CITY OF CHICAGO

April 13, 2011.

To the Honorable, The City Council of the City of Chicago:

LADIES AND GENTLEMEN -- I transmit herewith a congratulatory resolution concerning Officers Eugene M. Ortiz and Marco A. Renteria of the Chicago Police Department, and their exemplary conduct during the events of February 11, 2011.

Your favorable consideration of this resolution will be appreciated.

Very truly yours,

(Signed) RICHARD M. DALEY,

WHEREAS, While on patrol late in the evening of February 11, 2011, Chicago Police Department 25th District Officers Eugene M. Ortiz (Star Number 16378) and Marco A. Renteria (Star Number 9456), were startled to see thick, dark smoke billowing from a multi-unit apartment building in the 6000 block of West Wabansia Avenue; and

WHEREAS, The Officers immediately notified the Office of Emergency Management and Communications and requested Fire and Police assistance; and

WHEREAS, The Officers then saw several small children looking through the window of a first-floor apartment. The children were apparently paralyzed with fear, and did not respond to the Officers' commands to leave the building; and

WHEREAS, Realizing that quick, decisive action was imperative, Police Officers Ortiz and Renteria forced their way into the building and found the apartment where the children were trapped; and

WHEREAS, The two Officers then forced their way into the apartment, and were able to rescue the three children, along with a senior citizen and two other adults who had been sleeping; and

Upon leaving the hospital, one of the grateful victims said: "Thank God for these Officers. If it was not for them, I would have lost my whole family"; and

Be It Resolved, That we, the Mayor and members of the City Council of the City of Chicago, assembled this 13th day of April 2011, do hereby commend Chicago Police Officers Eugene M. Ortiz and Marco A. Renteria for their diligence and bravery under life-threatening conditions; and

Be It Further Resolved, That suitable copies of this resolution be presented to Chicago Police Officers Eugene M. Ortiz and Marco A. Renteria, and placed on permanent record in each of their personnel files, as a token of our appreciation and esteem.

The City shall be entitled to rely on this certification without further inquiry. Upon the City's request, the Park District shall provide evidence satisfactory to the City of such compliance.

*Section 2.**Funding.*

2.1

The City shall, subject to the Park District's satisfaction of the conditions precedent for disbursement described in this Section 2 and such other conditions contained in this Agreement, disburse the TIF Assistance to the Park District.

2.2

The City shall establish a special account within the 47th/Halsted Redevelopment Project Area Special Tax Allocation Fund; such special account is or shall be known as the "Taylor Lauridsen Park Account". Disbursement of TIF Assistance funds will be subject to the availability of 47th/Halsted Increment in the Taylor Lauridsen Park Account, subject to all restrictions on and obligations of the City contained in all 47th/Halsted Ordinances, or relating to the 47th/Halsted Increment and all agreements and other documents entered into by the City pursuant thereto.

2.3

Within ____ days after the Closing Date or such longer period of time as may be agreed to by the Commissioner, but in no event later than ____ days after the execution of this Agreement (the "Satisfaction Period"), the Park District must satisfy to the reasonable satisfaction of the Commissioner, the following conditions precedent for City's disbursement of the TIF Assistance to the Park District:

- 2.3.1 the Park District is not in default of any term or condition of the Ground Lease;
- 2.3.2 the Park District has provided or has caused to be provided to the HED copies of all easements and encumbrances of record, if any; and
- 2.3.3 the Park District has satisfied the conditions stated in this Section 2.3 within the Satisfaction Period. If the Park District is unable to satisfy said conditions, either Party may terminate this Agreement by providing written notice to the other Party.

2.4

The Park District may request that a certificate(s) of expenditure in the form of (Sub)Exhibit D hereto ("Certificates of Expenditure") be processed and executed periodically,

but in no event more frequently than quarterly. The City shall not execute Certificates of Expenditure in the aggregate in excess of the actual costs of the Project that are TIF-Funded Improvements. Prior to each execution of a Certificate of Expenditure by the City, the Park District shall submit documentation regarding the applicable expenditures to the City. Delivery by the Park District to the City of any request for execution by the City of a Certificate of Expenditure hereunder shall, in addition to the items therein expressly set forth, constitute a certification to the City, as of the date of such request for execution of a Certificate of Expenditure, that:

- 2.4.1 the total amount of the request for the Certificate of Expenditure represents the actual amount payable to (or paid to) the general contractor, subcontractors, and other parties who have performed work on or otherwise provided goods or services in connection with the Project, and/or their payees;
- 2.4.2 all amounts shown as previous payments on the current request for a Certificate of Expenditure have been paid to the parties entitled to such payment;
- 2.4.3 the Park District has approved all work and materials for the current request for a Certificate of Expenditure, and such work and materials conform to the Plans and Specifications; and
- 2.4.4 the Park District is in compliance with all applicable federal, state and local laws, statutes, ordinances, rules, regulations, codes and executive orders, all as may be in effect from time to time, pertaining to or affecting the Project or the Park District as related thereto.

2.5

The City shall have the right, in its discretion, to require the Park District to submit further documentation as the City may require in order to verify that the matters certified to in Section 2.4 are true and correct, and any execution of a Certificate of Expenditure by the City shall be subject to the City's review and approval of such documentation and its satisfaction that such certifications are true and correct; provided, however, that nothing in this sentence shall be deemed to prevent the City from relying on such certifications by the Park District.

2.6

The current estimate of the cost of the Project is \$150,000. The Park District has delivered to the Commissioner a budget for the Project attached as (Sub)Exhibit C. The Park District certifies that it has identified sources of funds, including the TIF Assistance, sufficient to complete the Project. The Park District agrees that the City will reimburse the Park District with the TIF Assistance for the costs of the Project and that all costs of completing the Project over the TIF Assistance shall be the sole responsibility of the Park District. If the Park District at any point does not have sufficient funds to complete the Project, the Park District shall so notify the City in writing, and the Park District may narrow the scope of the Project (the "Revised Project") as agreed with the City in order to complete the Revised Project with the available funds.

2.7

(Sub)Exhibit C contains a preliminary list of capital improvements and other costs, if any, recognized by the City as being eligible redevelopment project costs under the Act with respect to the Project, to be paid for out of the TIF Assistance. To the extent the TIF-Funded Improvements are included as taxing disthct capital costs under the Act, the Park Disthct acknowledges that the TIF-Funded Improvements are costs for capital improvements and the City acknowledges it has determined that these TIF-Funded Improvements are necessary and directly result from the Project. Prior to the expenditure of TIF Assistance funds on the Project, the Commissioner, based upon the Project budget, may make such modifications to (Sub)Exhibit C as he or she wishes in his or her discretion to account for all of the TIF Assistance funds to be expended under this Agreement; provided, however, that all TIF-Funded Improvements shall (i) qualify as redevelopment project costs under the Act, (ii) qualify as eligible costs under the Plan; and (iii) be improvements that the Commissioner has agreed to pay for out of TIF Assistance funds, subject to the terms of this Agreement.

2.8

The Park Disthct hereby acknowledges and agrees that the City's obligations hereunder with respect to the TIF Assistance are subject in every respect to the availability of funds as desched in and limited by this Section 2. If no funds or insufficient funds are appropriated and budgeted in any fiscal pehod of the City for disbursements of the TIF Assistance, then the City will notify the Park Disthct in writing of that occurrence, and the City may terminate this Agreement on the eahier of the last day of the fiscal pehod for which sufficient appropriation was made or whenever the funds approphated for disbursement under this Agreement are exhausted.

2.9

If the aggregate cost of the Project is less than the amount of the TIF Assistance contemplated by this Agreement, the Park Disthct shall have no claim to the difference between the amount of the TIF Assistance contemplated by this Agreement and the amount of the TIF Assistance actually paid by the City to the Park Disthct and expended by the Park Disthct on the Project.

*Section 3.**Term.*

3.1

The term of this Agreement shall commence on the Closing Date and shall expire on the date on which the 47th/Halsted Redevelopment Project Area is no longer in effect, or on the date of termination of this Agreement according to its terms, whichever occurs first.

The receipt of any certificate does not constitute agreement by the City that the insurance requirements in this Agreement have been fully met or that the insurance policies indicated on the certificate are in compliance with all Agreement requirements. The failure of the City to obtain certificates or other insurance evidence shall not be deemed to be a waiver by the City.

5.3

The Park District shall advise all insurers of the provisions of this Agreement regarding insurance. Nonconforming insurance shall not relieve the Park District of the obligation to provide insurance as specified herein. Nonfulfillment of the insurance conditions may constitute a violation of this Agreement, and the City retains the right to stop work until proper evidence of insurance is provided, or this Agreement may be terminated.

5.4

The required insurance shall provide for sixty (60) days prior written notice to be given to the City in the event coverage is substantially changed, canceled, or non-renewed.

WHEREAS, The Park District currently leases the Property from the City pursuant to a lease dated as of March 26, 2008; and

WHEREAS, The Park District has proposed to undertake certain improvements to the Property (the "Project"); and

WHEREAS, The Property lies within the boundaries of the Pilsen Redevelopment Area (as hereinafter defined); and

WHEREAS, The City is authorized under the provisions of the Tax Increment Allocation Redevelopment Act, 65 ILCS 5/11-74.4-1, et seq., as amended from time to time (the "Act"), to finance projects that eradicate blight conditions and conservation factors that could lead to blight through the use of tax increment allocation financing for redevelopment projects; and

(To Ordinance)

*Intergovernmental Agreement Between
The City Of Chicago And
The Chicago Park District.*

Palmisano Park (Park No. 531).

This agreement (the "Agreement") is made this ____ day of _____, 2011 (the "Closing Date"), under authority granted by Article VII, Section 10 of the 1970 Constitution of the State of Illinois, by and between the City of Chicago (the "City"), an Illinois municipal corporation, by and through its Department of Housing and Economic Development ("HED"); and the Chicago Park District (the "Park District"), an Illinois municipal corporation. The Park District and the City are sometimes referred to herein as the "Parties".

Recitals.

A. The City is a home rule unit of government under Article VII, Section 6(a) of the 1970 Constitution of the State of Illinois and, as such, may exercise any power and perform any function pertaining to its government and affairs.

B. The Park District is a unit of local government under Article VII, Section 1 of the 1970 Constitution of the State of Illinois and, as such, has the authority to exercise control over and supervise the operation of all parks within the corporate limits of the City.

C. The City and the Park District have previously entered into an Intergovernmental Agreement, as authorized by ordinances adopted by the City Council of the City (the "City Council") on December 17, 2003, and published in the *Journal of the Proceedings of the City Council of the City of Chicago* (the "*Journal*") for said date at pages 15900 to 15930 for the development and construction of Palmisano Park (Park Number 531), formerly known as Stearns Quarry, an approximately 27-acre park located generally at 2850 South Halsted Street, Chicago, Illinois and legally described in (Sub)Exhibit A (the "Property").

D. The Park District seeks reimbursement of certain funds expended for the development and construction of Palmisano Park (the "Project").

E. The Park District leases the Property from the City pursuant to a lease dated as of March 26, 2008 (the "Lease"). The Property lies wholly within the boundaries of the Pilsen Redevelopment Project Area (as hereinafter defined).

F. The City is authorized under the provisions of the Tax Increment Allocation Redevelopment Act, 65 ILCS 5/11-74.4-1, et seq., as amended from time to time (the "Act"), to finance projects that eradicate blight conditions and conservation factors that could lead to blight through the use of tax increment allocation financing for redevelopment projects.

G. In accordance with the provisions of the Act, pursuant to ordinances adopted on June 10, 1998 and published in the *Journal* for said date at pages 70522 to 70686, as amended from time to time, the City Council: (i) approved and adopted a Tax Increment Redevelopment Project and Plan for a portion of the City known as the "Pilsen Redevelopment Project Area" (the "Plan"); (ii) designated the Pilsen Redevelopment Project Area as a "redevelopment project area" and a Tax Increment Financing District; and (iii) adopted tax increment allocation financing for the Pilsen Redevelopment Project Area (collectively, the "Pilsen Ordinances").

H. Under 65 ILCS 5/11-74.4-3(q)(7), such incremental ad valorem taxes which pursuant to the Act have been collected and are allocated to pay redevelopment project costs and obligations incurred in the payment thereof ("Increment") may be used to pay all or a portion of a taxing district's capital costs resulting from a redevelopment project necessarily incurred or to be incurred in furtherance of the objectives of the redevelopment plan and project, to the extent the municipality by written agreement accepts and approves such costs. (Increment collected from the Pilsen Redevelopment Project Area shall be known as the "Pilsen Increment").

I. The Plan contemplates that tax increment financing assistance would be provided for public improvements, such as the Project, within, or within other redevelopment project areas adjacent to, the boundaries of the Pilsen Redevelopment Project Area.

J. The Park District is a taxing district under the Act.

K. HED wishes to make available to the Park District a portion of the Pilsen Increment in an amount not to exceed \$1,000,000 (the "TIF Assistance") for the purpose of funding the Project in (Sub)Exhibit C (the "TIF-Funded Improvements") to the extent and in the manner provided in this Agreement.

L. In accordance with the Act, the TIF-Funded Improvements shall include such of the Park District's capital costs necessarily incurred or to be incurred in furtherance of the objectives of the Plan, and the City has found that the TIF-Funded Improvements consist of the cost of the Park District's capital improvements that are necessary and directly result from the redevelopment project constituting the Project and, therefore, constitute "taxing districts' capital costs" as defined in Section 5/11-74.4-3(u) of the Act.

M. The City and the Park District wish to enter into this Agreement whereby the Park District shall undertake the Project and the City shall reimburse the Park District for the TIF-Funded Improvements up to the full amount of the TIF Assistance upon completion of the Project.

N. On _____, the City Council adopted an ordinance published in the *Journal* for said date at pages _____ (the "Authorizing Ordinance"), among other things, authorizing the execution of this Agreement.

O. On September 15, 2010, the Park District's Board of Commissioners passed a resolution expressing its desire to cooperate with the City in the completion of the Project and authorizing the execution of this Agreement (the "Park District Ordinance").

Now, Therefore, In consideration of the mutual covenants and agreements contained herein, the above recitals which are made a contractual part of this Agreement, and other good and valuable consideration the receipt and sufficiency of which are hereby acknowledged, the Parties agree as follows:

Terms And Conditions.

Section 1.

The Project.

1.1

No later than ____ months from the Closing Date, or later as the Commissioner of HED (the "Commissioner") may agree in writing, the Park District shall let one or more contracts for the Project in compliance with all applicable federal, state and local laws, statutes, ordinances, rules, regulations, codes and executive orders, all as may be in effect from time to time, pertaining to or affecting the Project or the Park District as related thereto.

1.2

The Park District has provided plans and specifications for the Project (the "Plans and Specifications") as set forth in (Sub)Exhibit B hereof. No material deviation from the Plans and Specifications may be made without the prior written approval of HED. The Park District shall comply with all applicable federal, state and local laws, statutes, ordinances, rules, regulations, codes and executive orders, all as may be in effect from time to time, pertaining to or affecting the Project or the Park District as related thereto.

1.3

The Park District shall provide the HED with copies of all governmental licenses and permits required for the Project and to use, occupy and operate the Property as a public park from all appropriate governmental authorities, including evidence that the Property is appropriately zoned to be used, occupied, and operated as a public park.

1.4

The Park District shall submit a Certificate of Expenditure (as hereinafter defined) with each request for Pilsen Increment funds hereunder and at the time the Project is completed. The City shall be entitled to rely on this certification without further inquiry. Upon the City's request, the Park District shall provide evidence satisfactory to the City of such compliance.

*Section 2.**Funding.*

2.1

The City shall, subject to the Park District's satisfaction of the conditions precedent for disbursement described in this Section 2 and such other conditions contained in this Agreement, disburse the TIF Assistance to the Park District.

2.2

The City shall establish a special account within the Pilsen Redevelopment Project Area Special Tax Allocation Fund; such special account is or shall be known as the "Palmisano Park (Stearns Quarry) Account". Disbursement of TIF Assistance funds will be subject to the

availability of Pilsen Increment in the Palmisano Park (Stearns Quarry) Account, subject to all restrictions on and obligations of the City contained in all Pilsen Ordinances, or relating to the Pilsen Increment and all agreements and other documents entered into by the City pursuant thereto.

2.3

Within ____ days after the Closing Date or such longer period of time as may be agreed to by the Commissioner, but in no event later than ____ days after the execution of this Agreement (the "Satisfaction Period"), the Park District must satisfy to the reasonable satisfaction of the Commissioner, the following conditions precedent for the City's disbursement of TIF Assistance to the Park District:

(a) the Park District is not in default of any term or condition of the Lease;

(b) the Park District has provided or caused to be provided a copy of the most recent water bill with respect to the Property, to the extent available, and evidence of payment thereof; and

(c) if the Park District is unable to satisfy the conditions in this Section 2.3 within the Satisfaction Period, either Party may terminate this Agreement by providing written notice to the other Party.

2.4

The Park District may request that a certificate(s) of expenditure in the form of (Sub)Exhibit D hereto ("Certificates of Expenditure") be processed and executed periodically, but in no event more frequently than quarterly. The City shall not execute Certificates of Expenditure in the aggregate in excess of the actual costs of the Project that are TIF-Funded Improvements. Prior to each execution of a Certificate of Expenditure by the City, the Park District shall submit documentation regarding the applicable expenditures to HED. Delivery by the Park District to HED of any request for execution by the City of a Certificate of Expenditure hereunder shall, in addition to the items therein expressly set forth, constitute a certification to the City, as of the date of such request for execution of a Certificate of Expenditure, that:

(a) the total amount of the request for the Certificate of Expenditure represents the actual amount payable to (or paid to) the general contractor, subcontractors, and other parties who have performed work on or otherwise provided goods or services in connection with the Project, and/or their payees;

(b) all amounts shown as previous payments on the current request for a Certificate of Expenditure have been paid to the parties entitled to such payment;

- (c) the Park District has approved all work and materials for the current request for a Certificate of Expenditure, and such work and materials conform to the Plans and Specifications previously approved by HED; and
- (d) the Park District is in compliance with all applicable federal, state and local laws, statutes, ordinances, rules, regulations, codes and executive orders, all as may be in effect from time to time, pertaining to or affecting the Project or the Park District as related thereto; and
- (e) the Park District is not in default of any term or condition of the Lease.

2.5

The City shall have the right, in its discretion, to require the Park District to submit further documentation as the City may require in order to verify that the matters certified to in Section 2.4 are true and correct, and any execution of a Certificate of Expenditure by the City shall be subject to the City's review and approval of such documentation and its satisfaction that such certifications are true and correct; provided, however, that nothing in this sentence shall be deemed to prevent the City from relying on such certifications by the Park District.

2.6

The Park District has delivered to the Commissioner a budget for the Project attached as (Sub)Exhibit C. The total cost of the Project is \$1,000,000. The Park District certifies that it has identified sources of funds, including the TIF Assistance, sufficient to complete the Project. The Park District agrees that the City will reimburse the Park District up to the full amount of the TIF Assistance for costs incurred for TIF-Funded Improvements and that all costs of completing the Project over the TIF Assistance shall be the sole responsibility of the Park District. If the Park District at any point does not have sufficient funds to complete the Project, the Park District shall so notify the City in writing, and the Park District may narrow the scope of the Project (the "Revised Project") as agreed in writing by HED in order to complete the Revised Project with the available funds.

2.7

(Sub)Exhibit C contains a preliminary list of capital improvements and other costs, if any, recognized by the City as being eligible redevelopment project costs under the Act with respect to the Project, to be paid for out of the TIF Assistance. The total cost of TIF-Funded Improvements is \$1,000,000. To the extent the TIF-Funded Improvements are included as taxing district capital costs under the Act, the Park District acknowledges that the TIF-Funded Improvements are costs for capital improvements and the City acknowledges it has determined that these TIF-Funded Improvements are necessary and directly result from the Project. Prior to the expenditure of TIF Assistance on the Project, the Commissioner, based upon the Project budget, may make such modifications to (Sub)Exhibit C as he or she wishes in his or her discretion to account for all of the TIF Assistance to be expended under this

Agreement; provided, however, that all TIF-Funded Improvements shall (i) qualify as redevelopment project costs under the Act, (ii) qualify as eligible costs under the Plan; and (iii) be improvements that the Commissioner has agreed to pay for out of TIF Assistance funds, subject to the terms of this Agreement.

2.8

The Park District hereby acknowledges and agrees that the City's obligations hereunder with respect to the TIF Assistance are subject in every respect to the availability of funds as described in and limited by this Section 2. If no funds or insufficient funds are appropriated and budgeted in any fiscal period of the City for disbursements of the TIF Assistance, then the City will notify the Park District in writing of that occurrence, and the City may terminate this Agreement on the earlier of the last day of the fiscal period for which sufficient appropriation was made or whenever the funds appropriated for disbursement under this Agreement are exhausted.

2.9

If the aggregate cost of the TIF-Funded Improvements is less than the amount of the TIF Assistance contemplated by this Agreement, the Park District shall have no claim to the difference between the amount of the TIF Assistance contemplated by this Agreement and the amount of the TIF Assistance actually paid by the City to the Park District and expended by the Park District on the Project.

Section 3.

Term.

The term of this Agreement shall commence on the Closing Date and shall expire on the date on which the Pilsen Redevelopment Project Area is no longer in effect, or on the date of termination of this Agreement according to its terms, whichever occurs first.

Section 4.

Environmental Matters.

4.1

[Intentionally omitted.]

4.2

The Park District agrees to carefully inspect the Property prior to commencement of any activity related to the Project to ensure that such activity shall not damage surrounding property, structures, utility lines or any subsurface lines or cables. The Park District shall be solely responsible for the safety and protection of the public. The City reserves the right to inspect the work being done on the Property. The Park District agrees to keep the Property free from all liens and encumbrances arising out of any work performed, materials supplied or obligations incurred by or for the Park District.

Section 5.

Insurance.

5.1

The Park District shall provide and maintain at the Park District's own expense, or cause to be provided during the term of this Agreement, the insurance coverages and requirements specified below, insuring all operations related to this Agreement.

(a) **Workers' Compensation And Employer's Liability.**

(b) **Commercial General Liability (Primary And Umbrella).**

Coverages shall include the following: all premises and operations, products/completed operations, explosion, collapse, underground, separation of insureds, defense, and contractual liability (with no limitation endorsement). The City of Chicago is to be named as an additional insured on a primary, noncontributory basis for any liability arising directly or indirectly from the work.

(c) **Automobile Liability (Primary And Umbrella).**

When any motor vehicles (owned, non-owned and hired) are used in connection with work to be performed, The Park District shall provide or cause to be provided, Automobile Liability Insurance with limits of not less than \$1,000,000 per occurrence for bodily injury and property damage.

(d) Professional Liability.

When any architects, engineers or professional consultants perform work in connection with this Agreement, The Park District shall cause to be provided, Professional Liability Insurance covering acts, errors, or omissions shall be maintained with limits of not less than \$1,000,000.

(e) Self-Insurance.

To the extent permitted by law, the Park District may self-insure for the insurance requirements specified above, it being expressly understood and agreed that, if the Park District does self-insure for the above insurance requirements, the Park District shall bear all risk of loss for any loss which would otherwise be covered by insurance policies, and the self-insurance program shall comply with at least the insurance requirements as stipulated above.

5.2

The Park District will furnish the City at the address stated in Section 8.13, original Certificates of Insurance evidencing the required coverage to be in force on the Closing Date, and Renewal Certificates of Insurance, or such similar evidence, if the coverages have an expiration or renewal date occurring during the term of this Agreement. The Park District shall submit evidence of insurance on the City's Insurance Certificate Form or equivalent prior to the Closing Date. The receipt of any certificate does not constitute agreement by the City that the insurance requirements in this Agreement have been fully met or that the insurance policies indicated on the certificate are in compliance with all Agreement requirements. The failure of the City to obtain certificates or other insurance evidence shall not be deemed to be a waiver by the City.

5.3

The Park District shall advise all insurers of the provisions of this Agreement regarding insurance. Nonconforming insurance shall not relieve the Park District of the obligation to provide insurance as specified herein. Nonfulfillment of the insurance conditions may constitute a violation of this Agreement, and the City retains the right to stop work until proper evidence of insurance is provided, or this Agreement may be terminated.

5.4

The required insurance shall provide for sixty (60) days prior written notice to be given to the City in the event coverage is substantially changed, canceled, or non-renewed.

5.5

Any and all deductibles or self-insured retentions on referenced insurance coverages shall be borne by the Park District and its contractors.

5.6

The Park District agrees that insurers shall waive their rights of subrogation against the City, its employees, elected officials, agents, or representatives.

5.7

The Park District expressly understands and agrees that any coverage and limits furnished by the Park District shall in no way limit the Park District's liabilities and responsibilities specified by this Agreement or by law.

5.8

The Park District expressly understands and agrees that any insurance or self-insurance programs maintained by the City shall not contribute with insurance provided by the Park District under this Agreement.

5.9

The required insurance shall not be limited by any limitations expressed in the indemnification language herein or any limitation placed on the indemnity therein given as a matter of law.

5.10

The Park District shall require all subcontractors to provide the insurance required herein and any other insurance customarily required by the Park District, or the Park District may provide the required coverages for subcontractors. All subcontractors shall be subject to the same insurance requirements of the Park District unless otherwise specified herein. In all contracts relating to the Project, the Park District agrees to require the contractor to name the City as an additional insured on insurance coverages and to require the contractor to indemnify the City from all claims, damages, demands, losses, suits, actions, judgments and expenses including but not limited to attorney's fees arising out of or resulting from work on the Project by the contractor or contractor's suppliers, employees, or agents.

5.11

The City's Risk Management Department maintains the right to modify, delete, alter or change these requirements.

*Section 6.**Indemnity/No Personal Liability.*

6.1

The Park District agrees to indemnify and hold the City, its officers and employees, harmless from and against any losses, costs, damages, liabilities, claims, suits, actions, causes of action and expenses, including, without limitation, reasonable attorney's fees and court costs suffered or incurred by the City arising from or in connection with (i) the Park District's failure to comply with any of the terms, covenants and conditions contained in this Agreement; or (ii) the Park District's or any contractor's failure to pay general contractors, subcontractors or materialmen in connection with the Project. The defense and indemnification obligations in this Section 6.1 shall survive any termination or expiration of this Agreement.

6.2

No elected or appointed official or member or employee or agent of the City or the Park District shall be individually or personally liable in connection with this Agreement.

*Section 7.**Default.*

7.1

If the Park District, without the City's written consent, fails to complete the Project within _____ months after the date of execution of this Agreement, then the City may terminate this Agreement by providing written notice to the Park Disthct.

7.2

In the event the Park District fails to perform, keep or observe any of its covenants, conditions, promises, agreements or obligations under this Agreement not identified in Section 7.1 and such default is not cured as described in Section 7.3 hereof, the City may terminate this Agreement.

7.3

Prior to termination, the City shall give its notice of intent to terminate 30 days prior to termination at the address specified in Section 8.13 hereof, and shall state the nature of the default. In the event the Park District does not cure such default within the 30-day notice period, such termination shall become effective at the end of such period; provided, however, with respect to those defaults which are not capable of being cured within such 30-day period, the Park District shall not be deemed to have committed such default and no termination shall occur if the Park District has commenced to cure the alleged default within such 30-day period and thereafter diligently and continuously prosecutes the cure of such default until the same has been cured.

7.4

- (iii) a copy of the most recent real estate tax bill with respect to the Property, to the extent available; and
- (iv) a copy of the most recent water bill with respect to the Property, to the extent available.

2.3.3 the Park District has satisfied the conditions stated in this Section 2.3 within the Satisfaction Period. If the Park District is unable to satisfy said conditions, either Party may terminate this Agreement by providing written notice to the other Party.

2.4

The Park District may request that a certificate(s) of expenditure in the form of (Sub)Exhibit D hereto ("Certificates of Expenditure") be processed and executed periodically, but in no event more frequently than quarterly. The City shall not execute Certificates of Expenditure in the aggregate in excess of the actual costs of the Project that are TIF-Funded Improvements. Prior to each execution of a Certificate of Expenditure by the City, the Park District shall submit documentation regarding the applicable expenditures to the City. Delivery by the Park District to the City of any request for execution by the City of a Certificate of Expenditure hereunder shall, in addition to the items therein expressly set forth, constitute a certification to the City, as of the date of such request for execution of a Certificate of Expenditure, that:

- 2.4.1 the total amount of the request for the Certificate of Expenditure represents the actual amount payable to (or paid to) the general contractor, subcontractors, and other parties who have performed work on or otherwise provided goods or services in connection with the Project, and/or their payees;
- 2.4.2 all amounts shown as previous payments on the current request for a Certificate of Expenditure have been paid to the parties entitled to such payment;
- 2.4.3 the Park District has approved all work and materials for the current request for a Certificate of Expenditure, and such work and materials conform to the Plans and Specifications; and
- 2.4.4 the Park District is in compliance with all applicable federal, state and local laws, statutes, ordinances, rules, regulations, codes and executive orders, all as may be in effect from time to time, pertaining to or affecting the Project or the Park District as related thereto.

2.5

The City shall have the right, in its discretion, to require the Park District to submit further documentation as the City may require in order to verify that the matters certified to in Section 2.4 are true and correct, and any execution of a Certificate of Expenditure by the City shall be subject to the City's review and approval of such documentation and its satisfaction that such certifications are true and correct; provided, however, that nothing in this sentence shall be deemed to prevent the City from relying on such certifications by the Park District.

2.6

The current estimate of the cost of the Project is \$1,000,000. The Park District has delivered to the Commissioner a budget for the Project attached as (Sub)Exhibit C. The Park District certifies that it has identified sources of funds, including the TIF Assistance, sufficient to complete the Project. The Park District agrees that the City will reimburse the Park District with the TIF Assistance for the costs of the Project and that all costs of completing the Project

over the TIF Assistance shall be the sole responsibility of the Park District. If the Park District at any point does not have sufficient funds to complete the Project, the Park District shall so notify the City in writing, and the Park District may narrow the scope of the Project (the "Revised Project") as agreed with the City in order to complete the Revised Project with the available funds.

2.7

(Sub)Exhibit C contains a preliminary list of capital improvements and other costs, if any, recognized by the City as being eligible redevelopment project costs under the Act with respect to the Project, to be paid for out of the TIF Assistance. To the extent the TIF-Funded Improvements are included as taxing district capital costs under the Act, the Park District acknowledges that the TIF-Funded Improvements are costs for capital improvements and the City acknowledges it has determined that these TIF-Funded Improvements are necessary and directly result from the Project. Prior to the expenditure of TIF Assistance funds on the Project, the Commissioner, based upon the Project budget, may make such modifications to (Sub)Exhibit C as he or she wishes in his or her discretion to account for all of the TIF Assistance funds to be expended under this Agreement; provided, however, that all TIF-Funded Improvements shall (i) qualify as redevelopment project costs under the Act, (ii) qualify as eligible costs under the Plan; and (iii) be improvements that the Commissioner has agreed to pay for out of TIF Assistance funds, subject to the terms of this Agreement.

2.8

The Park District hereby acknowledges and agrees that the City's obligations hereunder with respect to the TIF Assistance are subject in every respect to the availability of funds as described in and limited by this Section 2. If no funds or insufficient funds are appropriated and budgeted in any fiscal period of the City for disbursements of the TIF Assistance, then the City will notify the Park District in writing of that occurrence, and the City may terminate this Agreement on the earlier of the last day of the fiscal period for which sufficient appropriation was made or whenever the funds appropriated for disbursement under this Agreement are exhausted.

2.9

If the aggregate cost of the Project is less than the amount of the TIF Assistance contemplated by this Agreement, the Park District shall have no claim to the difference between the amount of the TIF Assistance contemplated by this Agreement and the amount of the TIF Assistance actually paid by the City to the Park District and expended by the Park District on the Project.

*Section 3.**Term.*

5.3

The Park District shall advise all insurers of the provisions of this Agreement regarding insurance. B. Statutory Authority: The City is authorized under the provisions of the Tax Increment Allocation Redevelopment Act, 65 ILCS 5/11-74.4-1 et seq., as amended from time to time (the "Act"), to finance projects that eradicate blighted conditions and conservation area factors through the use of tax increment allocation financing for redevelopment projects.

C. City Council Authority: To induce redevelopment pursuant to the Act, the City Council of the City (the "City Council") adopted the following ordinances on February 27, 2002: (1) "An Ordinance of the City of Chicago, Illinois Approving a Redevelopment Plan for the Lawrence/Pulaski Project Area"; (2) "An Ordinance of the City of Chicago, Illinois Designating the Lawrence/Pulaski Redevelopment Project Area as a Redevelopment Project Area Pursuant to the Tax Increment Allocation Redevelopment Act"; and (3) "An Ordinance of the City of Chicago, Illinois Adopting Tax Increment Allocation Financing for the Lawrence/Pulaski Redevelopment Project Area" (the "TIF Adoption Ordinance") (items(1)-(3) collectively referred to herein as the "TIF Ordinances"). The redevelopment project area referred to above (the "Redevelopment Area") is legally described in Exhibit A hereto.

(a) Uses of City Funds. City Funds may only be used to pay directly or reimburse the Developer for costs of TIF-Funded Improvements that constitute Redevelopment Project Costs. Exhibit C sets forth, by line item, the TIF-Funded Improvements for the Project, and the maximum amount of costs that may be paid by or reimbursed from City Funds for each line item therein (subject to Sections 4.03(b) and 4.05(d)), contingent upon receipt by the City of documentation satisfactory in form and substance to DHED evidencing such cost and its eligibility as a Redevelopment Project Cost. City funds shall be disbursed to the Developer in multiple payments, consisting of the following: (i) one payment in the amount of \$780,000 (the "Initial Payment") at RDA Closing Date, (ii) the subsequent payment in the amount of \$348,000 (the "Second Payment") shall be made within 90 days after the issuance of the Certificate to the Developer by DHED and (iii) ten (10) annual disbursements to Developer in a total amount not to exceed \$378,306 (the "Annual Installments") following the issuance of the Certificate and subject to the approval of DHED pursuant to the terms and conditions of this Agreement.

(b) Sources of City Funds. Subject to the terms and conditions of this Agreement, including but not limited to this Section 4.03, Section 4.09 and Section 5 hereof, the City hereby agrees to provide City funds from the sources and in the amounts described directly below (the "City Funds") to pay for or reimburse the Developer for the costs of the TIF-Funded Improvements:

<u>Source of City Funds</u>	<u>Maximum Amount</u>
Initial Payment (TIF Funds at RDA Closing Date; paid through Incremental Taxes)	\$780,000
Second Payment (TIF Funds at Certificate of Completion paid through Available Incremental Taxes and Incremental Taxes)	\$348,000

Annual Installments (paid through Available Incremental Taxes and Incremental Taxes) \$378,306 (aggregate)

provided, however, that notwithstanding that the total amount of City Funds expended for TIF-Funded Improvements shall be an amount not to exceed the lesser of One Million Five Hundred Six Thousand Three Hundred Six and No/100 Dollars (\$1,506,306) or 44.7% of the actual Project costs; and provided further, that the up to \$1,506,306 to be derived from Available Incremental Taxes or TIF Bond proceeds, if any, shall be available to pay costs related to TIF-Funded Improvements and allocated by the City for that purpose only so long as:

- (i) the amount of the Available Incremental Taxes and Excess Incremental Taxes deposited into the Lawrence/Pulaski Redevelopment Project Area TIF Fund shall be sufficient to pay for such costs; and
- (ii) The City has been reimbursed from Available Incremental Taxes for the amount previously disbursed by the City for TIF-Funded Improvements.

The Developer acknowledges and agrees that the City's obligation to pay for TIF-Funded Improvements up to a maximum of \$1,506,306 is contingent upon the fulfillment of the Developer's conditions set forth in this Agreement. In the event that such Developer's conditions are not fulfilled, the amount of Equity to be contributed by the Developer pursuant to Section 4.01 hereof shall increase proportionately. As of the RDA Closing Date, the City warrants that there are no prior area wide obligations.

(c) Schedule of Payment of Annual Installments.

A maximum of ten (10) Annual Installments in the amount of up to \$37,830.60 each shall be paid to the Developer beginning on the first anniversary date of the issuance of the Certificate. The maximum aggregate amount of all Annual Installments shall be limited to \$378,306.

(d) TIF Bonds. The City may, acting in its own discretion, issue TIF Bonds pursuant to ordinance or ordinances authorizing the issuance of TIF Bonds in an amount which, in the opinion of the Comptroller, is marketable under the then current market conditions; said ordinance or ordinances shall have been approved by City Council upon the recommendation of the Commissioner of DHED, or the Comptroller. The Developer will cooperate with the City in the issuance of TIF Bonds, as provided in Section 8.05 hereof

4.04 Constmction Escrow/Requisition Form.

(a) If required by any Lender providing Lender Financing, any other party providing Equity or the City, Developer hereby agrees to enter into an Escrow Agreement with Lenders and other parties providing Equity. All disbursements of Project funds (except for the Prior Expenditures and acquisition costs disbursed through a deed and money escrow at the closing) shall be made through the funding of draw requests with respect thereto pursuant to the

Escrow Agreement and this Agreement. In case of any conflict between the terms of this Agreement and the Escrow Agreement, the terms of this Agreement shall control. The City shall also be a party to the Escrow Agreement, not for the purpose of approving disbursements thereunder, but solely for the purpose of receiving any information it may request including, without limitation, copies of draw requests and related documents. The City must receive copies of any draw requests and related documents submitted to the Title Company for disbursements under the Escrow Agreement.

(b) On the Property Closing Date and prior to each December 1 (or such other date as the parties may agree to) thereafter, beginning in 2011 and continuing throughout the earlier of (i) the Term of the Agreement or (ii) the date that the Developer has been reimbursed in full under this Agreement, the Developer shall provide DHED with a Requisition Form, along with the documentation described therein. Requisition for reimbursement of TIF-Funded Improvements shall be made not more than one time per calendar year (or as otherwise permitted by DHED). On each December 1 (or such other date as may be acceptable to the parties), beginning in 2011 and continuing throughout the term of the Agreement, the Developer shall meet with DHED at the request of DHED to discuss the Requisition Form(s) previously delivered.

4.05 Treatment of Prior Expenditures and Subsequent Disbursements.

(a) Prior Expenditures. Only those expenditures made by the Developer with respect to the Project prior to the RDA Closing Date, evidenced by documentation satisfactory to DHED and approved by DHED as satisfying costs covered in the Project Budget, shall be considered previously contributed Equity or Lender Financing hereunder (the "Prior Expenditures"). DHED shall have the right, in its sole discretion, to disallow any such expenditure as a Prior Expenditure. Exhibit I hereto sets forth the prior expenditures approved by DHED as of the date hereof as Prior Expenditures. Prior Expenditures made for items other than TIF-Funded Improvements shall not be reimbursed to the Developer, but shall reduce the amount of Equity and/or Lender Financing required to be contributed by the Developer pursuant to Section 4.01 hereof.

(b) Purchase of Property. [INTENTIONALLY OMITTED]

(c) City Fee. [INTENTIONALLY OMITTED]

(d) Allocation Among Line Items. Disbursements for expenditures related to TIF-Funded Improvements may be allocated to and charged against the appropriate line only, with transfers of costs and expenses from one line item to another, without the prior written consent of DHED, being prohibited; provided, however, that such transfers among line items, in an amount not exceeding ten percent (10%) of the Project Budget in the aggregate, may be made without the prior written consent of DHED.

4.06 Cost Overruns. If the aggregate cost of the TIF-Funded Improvements exceeds City Funds available pursuant to Section 4.03 hereof, or if the cost of completing the Project

exceeds the Project Budget, the Developer shall be solely responsible for such excess cost, and shall hold the City harmless from any and all costs and expenses of completing the TIF-Funded Improvements in excess of City Funds and of completing the Project.

4.07 Preconditions of Disbursement. Prior to each disbursement of City Funds hereunder, the Developer shall submit documentation regarding the applicable expenditures to DHED, which shall be satisfactory to DHED in its sole discretion. Delivery by the Developer to DHED of any request for disbursement of City Funds hereunder shall, in addition to the items therein expressly set forth, constitute a certification to the City, as of the date of such request for disbursement, that:

(a) the total amount of the disbursement request represents the actual cost of the Acquisition or the actual amount payable to (or paid to) the General Contractor and/or subcontractors who have performed work on the Project, and/or their payees;

(b) all amounts shown as previous payments on the current request for Certificate of Expenditure have been paid to the parties entitled to such payment;

(c) the Developer has approved all work and materials for the current request for Certificate of Expenditure, and such work and materials conform to the Plans and Specifications;

(d) the representations and warranties contained in this Redevelopment Agreement are true and correct and the Developer is in compliance with all covenants contained herein;

(e) the Developer has received no notice and has no knowledge of any liens or claim of lien either filed or threatened against the Property except for the Permitted Liens;

(f) no Event of Default or condition or event which, with the giving of notice or passage of time or both, would constitute an Event of Default exists or has occurred; and

(g) the Project is In Balance. The Project shall be deemed to be in balance ("In Balance") only if the total of the available Project funds equals or exceeds the aggregate of the amount necessary to pay all unpaid Project costs incurred or to be incurred in the completion of the Project. "Available Project Funds" as used herein shall mean: (i) the undisbursed City Funds; (ii) the undisbursed Lender Financing, if any; (iii) the undisbursed Equity and (iv) any other amounts deposited by the Developer pursuant to this Agreement. The Developer hereby agrees that, if the Project is not In Balance, the Developer shall, within 30 days after a written request by the City, deposit with the escrow agent or will make available (in a manner acceptable to the City), cash in an amount that will place the Project In Balance, which deposit shall first be exhausted before any further disbursement of the City Funds shall be made.

The City shall have the right, in its discretion, to require the Developer to submit further documentation as the City may require in order to verify that the matters certified to above are true and correct, and any disbursement by the City shall be subject to the City's review and approval of such documentation and its satisfaction that such certifications are true and correct;

provided, however, that nothing in this sentence shall be deemed to prevent the City from relying on such certifications by the Developer. In addition, the Developer shall have satisfied all other preconditions of disbursement of City Funds for each disbursement, including but not limited to requirements set forth in the Bond Ordinance, if any, TIF Bond Ordinance, if any, the Bonds, if any, the TIF Bonds, if any, the TIF Ordinances, this Agreement and/or the Escrow Agreement.

4.08 Conditional Grant. The City Funds being provided hereunder are being granted on a conditional basis, subject to compliance by Developer with the provisions of this Agreement. The City Funds are subject to being reimbursed as provided in Section(s) 7.01 and 15.02 hereof.

4.09 Sale of Property.

(a) The City agrees to sell and Developer agrees to purchase the Property legally described in Exhibit B, for NINE HUNDRED NINETY THOUSAND AND NO/100 (\$990,000.00) total purchase price (the "Purchase Price ") that shall be paid in cash in full by Developer at the Property Closing. Developer acknowledges and agrees that the Property has a fair market value price of Nine Hundred Ninety Thousand Dollars and No/100 (\$990,000). The City will convey the Property to Developer by quit claim deed (the "Deed"), subject to the terms of this Agreement and without limiting the quitclaim nature of the Deed, the following:

- (i) the Redevelopment Plan for this Redevelopment Area;
- (ii) the standard exceptions in an ALTA title insurance policy;
- (iii) all general real estate taxes and any special assessments or other taxes;
- (iv) all easements, encroachments, covenants and restrictions of record and not shown of record;
- (v) such other title defects as may exist, and
- (vi) any and all exceptions caused by the acts of the Developer or its agents.

Developer acknowledges that it has obtained title insurance commitments for the Property, showing the City in title to the Property. If necessary to clear title of exceptions for general real estate tax liens attributable to taxes due and payable prior to the Property Closing Date, the City shall submit to the County a tax abatement letter and/or file a vacation of tax sale proceeding in the Circuit Court of Cook County, seeking the exemption or waiver of such pre-closing tax liabilities, but shall owe no further duties with respect to any such taxes. The City shall use reasonable efforts to obtain the waiver or release of any delinquent real estate taxes or tax liens on the Property prior to the Property Closing Date, to the extent such taxes or tax liens can be waived or released through submission of an abatement letter to the Cook County Treasurer, a motion to vacate a tax sale or a petition for exemption. The City shall have no duty to clear any title exceptions or clear any encumbrances on title. If the Developer is unsatisfied with the condition of title, the Developer's sole right shall be to do one of the following: (a)

accept title to the Property subject to any and all title exceptions, which shall then become Permitted Exceptions; or (b) terminate this Agreement by delivery of written notice to the City at least seven (7) days prior to the Property Closing Date, in which event this Agreement shall be null and void and, except as otherwise specifically provided herein, no party shall have any further right, duty or obligation hereunder. If the Developer elects not to terminate this Agreement as aforesaid, the Developer agrees to accept title subject to the exceptions. The Developer shall be responsible for all taxes accruing after the Property Closing Date, (and any taxes accruing prior to the Property Closing Date that the City is unable to clear by taking the actions described above). The Developer shall be solely responsible for and shall pay all costs associated with updating title insurance commitments (including all search, continuation and later-date fees), and obtaining a Title Policy.

(b) The Property Closing. The Property Closing Date shall take place on such date and at such place as the parties may mutually agree to in writing, but in no event earlier than the RDA Closing Date and subject to the satisfaction of all conditions precedent to RDA Closing set for in Section 5.

(c) Recordation of Quitclaim Deed. Developer shall promptly record the Deed for the Property in the Recorder's Office of Cook County. Developer shall pay all costs for so recording the quitclaim deed.

(d) Escrow. The Property Closing shall convey the Property through an escrow with Greater Illinois Title Company and the Developer shall pay all escrow fees.

(e) "AS IS" SALE. DEVELOPER ACKNOWLEDGES THAT IT HAS HAD ADEQUATE OPPORTUNITY TO INSPECT AND EVALUATE THE STRUCTURAL, PHYSICAL AND ENVIRONMENTAL CONDITION AND RISKS OF THE PROPERTY AND ACCEPTS THE RISK THAT ANY INSPECTION MAY NOT DISCLOSE ALL MATERIAL MATTERS AFFECTING THE PROPERTY. DEVELOPER AGREES TO ACCEPT THE PROPERTY IN ITS "AS IS," "WHERE IS" AND "WITH ALL FAULTS" CONDITION AT CLOSING WITHOUT ANY COVENANT, REPRESENTATION OR WARRANTY, EXPRESS OR IMPLIED, OF ANY KIND, AS TO THE STRUCTURAL, PHYSICAL OR ENVIRONMENTAL CONDITION OF THE PROPERTY. THE DEVELOPER ACKNOWLEDGES THAT IT IS RELYING SOLELY UPON ITS OWN INSPECTION AND OTHER DUE DILIGENCE ACTIVITIES AND NOT UPON ANY INFORMATION (INCLUDING, WITHOUT LIMITATION, ENVIRONMENTAL STUDIES OR REPORTS OF ANY KIND) PROVIDED BY OR ON BEHALF OF THE CITY OR ITS AGENTS OR EMPLOYEES WITH RESPECT THERETO. DEVELOPER AGREES THAT IT IS ITS SOLE RESPONSIBILITY AND OBLIGATION TO PERFORM ANY ENVIRONMENTAL REMEDIATION WORK AND TAKE SUCH OTHER ACTION AS IS NECESSARY TO PUT THE PROPERTY IN A CONDITION WHICH IS SUITABLE FOR ITS INTENDED USE.

(f) Release and Indemnification. Developer, on behalf of itself and anyone claiming by, through or under it, hereby releases, relinquishes and forever discharges the City, its officers, agents and employees, from and against any and all Losses which Developer ever had, now has, or hereafter may have, whether grounded in tort or contract or otherwise, in any and all courts or other forums, of whatever kind or nature, whether known or unknown, arising out of or in any way connected with, directly or indirectly, for the term that the City owned the Property (a) any environmental contamination, pollution or hazards associated with the Property or any improvements, facilities or operations located or formerly located thereon, including, without limitation, any release, emission, discharge, generation, transportation, treatment, storage or disposal of Hazardous Materials, or threatened release, emission or discharge of Hazardous Materials; (b) the structural, physical or environmental condition of the Property, including, without limitation, the presence or suspected presence of Hazardous Materials in, on, under or about the Property or the migration of Hazardous Materials from or to other property; (c) any violation of, compliance with, enforcement of or liability under any Environmental Laws, including, without limitation, any Losses arising under CERCLA, and (d) any investigation, cleanup, monitoring, remedial, removal or restoration work required by any federal, state or local governmental agency or political subdivision or other third party in connection or associated with the Property or any improvements, facilities or operations located or formerly located thereon (collectively, "Released Claims"). Furthermore, the Developer shall defend, indemnify, and hold the City harmless from and against any and all Losses which may be made or asserted by any third parties arising out of or in any way connected with, directly or indirectly, any of the Released Claims.

(g) Release Runs with the Land. The covenant of release in Section 4.09(f) shall run with the Property, and shall be binding upon all successors and assigns of Developer with respect to the Property, including, without limitation, each and every person, firm, corporation, limited liability company, trust or other entity owning, leasing, occupying, using or possessing any portion of the Property under or through Developer following the date of the Deed. Developer acknowledges and agrees that the foregoing covenant of release constitutes a material inducement to the City to enter into this Agreement, and that, but for such release, the City would not have agreed to convey the Property to the Developer. It is expressly agreed and understood by and between Developer and the City that, should any future obligation of the Developer, arise or be alleged to arise in connection with any environmental, soil or other condition of the Property, neither the Developer nor any of its current or former officers, directors, employees, agents, predecessors, successors or assigns, will assert that those obligations must be satisfied in whole or in part by the City because Section 4.09(f) contains a full, complete and final release of all such claims.

(h) Survival. The foregoing Sections 4.09(f) and (g) shall survive the Property Closing or any termination of this Agreement (regardless of the reason for such termination).

(i) Right of Entry. The City agrees to grant the Developer a right of entry for purposes of entering the Property prior to the Property Closing Date for such due diligence purposes as may be reasonably necessary or appropriate, which right of entry may be for a period of greater than 30 days (but not greater than 120 days), provided that such right of entry shall not permit the Developer to start any demolition, foundation or other construction work

If the City requires additional measures or acts to assure compliance, the Developer shall resubmit a written request for the Certificate of Completion upon compliance with the City's response. Each Certificate of Completion shall be in recordable form, and shall, upon recording, constitute a conclusive determination of satisfaction and termination of the covenants in this Agreement and the Deed with respect to the Developer's obligations to construct the Project. The Certificate of Completion shall not, however, constitute evidence that the Developer has complied with any Laws relating to the construction of the Project, and shall not serve as any "guaranty" as to the quality of the construction.

DHED shall respond to the Developer's written request for a Certificate within forty-five (45) days by issuing either a Certificate or a written statement detailing the ways in which the Project does not conform to this Agreement or has not been satisfactorily completed, and the measures which must be taken by the Developer in order to obtain the Certificate. The Developer may resubmit a written request for a Certificate upon completion of such measures.

7.02 Effect of Issuance of Certificate. The Certificate relates only to the rehabilitation of the Project, and upon its issuance, the City will certify that the terms of the Agreement

specifically related to the Developer's obligation to complete such activities have been satisfied. After the issuance of a Certificate, however, all executory terms and conditions of this Agreement and all representations and covenants contained herein will continue to remain in full force and effect throughout the Term of the Agreement as to the parties described in the following paragraph, and the issuance of the Certificate shall not be construed as a waiver by the City of any of its rights and remedies pursuant to such executory terms.

Those covenants specifically described at Sections 4.09, 8.02, 8.06, 8.19, 8.20, and as covenants that run with the land are the only covenants in this Agreement intended to be binding upon any transferee of the Property (including an assignee as described in the following sentence) throughout the Term of the Agreement notwithstanding the issuance of a Certificate; provided, that upon the issuance of a Certificate, the covenants set forth in Section 8.02 shall be deemed to have been fulfilled. The other executory terms of this Agreement that remain after the issuance of a Certificate shall be binding only upon the Developer or a permitted assignee of the Developer who, pursuant to Section 18.15 of this Agreement, has contracted to take an assignment of the Developer's rights under this Agreement and assume the Developer's liabilities hereunder.

7.03 Failure to Complete. If the Developer fails to complete the Project in accordance with the terms of this Agreement, then the City has, but shall not be limited to, any of the following rights and remedies:

(a) the right to terminate this Agreement and cease all disbursement of City Funds not yet disbursed pursuant hereto;

(b) the right (but not the obligation) to complete those TIF-Funded Improvements that are public improvements and to pay for the costs of TIF-Funded Improvements (including interest costs) out of City Funds or other City monies. In the event that the aggregate cost of completing the TIF-Funded Improvements exceeds the amount of City Funds available pursuant to Section 4.01, the Developer shall reimburse the City for all reasonable costs and expenses incurred by the City in completing such TIF-Funded Improvements in excess of the available City Funds; and

(c) the right to seek reimbursement of the City Funds from the Developer, provided that the City is entitled to rely on an opinion of counsel that such reimbursement will not jeopardize the tax-exempt status of the TIF Bonds, if any.

7.04 Notice of Expiration of Term of Agreement. Upon the expiration of the Term of the Agreement, DHED shall provide the Developer, at the Developer's written request, with a written notice in recordable form stating that the Term of the Agreement has expired.

The Developer, on behalf of itself and its successors and assigns, hereby agrees, and shall contractually obligate its or their various contractors, subcontractors or any Affiliate of the Developer operating on the Property (collectively, with the Developer, the "Employers" and individually an "Employer") to agree, that for the Term of this Agreement with respect to Developer and during the period of any other party's provision of services in connection with the construction of the Project or occupation of the Property:

(a) No Employer shall discriminate against any employee or applicant for employment based upon race, religion, color, sex, national origin or ancestry, age, handicap or disability,

sexual orientation, military discharge status, marital status, parental status or source of income as defined in the City of Chicago Human Rights Ordinance, Chapter 2-160, Section 2-160-010 et seq., Municipal Code, except as otherwise provided by said ordinance and as amended from time to time (the "Human Rights Ordinance"). Each Employer shall take affirmative action to ensure that applicants are hired and employed without discrimination based upon race, religion, color, sex, national origin or ancestry, age, handicap or disability, sexual orientation, military discharge status, marital status, parental status or source of income and are treated in a non-discriminatory manner with regard to all job-related matters, including without limitation: employment, upgrading, demotion or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. Each Employer agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the City setting forth the provisions of this nondiscrimination clause. In addition, the Employers, in all solicitations or advertisements for employees, shall state that all qualified applicants shall receive consideration for employment without discrimination based upon race, religion, color, sex, national origin or ancestry, age, handicap or disability, sexual orientation, military discharge status, marital status, parental status or source of income.

(b) To the greatest extent feasible, each Employer is required to present opportunities for training and employment of low- and moderate-income residents of the City and preferably of the Redevelopment Area; and to provide that contracts for work in connection with the construction of the Project be awarded to business concerns that are located in, or owned in substantial part by persons residing in, the City and preferably in the Redevelopment Area.

(c) Each Employer shall comply with all federal, state and local equal employment and affirmative action statutes, rules and regulations, including but not limited to the City's Human Rights Ordinance and the Illinois Human Rights Act, 775 ILCS 5/1-101 et seq. (1993), and any subsequent amendments and regulations promulgated thereto.

(d) Each Employer, in order to demonstrate compliance with the terms of this Section, shall cooperate with and promptly and accurately respond to inquiries by the City, which has the responsibility to observe and report compliance with equal employment opportunity regulations of federal, state and municipal agencies.

(e) Each Employer shall include the foregoing provisions of subparagraphs (a) through (d) in every contract entered into in connection with the Project, and shall require inclusion of these provisions in every subcontract entered into by any subcontractors, and every agreement with any Affiliate operating on the Property, so that each such provision shall be binding upon each contractor, subcontractor or Affiliate, as the case may be.

(f) Failure to comply with the employment obligations described in this Section 10.01 shall be a basis for the City to pursue remedies under the provisions of Section 15.02 hereof

10.02 City Resident Constmction Worker Employment Requirement. The Developer agrees for itself and its successors and assigns, and shall contractually obligate its General Contractor and shall cause the General Contractor to contractually obligate its subcontractors, as applicable, to agree, that during the constmction of the Project they shall comply with the minimum percentage of total worker hours performed by actual residents of the City as specified in Section 2-92-330 of the Municipal Code of Chicago (at least 50 percent of the total worker hours worked by persons on the site of the Project shall be performed by actual residents of the City); provided, however, that in addition to complying with this percentage, the Developer, its General Contractor and each subcontractor shall be required to make good faith efforts to utilize qualified residents of the City in both unskilled and skilled labor positions.

The Developer may request a reduction or waiver of this minimum percentage level of Chicagoans as provided for in Section 2-92-330 of the Municipal Code of Chicago in accordance with standards and procedures developed by the Chief Procurement Officer of the City.

"Actual residents of the City" shall mean persons domiciled within the City. The domicile is an individual's one and only tme, fixed and permanent home and principal establishment.

The Developer, the General Contractor and each subcontractor shall provide for the maintenance of adequate employee residency records to show that actual Chicago residents are employed on the Project. Each Employer shall maintain copies of personal documents supportive of every Chicago employee's actual record of residence.

Weekly certified payroll reports (U.S. Department of Labor Form WH-347 or equivalent) shall be submitted to the Commissioner of DHED in triplicate, which shall identify clearly the actual residence of every employee on each submitted certified payroll. The first time that an employee's name appears on a payroll, the date that the Employer hired the employee should be written in after the employee's name.

The Developer, the General Contractor and each subcontractor shall provide full access to their employment records to the Chief Procurement Officer, the Commissioner of DHED, the Superintendent of the Chicago Police Department, the Inspector General or any duly authorized representative of any of them. The Developer, the General Contractor and each subcontractor shall maintain all relevant personnel data and records for a period of at least three (3) years after final acceptance of the work constituting the Project.

At the direction of DHED, affidavits and other supporting documentation will be required of the Developer, the General Contractor and each subcontractor to verify or clarify an employee's actual address when doubt or lack of clarity has arisen.

Good faith efforts on the part of the Developer, the General Contractor and each subcontractor to provide utilization of actual Chicago residents (but not sufficient for the granting of a waiver request as provided for in the standards and procedures developed by the Chief Procurement Officer) shall not suffice to replace the actual, verified achievement of the requirements of this Section concerning the worker hours performed by actual Chicago residents.

When work at the Project is completed, in the event that the City has determined that the Developer has failed to ensure the fulfillment of the requirement of this Section concerning the worker hours performed by actual Chicago residents or failed to report in the manner as indicated above, the City will thereby be damaged in the failure to provide the benefit of demonstrable employment to Chicagoans to the degree stipulated in this Section. Therefore, in such a case of non-compliance, it is agreed that 1/20 of 1 percent (0.0005) of the aggregate hard construction costs set forth in the Project budget (the product of .0005 x such aggregate hard construction costs) (as the same shall be evidenced by approved contract value for the actual contracts) shall be surrendered by the Developer to the City in payment for each percentage of shortfall toward the stipulated residency requirement. Failure to report the residency of employees entirely and correctly shall result in the surrender of the entire liquidated damages as if no Chicago residents were employed in either of the categories. The willful falsification of statements and the certification of payroll data may subject the Developer, the General Contractor and/or the subcontractors to prosecution. Any retainage to cover contract performance that may become due to the Developer pursuant to Section 2-92-250 of the Municipal Code of Chicago may be withheld by the City pending the Chief Procurement Officer's determination as to whether the Developer must surrender damages as provided in this paragraph.

Nothing herein provided shall be construed to be a limitation upon the "Notice of Requirements for Affirmative Action to Ensure Equal Employment Opportunity, Executive Order 11246 " and "Standard Federal Equal Employment Opportunity, Executive Order 11246," or other affirmative action required for equal opportunity under the provisions of this Agreement or related documents.

The Developer shall cause or require the provisions of this Section 10.02 to be included in all construction contracts and subcontracts related to the Project.

10.03. MBE/WBE Commitment. The Developer agrees for itself and its successors and assigns, and, if necessary to meet the requirements set forth herein, shall contractually obligate the General Contractor to agree that during the Project:

Such reports shall include, inter alia, the name and business address of each MBE and WBE solicited by the Developer or the General Contractor to work on the Project, and the responses received from such solicitation, the name and business address of each MBE or WBE actually involved in the Project, a description of the work performed or products or services supplied, the date and amount of such work, product or service, and such other information as may assist the City's monitoring staff in determining the Developer's compliance with this MBE/WBE commitment. The Developer shall maintain records of all relevant data with respect to the utilization of MBEs and WBEs in connection with the Project for at least five years after completion of the Project, and the City's monitoring staff shall have access to all such records maintained by the Developer, on five Business Days' notice, to allow the City to review the Developer's compliance with its commitment to MBE/WBE participation and the status of any MBE or WBE performing any portion of the Project.

(f) Any reduction or waiver of the Developer's MBE/WBE commitment as described in this Section 10.03 shall be undertaken in accordance with Sections 2-92-450 and 2-92-730, Municipal Code of Chicago, as applicable.

(g) Prior to the commencement of the Project, the Developer shall be required to meet with the City's monitoring staff with regard to the Developer's compliance with its obligations under this Section 10.03. The General Contractor and all major subcontractors shall be required to attend this pre-construction meeting. During said meeting, the Developer shall demonstrate to the City's monitoring staff its plan to achieve its obligations under this Section 10.03, the sufficiency of which shall be approved by the City's monitoring staff. During the Project, the Developer shall submit the documentation required by this Section 10.03 to the City's monitoring staff, including the following: (i) subcontractor's activity report; (ii) contractor's certification concerning labor standards and prevailing wage requirements; (iii) contractor letter of understanding; (iv) monthly utilization report; (v) authorization for payroll agent; (vi) certified payroll; (vii) evidence that MBE/WBE contractor associations have been informed of the Project via written notice and hearings; and (viii) evidence of compliance with job creation/job retention requirements. Failure to submit such documentation on a timely basis, or a determination by the City's monitoring staff, upon analysis of the documentation, that the Developer is not complying with its obligations under this Section 10.03, shall, upon the delivery of written notice to the

Developer, be deemed an Event of Default. Upon the occurrence of any such Event of Default, in addition to any other remedies provided in this Agreement, the City may: (1) issue a written demand to the Developer to halt the Project, (2) withhold any further payment of any City Funds to the Developer or the General Contractor, or (3) seek any other remedies against the Developer available at law or in equity

them. The provisions of the undertakings and indemnification set out in this Section 13.01 shall survive the termination of this Agreement.

14.01 Books and Records. The Developer shall keep and maintain separate, complete, accurate and detailed books and records necessary to reflect and fully disclose the total actual cost of the Project and the disposition of all funds from whatever source allocated thereto, and to monitor the Project. (b) the failure of the Developer to perform, keep or observe any of the covenants, conditions, promises, agreements or obligations of the Developer under any other agreement with any person or entity if such failure may have a material adverse effect on the Developer's business, property, assets, operations or condition, financial or otherwise;

(c) the making or furnishing by the Developer to the City of any representation, warranty, certificate, schedule, report or other communication within or in connection with this Agreement or any related agreement which is untrue or misleading in any material respect;

(d) except as otherwise permitted hereunder, the creation (whether voluntary or involuntary) of, or any attempt to create, any lien or other encumbrance upon the Property, including any fixtures now or hereafter attached thereto, other than the Permitted Liens, or the making or any attempt to make any levy, seizure or attachment thereof;

(e) the commencement of any proceedings in bankruptcy by or against the Developer or for the liquidation or reorganization of the Developer, or alleging that the Developer is insolvent or unable to pay its debts as they mature, or for the readjustment or arrangement of the Developer's debts, whether under the United States Bankruptcy Code or under any other state or federal law, now or hereafter existing for the relief of debtors, or the commencement of any analogous statutory or non-statutory proceedings involving the Developer; provided, however, that if such commencement of proceedings is involuntary, such action shall not constitute an Event of Default unless such proceedings are not dismissed within sixty (60) days after the commencement of such proceedings;

(f) the appointment of a receiver or trustee for the Developer, for any substantial part of the Developer's assets or the institution of any proceedings for the dissolution, or the full or partial liquidation, or the merger or consolidation, of the Developer; provided, however, that if such appointment or commencement of proceedings is involuntary, such action shall not constitute an Event of Default unless such appointment is not revoked or such proceedings are not dismissed within sixty (60) days after the commencement thereof;

(g) the entry of any judgment or order against the Developer which remains unsatisfied or undischarged and in effect for sixty (60) days after such entry without a stay of enforcement or execution;

(j) the institution in any court of a criminal proceeding (other than a misdemeanor) against the Developer or any natural person who owns a material interest in the Developer, which is not dismissed within thirty (30) days, or the indictment of the Developer or any natural

person who owns a material interest in the Developer, for any crime (other than a misdemeanor); or

(k) prior to the expiration of the period starting with the RDA Closing Date and ending on the tenth (10th) anniversary of the issuance of the Certificate, the sale or transfer of a majority of the ownership interests of the Developer without the prior written consent of the City, which shall not be unreasonably delayed or withheld; or

(l) failure to meet the Net Leaseable Square Foot Requirement and the Jobs Requirement for three (3) consecutive or nonconsecutive years during the period starting with the issuance of the Certificate and ending with the tenth (10th) anniversary of the issuance of the Certificate; or

(m) failure to maintain at least sixty five percent (65%) of the Property as a cultural and commercial complex.

For purposes of Section 15.01(j) hereof, a person with a material interest in the Developer shall be one owning in excess of twenty (20%) of the Developer's membership or other ownership interests or the issued and outstanding shares of stock (or other ownership interests) of Developer.

15.02 Remedies. Upon the occurrence of an Event of Default, the City may terminate this Agreement and any other agreements to which the City and the Developer are or shall be parties, suspend disbursement of City Funds, place a lien on the Project in the amount of the City Funds paid, and seek reimbursement of any City Funds paid. The City may, in any court of competent jurisdiction by any action or proceeding at law or in equity, pursue and secure any available remedy, including but not limited to damages, injunctive relief or the specific performance of the agreements contained herein. Upon the occurrence of an Event of Default under Section 8.06, the City has a right to require Developer to repay to the City all or a portion of City Funds previously disbursed.

15.03 Curative Period. In the event the Developer shall fail to perform a monetary covenant which the Developer is required to perform under this Agreement, notwithstanding any other provision of this Agreement to the contrary, an Event of Default shall not be deemed to have occurred unless the Developer has failed to perform such monetary covenant within twenty (20) days of its receipt of a written notice from the City specifying that it has failed to perform such monetary covenant. In the event the Developer shall fail to perform a non-monetary covenant which the Developer is required to perform under this Agreement, notwithstanding any other provision of this Agreement to the contrary, an Event of Default shall not be deemed to have occurred unless the Developer has failed to cure such default within forty-five(45) days of

its receipt of a written notice from the City specifying the nature of the default; provided, however, with respect to those non-monetary defaults which are not capable of being cured within such forty-five (45) day period, the Developer shall not be deemed to have committed an Event of Default under this Agreement if it has commenced to cure the alleged default within such forty-five (45) day period and thereafter diligently and continuously prosecutes the cure of such default until the same has been cured.

SECTION 16. MORTGAGING OF THE PROJECT

All mortgages or deeds of trust in place as of the date hereof with respect to the Property or any portion thereof are listed on Exhibit G hereto (including but not limited to mortgages made prior to or on the date hereof in connection with Lender Financing) and are referred to herein as the "Existing Mortgages." Any mortgage or deed of trust that the Developer may hereafter elect to execute and record or permit to be recorded against the Property or any portion thereof is referred to herein as a "New Mortgage." Any New Mortgage that the Developer may hereafter elect to execute and record or permit to be recorded against the Property or any portion thereof with the prior written consent of the City is referred to herein as a "Permitted Mortgage." It is hereby agreed by and between the City and the Developer as follows:

(a) In the event that a mortgagee or any other party shall succeed to the Developer's interest in the Property or any portion thereof pursuant to the exercise of remedies under a New Mortgage (other than a Permitted Mortgage), whether by foreclosure or deed in lieu of foreclosure, and in conjunction therewith accepts an assignment of the Developer's interest hereunder in accordance with Section 18.15 hereof, the City may, but shall not be obligated to, attorn to and recognize such party as the successor in interest to the Developer for all purposes under this Agreement and, unless so recognized by the City as the successor in interest, such party shall be entitled to no rights or benefits under this Agreement, but such party shall be bound by those provisions of this Agreement that are covenants expressly running with the land.

(b) In the event that any mortgagee shall succeed to the Developer's interest in the Property or any portion thereof pursuant to the exercise of remedies under an Existing Mortgage or a Permitted Mortgage, whether by foreclosure or deed in lieu of foreclosure, and in conjunction therewith accepts an assignment of the Developer's interest hereunder in accordance with Section 18.15 hereof, the City hereby agrees to attorn to and recognize such party as the successor in interest to the Developer for all purposes under this Agreement so long as such party accepts all of the obligations and liabilities of "the Developer" hereunder; provided, however, that, notwithstanding any other provision of this Agreement to the contrary, it is understood and agreed that if such party accepts an assignment of the Developer's interest under this Agreement, such party has no liability under this Agreement for any Event of Default of the Developer which accrued prior to the time such party succeeded to the interest of the Developer under this

Agreement, in which case the Developer shall be solely responsible. However, if such mortgagee under a Permitted Mortgage or an Existing Mortgage does not expressly accept an assignment of the Developer's interest hereunder, such party shall be entitled to no rights and benefits under this Agreement, and such party shall be bound only by those provisions of this Agreement, if any, which are covenants expressly running with the land.

(c) Prior to the issuance by the City to the Developer of a Certificate pursuant to Section 7 hereof, no New Mortgage shall be executed with respect to the Property or any portion thereof without the prior written consent of the Commissioner of DHED.

This Agreement and the Exhibits attached hereto may not be amended or modified without the prior written consent of the parties hereto; provided, however, that the City, in its sole discretion, may amend, modify or supplement Exhibit D hereto without the consent of any party hereto. It is agreed that no material amendment or change to this Agreement shall be made or be effective unless ratified or authorized by an ordinance duly adopted by the City Council. The term "material" for the purpose of this Section 18.01 shall be defined as any deviation from the terms of the Agreement which operates to cancel or otherwise reduce any developmental, construction or job-creating obligations of Developer (including those set forth in Sections 10.02 and 10.03 hereof) by more than ten percent (10%) or materially changes the Project site or character of the Project or any activities undertaken by Developer affecting the Project site, the Project, or both, or increases any time agreed for performance by the Developer by more than six months.

No delay or omission on the part of a party in exercising any right shall operate as a waiver of such right or any other right unless pursuant to the specific terms hereof. A waiver by a party of a provision of this Agreement shall not prejudice or constitute a waiver of such party's right otherwise to demand strict compliance with that provision or any other provision of this Agreement. No prior waiver by a party, nor any course of dealing between the parties hereto, shall constitute a waiver of any such parties' rights or of any obligations of any other party hereto as to any future transactions.

18.06 Remedies Cumulative. The remedies of a party hereunder are cumulative and the exercise of any one or more of the remedies provided for herein shall not be construed as a waiver of any other remedies of such party unless specifically so provided herein.

18.08 Headings. The paragraph and section headings contained herein are for convenience only and are not intended to limit, vary, define or expand the content thereof.

18.09 Counterparts. This Agreement may be executed in several counterparts, each of which shall be deemed an original and all of which shall constitute one and the same agreement.

If any provision in this Agreement, or any paragraph, sentence, clause, phrase, word or the application thereof, in any circumstance, is held invalid, this Agreement shall be construed as if such invalid part were never included herein and the remainder of this Agreement shall be and remain valid and enforceable to the fullest extent permitted by law.

18.11 Conflict. In the event of a conflict between any provisions of this Agreement and the provisions of the TIF Ordinances and/or the Bond Ordinance, if any, such ordinance(s) shall prevail and control.

18.12 Governing Law. This Agreement shall be governed by and construed in accordance with the internal laws of the State of Illinois, without regard to its conflicts of law principles.

18.13 Form of Documents. All documents required by this Agreement to be submitted, delivered or furnished to the City shall be in form and content satisfactory to the City.

18.14 Approval. Wherever this Agreement provides for the approval or consent of the City, DHED or the Commissioner, or any matter is to be to the City's, DHED's or the Commissioner's satisfaction, unless specifically stated to the contrary, such approval, consent or satisfaction shall be made, given or determined by the City, DHED or the Commissioner or Acting Commissioner in writing and in the reasonable discretion thereof. The Commissioner or Acting Commissioner or other person designated by the Mayor of the City shall act for the City or DHED in making all approvals, consents and determinations of satisfaction, granting the Certificate or otherwise administering this Agreement for the City.

Any successor in interest to the Developer under this Agreement shall certify in writing to the City its agreement to abide by all remaining executory terms of this Agreement, including but not limited to Section 8.19 (Real Estate Provisions) and Section 8.23 (Survival of Covenants) hereof, for the Term of the Agreement. The Developer consents to the City's sale, transfer, assignment or other disposal of this Agreement at any time in whole or in part.

18.16 Binding. This Agreement shall be binding upon the Developer, the City and their respective successors and permitted assigns (as provided herein) and shall inure to the benefit of the Developer, the City and their respective successors and permitted assigns (as provided herein). Except as otherwise provided herein, this Agreement shall not run to the benefit of, or be enforceable by, any person or entity other than a party to this Agreement and its successors and permitted assigns. This Agreement should not be deemed to confer upon third parties any remedy, claim, right of reimbursement or other right.

18.17 Force Majeure. Neither the City nor the Developer nor any successor in interest to either of them shall be considered in breach of or in default of its obligations under this

The individual or entity relying on this section with respect to any such delay shall, upon the occurrence of the event causing such delay, immediately give written notice to the other parties to this Agreement. The individual or entity relying on this section with respect to any such delay may rely on this section only to the extent of the actual number of days of delay affected by any such events described above.

18.18 Exhibits. All of the exhibits attached hereto are incorporated herein by reference.

18.19 Business Economic Support Act. Pursuant to the Business Economic Support Act (30 ILCS 760/1 et seq.), if the Developer is required to provide notice under the WARN Act, the Developer shall, in addition to the notice required under the WARN Act, provide at the same time a copy of the WARN Act notice to the Governor of the State, the Speaker and Minority Leader of the House of Representatives of the State, the President and minority Leader of the Senate of State, and the Mayor of each municipality where the Developer has locations in the State. Failure by the Developer to provide such notice as described above may result in the termination of all or a part of the payment or reimbursement obligations of the City set forth herein.

18.20 Venue and Consent to Jurisdiction. If there is a lawsuit under this Agreement, each party may hereto agree to submit to the jurisdiction of the courts of Cook County, the State of Illinois and the United States District Court for the Northern District of Illinois.

18.21 Costs and Expenses. In addition to and not in limitation of the other provisions of this Agreement, Developer agrees to pay upon demand the City's out-of-pocket expenses, including attorney's fees, incurred in connection with the enforcement of the provisions of this Agreement. This includes, subject to any limits under applicable law, attorney's fees and legal expenses, whether or not there is a lawsuit, including attorney's fees for bankruptcy proceedings (including efforts to modify or vacate any automatic stay or injunction), appeals and any anticipated post-judgment collection services. Developer also will pay any court costs, in addition to all other sums provided by law.

18.22 Business Relationships. The Developer acknowledges (A) receipt of a copy of Section 2-156-030 (b) of the Municipal Code of Chicago, (B) that Developer has read such provision and understands that pursuant to such Section 2-156-030 (b), it is illegal for any elected official of the City, or any person acting at the direction of such official, to contact, either

orally or in writing, any other City official or employee with respect to any matter involving any person with whom the elected City official or employee has a "Business Relationship" (as defined in Section 2-156-080 of the Municipal Code of Chicago), or to participate in any discussion in any City Council committee hearing or in any City Council meeting or to vote on any matter involving any person with whom the elected City official or employee has a "Business Relationship" (as defined in Section 2-156-080 of the Municipal Code of Chicago), or to participate in any discussion in any City Council committee hearing or in any City Council meeting or to vote on any matter involving the person with whom an elected official has a Business Relationship, and (C) that a violation of Section 2-156-030 (b) by an elected official, or any person acting at the direction of such official, with respect to any transaction contemplated by this Agreement shall be grounds for termination of this Agreement and the transactions contemplated hereby. The Developer hereby represent and warrant that, to the best of their knowledge after due inquiry, no violation of Section 2-156-030 (b) has occurred with respect to this Agreement or the transactions contemplated hereby.

IN WITNESS WHEREOF, the parties hereto have caused this Redevelopment Agreement to be executed on or as of the day and year first above written.

Opinion Of Developer's Counsel.

[To Be Retyped On The Developer's Counsel's Letterhead]

City of Chicago
121 North LaSalle Street
Chicago, Illinois 60602

Attention: Corporation Counsel

Ladies and Gentlemen:

We have acted as counsel to Thai Town Center, Inc., an Illinois corporation (the "Developer"), in connection with the purchase of certain land and the construction of certain facilities thereon located in the Lawrence/Pulaski Redevelopment Project Area (the "Project"). In that capacity, we have examined, among other things, the following agreements, instruments and documents of even date herewith, hereinafter referred to as the "Documents":

- (a) Thai Town Redevelopment Agreement (the "Agreement") of even date herewith, executed by the Developer and the City of Chicago (the "City");
- (b) the Escrow Agreement of even date herewith executed by the Developer and the City;
- (c) [insert other documents including but not limited to documents related to purchase and financing of the Property and all lender financing related to the Project]; and
- (d) all other agreements, instruments and documents executed in connection with the foregoing.

In addition to the foregoing, we have examined:

- (a) the original or certified, conformed or photostatic copies of the Developer's (i) Articles of Incorporation, as amended to date, (ii) qualifications to do business and certificates of good standing in all states in which the Developer is qualified to do business, (iii) Bylaws, as amended to date, and (iv) records of all corporate proceedings relating to the Project; and

(b) such other documents, records and legal matters as we have deemed necessary or relevant for purposes of issuing the opinions hereinafter expressed.

In all such examinations, we have assumed the genuineness of all signatures (other than those of the Developer), the authenticity of documents submitted to us as originals and conformity to the originals of all documents submitted to us as certified, conformed or photostatic copies.

Based on the foregoing, it is my opinion that:

1. The Developer is a corporation duly organized, validly existing and in good standing under the laws of its state of incorporation, has full power and authority to own and lease its properties and to carry on its business as presently conducted, and is in good standing and duly qualified to do business as a foreign corporation under the laws of every state in which the conduct of its affairs or the ownership of its assets requires such qualification, except for those states in which its failure to qualify to do business would not have a material adverse effect on it or its business.

2. The Developer has full right, power and authority to execute and deliver the Documents to which it is a party and to perform its obligations thereunder. Such execution, delivery and performance will not conflict with, or result in a breach of, the Developer's Articles of Organization or Bylaws or result in a breach or other violation of any of the terms, conditions or provisions of any law or regulation, order, writ, injunction or decree of any court, government or regulatory authority, or, to the best of our knowledge after diligent inquiry, any of the terms, conditions or provisions of any agreement, instrument or document to which the Developer is a party or by which the Developer or its properties is bound. To the best of my knowledge after diligent inquiry, such execution, delivery and performance will not constitute grounds for acceleration of the maturity of any agreement, indenture, undertaking or other instrument to which the Developer is a party or by which it or any of its property may be bound, or result in the creation or imposition of (or the obligation to create or impose) any lien, charge or encumbrance on, or security interest in, any of its property pursuant to the provisions of any of the foregoing, other than liens or security interests in favor of the lender providing Lender Financing (as defined in the Agreement).

3. The execution and delivery of each Document and the performance of the transactions contemplated thereby have been duly authorized and approved by all requisite action on the part of the Developer.

4. Each of the Documents to which the Developer is a party has been duly executed and delivered by a duly authorized officer of the Developer, and each such Document constitutes the legal, valid and binding obligation of the Developer, enforceable in accordance with its terms, except as limited by applicable bankruptcy, reorganization, insolvency or similar laws affecting the enforcement of creditors' rights generally.

5. (Sub)Exhibit A attached hereto (a) identifies each class of capital stock of the Developer, (b) sets forth the number of issued and authorized shares of each such class, and (c) identifies the record owners of shares of each class of capital stock of the Developer and the number of shares held of record by each such holder. To the best of our knowledge after diligent inquiry, except as set forth on (Sub)Exhibit A, there are no warrants, options, rights or commitments of purchase, conversion, call or exchange or other rights or restrictions with respect to any of the capital stock of the Developer. Each outstanding share of the capital stock of the Developer is duly authorized, validly issued, fully paid and nonassessable.

6. To the best of our knowledge after diligent inquiry, no judgments are outstanding against the Developer, nor is there now pending or threatened, any litigation, contested claim or governmental proceeding by or against the Developer or affecting the Developer or its property, or seeking to restrain or enjoin the performance by the Developer of the Agreement or the transactions contemplated by the Agreement, or contesting the validity thereof. To the best of our knowledge after diligent inquiry, the Developer is not in default with respect to any order, writ, injunction or decree of any court, government or regulatory authority or in default in any respect under any law, order, regulation or demand of any governmental agency or instrumentality, a default under which would have a material adverse effect on the Developer or its business.

7. To the best of our knowledge after diligent inquiry, there is no default by the Developer or any other party under any material contract, lease, agreement, instrument or commitment to which the Developer is a party or by which the company or its properties is bound.

8. To the best of our knowledge after diligent inquiry, all of the assets of the Developer are free and clear of mortgages, liens, pledges, security interests and encumbrances except for those specifically set forth in the Documents.

9. The execution, delivery and performance of the Documents by the Developer have not and will not require the consent of any person or the giving of notice to, any exemption by, any registration, declaration or filing with or any taking of any other actions in respect of, any person, including without limitation any court, government or regulatory authority.

10. To the best of our knowledge after diligent inquiry, the Developer owns or possesses or is licensed or otherwise has the right to use all licenses, permits and other governmental approvals and authorizations, operating authorities, certificates of public convenience, goods carriers permits, authorizations and other rights that are necessary for the operation of its business.

11. A federal or state court sitting in the State of Illinois and applying the choice of law provisions of the State of Illinois would enforce the choice of law contained in the Documents and apply the law of the State of Illinois to the transactions evidenced thereby.

We are attorneys admitted to practice in the State of Illinois and we express no opinion as to any laws other than federal laws of the United States of America and the laws of the State of Illinois.

Very truly yours,

WHEREAS, Under ordinances adopted on November 28, 1990, and published in the *Journal of Proceedings of the City Council of the City of Chicago* (the "*Journal*") for such date at pages 25969 to 26047, and under the provisions of the Tax Increment Allocation

Redevelopment Act, 65 ILCS 5/11-74.4.1, et seq., as amended (the "Act"), the City Council (the "City Council") of the City of Chicago (the "City"): (i) approved the "Central Station Area Tax Increment Financing Redevelopment Project and Plan" (the "Central Station Plan") for a portion of the City known as the "Central Station Project Area" (the "1990 Original Project Area") (the "Original Plan Ordinance"); (ii) designated the 1990 Original Project Area as a "redevelopment project area" within the requirements of the Act (the "Designation Ordinance"); and (iii) adopted tax increment financing for the 1990 Original Project Area (the "Adoption Ordinance") (the Original Plan Ordinance, the Designation Ordinance, and the Adoption Ordinance are collectively referred to herein as the "TIF Ordinances"); and

WHEREAS, The City Council subsequently determined it was necessary to expand the 1990 Original Project Area to include additional contiguous areas (the "1994 Additional Property" and, together with the 1990 Original Project Area, the "1994 Expanded Project Area") and to name the 1994 Expanded Project Area the "Near South Tax Increment Financing Redevelopment Area"; and

WHEREAS, In connection with the 1994 Expanded Project Area, under ordinances adopted on August 3, 1994, and published in the *Journal* for such date at pages 54876 to 54950, and under the provisions of the Act, the City Council amended and supplemented the TIF Ordinances by approving: (i) an Ordinance Approving the "Near South Tax Increment Financing Redevelopment Project and Plan" ("Revision Number 1") (the Central Station Plan, as amended by Revision Number 1, is hereinafter referred to as the "Near South Plan Number 1") for the 1994 Expanded Project Area (the "Plan Ordinance"); (ii) an Ordinance Designating the 1994 Expanded Project Area as a Redevelopment Project Area pursuant to the Act, which reconfirmed the designation of the 1990 Original Project Area and designated the 1994 Expanded Project Area as a "redevelopment project area"; and (iii) an Ordinance Adopting Tax Increment Allocation Financing for the 1994 Expanded Project Area (collectively, the "Expanded Area TIF Ordinances"); and

WHEREAS, Pursuant to an ordinance adopted on May 12, 1999, and published in the *Journal* for such date at pages 1002 to 1012, the City Council determined that an amendment to the Near South Plan Number 1 was necessary in order to incorporate the "portability" language included in the Act and in the Illinois Industrial Jobs Recovery Law, 65 ILCS 5/11-74.6-15(s) ("Revision Number 2") (the Near South Plan Number 1, as amended by Revision Number 2, is hereinafter referred to as the "Near South Plan Number 2"), in order to permit the City to transfer tax increment revenues to and from the 1994 Expanded Project Area and other redevelopment areas contiguous to or separated only by a public right-of-way from, the 1994 Expanded Project Area, and vice versa; and

WHEREAS, The Near South Plan Number 2 provided the estimated dates of completion of the redevelopment project described in the Near South Plan Number 2 and of the retirement of obligations issued to finance redevelopment project costs to be November 28, 2013, which date was not more than twenty-three (23) years from the date of the adoption of the Designation Ordinance, and the City Council made a finding in the Plan Ordinance that such dates were not more than twenty-three (23) years from the date of the adoption of the Designation Ordinance in accordance with the provisions of Section 11-74.4-3(n)(3) of the Act in effect on the date of adoption of the TIF Ordinances and the Expanded Area TIF Ordinances; and

WHEREAS, Pursuant to an ordinance adopted on March 28, 2001, and published in the *Journal* for such date at pages 55308 to 55313, the City Council determined that an additional amendment ("Revision Number 3") was necessary in order to change, pursuant to P.A. 91-478, the dates of completion of the redevelopment project described in the Near South Plan Number 2; and

WHEREAS, Pursuant to an ordinance adopted on June 9, 2010, and published in the *Journal* for such date at pages 92483 to 92567, the City Council amended the Near South Plan Number 2, as amended by Revision Number 3, to increase the total estimated redevelopment project costs by less than five percent after adjustment for inflation from the date the Near South Plan Number 1 was adopted ("Revision Number 4") (the Near South Plan Number 2, as amended by Revision Number 3 and Revision Number 4, is hereinafter referred to as the "Plan"); and

WHEREAS, The City now desires to amend and supplement the Plan to increase the total estimated redevelopment project costs set forth in the Plan by five percent or more after adjustment for inflation from the date the Plan was adopted; and

WHEREAS, It is desirable and in the best interests of the citizens of the City for the City to encourage development of areas located adjacent to the 1994 Expanded Project Area by adding certain additional continuous parcels (the "2011 Additional Property") to the 1994 Expanded Project Area and designating such expanded project area as a redevelopment project area under the Act to be known as the Near South TIF Redevelopment Amendment 5 Project Area ("2011 Expanded Project Area"); and

WHEREAS, The City desires further to supplement and amend the Plan for the 1994 Expanded Project Area to provide for the redevelopment of the 2011 Expanded Project Area; and

WHEREAS, The City has caused to be prepared an eligibility study entitled "Near South Amendment 5 Project Area Eligibility Study" (the "Eligibility Study") of the proposed 2011 Additional Property, which Eligibility Study confirms the existence within the 2011 Additional Property of various conservation factors and vacant blighted factors as set forth in the Act and supports a finding of eligibility of the 2011 Additional Property for designation as a Conservation Area and Vacant Blighted Area under the Act; and

WHEREAS, The Plan and the "Near South Tax Increment Financing Redevelopment Project and Plan Amendment 5: December, 2010" ("Revision Number 5" and, together with the Plan, the "Amended Plan"), provides for the 2011 Expanded Project Area and the new total estimated redevelopment project costs; and

WHEREAS, A copy of Revision Number 5 is attached hereto as Exhibit A; and

WHEREAS, It is desirable and in the best interest of the citizens of the City for the City to implement Tax Increment Allocation Financing pursuant to the Act for the 2011 Expanded Project Area described in Section 2 of this ordinance, to be redeveloped pursuant to the Amended Plan; and

*Near South Tax Increment Financing Redevelopment
Project And Plan Amendment 5.*

1. INTRODUCTION

On November 28, 1990, based on the necessary Tax Increment Financing eligibility criteria and findings, the City Council of the City of Chicago (the "City") adopted ordinances to: 1) approve the Central Station Redevelopment Project Area Tax Increment Financing Redevelopment Project and Plan; 2) designate the Central Station Project Area as a redevelopment project area; and 3) adopt tax increment allocation financing for the Central Station Redevelopment Project Area, all pursuant to the Tax Increment Allocation Redevelopment Act, presently codified as 65 ILCS 5/11-74.4 et seq., as amended (the "Act").

The City, in 1994, recognized that in order to accomplish the stated development goals of the Central Station Redevelopment Project Area TIF, the boundary should be amended to include additional parcels that would benefit from inclusion in the TIF district. Thus on August 3, 1994, the City expanded the boundaries of the Central Station Project Redevelopment Project Area by designating such expanded project area as a redevelopment project area under the Act, and amending the original plan and project to provide for the development of the area added to the original redevelopment project area. In addition the name of the "Central Station Area" Tax Increment Financing Redevelopment Project and Plan was renamed to the Near South Tax Increment Financing Redevelopment Project and Plan. To carry out this amendment, the City adopted ordinances to: 1) approve the Near South Tax Increment Financing Redevelopment Project and Plan; 2) designate the Central Station Redevelopment Project Area and the additional project area resulting from the expanded boundaries as the Near South Redevelopment Project Area; and 3) adopt tax increment allocation financing for the expanded redevelopment project area, all pursuant to the Act. The Near South TIF Redevelopment Project and Plan name change and boundary amendment was incorporated as Amendment 1.

In 1999, the City determined that an amendment to the Near South TIF Redevelopment Project and Plan was necessary in order to incorporate the "portability" language included in the Act, 65 ILCS 5/11-74.4-4(q), and the similar language included in the Industrial Jobs Recovery Law, 65 ILCS 5/11-74.6-15(s) (State Bar Edition). This change was incorporated as Amendment 2.

In 2001, the City adopted an ordinance for Amendment 3 which added a 24th collection year as allowed by the Act.

In 2010, the City adopted an ordinance for Amendment 4 to amend the budget by applying an annual CPI increase with a one-time 5% increase.

The success of the Near South TIF Redevelopment Plan and Project has been tremendous, and created significant public and private redevelopment opportunities, including significantly increasing the residential units and population in the immediate area. This residential population boom has caused strain on surrounding public and community facilities, including public schools, parks, and roads. The Act recognizes that some redevelopment outcomes and activities may not be possible to predict at the time of establishing the TIF district. The Act incorporates means by which redevelopment plans, budgets and redevelopment activities may be modified, and this Near South TIF Redevelopment Plan and Project Amendment 5 follows those procedures for amendment.

While the residential growth of the area was expected, the extent and impact of such growth was not measurable at the time of the original TIF and Amendments 1, 2, 3, and 4. As a result, this fifth amendment to the TIF provides for an adjusted budget to cover additional redevelopment activities not enumerated previously but anticipated in general terms in the original TIF and Amendments 1, 2, 3, and 4. More specifically, the original TIF and previous amendments indicate that "residential development may cause increased demand for services or capital improvements to be provided by the Board of Education, Community College District 508, Chicago Park District, and City." However, the extent of this development or demand was immeasurable, creating the need for this fifth amendment to the TIF, which will provide for an increased budget to accommodate additional development and demands for services or capital improvements.

The City recognizes that in order to accomplish the development goals for the adopted Near South TIF Redevelopment Project and Plan, as well as provide the necessary public facilities to ensure continued growth in the area, the boundary should be amended to include additional parcels that would benefit from inclusion in the TIF district. Specifically the boundary amendment is intended to include the 13-parcel area that houses Jones College Prep and its associated site. By adopting the boundary amendment, the City recognizes that redevelopment of these parcels would not be possible without a public/private partnership.

The Near South Tax Increment Financing Redevelopment Project and Plan Amendment 5 (the "TIF Redevelopment Project and Plan Amendment 5") summarizes the analysis and findings of the consultant's work, which unless otherwise noted is solely the responsibility of Teska Associates, Inc. and its subconsultants. Teska Associates, Inc. has prepared this TIF Redevelopment Project and Plan Amendment 5 with the understanding that the City would rely: (i) on these findings and conclusions in proceeding with the adoption and implementation of the TIF Redevelopment Project and Plan Amendment 5; and (ii) on the fact that Teska Associates, Inc. has obtained the necessary information so that the TIF Redevelopment Project and Plan Amendment 5 will comply with the Act.

Boundary Amendment Intent and Use

The Near South TIF Redevelopment Project and Plan Amendment 5 is not intended to replace or supersede the existing Near South Tax Increment Redevelopment Project and Plan (including Amendment 1 and Amendment 2). Rather, the TIF Redevelopment Project and Plan Amendment 5 is intended to complement the adopted planning goals and policies which were outlined in the 1990 adoption and updated in the 1994 and 1999 amendments.

The existing adopted Near South Tax Increment Financing District Redevelopment Project and Plan (including Amendments 1, 2, 3, and 4) should be utilized for goals and policies, eligibility analysis, future land use plan, and redevelopment projects for those areas within the existing TIF boundary prior to the adoption of this Amendment. This TIF Redevelopment Project and Plan Amendment 5 only contemplates the eligibility, future land uses, and redevelopment projects for those aforementioned 13 additional parcels. This TIF Redevelopment Project and Plan Amendment 5 does include a revised Near South Tax Increment Redevelopment Plan and Project (including Amendments 1, 2, 3, and 4) budget. Inclusion of the entire project budget was necessary in order to ensure that 1) there was a relationship between the Near South Tax Increment Redevelopment Plan and Project (including Amendments 1, 2, 3, and 4) budget and the TIF Redevelopment Project and Plan Amendment 5 redevelopment costs; and 2) projects were not included within the TIF Redevelopment Project and Plan Amendment 5 that could not be funded.

Purpose of Tax Increment Financing

In January, 1977, tax increment financing ("TIF") was made possible by the Illinois General Assembly through passage of the Tax Increment Allocation Redevelopment Act. The Act is found in Illinois Revised Statutes, Chapter 24, Section 11-74.4 et seq. as amended. The Act provides a means for municipalities after the approval of a "redevelopment plan and project" to redevelop "blighted", "conservation" or "industrial park conservation" areas and to finance public redevelopment costs with incremental real estate tax revenues. Incremental real estate tax revenue ("tax increment revenue") is derived from the increase in the equalized assessed valuation ("EAV") of real property within the TIF redevelopment area over and above the certified initial EAV of the real property. Any increase in EAV is then multiplied by the current tax rate which results in tax increment revenue. A decline in current EAV does not result in a negative real estate tax increment.

To finance redevelopment costs a municipality may issue obligations secured by the anticipated tax increment revenue generated within the redevelopment project area. In addition, a municipality may pledge towards payment of such obligations any part or any combination of the following: (a) net revenues of all or part of any redevelopment project; (b) taxes levied and collected on any or all property in the municipality; (c) the full faith and credit of the municipality; (d) a mortgage on part or all of the redevelopment project; or (e) any other taxes or anticipated receipts that the municipality may lawfully pledge.

Tax Increment financing does not generate revenues by increasing tax rates; it generates revenues by allowing the municipality to capture, temporarily, new tax revenues resulting from redevelopment. Further, under tax increment financing, all taxing districts continue to receive the tax revenue they received prior to redevelopment from property in the area. Moreover, taxing districts can receive distributions of excess Increment when more tax increment revenue is received than is necessary to pay for expected redevelopment project costs and principal and

interest obligations issued to pay such costs. Taxing districts also benefit from the increased property tax base after redevelopment project costs and obligations are paid.

The 1990 Central Station Tax Increment Redevelopment Project and Plan, the 1994 Amendment (1), the 1999 Amendment (2), the 2001 Amendment to add 24th Year Collection Language (3), and the 2010 CPI/Budget Amendment (4)

1990 Central Station Tax Increment Financing Redevelopment Project and Plan

The Central Station TIF Redevelopment Project and Plan represented one of the most important economic opportunities available for the City of Chicago. By creating an environment for private development, Chicago strengthened its tax base and established an atmosphere that created and retained jobs and a real alternative for companies that might otherwise have moved to the suburbs or out of state. At the same time, the longstanding objective was to complete a southern edge to Grant Park, so in part the Museum Campus area can be connected to the central business district and other areas of the City through suitable improvements to traffic patterns and the transportation system that serves these facilities and areas.

The adoption of the Central Station TIF Redevelopment Project and Plan made possible the implementation of a comprehensive redevelopment program. By means of public investment, the area became a stable environment that has again attracted private investment. The Central Station TIF Redevelopment Project and Plan provided redevelopment opportunities to create a direct linkage between the lakefront and the area south of Roosevelt Road. In addition, the extraordinarily important McCormick Place facility was able to be expanded and integrated into the downtown area, which provides the vital connection for the Museum Campus and McCormick Place with the rest of the City.

1994 Amendment including the Renaming to "Near South Tax Increment Financing District Redevelopment Project and Plan"; and 1999 Amendment

During the process of implementing the Central Station TIF Redevelopment Area Project and Plan it became evident that changes to the boundaries of the adopted Central Station TIF Redevelopment Project Area and the development program were necessary in order to facilitate full achievement of the stated purpose and objectives.

The 1994 amended area consisted of approximately 248.4 acres, encompassing thirty-eight full and partial city blocks, and various street and alley rights-of-way, and was generally bounded by Congress Parkway on the north; Michigan Avenue, Indiana Avenue and Calumet Avenue on the east; the Michigan-Cermak Redevelopment Tax Increment Financing Project on the south; and State Street on the west. This area contained vacant land, vacant and deteriorating buildings, numerous older and obsolete commercial and industrial buildings, underutilized sites and deteriorated street, sidewalks and alleys. Many of these conditions have been addressed and have significantly benefited from inclusion in the Near South Redevelopment Project Area. In addition, the City amended the name of the Central Station TIF Redevelopment Area Project and Plan to the "Near South Tax Increment Financing Redevelopment Area Project and Plan."

In the 1999 amendment, the City determined that an additional amendment to the Near South Tax Increment Financing Redevelopment Project and Plan was necessary in order to incorporate the "portability" language included in the Act, 65 ILCS 5/11-74.4-4(q), and the similar language included in the Industrial Jobs Recovery Law, 65 ILCS 5/11-74.6-15(s). The boundaries of the TIF remained the same as from the 1994 amendment.

For details regarding the original 1990 Central Station Area Tax Increment Financing Redevelopment Project and Plan, and the subsequent 1994 and 1999 amendments, please refer to those plans.

2001 Amendment to add 24th Collection Year

In 2001, the City adopted an ordinance for Amendment 3 which added a 24th collection year as allowed by the Act.

2010 CPI/Budget Amendment

In 2010, the City adopted an ordinance for Amendment 4 to amend the budget by applying an annual CPI increase with a one-time 5% increase.

2. NEAR SOUTH TIF REDEVELOPMENT AMENDMENT 5 PROJECT AREA DESCRIPTION

3. NEAR SOUTH AMENDMENT 5 REDEVELOPMENT PROJECT AREA GOALS

The Act encourages the public and private sectors to work together to address and solve the problems of urban growth and development. The joint effort between the City, other public agencies, and the private sector to redevelop parts of the Near South TIF Redevelopment Amendment 5 Project Area will receive significant support from the financing methods made available by the Act. Managed growth in the form of investment in new development and facilities is essential. Redevelopment efforts will strengthen the entire City and specifically the surrounding South Loop area through facility enhancements, environmental improvements, additional open space, added employment opportunities, and private development opportunities.

In addition to furthering the established goals of the Near South TIF Redevelopment Project Area, specific goals for the Near South TIF Redevelopment Amendment 5 Project Area include:

- Provide necessary public infrastructure and facilities for the improvement of public schools;
- Provide public infrastructure and transportation improvements within and adjacent to the Redevelopment Project Area;
- Provide economic development opportunities within and adjacent to the Redevelopment Project Area;
- Create the necessary public infrastructure and facilities to ensure continued development opportunities within and adjacent to the Redevelopment Project Area; and

- Create an environment within the Redevelopment Project Area that will contribute to the health, safety, and general welfare of the City, and preserve or enhance the value of properties adjacent to the Redevelopment Project Area.

4. NEAR SOUTH REDEVELOPMENT AMENDMENT 5 PROJECT AREA ELIGIBILITY STUDY

The initial Near South Redevelopment Project and Plan and subsequent Amendments established the eligibility of the project area prior to this Amendment 5. This eligibility study concerns only the 13 additional parcels (subsequently referred to as the "Near South TIF additional parcels") being added to the Near South TIF. The Near South TIF additional parcels include both an "Improved Area" and a "Vacant Area." The designation of those areas that are defined as Improved and those defined as Vacant are shown on Map 5. The purpose of this section is to describe the conditions that exist to qualify the Near South TIF additional parcels for designation as TIF eligible. The Improved Area of the Near South TIF additional parcels qualify as a "Conservation Area" and the Vacant Area of the Near South TIF additional parcels qualify as "vacant blighted" as defined in the Act.

Teska has determined that the Near South TIF additional parcels qualify for designation as a "TIF eligible" area based on the combination of the following two (2) factors:

1. Improved Area: Qualifies as a "Conservation Area" by the predominance and extent of parcels exhibiting the following four (4) characteristics:
 - a. Deterioration;
 - b. Obsolescence;
 - c. Excessive Land Coverage; and
 - d. Lack of Community Planning.
2. Vacant Area: Qualifies as a "Vacant Blighted Area" by the presence of currently vacant land that exhibits "vacant blight" by the presence of the following two (2) characteristics:
 - a. Obsolete Platting; and
 - b. Deterioration of Structures or Site Improvements in Neighboring Areas Adjacent to the Vacant Land.

Improved Area

The Improved Area of the Near South TIF additional parcels qualifies under Section 5/11-74.4-3(a) as a "Conservation Area":

"...any improved area within the boundaries of a Redevelopment Project Area located within the territorial limits of the municipality in which 50% or more of the structures in the area have an age of 35 years or more. Such an area is not yet a blighted area, but because of a combination of three or more of the following factors: dilapidation; obsolescence; deterioration, illegal use of individual structures; presence of structures below minimum code standards; abandonment; excessive vacancies; overcrowding of structures and community facilities; lack of ventilation, light, or sanitary facilities; inadequate utilities; excessive land coverage; deleterious land use or

layout; depreciation of physical maintenance; lack of community planning; is detrimental to the public safety, health, morals, or welfare and such an area may become a blighted area."

Based on the observed style and construction methods of the buildings within the Near South TIF Redevelopment Amendment 5 Project Area, as well as historic records provided by the City, two (2) of the three (3) buildings in the Improved Area of the additional parcels have been identified as more than 35 years old. This exceeds the statutory requirement that at least 50% of the buildings in a Conservation Area must be 35 years of age or older. The characteristic of age presumes the existence of problems or limiting conditions resulting from normal and continuous use of the structure and exposure to the elements over a period of many years. As a rule, older buildings or improvements typically exhibit more problems than buildings constructed in later years because of longer periods of active usage (wear and tear) and the impact of time, temperature, and moisture. Additionally, older buildings tend not to be well suited for modern-day uses because of contemporary space and development standards.

Having met the threshold criteria as a "Conservation Area", the Improved Area of the additional parcels must exhibit three (3) or more eligibility factors that are present in and reasonably distributed throughout the Improved Area and to such a degree that they are detrimental to the public safety, health, morals, or welfare and may lead to blighting of the improved parcels. Based upon field survey, data from the City, and inspections and analysis of the area, the Improved Area of the additional parcels meets four (4) of the necessary factors to qualify as a "Conservation Area" as defined by the Act.

Improved Area Factors

1. Deterioration (building and site)

With respect to buildings, the Act defines deterioration as "defects including, but not limited to, major defects in the secondary building components such as doors, windows, porches, gutters and downspouts, and fascia. With respect to site, that the condition of roadways, alleys, curbs, gutters, sidewalks, off-street parking, and surface storage areas evidence deterioration, including, but not limited to, surface cracking, crumbling, potholes, depressions, loose paving material, and weeds protruding through paved surfaces."

Through field observations, deterioration was observed as a factor present to a major extent throughout the additional parcels. Conditions contributing to this factor include deteriorating structures, deteriorating off-street parking and storage areas and site surface areas, and deteriorating alleys, street pavement, curbs, gutters, and sidewalks. The Jones College Prep building and associated site areas are characterized by deterioration. As a result, deterioration contributes towards the designation of the Improved Area of the Near South TIF additional parcels as a "Conservation Area".

2. Dilapidation

Per the Act, dilapidation is "an advanced state of disrepair or neglect of necessary repairs to the primary structural components of buildings or improvements in such a

combination that a documented building conditions analysis determines that major repair is required or the defects are so serious and so extensive that the buildings must be removed." At a minimum, dilapidated buildings are those with critical defects in primary structural components (roof, bearing walls, floor structure, and foundation), building systems (heating, ventilation, lighting, and plumbing), and secondary structural components in such combination and extent that: (i) major repair is required or (ii) the defects are so serious and extensive that the buildings must be removed.

While dilapidation may be present, it is not to a major extent in the Improved Area of the Near South TIF additional parcels and thus does not contribute towards TIF eligibility.

3. Obsolescence

Structures are typically built for certain uses or purposes with design, location, height and space arrangement each intended for a specific occupancy at a given time. Buildings are obsolete when they contain characteristics or deficiencies that limit the re-use and marketability of such buildings for their original intended purpose. These characteristics may include an inherent deficiency existing from poor or out-dated design or layout, improper orientation of building on site, inability to accommodate contemporary amenities or facilities, etc., which detracts from the overall usefulness or desirability of a property. Obsolescence in such buildings is typically difficult and expensive to correct.

The oldest Jones College Prep building was originally built as a stenographer school, which points to its obsolescence. The building is characterized by an out-dated design and an inability to accommodate contemporary high school learning. As such, obsolescence of the Jones College Prep buildings is present to a major extent throughout the Improved Area of the Near South TIF additional parcels and contributes to eligibility.

4. Existence of Structures Below Minimum Code

Structures below minimum code standards include all structures that do not meet the standards of zoning, subdivision, building, housing, property maintenance, fire, or other governmental codes applicable to the property. The principal purposes of such codes are to require buildings to be constructed in such a way as to sustain safety of loads expected from this type of occupancy, to be safe for occupancy against fire and similar hazards, and/or to establish minimum standards essential for safe and sanitary habitation. Structures below minimum code are characterized by defects or deficiencies which presume to threaten health and safety.

Correspondence with City staff determined that there might be some structures that are in violation of minimum code standards of the City; however, the presence of structures below minimum code standards is not a contributing factor in the designation of the Improved Area of the Near South TIF additional parcels as a "Conservation Area."

5. Illegal Use of Structure

Per the Act, a structure that is "in violation of applicable federal, State, or local laws, exclusive of those applicable to the presence of structures below minimum code standards" is classified under the category of illegal use of individual structures. Examples of illegal uses may include, but not be limited to the following:

- Illegal home occupations;
- Conduct of any illegal vice activities such as gambling, drug manufacture or dealing, prostitution, sale and/or consumption of alcohol by minors;
- Uses not in conformance with local zoning codes and not previously grandfathered in as legal nonconforming uses;
- Uses in violation of national, state or local environmental and occupational safety and health regulations; and
- Uses involving manufacture, sale, storage or use of dangerous explosives and firearms.

Correspondence with City staff determined no structures are being used illegally and thus this factor does not contribute to the "Conservation Area" designation of the Improved Area of the Near South TIF additional parcels.

6. Excessive Vacancies

Per the Act, excessive vacancy is defined as "the presence of buildings that are unoccupied or under-utilized and that represent an adverse influence on the area because of the frequency, extent, or duration of the vacancies." This criterion includes properties which evidence no apparent effort directed toward their occupancy or utilization and vacancies within buildings.

All buildings are occupied within the Improved Area of the Near South TIF additional parcels, and thus excessive vacancy is not a contributing factor.

7. Lack of Ventilation, Light, or Sanitary Facilities

Many older structures fail to provide adequate ventilation, light, or sanitary facilities as required by local building or housing codes. This is also a characteristic often found in illegal or improper building conversions. The criterion used for determining the presence of this factor can be found in local codes and ordinances, or in locally adopted national codes such as the Uniform Building Code. Lack of ventilation, light, or sanitary facilities is presumed to adversely affect the health of building occupants (residents, employees, visitors, etc.). Typical requirements for ventilation, light, and sanitary facilities include:

- Adequate mechanical ventilation for air circulation in space/rooms without windows (e.g., bathrooms) and dust, odors, or smoke producing activity areas.

- Adequate natural light and ventilation by means of skylights or windows for interior rooms/spaces, and proper window sizes and amounts by room area to window area ratios.
- Adequate sanitary facilities, which includes garbage/storage enclosure, bathroom facilities, hot water, and kitchens.
- Adequate ingress and egress to and from all rooms and units.

Correspondence with City staff determined that while some structures within the Improved Area may exhibit some characteristics, this factor is not present to a major extent and thus does not contribute to the Improved Area of the Near South TIF additional parcels being designated as a "Conservation Area."

8. Inadequate Utilities

This factor relates to all underground and overhead utilities such as storm sewers and storm drainage, sanitary sewers, water lines, and gas, telephone, and electrical services that are shown to be inadequate. Inadequate utilities are those that are: (i) of insufficient capacity to serve the uses in the redevelopment project area, (ii) deteriorated, antiquated, obsolete, or in disrepair, or (iii) lacking within the redevelopment project area.

The parcels in the Improved Area of the Near South TIF additional parcels are adequately serviced by electrical and communications (telephone, cellular phone, cable, etc) providers, sewer, water, and other basic utilities. While the age of this infrastructure in some portions of the improved area may soon necessitate their replacement, the area is adequately serviced.

Given the above stated conditions, existing utilities are adequate and therefore are not a contributing factor to the designation of the Improved Area of the Near South TIF additional parcels as a "Conservation Area."

9. Excessive Land Coverage and Overcrowding of Structures and Community Facilities

This factor relates to the over-intensive use of property and the crowding of buildings and accessory facilities onto a site. Examples of problem conditions warranting the designation of an area as exhibiting excessive land coverage are: the presence of buildings either improperly situated on parcels or located on parcels of inadequate size and shape in relation to present-day standards of development for health and safety, and multiple buildings on a single parcel. For there to be a finding of excessive land coverage, these parcels must exhibit one or more of the following conditions: insufficient provision for light and air within or around buildings, increased threat of spread of fire due to close proximity of buildings, lack of adequate or proper access to a public right-of-way, lack of reasonably required off-street parking, or inadequate provision for loading and service.

Excessive land coverage and the overcrowding of structures and community facilities were observed within the Project Area. Jones College Prep was built for a different

function and not intended for the number of students that it currently serves. The building occupies a significant portion of the site envelope, which leaves little open space for students to congregate or use for outdoor extracurricular activities. The building is situated on parcels of inadequate size in relation to modern school facilities. Furthermore, due to excessive land coverage, there is a major hindrance to building off-street parking, loading and service.

Based on these observations of the existing conditions of the site, excessive land coverage and the overcrowding of structures and community facilities is a contributing factor toward the designation of the Improved Area of the Near South TIF additional parcels as a "Conservation Area."

10. Deleterious Land-Use or Layout

Deleterious land uses include all instances of incompatible land-use relationships, buildings occupied by inappropriate mixed-uses, or uses which may be considered noxious, offensive or environmentally unsuitable.

Incompatible land-use relationships typically occur when the function of one land use negatively impacts the adjacent land uses. Characteristics such as hours of operation, vehicular traffic, noise, security lighting, truck delivery traffic, and utilizing the public right-of-way as part of a loading zone or parking lot can negatively impact the quality of life for adjacent land uses if there are not adequate buffers and site design considerations. Within the improved area there are a small number of instances where incompatible land uses might impact surrounding properties. However, these instances exist in limited locations, and thus this factor does not significantly impact the improved area.

While deleterious land-use and layout does exist, the observed limited number of instances within the Improved Area is limited and thus is not a contributing factor in the designation of the Improved Area of the Near South TIF additional parcels as a "Conservation Area."

11. Environmental Clean-Up

This factor may be documented by determining if any requirements by the Illinois Environmental Protection Agency, the United States Environmental Protection Agency, or any study conducted by a recognized independent expert consultant has resulted in the need to incur remediation costs for a site that have resulted in impeding further site redevelopment. Such remediation costs may be related to the need for the clean-up of hazardous waste, hazardous substances, or underground storage tanks as required by State or Federal law

No documentation currently exists which indicates that environmental remediation would result in impeding redevelopment. Without further documentation of necessary environmental remediation this factor does not contribute to the status of the Improved Area of the Near South TIF additional parcels as a "Conservation Area."

12. Lack of Community Planning

This may be a significant factor if the proposed improved area developed prior to or without the benefit or guidance of a community plan. This means that no community plan existed or it was considered inadequate, and/or was virtually ignored during the time of the area's development. The finding of a lack of community planning may be amplified by other evidence which shows the deleterious results of the lack of community planning, including cross-referencing other physical condition eligibility factors. This may include, but is not limited to, adverse or incompatible land-use relationships, inadequate street layout, improper subdivision, and parcels of inadequate size or shape to meet contemporary development standards.

Lack of community planning is present to a major extent throughout the improved area of the Near South TIF Redevelopment Amendment 5 Project Area. Conditions contributing to this factor include incompatible land-use relationships, parcels of inadequate size or irregular shape for contemporary development in accordance with current day needs and standards, and the development of the Improved Area with limited open space or adequate off-street parking and loading facilities. Based on these observations of the existing conditions of the site and surrounding area, a lack of community planning is a contributing factor toward the designation of the Improved Area of the Near South Near South TIF additional parcels as a "Conservation Area."

13. Decline in Equalized Assessed Value

This factor can be cited if, according to the Act, "the total equalized assessed value of the proposed redevelopment project area has declined for three (3) of the last five (5) calendar years for which information is available; or is increasing at an annual rate that is less than the balance of the municipality for three (3) of the last (5) calendar years for which information is available; or is increasing at an annual rate that is less than the Consumer Price Index for All Urban Consumers published by the United States Department of Labor or successor agency for three (3) of the last five (5) calendar years for which information is available."

The Improved Area consists entirely of Jones College Prep buildings and associated uses, all of which are property tax exempt. As a result of their tax exemption, there cannot be a decline in the equalized assessed value and thus, this is not a factor that contributes to eligibility.

Map 2 provides a summary of blight factors. In addition, Map 6 provides a summary of TIF eligible criteria of the Improved Area of the Near South TIF additional parcels.

Vacant Area

The Vacant Area qualifies under Section 5/11-74.4-3 of the Act as "vacant":

"vacant land" means any parcel or combination of parcels of real property without industrial, commercial, and residential buildings which has not been used for commercial agricultural purposes within 5 years prior to the designation of the redevelopment project area, unless the parcel is included in an industrial park conservation."

Due to observed conditions, review of historical aerial photographs, and consultation with the City, the vacant area as shown on figure 2 (improved/Vacant parcel map) qualifies as "vacant" as defined by Section 5/11-74.4-3 of the Act.

Since "vacancy" has been determined, the Vacant Area will qualify under Section 5/11-74.4-3 as "blighted" if:

"...The sound growth of the redevelopment project area is impaired by a combination of 2 or more of the following factors, each of which is (i) present, with that presence documented, to a meaningful extent so that a municipality may reasonably find that the factor is clearly present within the intent of the Act and (ii) reasonably distributed throughout the vacant part of the redevelopment project area to which it pertains: obsolete platting of vacant land; diversity of ownership of parcels in number to retard or impede the ability to assemble the land for development; tax and special assessment delinquencies; deterioration of structures or site improvements in neighboring areas adjacent to the vacant land; the area has incurred Illinois Environmental Protection Agency or United States Environmental Protection Agency remediation costs; The total equalized assessed value of the proposed redevelopment project area has declined for 3 of the last 5 calendar years prior..."

Blighting Factors in the Vacant Area

1. Obsolete Platting

Obsolete platting of vacant land can be cited as a contributing factor if the platting of the vacant parcels results in parcels of limited or narrow size or configurations of irregular size or shape that would be difficult to develop on a planned basis and in a manner compatible with contemporary standards and requirements. In addition, obsolete platting can be cited if such platting has failed to create rights-of-ways for streets or alleys or that created inadequate rights-of-way widths for streets, alleys, or other public rights-of-way or that omitted easements for public utilities.

Obsolete platting was observed to a major extent throughout the Vacant Area of the Near South TIF additional parcels. The seven (7) vacant parcels are of an irregular and inadequate width, depth, and area to allow for redevelopment in a planned manner or manner compatible with contemporary standards and requirements. In order to develop the site in compatibility with surrounding land uses, significant lot consolidation will be required in order to create a site of adequate area. As a result of inadequate plat width, depth, and area, obsolete platting further contributes towards the designation of the Vacant Area of the Near South TIF additional parcels as "blighted".

2. Diversity of Ownership

This factor can be cited if the diversity of ownership of the vacant parcels is sufficient in number to retard or impede the ability to assemble the land for development.

All parcels in the Vacant Area of the Near South TIF additional parcels are owned by the public agencies (e.g., Public Building Commission), thus diversity of ownership is not a contributing factor in the designation of the Vacant Area as "blighted".

3. Tax and Special Assessment Delinquencies

This factor can be cited if it can be shown that tax and special assessment delinquencies exist or the property has been the subject of tax sales under the Property Tax Code within the last 5 years.

The vacant parcels are all property tax exempt. As a result of their tax exemption, there is no documented tax or special assessment delinquencies and thus, this is not a factor that contributes to eligibility.

4. Deterioration of Structures or Site Improvements in Neighboring Areas Adjacent to the Vacant Land

This may be a significant factor if deterioration of structures or site improvements is observed in neighboring areas adjacent to the vacant land. With respect to buildings, the Act defines deterioration as "defects including, but not limited to, major defects in the secondary building components such as doors, windows, porches, gutters and downspouts, and fascia. With respect to site, that the condition of roadways, alleys, curbs, butters, sidewalks, off-street parking, and surface storage areas evidence deterioration, including, but not limited to, surface cracking, crumbling, potholes, depressions, loose paving material, and weeds protruding though paved surfaces."

Through field observations, deterioration was observed as a factor present to a major extent throughout those areas that were adjacent and neighboring to the vacant parcels. The conditions of neighboring properties include deteriorating structures, deteriorating off-street parking and storage areas and site surface areas, and deteriorating alleys, street pavement, curbs, gutters, and sidewalks. Deterioration was noted at the neighboring Jones College Prep buildings, as well as neighboring buildings and sites to the south and west. As a result of deterioration in neighboring properties, deterioration contributes towards the designation of the Vacant Area of the Near South TIF additional parcels as "blighted".

5. EPA Remediation

This factor can be cited if the area has incurred Illinois Environmental Protection Agency or United States Environmental Protection Agency remediation costs for, or a study conducted by an independent consultant recognized as having expertise in environmental remediation has determined a need for, the clean-up of hazardous waste, hazardous substances, or underground storage tanks required by State or federal law,

provided that the remediation costs constitute a material impediment to the development or redevelopment of the redevelopment project area.

No documentation currently exists which indicates that environmental remediation would result in impeding the site's redevelopment. Without further documentation of necessary environmental remediation this factor does not contribute to the status of the Vacant Area of the Near South TIF additional parcels as "blighted."

6. Declining EAV

This factor can be cited if, according to the Act, "the total equalized assessed value of the proposed redevelopment project area has declined for three (3) of the last five (5) calendar years for which information is available; or is increasing at an annual rate that is less than the balance of the municipality for three (3) of the last (5) calendar years for which information is available; or is increasing at an annual rate that is less than the Consumer Price Index for All Urban Consumers published by the United States Department of Labor or successor agency for three (3) of the last five (5) calendar years for which information is available."

The vacant parcels are entirely tax-exempt property. As a result of their tax exemption, there cannot be a decline in the equalized assessed value and thus, this is not a factor that contributes to eligibility.

Map 7 provides a summary of TIF eligible criteria of the Vacant Area of the Near South TIF additional parcels.

Conclusion

Based on the results of the field investigation by Teska Associates and information provided by the City, it is the finding of Teska Associates that the Improved Area of the Near South TIF additional parcels qualifies as a "Conservation Area" and the Vacant Area of the Near South TIF additional parcels qualifies as a "Vacant Blighted Area."

As depicted in Map 6, the Improved Area meets the criteria as a "Conservation Area" based on the predominance and extent of parcels and structures exhibiting the following characteristics:

1. Deterioration of Buildings and Site Improvements;
2. Obsolescence;
3. Excessive Land Coverage and Overcrowding; and
4. Lack of Community Planning.

As depicted in Map 7, the Vacant Area meets the criteria to be eligible as a "Vacant Blighted Area" based on the predominance and extent of parcels and structures exhibiting the following characteristics:

1. Obsolete Platting; and
2. Deterioration of Structures or Site Improvements in Neighboring Areas Adjacent to the

Vacant Land.

Each of these factors is present to a significant degree and distributed throughout the improved and vacant parcels respectively. Further, these factors act in combination with one another, reinforcing the negative effects of the other factors. Therefore, the combination of the factors throughout the additional parcels has significant impact. These factors contribute significantly towards the decline of the Near South TIF additional parcels as a whole and, when combined, constitute an eligible project area. When these Near South TIF additional parcels are combined with the previously established Near South TIF Redevelopment Project Area the entire Near South TIF Redevelopment Project and Plan Area is "TIF eligible."

All of these characteristics point to the need for this designation to be followed by public intervention in order that redevelopment might occur.

5. NEAR SOUTH TAX INCREMENT FINANCING REDEVELOPMENT PROJECT AND PLAN AMENDMENT 5

This section presents the overall program to be undertaken by the City of Chicago, other taxing bodies, and by private developers acting under redevelopment agreements with the City. It includes a description of redevelopment plan and project objectives, a description of redevelopment activities, a general land-use plan, estimated redevelopment project costs, a description of sources of funds to pay redevelopment project costs, a description of obligations that may be issued, identification of the most recent equalized assessed valuation of properties in the Near South TIF Redevelopment Amendment 5 Project Area, and an estimate of anticipated equalized assessed valuation. Those activities provided for in this TIF Redevelopment Project and Plan Amendment 5 are intended to complement the previously adopted Near South TIF Redevelopment Project and Plan and those activities provided for in that plan.

The primary activity provided for in the TIF Redevelopment Project and Plan Amendment 5 is to provide for necessary public infrastructure and facilities in support of the established Goals and Objectives of the Plan, including infrastructure supporting public schools, as well as public infrastructure and transportation improvements within and adjacent to the Redevelopment Project Area. The significant residential and commercial growth generated by the success of the original Near South TIF Redevelopment Project and Plan have placed strain upon these infrastructure elements and facilities, which create the need for improvements. The TIF Redevelopment Project and Plan Amendment 5 also provides for economic development opportunities within and adjacent to the Redevelopment Project Area. In addition, there may be other TIF eligible activities that the City and other partners may undertake. In general, the TIF Redevelopment Project and Plan Amendment 5 provides for the creation of an environment within the Redevelopment Project Area that will contribute to the health, safety, and general welfare of the City, and preserve or enhance the value of properties adjacent to the Redevelopment Project Area. In the event the City determines that implementation of certain activities or improvements is not feasible, the City may alter the scope of the overall program and plan.

A. Redevelopment Objectives

The established objectives of the Near South TIF Redevelopment Project and Plan include:

- Reduce or eliminate those conditions which qualify the Near South TIF Redevelopment Amendment 5 Project Area as a blighted area;
- Strengthen the economic well-being of the Near South TIF Redevelopment Amendment 5 Project Area and the City by increasing community facilities, taxable values, and job opportunities;
- Create an environment which stimulates private investment in new construction, expansion, and rehabilitation;
- Achieve development which is integrated both functionally and aesthetically with nearby existing development, and which contains a complementary mix of uses;
- Encourage a high-quality appearance of buildings, rights-of-way, and open spaces, and encourage high standards of design;
- Provide sites for needed public improvements or facilities in proper relationship to the projected demand for such facilities and in accordance with accepted design criteria for such facilities;
- Provide needed incentives to encourage a broad range of improvements in both rehabilitation and new development efforts;
- Encourage the participation of minorities and women in professional and investment opportunities involved in the development of the Near South TIF Redevelopment Amendment 5 Project Area; and
- Implement and achieve the Near South TIF Redevelopment Amendment 5 Project Area Goals.

In addition to furthering these established objectives, the following objective is added:

- Improve community facilities and amenities, which respond to additional development resulting from the significant residential and commercial development generated by the TIF.

B. Redevelopment Project and Plan Amendment 5 Activities

The City proposes to achieve its redevelopment goals, policies and objectives for the TIF Redevelopment Project and Plan Amendment 5 through public financing techniques including tax increment financing and by undertaking some or all of the following actions:

1. Provision of Public Improvements

Adequate public improvements and facilities will be provided to service the entire Near South TIF Redevelopment Amendment 5 Project Area. Public improvements and facilities may include, but are not limited to the following:

a. Redevelopment of Jones Colleae Prep

As noted, Jones College Prep was originally built as a stenographer college, which points to its obsolescence. The building is characterized by an out-dated design and an inability to accommodate contemoorav high school learning. The ouroose of the

Jones College Prep redevelopment is to eliminate such obsolescence and provide for a modern high school facility. In addition, the redevelopment will address such issues as lack of open space, deterioration of building and site, and the hindrance to building off-street parking, loading and service.

Any redevelopment of the Jones College Prep will, to the greatest extent possible, will be timed to coincide with other Redevelopment Project Area redevelopment activities so that the adverse effects of such activities may be minimized.

b. Roadways and Related Improvements

Roadway projects from repair and resurfacing might be undertaken. Public sewers, water lines, City electrical services for lighting and signals, public transit, and any other necessary public utilities might be upgraded or installed in each improved roadway segment as needed.

c. Parks, Open Space, and Amenities

Improvements to parks, open spaces, and related amenities may be pursued as needed. This is particularly important as the residential components of the Redevelopment Project Area and recreational elements along the nearby lakefront continue to evolve.

2. Job Training and Related Educational Programs, Including Day Care Provision

Separate or combined programs designed to increase the skills of the labor force to take advantage of the employment opportunities within the Near South TIF Redevelopment Amendment 5 Project Area will be implemented.

3. Adopted Near South Redevelopment Projects

The City will continue to complete those activities listed in the previously adopted Near South Redevelopment Project and Plan (including Amendments 1, 2, 3, and 4).

4. Analysis, Administration, Studies, Surveys, Legal, et al.

Activities include the long-term management of the TIF Program as well as the costs of establishing the Program and designing its components.

5. Redevelopment Agreements

Land assemblage which may be by purchase, exchange, donation, lease, or eminent domain shall be conducted for (a) sale, lease or conveyance to private developers, or (b) sale, lease, conveyance or dedication for the construction of public improvements or facilities. Terms of conveyance shall be incorporated in appropriate disposition agreements which may contain more specific controls than those stated in the Redevelopment Plan.

6. Other TIF Eligibility Activities

There may be other unlisted TIF eligible activities that the City and other partners may undertake. Those TIF eligible activities not specifically listed in the Redevelopment Plan will be considered in order to meet the objectives of this plan and advance additional private investment in the Area.

C. General Land-Use Plan

Nothing as part of the TIF Redevelopment Project and Plan Amendment 5 should amend or alter the previously adopted general land use plan for the Near South TIF Redevelopment Area Project and Plan.

Map 3 illustrates the Land Use Plan. In addition, Map 4 illustrates a Sub Area Land Use Plan.

D. Estimated Redevelopment Project Costs

The TIF Redevelopment Project and Plan Amendment 5 will add estimated eligible redevelopment project costs of \$195 million to the previously adopted Near South TIF Redevelopment Project and Plan budget. Redevelopment project costs mean and include the sum total of all reasonable or necessary costs incurred or estimated to be incurred, and any such costs incidental to this TIF Redevelopment Project and Plan Amendment 5 pursuant to the Act. Such costs may include, without limitation, the following:

1. Costs of studies, surveys, development of plans, and specifications, implementation and administration of the redevelopment plan including but not limited to staff and professional services costs for architectural, engineering, legal, marketing, financial, planning or other services, provided however that no charges for professional services may be based on a percentage of the tax increment collected;
2. Property assembly costs, including but not limited to acquisition of land and other property, real or personal, or rights or interests therein, demolition of buildings, and the clearing and grading of land;
3. Costs of rehabilitation, reconstruction or repair or remodeling of existing buildings and fixtures;
4. Costs of the construction of public works or improvements;
5. Costs of job training and retraining projects;
6. Financing costs, including but not limited to all necessary and incidental expenses related to the issuance of obligations and which may include payment of interest on any obligations issued hereunder accruing during the estimated period of construction of any redevelopment project for which such obligations are issued and for not exceeding 36 months thereafter and including reasonable reserves related thereto;
7. All or a portion of a taxing district's capital costs resulting from the redevelopment project necessarily incurred or to be incurred in furtherance of the objectives of the redevelopment plan and project, to the extent the municipality by written agreement accepts and approves such costs;
8. Relocation costs to the extent that a municipality determines that relocation costs shall be paid or is required to make payment of relocation costs by federal or State law;
9. Payment in lieu of taxes as defined in the Act;

10. Costs of job training, advanced vocational education or career education, including but not limited to courses in occupational, semi-technical or technical fields leading directly to employment, incurred by one or more taxing districts, provided that such costs (i) are related to the establishment and maintenance of additional job training, advanced vocational education or career education programs for persons employed or to be employed by employers located in a redevelopment project area; and (ii) when incurred by a taxing district or taxing districts other than the municipality, are set forth in a written agreement by or among the municipality and the taxing district or taxing districts, which agreement describes the program to be undertaken, including but not limited to the number and type of positions available or to be available, itemized costs of the program and sources of funds to pay for the same, and the term of the agreement. Such costs include, specifically, the payment by community college districts of costs pursuant to Section 3-37, 3-38, 3-40 and 3-40.1 of the Public Community College Act and by school districts of costs pursuant to Section 10-22.20a and 10-23.3a of the School Code;
11. Interest cost incurred by a redeveloper related to the construction, renovation or rehabilitation of a redevelopment project provided that:
 - a. Such costs are to be paid directly from the special tax allocation fund established pursuant to the Act;
 - b. Such payments in any one year may not exceed 30 percent of the annual interest costs incurred by the redeveloper with regard to the redevelopment project during that year;
 - c. If there are not sufficient funds available in the special tax allocation fund to make the payment pursuant to this paragraph (11) then the amount so due shall accrue and be payable when sufficient funds are available in the special tax allocation fund; and
 - d. The total of such interest payments incurred pursuant to this Act may not exceed 30 percent of the total redevelopment project costs excluding any property assembly costs and any relocation costs incurred pursuant to this Act.

A range of activities and improvements will be required to implement the TIF Redevelopment Project and Plan Amendment 5. The necessary improvements and their costs are shown in Table 1, Estimated Redevelopment Project Costs. To the extent that the City has incurred costs or municipal obligations have been issued to pay for such redevelopment project costs in anticipation of the adoption of tax increment financing, the City shall be reimbursed from real estate tax increment revenues for such redevelopment costs. The total redevelopment project costs are intended to provide an upper limit on expenditures. Within this limit, adjustments may be made in line items, including provision for capitalized interest and other cost of financing associated with the issuance of obligations, without amendment of the TIF Redevelopment Project and Plan Amendment 5. Additional funding in the form of State and Federal grants, and private development contributions will be pursued by the City as means of financing improvements and facilities which are of a general community benefit.

E. Sources of Funds to Pay Redevelopment Project Costs

Funds necessary to pay for redevelopment project costs and municipal obligations which have been issued to pay for such costs are to be derived principally from tax increment revenues and proceeds from municipal obligations which have as their revenue source tax increment revenue. To secure the issuance of these obligations, the City may permit the utilization of guarantees, deposits and other forms of security made available by private sector developers.

The tax increment revenue which will be used to fund tax increment obligations and redevelopment project costs shall be the incremental real property tax revenue. Incremental real property tax revenue is attributable to the increase in the current EAV of each taxable lot, block, tract or parcel of real property in the Near South Redevelopment Project Area (including Amendments 1, 2, 3, and 4) over and above the initial EAV of each such property in the Near South Redevelopment Project Area (including Amendments 1, 2, 3, and 4). Other sources of funds which may be used to pay for redevelopment costs and obligations issued, the proceeds of which are used to pay for such costs, are land disposition proceeds, state and federal grants, investment income, and such other sources of funds and revenues as the municipality may from time to time deem appropriate.

F. Issuance of Obligations

The City may issue obligations secured by the tax increment special tax allocation fund pursuant to Section 11-74, 4-7 of the Act.

All obligations issued by the City pursuant to this Redevelopment Plan and the Act shall be retired no later than December 31 of the year in which the payment to the municipal treasurer as provided in Section 11-74.4-8(b) of the Act is to be levied in the twenty-fourth (24th) calendar year after the year in which the ordinance approving the Central Station Redevelopment Project Area and the Central Station Redevelopment Project and Plan was adopted, such ultimate retirement date occurring on December 31, 2014. Also, the final maturity date of any such obligations which are issued may not be later than twenty (20) years from their respective dates of issue. One or more series of obligations may be sold at one or more time in order to implement this Redevelopment Plan. The amounts payable in any year as principal of and interest on all obligations issued by the City pursuant to the Redevelopment Plan and the Act shall not exceed the amounts available or projected to be available, from tax increment revenues and from such bond sinking funds or other sources of funds as may be provided by ordinance. Obligations may be of a parity or senior/junior lien natures. Obligations issued may be serial or term maturities, and may or may not be subject to mandatory sinking fund redemptions.

Revenues shall be used for the scheduled and/or early retirement of obligations, and for reserves, bond sinking funds and redevelopment project costs, and, to the extent that real property tax increment is not used for such purposes, may be declared surplus and shall then become available for distribution annually to taxing districts in the Redevelopment Project Area in the manner provided by the Act.

G. Most Recent Equalized Assessed Valuation of Properties for the Near South TIF Redevelopment Amendment 5 Project Area

The 13 additional parcels of the Near South TIF Redevelopment Amendment 5 Project Area include the Jones College Prep and other associated uses, all of which are property tax exempt. As a result of their tax exemption, the Equalized Assessed Value of the Near South TIF Redevelopment Amendment 5 Project Area is \$0.

H. Anticipated Equalized Assessed Valuation

The 2009 tax equalized assessed valuation of the Near South Redevelopment Project Area, which includes Amendments 1, 2, 3, and 4, was \$1,472,854,091. It is anticipated that by the end of 2014, the tax equalized assessed valuation of the Near South Redevelopment Project Area, including the addition of the Near South TIF Redevelopment Amendment 5 Project Area, will be approximately \$1,657,710,000.

I. Housing Impact

As set forth in the Act, if the redevelopment plan for a redevelopment project area would result in the displacement of residents from 10 or more inhabited residential units, or if the redevelopment project area contains 75 or more inhabited residential units and a municipality is unable to certify that no displacement will occur, the municipality must prepare a housing impact study and incorporate the study in the redevelopment project plan.

The Near South TIF additional parcels do not contain any residential units. The Plan provides for the development or redevelopment of several portions of the Project Area that may contain occupied residential units. However, the City does certify that redevelopment activities taken as a result of implementing this Plan will not result in the displacement of residents from 10 or more inhabited residential units. A housing study was not required and therefore not performed.

6. CONFORMITY OF THE NEAR SOUTH TIF REDEVELOPMENT PROJECT AND PLAN AMENDMENT 5 TO THE COMPREHENSIVE PLAN FOR DEVELOPMENT OF THE CITY OF CHICAGO AS A WHOLE

The TIF Redevelopment Project and Plan Amendment 5 conforms to the comprehensive plan for development of the City of Chicago as a whole. Further, the TIF Redevelopment Project and Plan Amendment 5 are consistent with, and are established pursuant to implementation of, general municipal development objectives and policies contained in development plans previously adopted and/or considered by the City of Chicago, including, among others, the following:

1. "An Ordinance For the Establishment of Harbor District Number Three; the Construction by the Illinois Central Railroad Company of a New Passenger Station; Electrification of Certain of the Lines of the Illinois Central and Michigan Central Railroad Companies Within the City; and the Development of the Lake Front" passed by the City Council of the City of Chicago in 1919, as amended;
2. The Comprehensive Plan of Chicago of 1966;
3. The Guidelines for Development; I.C. Air Rights -- 11th Place to 31st Street of 1972;

4. The Lakefront Plan of Chicago of 1973;
5. The Lake Michigan and Chicago Lakefront Protection Ordinance of 1973;
6. Chicago 21: a Plan for the Central Area Committees of 1973;
7. Chicago Central Area Plan of 1983;
8. The Near South Development Plan of 1986;
9. The Central Station Guidelines;
10. The Central Station Plan of Development;
11. The Near South Community Plan of 2003
12. The Central Area Plan of 2003

7. PHASING AND SCHEDULING OF NEAR SOUTH TIF REDEVELOPMENT PROJECT AND PLAN AMENDMENT 5

A phased implementation strategy will be utilized to achieve a timely and orderly redevelopment of the project area.

It is anticipated that City expenditures for redevelopment project costs will be carefully staged on a reasonable and proportional basis to coincide with expenditures in redevelopment by private developers and the Board of Education.

8. PROVISIONS FOR AMENDING THE NEAR SOUTH TIF REDEVELOPMENT PROJECT AND PLAN AMENDMENT 5

This Near South TIF Redevelopment Project and Plan Amendment 5 may be amended pursuant to the provisions of the Act.

9. AFFIRMATIVE ACTION PLAN

The City is committed to and will affirmatively implement the following principles with respect to the TIF Redevelopment Project and Plan Amendment 5:

- A. The assurance of equal opportunity in all personnel and employment actions with respect to the Plan and Project, including, but not limited to: hiring, training, transfer, promotion, discipline, fringe benefits, salary, employment working conditions, termination, etc., without regard to race, color, religion, sex, age, handicapped status, national origin, creed or ancestry.
- B. This commitment to affirmative action will ensure that all members of the protected groups are sought out to compete for all job openings and promotional opportunities.

In order to implement these principles for this TIF Redevelopment Project and Plan Amendment 5, the City shall require and promote equal employment practices and affirmative action on the

part of itself and its contractors and vendors. In particular, parties contracting for work on the project shall be required to agree to the principles set forth in this section.

10. LACK OF GROWTH AND DEVELOPMENT THROUGH INVESTMENT BY PRIVATE ENTERPRISE

As described in Section 4 of this TIF Redevelopment Project and Plan Amendment 5 report, the Near South TIF Redevelopment Amendment 5 Project Area as a whole is adversely impacted by the presence of numerous blighting factors, and these factors are reasonably distributed throughout the area. The redevelopment project area on the whole has not been subject to growth and development. The lack of investment is evidenced by the continued existence of blight and the limited number of new development projects undertaken on a planned development basis.

The Near South TIF Redevelopment Amendment 5 Project Area is not reasonably expected to be developed without the efforts and leadership of the City, including the adoption of this Near South TIF Redevelopment Project and Plan Amendment 5, and the adoption of tax increment financing.

11. FINANCIAL IMPACT OF THE REDEVELOPMENT PROJECT

Without the adoption of this TIF Redevelopment Project and Plan Amendment 5, and tax increment financing, the Near South TIF Redevelopment Amendment 5 Project Area is not reasonably expected to be redeveloped. There is a real prospect that the documented blighted conditions will continue to exist and spread, and the Near South TIF Redevelopment Amendment 5 Project Area on the whole will become less attractive for the maintenance and improvement of existing buildings and sites. The existing conditions at Jones College Prep might limit residential growth and erode the assessed value of property. Such erosion of assessed value would be made worse by the lack of a concerted effort by the City to stimulate revitalization and redevelopment. Furthering of blighting conditions, coupled with a lack of effort by the City could lead to a reduction of real estate tax revenue to all taxing districts.

Section 5 of this TIF Redevelopment Project and Plan Amendment 5 describes the comprehensive redevelopment program proposed to be undertaken by the City to create an environment in which private investment can occur. The redevelopment program will be staged consistent with the available financial resources required to complete the various redevelopment projects and activities set forth in this Plan. If the aforementioned projects are successful, it is anticipated that the redevelopment will be instrumental in alleviating blighted conditions and restoring the area to a long-term sound condition.

The inclusion of the Near South TIF Redevelopment Amendment 5 Project Area with the adopted Near South Amendment Redevelopment Area will result in real estate tax revenues that increase the EAV over and above the certified initial EAV established at the time of the Near South Redevelopment Project and Plan. Such increase in EAV will be used to pay redevelopment project costs in the area.

12. DEMAND ON TAXING DISTRICT SERVICES

The following major taxing districts presently levy taxes against properties located within Near South TIF Redevelopment Amendment 5 Project Area:

Cook County. The county has principal responsibility for the protection of persons and property, the provision of public health services and the maintenance of County highways.

Cook County Forest Preserve District. The Forest Preserve District is responsible for acquisition, restoration, and management of lands for the purpose of protecting and preserving public open space in the City and County for the education, pleasure and recreation of the public.

Metropolitan Water Reclamation District of Greater Chicago. The district provides the main trunk lines for the collection of waste water from cities, villages and towns, and for the treatment and disposal thereof.

Chicago Community College District 508. The district is a unit of the State of Illinois' system of public community colleges whose objective is to meet the educational needs of residents of the City of Chicago and other students seeking higher education programs and services.

Board of Education. General responsibilities of the Board include the provision, maintenance and operations of educational facilities, and the provision of educational services primarily for kindergarten through twelfth grade.

Chicago Park District. The Park District is responsible for the provision, maintenance and operation of park and recreational facilities throughout the City, and for the provision of recreation programs.

Chicago School Finance Authority. The Authority was created in 1980 to exercise oversight and control over the financial affairs of the Board of Education.

City of Chicago. The City is responsible for the provision of the full range of municipal services typically associated with large, mature cities, including: police and fire protection, capital improvements and maintenance, water production and distribution, sanitation service, building, housing and zoning codes, etc.

In addition to the major taxing districts summarized above, the area is part of the following special taxing districts, which have taxing jurisdiction over the Redevelopment Project Area: the Chicago Library Fund; the City of Chicago School and Building Improvement Fund; and The Chicago Park District Aquarium and Museum Bonds.

Because the Near South TIF Redevelopment Project and Plan Amendment 5 does not call for the addition of new residential units, the demand for services or capital improvements to be provided by the Community College District 508, Chicago Park District, and City are negated.

The proposed redevelopment will either reduce or have limited impact upon the demand for services or capital improvements on any of the taxing districts named above.

Due to the success of the Near South TIF, residential development within the Near South TIF boundary and adjacent areas has greatly increased. As such, demand and service needs on existing school facilities have been increased. Specifically, the redevelopment of the Jones College Prep facility should lessen demands upon the Board of Education by replacing an obsolete outdated facility with a modern one. In addition, the redevelopment of an older, outdated facility should lessen the associated demand for treatment of sanitary and storm sewage. Thus the sanitary and storm sewage associated with the new redevelopment can be adequately handled by existing treatment facilities maintained and operated by the Water Reclamation District.

13. PROGRAM TO ADDRESS FINANCIAL AND SERVICE IMPACTS

As described more fully in the previous section the scope of the financial impact on taxing districts should not have a significant financial impact on taxing districts and increase in the demand for services on the associated taxing districts.

In addition, as described more fully under Redevelopment Project and Plan Activities--Provision of Public Improvements in Section 5 of this Redevelopment Project and Plan, the City plans to provide public improvements and facilities to service the Redevelopment Project Area. Such improvements may mitigate some of the additional service and capital improvement demands placed on taxing districts as a result of the implementation of this Redevelopment Project and Plan. Specifically in relation to the Board of Education, the Near South TIF Redevelopment Project and Plan Amendment 5 calls for the redevelopment of the Jones College Prep, which should be beneficial upon the impact and demand for school services.

Be It Resolved by the Community Development Commission of the City of Chicago:

Section 1. The above recitals are incorporated herein and made a part hereof.

Section 2. The Commission hereby makes the following findings pursuant to Section 5/11 -74.4-3(n) of the Act or such other section as is referenced herein:

a. The Area on the whole has not been subject to growth and development through investment by private enterprise and would not reasonably be expected to be developed without the adoption of the Plan;

b. The Plan:

(i) conforms to the comprehensive plan for the development of the City as a whole; or

(ii) the Plan either (A) conforms to the strategic economic development or redevelopment plan issued by the Chicago Plan Commission or (B) includes land uses that have been approved by the Chicago Plan Commission;

c. The Plan meets all of the requirements of a redevelopment plan as defined in the Act and, as set forth in the Plan, the estimated date of completion of the projects described therein and retirement of all obligations issued to finance redevelopment project costs is not later than December 31 of the year in which the payment to the municipal treasurer as provided in subsection (b) of Section 5/11-74.4-8 of the Act is to be made with respect to ad valorem taxes levied in the twenty-third calendar year following the year of the adoption of the ordinance approving the designation of the Area as a redevelopment project area and, as required pursuant to Section 5/11-74.4-7 of the Act, no such obligation shall have a maturity date greater than 20 years;

d. To the extent required by Section 5/11-74.4-3(n) (6) of the Act, the Plan incorporates the housing impact study, if such study is required by Section 5/11-74.4-3(n)(5) of the Act;

e. The Plan will not result in displacement of residents from inhabited units;

f. The Area includes only those contiguous parcels of real property and improvements thereon that are to be substantially benefited by proposed Plan improvements, as required pursuant to Section 5/11-74.4-4(a) of the Act;

Revision No. 2.

March 9, 2011.

To induce redevelopment pursuant to the Tax Increment Allocation Redevelopment Act, 65 ILCS 5/11-74.4-1, et seq., as amended from time to time (the "Act"), the City Council of the City of Chicago, (the "City") adopted three ordinances on March 27, 2002, approving the 47th/Ashland Redevelopment Project Area (the "RPA") as a redevelopment project area under the Act, and adopting tax increment allocation financing for the RPA.

The 47th/Ashland Tax Increment Financing Redevelopment Plan and Project was originally completed on September 26, 2001 and properly revised on January 30, 2002 (the initial plan and the revision being referred to as the "Original Plan"). The Original Plan is being amended solely to increase the budget. The amendment to the Original Plan is outlined below following the format of the Original Plan.

Revision No. 1.

SECTION I - EXECUTIVE SUMMARY

A. Area Location

The 47th/Ashland Redevelopment Project Area (hereafter referred to as the "Area") is located on the southwest side of the City of Chicago ("City"), approximately six miles southwest of downtown Chicago and approximately two miles west of the Dan Ryan Expressway. A location map is provided on the following page indicating the general location of the Area within the City.

The Area is irregularly shaped and is adjacent or in close proximity to several existing redevelopment areas located to the north and east (see Exhibit I, Adjacent Redevelopment Areas Map in Attachment Two of the Appendix). The Area encompasses approximately 325 acres and includes 100 (full and partial) city blocks. The core of the Area generally follows three corridors along Ashland Avenue, 47th and 51st Streets. On the north, along Ashland Avenue, the Area begins at a railroad right-of-way north of 42nd Street and continues southward to 53rd Street. Along 47th Street the Area begins at Racine Avenue on the east and continues westward to a railroad right-of-way west of Hoyne Avenue. Along 51st Street the Area begins at Loomis Boulevard on the east and continues west to the alley west of Damen Avenue. In addition, the Area includes several pockets that extend off of the main spines formed by Ashland Avenue, 47th and 51st Streets. A boundary map of the Area is provided in Appendix, Attachment Two, Exhibit A, Boundary Map of TIF Area and the legal description of the Area is provided in Appendix, Attachment Three, Legal Description.

B. Existing Conditions

The core of the Area consists primarily of older industrial properties and commercial properties located along Ashland Avenue, 47th and 51st Streets (see Appendix, Attachment Two, Exhibit B, Generalized Existing Land Use Assessment Map). Residential uses are scattered along these commercial corridors and constitute the majority of uses within the sections of the Area located adjacent to these commercial corridors. Zoning classifications in the Area include varying industrial, commercial and residential categories as shown on Exhibit D, Generalized Existing Zoning Map of Attachment Two of the Appendix.

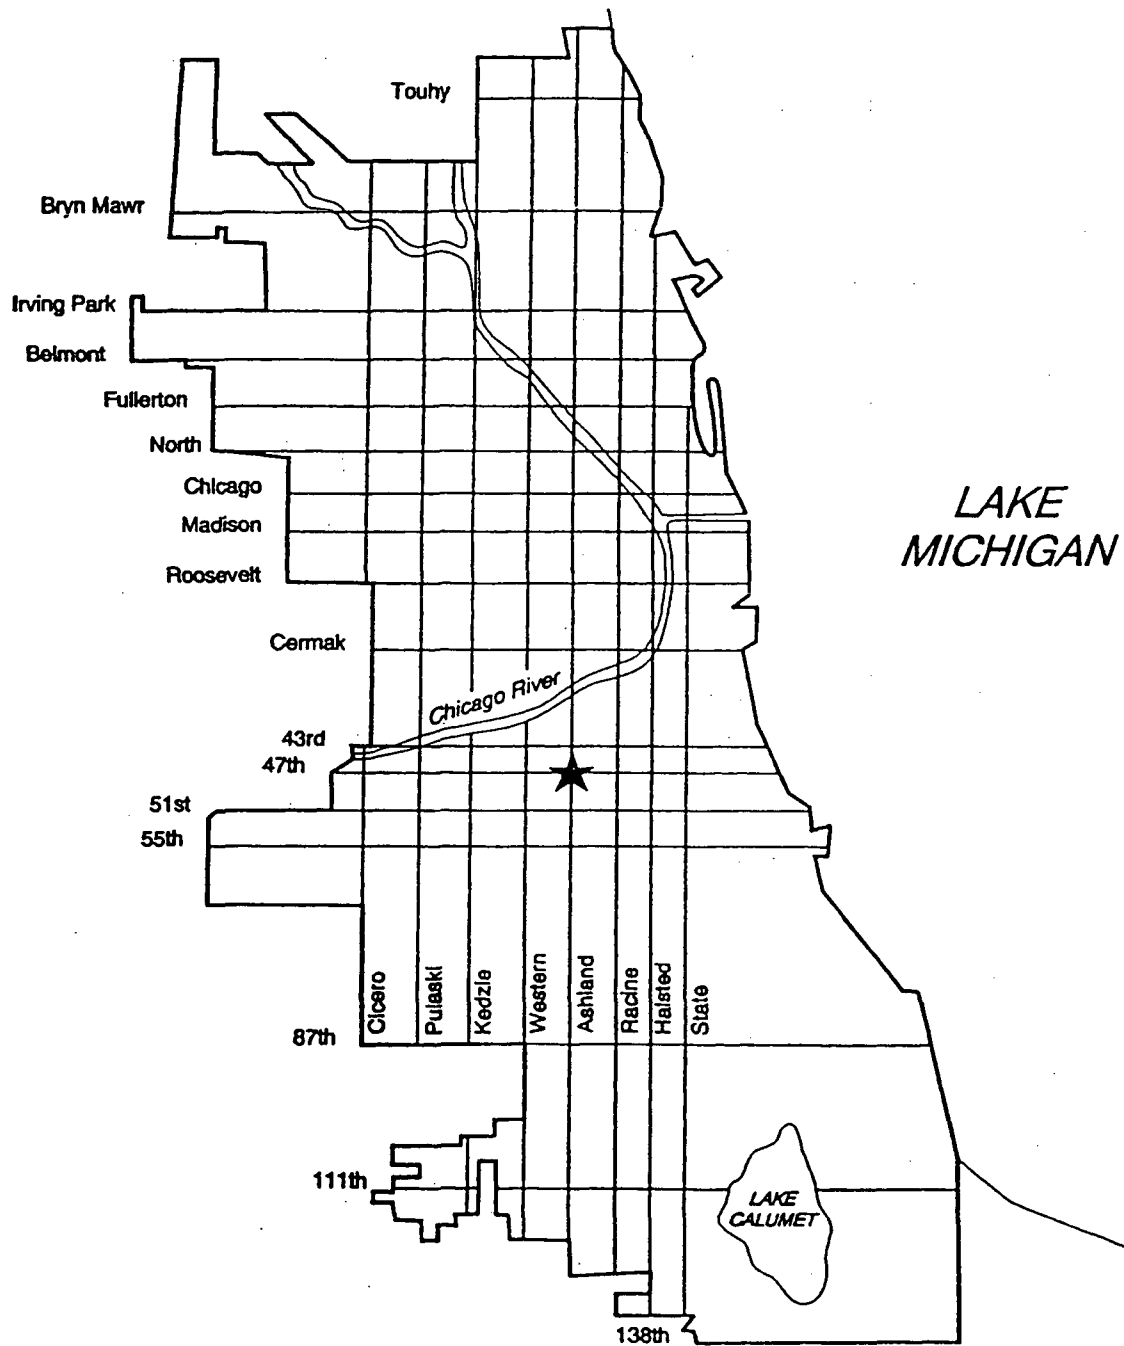

Many of the structures and site improvements in the Area are in need of repair as documented in the Eligibility Study included as Appendix, Attachment One. Lack of widespread public and private investment is evidenced by significant needs in the public infrastructure and deterioration of private properties. The Area is further characterized by the following conditions:

- the predominance (92%) of structures that are 35 years or older;¹
- dilapidation (22%):

¹ This is 42% greater than the statutory requirement. Under the Tax Increment Allocation Redevelopment Act, for designation of an area as a Conservation Area, 50% or more of the buildings must be 35 years old or older.

Location Map

47th / Ashland Redevelopment Project Area:
City of Chicago, Illinois

- obsolescence (66%);
- deterioration of buildings and site improvements (95%);
- illegal use of individual structures (less than 1%);
- presence of structures below minimum code standards (21%);
- excessive vacancies (20%);
- lack of ventilation, light or sanitary facilities (3%);
- excessive land coverage and overcrowding of structures (65%);
- deleterious land use and layout (53% of sub-areas²);
- lack of community planning (93% of sub-areas²); and
- declining or sub-par Area EAV growth.

In addition, streets contain potholes and cracked surfaces. Sidewalks and curbs exhibited cracked and broken sections. Streetlights were leaning, rusted and broken. Several viaducts exhibited spalling material on wing walls and other concrete surfaces, and several viaducts had inadequate clearances. All of these conditions further hinder efficient industrial and commercial operations of the Area. The conditions and locations of these conditions are further detailed in the Eligibility Study.

C. Area Decline

During the past several decades, the Area has experienced significant decline. In some instances, vacant lots exist that once were occupied with commercial and residential buildings. The building stock is declining and some structures are vacant. The visual character of the Area suffers greatly from vacant storefronts and deteriorated buildings.

Three redevelopment areas have been established to the north and east of the Area: The Stockyards Industrial-Commercial Redevelopment Area, the Stockyards Southeast Quadrant Industrial Redevelopment Area, and the Stockyards Annex Redevelopment Project Area (see Exhibit I, Adjacent Redevelopment Areas Map in Attachment Two of the Appendix). The establishment of these three areas has resulted in an increase in development activity north and east of the Area. The City and the State of Illinois ("State") have also included much of the Area in Enterprise Zone 2 (see Exhibit G, Enterprise Zone Map in Attachment Two of the Appendix) and the U. S. Department of Housing and Urban Development (HUD) have included a significant portion of the Area in the Federal Empowerment Zone Program (see Exhibit F, Empowerment Zone Map in Attachment Two of the Appendix). However, these initiatives have not resulted in significant redevelopment activity in the commercial corridors and residential neighborhoods surrounding the former stockyards.

In addition, a portion of the 47th/Ashland Area is located in the southern portion of the Stockyards Industrial Corridor (one of 22 industrial corridors established by the City). Predominant industry types include: food and kindred products, trucking and warehousing, fabricated metals, and chemical products.

Over the decades that the stockyards area was in decline a corresponding decline was occurring in the commercial and residential areas that bordered the stock-

² Sub-Area refers to the Sub-Area key map contained in the Appendix.

yards. This negative secondary effect was a result of the lost jobs and secondary economic impacts that occurred as the stockyards gradually became less of an economic engine. As residents moved elsewhere to find employment the market for businesses and demand for housing also declined. The rebirth of the stockyards over a decade ago (as an economic engine for the south side of Chicago) has not created wide spread positive economic benefits in terms of regenerating the business and housing market that once existed in the Area.

Within the Area, there are conditions that affect the viability of Area businesses. These conditions are:

- poor street conditions;
- lack of parking for commercial areas;
- lack of appropriate transportation facilities and services;
- blighted conditions; and
- local resources not meeting training needs of Area businesses.

In addition, the following conditions impact the viability of Area residential properties and residential properties adjacent to the area:

- heavy truck traffic from industrial uses;
- employees of industrial and commercial uses utilizing residential streets for parking;
- noise from industrial uses;
- deteriorated housing stock; and
- unscreened industrial yard areas.

The survey and field investigation undertaken for this Plan shows that there is a need to eliminate blighting conditions, address problems associated with vacant buildings and vacant sites, and provide for improved public infrastructure.

D. Redevelopment Plan Purpose

Tax increment financing ("TIF") is permitted by the *Illinois Tax Increment Allocation Redevelopment Act*, 65 ILCS 5/11-74.4-1 et seq., as amended (the "Act"). The Act sets forth the requirements and procedures for establishing a redevelopment project area and a redevelopment plan. This 47th/Ashland Tax Increment Financing Redevelopment Plan and Project (hereafter referred to as the "Plan") includes the documentation as to the qualifications of the Area. The purposes of this Plan are to provide an instrument that can be used to guide the correction of Area blighting influences, attract new private development that will produce new employment and tax increment revenues and to stabilize existing development in the Area. This Plan identifies those activities, sources of funds, procedures and various other necessary requirements in order to implement tax increment financing pursuant to the Act.

E. Plan Goals & Objectives

The Plan represents an opportunity for the City to implement a program to expand the tax base of the Area, increase employment, and revive commercial and residential areas. This can be accomplished by utilizing TIF as described in Section III. Initiatives that are part of this TIF program are designed to arrest the spread of blight and decline of the Area. In doing so, the TIF program will help to preserve, retain, redevelop and expand industry and business within an area that has traditionally been industrial and commercial in nature. In addition, the opportunity exists to revive and enhance declining residential areas that were once vibrant neighborhoods but have not reaped the benefits of nearby development activity.

The primary goals of this Plan are to:

1. Creation of new commercial development and rehabilitation of existing commercial uses, especially on the facade.
2. Creation of new residential uses on vacant land that includes affordable housing units.
3. Rehabilitation of existing mixed-use residential/commercial uses.
4. Public improvements along major commercial corridors, including beautification efforts.
5. Creation of an environment within the Area that will contribute to the health, safety and general welfare of the City and that will generate revenue for the Area.

This Plan will create the mechanism to revitalize this important industrial area and adjacent commercial corridors through the improvement of the physical environment and infrastructure. The City proposes to use TIF, as well as other economic development resources, when available, to address needs in the Area and induce the investment of private capital. The primary corridors of the Area should be maintained as commercial cores that serve adjacent industrial uses and residential neighborhoods. Industrial opportunities also exist within the area to provide additional jobs and an improved tax base for taxing jurisdictions. Revitalization of residential pockets within the Area will help to provide additional housing opportunities for Area residents.

The City recognizes that blighting influences will continue to weaken the Area unless the City itself becomes a leader and a partner with the private sector in the revitalization process. Consequently, the City wishes to encourage private development activity by using TIF as a prime implementation tool to complete various public projects.

F. Redevelopment Plan and Project Activities and Costs

The projects anticipated for the Area may include, but are not limited to:

- land acquisition;
- street, alley and sidewalk construction;
- transportation improvements;
- utility work;
- property rehabilitation and improvements to various existing properties and streetscapes;
- private developer assistance;
- site clean-up and preparation;
- marketing and promotion; and
- job training.

The anticipated activities and associated costs are shown in Table 6-1, Estimated Redevelopment Project Costs, included in Section 6. The total estimated cost for the activities listed in Table 6-1 are \$25,000,000.

G. Summary & Conclusions

This Plan summarizes the analyses and findings of the consultant's work, which, unless otherwise noted, is the responsibility of PGAV-Urban Consulting ("Consultant"). The City is entitled to rely on the findings and conclusions of this Plan in designating the Area as a redevelopment project area under the Act. The Consultant has prepared this Plan and the related Eligibility Study with the understanding that the City would rely: 1) on the findings and conclusions of the Plan and the related Eligibility Study in proceeding with the designation of the Area and the adoption and implementation of the Plan, and 2) on the fact that the Consultant compiled the necessary information so that the Plan and the related Eligibility Study will comply with the Act.

The study and survey of the Area indicate that the requirements necessary for designation of the Area as a "conservation area" under the Act are present. Therefore, the Area is qualified under the terms of these definitions in the Act. This Plan and the supporting documentation contained in the Eligibility Study indicates that the Area on the whole has not been subject to growth and development through investment by private enterprise, and would not reasonably be anticipated to be developed without the adoption of the Plan.

SECTION II - AREA LOCATION, LEGAL DESCRIPTION AND PROJECT BOUNDARY

The Area is located six miles southwest of downtown Chicago and approximately two miles west of the Dan Ryan Expressway (I-90/94). The Area contains approximately 325 acres and consists of 100 (full and partial) blocks and 1,208 tax parcels.

The Area is irregularly shaped and is adjacent or in close proximity to several existing redevelopment areas located to the north and east. The core of the Area generally follows three corridors along Ashland Avenue, 47th and 51st Streets. On the north, along Ashland Avenue, the Area begins at a railroad right-of-way north of 42nd Street and continues southward to 53rd Street. Along 47th Street the Area begins at Racine Avenue on the east and continues westward to a railroad right-of-way west of Hoyne Avenue. Along 51st Street the Area begins at Loomis Boulevard on the east and continues west to the alley west of Damen Avenue. In addition, the Area includes several pockets that extend off of the main spines formed by Ashland Avenue and 47th and 51st Streets. The northern portion of the Area includes properties along 43rd Street west of Ashland Avenue to Wolcott Avenue. The eastern portion of the Area includes properties located between the Stockyards Redevelopment Area's to the east, Ashland Avenue and 47th Street. The Southern portion of the Area includes residential uses located east of Ashland Avenue in an area located between Loomis Street, Ashland Avenue, 49th Street and 51st Street.

The boundaries of the Area include only those contiguous parcels of real property and improvements substantially benefited by the activities to be undertaken as a part of the Plan. Since the boundaries of the Area include approximately 325 acres of land, the statutory minimum of 1.5 acres is exceeded. The boundaries of the Area are shown on Appendix, Attachment Two, Exhibit A, Boundary Map of TIF Area and the boundaries are described in Appendix, Attachment Three, Legal Description. A listing of the permanent index numbers and the 2000 equalized assessed value for all properties in the Area is included in Appendix, Attachment Four, 2000 Estimated EAV by Tax Parcel.

As indicated on Appendix, Attachment Two, Exhibit A, Boundary Map of TIF Area, the boundaries of the Area cover a large geographic area. These properties represent areas that have faded to benefit from the on-going redevelopment activities associated with the Stockyards area to the north.

Where appropriate, institutional uses have been included in the Area. These uses are adjacent to the declining areas discussed above and in some cases also contain deteriorating conditions. All properties within the Area will benefit from a program that will address the blighted conditions of the Area.

SECTION III - STATUTORY BASIS FOR TAX INCREMENT FINANCING

A. Introduction

In January 1977, Tax Increment Financing (TIF) was made possible by the Illinois General Assembly through passage of the *Tax Increment Allocation Redevelopment Act*, 65 ILCS 5/11-74.4-1 et seq., as amended (the "Act"). The Act provides a means for municipalities, after the approval of a redevelopment plan and project, to redevelop blighted, conservation, or industrial park conservation areas and to finance eligible "redevelopment project costs" with incremental property tax revenues. "Incremental property tax" or "incremental property taxes" are derived from the increase in the current EAV of real property within the redevelopment project area over and above the "certified initial EAV" of such real property. Any increase in EAV is then multiplied by the current tax rate, which results in incremental property taxes. A decline in current EAV does not result in a negative incremental property tax.

To finance redevelopment project costs, a municipality may issue obligations secured by incremental property taxes to be generated within the Area. In addition, a municipality may pledge towards payment of such obligations any part or any combination of the following:

- (a) net revenues of all or part of any redevelopment project;
- (b) taxes levied and collected on any or all property in the municipality;
- (c) the full faith and credit of the municipality;
- (d) a mortgage on part or all of the redevelopment project; or
- (e) any other taxes or anticipated receipts that the municipality may lawfully pledge.

TIF does not generate tax revenues by increasing tax rates. It generates revenues by allowing the municipality to capture, for a specified period, the new revenues produced by the enhanced valuation of properties resulting from the municipality's redevelopment program, improvements and activities, various redevelopment projects, and the reassessment of properties. This increase or "increment" can be used to finance "redevelopment project costs" such as land acquisition, site clearance, building rehabilitation, interest subsidy, construction of public infrastructure, etc. as permitted by the Act.

Under the Act, all taxing districts continue to receive property taxes levied on the initial valuation of properties within the redevelopment project area. Additionally, taxing districts can receive distributions of excess incremental property taxes when annual incremental property taxes received exceed principal and interest obligations for that year and redevelopment project costs necessary to implement

the Plan have been paid. Taxing districts also benefit from the increased property tax base after redevelopment project costs and obligations are paid.

As used herein and in the Act, the term "Redevelopment Project" ("Project") means any public and private development project in furtherance of the objectives of a redevelopment plan. The term "Area" means an area designated by the municipality, which is not less in the aggregate than 1-1/2 acres and in respect to which the municipality has made a finding that there exist conditions which cause the area to be classified as an industrial park conservation area or a blighted area or a conservation area, or a combination of both blighted area and a conservation area. Plan means the comprehensive program of the municipality for development or redevelopment intended by the payment of redevelopment project costs to reduce or eliminate those conditions the existence of which qualified the redevelopment project area for utilization of tax increment financing, and thereby to enhance the tax base of the taxing districts which extend into the redevelopment project area.

The Illinois General Assembly made various findings in adopting the Act:

1. That there exists in many municipalities within the State blighted and conservation areas; and
2. That the eradication of blighted areas and the treatment and improvement of conservation areas by redevelopment projects are essential to the public interest and welfare.

These findings were made on the basis that the presence of blight, or conditions which lead to blight, are detrimental to the safety, health, welfare and morals of the public.

To ensure that the exercise of these powers is proper and in the public interest, the Act specifies certain requirements that must be met before a municipality can proceed with implementing a redevelopment plan. One of these requirements is that the municipality must demonstrate that a redevelopment project area qualifies for designation. With certain exceptions, an area must qualify generally either as:

- a blighted area (both "improved" and "vacant" or a combination of both); or
- a conservation area; or
- a combination of both blighted areas and conservation areas within the definitions for each set forth in the Act.

The Act offers detailed definitions of the blighting factors used to qualify areas. These definitions were used as the basis for preparing the Eligibility Study.

B. The Redevelopment Plan for the 47th/Ashland Tax Increment Financing Redevelopment Project Area.

As evidenced in the Eligibility Study and summarized herein, the Area as a whole has not been subject to growth and development through private investment. Furthermore, it is not reasonable to expect that the Area as a whole will be redeveloped without the use of TIF.

This Plan has been formulated in accordance with the provisions of the Act and is intended to guide improvements and activities within the Area in order to stimulate private investment in the Area. The goal of the City, through implementation of this Plan, is that the entire Area be revitalized on a comprehensive and planned basis to ensure that private investment in rehabilitation and new development occurs in the following manner:

1. On a coordinated rather than piecemeal basis to insure that land use, access and circulation, parking, public services and urban design are functionally integrated and meet present-day principles and standards;
2. On a reasonable, comprehensive and integrated basis to ensure that blighting factors are eliminated; and
3. Within a reasonable and defined period so that the Area may contribute productively to the economic vitality of the City.

This Plan sets forth the overall Project which are those public and private activities to be undertaken to accomplish the City's above-stated goal. During implementation of the Project, the City may, from time to time: (i) undertake or cause to be undertaken public improvements and activities; and (ii) enter into redevelopment agreements with private entities to construct, rehabilitate, renovate or restore private improvements on one or several parcels (collectively referred to as "Redevelopment Projects").

Successful implementation of this Plan requires that the City utilize incremental property taxes and other resources in accordance with the Act to stimulate the comprehensive and coordinated development of the Area. Only through the utilization of tax increment financing will the Area develop on a comprehensive and coordinated basis, thereby reducing or eliminating the conditions that have precluded development of the Area by the private sector. The use of incremental property taxes will permit the City to direct, implement and coordinate public improvements and activities to stimulate private investment within the Area.

SECTION IV - REDEVELOPMENT GOALS AND OBJECTIVES

In preparing this document, the Consultant utilized prior planning studies such as, *A Plan for Industry in Chicago's South Side*, prepared by the City of Chicago, Department of Planning and Development. In addition, data was obtained from the Back of the Yards Neighborhood Council, comments expressed at neighborhood meetings and field investigations by the Consultant. The intent of these efforts was to determine and document information regarding the needs of the Area and proposals for the future.

The Area's boundaries were established after investigation of existing conditions and input by the City of Chicago, Department of Planning and Development, to maximize utilization of development tools created by the Act and its ability to address Area problems.

As a result of these efforts, various goals and objectives have been established for the Area as noted in this section.

A. Goals of the 47th/Ashland Redevelopment Area

Listed below are the general goals adopted by the City for redevelopment of the Area. These goals provide overall focus and direction for this Plan as follows:

1. Creation of new commercial development and rehabilitation of existing commercial uses, especially on the facades.
2. Creation of new residential uses on vacant land that includes affordable housing units.
3. Rehabilitation of existing mixed-use residential/commercial uses.
4. Public improvements along major commercial corridors, including beautification efforts.
5. Creation of an environment within the Area that will contribute to the health, safety and general welfare of the City and that will generate revenue for the Area.

In addition to these general goals, several items originally identified during the "model industrial corridor" planning process developed by the City are included. These characteristics are stated below as additional goals of this Plan to address industrial uses in the Area and reflect a continuation of the process developed for the "model industrial corridor" program that named a portion of the Area as one of 22 industrial corridors:

- Improve safety and security;
- Improve accessibility and functionality;
- Develop a management entity;

- Improve the appearance and establish an identity; and
- Increase the Area's marketability and competitiveness.

B. Redevelopment Objectives

Listed below are the redevelopment objectives that will guide planning decisions regarding redevelopment within the Area:

1. Remove structurally substandard buildings, obsolete building types, deleterious uses, and other blighting influences through acquisition and demolition, or through private and public rehabilitation.
2. Assemble current City-owned vacant lots and other land into parcels of appropriate shape and sufficient size to meet contemporary development needs and standards for residential, commercial, institutional, and industrial uses, and street and traffic improvements.
3. Create a coherent overall urban design and character, especially along the commercial corridors.
4. Provide necessary public improvements and facilities in proper relationship to the projected demand for such facilities and in accordance with modern design standards for such facilities.
5. Establish job training, job readiness and other programs permitted in the Act to provide residents from within, and surrounding the Area with the skills and other needs necessary to secure jobs within the Area and adjacent redevelopment project areas.
6. Secure commitments from employers located in the Area and any current or future adjacent redevelopment project areas to interview graduates of the Area's job readiness and job training programs.
7. Provide opportunities for women-owned and minority-owned businesses.
8. Maximize the existing accessibility features of the Area and ensure that it is served by a street system and public transportation facilities that provide safe and convenient access to, and circulation within, the Area.
9. Enhance and strengthen the viability of the Area and surrounding neighborhoods through provision of TIF funding for capital improvement projects in the Area and through the use of other redevelopment mechanisms to promote development.

C. Development and Design Objectives

Listed below are the specific development and design objectives which will assist the City in directing and coordinating public and private improvement and in-

vestment throughout the Area in order to achieve the general goals and redevelopment objectives for the Area identified previously in this Plan.

The following guidelines are intended to help attract desirable new businesses and employment opportunities, foster a consistent and coordinated development pattern and create an attractive and quality image and identity for the Area.

1. Land Use

- Promote comprehensive, redevelopment of the Area as a planned and cohesive mix of rehabilitated residential neighborhoods, industrial uses, and supporting commercial corridors.
- Provide sites for a range of land uses with primary emphasis on residential uses in residential neighborhoods, retail and commercial service uses along commercial corridors and industrial uses where appropriate. However, the plan recognizes the need for and existence of institutional uses and parks where appropriate.

2. Building and Site Development

- Repair and rehabilitate existing buildings in poor condition, when feasible, and demolish buildings where rehabilitation is not feasible.
- Reuse vacant buildings in serviceable condition for new business, industry or residential uses.
- Preserve and promote buildings with historic and architectural value, where appropriate.
- Ensure that the design of new buildings is compatible with the surrounding building context.
- Promote the use of themed architectural treatments (including lighting, signage and landscaping) around buildings to add visual interest.
- Locate building service and loading areas away from front entrances and major streets where possible.
- Require sufficient space for off street parking for area businesses and industrial uses.

3. Transportation and Infrastructure

- Provide safe and convenient access to and within the Area for trucks, autos, pedestrians and public transportation.
- Improve the street surface conditions, street lighting, curbs, sidewalks and traffic signalization.

- Discourage or eliminate truck traffic through residential areas.
- Consider closing selected street segments to create larger building sites and enhance opportunities for new development.
- Improve viaduct clearances and the condition of viaduct structures.
- Promote commercial and industrial developments that incorporate transit facilities into their design.
- Upgrade public utilities and infrastructure throughout the Area as required.

4. Urban Design

- Establish a comprehensive streetscape system to guide the design and location of light fixtures, sidewalks, paving materials, landscaping, street furniture and signage throughout the Area.
- Enhance the appearance of the Area by landscaping the major street corridors and repaving deteriorating sidewalks and curbs.
- Provide distinctive design features, including landscaping and signage, at the major entryways into the Area to create a unified identity.
- Clean-up and maintain vacant land, particularly in highly visible locations; where feasible, use vacant lots for permanent, attractive open space, off-street parking or new residential construction where appropriate.
- Eliminate illegal dumping, abandoned vehicles, overgrown weeds and graffiti.
- Discourage proliferation of building and site signage and restrict off-premises advertising to the extent permitted by law.

5. Landscaping and Open Space

- Provide landscaped buffer areas around the periphery of, and within the Area to secure areas and reduce the negative visual impact of commercial and industrial activities on residential neighborhoods.
- Screen active rail tracks with landscaping.
- Ensure that all landscaping and design materials comply with the City of Chicago Landscape Ordinance.
- Design, landscape and light open spaces to promote a high level of security.

SECTION V - BASIS FOR ELIGIBILITY OF THE AREA & FINDINGS

A. Introduction

To designate a redevelopment project area, according to the requirements of the Act a municipality must find that there exist conditions which cause such project area to be classified as a blighted area, conservation area, combination of blighted and conservation areas, or an industrial park conservation area. The Eligibility Study included as Attachment One of the Appendix provides a comprehensive report documenting all factors required by the Act to make a determination that the Area is eligible under the Act. Following the background information provided below, a summary of the information provided in the Eligibility Study is presented.

B. Area Background Information

1. Existing Land Use and Zoning

A tabulation of the existing land use within the Area is provided below:

Table 5-1
Tabulation of Existing Land Use

Land Use	Land Area Acres	% of Net Land Area ¹	% of Gross Land Area
Industrial	113	49%	35%
Commercial	68	29%	21%
Institutional, Public, Semi-Public	14	6%	4%
Vacant Land	19	8%	6%
Residential	19	8%	6%
Public Right-of-Way	92	N/A	28%
Total	325 Ac.	100%	100%

¹ Net Land Area does not include public right-of-way.

Note: Percentage and acreage figures are approximated due to rounding.

The existing land uses itemized in Table 5-1 show the predominantly industrial nature of the Area (49% of the net land area is industrial). In addition to industry, the Area is home to numerous commercial uses along 47th Street, Ashland Avenue and 51st Street. Commercial uses comprise 29% of the net land area. Residential use comprise 8% of the net land area and are primarily located east of Ashland Avenue between 49th and 51st Street although residential uses are scattered throughout the Area. Several schools (institutional uses) are also located in the Area.

Adequate parking is not provided in the commercial corridors along Ashland Avenue, 47th and 51st Streets. These older commercial corridors along major transportation routes were constructed with little off-street parking for businesses or upper floor residential uses. In addition, most of the commercial development along these corridors backs up to densely populated residential neighborhoods. Parking is limited because of narrow street frontages for individual businesses, dense commercial development, and nearby densely populated residential side streets.

There are no significant multi-tenant retail shopping centers in the Area; although immediately to the north in the Stockyards Commercial/Industrial Redevelopment Area several commercial "big box" retail uses are present.

Along the flanks of the Area and within some residential pockets, residential uses are in close proximity to industries and businesses. The boundary separating residential and industrial uses is often a local access road or alley. These situations often create conflicts related to traffic generation and use of on-street parking by Area employees and customers. The pockets of residential uses along the major corridors are isolated from surrounding residential neighborhoods by industrial or commercial land uses.

The majority of property within the Area is zoned for industrial and commercial/business uses. Residential zoning primarily covers the portion of the Area east of Ashland and south of 49th Street. (see Exhibit D, Generalized Existing Zoning Map in Attachment Two of the Appendix).

2. Prior Efforts

Prior efforts by the City, Area leaders, residents, businesses and groups have met with limited success and have been limited to minor street and alley improvements, on-going maintenance of public improvements and business retention and development programs. Three redevelopment areas have been established north and east of the Area. However, these efforts and the proximity to adjacent redevelopment activity has not prevented further decline in the Area because of the age, condition and obsolete nature of the commercial and residential building stock of the Area. The City is developing this Plan and Program in an attempt to attract new growth and development.

The City and the State of Illinois ("State") have designated 80% of the Area as a part of Enterprise Zone 2 (see Exhibit G, Enterprise Zone Map in Attachment Two of the Appendix). In addition, the City and the U. S. department of Housing and Urban Development have included 48% of the Area in the Federal Empowerment Zone Program (see Exhibit F, Empowerment Zone Map in Attachment Two of the Appendix). However, these initiatives have not reversed decline in the area. It is anticipated that, in the future, the Enterprise Zone and Empowerment Zone efforts in conjunction with the components of this Plan will greatly assist in addressing Area problems.

The northern portion of the 47th/Ashland Area is located in the southern portion

of the Stockyards Industrial Corridor. This corridor is one of the 22 industrial corridors identified by the City. The Stockyards Industrial Corridor is home to 218 firms employing more than 17,000 workers. The Stockyards Industrial Corridor employs more workers than any other industrial corridor in the City. The portion of the corridor within the Area contains in excess of 20 major industrial firms that employ more than 1,500 workers. The limits of the Area within the Stockyards Industrial Corridor are shown on Exhibit I, Adjacent Redevelopment Areas Map, contained in Attachment Two of the Appendix. Industry types represented in the Area include food and kindred products, trucking and warehousing, fabricated metal products and chemical products. In addition, the commercial corridors along 47th Street, Ashland Avenue and 51st Street are home to approximately 250 commercial businesses that support the adjacent industrial areas and provide employment opportunities and services to residents in surrounding neighborhoods. Business groups such as the Back of the Yards Neighborhood Council and others have continued to work to retain businesses and industries.

However, the commercial corridors and residential sections of the Area still contain many vacant and deteriorated buildings. Over the decades that the stockyards area was in decline a corresponding decline was occurring in the commercial and residential areas that bordered the stockyards. This negative secondary effect was a result of the jobs and secondary economic impacts that were lost as the stockyards gradually became less of an economic engine before its rebirth. As residents moved elsewhere to find employment the market for businesses and demand for housing also declined. The rebirth of the stockyards over a decade ago (as an economic engine for the south side of Chicago) has not created wide spread positive economic benefits in terms of regenerating the business and housing market that once existed in the Area.

The primary reason for this lack of spin off effect is that most of the redevelopment activity that has occurred near the Area in the last several decades was focused on the rebuilding the stockyards as an industrial area. The decline in the housing and commercial market was not addressed. Little was done to address the aging and obsolete commercial buildings (small narrow commercial buildings on narrow lots) within the commercial corridors because the market was not strong enough to attract new retail users due to the loss of population from residential areas. Likewise, as residents moved away, maintenance and upkeep of the aging housing stock also declined. The result of these effects is a commercial building stock that is obsolete in terms of contemporary development requirements and residential neighborhoods that have seen their viability reduced as deteriorated houses and vacant lots appeared in the once vibrant residential neighborhoods of the Area.

3. Historic EAV and Area Decline

Historic Equalized Assessed Values (EAV's) for the Area and the rate of growth for the City of Chicago and the Consumer Price Index (CPI) for All Urban Consumers for the period between 1995 and 2000 were identified in the Eligibility Study. In 1995 the EAV of the Area was approximately \$46.8 million. In 2000 the EAV of

the Area was approximately \$53.7 million. These figures represent a \$6.8 million increase in EAV since 1995. However, in four of the last five years the Area experienced rates of growth below the remainder of the City. In addition, in one of the last five years the EAV of the Area grew slower than the Consumer Price Index (CPI) for All Urban Consumers published by the United States Department of Labor. Further, approximately twelve (12) percent of the properties in the Area are delinquent in the payment of 1999 real estate taxes. In addition, 360 building code violations (30% of properties) have been issued on properties since January 1993.

Between January 1996 and June 2001, the building department issued 282 permits. Of this total, 37 were issued for new construction, 88 were issued for demolition, 33 were issued for rehabs to existing buildings, and 124 were issued for repairs.

Of the 37 permits issued for new construction only 8 were issued for construction of new buildings. Of these eight permits, one permit was issued for construction of a single-family residence, five permits for commercial buildings, one permit for an industrial building, and one permit for a school building. The remaining 29 permits for new construction were issued for a variety of site improvements including: garages, fences, etc. Approximately 31% of the permits issued in the last five and one-half years were issued for demolition.

Vacancies of longer than one year exist in some buildings. There is approximately 400,000 square feet of vacant industrial and commercial floor space in the Area. These conditions add significantly to the view that the Area has experienced additional blight and that private market acceptance of portions of the Area is not favorable.

C. Investigation and Analysis of Conservation Factors

In making the determination of eligibility, it is not required that each and every property or building in the Area be blighted or otherwise qualify. It is the Area as a whole that must be determined to be eligible. However, the factors must be reasonably distributed throughout the Area.

The Act sets forth 13 separate blighting factors that are to be used to determine if an area qualifies as a "conservation area". If a combination of 3 or more is found to exist, the Redevelopment Area can be found to qualify as a "conservation area". In addition, there is a threshold that must be met in order for an area to be established as a conservation area. For an area to qualify as a conservation area 50% or more of the structures in the area must have an age of 35 years or more. The Eligibility Study, included as Attachment One in the Appendix, defines all of the terms and the methodology employed by the Consultant in arriving at the conclusions as to eligibility.

In terms of the condition of the Area, much of the Area is in need of redevelopment, rehabilitation and revitalization and is characterized by:

- the predominance (92%) of structures that are 35 years or older;³
- dilapidation (22%);
- obsolescence (66%);
- deterioration of buildings and site improvements (95%);
- illegal use of individual structures (less than 1%);
- presence of structures below minimum code standards (21%);
- excessive vacancies (20%);
- lack of ventilation, light or sanitary facilities (3%);
- excessive land coverage and overcrowding of structures (65%);
- deleterious land use and layout (53% of sub-areas⁴);
- lack of community planning (93% of sub-areas⁴); and
- declining or sub-par Area EAV growth.

In addition, street surfaces, sidewalks, curbs and site improvements were observed to be in need of reconstruction or replacement and are documented further in the Eligibility Study.

Table 5-2, Conservation Factors Matrix, provided on the following pages, tabulates the condition of buildings in Area. This table indicates that five factors associated with the Area are present to a major extent, five factors are present to a minor extent, and declining or sub-par EAV growth for the entire Area is present and that these factors are present throughout the Area.

D. Summary of Findings

It was determined in the investigation and analysis of blighting factors that the Area qualifies as a conservation area. The Plan includes measures designed to reduce or eliminate the deficiencies that cause the Area to qualify consistent with the strategy of the City for revitalizing other redevelopment project areas and the 22 designated industrial corridors.

The factors noted in the Eligibility Study and summarized above are reasonably distributed throughout the Area. Building code violations, EAV growth rates below those of the City as a whole, delinquent taxes, and vacancies, are evidence that the Area on the whole has not been subject to growth and development through investment by private enterprise and is not reasonably anticipated to be developed without the adoption of this Plan. Age and the requirements of contemporary commercial and industrial tenants have caused portions of the Area and its building stock to become obsolete and may result in further disinvestment in the Area. The loss of businesses from this Area, mirroring the experience of other large urban centers, further documents the trend line and deteriorating conditions of the neighborhood. Closures, abandonment of various properties and demolition of structures are further evidence of declining conditions in the Area, lack of private investment, and little interest in the Area by the private market.

³ This is 42% greater than the statutory requirement. Under the Statute, for designation of an area as a Conservation Area 50% or more of the buildings must be 35 years old or older.

See Section 11 narrative of Eligibility Study for qualification of area improvements and public infrastructure improvements.

There is approximately 400,000 square feet of vacant floor space throughout the Area. This vacant floor space is primarily located in commercial buildings located along the commercial corridors of the Area. Many of these properties have been available for several years with little interest being expressed by private sector businesses. In addition, some residential structures in the Area exhibit deteriorated conditions and are evidence of the need to improve residential housing stock in the Area.

The City and State have designated a significant portion of the Area as State of Illinois Enterprise Zone and a Federal Empowerment Zone. These designations are in response to the deteriorating conditions in the area, recognition of the significant needs of the Area, and realization that financial incentives are required to attract private investment. In addition, as previously noted, a portion of the Area is included within one of the 22 industrial corridors identified by the City.

The summary table contained on the following page highlights the factors found to exist in the Area that causes the Area to qualify. The summaries provided in this section were based upon data assembled by the Consultant. The conclusions presented in this report are those of the Consultant (see full text of the Eligibility Study in Attachment One of the Appendix).

The conclusion of the Consultant is that the number, degree and distribution of eligibility factors as documented in this report warrant the designation of the Area as a conservation area as set forth in the Act. Although it may be concluded that the mere presence of the stated eligibility factors noted herein may be sufficient to make a finding of qualification as a conservation area, this evaluation was made on the basis that the factors must be present to an extent that would lead reasonable persons to conclude that public intervention is appropriate or necessary. Secondly, the distribution of conservation area eligibility factors throughout the Area must be reasonable so that a sound area is not arbitrarily qualified simply because of proximity to an area that exhibits conservation area factors.

Therefore, it is the conclusion of the Consultant that the Area qualifies as a conservation area to be designated as a redevelopment project area and eligible for Tax Increment Financing under the Act. The local governing body should review this report and, if satisfied with the summary of findings contained herein, adopt a resolution making a finding of a conservation area for the Area, and making this report a part of the public record.

Factors found to exist on less than 50% of the structures or sub-areas in the Area were identified as being found to a minor extent. Five factors were found to exist to a major extent, five were found to exist to a minor extent and declining or sub-par EAV growth for the entire Area was present.
- 3 Age, although not a blighting factor for designation, is a threshold that must be met before an Area can qualify as a Conservation Area.

SECTION VI - REDEVELOPMENT PLAN AND PROJECT

A. Introduction

This section presents the Plan and Project for the Area. Pursuant to the Act, when the finding is made that an area qualifies as a conservation, blighted, combination of conservation and blighted areas, or industrial park conservation area, a redevelopment plan must be prepared. A redevelopment plan is defined in the Act at 65 ILCS 5/11-74.4-3 (n) as:

the comprehensive program of the municipality for development or redevelopment intended by the payment of redevelopment project costs to reduce or eliminate those conditions the existence of which qualified the redevelopment project area as a "blighted area" or "conservation area" or combination thereof or "industrial park conservation area", and thereby to enhance the tax bases of the taxing districts which extend into the redevelopment project area.

B. Generalized Land Use Plan

The generalized land use plan for the Area is presented as Exhibit C, Generalized Land Use Plan included in Attachment Two of the Appendix.

The generalized land use plan for the Area will be in effect upon adoption of this Plan. This land use plan is a generalized plan in that it states land use categories and alternative land uses that apply to each block in the Area. Existing land uses that are not consistent with these categories may be permitted to remain. However, TIF assistance will only be provided for those properties in conformity with this generalized land use plan.

The Area should be redeveloped primarily as a planned and cohesive industrial, business and employment center providing sites for a wide range of land uses, including industrial, office, commercial, residential, and institutional uses. The various land uses should be arranged and located to minimize conflicts between neighboring land use activities. The intent of this redevelopment program is also to enhance and support the existing, viable commercial businesses and residential uses in the Area through providing opportunities for financial assistance for expansion and growth where appropriate.

The generalized land use plan highlights opportunities for industrial and business improvement, enhancement and new development within the Area. The generalized land use plan is focused on maintaining and enhancing sound and viable existing businesses, promoting new business development and residential development at selected locations. The generalized land use plan designates six (6) land use categories within the Area as follows:

- i. Residential
- ii. Mixed Use (Residential, Commercial, Industrial, Institutional)

- iii. Commercial
- iv. Industrial
- v. Institutional
- vi. Transportation

These six categories, and their location on Exhibit C, Generalized Land Use Plan, included in Attachment Two of the Appendix were developed from several factors: existing land use, the existing underlying zoning district and the land use anticipated in the future. For the purposes of this report, several sub-areas are identified below. The purpose of discussing these sub-areas is an attempt to reflect the predominant existing land uses that are present in these areas and the homogeneous nature of the uses in these areas. However, for specific locations within the Area reference should be made to Exhibit C.

Industrial Core

This sub-area represents the core of the industrial portion of the Area. This sub-area encompasses the majority of the northern and northeastern portion of the Area and generally includes the area north of 47th Street and east of Ashland Avenue and north of 43rd Street west of Ashland Avenue. Existing land uses in this sub-area are predominately industrial with a limited number of scattered commercial and residential uses. The underlying zoning for this sub-area is predominately industrial.

The Generalized Land Use Plan calls for a continuation of industrial uses in this area and attempts to reflect existing land uses and underlying zoning where possible. In addition, mixed use has been included in a portion of this sub-area should expansion of other uses be necessary. However, it is the intent in this sub-area to mainly provide for large-scale industrial uses that can be developed or redeveloped on the larger lots that currently exist. Development is intended to mirror development in adjacent industrial areas.

47th Street, 51st Street and Ashland Avenue

Along Ashland Avenue, 47th Street and 51st Street, commercial and widely scattered ground floor residential uses currently exist. Underlying zoning designations along these corridors are generally commercial or business in nature. The Generalized Land Use Plan calls for continued commercial uses along these corridors and allows for the inclusion of mixed use where appropriate. Residential uses are not anticipated to be the dominant land use at the ground level in areas identified as commercial. However, in those instances where upper floor residential uses can be appropriately developed above ground floor commercial uses, they should be supported.

Residential (Justine, Laflin, Bishop and Loomis)

This sub-area generally consists of existing residential uses along Justine, Laflin, and Bishop Streets and Loomis Boulevard. The Generalized Land Use Plan indicates that the property in this sub-area should continue to be used for residential purposes (with the exception of Richards High School which is identified as institutional). The Generalized Land Use Plan reflects underlying zoning that also calls for the sub-area to continue to serve as a residential area. The Generalized Land Use Plan adds the residential component to provide for in-fill residential construction and rehabilitation of residential uses within the Area where they are most appropriate.

It is not the intent of the Generalized Land Use Plan to eliminate non-conforming existing uses. The intent is to prohibit the expansion of certain uses where inappropriate, promote changes in use where appropriate and allow the various sub-area's to remain intact so that defined commercial corridors, industrial districts and residential neighborhoods can be maintained. Existing non-conforming uses may remain until such time that they are no longer viable for their current use as determined under other City ordinances governing non-conforming uses or become redeveloped in a manner consistent with this Plan.

C. Redevelopment Projects

To achieve the objectives proposed in the Plan, a number of projects and activities will need to be undertaken. An essential element of the Plan is a combination of private projects, as well as public projects and infrastructure improvements. All redevelopment project activities will be subject to the provisions of the City's ordinances and applicable codes as may be in existence and may be amended from time-to-time. Projects and activities necessary to implement the Plan may include the following:

1. Private Redevelopment Projects:

Rehabilitation of existing properties including adaptive reuse of certain existing buildings built for one use but proposed for another use. New construction or reconstruction of private buildings at various locations as permitted by the Plan.

2. Public Redevelopment Projects:

Public projects and support activities will be used to induce and complement private investment. These may include, but are not limited to: street improvements, building rehabilitation; land assembly and site preparation; street work; transportation improvement programs and facilities; public utilities (water, sanitary and storm sewer facilities); environmental clean-up; park improvements; school improvements; landscaping; traffic signalization; promotional and improvement programs; signage and lighting, as well as other programs as may be provided by the City and permitted by the Act.

The estimated costs associated with the eligible public redevelopment projects are presented in Table 6-1, Estimated Redevelopment Project Costs shown on the following page. These projects are necessary to address the needs of the Area identified in this Plan. This estimate includes reasonable or necessary costs incurred or estimated to be incurred in the implementation of this Plan. A description of eligible redevelopment project costs pursuant to the Act is contained in Section VII of this Plan.

The City proposes to achieve its redevelopment goals and objectives for the Area through the use of public financing techniques including, but not limited to, tax increment financing. The City also reserves the right to undertake additional activities and improvements authorized under the Act.

3. Property Assembly:

The City will encourage property acquisition and land assembly by the private sector in accordance with this Plan. To meet the goals and objectives of this Plan, the City may acquire and assemble property throughout the Area. Land assemblage by the City may be by purchase, exchange, donation, lease, eminent domain or through the Tax Reactivation Program and may be for the purpose of; (a) sale, lease or conveyance to private developers; or (b) sale, lease, conveyance or dedication for the construction of public improvements or facilities. Furthermore, the City may require written redevelopment agreements with developers before acquiring any properties. As appropriate, the City may devote acquired property to temporary uses until such property is scheduled for disposition and redevelopment.

Exhibit H-1, Land Acquisition Overview Map, included in Attachment Two of the Appendix, indicates the parcels currently proposed to be acquired for clearance and redevelopment in the Project Area. Exhibit H-2, Land Acquisition By Block And Parcel Identification Number, included in Attachment Two of the Appendix, portrays the acquisition properties in more detail.

In connection with the City exercising its power to acquire real property not currently identified on Exhibit H-1 or H-2, including the exercise of the power of eminent domain, under the Act in implementing the Plan, the City will follow its customary procedures of having each such acquisition recommended by the Community Development Commission (or successor commission) and authorized by the City Council of the City. Acquisition of such real property as may be authorized by the City Council does not constitute a change in the nature of this Redevelopment Plan.

TABLE 6-1
Estimated Redevelopment Project Costs

<u>Eligible Expense</u>	<u>Estimated Costs</u>
1. Analysis, Administration, Studies, Surveys, Legal, Marketing, etc.	\$ 1,000,000
2. Property Assembly including Acquisition, Site Prep and Demolition, Environmental Remediation	\$ 8,000,000
3. Rehabilitation Of Existing Buildings, Fixtures and Leasehold Improvements, Affordable Housing Construction and Rehabilitation Costs	\$ 7,300,000
4. Public Works & Improvements, including streets and utilities, parks and open space, public facilities (schools & other public facilities) ¹	\$ 3,000,000
5. Relocation Costs	\$ 1,500,000
6. Job Training, Retraining, Welfare-to-Work	\$ 1,000,000
7. Day Care Services	\$ 1,000,000
8. Interest Subsidy	\$ 2,200,000
Total Redevelopment Costs^{2,3}	\$ 25,000,000⁴

¹This category may also include paying for or reimbursing (i) an elementary, secondary or unit school district's increased costs attributed to assisted housing units, and (ii) capital costs of taxing districts impacted by the redevelopment of the Project Area. As permitted by the Act, to the extent the City by written agreement accepts and approves the same, the City may pay, or reimburse all, or a portion of a taxing district's capital costs resulting from a redevelopment project necessarily incurred or to be incurred within a taxing district in furtherance of the objectives of this Plan.

²Total Redevelopment Project Costs exclude any additional financing costs, including any interest expense, capitalized interest and costs associated with optional redemptions. These costs are subject to prevailing market conditions and are in addition to Total Redevelopment Project Costs.

³The amount of the Total Redevelopment Project Costs that can be incurred in the Project Area will be reduced by the amount of redevelopment project costs incurred in contiguous redevelopment project areas, or those separated from the Project Area only by a public right-of-way, that are permitted under the Act to be paid, and are paid, from incremental property taxes generated in the Project Area, but will not be reduced by the amount of redevelopment project costs incurred in the Project Area which are paid from incremental property taxes generated in contiguous redevelopment project areas or those separated from the Project Area only by a public right-of-way.

⁴Increases in estimated Total Redevelopment Project Costs of more than five percent, after adjustment for inflation from the date of the Plan adoption, are subject to the Plan amendment procedures as provided under the Act.

Additional funding from other sources such as federal, state, county, or local grant funds may be utilized to supplement the City's ability to finance Redevelopment Project Costs identified above.

For properties described on Exhibit H-1 and H-2, the acquisition of occupied properties by the City shall commence within four (4) years from the date of the publication of the ordinance approving the Plan. Acquisition shall be deemed to have commenced with the sending of an offer letter. After the expiration of this four-year period, the City may acquire such property pursuant to this Plan under the Act according to its customary procedures as described in the preceding paragraph.

The City may demolish improvements, remove and grade soils and prepare sites with soils and materials suitable for new construction. Acquisition, clearance and demolition will, to the greatest extent possible, be timed to coincide with redevelopment activities so that tax-producing redevelopment closely follows site clearance.

The City may (a) acquire any historic structure (whether a designated City or State landmark or on, or eligible for, nomination to the National Register of Historic Places); (b) demolish any non-historic feature of such structure; and (c) incorporate any historic structure or historic feature into a development on the subject property or adjoining property.

There were two buildings identified in the Chicago Historic Resources Survey (CHRS) as being significant. The Peoples Theater at 1616 W. 47th Street and Goldblatt's Brothers Store at 4700 S. Ashland Avenue may be eligible for listing on the National Register of Historic Places. At the time of this writing, the Goldblatt's Brothers Store had recently reopened and is occupied. However, the Peoples Theater is currently vacant and dilapidated. In addition, several commercial building facades were identified during field investigation as being significant. These building facades are located along Ashland Avenue near the intersection of Ashland and 47th Street.

Relocation assistance may be provided in order to facilitate redevelopment of portions of the Area, and to meet the other City objectives. Businesses or households legally occupying properties to be acquired by the City may be provided with relocation advisory and/or financial assistance as determined by the City. The Housing Impact Study, included as Appendix, Attachment Five contains further details with respect to location and number of residential units that may require relocation and the relocation plan for any residents displaced as a result of this Plan.

In the event that the implementation of the Plan results in the removal of residential housing units in the Project Area occupied by low-income households or very low-income households, or the displacement of low-income households or very low-income households from such residential housing units, such households shall be provided affordable housing and relocation assistance not less than that which would be provided under the federal Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 and the regulations thereunder, including the eligibility criteria. Affordable housing may be either existing or newly constructed

housing. The City shall make a good faith effort to ensure that this affordable housing is located in or near the Project Area.

As used in the above paragraph "low-income households", "very low-income households" and "affordable housing" shall have the meanings as set forth in Section 3 of the Illinois Affordable Housing Act, 310 ILCS 64/3. As of the date of this Plan, these statutory terms are defined as follows: (i) "low-income household" means a single person, family or unrelated persons living together whose adjusted income is more than 50 percent but less than 80 percent of the median income of the area of residence, adjusted for family size, as such adjusted income and median income are determined from time to time by the United States Department of Housing and Urban Development ("HUD") for purposes of Section 8 of the United States Housing Act of 1937; (ii) "very low-income household" means a single person, family or unrelated persons living together whose adjusted income is not more than 50 percent of the median income of the area of residence, adjusted for family size, as so determined by HUD; and (iii) "affordable housing" means residential housing that, so long as the same is occupied by low-income households or very low-income households, requires payment of monthly housing costs, including utilities other than telephone, of no more than 30 percent of the maximum allowable income for such households, as applicable.

As set forth in the Act, if the redevelopment plan for a redevelopment project area would result in the displacement of residents from 10 or more inhabited residential units, or if the redevelopment project area contains 75 or more inhabited residential units and a municipality is unable to certify that no displacement will occur, the municipality must prepare a housing impact study and incorporate the study in the redevelopment project plan.

The Area contains 716 inhabited residential units. The Plan provides the development or redevelopment of several portions of the Area that may contain occupied residential units. As a result, it is possible that by implementation of this Plan, the displacement of residents from 10 or more inhabited residential units could occur.

The results of the housing impact study section are described in a separate report which presents certain factual information required by the Act. The report, prepared by the Consultant, is entitled "*The 47th/Ashland Tax Increment Financing Redevelopment Plan and Project Housing Impact Study*" and is attached as Appendix, Attachment Five of this Plan.

D. Assessment of Financial Impact on Taxing Districts

In 1994, the Act was amended to require an assessment of any financial impact of the Redevelopment Project Area on, or any increased demand for services from, any taxing district affected by the Redevelopment Plan and a description of any program to address such financial impacts or increased demand. The City intends to moni-

tor development in the Area and with the cooperation of the other affected taxing districts will attempt to ensure that any increased needs are addressed in connection with any particular development.

The following taxing districts presently levy taxes against all properties located within the Area:

Cook County. The County has principal responsibility for the protection of persons and property, the provision of public health services and the maintenance of County highways.

Cook County Forest Preserve District. The Forest Preserve District is responsible for acquisition, restoration and management of lands for the purpose of protecting and preserving open space in the City and County for the education, pleasure and recreation of the public.

Metropolitan Water Reclamation District of Greater Chicago. This district provides the main trunk lines for the collection of wastewater from cities, villages and towns, and for the treatment and disposal thereof.

Chicago Community College District 508. This district is a unit of the State of Illinois' system of public community colleges, whose objective is to meet the educational needs of residents of the City and other students seeking higher education programs and services.

Board of Education of the City of Chicago. General responsibilities of the Board of Education include the provision, maintenance and operations of educational facilities and the provision of educational services for kindergarten through twelfth grade. Hamline School, Chavez Center, Seward School and Richards High School are located within the Area. These schools are identified on Exhibit A, Boundary Map of TIF Area included in Attachment Two of the Appendix.

Chicago Park District. The Park District is responsible for the provision, maintenance and operation of park and recreational facilities throughout the City and for the provision of recreation programs. No public parks are located within the Area.

Chicago School Finance Authority. The Authority was created in 1980 to exercise oversight and control over the financial affairs of the Board of Education.

City of Chicago. The City is responsible for the provision of a wide range of municipal services, including: police and fire protection; capital improvements and maintenance; water supply and distribution; sanitation service; building, housing and zoning codes, etc.

City of Chicago Library Fund. There are no public libraries located within the boundaries of the Area.

In addition, the following entities have taxing jurisdiction over a portion of the Area:

Southwest Home Equity Assurance Program

Bridgeport Home Equity Assurance Program (the Bridgeport Home Equity Assurance program is not a functioning agency at this time).

City of Chicago Special Service Area No. 10.

City of Chicago Special Service Area No. 13

The City finds that the financial impact of the Plan and the Area on the taxing districts listed above is not significant. The replacement of vacant and underutilized properties with new development may cause some increased demand for services and/or capital improvements provided by the Metropolitan Water Reclamation District (M.W.R.D.), and fire and police protection as well as sanitary collection, recycling, etc. by the City. It is expected that any increase in demand for sanitary and storm sewage facilities can be adequately handled by existing treatment facilities of the M.W.R.D. Likewise, facilities of the City of Chicago are adequate to handle any increased demands that may occur. In addition, some existing residential development may be replaced by new or expanded commercial or industrial uses and therefore will have an offsetting effect to any new residential development.

The purpose of this Plan is to: (i) revitalize and restore existing industrial, business and residential areas; (ii) assemble tracts of land for new private development; (iii) accomplish a planned program of public improvements to achieve new business and residential in-fill development wherever possible and (iv) address the needs identified herein which cause the Area to qualify for TIF under the Act. Existing built-up areas are proposed to be revitalized and stabilized. This will not result in a need for new facilities or expanded services from area taxing bodies. In addition, the costs presented in Table 6-1 – Estimated Redevelopment Project Costs, include capital improvement costs for capital improvements associated with taxing district facilities located within the Area. TIF funds may be used to improve the taxing district facilities listed previously.

The Area represents a very small portion (0.13%) of the total tax base of the City. The EAV of the Area has been growing at a rate below that of the balance of the City of Chicago and CPI in recent years, as previously noted. Hence, the taxing bodies will benefit from a program designed to stabilize the tax base in the Area, check the declining tax revenues that are the result of deteriorated conditions in the Area and attract new growth and development in the future.

It is expected that benefits from new public and private investment in the Area will result in spillover of new development and investment in property, and therefore increased property values, in adjoining neighborhoods of the community. The potential for the realization of this trend is borne out by data that was compiled by the Illinois Department of Revenue (DOR). In a report from December 10, 1997, the DOR notes that E.A.V. grows at a faster rate (6.7%) in areas outside of TIF boundaries, in communities where TIF's have been created than it does in communities that have not created TIF's, where the E.A.V. grew by only 3.5%. Therefore, DOR's research suggests that establishment of the Area and Plan is likely to also have this spillover effect and will generate additional tax revenue for the City and other local taxing bodies from investment outside its borders.

E. Prior Efforts

A description has been previously given regarding prior plans, studies and activities initiated by the City and others designed to guide the revitalization of the Area. Each of these prior efforts involved area residents, elected officials, businesses and groups such as the Back of the Yards Neighborhood Council. Meetings held in the Area have elicited comments and input from those residing in or doing business in the Area.

Each of the efforts outlined previously have documented the need for continued and broader efforts to address the very significant needs of the Area. The community leaders and businesses point to the need for expanded concerted efforts to:

- Eliminate the blighting factors;
- Redevelop abandoned sites;
- Reduce crime;
- Improve transportation services, including provision of centralized parking areas, incorporation of vehicular traffic and safety measures and viaduct improvements;
- Initiate employment training programs so as to better prepare the labor force in the Area for employment opportunities;
- Undertake physical improvements to improve the appearance, image and marketability of the Area; and
- Encourage other proposals that can create long-term economic life and stability.

SECTION VII - STATUTORY COMPLIANCE AND IMPLEMENTATION STRATEGY

A. Implementation Strategy

The development and foliow through of an implementation strategy is an essential element in achieving the success of this Plan. In order to maximize program efficiency and to take advantage of current developer interest in the Area, and with fuli consideration of avaiable funds, a phased implementation strategy wili be employed.

The City may enter into agreements with public entities or private developers, where deemed appropriate by the City, to facilitate public pr private projects. The City may also contract with others to accomplish certain pubhc projects and activities as contained in this Plan.

Costs that may be incurred by the City in implementing this Plan may include, without limitation, project costs and expenses that may be eligible under the Act, as amended from time to time, including those costs that are necessary and related or incidental to those listed below as currently permitted by the Act.

The various redevelopment expenditures that are eligible for payment or reimbursement under the Act are reviewed below. A list of estimated redevelopment project costs that are deemed to be necessary to implement this Plan were previously provided in Section 6, Table 6-1, Estimate Redevelopment Project Costs.

1. Eligible Redevelopment Costs

Redevelopment project costs include the sum total of ali reasonable or necessary costs incurred, estimated to be incurred, or incidental to this Plan pursuant to the Act. Such costs may include, without limitation, the folowing:

- a) Costs of studies, surveys, development of plans and specifications, implementation and administration of the Plan, including but not limited to, staff and professional service costs for architectural, engineering, legal, financial, planning, or other services (excluding lobbying expenses), provided that no charges for professional services are based on a percentage of the tax increment collected;
- b) Costs of marketing sites within the Area to prospective businesses, developers, and investors;
- c) Property assembly costs, including but not limited to, acquisition of land and other property, real or personal, or rights or interests therein, demolition of bulidings, site preparation, site improvements that serve as an engineered barrier addressing ground level or below ground environmental contamination, including, but not limited to, parking lots

and other concrete or asphalt barriers, and the clearing and grading of land;

- d) Costs of rehabilitation, reconstruction, or repair or remodeling of existing public or private buildings, fixtures, and leasehold improvements; and the costs of replacing an existing public building if pursuant to the implementation of a redevelopment project the existing public building is to be demolished to use the site for private investment or devoted to a different use requiring private investment and the costs of the construction of public works or improvements subject to the limitations in Section 74.4-3(q)(4) of the Act;
- e) Costs of job training and retraining projects, including the costs of "welfare to work" programs implemented by businesses located within the Area and such proposals that feature a community-based training program which ensures maximum reasonable opportunities for residents of the New City Community Area with particular attention to the needs of those residents who have previously experienced inadequate employment opportunities and development of job-related skills including residents of public and other subsidized housing and people with disabilities;
- f) Financing costs, including but not limited to, all necessary and incidental expenses related to the issuance of obligations and which may include payment of interest on any obligations issued thereunder, including interest accruing during the estimated period of construction of any redevelopment project for which such obligations are issued and for not exceeding thirty-six (36) months following completion and including reasonable reserves related thereto.
- g) To the extent the City, by written agreement, accepts and approves the same, all or a portion of a taxing district's capital costs resulting from the redevelopment project necessarily incurred or to be incurred (consistent with statutory requirements) within the taxing district in furtherance of the objectives of the Plan and Project.
- h) Relocation costs, to the extent that the City determines that relocation costs shall be paid or is required to make payment of relocation costs by federal or state law or by Section 74.4-3(n)(7) of the Act (see "Relocation" section);
- i) Payments in lieu of taxes, as defined in the Act;
- j) Costs of job training, retraining, advanced vocational education or career education, including but not limited to, courses in occupational, semi-technical or technical fields leading directly to employment, incurred by one or more taxing districts, provided that such costs: (i) are related to the establishment and maintenance of additional job training,

advanced vocational education or career education programs for persons employed or to be employed by employers located in a Redevelopment Project Area; (li) when incurred by a taxing district or taxing districts other than the City, are set forth in a written agreement by or among the City and the taxing district or taxing districts, which agreement describes the program to be undertaken, including but not limited to, the number of employees to be trained, a description of the training and services to be provided, the number and type of positions available or to be available, itemized costs of the program and sources of funds to pay for the same, and the term of the agreement. Such costs include, specifically, the payment by community college districts of costs pursuant to the Public Community College Act 110 ILCS 805/3-37, 805/3-38, 805/3-40 and 805/3-40.1 and by school districts of costs pursuant to 105 ILCS 5/10-22.20a and 5/10-23.3a;

- k) Interest costs incurred by a redeveloper related to the construction, renovation, or rehabilitation of a redevelopment project provided that:
 - (i) such costs are to be paid directly from the special tax allocation fund established pursuant to the Act;
 - (ii) such payments in any one year may not exceed 30% of the annual interest costs incurred by the redeveloper with regard to the redevelopment project during that year;
 - (iii) if there are not sufficient funds available in the special tax allocation fund to make the payment pursuant to this provision then the amounts so due shall accrue and be payable when sufficient funds are available in the special tax allocation fund;
 - (iv) the total of such interest payments paid pursuant to the Act may not exceed 30% of the total: (i) cost paid or incurred by the redeveloper for the redevelopment project plus (ii) redevelopment project costs excluding any property assembly costs and any relocation costs incurred by the City pursuant to the Act; and
 - (v) the 30% limitation in (ii) and (iv) above may be increased to up to 75% of the interest cost incurred by a redeveloper for the financing of rehabilitated or new housing for low-income households and very low-income households, as defined in Section 3 of the Illinois Affordable Housing Act.
- l) An elementary, secondary, or unit school district's increased costs attributable to assisted housing units as provided in the Act;
- m) Up to 50% of the cost of construction, renovation and/or rehabilitation of all low- and very low-income housing units (for ownership or rental) as defined in Section 3 of the Illinois Affordable Housing Act. If the units are part of a residential redevelopment project that includes units not affordable to low- and very low-income households, only the low- and

very low-income units shall be eligible for this benefit under the Act;

- n) The cost of daycare services for children of employees from low-income families working for businesses located within the redevelopment project area and all or a portion of the cost of operation of day care centers established by redevelopment project area businesses to serve employees from low-income families working in businesses located in the redevelopment project area. For the purposes of this paragraph, "low-income families" means families whose annual income does not exceed 80% of the City, county or regional median income as determined from time to time by the United States Department of Housing and Urban Development.

If a special service area has been established pursuant to the Special Service Area Tax Act, 35 ILCS 235/0.01 et seq., then any tax increment revenues derived from the tax imposed pursuant to the Special Service Area Tax Act may be used within the redevelopment project area for the purposes permitted by the Special Service Area Tax Act as well as the purposes permitted by the Act;

- o) Unless explicitly provided in the Act, the cost of construction of new privately-owned buildings shall not be an eligible redevelopment project costs;

In the event the Act is amended after the date of approval of this Plan by the City Council of Chicago to (a) include new eligible redevelopment project costs, or (b) expand the scope or increase the amount of existing eligible redevelopment project costs (such as, for example, by increasing the amount of incurred interests costs that may be paid under 65 ILCS 5/1-74.4-3(q)(1)), this Plan shall be deemed to incorporate such additional, expanded or increased eligible costs as eligible costs under the Plan, to the extent permitted by the Act. In the event of such amendment(s), the City may add any new eligible redevelopment project costs as a line item in Table 6-1 or otherwise adjust the line items in Table 6-1 without amendment to this Plan, to the extent permitted by the Act. In no instance, however, shall such additions or adjustments result in any increase in the total redevelopment project costs without a further amendment to this Plan.

B. Most Recent Equalized Assessed Valuation

The purpose of identifying the most recent equalized assessed valuation ("EAV") of the Area is to provide an estimate of the initial EAV which the Cook County Clerk will certify for the purpose of annually calculating the incremental EAV and incremental property taxes of the Redevelopment Project Area. The 2000 EAV of all taxable parcels in the Redevelopment Project Area is approximately \$53.7 million. This total EAV amount by PIN, is summarized in, 2000 Estimated E.A.V. by Tax Parcel included as Attachment Four in the Appendix. The EAV is subject to verification by the Cook County Clerk. After verification, the final figure shall be certified by the Cook County Clerk, and shall become the Certified Initial EAV from which all incremental property taxes in the Redevelopment Project Area will be cal-

culated by Cook County. If the 2001 EAV shall become available prior to the date of the adoption of this Plan by the City Council, the City may update the Redevelopment Plan by replacing the 2000 EAV with the 2001 EAV without further City Council action.

C. Redevelopment Valuation

Contingent on the adoption of this Plan, it is anticipated that several major private developments and/or improvements may occur within the Area. The private redevelopment investment and anticipated growth that will result from redevelopment and rehab activity in this Area is expected to increase the equalized assessed valuation by approximately \$25 million to \$30 million over the 23-year period in which the Plan is in place. This is based, in part, upon an assumption that the undeveloped land will be built upon with new development and that the vacant buildings will be improved and increase in assessed value. These actions will stabilize values in the remainder of the Area and further stimulate rehab and expansion of existing viable businesses.

D. Sources of Funds

Funds necessary to pay for Redevelopment Project Costs and secure municipal obligations issued for such costs are to be derived primarily from Incremental Property Taxes. Other sources of funds which may be used to pay for Redevelopment Project Costs or secure municipal obligations are land disposition proceeds, state and federal grants, investment income, private financing and other legally permissible funds the City may deem appropriate. The City may incur redevelopment project costs which are paid for from funds of the City other than incremental taxes, and the City may then be reimbursed for such costs from incremental taxes. Also, the City may permit the utilization of guarantees, deposits and other forms of security made available by private sector developers. Additionally, the City may utilize revenues, other than State sales tax increment revenues, received under the Act from one redevelopment project area for eligible costs in another redevelopment project area that is either contiguous to, or is separated only by a public right-of-way from, the redevelopment project area from which revenue is received.

The Area is adjacent to two Redevelopment Project Areas and one industrial corridor (see Exhibit I, Adjacent Redevelopment Areas Map, contained in Attachment Two of the Appendix):

- the Stockyards Industrial Corridor;
- the Stockyards Southeast Quadrant Industrial Redevelopment Project Area; and
- Stockyards-Industrial-Commercial Redevelopment Area.

The Area is currently, and may in the future, be contiguous to, or be separated only by a public right-of-way from, other redevelopment project areas created under the Act. The City may utilize net incremental property taxes received from the Area to pay eligible Redevelopment Project Costs, or obligations issued to pay

such costs, in other contiguous redevelopment project areas, or those separated only by a public right-of-way, and vice versa. The amount of revenue from the Area, made available to support such contiguous redevelopment project areas, or those separated only by a public right-of-way, when added to all amounts used to pay eligible Redevelopment Project Costs within the Area, shall not at any time exceed the total Redevelopment Project Costs described in this Plan.

The Area may become contiguous to, or be separated only by a public-right-of-way from, redevelopment project areas created under the Industrial Jobs Recovery Law (65 ILCS 5/11-74.61-1, et seq.). If the City finds that the goals, objectives, and financial success of such contiguous redevelopment project areas, or those separated only by a public right-of-way, are interdependent with those of the Area, the City may determine that it is in the best interests of the City and in furtherance of the purposes of the Plan that net revenues from the Area be made available to support any such redevelopment project areas, and vice versa. The City therefore proposes to utilize net incremental revenues received from the Area to pay eligible Redevelopment Project Costs (which are eligible under the Industrial Jobs Recovery Law referred to above) in any such areas, and vice versa. Such revenues may be transferred or loaned between the Area and such areas. The amount of revenue from the Area so made available, when added to all amounts used to pay eligible Redevelopment Project Costs within the Area or other areas as described in the preceding paragraph, shall not at any time exceed the total Redevelopment Project Costs described in Table 6-1 of this Plan.

E. Nature and Term of Obligation and Completion of the Redevelopment Plan

The City may issue obligations secured by Incremental Property Taxes pursuant to Section 11-74.4-7 of the Act. To enhance the security of a municipal obligation, the City may pledge its full faith and credit through the issuance of general obligations bonds. Additionally, the City may provide other legally permissible credit enhancements to any obligations issued pursuant to the Act.

The redevelopment project shall be completed, and all obligations issued to finance redevelopment costs shall be retired, no later than December 31 of the year in which the payment to the City treasurer as provided in the Act is to be made with respect to ad valorem taxes levied in the twenty-third calendar year following the year in which the ordinance approving the Area is adopted (i.e., assuming City Council approval of the Area and Plan in 2002), by 2025. Also the final maturity date of any such obligations which are issued may not be later than 20 years from their respective dates of issue. One or more series of obligations may be sold at one or more times in order to implement this Plan. Obligations may be issued on a parity or subordinated basis.

In addition to paying Redevelopment Project Costs, Incremental Property Taxes may be used for the scheduled retirement of obligations, mandatory or optional redemptions, establishment of debt service reserves and bond sinking funds. To the extent that Incremental Property Taxes are not needed for these purposes, and are not otherwise required, pledged, earmarked or otherwise designated for

the payment of Redevelopment Project Costs, any excess Incremental Property Taxes shall then become available for distribution annually to taxing districts having jurisdiction over the Area in the manner provided by the Act.

F. Commitment To Fair Employment Practices and Affirmative Action Plan

The City is committed to and will affirmatively implement the following principles with respect to this Plan:

1. The assurance of equal opportunity in all personnel and employment actions with respect to the Redevelopment Project, including but not limited to hiring, training, transfer, promotion, discipline, fringe benefits, salary, employment working conditions, termination, etc., without regard to race, color, religion, sex, age, disability, national origin, ancestry, sexual orientation, marital status, parental status, military discharge status, source of income, or housing status.
2. Redevelopers will meet City of Chicago standards for participation of 25 percent Minority Business Enterprises and 5 percent Woman Business Enterprises and the City Resident Construction Worker Employment Requirement as required in redevelopment agreements.
3. This commitment to affirmative action and nondiscrimination will ensure that all members of the protected groups are sought out to compete for all job openings and promotional opportunities.
4. Redevelopers will meet City standards for any applicable prevailing wage rate as ascertained by the Illinois Department of Labor to all project employees.

The City shall have the right in its sole discretion to exempt certain small businesses, residential property owners and developers from the above. In order to implement these principles, the City will require and promote equal employment practices and affirmative action on the part of itself and its contractors and vendors. In particular, parties engaged by the City will be required to agree to the principles set forth in this section.

G. Amending the Redevelopment Plan

This Plan may be amended in accordance with the provisions of the Act.

H. Conformity of the Plan for the Area To Land Uses Approved by the Planning Commission of the City

This Plan and the Project described herein include the generalized land uses set forth on the Generalized Land Use Plan, as approved by the Chicago Plan Commission prior to the adoption of the Plan by the City of Chicago.

I. City Policies

1. The City may incur redevelopment project costs which are paid for from funds of the City other than incremental taxes and the City may then be reimbursed for such costs from incremental taxes.
2. The City requires that developers who receive TIF assistance for market rate housing set aside 20% of the units to meet affordability criteria established by the City's Department of Housing. Generally, this means the affordable for-sale units should be priced at a level that is affordable to persons earning no more than 120% of the area median income, and affordable rental units should be affordable to persons earning no more than 80% of the area median income.
3. The City may enter into redevelopment agreements or intergovernmental agreements with private entities or public entities to construct, rehabilitate, renovate or restore private or public improvements on one or several parcels (collectively referred to as "Redevelopment Projects").
4. The City will pursue their overall goal of employment of residents within and surrounding the Area in jobs in the Area and in adjacent redevelopment project areas. In this regard, the following objectives are established to meet the goals of the Plan and Project:
 - i. Establish job readiness and job training programs to provide residents within and surrounding the Area with the skills necessary to secure entry level and permanent jobs in the Area and in adjoining Areas.
 - ii. Secure commitments from employers in the Area and adjacent Areas to interview graduates of the Area's job readiness and job training programs.

The above includes taking appropriate actions to work with Area employers, local community organizations, and residents to provide job readiness and job training programs that meet employers hiring needs.

Eligibility Study.

I. Introduction

PGAV Urban Consulting (the "Consultant") has been retained by the City of Chicago (the "City") to prepare a Tax Increment Redevelopment Plan for the proposed redevelopment project area known as the 47th/Ashland Redevelopment Area (the "Area"). Prior to preparation of the Redevelopment Plan, the Consultant undertook various surveys and investigations of the Area to determine whether the Area qualifies for designation as a tax increment financing district, pursuant to the Illinois Tax Increment Allocation Redevelopment Act, 65 ILCS 5/11-74.4-1 et seq., as amended ("Act").

This report summarizes the analyses and findings of the Consultant's work, which is the responsibility of the Consultant. This assignment is the responsibility of PGAV Urban Consulting who has prepared this Eligibility Study with the understanding that the City would rely: 1) on the findings and conclusions of this Eligibility Study in proceeding with the designation of the Area as a redevelopment project area under the Act, and 2) on the fact that PGAV Urban Consulting has obtained the necessary information to conclude that the Area can be designated as a redevelopment project area in compliance with the Act.

Following this introduction, Section II presents background information of the Area including the geographic location, description of current conditions and area data; Section III documents the building condition assessment and qualifications of the Area as a conservation area under the Act. Section IV, Summary and Conclusions, documents the findings of the Eligibility Study.

This Eligibility Study is a part of the overall tax increment redevelopment plan (the "Plan") for the Area. Other portions of the Plan contain information and documentation as required by the Act for a redevelopment plan.

IL BACKGROUND INFORMATION

A. *Location and Size of Area*

The Area is located six miles southwest of downtown Chicago and approximately two miles west of the Dan Ryan Expressway (I-90/94). The Area contains approximately 325 acres and consists of 100 (full and partial) blocks and 1,208 tax parcels.

The Area is irregularly shaped and is adjacent or in close proximity to several existing redevelopment areas located to the north and east (see Exhibit I, Adjacent Redevelopment Areas Map in Attachment Two of the Appendix of the Plan). The core of the Area generally follows three corridors along Ashland Avenue, 47th and 51st Streets. On the north, along Ashland Avenue, the Area begins at a railroad right-of-way north of 42nd Street and continues southward to 53rd Street. Along 47th Street the Area begins at Racine Avenue on the east and continues westward to a railroad right-of-way west of Hoyne Avenue. Along 51st Street the Area begins at Loomis Boulevard on the east and continues west to the alley west of Damen Avenue. In addition, the Area includes several pockets that extend off of the main spines formed by Ashland Avenue, 47th and 51st Streets.

The boundaries of the Area are described in the Plan, Appendix, Attachment Three - Legal Description and are geographically shown on Plan, Appendix, Attachment Two, Exhibit A - Boundary Map of TIF Area. The existing land uses are identified on Plan, Appendix, Attachment Two, Exhibit B - Generalized Existing Land Use Assessment Map.

B. *Description of Current Conditions*

Area Decline

Much of the Area is in need of redevelopment, rehabilitation and revitalization. Along Ashland Avenue, 47th and 51st Streets vacant buildings reflect that deteriorating, and in some instances dilapidated, conditions have resulted in numerous commercial and industrial structures being underutilized. In other sections of the Area older structures exhibit deteriorated conditions and are in need of upgrade and improvement. Several other sites in the Area contain trailer storage yards or junkyards that present a highly negative image and are incompatible with surrounding land uses. Commercial uses and streetscapes are deteriorated and in need of upgrade. Several residential pockets also exhibit deteriorated housing stock. These conditions inhibit the ability of Area properties to maintain commercial, industrial, and residential value.

Long-term (more than one year) vacancies exist in some buildings and sections of the Area are vacant and have not generated private development interest. Approximately 8% of the net land area within the Area is vacant and the presence of ap-

proximately 400,000 sq. ft. of vacant floor area add significantly to the view that the Area may experience additional evidence of blight and that market acceptance of portions of the Area is not favorable.

Assessed Value and Development Activity

Historic Equalized Assessed Values (EAVs) for the Area and the rate of growth for the City of Chicago and the Consumer Price Index (CPI) for All Urban Consumers for the period between 1995 and 2000 are shown below on Table 2-1 - Equalized Assessed Value Trends. Between 1995 and 2000 the City of Chicago EAV increased from \$30.4 billion to \$40.5 billion. The annual percent change in EAV is indicated below on Table 2-1. In 1995 the EAV of the Area was approximately \$46.8 million. In 2000 the EAV of the Area was approximately \$53.7 million. In four of the last 5 years the Area experienced rates of growth below the remainder of the City. In addition, in one of the last 5 years the EAV of the Area grew slower than the Consumer Price Index (CPI) for All Urban Consumers published by the United States Department of Labor. Further, approximately 12% of the properties in the Area are delinquent in the payment of 1999 real estate taxes and 360 violations have been issued on properties since January 1993 by the City Department of Buildings.

In addition, Between January 1996 and June 2001, the buliding department issued 282 permits. Of this total, 37 were issued for new construction, 88 were issued for demolition, 33 were issued for rehabs to existing bulidings, and 124 were issued for repairs.

¹ Consumer Price Index for All Urban Consumers (CPI-U) - Chicago-Gary-Kenosha, IL-IN-WI. United States Bureau of Labor Statistics, January 2002.

Of the 37 permits issued for new construction only 8 were issued for construction of new buildings. Of these eight permits, one permit was issued for construction of a single-family residence, five permits for commercial buildings, one permit for an industrial building, and one permit for a school building. The remaining 29 permits for new construction were issued for a variety of site improvements including; garages, fences, etc. Approximately 31% of the permits issued in the last five and one-half years were issued for demolition. Of the 668 buildings and approximately 325 acres in the Area, approximately 92% of the buildings in the Area exceed 35 years of age.

Transportation

Public Transportation

The 47th/Ashland Redevelopment Area is served by several CTA bus routes. These routes include:

- *North-South Routes*
 - Route 9: Ashland Avenue
 - Route 44: Racine/Wailace
 - Route 48: Damen
- *East-West Routes*
 - Route 43: Root Street
 - Route 47: 47th Street
 - Route 51: 51st Street

All of the east/west bus routes intersect the CTA Red Line at the Dan Ryan Expressway approximately two miles to the east. Route 47-47th Street and Route 51-51st Street also connect to the CTA Orange Line to the west. The east/west lines also provide a direct connection to the CTA Green Line further east. The north/south bus routes intersect the CTA Orange Line approximately two miles north of 47th Street at Archer Avenue. No Metra commuter stations are located in the Area. The frequent spacing of CTA bus lines and direct connection service to various CTA train station locations, provides all sections of the Area with reasonable commuter transit alternatives.

Street System

Regional - Access to the regional street system is primarily provided via the Dan Ryan South Expressway (I-90/94). The Stevenson Expressway (I-55) is located approximately two miles to the north. Access to the Dan Ryan South Expressway is provided via interchanges at 51st Street, 43rd Street, and Pershing Avenue.

Local - Arterial streets in the Area generally have one or two travel lanes in each direction and curbside parking lanes. Arterial class streets are signalized at intersections with other arterial and collector streets. Ashland Avenue and 47th Street experience significant volumes of truck traffic and vehicular traffic during all peri-

ods of the day. Access to Area industrial uses east of Ashland Avenue and north of 47th Street is gained primarily along the aforementioned streets via 43rd Street and Racine Avenue. Much of the truck traffic accessing the "Stockyards" Redevelopment Areas to the north and east also utilize these streets.

Viaducts -- Several viaducts are located along the I.H.B./G.T.W. Railroad lines that cross the southern portion of the Area. The Ashland Avenue viaduct is marked with a clearance of 14'-6" and is in need of minor repairs due to deteriorated surfaces and walls. The Justine, Laflin, and Loomis viaducts were not marked and appeared to be less than 13'-6" (the minimum standard for use by larger vehicles). All of these viaducts were dilapidated and exhibited spalling, cracked, and damaged surfaces on walls. In addition, the retaining wall that runs along the northern right-of-way line of the I.H.B./G.T.W. rail line between the Ashland Avenue viaduct and the Loomis Avenue viaduct is in need of repair. There are large cracks along the wall and the structure exhibits spalling sections of wall surface.

Internal Traffic Patterns and Parking

Several large users in the northern portion of the Area generate the majority of the industrial traffic. The "Stockyards" complex located north of 47th Street and east of Ashland Avenue generates significant amounts of truck traffic.

Arterial streets have peak-period parking restrictions, which can increase street capacity and improve efficiency. The commercial areas located along 51st Street, 47th Street, and Ashland Avenue have limited on-street parking for patrons and employees. Individual businesses along these streets have narrow street frontage and many buildings cover 100% of the lot thereby preventing any on-site parking. In addition, several sites in the northern portion of the Area are hindered by inadequate access via the existing local streets that often are also utilized for parking by adjacent businesses. In one instance vehicles were being repaired by a local vehicle repair business on Marshfield Avenue in the northern portion of the Area. Along South Packers Avenue the lack of parking for area employees creates a unsafe mix of employee vehicles and large semi-trailer trucks trying to access area industry.

Pedestrian Traffic

Pedestrian traffic in the Area is concentrated along the major arterial streets in the Area. The 47th/Ashland and 51st/Ashland intersections have the largest concentration of pedestrian traffic. Numerous street vendors were observed in these sections of the Area. The higher concentration of pedestrian traffic in these areas is associated with commuters utilizing the CTA bus lines along this route and concentrations of commercial uses. Pedestrian traffic is also associated with schools in the Area. Pedestrian traffic in the vicinity of Area schools is present during the peak periods before and after school hours.

Existing Land Use

A tabulation of land area by land use category is provided below:

Table 2-2
Tabulation of Existing Land Use

Land Use	Land Area Acres	% of Net Land Area ¹	% of Gross Land Area
Industrial	113	49%	35%
Commercial	68	29%	21%
Institutional, Public, Semi-Public	14	6%	4%
Vacant Land	19	8%	6%
Residential	19	8%	6%
Public Right-of-Way	92	N/A	28%
Total	325 Ac.	100%	100%

1. Net Land Area does not include public right-of-way.

Note: Percentage and acreage figures are approximated due to rounding.

At the present time, the existing land uses itemized in Table 2-2 are predominantly industrial in nature, as 49% of the net area (exclusive of public right-of-way) is industrial. The Area is also home to commercial uses along Ashland Avenue, 47th and 51st Streets. The section of the Area along Ashland Avenue contains predominately commercial land uses with some buildings containing upper floor residential and office uses. Commercial uses account for 29% of the net land area. There are no significant multi-tenant retail shopping centers in the Area.

Residential uses in the Area generally consist of three types of structures:

- Isolated residential structures (single-family and multi-family) located along commercial corridors;
- Upper floor residential units in commercial buildings along commercial corridors; and
- Single-family and multi-family structures located in residential neighborhoods.

There are a total of 716 inhabited residential units in the Area as determined during the field survey of area properties. As set forth in the Act, if a redevelopment plan for the Area results in the displacement of residents from 10 or more inhabited residential units, or if the Area contains 75 or more inhabited residential units and the City is unable to certify that no displacement of residents will occur, the municipality shall prepare a housing impact study and incorporate the study in the feasibility report required by subsection (a) of Section 11-74.4-5 (sic) [Section 11.74-4-4.1] of the

Act. Because 75 or more inhabited residential units are located in the Area, a housing impact study has been prepared and is included as an attachment to the Plan as Appendix, Attachment Five, Housing Impact Study.

Along the main corridors of Ashland Avenue, 47th and 51st Streets the residential uses consist of widely scattered residential structures and upper floor residential units in commercial buildings. The southern portion of the Area contains the largest concentration of residential structures along Loomis Boulevard, Justine and Laflin Avenues. 6% of the gross land area and 8% of the net land area is residential in the Area. Along the boundaries of the Area residential uses are in close proximity to the commercial corridors of 51st, 47th and 43rd Streets and Ashland Avenue. The boundary separating residential and commercial uses is often a local access road or alley. These situations often create conflicts between residential and commercial traffic and noise from industrial operations. Institutional and recreational uses such as public schools and playgrounds are also located in the Area. A more detailed description of residential uses in the Area is provided in the Housing Impact Study prepared for the 47th/Ashland Redevelopment Area Plan.

Inadequate parking is present along the commercial corridors of Ashland Avenue, 51st and 47th Streets. These older commercial corridors along major transportation routes were constructed with little off-street parking for businesses or second floor residential uses. In addition, nearly all the commercial development along these corridors backs up to densely populated residential neighborhoods. These parking arrangements cause competition for parking between residents, employees and patrons of area businesses who must park on adjacent streets to access the Area. These conditions create a negative shopping environment and can lead to property crime to vehicles and inhibit public safety and security for residents, employees and patrons that must park their vehicles on adjacent streets and walk to their destination.

Zoning Characteristics

The majority of property within the Area is zoned for manufacturing uses. Commercial and business zoning is predominant along 51st and 47th Streets and Ashland Avenue. Several pockets of residential zoning exist in the Area. These zones are primarily associated with institutional uses and the residential uses located in the southern portion of the Area (see Plan, Appendix, Attachment Two, Exhibit E, Generalized Existing Zoning Map).

Historic Structures

There are two structures in the Area listed in the Chicago Historic Resources Survey (CHRS). The Peoples Theater, 1616 W. 47th Street, is a Classical Revival building designed by Rapp and Rapp. The theater was built in 1917. The Goldblatt's Brothers Store, 4700 S. Ashland is a neighborhood department store built in the "Chicago School" style. Both of these structures would be eligible for listing on the National

Register of Historic Places but currently are not listed on the National Register. At the time of this writing, the Goldblatt's Brothers Store had recently reopened and is occupied. However, the Peoples Theater is currently vacant and dilapidated. In addition, several commercial building facades were identified during field investigation as being significant. These building facades are located along Ashland Avenue near the intersection of Ashland and 47th Street. However, many of these buildings and the existing streetscape are in need of repair and improvement.

Prior Redevelopment Efforts

Prior redevelopment efforts by the City, Area leaders and residents, businesses and business groups have been associated with on-going business retention efforts, education efforts and scattered street improvements in the Area. To the north and east of the Area three redevelopment areas have been established (See Exhibit I, Adjacent Redevelopment Areas Map, contained in Attachment Two of the Appendix of the Plan). These Areas are: the Stockyards Industrial-Commercial Redevelopment Area; the Stockyards Southeast Quadrant Industrial Redevelopment Area; and the Stockyards Annex Redevelopment Project Area. The establishment of these three areas has resulted in an increase in development activity north of the Area. However, these initiatives have not resulted in significant redevelopment activity in the Area and decline continues. The City has begun to implement capital improvements for street and alley repair and repaving of some streets near the Area. However, these activities have been limited to residential streets.

The City and the State of Illinois ("State") have also included much of the Area in an Enterprise Zone (See Exhibit G, Enterprise Zone Map, contained in Attachment Two of the Appendix of the Plan). As noted on the map, a significant portion of the Area (approximately 80%) is located in Enterprise Zone 2. In addition, the City and the U. S. Department of Housing and Urban Development have included a significant portion of the Area (approximately 48%) in the Federal Empowerment Zone Program (See Exhibit F, Empowerment Zone Map, contained in Attachment Two of the Appendix of the Plan).

However, these initiatives have not reversed decline throughout much of the Area. It is anticipated that in the future, the Enterprise Zone and Empowerment Zone in conjunction with components of this tax increment finance strategy, will greatly assist in addressing Area problems. Obstacles to efficient business operations for existing Area businesses and industries continue to include:

- poor street maintenance;
- limited street access to some portions of the Area;
- awkward traffic arrangements and limited parking;
- a need to improve transportation facilities and services;
- elimination of blighted conditions; and
- a need to provide improved training programs for area employees and residents.

IIL QUALIFICATION OF THE AREA

A. Illinois Tax Increment Allocation Redevelopment Act

The Act authorizes Illinois municipalities to redevelop locally designated deteriorated areas through tax increment financing. In order for an area to qualify as a tax increment financing district, it must first be designated as a blighted area, a conservation area (or a combination of the two) or an industrial park conservation area as defined at 5/11-74.4-3(a) of the Act. Based on the criteria set forth in the Act the Area was determined to qualify as a conservation area. As set forth in the Act a conservation area is:

"conservation area means any improved area within the boundaries of a redevelopment project area located within the territorial limits of the municipality in which 50% or more of the structures in the area have an age of 35 years or more. Such an area is not yet a blighted area but because of a combination of 3 or more of the following factors is detrimental to the public safety, health, morals or welfare and such an area may become a blighted area.

- (1) Dilapidation. An advanced state of disrepair or neglect of necessary repairs to the primary structural components of buildings or improvements in such a combination that a documented building condition analysis determines that major repair is required or the defects are so serious and so extensive that the buildings must be removed.*
- (2) Obsolescence. The condition or process of falling into disuse. Structures have become ill-suited for the original use.*
- (3) Deterioration. With respect to buildings, defects including, but not limited to, major defects in the secondary building components such as doors, windows, porches, gutters and downspouts, and fascia. With respect to surface improvements, that the condition of roadways, alleys, curbs, gutters, sidewalks, off-street parking, and surface storage areas evidence deterioration, including, but not limited to, surface cracking, crumbling, potholes, depressions, loose paving material, and weeds protruding through paved surfaces.*
- (4) Presence of structures below minimum code standards. All structures that do not meet the standards of zoning, subdivision, building, fire, and other governmental codes applicable to property, but not including housing and property maintenance codes.*
- (5) Illegal use of individual structures. The use of structures in violation of applicable federal, State, or local laws, exclusive of those applicable to the presence of structures below minimum code standards.*
- (6) Excessive vacancies. The presence of buildings that are unoccupied or underutilized and that represent an adverse influence on the area because of the frequency, extent, or duration of the vacancies.*
- (7) Lack of ventilation, light or sanitary facilities. The absence of adequate ventilation for light or air circulation in spaces or rooms without windows, or that require the removal of dust, odor, gas, smoke, or other noxious airborne materials. Inadequate natural light and ventilation means the absence or inadequacy of skylights or windows for interior spaces or rooms and improper window sizes and amounts by room area to window area ratios. In-*

adequate sanitary facilities refers to the absence or inadequacy of garbage storage and enclosure, bathroom facilities, hot water and kitchens, and structural inadequacies preventing ingress and egress to and from all rooms and units within a building.

- (8) *Inadequate utilities. Underground and overhead utilities such as storm sewers and storm drainage, sanitary sewers, water lines, and gas, telephone, and electrical services that are shown to be inadequate. Inadequate utilities are those that are: (i) of insufficient capacity to serve the uses in the redevelopment project area, (ii) deteriorated, antiquated, obsolete, or in disrepair, or (iii) lacking within the redevelopment project area.*
- (9) *Excessive land coverage and the overcrowding of structures and community facilities. The over-intensive use of property and the crowding of buildings and accessory facilities onto a site. Examples of problem conditions warranting the designation of an area as one exhibiting excessive land coverage are: the presence of buildings either improperly situated on parcels or located on parcels of inadequate size and shape in relation to present-day standards of development for health and safety and the presence of multiple buildings on a single parcel. For there to be a finding of excessive land coverage, these parcels must exhibit one or more of the following conditions: insufficient provision for light and air within or around buildings, increased threat of spread of fire due to the close proximity of buildings, lack of adequate or proper access to a public right-of-way, lack of reasonably required off-street parking, or inadequate provision for loading and service.*
- (10) *Deleterious land use or layout. The existence of incompatible land-use relationships, buildings occupied by inappropriate mixed-uses, or uses considered to be noxious, offensive, or unsuitable for the surrounding area.*
- (11) *Lack of community planning. The proposed redevelopment project area was developed prior to or without the benefit or guidance of a community plan. This means that the development occurred prior to the adoption by the municipality of a comprehensive or other community plan or that the plan was not followed at the time of the area's development. This factor must be documented by evidence of adverse or incompatible land-use relationships, inadequate street layout, improper subdivision, parcels of inadequate shape and size to meet contemporary development standards, or other evidence demonstrating an absence of effective community planning.*
- (12) *The area has incurred Illinois Environmental Protection Agency or United States Environmental Protection Agency remediation costs for, or a study conducted by an independent consultant recognized as having expertise in environmental remediation has determined a need for, the clean-up of hazardous waste, hazardous substances, or underground storage tanks required by State or federal law, provided that the remediation costs constitute a material impediment to the development or redevelopment project area.*
- (13) *The total equalized assessed value of the proposed redevelopment project area has declined for 3 of the last 5 calendar years for which information is available or is increasing at an annual rate that is less than the balance of the municipality for 3 of the last 5 calendar years for which information is available or is increasing at an annual rate that is less than the Consumer Price Index for All Urban Consumers published by the United States Department of Labor or successor agency for 3 of the last 5 calendar years for which information is available.*

B. Survey, Analysis and Distribution of Eligibility Factors

A parcel-by-parcel analysis of the Area was conducted to identify the presence of eligibility factors (see Conservation Factors Matrix, Table 3-1, contained on the following pages). A form similar to Table 3-1 was used to document the conditions of Area buildings and properties during field surveys. The data from the field survey was consolidated by block area for each of the factors relevant to making a finding of eligibility is present as stated in the tabulations presented in Table 3-1.

C. Evaluation Procedure

Professional senior planners and a registered architect from the staff of PGAV Urban Consulting conducted exterior surveys of observable conditions on all properties, buildings and public and private improvements located in the Area. These inspectors have been trained in TIF survey techniques and have extensive experience in similar undertakings.

The surveys examined not only the condition and use of buildings but also included surveys of streets, sidewalks, curbs, gutters, lighting, vacant land, underutilized land, parking facilities, landscaping, fences and walls, and general maintenance. In addition, an analysis was conducted on existing site coverage, parking and land uses, and their relationship to the surrounding Area. Investigators also researched historic photos and were assisted by information obtained from the City of Chicago and the Back of the Yards Neighborhood Council. The boundary and qualification of the Area was determined by the field investigations, eligibility requirements described in the Act and the needs and deficiencies of the Area.

D. Investigation and Analysis of Factors

In determining whether or not the proposed Area meets the eligibility requirements of the Act, various methods of research were used in addition to the field surveys. The data includes information assembled from the sources below:

1. Contacts with local individuals knowledgeable as to Area conditions and history, age of buildings and site improvements, methods of construction, real estate records and related items, and other information related to the Area was used. In addition, aerial photographs, Sidwell block sheets, etc. were also utilized.
2. Inspection and research as to the condition of local buildings, streets, utilities, etc.

3. On-site field inspection of the proposed Area conditions by experienced property inspectors of the Consultant and others as previously noted. Personnel of the Consultant are trained in techniques and procedures of determining conditions of properties, utilities, streets, etc. and determination of eligibility of designated areas for tax increment financing.
4. Use of accepted definitions as provided for in the Act.
5. Adherence to basic findings of need as established by the Illinois General Assembly in establishing tax increment financing which became effective on January 10, 1977. These are:
 - i. There exists in many Illinois municipalities areas that are conservation or blighted areas, within the meaning of the TIF statute.
 - ii. The eradication of blighted areas and the treatment of conservation areas by redevelopment projects are essential to the public interest.
 - iii. These findings are made on the basis that the presence of blight or conditions, which lead to blight, is detrimental to the safety, health, welfare and morals of the public.

E. Eligibility Factors

In making the determination of eligibility, each and every property or building in the Area is not required to be blighted or otherwise qualify. It is the Area as a whole that must be determined to be eligible.

The report stated below details conditions that cause the Area to qualify under the Act, as a conservation area, per surveys and research undertaken by the Consultant between May and August 2001:

Age Of Structures

Age, although not one of the 13 factors used to establish a conservation area under the Act, is used as a threshold that an area must meet in order to qualify

Age presumes the existence of problems or limiting conditions resulting from normal and continuous use of structures and exposure to the elements over a period of many years. As a rule, older buildings typically exhibit more problems than buildings constructed in later years because of longer periods of active usage (wear and tear) and the impact of time, temperature and moisture. Additionally, older buildings tend not to be ideally suited for meeting modern-day space and development standards. These typical problematic condi-

tions in older buildings can be the initial indicators that the factors used to qualify the Area may be present.

Summary of Findings Regarding Age:

The Area contains a total of 668 buildings, of which 92%, or 617 buildings are 35 years of age or older as determined by field surveys and local research. In many instances buildings are significantly older than 35 years of age and were constructed late in the 19th century or early in the 20th century. Therefore, the Area meets the threshold requirement for a conservation area in that 50% or more of the structures in the Area exceed 35 years of age.

1. Dilapidation

Dilapidation as a factor is based upon the documented presence and reasonable distribution of buildings and improvements in an advanced state of disrepair. The field survey of buildings in the Area found structures with severely leaning or bowing bearing walls and parapet walls, critical defects in primary structural components such as severely sagging roofs, damaged floor structures and foundations exhibiting major cracks or displacement. 42nd Street, 43rd Street, 49th Street, Marshfield Avenue, Bishop Street, Hoyne Avenue, and Loomis Boulevard all exhibited damaged driving surfaces. In addition, several surface parking lots, sections of fencing associated with commercial and industrial uses, sidewalks, curbs and gutters, and alleyways throughout the Area exhibited paved surfaces in need of reconstruction and site fencing that was damaged or missing.

Summary of Findings Regarding Dilapidation:

Of the 668 buildings in the Area, 150 buildings, or 22%, were found to exhibit buildings in an advanced state of disrepair. In addition, street surfaces, sidewalks, curbs and site improvements were observed to be in need of reconstruction or replacement. They are:

- *Street and sidewalk - Marshfield Avenue between 43rd Street and 42nd Street;*
- *Street and sidewalk - 42nd Street between Ashland Avenue and Marshfield Avenue;*
- *Street - Loomis between 46th Street and 45th Street;*
- *Street - Bishop Street between 47th Street and 46th Street;*
- *Street - 49th Street between Loomis Boulevard and Ashland Avenue;*
- *Street - 49th Street west of Hoyne Avenue;*
- *Street - Hoyne Avenue between 48th Street and 49th Street;*
- *Sidewalk and curb - 43rd Street between Ashland and Hermitage;*
- *Alleys - Alleyways throughout the Area are in need of repavement;*
- *Site fencing - properties along 43rd Street west of Paulina Street; and*
- *Site fencing - properties along 47th Street west of Laflin Street;*

2. Obsolescence

An obsolete building or improvement is one, which is becoming obsolete or going out of use -- not entirely disused, but gradually becoming so. Thus, obsolescence is the condition or process of falling into disuse. Obsolescence, as a factor, is based upon the documented presence and reasonable distribution of buildings and other site improvements evidencing such obsolescence. Examples include:

- a. **Functional Obsolescence:** Structures are typically built for specific uses or purposes and their design, location, height and space arrangement are each intended for a specific occupancy at a given time. Buildings are obsolete when they contain characteristics or deficiencies, which limit the use and marketability of such buildings. The characteristics may include loss in value to a property resulting from an inherent deficiency existing from poor design or layout, improper orientation of building on site, etc., which detracts from the overall usefulness or desirability of a property. Obsolescence in such buildings is typically difficult and expensive to correct.
- b. **Economic Obsolescence:** Economic obsolescence is normally a result of adverse conditions that cause some degree of market rejection, and hence, depreciation in market values. Typically, buildings classified as dilapidated and buildings that contain vacant space are characterized by problem conditions, which may not be economically curable, resulting in net rental losses and/or depreciation in market value.
- c. **Obsolete platting:** Obsolete platting would include parcels of limited or narrow size and configuration or parcels of irregular size or shape that would be difficult to develop on a planned basis and in a manner compatible with contemporary standards and requirements. Plats that created inadequate right-of-way widths for streets, alleys and other public right-of-ways or which omitted easements for public utilities, should also be considered obsolete.
- d. **Obsolete site improvements:** Site improvements, including sewer and water lines, public utility lines (gas, electric and telephone), roadways, parking areas, parking structures, sidewalks, curbs and gutters, lighting, etc., may also evidence obsolescence in terms of their relationship to contemporary development standards for such improvements. Factors of this obsolescence may include inadequate utility capacities, outdated designs, etc.

Obsolescence was observed in multiple structures. Economically obsolete buildings prominent in the Area include the vacant grocery store located at S. Bishop and 47th Street and the vacant theatre located on 47th Street. Throughout the Area the lack of on-site parking, vacant storefronts, vacant second and third floor uses and dilapidated or deteriorated building conditions indicate that many of the structures in the Area exhibit some form of obsolescence.

Summary of Findings Regarding Obsolescence:

The field survey of buildings in the Area found that certain buildings exhibit characteristics of obsolescence. Obsolete buildings comprised approximately 66% or 440 of the 668 buildings in the Area. Obsolete site improvements also exist in the Area and also include conditions caused by obsolete construction of streets. Narrow streets or driveways, irregular widths, poor or inadequate turning radii or sight lines and lack of paved surfaces on driveways and service areas exist throughout the Area. Inadequate street widths are evident on Marshfield Avenue north of 43rd Street and 42nd Street west of Ashland Avenue. During certain periods, the activities associated with several commercial and industrial uses in this portion of the Area contribute to periodic traffic congestion that limits access. During these periods, the street system in the vicinity of these operations is so congested that it represents a significant access impediment to fire, ambulance and other emergency vehicles.

3. Deterioration

Deterioration refers to physical deficiencies or disrepair in buildings or site improvements requiring treatment or repair. Conditions, which are not easily correctable in the course of normal maintenance, were classified as deteriorated. Such buildings may be classified as deteriorating or in an advanced stage of deterioration, depending upon the degree or extent of defects.

Buildings with major defects in the secondary building components (i.e., damaged doors and door frames, broken windows, window frames and mullins, porches in need of material replacement, gutters and downspouts damaged or missing, weathered fascia materials, cracks in masonry walls, spalling masonry surfaces, etc.) were observed in the Area. Many of the commercial structures located along the major streets of the Area exhibited these conditions. In addition, roadways, alleys, curbs, gutters, sidewalks, off-street parking and surface storage areas also evidenced deterioration such as; surface cracking, crumbling, potholes, depressions, loose paving materials, weeds protruding through the surface, etc. Sidewalks and curbs along Ashland Avenue, 43rd, 47th, and 49th Streets exhibited deterioration. Site fencing on many larger commercial and industrial lots was rusting and required repair to individual posts or sections of fencing. In some instances parking areas for vacant properties were being used for trailer storage. In these instances it was evident that the lots and in some cases adjacent streets were

not designed for such use and were exhibiting cracks and other deteriorated conditions as a result of heavy truck traffic.

Summary of Findings Regarding Deterioration:

Throughout the Area, deteriorating conditions were recorded on approximately 95% or 633 of the 668 buildings in the Area. The exterior field survey of main buildings in the Area found structures with major defects in the secondary structural components, including windows, doors, gutters, downspouts, porches, chimneys, fascia materials, parapet walls, etc. Deterioration of site improvements and public improvements was also observed. Therefore, deterioration was found to be present in the Area.

4. Presence of Structures Below Minimum Code Standards

Structures below minimum code standards include all structures that do not meet the standards of zoning, subdivision, State building laws and regulations. The principal purposes of such codes are to require buildings to be constructed in such a way as to sustain safety of loads expected from various types of occupancy, to be safe for occupancy against fire and similar hazards, and/or establish minimum standards essential for safe and sanitary habitation. Structures below minimum code are characterized by defects or deficiencies that presume to threaten health and safety.

Summary of Findings Regarding Presence of Structures Below Minimum Code Standards;

Considering the age of buildings in the Area, it is certain that many of the buildings are below the minimum code standards currently in force by the City of Chicago. However, in order to substantiate these conditions both interior and exterior inspections of the properties would be required. Based on clearly observable conditions evident from exterior inspection, throughout the Area, structures below minimum code were recorded in 21% or 137 of the 668 buildings in the Area. The exterior field survey of main buildings in the Area found structures not in conformance with local zoning codes and structures not safe for occupancy because of fire and similar hazards.

In addition, on several Area properties, garbage, trash, discarded tires and abandoned vehicles were observed. Trash and debris from drive-by dumping is illegal and promotes unsanitary or unhealthy conditions. Old tires can collect water and promote mosquito breeding. The presence of open air dumping of trash creates conditions that promote the presence of disease carrying insects and vermin.

5. *Illegal Use of Individual Structures*

This factor applies to the use of structures in violation of applicable national, state or local laws. Examples of illegal uses may include, but not be limited to, the following:

- a. illegal home occupations;
- b. conduct of any illegal vice activities such as gambling or drug manufacture;
- c. uses not in conformance with local zoning codes and not previously grand fathered in as legal nonconforming uses;
- d. uses involving manufacture, sale, storage or use of dangerous explosives and firearms.

Summary of Findings Regarding Illegal Use of Individual Structures:
This factor was documented in one instance in the Area with respect to structures. However, several vagrants were observed in one of the yard areas used for trailer storage. The individuals were using a semi-trailer for shelter and habitation. This condition is extremely unhealthy, unsafe and illegal.

6. *Excessive Vacancies*

Establishing the presence of this factor requires the documenting of the presence of vacant buildings which are unoccupied or underutilized and which represent an adverse influence on the Area because of the frequency, extent, or duration of such vacancies. It includes properties which evidence no apparent effort directed toward occupancy or utilization and partial vacancies.

During the field investigation of the Area a total of 130 buildings were observed to contain vacant floor space. Based on City of Chicago maps that indicate building footprints it was estimated that approximately 400,000 square feet of floor space was vacant. Based on the condition of some of the vacant floor space (boarded up windows, deteriorated interior finishes, lack of lighting, outdated signage, etc.) it is evident that much of this floor space has been vacant for an extended period of time.

Summary of Findings Regarding Excessive Vacancies:

The field investigation indicates that 136 buildings, approximately 20% of the total 668 buildings, have vacant floor space. There is approximately 400,000 sq. ft. of vacant floor space (ground floor and upper floors) in the Area. This space is primarily located in commercial buildings along the primary corridors of the Area.

7. Lack of Ventilation, Light or Sanitary Facilities

Many older structures fail to provide adequate ventilation, light or sanitary facilities. This is also a characteristic often found in illegal or improper building conversions and in commercial buildings converted to residential use. Lack of ventilation, light or sanitary facilities is presumed to adversely affect the health and building occupants (i.e., residents, employees or visitors).

Summary of Findings Regarding Lack of Ventilation, Light or Sanitary Facilities:

The exterior field survey of main buildings in the Area found structures without adequate mechanical ventilation, natural light and proper window area ratios in the Area. Structures exhibiting a lack of ventilation, light or sanitary facilities were recorded in approximately 3% or 19 of the 668 main buildings.

8. Inadequate Utilities

Inadequate utilities refers to deficiencies in the capacity or condition of utilities which service a property or area, including, but not limited to, storm drainage, water supply, electrical power, sanitary sewers, gas and electricity.

Summary of Findings Regarding Inadequate Utilities:

No evidence of this factor was documented in the Area.

9. Excessive Land Coverage and Overcrowding of Structures and Community Facilities

This factor may be documented by showing instances where building coverage is excessive. Excessive coverage refers to the over-intensive use of property and the crowding of buildings and accessory facilities onto a site. Problem conditions include buildings either improperly situated on the parcel or located on parcels of inadequate size and/or shape in relation to present-day standards of development for health and safety; and multiple buildings on a single parcel. The resulting inadequate conditions include such factors as insufficient provision for light and air, increased threat of fire due to close proximity to nearby buildings, lack of adequate or proper access to a public right-of-way, lack of required off-street parking, and inadequate provision for loading or service. Excessive land coverage has an adverse or blighting effect on nearby development because problems associated with lack of parking or loading areas impact adjoining properties.

Summary of Findings Regarding Excessive Land Coverage and Overcrowding of Structures and Community Facilities:

Structures exhibiting 100% lot coverage with party or fire walls separating one structure from the next is a historical fact of high-density urban development. This situation is common throughout the 47th/Ashland Redevelopment Area.

Numerous commercial and industrial businesses are located in structures that cover 100% of their respective lots. Other businesses are utilizing 100% of their lots for business operations. These conditions typically do not allow for off-street loading facilities for shipping operations or do not provide parking for patrons and employees. This has prompted overflow parking and truck traffic associated with normal business operations to utilize surrounding residential areas for parking and access. In some instances cars were illegally parked across sidewalks and on top of curbs along the narrow local streets that flank industrial portions of the Area. In addition, delivery trucks were observed to be blocking alleys and streets while performing normal delivery operations or accessing shipping facilities. Excessive land coverage and overcrowding of structures and community facilities was exhibited on 65% or 435 of the 668 structures in the Area.

10. Deleterious Land Use or Layout

Deleterious land uses include all instances of incompatible land-use relationships, buildings occupied by inappropriate mixed uses, or uses which may be considered noxious, offensive or environmentally unsuitable.

Summary of Findings Regarding Deleterious Land Use or Layout:

In an area such as the 47th/Ashland Redevelopment Area where its character has evolved over the years, industrial, commercial and residential uses are often in close proximity to one another. It is not unusual to find small pockets or isolated residential buildings within a predominantly industrial area or an industrial use in a residential area. Although these areas may be excepted by virtue of age and continuous occupancy as legal non-conforming uses (whose existence and use is thereby "grand fathered"), they are, nonetheless, incompatible land uses inasmuch as the character of the Area is negatively influenced by these differing uses. As noted previously, 49% of the net acreage of the Area (minus streets and public right-of-way) is used for industrial purposes and 29% is used for commercial purposes. The combination of limited on-site parking and high density industrial, commercial and residential development in close proximity causes conflicts in traffic, parking and environmental conditions that has promoted deleterious use of land in some portions of the Area. Twenty-nine instances of deleterious land use and layout were observed in the Area. Deleterious land uses and land use relationships were located within, approximately 53% or 16 of the 30 sub-areas identified on Ex-

hibit E – Sub-Area Key Map, included in Appendix, Attachment Two of the Plan

11. Lack of Community Planning

This may be counted as a factor if the Area developed prior to or without the benefit or guidance of a community plan. This means that no community plan existed, was considered inadequate, and/or was virtually ignored during the time of the area's development. Indications of a lack of community planning include:

1. Streets in the industrial and commercial areas that are too narrow to accommodate truck movements.
2. Street intersections that do not conform to modern traffic engineering standards and practices.
3. One-way street systems that exist with little regard for overall systematic traffic planning.
4. Street parking existing on streets that are too narrow to accommodate two-way traffic and street parking.
5. Viaducts that are lower than minimum height requirements creating truck clearance problems.
6. Some larger tracts of land suffer from improper platting that has led to some parcels having awkward configuration and/or unusual dimensions for their use.
7. Some properties in the Area do not enjoy good access to public streets.
8. Some pockets of residential land use and residential zoning exist that present incompatible relationships in areas with a heavy industrial environment.
9. Numerous commercial/industrial properties exist that are too small to adequately accommodate appropriate off-street parking and loading requirements.

Summary of Findings Regarding Lack of Community Planning:

The field investigation indicates that 96 instances of a lack of community planning were observed in the Area with respect to improved property. Lack of Community Planning was observed within 93% or 28 of the 30 sub-areas identified on Exhibit E – Sub-Area Key Map. In addition, conditions exist that

indicate community planning has been inadequate with respect to public improvements:

- *Along the IHB Railroad right-of-way that bisects the southern portion of the Area several viaducts are not posted with clearance heights. In most cases these viaducts do not meet the minimum clearance standards of 13' 6". Viaducts that do not meet the minimum clearance of 13' 6" are located at the Justines, Laflin, and Loomis Avenue crossings in the southern portion of the Area.*

12. Environmental Remediation Costs

If an Area has incurred Illinois Environmental Protection Agency or United States Environmental Protection Agency remediation costs for, or a study conducted by an independent consultant recognized as having expertise in environmental remediation has determined a need for, the clean-up of hazardous waste, hazardous substances, or underground storage tanks required by State or federal law, provided that the remediation costs constitute a material impediment to the development or redevelopment project area then this factor may be counted.

Summary of Findings Regarding Environmental Remediation Costs: Investigation did not indicate the presence of this factor.

13. Declining or Lagging Rate of Growth of Total Equalized Assessed Valuation

If the total equalized assessed value of the proposed redevelopment project area has declined for 3 of the last 5 calendar years for which information is available or is increasing at an annual rate that is less than the balance of the municipality for 3 of the last 5 calendar years for which information is available or is increasing at an annual rate that is less than the Consumer Price Index for All Urban Consumers published by the United States Department of Labor or successor agency for 3 of the last 5 calendar years for which information is available then this factor may be counted.

Summary of Findings Regarding Declining or Lagging Rate of Growth of Total Equalized Assessed Valuation:

Investigation of historic EAV indicated the presence of this factor. The EAV of the Area has grown slower than the balance of the City of Chicago in 4 of the last 5 calendar years. In addition, the EAV of the Area has grown slower than the Consumer Price Index (CPI) for All Urban Consumers in 1 of the last 5 calendar years.

F. Conclusion of Investigation of Eligibility Factors for the Redevelopment Project Area

Vacancies, deteriorated, dilapidated and obsolete structures and site improvements are evidence of the declining conditions in the Area. These conditions also underscore the lack of private investment and rejection of the Area by the private market.

The City and the State of Illinois have designated 80% of the Area as a State of Illinois Enterprise Zone (Zone No. 2) and 48% of the Area as a Federal Empowerment Zone. In addition, a portion of the Area is also included in one of the 22 industrial corridors (Stockyards) identified in a previously prepared study by the City ("A Plan For Industry in Chicago's South Side"). These designations are in further response to the deteriorating conditions in the area, recognition of the significant needs, and realization that financial incentives are required to attract private investment to this section of the City.

The tax increment program and redevelopment plan include measures designed to reduce or eliminate the deficiencies which cause the Area to qualify as a conservation area consistent with the strategy of the City of Chicago for revitalizing other designated redevelopment areas and industrial corridors. As documented in this investigation and analysis it is clear that the Area is impacted by a number of eligibility factors. The presence of these factors qualifies the Area as a conservation area.

IV. SUMMARY AND CONCLUSIONS

The conclusions of PGAV Urban Consulting is that the number, degree and distribution of eligibility factors in the Area as documented in this Eligibility Study warrant the designation of the Area as a conservation area as set forth in the Act. Below is a summary table highlighting the factors found to exist in the Area which cause it to qualify as a conservation area.

A. Conservation Area Statutory Factors

FACTOR ¹		EXISTING IN AREA ²
	Age ³	92% of bldgs. exceed 35 years of age.
1	Dilapidation	Minor Extent
2	Obsolescence	Major Extent
3	Deterioration	Major Extent
4	Illegal use of individual structures	Minor Extent
5	Presence of structures below minimum code standards	Minor Extent
6	Excessive vacancies	Minor Extent
7	Lack of ventilation, light or sanitary facilities	Minor Extent
8	Inadequate utilities	Not Present
9	Excessive land coverage	Major Extent
10	Deleterious land use or layout	Major Extent
11	Environmental clean-up	Not Present
12	Lack of Community Planning	Major Extent
13	Declining or sub-par EAV growth	Present

Notes:

- 1 Only three factors are required by the Act for eligibility. Eleven factors are present in the Area.
- 2 Factors found to exist on more than 50% of the structures or sub-areas in the Area were identified as being found to a major extent. Factors found to exist on less than 50% of the structures or sub-areas in the Area were identified as being found to a minor extent. Five factors were found to exist to a major extent, five were found to exist to a minor extent, and declining or sub-par EAV growth for the entire Area was present.
- 3 Age, although not a blighting factor for designation, is a threshold that must be met before an Area can qualify as a Conservation Area.

Although it may be concluded that the mere presence of the stated eligibility factors noted above may be sufficient to make a finding of qualification as a conservation area, this evaluation was made on the basis that the factors must be present to an extent that would lead reasonable persons to conclude that public intervention is appropriate or necessary. From the data presented in this report it is clear that the eligibility factors are reasonably distributed throughout the Area.

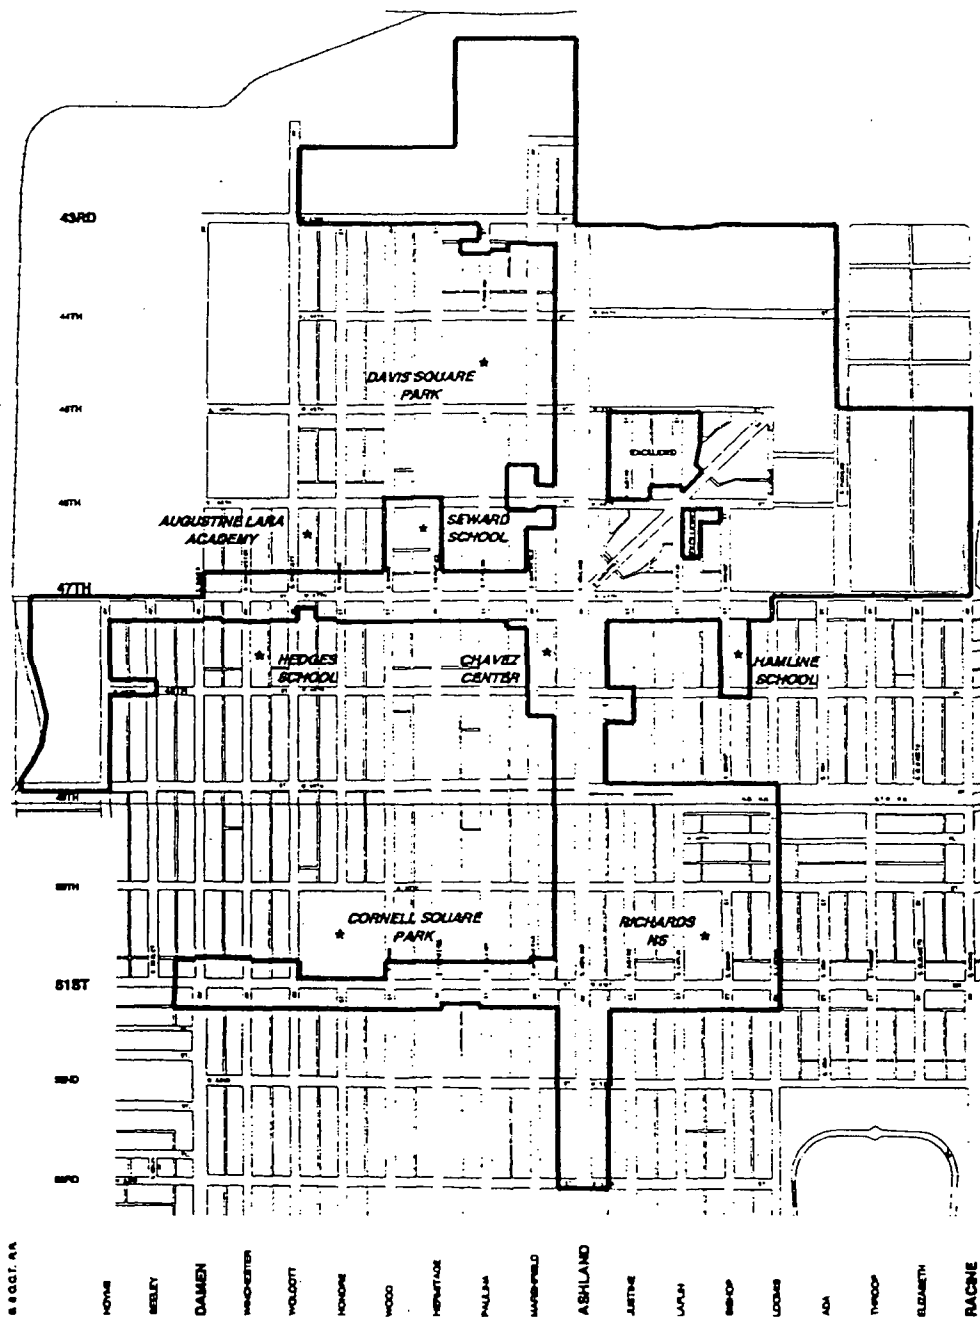

The Area on the whole has not been subject to growth and investment by private enterprise and is not expected to do so without the adoption of the Plan. Few new buildings have been built in the recent past and 20% of the buildings in the Area contain vacancy of floor space. Age and the requirements of contemporary commercial and industrial tenants have caused portions of the Area and its building stock to become obsolete and may result in further disinvestments that will not be overcome without action by the City. These conditions have been previously documented in this report.

The conclusions presented in this Eligibility Study are those of the Consultant. The local governing body should review this Eligibility Study and, if satisfied with the summary of findings contained herein, adopt a resolution making a finding of a conservation area and making this Eligibility Study a part of the public record.

The analysis contained herein was based upon data assembled by PGAV Urban Consulting. The study and survey of the Area indicate that requirements necessary for designation as a conservation area are present. Therefore, the Area qualifies as a conservation area to be designated as a redevelopment project area and eligible for Tax Increment Financing under the Act.

Housing Impact Study.

I. Introduction

The purpose of this study is to conduct a housing impact study (Study) for the 47th/Ashland Redevelopment Project Area (Area) pursuant to the Illinois Tax Increment Allocation Redevelopment Act, 65 ILCS 5/11-74.4-1 et seq., as amended ("the Act"). All of the approximately 100-block Area is located in the New City Community Area of the City of Chicago (City) and is located six miles southwest of downtown Chicago and approximately two miles west of the Dan Ryan Expressway. The Area contains approximately 325 acres.

As set forth in the Act, if a redevelopment plan for the Area results in the displacement of residents from 10 or more inhabited residential units, or if the Area contains 75 or more inhabited residential units and the City is unable to certify that no displacement of residents will occur, the municipality shall prepare a housing impact study and incorporate the study in the feasibility report required by subsection (a) of Section 11-74.4-5 (sic) [Section 11.74-4-4.1], which for the purposes herein shall also be the "47th/Ashland Tax Increment Financing Redevelopment Plan and Project" ("the Plan").

Because the Area includes more than 75 residential units whose occupants may be displaced as a result of the Plan, information regarding the potential impact on such residents and residential units is being provided in this Housing Impact Study. Included in the Plan as Appendix, Attachment Two, are Exhibit C, Generalized Land Use Plan, Exhibit H-1, Land Acquisition Overview Map, Exhibit H-2, Land Acquisition By Block And Parcel Identification Number and Attachment Four – 2000 Estimated EAV By Tax Parcel. These exhibits and attachment indicate the parcels of real property on which there are buildings containing residential units that *may* be removed and that, to the extent those units are inhabited, the residents thereof may be displaced. The number and type of residential buildings in the Area potentially affected by the Plan were identified during the building condition and land use survey conducted as part of the Eligibility Study included in the Plan as Appendix, Attachment One, for the Area. A good faith estimate and determination of the number of residential units and rooms within each such building and whether such residential units were inhabited were based on a number of research and analytical tools including, where appropriate, physical building surveys, data received from building owners and managers, Cook County tax assessment records and census data.

As of August 2001, the Area contained 716 inhabited residential units. The residential units are a combination of single-family and multi-family units. The majority of single-family units are located in the southern portion of the Area and are not subject to acquisition or subject to displacement as a result of the Plan. Because the focus of the Area is principally on commercial and industrial uses, many of the multi-family units are located on the upper floors of buildings with commercial uses at the ground level. Because the Plan is intended to foster economic development activities which may result in the acquisition, renovation, and or demolition of property, which may include residential units, the housing impact study is being prepared under the assumption that more than 10 occupied residential units may be displaced. However, it should be noted that at this time no proposals for the removal of such units has been presented.

As set forth in the Act:

Part I of the housing impact study shall include:

- (i) data as to whether the residential units are single-family or multi-family units;
- (ii) the number and type of rooms within the units, if that information is available;
- (iii) whether the units are inhabited or uninhabited, as determined not less than 45 days before the date that the ordinance or resolution required by subsection (a) of Section 11-74.4-5 of the Act is passed; and
- (iv) data as to the racial and ethnic composition of the residents in the inhabited residential units, which data requirement shall be deemed to be fully satisfied if based on data from the most recent federal census.

Part II of the housing impact study identifies the inhabited residential units in the proposed redevelopment project are that are to be or may be removed. If inhabited residential units are to be removed, then the housing impact study shall identify:

- (i) the number and location of those units that will or may be removed;
- (ii) the municipality's plans for relocation assistance for those residents in the proposed redevelopment project area whose residences are to be removed;
- (iii) the availability of replacement housing for those residents whose residences are to be removed, and identify the type, location, and cost of the replacement housing; and
- (iv) the type and extent of relocation assistance to be provided.

II. Housing Impact Study - Part I

A. Number and Type of Residential Units

The Area contains 79 single-family residential buildings, 171 multi-family buildings (buildings with 2 or more units) containing a total of 422 residential units, and 159 mixed-use buildings (buildings that are primarily used for commercial purposes but also contain residential units) containing a total of 327 residential units. Table H-1 below inchoates the number and type of residential units and a breakdown by type of the number of units that were inhabited as of August 31, 2001.

Multi-Family	13	409	422

Total	112	716	828

B. Number and Type of Rooms Within Units

Detailed information on housing characteristics is not yet available from the 2000 Census. However, the 1990 Census is still a good source for estimating the number of rooms and bedrooms contained within residential units located in the Area since the majority of the Area is developed and ilimited new construction has occurred. Table H-2 on the foollowing page provides room dltribution information for the foollowing geographic entities:

- Census Tract 6112 is one of 22 Census Tracts in the New City Community Area. This Census Tract is bounded by 47th Street on the north, Ashland on the west , Loomis on the east , and 51st Street on the south. As shown on Plan, Appendix, Attachment Two, Exhibit B – Generalized Existing Land Use Assessment Map, most of the residential units in the Area fail within this Census Tract.
- The New City Community Area is generally bound by Pershing Road on the north, Western on the West, Stewart on the east, and Garfield Boulevard (55th Street) on the south. The 47th/Ashland Area is located within the New City Community Area.

The boundaries of the New City Community Area and Census Tract 6112 are shown on **Map H1, Community Area and Census Tract Boundary Map** located in the **Appendix** of this Study.

Census Tract 6112 had 1,055 housing units in 1990. 51% of these units contained four or five rooms. Another 23% of the units contained six rooms, and 10% had seven or more rooms.

An analysis of the number of bedrooms per unit in Census Tract 6112 confirms that there is a sizable inventory of larger units. Overall, 35% of the units had three bedrooms, and an additional 11% had four or more bedrooms, as shown on Table H-2 below.

C. *Number of Inhabited Units*

As of August 31, 2001, the Area contained 76 occupied single-family units, 409 occupied multi-family units, and 231 occupied mixed-use units. There are a total of 716 inhabited residential units in the Area. The distribution of inhabited residential units is indicated in Table H-1 above. The survey of residential units was concluded on August 31, 2001 and is a date not less than 45 days prior to the date that the resolution required by subsection (a) of Section 11-74.4-5 of the Act was or will be passed (the resolution setting the public hearing and Joint Review Board meeting dates).

D. *Race and Ethnicity of Residents*

Table H-3 presented on the following page presents selected 1990 Census data on population and housing characteristics. For comparison purposes, data for the New City Community Area and the City of Chicago are included along with information for Census Tract 6112

As of the 1990 Census, the population of the New City Community Area was 32% White and 42% Black. Hispanics comprised 38% of the population in the Area. Census Tract 6112 has a lower percentage of Blacks (19%) and more Hispanics (63%) than that of the New City Community Area. The retail uses along Ashland Avenue near 47th Street appear to cater to a predominantly Hispanic clientele.

Select Demographic Data from the 2000 Census is now available. As shown in Table H-3A (page 2-5), the population of the New City Community Area dropped by 2.8% during the past decade, while the number of Hispanic residents increased by 5,552 persons. Despite the slight population loss, the number of renter households in the Community Area remained virtually unchanged. Within Census Tract 6112, the population increased by 4.0% despite a loss of housing units during the decade.

III. Housing Impact Study - Part 2

A. Number and Location of Units That Could Potentially be Removed

One of the primary goals of the Plan is to encourage maintenance, restoration and reuse of existing structures, to the maximum extent feasible. The establishment of the Area is intended to foster growth in existing communities. Although the Plan does not anticipate the removal of large numbers of residential units, the Area does contain a number of dilapidated buildings that contain residential uses. Dilapidation can gravely affect a buildings safety and desirability and is the most sever of blighting factors. Accordingly, it is reasonable to conclude that dilapidated buildings may be targeted for redevelopment by developers, which may result in the removal of inhabited residential units.

Since no development proposals for the Area have been submitted to the City, it is impossible to determine whether the redevelopment or demolition of these buildings and the removal of any of their inhabited residential units would stem from projects that receive tax increment assistance (or other public projects that are implemented in furtherance of this Plan).

Hence, there is a possibility that over the 23-year life of the Area, some inhabited residential units may be removed as a result of implementing the Plan. In order to meet the statutory requirement of defining the number and location of inhabited residential units that may be removed, a methodology was derived that would provide a reasonable estimate. The methodology used to fulfill the statutory requirements of defining the number and location of inhabited residential units that may be removed involved three steps.

- i. Step one counted all inhabited residential units previously identified on any underlying acquisition maps and Exhibit H-1, Land Acquisition Overview Map and Exhibit H-2, Land Acquisition By Block And Parcel Identification Number of the Plan. No previous underlying acquisition map exists. The majority of the parcels identified for acquisition were vacant lots or vacant buildings. Therefore, the number of inhabited residential units that may be removed in this step is 2.
- ii. Step two counted the number of inhabited residential units contained on parcels that are dilapidated as defined by the Act. From field surveys conducted in preparation of the Plan, the parcels identified which: 1) dilapidation is present so that, within 23 years, existing structures may be demolished or rehabilitated, and therefore may result in the removal of inhabited residential units; and 2) there also exists six or more eligibility factors in addition to age and dilapidation (representing the highest number of eligibility factors on blocks in the Area). Therefore, the number of inhabited residential units that may be removed in this step is 23.

Replacement Rental Housing. A recent comprehensive study of the rental housing market in the Chicago metropolitan area concluded that, overall, there is a limited supply of quality affordable housing in the city and suburbs. For *Rent: Housing Options in the Chicago Region*, published by the Metropolitan Planning Council (MPC), includes a current estimate of the number and types of rental units on the South Side of the City, which they define to include the area south and east of the Chicago Sanitary and Ship Canal. According to the study, the South Side of Chicago has a total of 239,500 rental units, 93.7% of which were occupied. Table H-4 provided below provides information on this South Side inventory by unit type. The data are also broken out for small buildings, those that contain between two and nine units. Most of the rental inventory in the 47th/Ashland Redevelopment Area would fall in the category of small buildings.

The following conclusions can be drawn from the MPC study:

- The average monthly rent for all South Side apartments is \$619 per month. The rent is lower (\$558) for units in small buildings.
- The market is extremely tight for one- and two-bedroom units in small buildings, with vacancy rates of 1.6% and 4.4%, respectively.
- The vacancy rates for all buildings are slightly higher, although the rates for one- and two-bedroom units are both below 6%, the threshold set by the U.S. Department of Housing and Urban Development (HUD) for a tight market.

Within the 47th/Ashland Redevelopment Area, the rental market is extremely tight, fueled by strong demand from new immigrants and comparatively low rents. Frequently, rental units in a building are leased to relatives or friends of the building owner and are not advertised.

To get a snapshot picture of the available apartments within this general area, Goodman Williams Group examined advertisements that appeared in the Thursday, July 5, 2001 edition of the *Chicago Sun-Times*. On that day, 205 apartments were advertised in the South and Southwest sectors of the city. Most of those were located in communities further south and east of 47th/Ashland.

Of that total, eleven available apartments were either in, or close to, the New City Community Area (all are located south of 51st Street). The locations of these apartments are listed on the following page as Table H-5 and identified by number on Map H2, Replacement Rental Housing Map contained in the Appendix of this Study.

Rents for the advertised apartments ranged from \$400 for a one-bedroom apartment to \$1,400 for a six-bedroom house. The average rent for the five one-bedroom apartments included in this group was \$516. The average rent for the five two-bedroom apartments is \$575, with most, but not all, of the units including heat in the rent.

As mentioned previously, the current market for replacement apartments within the 47th/Ashland Area is tight. A projection as to the number of apartments that will ultimately be required cannot accurately be made until such time that a developer comes forward with a proposal to redevelop a specific portion of the Area. Because specific proposals will likely be presented to the City throughout the life of the 47th/Ashland Redevelopment Area the changing nature of the housing market will likely result in different conditions than presented herein with respect to the availability of replacement housing. In addition, redevelopment projects within the Area may result in new housing units that are not currently counted in the housing inventory of the Area. At the time when specific redevelopment projects for the Area are presented, all provisions regarding relocation, availability, and affordable housing should be considered and detailed. The City should also encourage, where appropriate, redevelopment projects that include residential units within the Area.

Replacement For-Sale Housing. As is the case with rental housing, for-sale housing in the New City Community Area is relatively affordable. Table H-6 provided on the following page compares prices for homes sold by Realtors in the New City Community Area with comparable citywide figures. The median price of a single-family detached house in New City was \$39,000 in 2000 as compared to \$139,000 for the city as a whole. Multifamily units (condos and townhouses) are more expensive because they tend to be newer structures. The median price in New City in 2000 was \$71,500 as compared with \$182,000 citywide.

These data from the Chicago Association of Realtors also suggest that the New City Community Area has a reasonably active housing market, with 74 homes being sold by Realtors during 2000.

Another measure of the availability of replacement for-sale housing is the number of current listings. Table H-7 provided on the following page presents information from the *Chicago Tribune* and Realtor.com on 37 homes that were listed as available for purchase during the month of July 2001. Prices ranged from \$19,900 to \$159,900 with a median price of \$75,000. Most of the units had three or four bedrooms. The locations of these homes are further identified by number on Map H3, Replacement For-Sale Housing Map contained in the Appendix of this Study.

D. Relocation Assistance

In the event that the implementation of the Plan results in the removal of residential housing units in the Area occupied by low-income households or very low-income households, or the permanent displacement of low-income households or very low-income households from such residential housing units, such households shall be provided affordable housing and relocation assistance not less than that which would be provided under the federal Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 and the regulations thereunder, including the eligibility criteria. The City shall make a good faith effort to ensure that affordable replacement housing for the aforementioned households is located in or near the Area.

As used in the above paragraph, "low-income households," "very low-income households" and "affordable housing" have the meanings set forth in Section 3 of the Illinois Affordable Housing Act, 310 ILCS 65/3. As of the date of this report, these statutory terms have the following meaning: (i) "low-income households" means a single person, family or unrelated persons living together whose adjusted income is more than 50 percent but less than 80 percent of the median income of the area of residence, adjusted for family size, as such adjusted income and median income are determined from time to time by the United States Department of Housing and Urban Development (HUD) for purposes of Section 8 of the United States Housing Act of 1937; (ii) "very low-income household" means a single person, family or unrelated persons living together whose adjusted income is not more than 50 percent of the median income of the area of residence, adjusted for family size, as so determined by HUD; and (iii) "affordable housing" means residential housing that, so long as the same is occupied by low-income households or very low-income households, requires payment of monthly housing costs, including utilities other than telephone, of no more than 30 percent of the maximum allowable income for such households, as applicable.

Incorporation Of Recitals.

The recitals set forth above are incorporated herein by reference and made a part hereof.

*Article Two.**The Projects.*

1. The plans and specifications for the Projects shall: (a) at a minimum meet the general requirements for the Facilities as set forth in the applicable portions of (Sub)Exhibit A hereof, (b) be provided to the City by the Board, and (c) be approved by the City in the City's discretion. The Board shall comply with all applicable federal, state and local laws, statutes, ordinances, rules, regulations, codes and executive orders, as well as all policies, programs and procedures of the Board, all as may be in effect from time to time, pertaining to or affecting the Projects or the Board as related thereto. The Board shall include a certification of such compliance with each request for City Funds hereunder and at the time each Project is completed. The City shall be entitled to rely on this certification without further inquiry. Upon the City's request, the Board shall provide evidence satisfactory to the City of such compliance.

2. In all contracts relating to the Projects, the Board agrees to require the contractor to name the City as an additional insured on insurance coverages and to require the contractor to indemnify the City from all claims, damages, demands, losses, suits, actions, judgments and expenses including but not limited to attorney's fees arising out of or resulting from work on the applicable Projects by the contractor or the contractor's suppliers, employees, or agents.

3. [Intentionally omitted]

4. The Board covenants to the City that it shall complete the Projects; provided, however, the Board shall not be considered in breach of or in default of its obligation to complete the Projects in the event of any delay caused by damage or destruction by fire or other casualty, strike, shortage of material, unusually adverse weather conditions such as, by way of illustration and not limitation, severe rain storms or below freezing temperatures of abnormal degree or for an abnormal duration, tornadoes or cyclones, and other events or conditions beyond the reasonable control of the Board which in fact interferes with the ability of the Board to discharge its obligation to complete the Projects. With respect to any such delay the Board shall, upon the occurrence of the event causing such delay, immediately give written notice to the City. The Board may rely on this section only to the extent of the actual number of days of delay effected by any such events described above.

5. The Board certifies, represents and warrants to the City that: (a) legal title to each of the Properties and applicable Facilities is or will be held by either the City in trust for the use of schools or the Public Building Commission of Chicago, an Illinois municipal corporation (the "Commission") for the benefit of the Board; and (b) no consents or approvals by or from any other party (other than those, which have already been obtained or will be obtained) are required for each of the Projects. The submission of each Requisition Form for a Project shall be deemed to constitute a reaffirmation, with respect to each such Project, that: (a) legal title to the Property and applicable Facility is or will be held by either the City in trust for the use

of schools or the Commission for the benefit of the Board; and (b) no consents or approvals by or from any other party (other than those which have already been obtained or will be obtained) are required for the Project.

6. The Board has previously provided the City with deeds, title reports, leases and/or other evidence of ownership, title, possession or control supporting the certifications, representations and warranties contained in Article Two, Section 5(a-b) with respect to each Project (provided, however, that the City's receipt of such documentation shall not be construed to be an approval thereof by the City or a waiver by the City of the City's right to rely on the certification, representation and warranty contained in Article Two, Section 5(a-b)).

Article Three.

Funding.

1. (a) With respect to each Project, on a monthly basis (or at such other intervals as the City may agree to), the Board shall provide the City's Department of Housing and Economic Development (the "Department") with a Requisition Form, in the form of (Sub)Exhibit D hereto, along with: (i) a cost itemization of the applicable portions of the Project budget attached as Exhibit B hereto ("Project Budget"); (ii) evidence of the expenditures upon TIF-Funded Improvements which the Board has paid or incurred; and (iii) all other documentation described in (Sub)Exhibit D. The City will make the applicable requested disbursement of City Funds to the Board (or to such other party as the Board may request in writing). The availability of the City Funds is subject to the City's compliance with all applicable requirements regarding the use of such funds and the timing of such use.

(b) [Intentionally omitted]

(c) Delivery by the Board of a Requisition Form hereunder shall, in addition to the items therein expressly set forth, constitute a certification, representation and warranty to the City, as of the date of such Requisition Form, that:

(i) the total amount of the City Funds requested represents the actual amount paid or to be paid to the general contractor, subcontractors, and other parties who have performed work on or otherwise provided goods or services in connection with the Project, and/or their payees;

(ii) all amounts shown as previous payments on the Requisition Form (if any) have been paid to the parties entitled to such payment;

(iii) the Board has approved all work and materials for the Requisition Form, and such work and materials conform to the plans and specifications for the Project; and

(iv) the Board is in compliance with all applicable federal, state and local laws, statutes, ordinances, rules, regulations, codes and executive orders, as well as all policies, programs and procedures of the Board, all as may be in effect from time to time, pertaining to or affecting the Project or the Board as related thereto.

The City shall have the right, in its discretion, to require the Board to submit further documentation as the City may require in order to verify that the matters certified to above are true and correct; provided, however, that nothing in this sentence shall be deemed to prevent the City from relying on such certifications by the Board.

(d) [Intentionally omitted]

(e) [Intentionally omitted]

(f) The Board shall, at the request of the City, agree to any reasonable amendments to this Agreement that are necessary or desirable in order for the City to issue (in its sole discretion) any bonds in connection with any Redevelopment Area, the proceeds of which may be used to reimburse the City for expenditures made in connection with, or provide a source of funds for the payment for, the TIF-Funded Improvements or for any other purpose ("TIF Bonds"); provided, however, that any such amendments shall not reduce the amount of City Funds for a Project or otherwise have a material adverse effect on the Board or the applicable Project. The Board shall, at the Board's expense, cooperate and provide reasonable assistance in connection with the marketing of any such TIF Bonds, including but not limited to providing written descriptions of the applicable Project, making representations, providing information regarding its financial condition and assisting the City in preparing an offering statement with respect thereto. The City may, in its sole discretion, use all or a portion of the proceeds of such TIF Bonds if issued to pay for all or a portion of the TIF-Funded Improvements.

2. The estimated cost of each Project is set forth on the applicable portion of (Sub)Exhibit A hereto. The Board has delivered to the Commissioner a detailed preliminary budget attached hereto and incorporated herein as (Sub)Exhibit B. The Board shall deliver to the City an amended budget (if necessary) in connection with each Requisition Form and a final budget (upon Project completion) for each Project, and when approved by the City in writing such amended (if any) and final budgets shall also be attached hereto and incorporated herein as (Sub)Exhibit B. The budget shall identify the sources of and uses for all funds for a Project. The Board certifies that it has identified sources of funds (including the City Funds) sufficient to complete each Project. The Board agrees that the City will only contribute the City Funds to each Project and that all costs of completing each Project over the City Funds (if any) shall be the sole responsibility of the Board. If the Board at any time does not have sufficient funds to complete a Project; the Board shall so notify the City in writing, and the Board may reduce the scope of such Project as agreed with the City in order to complete such Project with the available funds.

3. "TIF-Funded Improvements" shall mean the capital improvements; land assembly costs; relocation costs; rehabilitation, remodeling, renovation and reconstruction costs; financing costs and other costs, if any, recognized and approved in writing by the City as being eligible redevelopment project costs under the Act with respect to each Project, to be paid for out of City Funds. Attached as (Sub)Exhibit C and incorporated herein is a preliminary list of TIF-Funded Improvements. The Board shall deliver to the City an amended list of TIF-Funded Improvements (if necessary) in connection with each Requisition Form and a final list of TIF-Funded Improvements (upon Project completion), and when approved by the City in writing such amended (if any) and final lists of TIF-Funded Improvements shall also be attached hereto and incorporated herein as (Sub)Exhibit C. To the extent the TIF-Funded Improvements are included as taxing district capital costs under the Act, the Board acknowledges that the TIF-Funded Improvements are costs for capital improvements and the City acknowledges it has determined that these TIF-Funded Improvements are necessary and directly result from the applicable Redevelopment Plans. During the course of a Project, the Commissioner, based upon the detailed Project Budget attached as (Sub)Exhibit B and any necessary modifications thereto, shall make or approve such modifications to (Sub)Exhibit C as he or she wishes in his or her discretion to account for all of the City Funds to be expended under this Agreement; provided, however, that all TIF-Funded Improvements shall (i) qualify as redevelopment project costs under the Act; (ii) qualify as eligible costs under the applicable Redevelopment Plan; and (iii) be improvements or costs that the Commissioner has agreed to pay for out of City Funds, subject to the terms of this Agreement. The Board acknowledges the terms of the Redevelopment Plans.

4. If the aggregate cost of a Project is less than the amount of the City Funds contemplated by this Agreement, the Board shall have no claim to the difference between the amount of the City Funds contemplated by this Agreement and the amount of the City Funds actually paid by the City to the Board and expended by the Board on such Project (the "Excess City Funds"); provided, however, that the foregoing shall not be construed to preclude the Board from requesting all or some of the Excess City Funds from the City to finance other costs incurred by the Board in the applicable Redevelopment Area, subject to the Act, the Redevelopment Plan, and the City's approval (in the City's sole discretion).

5. The Board shall provide to the City quarterly reports on the progress and status of the Projects and the Program and reasonable access to its books and records relating to the Projects and the Program.

6. During the Term hereof the Board shall not sell, transfer, convey, lease or otherwise dispose (or cause or permit the sale, transfer, conveyance, lease or other disposal) of all or any portion of (a) any Property or any interest therein, or (b) any Facility or any interest therein (each a "Transfer"), or otherwise effect or consent to a Transfer, without the prior written consent of the City. The City's consent to any Transfer may, in the City's sole discretion, be conditioned upon (among other things) whether such a Transfer would conflict with the statutory basis for the grant of the City Funds hereunder pursuant to the Act. Nothing contained in this Article Three, Section 6 shall be construed as prohibiting the Commission from holding title to any Property or Facility for the benefit of the Board as may be permitted or required by law or the City from holding title to any Property or Facility in trust for the use of schools as may be permitted or required by law.

Article Four.

Term.

The Term of the Agreement shall commence as of the Agreement Date and shall expire, with respect to each Project, as of the date on which the applicable Redevelopment Project Area is no longer in effect (the "Redevelopment Area Termination Date", as indicated for each Project and applicable Redevelopment Area in the applicable portion of (Sub)Exhibit A hereto).

Article Five.

Indemnity; Default.

1. The Board agrees to indemnify, defend and hold the City, its officers, officials, members, employees and agents harmless from and against any losses, costs, damages, liabilities, claims, suits, actions, causes of action and expenses (including, without limitation, reasonable attorneys' fees and court costs) suffered or incurred by the City arising from or in connection with (i) the Board's failure to comply with any of the terms, covenants and conditions contained within this Agreement, or (ii) the Board's or any contractor's failure to pay general contractors, subcontractors or materialmen in connection with any Project.

2. The failure of the Board to perform, keep or observe any of the covenants, conditions, promises, agreements or obligations of the Board with respect to a Project under this Agreement or any related agreement shall constitute an "Event of Default" by the Board hereunder. Upon the occurrence of an Event of Default, the City may terminate this Agreement with respect to the applicable Project or any portion thereof with respect to the applicable Project and all related agreements, and may suspend disbursement of the City Funds with respect to the applicable Project. The City may, in any court of competent jurisdiction by any action or proceeding at law or in equity, pursue and secure any available remedy, including but not limited to injunctive relief or the specific performance of the agreements contained herein.

In the event the Board shall fail to perform a covenant which the Board is required to perform under this Agreement, notwithstanding any other provision of this Agreement to the contrary, an Event of Default shall not be deemed to have occurred unless the Board has failed to cure such default within thirty (30) days after its receipt of a written notice from the City specifying the nature of the default; provided, however, with respect to those defaults which are not capable of being cured within such thirty (30) day period, the Board shall not be deemed to have committed an Event of Default under this Agreement if it has commenced to cure the alleged default within such thirty (30) day period and thereafter diligently and continuously prosecutes the cure of such default until the same has been cured.

3. The failure of the City to perform, keep or observe any of the covenants, conditions, promises, agreements or obligations of the City with respect to a Project under this Agreement or any other agreement directly related to this Agreement shall constitute an "Event of Default" by the City hereunder. Upon the occurrence of an Event of Default, the Board may terminate this Agreement with respect to the applicable Project and any other agreement directly related to this Agreement. The Board may, in any court of competent jurisdiction by any action or proceeding at law or in equity, pursue and secure any available remedy, including but not limited to injunctive relief or the specific performance of the agreements contained herein.

In the event the City shall fail to perform a covenant which the City is required to perform under this Agreement, notwithstanding any other provision of this Agreement to the contrary, an Event of Default shall not be deemed to have occurred unless the City has failed to cure such default within thirty (30) days after its receipt of a written notice from the Board specifying the nature of the default; provided, however, with respect to those defaults which are not capable of being cured within such thirty (30) day period, the City shall not be deemed to have committed an Event of Default under this Agreement if it has commenced to cure the alleged default within such thirty (30) day period and thereafter diligently and continuously prosecutes the cure of such default until the same has been cured.

(Sub)Exhibit "C" and Schedule 1 referred to in this First Amendment to Ground Lease Agreement with Chicago Music and Dance Theater read as follows:

(Sub)Exhibit "C".
(To First Amendment To Ground Lease Agreement
With Chicago Music And Dance Theater)

Theater's Additional Use Rights.

The provisions of this (Sub)Exhibit C set forth certain additional use rights that the City has agreed to grant the Theater in consideration of the Theater's agreement to fix the City's Expense Contribution and in order for the parties to better program and utilize the Facility and to manage the costs and maximize the revenues associated therewith. In the event of an express conflict between the terms of this (Sub)Exhibit C and the terms of the Lease, the terms of this (Sub)Exhibit C shall be controlling; provided, however, that in the absence of such an express conflict, the terms of this (Sub)Exhibit C, and the additional use rights granted to the Theater hereunder, shall otherwise be construed consistently with any applicable provisions of the Lease.

The City agrees that the Theater will administer the usage schedule for the Additional Use Areas for the entire calendar year, including marketing, booking and day-to-day administration. City will cooperate with Theater in connection with such scheduling.

Provided that the City gives written notice to the Theater on or before September 1st of the preceding calendar year (such written notice, the "September 1st Notice"), the City shall have a first priority right to use the Facility (excluding the Theater's Exclusive Elements) for up to twenty-five (25) dates, as specified in such September 1st Notice, each year during the months of June, July and August. As of the date of the Agreement, such uses are anticipated to be for the Grant Park Music Festival. Other uses shall be for users under the auspices of DCASE. In no event shall such uses include commercial use by a private party. If the City's September 1st Notice identifies less than twenty-five (25) dates, the City may thereafter request further use of the Facility in accordance with this paragraph. Any further uses of the Facility (excluding the Theater's Exclusive Elements) by the City during such months beyond those uses specified in the City's September 1st Notice shall be subject to the mutual agreement of the City and the Theater. Such further uses may include, for example, the need to use Theater stage for rehearsal purposes on days when, for example, due to a conflicting use of the Pritzker Stage, the Grant Park Music Festival is required to rehearse indoors. The Theater shall not unreasonably withhold its agreement to such additional use of the Facility by the City. Theater shall be entitled to charge rent and recover all other costs that the Theater would be entitled to recover under its then standard rental agreement as a result any such additional uses that result in the City's use of the Facility more than twenty-five (25) times (i.e., the priority uses specified in the City's written notice, plus such additional City uses as to which the parties mutually agree, up to a total of twenty-five (25) City uses), provided, however, that such costs shall not include any rental charge for use of the Theater stage for rehearsal purposes when a conflicting use of the Pritzker Stage necessitates an indoor rehearsal.

In addition, during the months of June, July and August, the City shall have a first priority right to use entire third floor dressing room space in the Facility. The use of additional dressing room space in the Facility during such months shall be mutually agreed to by the City and the Theater. Each party agrees that it shall not unreasonably withhold its consent to the other party's use of dressing room space. Theater shall be entitled to recover all customary costs incurred by Theater as a result of such additional uses (i.e., use of such additional dressing room space for uses beyond the City's first twenty-five (25) uses), including, without limitation, any additional security, cleaning, waste removal, personnel and labor costs, maintenance and repair and similar operational and property management costs.

Subject to the Theater's first priority use as to dressing room space during the September through May time period, the City may request the use of dressing room space during such months in conjunction with the City's scheduling of events in Millennium Park. The Theater shall not unreasonably withhold its consent to such use of the dressing room space by the City during such months. Theater shall be entitled to recover all customary costs incurred by Theater as a result of such additional uses, including, without limitation, any additional security, cleaning, waste removal, personnel and labor costs, maintenance and repair and similar operational and property management costs.

The City agrees that the Theater shall have the right to make use of the Terrace, the Millennium Park Promenade, and/or the Pritzker Stage for up to eight (8) Tenant-related events, which shall be deemed to include uses by the Music and Dance Theater of Chicago, uses by Tenant's permitted Subtenants, and such other not-for-profit performing arts organization uses as to which the City may consent in writing, which consent shall not be unreasonably withheld. In no event shall such uses include commercial use by a private party.

The City and the Theater agree to cooperate in an effort to create jointly-produced events utilizing the Facility (or, as to uses permitted under the above paragraph, utilizing the Pritzker Stage or the Promenade) as part of the parties' efforts to generate revenues to offset the costs incurred by the Theater in operating the Facility.

The following general terms and conditions shall apply to the City's first twenty-five (25) uses, and the Theater's eight (8) uses, under this (Sub)Exhibit C with respect to the applicable premises:

- (1) no rent shall be charged for the use of such premises;
- (2) the using party shall be solely responsible for stage hand labor, piano tuning, program printing, and similar event-related third party and production costs attributable to such party's use of such premises;
- (3) the party making such premises available shall be entitled to recover from the using party any costs (other than rent) that, under such first party's then standard rental agreement are not covered expenses and that would be recoverable from any other third party user of the space, but shall not be entitled to recover customarily covered expenses. The parties acknowledge and agree that presently, the Theater's standard rental agreement includes security and custodial services, while the City's standard rental agreement does not, and that each party shall have the right to hereafter modify the terms of its standard rental agreement;

- (4) all uses shall be subject to any generally applicable public laws, regulations and requirements, and to any donor or grant agreements or requirements applicable to premises.

A. Business Relationships.

Tenant acknowledges (A) receipt of a copy of Section 2-156-030(b) of the Municipal Code of Chicago, (B) that it has read such provision and understands that pursuant to such Section 2-156-030(b) it is illegal for any elected official of the City, or any person acting at the direction of such official, to contact, either orally or in writing, any other City official or employee with respect to any matter involving any person with whom the elected City official or employee has a "Business Relationship" (as defined in Section 2-156-080 of the Municipal Code of Chicago), or to participate in any discussion in any City Council committee hearing or in any City Council meeting or to vote on any matter involving the person with whom an elected official has a Business Relationship, and (C) notwithstanding anything to the contrary contained in this Agreement, that a violation of Section 2-156-030(b) by an elected official, or any person acting at the direction of such official, with respect to any transaction contemplated by this Agreement shall be grounds for termination of this Agreement and the transactions contemplated hereby. Tenant hereby represents and warrants that no violation of Section 2-156-030(b) has occurred with respect to this Agreement or the transactions contemplated hereby.

B. Patriot Act Certification.

Tenant represents and warrants that neither Tenant nor any Affiliate thereof (as defined in the next paragraph) is listed on any of the following lists maintained by the Office of Foreign Assets Control of the U.S. Department of the Treasury, the Bureau of Industry and Security of the U.S. Department of Commerce or their successors, or on any other list of persons or entities with which the City may not do business under any applicable law, rule, regulation, order or judgment, the Specially Designated Nationals List, the Denied Persons List, the Unverified List, the Entity List and the Debarred List.

As used in the above paragraph, an "Affiliate" shall be deemed to be a person or entity related to Tenant that, directly or indirectly, through one or more intermediaries, controls, is controlled by or is under common control with Tenant, and a person or entity shall be deemed to be controlled by another person or entity, if controlled in any manner whatsoever that results in control in fact by that other person or entity (or that other person or entity and any persons or entities with whom that other person or entity is acting jointly or in concert), whether directly or indirectly and whether through share ownership, a trust, a contract or otherwise.

C. Prohibition Of Certain Contributions -- Mayoral Executive Order No. 05-1.

Tenant agrees that Tenant, any person or entity who directly or indirectly has an ownership or beneficial interest in Tenant of more than 7.5 percent ("Owners"), spouses and domestic partners of such Owners, Tenant's contractors (i.e., any person or entity in direct contractual privity with Tenant regarding the subject matter of this Agreement) ("Contractors"), any person or entity who directly or indirectly has an ownership or beneficial interest in any Contractor of more than 7.5 percent ("Subowners") and spouses and domestic partners of such Subowners (Tenant and all the other preceding classes of persons and entities are together, the "Identified Parties"), shall not make a contribution of any amount to the Mayor of the City of Chicago (the "Mayor") or to his political fund-raising committee (i) after execution of this Agreement by Tenant, (ii) while this Agreement or any Other Contract is executory, (iii) during the term of this Agreement or any Other Contract between Tenant and the City, or (iv) during any period while an extension of this Agreement or any Other Contract is being sought or negotiated.

Tenant represents and warrants that from the date the City approached the Tenant or the date Tenant approached the City, as applicable, regarding the formulation of this Agreement, no Identified Parties have made a contribution of any amount to the Mayor or to his political fund-raising committee.

Tenant agrees that it shall not: (a) coerce, compel or intimidate its employees to make a contribution of any amount to the Mayor or to the Mayor's political fund-raising committee; (b) reimburse its employees for a contribution of any amount made to the Mayor or to the Mayor's political fund-raising committee; or (c) bundle or solicit others to bundle contributions to the Mayor or to his political fund-raising committee.

Tenant agrees that the Identified Parties must not engage in any conduct whatsoever designed to intentionally violate this provision or Mayoral Executive Order Number 05-1 or to entice, direct or solicit others to intentionally violate this provision or Mayoral Executive Order Number 05-1.

Tenant agrees that a violation of, noncompliance with, misrepresentation with respect to, or breach of any covenant or warranty under this provision or violation of Mayoral Executive Order Number 05-1 constitutes a breach and default under this Agreement, and under any Other Contract for which no opportunity to cure will be granted, unless the City, in its sole discretion, elects to grant such an opportunity to cure. Such breach and default entitles the City to all remedies (including, without limitation, termination for default) under this Agreement, under any Other Contract, at law and in equity. This provision amends any Other Contract and supersedes any inconsistent provision contained therein.

If Tenant intentionally violates this provision or Mayoral Executive Order Number 05-1 prior to the closing of this Agreement, the City may elect to decline to close the transaction contemplated by this Agreement.

For purposes of this provision:

“Bundle” means to collect contributions from more than one source which are then delivered by one person to the Mayor or to his political fund-raising committee.

“Other Contract” means any other agreement with the City of Chicago to which Tenant is a party that is (i) formed under the authority of Chapter 2-92 of the Municipal Code of Chicago; (ii) entered into for the purchase or lease of real or personal property; or (iii) for materials, supplies, equipment or services which are approved or authorized by the City Council of the City of Chicago.

“Contribution” means a “political contribution” as defined in Chapter 2-156 of the Municipal Code of Chicago, as amended.

Individuals are “Domestic Partners” if they satisfy the following criteria:

(A) they are each other’s sole domestic partner, responsible for each other’s common welfare; and

(B) neither party is married; and

(C) the partners are not related by blood closer than would bar marriage in the State of Illinois; and

(D) each partner is at least 18 years of age, and the partners are the same sex, and the partners reside at the same residence; and

(E) two of the following four conditions exist for the partners:

1. The partners have been residing together for at least 12 months.

2. The partners have common or joint ownership of a residence.

3. The partners have at least two of the following arrangements:

a. joint ownership of a motor vehicle;

b. a joint credit account;

c. a joint checking account;

d. a lease for a residence identifying both domestic partners as tenants.

4. Each partner identifies the other partner as a primary beneficiary in a will.

“Political fund-raising committee” means a “political fund-raising committee” as defined in Chapter 2-156 of the Municipal Code of Chicago, as amended.

D. Waste Ordinance Provisions.

Tenant warrants and represents that it has not violated and is not in violation of any provisions of Section 7-28 or Section 11-4 of the Municipal Code. Furthermore, in accordance with Section 11-4-1600(e) of the Municipal Code of Chicago, Tenant warrants and represents that it, and to the best of its knowledge without any duty of inquiry, its contractors and subcontractors, have not violated and are not in violation of any provisions of Sections 7-28-390, 7-28-440, 11-4-1410, 11-4-1420, 11-4-1450, 11-4-1500, 11-4-1530, 11-4-1550 or 11-4-1560 of the Municipal Code (the "Waste Sections"). During the period while this Agreement is executory, Tenant's, any general contractor's or any subcontractor's violation of the Waste Sections, whether or not relating to the performance of this Agreement, constitutes a breach of and an event of default under this Agreement, for which the opportunity to cure, if curable, will be granted only at the sole designation of the Chief Procurement Officer. Such breach and default entitles the City to all remedies under the Agreement, at law or in equity. This section does not limit Tenant's, general contractor's and its subcontractors' duty to comply with all applicable federal, state, county and municipal laws, statutes, ordinances and executive orders, in effect now or later, and whether or not they appear in this Agreement. Noncompliance with these terms and conditions may further affect the Tenant's eligibility for future contract awards.

E. Cooperation With Office Of Compliance.

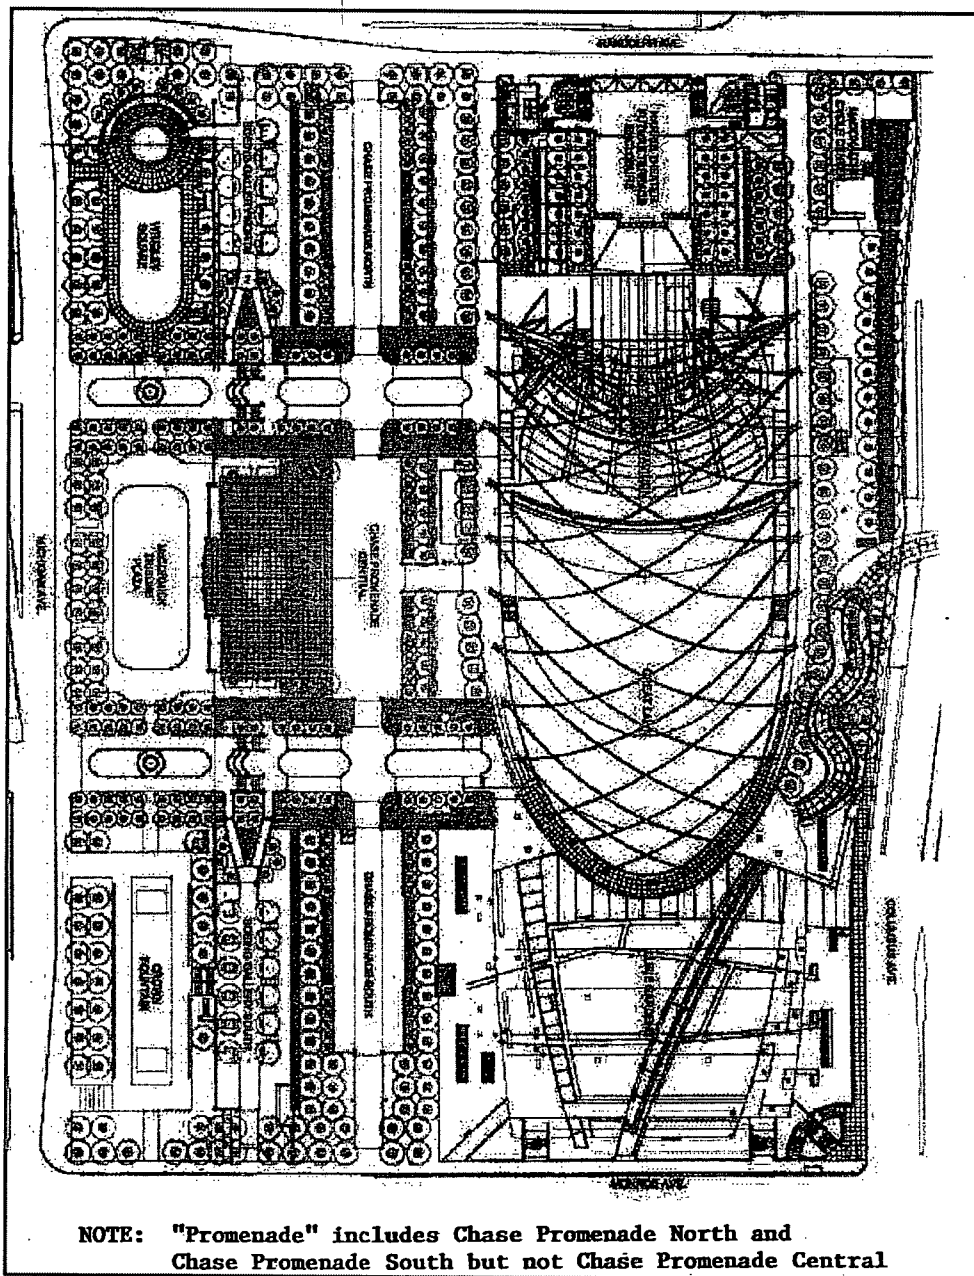

In accordance with Chapter 2-26-110, et seq. of the Municipal Code, the Tenant acknowledges that every officer, employee, department and agency of the City shall be obligated to cooperate with the Executive Director of the Office of Compliance in connection with any activities undertaken by such office with respect to this Lease, including, without limitation, making available to the Executive Director the department's premises, equipment, personnel, books, records and papers. The Tenant agrees to abide by the provisions of Chapter 2-26-110, et seq.

F. Cooperation With Inspector Generals.

Tenant acknowledges that it is the duty of any grantee, subgrantee bidder, proposer, contractor, subcontractor, and every applicant for certification of eligibility for a City contract or program, and all officers, directors, agents, partners, and employees of any such grantee, subgrantee, bidder, proposer, contractor, subcontractor or such applicant to cooperate with the Legislative Inspector General in any investigation or hearing undertaken pursuant to Chapter 2-55 of the Municipal Code, and to cooperate with the Inspector General in any investigation or hearing undertaken pursuant to Chapter 2-56 of the Municipal Code. The Developer represents and warrants that it understands and will abide by all provisions of Chapter 2-55 and Chapter 2-56 of the Municipal Code and that the Tenant will inform its subcontractors of this provision and require their compliance.
