permit for such work, shall be subject to a fine of \$5,000.00 for each day that the opening exists or that the repair is conducted.

When determining whether circumstances warrant the opening or repair of pavement under this subsection, the ~~executive director commissioner~~ shall consider, in addition to other reasonable

factors, whether the work to be performed constitutes an ~~executive director~~ commissioner of emergency repair; whether there is no other reasonable access available to perform the work; and whether the work will provide a public benefit.

(c) It shall be a condition of any permit for the opening of, or the construction or repair of, any public way or other public place that the permit applicant shall agree to restore the pavement or other materials in accordance with public way restoration standards. These standards shall be in the form of regulations promulgated by the commissioner of transportation.

(d) In addition to the other limitations on the issuance of permits described in this chapter, the ~~executive director of emergency management and communications~~ commissioner of transportation shall not issue any permit for the opening of, or the construction or repair of, any public way or public place until he or she shall have been fully advised of the time, place and character of such opening, construction or repair and the purpose thereof. The ~~executive director of emergency management and communications~~ commissioner of transportation may require that applications for permits be accompanied by a plat or pencil tracing or sketch showing the location, character and dimensions of any proposed openings for the installation of new work, or the location and character of any alterations involving changes in the location of pipes, conduits, wires or other conductors, or proof of compliance with the insurance, letter of credit or other license requirements of this article.

(e) Before a permit that contemplates the breaking or other disturbance of a bituminous surface shall be granted to open, or conduct construction or repair on, any public way or public place for any purpose, the permit applicant shall as part of the application either (1) commit to restoring the bituminous surface after completion of the work and restoration of the pavement, or (2) request that the City of Chicago restore the bituminous surface after completion of the work and restoration of the pavement. If the applicant selects option (2), the ~~executive director of emergency management and communications~~ commissioner of transportation shall assess the applicant a restoration fee, as calculated by the commissioner of transportation, sufficient to cover the City of Chicago's cost to restore the bituminous surface. This restoration fee shall be calculated on a per-square-yard basis, based on current construction costs established through average bid prices in the City of Chicago. In the event that the City of Chicago's cost to restore the bituminous surface is less than the restoration fee, the amount of the surplus shall be returned to the permittee.

(f) In order for a permit to be issued, the director of revenue shall collect the amount of both the permit fee and any applicable restoration fee. Where the opening, construction or repair is required to perform underground work to facilitate a city or state project or the repair of damage caused by city forces, the payment of permit fees shall be waived.

(g) The permit specified in this section shall not be required for the placement, planting, cultivation, maintenance or removal of any tree, shrub, flower, sod or other plant material in the public way.

10-20-160 Tearing up public ways.

Unless a specific penalty is otherwise provided, any person who shall injure or tear up any pavement, side or crosswalk, or any part thereof, dig any hole, ditch or drain in, or dig or remove any sod, stone, earth, sand or gravel from any public way or public ground in the city without having first obtained the necessary permit from the executive director of emergency management and communications and the commissioner of transportation, or who violates the terms or conditions of a permit for such work, shall be subject to a penalty for each offense of not less than \$200.00 nor more than \$500.00.

10-20-200 Tunneling – Permit.

No person shall, without a permit in writing from the commissioner of transportation and the executive director of emergency management and communications, place any shaft, cable, pipe, main, conduit, wire or other transmitting or conducting device underneath the surface of any public way in the city by driving the same through the earth underneath the surface of any such public way, or by boring or tunneling under any such public way.

Any person may tunnel under stone or concrete sidewalks which do not exceed six feet in width for the purpose of installing sewer drains not to exceed six inches in diameter; provided, that a permit in writing shall be obtained from the commissioner of transportation and the executive director of emergency management and communications for such purpose.

The commissioner of transportation and the executive director of emergency management and communications is authorized to remove, cause the removal or cut out all shafts, cables, pipes, mains, conduits, tubes, wires or other transmitting or conducting devices at any time laid or placed underneath the surface of any public way in violation of the provisions of this section.

10-20-205 Underground work in streets to be improved.

If any person desires to lay any pipes, conduits, tunnels, wires or conductors or do any other underground work in any street which is to be improved by special assessment, such person shall lay such pipes, conduits, tunnels, wires or conductors and install such other underground work within 45 days after the confirmation of the assessment for the paving of such street in case such assessment is confirmed during the months of June or July, and if such assessment is confirmed during any other month, such pipes, conduits, tunnels, wires or conductors shall be laid and such other underground work installed within 60 days after the date of confirmation of such assessment; provided, however, that where such assessment is confirmed during the months of November, December, January and February, such period of 60 days shall be computed from the first day of March following; and provided, further, that whenever the public necessities require it, the executive director of emergency management and communications commissioner of transportation may, in his discretion, grant to such person a period of time, not to exceed 15 days, in addition to said periods of 45 days and 60 days hereinbefore prescribed, within which to lay such pipes, conduits, tunnels, wires or conductors and install such other underground work. If such street be improved by any other method than by special assessment, such pipes, conduits, tunnels, wires or conductors shall be laid and other contemplated underground work shall be installed before the date of the completion of such improvement.

If such pipes, conduits, tunnels, wires or conductors are not laid, or if such other underground work is not done, within the time aforesaid, then, and in such event, such person shall, except as hereinafter provided, lay or do the same between the lot and curb lines or in the nearest alley contiguous to such paved street during the period of five years from and after the date of the acceptance of such improvement in such street by the proper authorities of the city; provided, that nothing herein contained shall preclude:

(a) The laying of service pipes, service conduits, service wires or service conductors used in connecting lots abutting on such street with the pipes, conduits, wires or conductors laid longitudinally in such streets.

(b) The repairs to pipes, conduits, tunnels, wires or conductors or to service pipes, service conduits, service wires or service conductors in such streets.

(c) The laying of pipes, conduits, tunnels, wires or conductors, or the doing of any other underground work in that portion of such street which lies between and opposite the entrance to any alley in which such pipes, conduits, tunnels, wires or conductors are laid, or in that portion of any street which intersects or crosses another street.

(d) The doing of any underground work in such portion of any street that is not

paralleled by an alley within 250 feet from either side thereof and where the space, unobstructed by trees or other underground work, between the lot and curb lines, is less than four feet in width.

(e) The prompt and complete compliance on the part of the various transportation and street railway companies with the obligations and conditions imposed upon such several companies by the terms of the ordinances under and by virtue of which each of them claims the right of operating cars within the city, and nothing herein contained shall be construed as a waiver, restriction or granting of any right or as applying to the right-of-way of such several companies, as defined in said ordinances, so long as each right-of-way is paved, maintained and kept in good repair, as in said ordinances provided.

In no event shall the space between the lot line and the curb in any block in which there is in such space any excavation of any character, be used for the installation of any underground work, excepting service pipes, service conduits or service conductors.

10-20-210 Construction of conduit system.

When poles and wires are to be removed from any street, the person maintaining such poles or wires shall, upon notice from the executive director of emergency management and communications in consultation with or the commissioner of transportation, install the necessary conduits for his wires and appliances in the manner hereinafter provided.

A combination conduit system shall be constructed consisting of such duct space as may be required by each person, the ducts for each to terminate in a separate manhole to which no one except such person's own employees shall have access. Only such persons as have an express grant from the city council authorizing a conduit system shall have the right to duct space.

A conduit in any street may be constructed by any one of the persons requiring duct space, but the option of constructing such conduit shall be with the person requiring the most space and paying the largest proportion of the cost.

10-20-415 Application – Insurance – Notice – Appeal.

An application shall be approved and a permit issued only upon a determination of the commissioner of transportation, upon consultation with the following departments, that the driveway will not (1) create undue safety hazards in the use of the street, parkway or sidewalk by vehicular or pedestrian traffic, nor (2) impede the safe and efficient flow of traffic upon the streets and sidewalks adjoining the property for which the driveway is proposed, and upon his or her determination that the existing and proposed use of the property to be connected by said driveway is in all respects in conformity with existing traffic, zoning and building ordinances. The commissioner of transportation shall refer applications (1) to the executive director of emergency management and communications for investigation and report on the traffic aspects incident to such determination, (reserved) (2) to the zoning administrator for review and advice as to the zoning and building aspects incident to such determination, (3) to the commissioner of water management for review and advice as to the drainage structure, manhole and sewer aspects, and hydrant and water control valve aspects incident to such determination, and (4) to the bureau of electricity in the department of streets and sanitation for review and advice with regard to the underground

In the event that the construction of the driveway will require the city to incur costs in making modifications to, over, or under the public way, the applicant shall be provided with an estimate of such costs and no use of public way permit for a driveway shall be issued until the applicant has first paid to the city the amount of the estimate. In the event that the city's cost to make such modifications is less than the estimate, the amount of the surplus shall be returned to the permittee. In the event that the city's cost to make such modifications is greater than the estimate, the commissioner of transportation is authorized to assess the permittee for the amount of the deficiency.

Permits for barber poles or temporary signs shall be subject to revocation at any time by the director of business affairs and licensing, and shall be revoked by the ~~director of business affairs and licensing~~ commissioner of business affairs and consumer protection in all cases where the ~~executive director of emergency management and communications~~ commissioner of transportation determines that the barber pole or temporary sign interferes with use of the public way, has become hazardous to persons using the public way, or will interfere with work performed on the public way.

Such permits may not be renewed but may be reissued by the ~~executive director~~ commissioner as provided in this article. Notwithstanding any other provision to the contrary, any newspaper stand operated pursuant to a permit issued prior to the effective date of this section shall not be subject to the provisions of Sections 10-28-165 and 10-28-170 prior to the expiration of such permit.

(b) The ~~executive director of emergency management and communications~~ commissioner of transportation may from time to time reissue all or a portion of those permits that have been revoked or have expired. The ~~executive director~~ commissioner shall advertise in

In the case of an application that is subject to review under Section 10-28-160(a), such supporting materials shall include plans, drawings, photographs, and information about existing or proposed building materials and color schemes in sufficient detail to ensure compliance with this Code.

10-28-160 Notice to alderman.

(a) Within three business days after an application is filed with the executive director of emergency management and communications commissioner of transportation for a permit for a newspaper stand, other than an application for the renewal of a permit for an existing newspaper stand, the ~~executive director~~ commissioner of transportation shall deliver a duplicate of the application to the ~~executive director of planning and development~~ commissioner of zoning and land use planning and to the alderman of the ward in which the newspaper stand is or will be located. Upon receipt of such application, the alderman may refer the application to the city council's committee having jurisdiction over privileges for use of the public way for the purpose of conducting public hearings on the proposed permit application. All interested persons, including the applicant, shall be given an opportunity to be heard at such hearings. After conducting such hearings, the committee may issue a report summarizing the issues that were addressed at the hearings and recommending approval or denial of the application. Any such report must be filed with the ~~executive director of emergency management and communications~~ commissioner of transportation not later than 30 days after the application was received by the alderman.

The committee's report on the permit application shall be based solely on the following considerations:

- (1) whether the design, materials and color scheme of the newspaper stand comport with and enhance the quality and character of the streetscape, including nearby development and existing land uses;
- (2) whether the newspaper stand complies with this Code;
- (3) whether the applicant has previously operated a newspaper stand at that location;
- (4) the extent to which services that would be offered by the newspaper stand are already available in the area;
- (5) the number of daily publications proposed to be sold from the newspaper stand; and
- (6) the size of the stand relative to the number of days the stand will be open and operating.

Any committee report recommending disapproval of a permit application must state the specific reasons for the recommendation, which reasons shall be consistent with an applicant's constitutional rights contained in the First, Fifth and Fourteenth Amendments of the United States Constitution, and Sections 2 and 4 of Article I of the Illinois Constitution of 1970.

Upon receipt of the permit application, the commissioner of planning and development zoning and land use planning shall review the application and supporting materials, and shall report to the executive director of emergency management and communications commissioner of transportation his or her recommendation for acceptance or denial based solely upon the considerations described in paragraphs (1) through (6) of this subsection (a). Such report shall be filed with the executive director of emergency management and communications commissioner of transportation within 30 days after the application was received by the commissioner of planning and development.

In acting on all applications filed pursuant to this subsection, the executive director of emergency management and communications commissioner of transportation shall give due consideration to the committee's report, if any, and to the recommendation of the commissioner of planning and development zoning and land use planning, and shall be bound by the same standards as apply to the committee in approving or denying a permit.

Notwithstanding any other provision to the contrary, any application under this subsection (a) for a permit for a newspaper stand to be located on property on which a designated landmark is situated, or on the public way between the street and the property line of such property, shall be subject to permit review by the commission on Chicago landmarks pursuant to Chapter 2-120 of this Code. An application for a permit for such a newspaper stand or for written approval to substantially remodel such newspaper stand shall not be considered filed with the executive director of emergency management and communications commissioner of transportation under this article until the application is approved by the commission pursuant to that chapter.

(b) In the case of an application for renewal of a permit that has been previously issued under subsection (a), the executive director of emergency management and communications commissioner of transportation shall renew the permit if the executive director commissioner determines that the application and the newspaper stand are in compliance with this Code. If the executive director commissioner determines that the application or newspaper stand is not in compliance with this Code, the executive director commissioner shall deny the application for renewal. However, whenever the executive director commissioner determines that the newspaper stand is otherwise in compliance with this Code, but that the design, materials and color scheme of the newspaper stand must be changed in order to comport with and enhance the quality and character of the streetscape, including nearby development and existing land uses, or to comply with any newspaper stand design standards promulgated under subsection (d), the executive director commissioner may require that the newspaper stand be remodeled as a condition of permit renewal. In such case, the executive director commissioner shall notify the applicant that the application for renewal has been approved, but that the newspaper stand must be remodeled in a manner specified in the notice. Whenever an applicant is required to remodel a newspaper stand pursuant to this subsection (b), the applicant shall be entitled to reimbursement for the applicant's actual, reasonable and necessary expenses in effecting the remodeling. After receiving satisfactory proof of those expenses, the executive director commissioner shall reimburse the applicant in the amount of the expenses. A newspaper stand that is not remodeled in accordance with the specifications of the executive director commissioner within 60 days after notice is given under this subsection shall be in violation of this Code.

(c) Any action denying or approving a permit application under subsection (a) of this section shall be made by the executive director of emergency management and

Whenever such a newspaper stand is so provided, the licensee must use and maintain only that stand, and must permit removal of any other stand at the licensed location. In order to obtain newspaper stands for the purposes of this subsection, the ~~executive director commissioner~~ may enter into contracts on behalf of the city for the purchase of those stands using funds appropriated for such purposes, notwithstanding any law or ordinance to the contrary, after publicly soliciting proposals to enter into such contracts.

(D) Insurance. No dumpster permit shall be issued until the applicant for such permit shall first have presented to the commissioner of transportation ~~and the executive director of emergency management and communications~~ proof of insurance against any liability, loss or claim arising out of the issuance of dumpster permits, or out of the placement, presence, use, maintenance or removal of the dumpsters. Such insurance shall be issued by an insurer authorized to do business in Illinois, shall be in an amount no less than \$1,000,000.00 and shall name the City of Chicago, its officers, employees and agents as additional insured. The insurance policy shall provide for 30 days written notice to the commissioner of transportation ~~and the executive director of emergency management and communications~~ prior to any lapse, cancellation or change in coverage. The insurance shall be maintained in effect at all times that the dumpster remains on the public way.

(E) Security. No dumpster permit shall be issued until the applicant for such permit shall first have provided to the commissioner of transportation ~~and the executive director of emergency management and communications~~ a letter of credit in the amount of \$5,000.00 to ensure compliance with the provisions of this section and the permits issued thereunder, including payment of any costs, fees and fines and proper restoration of the public way upon removal of the dumpsters. The form of such letter of credit shall be set forth by regulation and shall be subject to the approval of the corporation counsel. The commissioner of transportation ~~and the executive director of emergency management and communications~~ shall provide at least 30 days written notice to the permittee, specifying the conditions or circumstances to be corrected, before drawing on a permittee's letter of credit.

(F) Alternative form of indemnity, protection or security. Upon good cause shown, the commissioner of transportation ~~and the executive director of emergency management and communications~~, in his or her discretion may require, instead of such insurance and letter of credit, any alternative form of indemnity, protection or security that he or she deems necessary to accomplish the above described purposes.

(G) Permit fee. The permit fee for each dumpster permitted pursuant to this section shall be as follows:

- (1) (a) For the placement of each class A dumpster not to exceed three days, \$50.00.
 - (b) For the placement of each class B dumpster not to exceed three days, \$100.00.
- (2) (a) For the placement of each class A dumpster exceeding three days, a monthly fee of \$100.00.
 - (b) For the placement of each class B dumpster exceeding three days, a monthly fee of \$200.00.

- (4) Fees for removal and replacement and/or disabling of parking meters provided for by Section 9-68-050 of the Code, as applicable.
- (H) Dumpster identification. It shall be the duty of the provider to paint or otherwise permanently affix on each dumpster: (1) the name and telephone number of the provider according to the following standards: the letters and numerals shall be a minimum of three inches in height, shall be clearly legible from a distance of 30 feet, and shall be painted or otherwise affixed on both long sides of the dumpster, 12 inches down from the top or lip, and 12 inches from the corner, and (2) a unique identification number for the dumpster.
- (I) Location. No dumpster may be placed in any of the following locations:
 - (1) Within 40 feet of any bus stop.
 - (2) On any arterial street between November 1 and April 1, if the department of transportation ~~and the office of emergency management and communications~~ has provided notice of a Phase 3 snow emergency by facsimile transmission to the provider and has provided a 12-hour period from the time of transmission to remove such dumpster.
 - (3) Within ten feet of any parking space designated for persons with disabilities.
 - (4) Within ten feet of any pedestrian crosswalk.
 - (5) Within ten feet of any intersection.
 - (6) *Within 20 feet of any fire hydrant.*
 - (7) On any parkway or sidewalk, unless the dumpster provider demonstrates to the satisfaction of the commissioner of transportation ~~and the executive director of emergency management and communications~~ that an alternative location is not feasible and that placement of the dumpster(s) on such parkway or sidewalk would not create a safety hazard, disrupt pedestrian or vehicular traffic, or damage public or private property.
- (J) Placement, appearance and maintenance of dumpster. It shall be the responsibility of the provider:
 - (1) Upon delivery, to place the dumpster immediately adjacent to the property identified by the street address stated on the permit application.
 - (2) Upon delivery, to provide the dumpster free of graffiti.
 - (3) Within three business days of receiving notification via facsimile transmission from the department of transportation ~~and the office of emergency management and communications~~, to remove graffiti from the dumpster(s) identified in the notification.
 - (4) To maintain the dumpster free of gaps or holes so as to prevent the spillage of materials from the dumpster onto the public way.
 - (5) To affix and maintain, on each of the four corners of the dumpster, high-intensity retro-reflective sheeting, or other retro-reflective or prismatic material or substance approved by the department of transportation ~~and the office of emergency management and communications~~, a minimum of three feet in length, and two inches in width along each side of the corner.

(6) When transporting or otherwise moving a dumpster, to ensure that no portion of the load is falling, sifting, blowing, dropping or in any way escaping from the dumpster. The provider shall use a tarpaulin or other appropriate cover to secure the top of a dumpster while in transit.

(K) Penalties.

(1) Any person violating subsection (B) of this section shall be subject to a fine of not less than \$250.00 nor more than \$1,500.00 for each offense. Provided, however, that any person violating subsection (B) of this section within the Central Business District, as that area is delineated in Section 9-4-010 of the Code, shall be subject to a fine of not less than \$500.00 nor more than \$3,000.00 for each offense.

The owner of a dumpster, if different from a provider, shall be jointly and severally liable with the provider for any violation of this section.

(4) In addition to any other available penalties and remedies provided for in the Code, one or more citations for violation of this section on each of three or more separate days within a three month period at the same construction site may result in a stop work order issued by the department of transportation and the office of emergency management and communications, directing that all activity cease for ten days. Any further citation for violation at the same construction site within six months after the initial stop work order may result in the issuance of another ten-day stop work order. The department shall lift a ten-day stop work order only if sufficient evidence of compliance with this chapter is provided to the department. As used in this section, the term "construction site" has the meaning ascribed to the term in Section 13-32-125.

(a) It shall be unlawful for any person to knowingly violate a stop work order, or to knowingly cause, permit, encourage, assist, aid, abet or direct another person to violate a stop work order, or to knowingly in any manner be a party to a violation of a stop work order.

10-29-020 Permit required for installation or maintenance.

No person or entity shall install or maintain any wire, pipe, cable or conduit on, under or over the surface of any public way or public property without first having obtained a permit issued by the department of transportation and after consultation with the office of emergency management and communications. Applications and permits shall be in such form and shall require such plans and specifications as prescribed by the commissioner ~~and the executive director~~. This chapter shall not apply to the installation or maintenance of telecommunications equipment on, over or under the public way by telecommunications providers as provided in Chapter 10-30, but shall apply to the use of public property by private users.

10-29-040 Permit fee.

(a) For a permit for the installation or maintenance of wire, cable, pipe or conduit on, under or over the surface of the public way, the applicable fee shall provide for recovery of the city's actual costs or reasonably foreseeable estimate of the city's costs for maintaining and regulating the public way in a manner consistent with the public welfare and suitable for the use of the applicant. Such costs shall include, but not be limited to, the city's cost of inspection, regulation, maintenance, administration and repair. The commissioner ~~and the executive director~~ shall have the authority to determine the applicable permit fee.

(b) Notwithstanding subsection (a) of this section, a permit may be issued for the installation or maintenance of wire, cable, pipe or conduit on, under, or over the surface of the public way or public property without payment of the appropriate fee provided for in subsection (a) if: (1) the applicant voluntarily enters into an agreement with the city providing for such use; or (2) the commissioner ~~or the executive director~~ requires the applicant to enter into an agreement with the city providing for such use because the commissioner ~~or the executive director~~ determines that the proposed use is likely to preclude other persons from using the space, would physically or visually interfere with or obstruct the public way or public property, or because the space is on, over or under public property, over which the city may exercise proprietary powers. The terms of such agreements shall include appropriate compensation to the city and such surety, insurance and indemnification provisions as the city may require. All agreements shall be subject to the approval of the city council and subject to the approval of the corporation counsel as to form and legality; provided that, except as set forth below, no approval by the city council shall be required for the permitting of wires on or inside of available city light poles (including, subject to the conditions set forth in Section 10-29-060, traffic signal poles) pursuant to regulations issued under Section 10-29-060 for periods not exceeding 20 years (including renewals, which shall contain such conditions as the commissioner ~~or the executive director~~ shall apply on a competitively neutral basis) and providing for use fees or permit fees in 2005 and 2006 of not less than (i) \$1,500.00 per year for each permitted use of each city light pole which is not a traffic signal pole and (ii) \$3,000.00 per year for use of each traffic signal pole, in each case of (i) and (ii) adjusted upward in each year commencing on January 1, 2007 for the greater of (x) the CPI Adjustment (as defined below) over a one-year period from a base year of 2006 or (y) a five percent per year increase from the preceding year; provided further that the commissioner ~~and the executive director~~ may by regulation adjust use fees or permit fees to account for market conditions, but in no event (except as set forth below)

shall use fees or permit fees ever be less than the specified amount per year for each category of pole, as applicable, used on an annualized basis. Beginning on the tenth anniversary of the effective date of this ordinance, such fee may be adjusted to add a revenue component or make other reasonable adjustments which are not in excess of prevailing municipal rates; provided that notice of such proposed adjustments is sent to all affected permittees at least one year prior to the implementation date of such adjustments. Such use fees or permit fees shall be applied on a pro rata basis for partial years, may be adjusted to account for multiple attachments to a single city light pole, or size of equipment, or the amount of use of the city light pole and may be established on a calendar year or other 12-month basis as the commissioner or the executive director shall determine in regulations. Such regulations may provide for in-kind compensation for a municipal use. The commissioner or executive director may by regulation make adjustments to use fees, establish discounts for advance payments and determine the appropriate application of the proceeds of such payments, and set limits on length or extent of use or set forth other conditions to the extent deemed necessary, with the advice of the corporation counsel, to comply with financing or other regulatory restrictions or to reasonably account for the value of in-kind compensation.

For purposes of this Section 10-29-040, "CPI Adjustment" means the percentage increase in the United States Department of Labor, Bureau of Labor Statistics Consumer Price Index for the Chicago-Naperville-Joliet Metropolitan Statistical Area. Notwithstanding the foregoing, implementation of and pricing for any wi-fi or wi-max system using city light poles or any other city property shall require city council approval.

10-29-060 Commissioner and executive director authorized to establish additional regulations.

The commissioner and the executive director are is authorized to establish rules and regulations as shall be necessary to further the purposes of this chapter and to ensure that access to, use or occupancy of space on, under or over the public way or public property be conducted and maintained in a safe and efficient manner consistent with the provisions of this Code, in a manner so as to not physically or visually interfere with or obstruct the public way or public property, or in a manner which does not overburden the limited capacity of the space. In regard to the use of city light poles, such regulations shall be established after consultation with the executive director, the city's chief information officer, and the commissioner of streets and sanitation, and shall be drafted and administered on a competitively neutral and nondiscriminatory basis. Such regulations shall additionally take into account, in furtherance of the factors set forth in Section 10-29-030, on a per location basis: (i) public safety and structural limitations, (ii) compatibility of wires, including antennas and other peripheral equipment with the proposed use of city light poles or other city property, (iii) interference with or prevention of current or reasonably anticipated city projects, operations or infrastructure, including communications and information services provided or sponsored by the city, (iv) adequacy of electric service and efficient use of scarce physical space, including potential collocation, (v) regulatory restrictions on the use of such facilities by private parties, (vi) the existence of commercially reasonable alternatives to the use of city light poles (such as existing private utility and telecommunications poles) and (vii) material aesthetic considerations. Preference shall be given to the use of city alley poles over ordinary light poles or traffic signal poles and preference shall be given to ordinary light poles over traffic signal poles. Such regulations shall not extend to the use of city airport property by private users. Notwithstanding the foregoing, such regulations specifically may allow for the use of traffic signal poles on a case-by-case basis if such use does not preclude the city from either undertaking its own telecommunications or information projects or permitting similar projects for the benefit of the public even if conducted

or operated by third parties. The regulations may permit the replacement of city light poles through private donations of similar poles which more readily permit the internal placement of wires so long as such replacement poles and the construction thereof do not require the expenditure of city funds, meet city specifications and regulatory requirements, do not violate any financing requirements and are dedicated to, and become the property of the city after completion. The commissioner ~~and the executive director~~ is authorized to accept any such replacement poles and to issue permits for the use of such replacement poles consistent with the purposes and limitations set forth in this chapter. The regulations may also permit the use of available city conduit for wires in the immediate vicinity of or contained within such city light poles for the limited purpose of connection with electric sources of power and communication networks if such connection will avoid construction in and deterioration of the city's public ways; provided that such use of city conduits will be limited to the purposes set forth above, shall be at the prevailing rates of compensation for such use as determined by the commissioner ~~and the executive director~~, shall not require the expenditure of city funds, do not violate any city financing requirements, shall meet city specifications and regulatory requirements and such wires shall become city property after termination of the related permit following default or abandonment. At least 20 days prior to the issuance of any permit for installation of equipment or wires owned by a private party on city light poles, notice shall be given by the commissioner ~~or the executive director~~ to the alderman in whose ward such light poles are located.

(d) "Telecommunications provider" has the meaning ascribed to the term in Section 3-75-020 ~~3-73-020~~ of this Code.

(e) "Telecommunications provider" means any person who provides telecommunications services.

10-30-020 Permit required.

(a) No telecommunications provider shall install or maintain any telecommunications equipment on, over or under the public way without first having obtained a telecommunications provider permit issued by the commissioner ~~and the executive director~~ pursuant to this chapter after consultation with the executive director.

(b) The commissioner ~~and the executive director~~ shall deny the issuance of a permit under this chapter, or shall revoke any such permit, only if:

(1) the commissioner ~~and the executive director~~ determines that the

installation or maintenance of the telecommunications equipment would endanger public health or safety or otherwise inconvenience the public; or

(2) ~~the commissioner and the executive director~~ determines that the telecommunications provider has not paid any applicable infrastructure maintenance fee or license fee; has not provided any security required pursuant to this chapter or regulations issued thereunder; has not complied with specifications prescribed under this chapter; or has otherwise failed to comply with the provisions of this Code, or any rules or regulations adopted pursuant thereto.

10-30-030 Notice.

(a) A telecommunications provider that intends to install any telecommunications equipment on, over or under the public way shall give the city notice of such installation by filing written notice with the commissioner ~~and the executive director~~ no less than ten days prior to the date the installation is to begin or, if the installation requires excavation relating to new construction, no less than 30 days prior to the date the excavation is to begin. The notice shall be in the form of plans, specifications and documentation of the purpose and intention of the telecommunications provider with respect to the installation, and shall be in form prescribed by the commissioner ~~and the executive director~~ which shall be designed to provide the commissioner ~~and the executive director~~ with all of the information necessary to determine whether the installation will be consistent with the safety and welfare of the public and all users of the public way. If the city fails to specify a permitted location or issue a written denial within the time required by this subsection (b), a permit shall be deemed to have been issued for the telecommunications provider to install and maintain, solely at the telecommunications provider's risk, telecommunications equipment on, over or under the public way, provided that such installation and maintenance: (i) is not in violation of this Code or any rules and regulations adopted pursuant thereto; and (ii) does not interfere with other proper uses of the public way.

(c) Nothing in this chapter shall excuse any person or entity from obligations imposed under any applicable law or ordinance, or regulations issued by the department of transportation ~~and the office of emergency management and communications~~, concerning generally applicable standards for construction on, over, under, or within, use of or repair of the public ways, including standards relating to freestanding towers and other structures on the public ways, nor shall any person or entity be excused from any liability imposed by any such law or ordinance for failure to comply with such standards. THE ANNUAL APPROPRIATION ORDINANCE OF THE CITY OF CHICAGO FOR THE YEAR 2009.

WHEREAS, The City of Chicago (the "City") is a home rule unit of government as defined in Article VII, Section 6(a) of the Illinois Constitution and, as such, may exercise any power and perform any function pertaining to its government and affairs; and

WHEREAS, The management of its finances is a matter pertaining to the government and affairs of the City; and

WHEREAS, It is appropriate and in the best interests of the City that the City Council adopt an annual appropriation for the year 2009 in accordance with the powers granted to the City, including its powers as a home rule municipality; now, therefore,

Be It Ordained by the City Council of the City of Chicago:

SECTION 1. The following sums of money set apart according to departments and other separate agencies of the City Government are appropriated from the respective funds designated in this ordinance for the objects and purposes stated herein, and no other, to

defray necessary expenses and liabilities of the City of Chicago to be paid or incurred during the fiscal year beginning January 1, 2009. References hereinafter to Community Development Block Grant funds are provided for descriptive purposes only, and shall not be considered appropriations.

SECTION 2. The estimates of current assets and liabilities as of January 1, 2009, the estimates of the amounts of such assets and of the revenues available for appropriation, the amounts appropriated, the objects and purposes of such appropriations and the salary rates of all City officers and employees are shown in detail hereinafter.

SECTION 3. The objects and purposes for which appropriations are made are designated herein by asterisk, except for the accounts .0901 through .0999 and the accounts .9001 through .9999 (for purposes of this section, collectively "9-series accounts"), which specifically designate each object and purpose. When expenditures are made from any appropriation in a 9-series account, such expenditures shall be accounted for pursuant to statutory standard classifications, designating objects and purposes of operation and administration.

SECTION 4. Included in the appropriation for Personal Services in applicable departments, bureaus and agencies is an account appearing as Code Number ".0015 Schedule Salary Adjustments" provided for the purpose of implementing the compensation plan for classified City employees adopted by the City Council, the Salary Schedules of which plan, class grade one to eighteen, both inclusive, are made a part hereof. The amounts set up under account .0015 "Schedule Salary Adjustments" are for the adjustments of salaries (a) of all employees who are at the entrance rate indicated in the schedule for the grade level of their positions and who after six (6) months of satisfactory service are entitled to a salary increase under Schedule B for the grade level of their respective positions after completing the additional period indicated; and (b) of employees who are entitled to salary adjustments under Schedule C after completing the periods of service specified in said Schedule C; and (c) base salary schedules for Sworn Police Personnel, as set forth in Schedule D and Schedule E; and (d) base salary schedules for Uniformed Firefighters as set forth in Schedule F; and (e) base salary schedules for Registered Nurses as set forth in Schedule S; and (f) base salary schedules for physicians and dentists as set forth in Schedule M; and (g) base salary schedules for technical employees as set forth in Schedule G; and (h) base salary schedules and longevity salary schedules for public safety employees as set forth in Schedule I; and (i) base salary schedules and longevity salary schedules for Plumbers Local Number 130 employees as set forth in Schedule J; and (j) base salary schedules and longevity salary schedules for Teamsters Local Number 726 employees as set forth in Schedule P; and (k) base salary schedules and longevity salary schedules for Machinist Lodge Number 126 employees as set forth in Schedule R; and (l) base salary schedules and longevity salary schedules for Carpenters Local Number 13 employees as set forth in Schedule T; and (m) base salary schedules and longevity salary schedules for Laborers Local Number 1092 employees as set forth in Schedule U; and (n) base salary schedules and longevity salary schedules for Laborers Local Number 1001 employees as set forth in Schedule V and defined in the classification and pay plan as maintained by the Commissioner of Human Resources. The class grade for each class of positions in Schedule A as on file with the Department of Human Resources shall determine the salary range applicable to all positions of the class. The Title Bargaining Unit Table as on file with the Department of Human Resources shall determine the salary schedule applicable to

bargaining unit and non-bargaining unit employees. The resolution setting forth employee benefits, and the Classification and Compensation Plan for City employees, adopted by the City Council, is by reference thereto incorporated herein and made a part hereof.

SECTION 5. The appropriation for estimated liabilities as of January 1, 2009, shall not be construed as approval of any such liabilities, but shall be regarded only as appropriations for the payment thereof when they have been found to be valid and legal obligations against the City of Chicago and have been properly vouchered and audited.

SECTION 6. The appropriations herein made for personal services shall be regarded as maximum amounts to be expended from such appropriations. Such expenditures shall be further limited to personnel only as needed, or as may be required by law, not to exceed the maximum designated in this ordinance for any office or position by title. When there is no limitation as to the maximum that may be employed for any officer or position by title, one person may be employed or more than one person may be employed with the approval of the Budget Director and the Comptroller regardless of whether such title is printed in the singular or plural. The salary or wage rate fixed shall be regarded as the maximum salary or wage rate for the respective offices or positions, provided that salaries or wage rates are subject to change by the City Council during the fiscal year in accordance with contracts approved by the City Council. The salary or wage rates fixed are on a yearly basis unless otherwise indicated. Abbreviations or symbols used in this ordinance are as follows: m. monthly; d. daily; h. hourly.

Initial appointments to any positions shall be made at the entrance rate of the salary range prescribed for the applicable class grade. In exceptional cases, upon recommendation by the department head and approval of the Commissioner of Human Resources and the Budget Director and the Chairman of the Committee on Finance or their respective designees, initial appointments may be made at a rate above the normal entrance rate. Entrance above the normal entrance rate shall be based on the outstanding and unusual character of the applicant's education, experience and training over and above the minimum qualifications specified for the class. An employee may be assigned to a title not appearing within the appropriation of the employee's department, in lieu of a specific title appearing in the appropriation, upon the written recommendation of the department head and approval of the Commissioner of Human Resources, the Budget Director and the Chairman of the Committee on the Budget and Government Operations or their respective designees. Such assignment may be requested and approved when the title requested is appropriate to the function of the department, and reflects the skills, training and experience of the employee. In no event shall the authority conferred herein be exercised in violation of the Shakman Judgment.

No officer or employee shall have the right to demand continuous employment or compensation by reason of any appropriation if, upon the determination of the department head, his or her services are not needed or it becomes necessary to lay him or her off on account of lack of work or lack of funds.

In case of a vacancy in any office or position, the head of the department in which the vacancy occurs shall not be required to fill such office or position if, in his or her judgment and discretion, there is no necessity thereof.

The Director of the Office of Budget and Management shall prepare a report to be presented to the City Council on the twentieth (20th) day following each quarter indicating all employees whose titles appear herein under one department or agency and who have been working for another department or agency for more than sixty (60) days in the previous three-month period. Such report shall indicate the name, title and salary of each such employee, the department or agency in which the title appears, the department or agency to which the employee is assigned, and a description of the duties being performed under the assignment. This provision shall not apply to work performed by one department or agency for another pursuant to contract. The first report shall be presented on April 20, 2009, and shall cover the period beginning January 1, 2009.

SECTION 7. The Commissioner of Human Resources shall prepare and present to the City Council on the twentieth (20th) day of each month a written report of all vacancies occurring during the preceding month due to resignation, retirement, death, layoff, promotion, demotion, discharge, or termination. The report shall be submitted on a form to be prepared by the Commissioner of Human Resources. The Commissioner of Human Resources shall prepare and present to the City Council monthly reports on all City employees hired during the preceding quarter.

The City Comptroller shall prepare and present to the City Council on the twentieth (20th) day of each month a report of the overtime compensation paid to employees during the preceding month, on a form to be prepared by the Committee on the Budget and Government Operations.

SECTION 8. In accordance with procedures prescribed by the Mayor, and subject to the limitations of this section, the Mayor and the heads of the various departments and agencies of the City Government are authorized to apply for grants from governmental and private grantors. With respect to such grants, and also with respect to city funds appropriated for grants to third parties, the heads of the various departments and agencies are authorized to execute grant and subgrant agreements and amendments thereto to effectuate the purposes of such grants and appropriations; to indemnify the grantor with respect to the performance of the grant, subject to the approval of the Corporation Counsel; and to execute such documents, and provide such additional information, assurances and certifications as are necessary, in connection with any of the foregoing.

To the extent that revenue of a grant is not described in the appropriation from Fund 925 -- Grant Funds, or that an amendment increases the budget of a project beyond the appropriation described hereinafter, no expenditure of such grant revenues shall be made without prior approval of the City Council.

The Comptroller and the heads of the various departments and agencies of the City Government shall administer the revenues of grants received by standard accounts, in accordance with the standard classification of accounts and with the manual of the Department of Finance.

No later than the tenth (10th) day of each month, the Budget Director shall file with the Committee on Finance a compilation of all grants awarded to the City in the preceding month.

On or before May 15, 2009, and on or before November 15, 2009, the Office of Budget and Management shall file with the City Council a report showing all federal and state funds received or administered by the City for the time periods October 1, 2008, through March 31, 2009, and April 1, 2009, through September 30, 2009, respectively. Community Development Block Grant funds shall be excluded from this report. The report shall list the amounts disbursed and purposes for which disbursements were made, and shall indicate the Grantor of the funds, purpose, service area(s) and number of positions supported.

In connection with any delegate agency grant agreements entered into between the City and the respective delegate agencies for 2009, the Chief Procurement Officer shall be authorized to resolve disputes between the respective delegate agency and the appropriate City department or agency and to promulgate and implement regulations in connection therewith.

SECTION 9. Any employee who is required and is authorized to use his or her personally owned automobile in the regular conduct of official City business shall be allowed and paid at the rate established from time to time by the Internal Revenue Service for the number of miles per month use of such privately owned automobile, to a maximum amount of Three Hundred Fifty Dollars (\$350) per month through January 31, 2009 and Five Hundred Fifty Dollars (\$550) per month thereafter; provided, that the computation shall be subject to provisions contained in contracts approved by the City Council between the City and recognized collective bargaining agents; and provided further that this allowance is subject to change by the City Council during the fiscal year in accordance with such contracts.

SECTION 10. In accordance with Section 2-60-080 of the Municipal Code, no expenditure may be made from any fund or line item account herein for the purpose of executing settlement agreements or entering into consent orders except upon order of the City Council. Provided, however, that this section shall not apply to settlement agreements or consent orders entered into where the amount is One Hundred Thousand Dollars (\$100,000) or less.

SECTION 11. The head of each department or other agency shall submit to the Committee on the Budget and Government Operations on or before June 15, 2009, a detailed report showing what steps have been taken to improve or maintain productivity in the department or agency since June 1, 2008, and the results which those steps have brought about. The form of the report shall be defined by the Committee on the Budget and Government Operations, and shall be submitted to the Budget Director by May 1, 2009, for distribution to the various departments and other agencies.

SECTION 12. To the extent that any ordinance, resolution, rule, order or provision of the Municipal Code, or part thereof, is in conflict with the provisions of this ordinance, the provisions of this ordinance shall be controlling. If any section, paragraph, clause or provision of this ordinance shall be held invalid, the invalidity of such section, paragraph, clause or provision shall not affect any of the other provisions of this ordinance.

WHEREAS, Pursuant to the enactment of the Federal Housing and Community Development Act of 1974, as amended, the City of Chicago proposes to submit the Final Statement of Objectives and Projected Use of Year XXXV entitlement funds, unexpended funds of prior federal years and related revenues in the amount of Ninety-one Million and no/100 Dollars (\$91,000,000.00); and

WHEREAS, The City of Chicago is a home rule unit of government as defined in Article VII Section 6(a) of the Illinois Constitution and, as such, may exercise any power and perform any function pertaining to its government and affairs; and

WHEREAS, The management of its finances is a matter pertaining to the government and affairs of the City; now, therefore,

Be It Ordained by the City Council of the City of Chicago:

SECTION 1. The Mayor of the City of Chicago is hereby authorized to make Year XXXV submission for funds, including the Final Statement of Objectives and Projected Use of Funds, in the sum of Ninety-one Million and no/100 Dollars (\$91,000,000.00) in entitlement funds, unexpended funds of prior years and related revenues, as set forth in this ordinance and all understandings and assurances contained herein, pursuant to the Federal Housing and Community Development Act of 1974, as amended, and regulations issued thereunder. The City Council hereby approves the Action Plan for use of Year XXXV Community Development Block Grant and related funds, as submitted by the Mayor and amended.

SECTION 2. The Mayor is further authorized to act in connection with the submission, to provide such assurances as are necessary and such additional information as may be required.

SECTION 3. The criteria for Community Development Block Grant funded programs previously approved by the City Council remains in effect.

SECTION 4. Except for those funds specifically appropriated for contractor-delegate agencies, the City may reprogram up to Twenty-five Thousand Dollars (\$25,000) appropriated for any object or purpose set forth in the Year XXXV Community Development Block Grant Ordinance or allocations from prior block grant years, provided that no appropriation for any object or purpose shall be reduced by reprogramming below an amount sufficient to cover all obligations incurred and payable from that appropriation.

All proposed reprogramming of funds as outlined in the Final Statement of Objectives and Projected Use of Funds by program for the Year XXXV and in the allocations for prior years shall be made by providing citizens with reasonable notice of the opportunity to comment on any proposed reprogramming of ten percent (10%) or more of funds from one activity to another, which includes the deletion or addition of any activity.

SECTION 5. The Office of Budget and Management shall notify aldermen of projects in their respective wards contemplated under this program.

SECTION 6. The award of any grant in any program category, project or activity which is not included by specific designation in the Community Development Block Grant Appropriation Ordinance shall be subject to review and approval by the City Council.

SECTION 7. The approval of any loan in the amount of One Hundred Fifty Thousand Dollars (\$150,000) or more, funded in whole or by twenty-five percent (25%) or more with Year XXXV Community Development Block Grant funds or funds from prior block grant years, shall be subject to review and approval by the City Council. Within ninety (90) days after the end of the midpoint and the end of the program year, the head of each department or agency through which loans are processed and administered shall file a report with the City Council concerning all loans of Community Development Block Grant funds made by the department or agency during the preceding half of the program year. Each report shall contain the following information concerning each loan: the name and address and nature of business of the borrower; the purpose of the loan; the federal program year and loan program involved; a summary of the terms and conditions of the loan; and a copy of the borrower's economic disclosure statement, if the loan did not require City Council approval.

SECTION 8. Funding for a minimum of two (2) rounds of Community Development Float Loan competitions will be drawn down from the Year XXXV letter of credit. The amount of funding for each round will depend on the availability of funds in the letter of credit at the time of each round as well as the total amount of gap financing needed by qualifying applicants.

SECTION 9. The following sums of money set out according to the departments and agencies of City government and contractor-delegate agencies are allocated from the Community Development Block Grant to the City of Chicago for Year XXXV; and are to be expended during the fiscal year beginning January 1, 2009, and ending December 31, 2009, for the objects and purposes set forth in Section 12 hereof. In furtherance thereof, authority is hereby provided to the heads of such City departments and agencies to execute subgrant agreements with such listed contractor-delegate agencies to effectuate such expenditures. Account numbers shall be interpreted in the same manner as their counterparts in the Annual Appropriation Ordinance of the City of Chicago for the Year 2009. Included in allocations for personal services in the Community Development Block Grant Appropriation Ordinance is an account appearing as Code Number ".0044 Fringe Benefits" for the purpose of providing City employees with health insurance, dental insurance, optical insurance, pension (employer's share), unemployment insurance, workers' compensation, tuition reimbursement, paid vacation, in-house training programs, sick leave, deferred compensation, holidays, time off with pay for family death, paid salary while on jury duty and disability payments.

SECTION 10. The appropriations set forth in the Community Development Block Grant Appropriation Ordinance for personal services shall be regarded as maximum amounts to be expended from such appropriations. Such expenditures shall be further limited to employment of personnel only as needed, or as may be required by law, not to exceed the specified maximum number designated in the ordinance for any office, position or title. When there is no limitation as to the maximum number that may be employed for any office or position by title, one person may be employed or more than one person may be employed with the approval of the Budget Director and the City Comptroller, regardless of whether such title is printed in the singular or plural. The salary or wage rate fixed shall be regarded as the maximum salary or wage rates for the respective offices, positions and titles; provided that wage rates fixed on a daily or monthly basis are subject to change by the City Council in

accordance with contracts approved by the City Council between the City of Chicago and recognized collective bargaining agents. The salary or wage rates fixed are on a yearly basis unless otherwise indicated. Initial appointments shall be made at the entrance of the salary range prescribed for the applicable class grade. In exceptional cases, upon recommendation of the department head and approval of the Commissioner of Human Resources, the Budget Director, City Comptroller and the Chairman of the City Council Committee on Finance or their respective designees, initial appointments may be made at a rate above the normal entrance rate. Entrance above the normal entrance rate shall be based on the outstanding and unusual character of the applicant's education, experience and training over and above the minimum qualifications specified for the class. An employee may be assigned to a title not appearing within the appropriation of the employee's department, in lieu of a specific title appearing in the appropriation, upon written recommendation of the department head and approval of the Commissioner of Human Resources, the Budget Director, City Comptroller and the Chairman of the City Council Committee on the Budget and Government Operations or their respective designees. Such assignment may be requested and approved when the title requested is appropriate to the function of the department, and reflects the skills, training and experience of the employee. In no event shall the authority conferred herein be exercised in violation of the Shakman Judgment.

No officer or employee shall have the right to demand continuous employment or compensation by reason of an appropriation if, upon determination of the department head, his or her services are not needed and it becomes necessary to lay him or her off on account of lack of work or lack of funds. In case of a vacancy in any office or position, the head of a department in which the vacancy occurs shall not be required to fill such office or position if, in his or her judgment and discretion, there is no necessity therefor.

All City of Chicago employees compensated by Community Development Block Grant funds shall receive the same benefits and conditions as other City employees performing similar work and compensated by other funds.

SECTION 11. Any employee who is required and authorized to use his or her personally owned automobile in the regular course of City business shall be allowed and paid at the rate established from time to time by the Internal Revenue Service for the number of miles per month use of such privately owned automobile, to a maximum amount of Three Hundred Fifty Dollars (\$350) per month through January 31, 2009 and Five Hundred Fifty Dollars (\$550) per month thereafter; provided, that the computation shall be subject to provisions contained in contracts approved by the City Council between the City and recognized collective bargaining agents. This allowance is subject to change by the City Council in accordance with contracts approved by the City Council between the City of Chicago and recognized collective bargaining agents.

SECTION 12. The objects and purposes for which allocations are made in this ordinance are classified and standardized by the following items:

- (1) Personal Services
- (2) Contractual Services
- (3) Travel
- (4) Commodities
- (5) Equipment
- (6) Permanent Improvements
- (7) Land

An appropriation in one or more of the items specified above shall be construed in accordance with the definitions and limitations specified in Section 8-2-5 of the Illinois Municipal Code of 1961, as amended, unless this ordinance otherwise provides. An allocation for a purpose other than one specified and defined in this section shall be considered a separate and distinct item of appropriation.

SECTION 13. All work to be performed by the City of Chicago pursuant to the Community Development Block Grant Appropriation Ordinance shall be done using the current work force of the City of Chicago and the persons on the following lists shall have preference over any new employees to be hired for positions for which such lists exist in accordance with the City's Human Resources Rules:

- (a) persons on City of Chicago layoff lists;
- (b) persons on City of Chicago reinstatement lists;
- (c) persons on City of Chicago reemployment lists; and
- (d) persons on City of Chicago promotion lists.

Provided, however, that the preferences hereinabove specified shall not apply where other methods of hiring must be utilized in order to comply with the terms of any order or decree of a court or administrative agency, collective bargaining agreement or Title 42 U.S.C. § 2000(e), et seq.

SECTION 14. For all funds expended under the Community Development Block Grant program for the Year XXXV, the Office of Budget and Management shall submit to the City Council a report on the expenditure and obligation of funds within forty-five (45) days after

the end of the first half of the program year and within ninety (90) days after the end of the program year. The report shall include an accounting for all funds expended during the preceding half year for all prior block grant years, all income generated from the current block grant year and previous grant years and a projection of income for the remaining half of the program year. The report shall also include a statement of the reasons for all unencumbered and unexpended allocations in all block grant years, as reported in the Department of Finance's monthly "Community Development Block Grant Fund, Schedule of H.U.D. Approved Allocations, Current Committee Approved Allocations, Expenditures, Accruals, Encumbrances and Available Balances".

SECTION 15. Except as provided in Section 4 hereof, all unencumbered and unexpended Community Development Block Grant funds of Year XXXV and all prior program years shall be reviewed by the Budget Director and the Comptroller for the purpose of preparing the Year XXXVI Community Development Block Grant Proposed Statement. This joint review committee shall prepare a report of funds available for reprogramming and proposed use of such funds in Community Development Block Grant Year XXXVI.

This report shall be submitted to the City Council and shall be subject to public comment and hearings along with the Year XXXVI Community Development Block Grant Proposed Statement. Action on these funds will take place concurrently with action on the proposed Year XXXVI Community Development Block Grant Final Statement.

SECTION 16. Pursuant to Section 104(a)(2)(D) and Section 104(b)(5) of the Federal Housing and Community Development Act of 1974, as amended, the City shall provide citizens with reasonable access to records of the past use of all Community Development Block Grant funds. Such information shall be available, on request, through the Office of Budget and Management and the Department of Finance.

SECTION 17. In the event that the final entitlement of the City of Chicago to Year XXXV Community Development Block Grant funds, as determined by the United States Department of Housing and Urban Development, does not equal the amount estimated in the Community Development Block Grant Appropriation Ordinance, the Budget Director shall compute the percentage difference, and the allocations made herein for every department, agency and contractor-delegate agency shall be adjusted by the same percentage. Notice of such adjustment shall be given to every affected department, agency and contractor-delegate agency as soon as possible after the adjustment has been computed.

SECTION 18. In the event that any contractor-delegate agency has not executed a contract authorized in the Community Development Block Grant Appropriation Ordinance by March 31, 2009, the allocation for such contract shall lapse. Provided, however this section shall not apply if it is determined by the Budget Director that the delay is not the fault of the contractor-delegate agency, but has been occasioned by difficulty in processing the contract within any department of the City government.

(C) For all other vehicle owners after vehicle immobilization or impoundment, the greater of \$750.00 or 50 percent of the vehicle owner's combined liability for parking, and compliance, and automated camera fines and penalties, plus accrued penalties and fees under Section 9-100-120(h) and for immobilization, impoundment, towing and storage to date.

(4) Required installment payments after the initial payment shall be substantially equal, unless the traffic compliance administrator determines, based on a review of the vehicle owner's finances, that installments in different amounts will be more effective in paying off the total indebtedness;

(5) If the vehicle owner fails to make all required payments in a timely manner, the vehicle owner's motor vehicle shall be subject to immobilization or impoundment and the vehicle owner shall be liable for the outstanding balance plus an additional penalty of \$100.00.

(6) Every installment plan shall be in a form prescribed by the traffic compliance administrator, and shall state the total indebtedness, the amount of the initial installment, the amount of each subsequent installment and the date each is due, the penalty for delinquency under the installment plan, and such other provisions as the traffic compliance administrator may determine. The installment plan shall also require the vehicle owner to pay every parking violation fine, and every compliance fine, and automated camera fine that becomes final during the term of the installment plan. The initial installment shall be paid when the plan is executed. Upon execution of the agreement and payment of the initial installment, and as long as the vehicle owner is in compliance with the installment plan, the vehicle owner's vehicles shall not be subject to immobilization and impoundment for failure to pay the parking, and compliance, and automated camera fines and penalties described in the installment.

(Omitted text is unaffected by this ordinance.)

(c) No new installment plan may be negotiated or executed after January 1, ~~2009~~ 2010. Installment plans in existence on that date shall remain in effect until completely performed or until terminated for failure of the vehicle owner to meet all requirements.

(Omitted text is unaffected by this ordinance.)

(e) This section shall apply to all payments and installment plans negotiated and executed under the City of Chicago Parking and Compliance Fines and Penalties Amnesty Ordinance of 2008 except to the extent that that ordinance is inconsistent with this section.

SECTION 3. Section 9-100-120 of the Municipal Code of Chicago is hereby amended by adding the language underscored and by deleting the language struck through, as follows:

9-100-120 Immobilization Program.

(a) The city traffic compliance administrator is hereby authorized to direct and supervise a program of vehicle immobilization for the purpose of enforcing the parking, and compliance and automated camera ordinances of the traffic code. The program of vehicle immobilization shall provide for immobilizing any eligible vehicle located on the public way or any city-owned property by placement of a restraint in such a manner as to prevent its operation or if the eligible vehicle is parked or left in violation of any provision of the traffic code for which such vehicle is subject to an immediate tow pursuant to Section 9-92-030, or in any place where it constitutes an obstruction or hazard, or where it impedes city workers during such operations as snow removal, the city traffic compliance administrator may cause the eligible vehicle to be towed to a city vehicle pound or relocated to a legal parking place and there restrained.

(b) When the registered owner of a vehicle has accumulated (i) three or more final determinations of liability or (ii) two notices which are more than one year past the date of issuance, for parking, or compliance, or automated camera violations, including a final determination of liability for a violation of Section 9-102-020, in any combination, for which the fines, and penalties, administrative fees provided for in Section 9-100-101, or related collection costs and attorney's fees pursuant to Section 1-19-020 or Section 1-19-030, if applicable, have not been paid in full, the city traffic compliance administrator shall cause a notice of impending vehicle immobilization to be sent, in accordance with Section 9-100-050(f). The notice of impending vehicle immobilization shall state the name and address of the registered owner, the state registration number of the vehicle or vehicles registered to such owner, and the serial numbers of parking, and/or compliance or automated camera violation notices which have resulted in final determination of liability or which are more than one year past the date of issuance for which the fines or penalties remain unpaid. Failure to pay the fines and penalties owed within 21 days from the date of the notice will result in the inclusion of the state registration number of the vehicle or vehicles of such owner on an immobilization list. A person may challenge the validity of the notice of impending vehicle immobilization by requesting a hearing and appearing in person to submit evidence which would conclusively disprove liability within 21 days of the date of the notice. Documentary evidence which would conclusively disprove liability shall be based on the following grounds:

(1) That all fines and penalties for the violations cited in the notice have been paid in full;

(2) That the registered owner has not accumulated three or more final determinations, or two notices which are more than one year past the date of issuance, of parking, or compliance or automated camera violation liability which were unpaid at the time the notice of impending vehicle immobilization was issued; or

(3) In the case of a violation of Section 9-102-020, that the registered owner has not been issued a final determination of liability under Section 9-102-060 or Section 9-103-060.

(Omitted text is unaffected by this ordinance.)

(d) The owner of an immobilized vehicle or other authorized person may secure the release of the vehicle by paying the immobilization, towing and storage fees provided in subsection (g) herein, and all amounts, including any fines, ~~and penalties,~~ administrative fees provided for in Section 9-100-101, and related collection costs and attorney's fees pursuant to Section 1-19-020 or Section 1-19-030, remaining due on each final determination for liability issued to such person.

(Omitted text is unaffected by this ordinance.)

(i) This section shall be subject to the City of Chicago Parking and Compliance Fines and Penalties Amnesty Ordinance of 2008.

SECTION 4. The Director of Revenue shall discount by \$1.00 any payment due the city made on or after December 1, 2008, if the payment is made at a kiosk provided by the city for such payments.

"Outstanding parking, compliance or automated camera violation" means any parking, compliance or automated camera violations for which the period granted for payment has expired.

(b) The Department of Revenue shall establish an amnesty program pursuant to this section. The amnesty program shall provide for amnesty as provided in this ordinance only if the debtor complies with the applicable requirements of the program during the amnesty period. The Department may promulgate such rules and regulations as are necessary to implement the provisions of this section. The Department shall prepare and distribute amnesty forms.

(c) Amnesty fee waivers and payment plan for parking, compliance and automated camera violations. The plans shall be in addition to the plans negotiated and executed under that section. The fees and charges waiver and additional payment plans shall be in the following categories:

(d) Subject to subsection (e) of this section, during the amnesty period, whenever any debtor pays, or enters into a payment plan for, the entire amount owed for any outstanding parking, compliance or automated camera violation: (1) the fees or charges for booting, towing or storage incurred as a result of the outstanding parking, compliance or automated camera violation, and the penalty set forth in Section 9-100-101(a)(5) for failing to make timely installment payments, shall be waived by the Department; and (2) the City shall not pursue civil or criminal prosecution for the failure to have paid any fines, interest or penalties for those violations; provided that any debtor who enters into a payment plan during the amnesty period and subsequently defaults on the payments shall be liable for the booting, towing and storage fees and any other charges or fees provided for in the municipal code, including the default penalty pursuant to Section 9-100-101.

The provisions of this subsection shall not apply to the owner of any vehicle which has been towed and impounded by the city.

(e) For any debtor who has failed to pay any final determination of an outstanding parking, compliance or automated camera violation issued prior to January 1, 2007, the Director shall waive 50% of any penalty imposed for such violations if the debtor pays during the amnesty period the entire amount due for the outstanding fines and penalties.

(f) Except as otherwise provided in this section, failure to pay all amounts due to the City under any other ordinance imposing such liability shall invalidate any amnesty granted pursuant to this ordinance. Amnesty shall be granted only if all amnesty conditions set forth in this section are satisfied by the debtor.

(g) Amnesty shall not be granted to persons who are a party to any criminal investigation or to any civil or criminal litigation which is pending in any circuit court, appellate court or the Supreme Court of the State of Illinois, or the department of administrative hearings, concerning fraudulent conduct in relation to any debt owed to the City of Chicago, or concerning nonpayment or delinquency in relation to any other debt owed to the City of Chicago.
