[R2019-697]

The Honorable Lori E. Lightfoot, Mayor, presented the following communication:

OFFICE OF THE MAYOR  
CITY OF CHICAGO

September 18, 2019.

*To the Honorable, The City Council of the City of Chicago:*

LADIES AND GENTLEMEN -- I transmit herewith, together with Aldermen Smith and Tunney, a resolution honoring the life and memory of Michael Bauer.

Your favorable consideration of this resolution will be appreciated.

Very truly yours,

(Signed) LORI E. LIGHTFOOT,  
Mayor.

Alderman Mitchell moved to *Suspend the Rules Temporarily* to permit immediate consideration of and action upon the said proposed resolution. The motion *Prevailed*.

The following is said proposed resolution:

WHEREAS, The members of this chamber were deeply saddened to learn of the death on August 29, 2019, at age 66, of Michael Bauer, a respected citizen of the City of Chicago and longtime activist who was instrumental in the election of dozens of local and national political leaders; and

WHEREAS, Mr. Bauer was a passionate advocate for worthy causes and oppressed people, with a specific focus on Holocaust education and LGBTQ issues; and

WHEREAS, The son of two Holocaust survivors, raised in East Rogers Park, and trained as a lawyer, Mr. Bauer made a lasting impact on Chicago politics and political institutions that was shaped by his commitment to equality; and

WHEREAS, Influenced by the AIDS epidemic, Mr. Bauer entered politics to direct attention to the needs of the gay community; and

WHEREAS, In 1994, Mr. Bauer chaired a successful campaign for the state's first elected openly gay person, enabling Tom Chiola to become a Cook County Circuit Court judge; and

WHEREAS, Mr. Bauer was a pioneer in Holocaust history in 1998, with his participation in cultivating the first academic symposium on the Holocaust's gay victims; and

WHEREAS, In 2003, Mr. Bauer served as campaign co-chair and finance chair for Alderman Tom Tunney's campaign to become the first openly gay alderman elected to the City Council; and

WHEREAS, Mr. Bauer's significant contributions to the City of Chicago include his distinct presence in Chicago's Jewish community, through his service as the co-chairman of the Illinois Holocaust and Genocide Commission; and

WHEREAS, Most recently, Mr. Bauer, serving as chairman of her campaign, played a pivotal role in the election of our first openly gay mayor of the City of Chicago; and

WHEREAS, Mr. Bauer gave generously of his time to the community, including serving as the co-chair for various annual fundraisers, for political and charitable organizations, including Citizen Action Illinois, American Jewish Committee, and IMPACT; he also served on the board of directors for Lambda Legal Defense and Education, the Gay & Lesbian Victory Fund, and the Global AIDS Alliance; and

WHEREAS, Mr. Bauer is survived by his beloved husband of 37 years, Roger Simon; his mother, Tema Bauer; his brother, Jerry Bauer; many nieces and nephews; and countless admirers and friends; now, therefore,

*Be It Resolved*, That we, the Mayor and members of the City Council of the City of Chicago, assembled this 18<sup>th</sup> day of September 2019, do hereby honor the life, legacy, and memory of our friend Michael Bauer, and extend our heartfelt condolences to his family; and

*Be It Further Resolved*, That suitable copies of this resolution be presented to the family of Michael Bauer as a sign of our honor, gratitude, and utmost respect.

On motion of Alderman Mitchell, seconded by Aldermen Hairston, Maldonado, Burnett, Reilly, Smith, Tunney, Cappleman and Osterman, the foregoing resolution was *Adopted* by a rising vote.

At this point in the proceedings, the Honorable Lori Lightfoot, Mayor, rose and joining with the members of the City Council expressed her sorrow on the passing of Michael Bauer. Tearfully reflecting on her close and personal friendship with Mr. Bauer, Mayor Lightfoot declared him a passionate human rights advocate and a brilliant political activist who was "one of a kind". As the son of two Holocaust survivors, both of whom were the sole survivors of their families, the reality of the Holocaust, and the issue of genocide, was one of the singular animating forces in his political outlook and activism, the Mayor observed, and echoed in his words "if it happened, it can happen again . . . maybe not to Jews, but to another group". It was this sense of urgency and passion that he brought to the struggle for the protection of abortion rights, the fight against AIDS, the support of Israel and his work in Holocaust education, and most of all, the Mayor attested, in the fight for the rights of the LGBTQ community. "His determination to fight every vestige of racism and bigotry was also his way of carrying out his parents' legacy", the Mayor continued, and an elemental part of a life dedicated to fairness and justice. Michael exuded a zest for life and joy in everything he did, the Mayor observed, but it was seeing him dancing with his husband Roger that best captured who Michael was and "his way of showing people that this was what a gay couple looked like". "Michael was an unforgettable person", the Mayor asserted, and his legacy lives on in the countless individuals he supported and "in creating a city -- and country -- that was more fair, decent and just". Mayor Lightfoot then left the Mayor's rostrum and strode to the Commissioners' gallery where she presented a parchment copy of the memorial resolution to Roger Simon, husband of the late Michael Bauer.

*Rules Suspended* -- COMMEMORATION OF NATIONAL HISPANIC HERITAGE MONTH AND DESIGNATION OF SEPTEMBER 15 THROUGH OCTOBER 15 AS "HISPANIC HERITAGE MONTH" IN CHICAGO.

[R2019-698]

The Honorable Lori E. Lightfoot, Mayor, presented the following communication:

OFFICE OF THE MAYOR  
CITY OF CHICAGO

September 18, 2019.

*To the Honorable, The City Council of the City of Chicago:*

LADIES AND GENTLEMEN -- I transmit herewith, together with Alderman Maldonado, a resolution commemorating Hispanic Heritage Month.

Your favorable consideration of this resolution will be appreciated.

Very truly yours,

(Signed) LORI E. LIGHTFOOT,  
Mayor.

Alderman Mitchell moved to *Suspend the Rules Temporarily* to permit immediate consideration of and action upon the said proposed resolution. The motion *Prevailed*.

The following is said proposed resolution:

WHEREAS, The United States observes National Hispanic Heritage Month every year from September 15<sup>th</sup> through October 15<sup>th</sup> to recognize and celebrate the many contributions made by Hispanics and Latinos, which have shaped our society and culture, built and strengthened our Nation, and helped to make the United States a diverse, thriving, and vibrant democracy; and

WHEREAS, Hispanic Heritage Month has been celebrated in the United States for more than 30 years. The observance began in 1968 under President Lyndon Johnson as a one-week celebration called Hispanic Heritage Week. In 1988, thanks in large part

to the efforts of Illinois Senator Paul Simon, the United States Congress passed and President Ronald Reagan signed into law Public Law 100-402, designating the "31-day period beginning September 15 and ending on October 15" as National Hispanic Heritage Month; and

WHEREAS, September 15 was chosen as the starting point for an annual celebration honoring Americans of Hispanic descent because it marks the anniversary of independence of five Latin American countries: Costa Rica, El Salvador, Guatemala, Honduras, and Nicaragua. Mexico, Chile, and Belize celebrate their independence days on September 16, September 18 and September 21, respectively; and

WHEREAS, Today, National Hispanic Heritage Month is celebrated nationwide at local festivals, art shows, conferences, community gatherings, and other events emphasizing the rich history, culture and traditions, and myriad accomplishments and contributions, of Hispanic and Latino Americans; and

WHEREAS, During National Hispanic Heritage Month, the United States military honors the 1.2 million Hispanic and Latino men and women who, over the course of our history, have answered the call to serve in our Nation's Armed Forces. Sixty-one people of Hispanic or Latino descent have been awarded the Medal of Honor, the highest United States military decoration awarded by Congress for gallantry and bravery in combat. As of September 2018, 136,000 Hispanic soldiers were serving in the United States Army alone, comprising 13.6 percent of its total armed force; and

WHEREAS, National Hispanic Heritage Month has special meaning in Chicago. Approximately 780,000 Chicago residents identify as Hispanic or Latino. Over 46 percent of Chicago Public School students identify as Hispanic or Latino. More than 9,000 Hispanic and Latino Americans contribute to the educational mission of the Chicago Public Schools as teachers, principals and staff. Hispanic- and Latino-owned businesses represent the fastest growing segment of small businesses in the State of Illinois, contributing immeasurably to the well-being of our local economy; and

WHEREAS, National Hispanic Heritage Month provides Chicagoans with an opportunity to reflect on our shared history as Americans; and to celebrate the rich mosaic of people and cultures who worked together to build and defend our Nation, and contributed to the legacy of freedom and diversity that we hold dear to heart; now, therefore,

*Be It Resolved*, That we, the Mayor and members of the City Council of the City of Chicago, assembled this 18<sup>th</sup> of September 2019, do hereby designate the 31-day period beginning on September 15 and ending on October 15 each year as "Hispanic Heritage Month" in Chicago, and encourage all Chicagoans to acknowledge the contributions of Hispanic and Latino Americans to the culture, identity and economy of our great City.

On motion of Alderman Mitchell, seconded by Aldermen Rodriguez, Maldonado, Reboyas, Ramirez-Rosa and Villegas, the foregoing resolution was *Adopted* by yeas and nays as follows:

*Yeas* -- Aldermen La Spata, Hopkins, Dowell, King, Hairston, Sawyer, Mitchell, Harris, Beale, Sadlowski Garza, Thompson, Cárdenas, Quinn, Burke, Lopez, Coleman, Moore, Curtis, O'Shea, Taylor, Brookins, Rodriguez, Tabares, Scott, Sigcho-Lopez, Maldonado, Burnett, Ervin, Taliaferro, Reboyas, Cardona, Waguespack, Rodriguez-Sanchez, Austin, Ramirez-Rosa, Villegas, Mitts, Sposato, Nugent, Vasquez, Napolitano, Reilly, Smith, Tunney, Gardiner, Cappleman, Martin, Osterman, Hadden, Silverstein -- 50.

*Nays* -- None.

Alderman Thompson moved to reconsider the foregoing vote. The motion was lost.

At this point in the proceedings, the Honorable Lori Lightfoot, Mayor, rose and joining with the members of the City Council, expressed her support for Chicago's Hispanic community and their long and vibrant history in our city. This proud history and culture transcends boundaries, the Mayor observed, and can be seen "in the 26<sup>th</sup> Street Commercial Corridor in Little Village...in our Hispanic students who are breaking new academic records... in our City Council Chamber with our City Clerk and many Hispanic aldermen". "Our Hispanic heritage is our city's heritage", the Mayor proclaimed, and Chicago has stood as a "beacon of hope and opportunity for men and women from Mexico, Colombia, Puerto Rico, and across Latin America". Our Hispanic neighbors and fellow residents have been targeted and terrorized simply for who they are, the Mayor observed, and as we honor Hispanic Heritage Month we are also celebrating our city's values and legacy as a home for all people and as a Sanctuary City and Welcoming City where every resident is "free to learn . . . free to dream . . .and free to know they will always be safe, secure, and supported".

(2) The owner of the immobilized vehicle and any person authorized by the traffic compliance administrator to remove any self-release immobilization device who fails to return such device to a location designated by the traffic compliance administrator within seven days shall be fined \$50.00 for each day the person fails to return such device; provided that the total fine under this subsection shall not exceed \$1,000 if the vehicle immobilized was a truck tractor, semitrailer or trailer, and \$750.00 for any other type of vehicle.

(3) No person shall be found liable for violating both subsections (h)(1) and (h)(2) for the same incident.

(4) The offenses described in this subsection (h) shall be strict liability offenses as to the owner.

(i) Notwithstanding any other provision of this section, no impounded vehicle shall be released and operated on the public ways of the city without a current state registration plate registered to the impounded vehicle and unless the vehicle is covered by a liability insurance policy. In addition, if an impounded vehicle is required to be licensed under Chapter 3-56 of this Code, no such vehicle shall be released without a valid City of Chicago wheel tax license emblem. (2) Standard Installment Payment Plan. A payment plan may be established for the payment of eligible debts by a debtor. If the vehicle owner fails to make all required payments in a timely manner, the vehicle owner's motor vehicle shall be subject to immobilization or impoundment, or the vehicle owner's driver's license may be subject to suspension pursuant to Section 5/6-306.5 of the Illinois Vehicle Code, if applicable, and the vehicle owner shall be liable for the outstanding balance plus an additional penalty of \$100.00.

(3) Hardship Installment Payment Plan. A payment plan may be established for the payment of eligible violations or eligible debts by a qualifying hardship participant. A qualifying hardship participant shall not be subject to administrative fees to participate in a hardship payment plan or to any default fees.

(4) Fresh Start Installment Payment Plan. The Administrator may establish installment payment plans for eligible bankruptcy debtors. Under such plans the eligible bankruptcy debtor will only be required to pay the fines incurred after the eligible bankruptcy debtor's bifurcation date. Once the eligible bankruptcy debtor successfully completes such plan and has received a bankruptcy discharge under 11 U.S.C. § 727, the City may waive any penalties and fees associated with the fines paid under the installment payment plan. In addition, the City may waive all eligible debt that the eligible bankruptcy debtor incurred prior to the bifurcation date. This subsection (b)(4) shall not be construed to require repayment of any debt discharged in a case under the United States Bankruptcy Code.

(c) The Administrator may charge payment installment plan participants an administrative fee.

(d) The Administrator is authorized to promulgate rules for the proper administration and enforcement of this section. The rules, among other things, may provide for:

(i) the duration, down payment amount and the manner of payment for each installment payment plan or categories created under such plan;

(ii) criteria for showing a qualifying hardship participant's status;

(iii) the content and form of each payment installment plan or categories created under such plan;

(iv) objective criteria for waiving administrative fees for participating in any payment installment plan.

(e) Upon entering into a payment installment plan and payment of the initial installment required by such plan, and as long as the vehicle owner is in compliance with the plan, the vehicle owner's vehicles shall not be subject to immobilization and impoundment for failure to pay the fines and penalties described in the payment installment plan.

## **Introduction**

The City of Chicago (the "City") is establishing a voluntary property assessed clean energy ("PACE") program to finance or refinance the acquisition, construction, installation or modification of an alternative energy improvement, renewable energy improvement, resiliency improvement or water use improvement that is affixed to real property including new construction (collectively, "Energy Projects").

The City's PACE program, known as Chicago PACE ("Chicago PACE" or the "Program") is available for privately-owned commercial, industrial, multi-family (five or more units) and non-residential agricultural properties in the City (collectively, "Properties"). Chicago PACE is available City-wide, as reflected on the PACE area map, which is attached as **Appendix A**.

The Program is designed to accelerate private investment in Energy Projects on existing and newly constructed buildings on Properties. The City and its residents and businesses will benefit from the Energy Projects financed through the Program that enables private sector funding for up to 100% of the costs of Energy Projects, at no cost to the City, to further the City's sustainability and economic development goals, including:

- Energy Efficiency and Clean Energy
- Water Conservation
- Climate Change Mitigation
- Improved Air Quality
- Economic Development and Job Creation
- Minority- and Women-Owned Enterprises Engagement

## **Purpose of the Program Report**

Enacted in 2017 and amended in 2018 (effective January 1, 2019) and 2019 (effective July 29, 2019), the Property Assessed Clean Energy Act, 50 ILCS 50/1 et seq. (the "Illinois PACE Act") authorizes local units of government in Illinois to establish PACE programs. The City established a PACE program by adopting an ordinance on October 31, 2018, meeting the requirements of Section 15 of the Illinois PACE Act, including the adoption of a program report as required by Section 20 of the Illinois PACE Act. The City adopted an ordinance on \_\_\_\_\_, 2019 approving an amended program report. This Program Report contains a description of how PACE works, its benefits and an outline of the basic design and financing or refinancing structure of the Program.

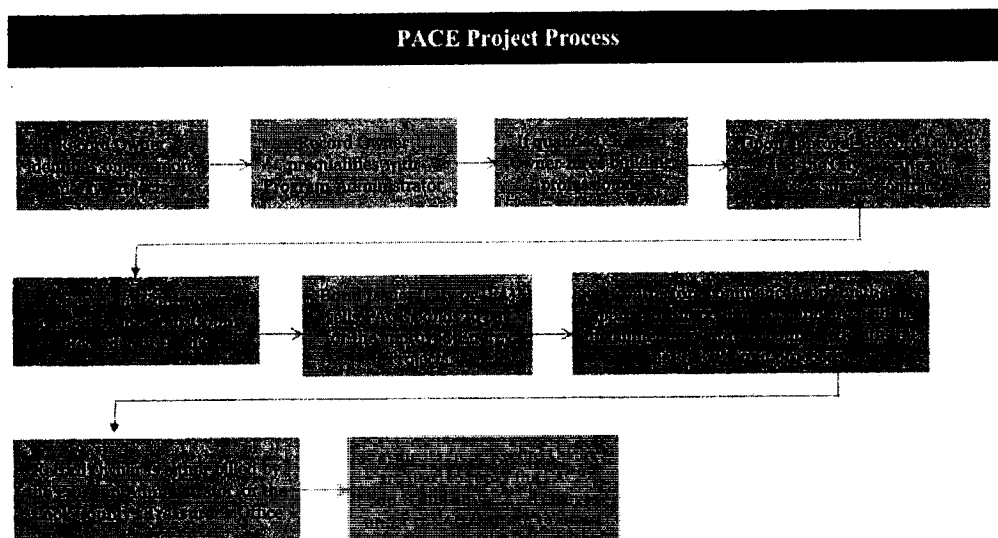

## **Description of Chicago PACE**

Chicago PACE finances or refinances the voluntary acquisition, construction, installation or modification of Energy Projects on Properties, utilizing a non-ad valorem assessment on the Properties being improved (the "Assessment"). Record owners can use PACE financing or refinancing to fund up to 100% of the costs involved in Energy Projects, including all related equipment, materials and labor, as well as soft and closing costs.

The City will enter into an assessment contract with the record owner (the "Assessment Contract") in order to secure the PACE financing or refinancing. The Assessment Contract describes the Energy Project being financed, the Property on which such Energy Project will be affixed, and the amount financed. The Assessment Contract will also define capitalized closing costs, the interest rate, the term, the annual installments, including estimated annual costs, and the prepayment terms and conditions. Interest rates are fixed, the Assessment fully amortizes over the term of the Assessment and there are no balloon payments.

The Assessment Contract will be recorded by the Cook County Recorder of Deeds as a lien on the property and thereafter will be funded through the issuance of PACE bonds by the City or the Illinois Finance Authority (the "IFA"). In some cases, Energy Projects may also be temporarily funded through a warehouse fund until the PACE bonds are issued. Pursuant to the Assessment Contract, the record owner makes Assessment installment payments of principal, interest, and any other annual costs. The Assessments are either billed directly to the record owner or added to the record owner's tax bill.

Because the Assessment is attached to the Property being improved, if the Property is sold before the Assessment is paid off, the balance of the Assessment Contract remains with the Property and seamlessly transfers to the new record owner without any need to approve the new record owner.

## The Benefits of PACE

PACE provides the following benefits to the City:

- Improves air quality and reduces pollution;
- Accelerates needed private infrastructure improvements;
- Spurs local workforce development and job creation in the clean energy sector;
- Provides a steady stream of work and revenue to building professionals; and
- Boosts Minority- and Women-Owned Enterprises.

## Roles and Responsibilities

The City's Department of Planning and Development ("DPD") will oversee Chicago PACE. As the principal planning agency for the City, DPD promotes the comprehensive growth and sustainability of the City and its neighborhoods. DPD also oversees the City's zoning and land use policies, and, through its economic development and housing bureaus, employs a variety of resources to encourage business and real estate development, as well as a diverse and stable housing stock throughout the City.

The City has selected Loop-Counterpoint PACE LLC ("LCP") to serve as the program administrator for the Program (the "Program Administrator") and has entered into an agreement with LCP.

The Program Administrator will be responsible for overseeing and implementing the Program, including: processing applications; statutory underwriting; coordinating among record owners, capital providers, contractors and other building professionals; reporting and arranging for reporting to the City; Program marketing and outreach to record owners, contractors and other building professionals, the Minority- and Women-Owned Business Enterprise ("M/WBE") community and the real estate and environmental associations; and arranging for capital. The primary responsibilities of the Program Administrator will be to:

- Receive, process and approve PACE financing or refinancing applications
- Manage the day-to-day operations of the Program
- Establish a Program website
- Register contractors and other building professionals, third-party capital providers, and energy consultants
- Publish the Program Guidebook (the "Guidebook") for record owners and contractors and other building professionals
- Provide detailed guidelines on how to apply for and receive PACE financing or refinancing
- Provide summary statistics and reports to DPD

### **Form of Assessment Contract**

The form of the Assessment Contract between the City and the record owner(s) of the Property for which PACE financing or refinancing is provided is attached to this Program Report as **Appendix B**. The Assessment Contract contains the terms of the Assessment under the Program and the financing or refinancing to be provided by way of the issuance of PACE bonds or temporarily through warehouse financing or refinancing before PACE bonds are issued. The form of the Assessment Contract will be completed and, as necessary, modified to include the specific terms of each financing or refinancing.

### **Method for Determining Interest Rates, Repayment Periods, and Maximum Amount of an Assessment**

**Interest Rates.** The interest rate that will be charged pursuant to any Assessment Contract will be determined by the capital provider based on prevailing market conditions, subject to negotiation by the record owner. The Program Administrator is committed to scaling Chicago PACE and will seek to arrange capital with interest rates competitive with other PACE programs.

**Repayment Periods.** The repayment period for an Assessment cannot exceed the estimated useful life of the Energy Projects being financed. The record owner may request, or the capital provider may require, a shorter period.

**Assessment Amount.** The aggregate Assessment amounts cannot exceed 25% of the greater of the assessed value or the appraised value, as determined by a licensed appraiser, of the property. In addition, the maximum amount of an Assessment may not exceed the actual cost of the Energy Projects being financed or refinanced and closing costs, including the cost of materials and labor necessary for the acquisition, construction, installation or modification of the Energy Projects, permit fees, inspection fees, application and administrative fees, bank fees, and all other fees that may be incurred by the record owner pursuant to the installation and modification of the Energy Projects and the issuance of PACE bonds, including capitalized interest and prepayment fees.

### **How Assessments Are Made and Collected**

The Assessment Contract will be recorded by the Cook County Recorder of Deeds as a lien on the property, until the Assessment, including any interest, penalty and prepayment fee, is paid in full. The lien has the same priority as real estate property taxes and other special assessment liens.

Assessment installments may be billed either by the Cook County Treasurer's Office, which would include the installments on the property's tax bill or by the City, which would issue invoices through the Program Administrator. The installments generally are payable semi-annually on the first business day in March and September. The payments by the record owner are used to pay the Assessment which secure the outstanding PACE bonds or the warehouse fund. The Program Administrator will notify the City, who then notifies the Cook County Treasurer's Office, if any Assessment installment is delinquent. Delinquent Assessment installments are subject to the same rights and remedies as delinquent real estate property taxes or other delinquent special assessments, including a property tax sale.

### **Plan to Raise Capital**

The City may issue PACE bonds under the Illinois PACE Act or the City can elect to have the Illinois Finance Authority ("IFA") issue PACE bonds. Subsection (d) of Section 825-65 of the Illinois Finance Authority Act provides for the assignment of Assessment Contracts securing such PACE bonds by the City to the IFA. Interim financing prior to the issuance of PACE bonds by the City or the IFA may be provided only by a warehouse fund, except that warehouse funds or interim financing established by capital providers may only hold Assessment Contracts for a maximum of 36 months from the date of recording of the applicable Assessment Contract.

PACE bonds issued to finance or refinance Energy Projects under the Illinois PACE Act shall not be general obligations of the City or the IFA but shall be secured by the payments under one or more

Assessment Contracts on benefited property or properties within the City and, if applicable, revenue sources or reserves established by the City or the IFA from bond proceeds or other lawfully available funds. In addition, PACE bonds may be secured by municipal bond insurance, letters of credit or public or private guarantees or sureties. The maturity of the PACE bonds shall not exceed 40 years from the date of issuance.

The Program Administrator is responsible for arranging the capital to acquire the bonds to finance or refinance approved Energy Projects. During the pilot stage, the Program Administrator will provide capital from two sources to ensure a sufficient funds are available to acquire the PACE bonds issued by the City or the IFA or to establish a warehouse fund. The Program Administrator will provide the capital through its affiliate, Counterpointe Sustainable Real Estate and through capital raised by Loop Capital Markets in private placements. All purchasers of the PACE bonds and warehouse lenders will be accredited investors or qualified institutional buyers that are approved by Loop Capital Markets and the Program Administrator pursuant to requirements that will be set forth in the Guidebook.

After a pilot stage period of 12 months from the closing of the City's first PACE transaction, the Program Administrator will solicit third party capital providers (a "Third Party Capital Provider") to apply to register with the Program to originate Assessments to finance or refinance Energy Projects and to purchase PACE bonds to finance or refinance such projects. Each approved Third Party Capital Provider will also pay M/WBE Outreach Program Fees (the "Program Fees") for each Assessment based on a percentage of the cost of each Energy Project financed or refinanced with PACE bonds purchased by such Third Party Capital Provider. The amount of the Program Fees will be set from time to time by the Program Administrator with the approval of the Commissioner of DPD. The Program Fees will be outlined in the Guidebook. The Program Fees will be earmarked for M/WBE community engagement by the Program Administrator, including outreach opportunities for the M/WBE contractors and other building professionals.

As Chicago PACE evolves, the Program Administrator will seek to employ more complex bond structures to attract a broader group of capital providers with different investment goals and risk appetites to further drive down the cost of PACE financing or refinancing in Chicago.

## User Fees

The record owner will be charged certain fees and costs in connection with applying for and obtaining financing or refinancing under the Program. The Program Administrator will not charge a fee for contractors or other building professional to apply for, or to maintain, registration with the Program.

Certain fees are categorized as Costs of Issuance, Annual Fees or Application Fees and can be financed under the Assessment Contract. The actual amounts and additional details will be provided on the Program website and in the Guidebook.

**Cost of Issuance.** The cost of issuance includes:

- 1) A program administrative fee, payable to the Program Administrator,
- 2) A City administrative fee, payable to the City in connection with DPD's oversight of the Program and the Program Administrator,
- 3) A private placement fee, payable to Loop Capital Markets for acting as the private placement agent or underwriter of the bonds issued in connection with the Program,
- 4) An issuer fee, payable to IFA as the issuer of the bonds issued in connection with the Program, but only if IFA is selected by the City to be the issuer,

- 5) Counsel fees (bond and/or disclosure) and trustee fees, payable to counsel and the trustee in connection with the issuance of the bonds,
- 6) Deposits to reserve funds established in connection with the issuance of the bonds, if applicable,
- 7) Recording fees payable to the Cook County Recorder's Office to cover the cost of recording the Assessment Contract,
- 8) Capital provider origination fee, payable to the applicable capital provider in connection with purchase of the bonds or the warehouse funds and
- 9) The additional Program Fee required of Third Party Capital Providers, if applicable.

**Annual Fees.** The recurring annual fees consist of the annual trustee's fee, the annual servicer's fee and, if the Cook County Treasurer bills the record owner for the annual installment of the Assessment, then the fee, if any, of the Cook County Treasurer. None of the recurring annual fees may be capitalized and all the recurring annual fees are subject to either contracts with the City or approval by the City.

**Application Fee.** There will be no fee for initial prequalification to determine whether a record owner and the property meet the minimum eligibility criteria of the Program. Once an application is submitted to the Program, an application fee will be charged. If the Assessment closes, the fee will be applied as a credit against the Program Administration fee payable to the Program.

### **The Term of an Assessment**

The maturity of an Assessment may not exceed the useful life of the Energy Project. The expected useful life is determined based on industry standards and manufacturer's warranties. A partial list of types of Energy Projects and their estimated expected useful lives can be found in the Guidebook. When installing multiple Energy Projects, the maximum maturity available is the maturity associated with the greatest financing or refinancing amount. The maturity of an Assessment will generally be in five-year increments, between five and 40 years. The Program reserves the right to approve a maturity shorter than the requested maturity. The maturity of the Assessment will be set forth in the Assessment Contract.

### **Determining Ratio of Assessment Amount to Property Value for the Program**

For the purpose of determining the value of a property for inclusion in the Program, the property will be valued at the greater of (1) the assessed value of the property and (2) the appraised value of the property, as determined by a licensed appraiser. If the proposed Energy Project qualifies for the Program utilizing the assessed value, the Program Administrator may waive the requirement to obtain an appraisal.

### **Mortgage Notification and Consent**

Under the Illinois PACE Act, the record owner shall provide written consent from the holders or loan servicers of any existing mortgages encumbering or otherwise secured by the Property, to enter into the Assessment Contract, together with the maximum principal amount to be financed and the maximum annual Assessment necessary to repay that amount. A verified copy of the written consent of the existing mortgage holder for the record owner to enter into the Assessment Contract and acknowledging that the existing mortgage will be subordinate to the financing or refinancing and Assessment Contract and that the City or, if applicable, its permitted assignee can foreclose the property if the Assessment is not paid has been provided to the City.

## Marketing and Education

Marketing Education and outreach activities will be the responsibility of the Program Administrator, who will:

- Plan and execute education/outreach campaigns and informational events
- Develop and provide Chicago PACE orientations
- Create, update, and distribute Chicago PACE educational materials
- Manage and regularly update Chicago PACE website
- Create case studies to highlight the success of the Program
- Create and distribute press releases for other newsworthy items
- Develop and implement a strategic marketing campaign to increase participation of small property owners and M/WBE entities
- Pre-qualify energy professionals

**Website Development.** Working with the City, the Program Administrator has created the City of Chicago PACE Program website. The website is fully interactive and provides information about the Chicago PACE Program, including links to legislation, online applications, document retention, third party reviewer portal and record owner portal and contact information. [www.ChicagoPACE.org](http://www.ChicagoPACE.org)

**Education and Outreach Campaign.** The Program Administrator will communicate the benefits of the Program to all stakeholders by creating, updating and distributing PACE educational materials throughout the City. Chicago PACE case studies will be created and posted on the Program website on recent newsworthy financings that provide details of the financing. Meetings will be held throughout the City to educate all stakeholders, i.e. Mortgage Lenders, Contractors, Energy Professionals, Developers, and Property Owners, on how to finance energy projects using PACE in Chicago. Property owners can visit Chicago PACE website to learn about eligibility requirements, financing or refinancing terms and other details and find approved contractors and eligible Energy Projects, including specific products.

**MWBE Outreach and Marketing Plan.** The Program Administrator will actively conduct outreach to MBEs and WBEs and educate them on how to participate in the Program and work with the City to register certified MBE and WBE firms as pre-qualified contractors. The Program Administrator will also host lunch and learn sessions for all stakeholders throughout the City.

## Additional Quality Assurance and Antifraud

Quality assurance protocols serve to prevent improper or low-quality installation or modification of Energy Projects and protect against fraud and abuse of the Program. The Program will institute quality assurance protocols administered by the Program Administrator and overseen by DPD. Quality assurance protocols and procedures are subject to review and adjustment from time to time by the Commissioner of DPD based on applicable City, State and federal standards. Details on the current quality assurance protocols and procedures are outlined in the Guidebook. Despite the presence of these protocols and procedures, responsibility for the successful operation of an Energy Project is that of the record owner and its registered professionals. None of the City, the Program Administrator, any issuer of bonds, capital provider, underwriter or private placement agent, trustee, servicer or any of their respective directors, managers, officers, employees, advisors, agents shall have any liability for the selection, installation and modification and operation of any eligible Energy Project.

Whereas, Pursuant to the Act, the City and the Record Owner desire to enter into this Contract, pursuant to which the Record Owner will agree to pay the assessment in order to finance or refinance the Project and the City may agree to assign this Contract in furtherance of providing financing for the Project.

Section 3. Assessment; Bonds; Installment; Prepayment; Collection.

(a) The Assessment. The Record Owner hereby freely and willingly agrees that a special assessment in the amount specified in Schedule I (the "Assessment") shall be levied by the City on the Property pursuant to the Act. (b) Bonds. The City hereby determines that bonds, which may be serial bonds, term bonds or both, shall be issued (i) by the City pursuant to the Act or (ii) upon assignment of this Contract to the Authority, by the Authority pursuant to the Authority Act, all in accordance with the Act (the "Bonds") and shall be secured by the Assessment to pay the cost of the Financing Purposes, and that, if applicable, interim financing prior to the issuance of Bonds may be provided through a Warehouse Fund.

(c) Interest; Assessment Installments. The City may delegate the authority to bill and collect the Assessment to the Program Administrator, or its designee.

(e) Administrative Expenses. In addition to the installments of the Assessment described in subsection (c) of this section, the City or any Assignee (as defined below) may (or may direct the Program Administrator on behalf of the City or any such Assignee, as the case may be, to), in accordance with the Act, add thereto amounts in order to pay for the costs of collecting the Assessment, the annual administration of the Assessment, the annual administration of the Bonds or the Warehouse Fund and other administrative costs (the "Annual Assessment Administrative Fee"). Schedule I shows the estimated Annual Assessment Administrative Fees, however such estimated Annual Assessment Administrative Fees might increase if the costs of collecting the Assessment Installments or administering the Program increase. The Record Owner agrees to pay actual Annual Assessment Administrative Fees, which may be higher than such estimates.

(f) Prepayment Of The Assessment. The Assessment may be prepaid, in whole or in any amount of at least the minimum set forth in Schedule I, at any time upon the payment of (i) the amount of any delinquent installments of principal or interest on the Assessment, together with penalties accrued to the date of prepayment, plus (ii) the whole or, subject to the minimum amount set forth in this subsection, a portion of the unpaid non-delinquent principal of the Assessment (the "Assessment Prepayment Amount"), plus (iii) interest on the Assessment Prepayment Amount to the redemption date occurring at least 30 days following the date the prepayment is made, plus (iv) an amount equal to the redemption premium, if any, set forth on Schedule I, plus (v) a reasonable fee, if charged by the

Authority or Program Administrator, for the cost of administering the prepayment and the redemption of Bonds.

(g) No Reduction Or Offset. The Record Owner hereby acknowledges and agrees that the Assessment will not be subject to reduction, offset or credit of any kind in the event that the Project fails to perform in any way or for any reason.

(h) No Acceleration; Survival. Amounts due under the Assessment will not accelerate upon a default or late payment or enforcement of remedies under this Contract and the Assessment, the lien thereof and the obligation to pay Assessment installment when they become due shall survive any such event and continue until paid in full.

#### Section 4. Record Owner's Representations And Warranties.

(c) Protection Against Liens. Except for any Permitted Liens, the Record Owner shall promptly pay and discharge all claims for labor performed and material and services furnished in connection with construction of the Project, and take all other steps necessary to prevent the assertion of claims or liens either against the Property or the Project, other than (i) the claims and lien provided herein, (ii) liens, if any, for taxes imposed by any governmental authority not yet due or delinquent, and (iii) such other title and survey exceptions as the City or the Program Administrator has approved or may approve in writing in its sole discretion.

(d) Periodic Reports/Certifications. Upon request by the City or the Program Administrator during the period construction of the Project begins on the Property until the Project has been accepted as completed pursuant to the terms of the Construction Contract, the Record Owner shall provide to the City or the Program Administrator a written statement, certified as true, correct and complete, setting forth the status of the Project, including an updated schedule for completion of construction of the Project. Such certification shall be in such form and with such detail as the City or the Program Administrator shall specify and may be included in completion certificate(s) as set forth in the Guidebook.

(e) Notice of Claims; Adverse Matters. The Record Owner shall promptly notify the City or the Program Administrator in writing of any potential Insolvency Event and all pending or threatened litigation or other matters that may materially and adversely affect the Property or Record Owner's ability to meet its obligations under the Transaction

Documents or otherwise with respect to the Financing Purposes. "Insolvency Event" shall mean the Record Owner has (i) consented to the appointment of a conservator or receiver or liquidator in any insolvency, bankruptcy, readjustment of debt, marshalling of assets and liabilities or similar proceeding or of relating to the Record Owner or relating to all or substantially all of such Record Owner's property, (ii) fails to pay its debts as they become due and such failure has not been cured within thirty (30) days of the event, (iii) admitted in writing its inability to pay its debts as they become due, (iv) filed a petition to take advantage of any applicable insolvency or reorganization statute, (v) made an assignment for the benefit of its creditors, (vi) has filed against it a petition for involuntary bankruptcy or some other involuntary insolvency proceeding which is not dismissed within thirty (30) days, or (vii) voluntarily suspended payment of its obligations.

(f) Waiver And Release Of Claims Against City, The Program Administrator, The Authority And Related Parties. For and in consideration of the City's execution and delivery of this Contract and the Authority and, if applicable, the Warehouse Fund providing capital to finance the Project, Record Owner (for itself and for any successor-in-interest to the Property and for anyone claiming by, through or under Record Owner, including without limitation, heirs, personal representatives, mortgagees and transferees), hereby waive the right to recover from the City, the Program Administrator, the Authority, the Warehouse Fund and any and all members, officers, officials, agents, bond trustee, employees, attorneys and representatives of any of them, as well as their successors and assigns (collectively, the "Financing Parties"), and fully and irrevocably release the Financing Parties from, any and all claims, obligations, liabilities, causes of action or damages (including attorneys' fees and court costs), that Record Owner may now have or hereafter acquire against any of the Financing Parties and accruing from or related to (i) this Contract, (ii) the disbursement of Bond proceeds or interim financing provided by a Warehouse Fund, if applicable, (iii) the levy and collection of the Assessment, (iv) the imposition of the lien of the Assessment, (v) the performance of the Project, (vi) the Project, (vii) any damage to or diminution in value of the Property that may result from construction or installation of the Project, (viii) any injury or death that may result from the construction or installation of the Project, (ix) the selection of manufacturer(s), dealer(s), supplier(s), contractor(s) and/or installer(s), and their action or inaction with respect to the Project, (x) the merchantability and fitness for any particular purpose, use or application of the Project, (xi) the amount of energy savings, energy production, water conservation or other performance outcomes resulting from the Project or any assured performance guaranty, (xii) the workmanship of any third parties under any agreements including, without limitation, any Construction Contract, and (xiii) any other matter with respect to the PACE Program (collectively, the "Liabilities").

This release includes claims, obligations, liabilities, causes of action and damages of which the Record Owner is not presently aware or which the Record Owner does not suspect to exist which, if known by the Record Owner, would materially affect Record Owner's release of the Financing Parties. Notwithstanding the foregoing, Record Owner's releases under this section shall not extend to Liabilities arising from any Financing Parties

willful misconduct. The Record Owner acknowledges that the Financing Parties established the PACE Program solely for the purpose of facilitating financing of energy projects arranged by owners of commercial property located in the PACE Area. The Financing Parties are not responsible for the selection, management and/or supervision of the Project, the Project's performance, the Construction Contracts or any assumed performance guaranty. Any issues related to performance of the Project should be discussed with chosen contractors, installers, manufacturers and/or distributors involved with the Project. The waivers and releases by Record Owner contained in this section shall survive the disbursement of any Bond proceeds, interim financing provided by a Warehouse Fund, if applicable, or any portion thereof, the transfer or sale of the Property by Record Owner and the termination of this Contract.

Notwithstanding the foregoing or anything to the contrary contained in this Contract, the waiver and release provided for in this section shall not bar the Record Owner, its successors-in-interest to the Property, from bringing an equitable action against the City for specific performance of its duties and obligations under this Contract, or to enjoin or prevent the violation of this Contract thereby, it being understood and agreed, however, that the Financing Parties shall not be liable for money damages or costs of such equitable proceeding except insofar and to the extent such Liabilities arise from their willful misconduct.

(g) Engineering Commissioning And Verification.

(i) If the PACE Funding exceeds \$2 Million, then, to verify that the Project is installed and performs according to projections modeled and reported in an Energy Audit, Energy Review or Renewable Energy Feasibility Study provided by the Record Owner and accepted by the Program Administrator to satisfy the requirements of the PACE Program and detailed in the Technical Project Review ("TPR") submitted as part of the PACE Project Application, engineering commissioning and verification ("ECV") of the Project shall be performed according to the requirements set forth in the Program Guidebook.

(ii) Upon completion of ECV, the Record Owner shall submit a post-construction ECV report to the City or the Program Administrator in a form provided by the Program Administrator. This report shall contain:

(1) A statement that systems have been completed in accordance with the Project Report and Project contract documents, and that the systems are performing as expected; and

(2) Identification and discussion of any substitutions, compromises, or variances between the final design intent, contract documents and as-built conditions.

Section 6. Lien; Foreclosure.

(a) Lien. The Assessment, and each installment thereof and the interest and any penalties thereon shall constitute a lien against the Property until they are paid, which lien shall be coequal to and independent of the lien for general taxes.

(b) Foreclosure. The Record Owner acknowledges and agrees that if any Assessment installment is not paid when due, the City shall have all rights and remedies for such nonpayment as it does with respect to delinquent property taxes and other delinquent special assessments as set forth in Article 9 of the Illinois Municipal Code, including the lien, sale, and foreclosure remedies described in that article ("Enforcement Remedy"). Any Assignee shall have and possess the delegable powers and rights at law or in equity as the City would have with respect to an Enforcement Remedy with regard to (i) the precedence and priority of liens evidenced by this Contract, (ii) the accrual of interest, and (iii) the fees and expenses of collection, and shall have the right to enforce such liens through an Enforcement Remedy. The Record Owner acknowledges that the Assignee may obligate itself, through a covenant with the owners of the Bonds, to exercise an Enforcement Remedy with respect to enforcement of delinquent Assessments under circumstances specified in such covenant.

Section 7. Financing Or Refinancing Of The Project. The parties hereby agree that the net proceeds of the Bonds or interim financing provided by a Warehouse Fund, if applicable, allocable to the Assessment shall be used to finance or refinance the Project.

Section 8. Term; Contract Runs With The Land; Division.

(a) Except as otherwise set forth in this Contract, this Contract shall expire upon the final payment or prepayment of the Assessment.

(b) This Contract establishes rights and obligations that are for the benefit of the Property and, therefore, such rights and obligations run with the land.

(c) The obligation to pay the Assessment is an obligation of the Property and no agreement or action of the Record Owner shall be competent to impair in any way the rights of the City or the Program Administrator or the rights of any Assignee, including, but not limited to, the right to pursue judicial foreclosure of the Assessment lien or the right to enforce the collection of the Assessment or any installment thereof against the Property.

(d) In the event the Property is divided while the Assessment remains unpaid, the unpaid installments of the Assessment shall be segregated and apportioned by the City or the Program Administrator in accordance with a method selected by it in its good faith judgement.

Section 9. Recordation Of Documents. The City or the Program Administrator shall record or cause to be recorded in the office of the County Recorder this Contract and any other documents required by applicable law or any Assignee to be recorded.

Section 10. Notice. The Record Owner shall provide written notice to any subsequent purchaser of the Property, or a portion thereof, of the obligation to pay the Assessment.

Section 11. Waivers, Acknowledgment And Contract.

(a) Since the Assessment is voluntary and imposed, in accordance with the Act, pursuant to this Contract, the Record Owner hereby waives any requirements otherwise applicable to special assessments under any other provision of Illinois law, for notice or public hearing.

(b) The Record Owner hereby waives its right to appeal or contest the Assessment or to file any lawsuit or other proceeding to challenge the Assessment or any aspect of the proceedings of the City undertaken in connection with the PACE Program. The Record Owner hereby agrees that the Record Owner and its successors in interest to fee title in the Property shall be solely responsible for the installation, operation and maintenance of the Project. The Record Owner hereby acknowledges that the Record Owner and its successors in interest to fee title in the Property will be responsible for payment of the Assessment regardless of whether the Project is properly installed, operated, maintained or performs as expected.

(c) The Record Owner hereby agrees that the City is entering into this Contract solely for the purpose of assisting the Record Owner with the financing or refinancing of the Project, and that neither the City nor the Program Administrator has any responsibility of any kind for, and shall have no liability arising out of, the installation, operation, financing, refinancing, maintenance or performance of the Project. The Record Owner hereby certifies to the City that the City has complied with the provisions of Section 25 of the Act. The Record Owner hereby waives the right to recover from and fully and irrevocably releases the Financing Parties from any and all losses, liabilities, claims, damages (including consequential damages), penalties, fines, forfeitures, costs and expenses (including all reasonable out-of-pocket litigation costs and reasonable attorney's fees), relating to the subject matter of this Contract that the Record Owner may now have or hereafter acquire against the Financing Parties.

Section 12. Indemnification.

(a) The Record Owner agrees to indemnify, defend, protect, and hold harmless the Financing Parties from and against all losses, liabilities, claims, damages (including consequential damages), penalties, fines, forfeitures, costs and expenses (including all out-of-pocket litigation costs and attorney's fees) and any demands of any nature whatsoever related directly or indirectly to, or arising out of or in connection with (i) the Record Owner's participation in the PACE Program, (ii) the Assessment, (iii) the Project, or (iv) any other fact, circumstance or event related to the subject matter of this Contract, regardless of whether such losses, liabilities, claims, damages (including consequential damages), penalties, fines, forfeitures, costs and expenses (including all out-of-pocket litigation costs and attorney's fees) accrue before or after the date of this Contract.

(b) The provisions of this section shall survive the termination of this Contract.

Section 13. Right To Inspect Property. The Record Owner hereby grants the City, the Program Administrator, the Authority, the Bond trustee, the Warehouse Fund and their respective agents and representatives the right to enter at any reasonable time, upon reasonable notice, to inspect the Project. The Record Owner further hereby grants the City, the Program Administrator, the Authority, any Bond trustee, the Warehouse Fund and their respective agents and representatives the right to examine and copy any documentation relating to the Project.

Section 14. PACE Project Application. The Record Owner hereby represents and warrants to the City and the Program Administrator, that the information set forth in the PACE Project Application submitted to the City or the Program Administrator in connection with its request for PACE Funding is true and correct as of the date hereof, and that the representations set forth in the PACE Project Application with respect to the Property and the Record Owner are true and correct as of the date hereof as if made on the date hereof.

Section 15. Amendment. This Contract may be modified or amended only by the written agreement of the City (or its Assignee, as applicable) and the Record Owner and the consent of the Assignee, if any.

Section 16. Binding Effect; Assignment. This Contract inures to the benefit of and is binding upon the City and the Record Owner and its respective successors and assigns. OTCA assigned all of its right, title and interest in and to the Lease to CenterPoint O'Hare LLC ("CenterPoint O'Hare"), by an Assignment and Assumption of Ground Lease dated May 10, 1996, consented to in advance by Landlord in a letter to OTCA dated April 22, 1995 ("Landlord's Consent Letter"). Landlord and CenterPoint O'Hare entered into a Second Corrective and Implementing Supplement to the Ground Lease dated October 25, 1996 ("Second Supplement") to reflect additional corrections to the Ground Lease, to delete the Phase A-1 Parcel from the Premises under the Ground Lease and confirm other matters relating to the creation of the Separate Lease with respect to the Phase A-1 Parcel, to provide for a change in use of the Detention Area, modify Design Standards and modify certain drainage easements, among other matters. Landlord and CenterPoint O'Hare entered into a First Amendment to Ground Lease dated as of September 1, 1997 ("First Amendment"), to shorten the term of the Ground Lease and to make other accommodations to permit tax-exempt bond financing of the Project. Landlord and CenterPoint O'Hare entered into a Second Amendment to Ground Lease dated as of August 11, 1999 ("Second Amendment"), to add part of the Northeast Parcel to the Premises leased under the Ground Lease. Landlord and CenterPoint O'Hare entered into a Third Amendment to Ground Lease dated as of November 25, 2003 ("Third Amendment"), to add a remaining part of the Northeast Parcel to the Premises leased under the Ground Lease. Following transfer of substantially all of the right, title and interest in CenterPoint O'Hare occurring in 2006, CenterPoint O'Hare was renamed to Tenant's current name of Aero O'Hare Express LLC (the "Aero Transfer"), which was thereafter acknowledged by that certain Release and Settlement Agreement by and between Landlord and Tenant dated May 1, 2007, whereby the City agreed to Consent to the Aero Transfer ("Aero Transfer Consent"). The Ground Lease, as modified by the First Supplement, Second Supplement, Landlord's Consent Letter, Aero Transfer Consent, the First Amendment, the Second Amendment and the Third Amendment is herein sometimes referred to as the "Lease".

B. Landlord owns and operates the Airport, with the power to lease premises and facilities and to grant rights and privileges with respect thereto.

C. Landlord and CenterPoint O'Hare previously amended the Lease to provide for the lease to Tenant of the Phase C Parcel Addition legally described on (Sub)Exhibit A to the Second Amendment, and to provide for the lease of the balance of the area being the Northeast Parcel as legally described on (Sub)Exhibit A to the Third Amendment.

D. Landlord and Tenant now wish to amend the Lease to provide for the lease to Tenant of an additional 8,061.81 square feet as shown as "Parcel 2" on the attached (Sub)Exhibit A (the "515 Expansion Premises"), being an expansion of the parking lot area serving the existing portion of the Premises commonly known as 515 Express Center Drive, Chicago O'Hare International Airport, Chicago. The 515 Expansion Premises is more particularly described on (Sub)Exhibit B hereto.

E. Tenant's predecessor in interest, as declarant, executed and recorded the Declaration of Easements, Covenants and Restrictions dated October 25, 1996, relating to the Premises on October 30, 1996 in the Recorder's Office of Cook County, Illinois, as Document Number 96 828 937 ("Declaration"). Landlord and Tenant now wish to amend the legal description of the Premises under the Declaration to include the Expansion Premises after its inclusion in the Premises under the Lease.

F Execution of this Fourth Amendment by Landlord is authorized by ordinance passed by the City Council of the City of Chicago on \_\_\_\_\_, 2019 (*Journal of the Proceedings of the City Council of the City of Chicago*, page \_\_\_\_\_) ("2019 Ordinance").

Effective as of the 515 Expansion Commencement Date, the area of the Premises is increased by 8,061.81 square feet, being the area of the 515 Expansion Premises. The 515 Expansion Premises shall not be considered as a separate "Parcel" but rather merely a limited expansion of a Premises under the Lease. Improvements to be constructed on the 515 Expansion Premises shall not be considered as a separate "Phase" but rather a Substantial Alteration to the improvements pursuant to Article 7 of the Lease.

(b) Effective as of the 515 Expansion Commencement Date, the additional 8,061.81 square feet of area encompassing the 515 Expansion Premises shall be included in the area of the Premises used for determination of Base Rent. (c) For purposes of Article 26 of the Lease and determination of Pre-Existing Conditions, Pre-Existing Conditions of the 515 Expansion Premises shall include matters existing as of the 515 Expansion Commencement Date.

(d) Tenant accepts the 515 Expansion Premises, including any improvements thereon, and title thereto in the condition set forth in the Lease, as if it had been included in the Premises leased on the Commencement Date.

(e) Easements theretofore granted appurtenant to Tenant's leasehold interest in the Premises shall also be appurtenant to the 515 Expansion Premises, effective as of the date of inclusion of such portion in the Premises; provided, however, the easement for drainage and storm water retention appurtenant to the Leasehold Estate granted in the First Supplement and Second Supplement shall not benefit any portion of the Premises other than the Parcels for which such easement was specifically granted, in no event benefiting the Phase B-2 Parcel, Phase C Parcel or Remaining Northeast Parcel.

(f) Real estate taxes for the 515 Expansion Premises shall be paid by Tenant in the manner set forth in Article 4 of the Lease for the period after its inclusion in the Premises.

2. Modification Of Declaration Of Easements, Covenants And Restrictions. Concurrently herewith, or immediately hereafter, Tenant will record confirmation of the amendment of the Declaration, pursuant to Section 1(A)(11) of the Declaration, to reflect the inclusion on (Sub)Exhibit A to the Declaration of the 515 Expansion Premises, being an additional portion of the Premises legally described in (Sub)Exhibit A to the Declaration, in form approved by Landlord.

3. Bond Financed Property. No proceeds of the Bonds may be used to pay costs of acquiring, constructing, installing or equipping the 515 Expansion Premises, unless Tenant shall have first delivered to Landlord a Favorable Opinion of Tax Counsel (as defined in the Indenture) as to proposed use of such proceeds. If any proceeds of Bonds are used to pay such costs, then the 515 Expansion Premises shall become part of the Bond Financed Property and "Project" under the Loan Agreement.

4. Amendment. Except as expressly modified herein, the provisions of the Lease, including Article 21, remain unmodified and in full force and effect.

5. Short Form Of Lease. On or after the 515 Expansion Commencement Date, Landlord and Tenant shall amend the Short Form of Lease recorded on August 21, 1995 in the Recorder's Office of Cook County, Illinois, as Document Number 95552388, as amended and recorded on May 13, 1996 in the Recorder's Office of Cook County, Illinois, as Document Number 96362099, as amended and recorded on October 25, 1996, in the Recorder's Office of Cook County, Illinois, as Document Number 96828939, as amended and recorded on October 30, 1996 and as amended August 11, 1999 and recorded on July 17, 2000, in the Recorder's Office of Cook County, Illinois, as Document Number 00530095, to reflect the inclusion of the 515 Expansion Premises in the Premises.

Electrical outlets shall be installed by the Licensee at locations where an electrical outlet is not currently available.

(i) Booth, podium, stations, barricades, computer, register, biometric identification verification equipment, and all other related equipment (Verification Station Equipment") that is installed within the assigned areas for use by the general public to 1) walk through screening after registration confirmation, 2) to make inquiries regarding expedited traveler services, 3) to sign-up and remit payment to register for expedited traveler services, or 4) other permitted type of transaction or information retrieval by way of registration and use of the Expedited Traveler Services. Any changes in the amount or types of equipment shall require the prior written approval of the Commissioner.

(ii) Biometric Verification Station Fixtures and Equipment and Equipment Installation Phasing Schedule, may be amended from time to time during the term of this Agreement at the sole discretion of the Commissioner.

2.3 Registered Traveler Services Rates and Charges: Licensee shall provide the City with a list of all charges, including but not limited to enrollment fees, membership fees, taxes, any governmental taxes that are passed through to the customer, within thirty (30) days from the execution of this Agreement by Licensee; and shall provide the City with written notice of any increase in charges not less than thirty (30) days prior to the proposed implementation date for such proposed increases.

2.4 Equipment Quality. Licensee shall provide high quality service to the City and the traveling public at the Airport for the Registered Traveler License. All items Licensee installs or uses to provide services pursuant to this Agreement must be provided by reliable sources and meet any Transportation Security Administration ("TSA") standards. All equipment, materials, parts, cable, software, and hardware furnished shall be new and unused, shall be current models, and except as specifically authorized, in writing, by the Commissioner, shall be of first quality with the latest upgrades, and shall conform in all respects to laws in effect and as may be enacted from time to time. If and when such items are replaced, the replacement equipment shall also be new and used and shall be current models. Failure on the part of Licensee to promptly correct, modify or rectify any deficiencies, with ten (10) days, upon written notice from the Commissioner shall be cause for termination of the Agreement by the City.

2.5 Rights of Ingress and Egress. Subject to those rules and regulations promulgated by the Commissioner, Licensee shall have such rights of ingress and egress to and from the Concession Premises over the Airport's Common Areas and other public areas of the Airport as may be reasonably necessary for Licensee, and their respective employees, agents, and Contractors and

for each of their equipment and vehicles. Licensee shall control all of their respective vehicular traffic on the Airport, take all precautions as may be reasonably necessary to promote the safety of passengers, customers, business visitors and other persons, and employ such means as may be reasonably necessary to direct movements of any such vehicular traffic.

Licensee agrees that the City retains the right to place in, through or over the Concession Premises, utility lines, mains, telecommunication lines, antennas, shafts, pipes, ducts, conduits, wires, and the like for the use and benefit of the City and other Licensees and occupants of the Airport and to replace and maintain, repair and relocate such lines, antennas, mains, shafts, pipes, ducts, conduits, wires and the like, in, over and upon the Concession Premises. When exercising its rights under this Section, the City agrees to use reasonable efforts not to materially interfere with Licensee's use of the Concession Premises. Any such lines, antennas, mains, pipes, shafts, ducts, conduits, wires and the like in, though, or over the Premises shall not be deemed to be a part of the Premises.

2.6 City's Delivery of the Concession Premises/Shell and Core. The City is responsible for providing the Premises in its current AS-IS WHERE-IS condition. The City makes no warranty, either express or implied, as to the design or condition of the Concession Premises, including the Shell and Core, or the suitability of the Concession Premises, for the Licensee's purposes or needs. The City is not responsible for any patent or latent defect, and Licensee must not, under any circumstances, withhold any amounts payable to the City under this Agreement on account of any defect in the Concession Premises, including the Shell and Core. If feasible, the City will assign to Licensee any warranties obtained from the City's contractor for the Shell and Core and/or the right to enforce City's rights under its contract for the Shell and Core.

2.7 Additional Space. During the Term, the Commissioner shall have the right, but not the obligation, in his/her absolute and sole discretion, to add square feet of space. - a. size and location, including an Agreement outline drawing of the Additional Premises; and

Within ninety (90) days after receiving the written notice from the Commissioner, the Additional Space will be added to the Concession Premises as of the Date of Beneficial Occupancy for such Additional Space, as applicable, under this Agreement and **Exhibit A** shall be modified accordingly. Nothing set forth above requires the Commissioner to offer any Additional Space to Licensee.

Relocation Space. The Commissioner may, following discussions with Licensee and an opportunity to consult, during the Term, require Licensee to vacate any portion of the Premises and relocate the Licensee's operations in those affected portions of the Premises to another location within the Airport ("**Relocation Space**") when, in the sole discretion of the

Commissioner, the portion of the Premises to be relocated is necessary for other Airport or airline operational purposes or with respect to Airport security requirements. In such an event:

(i) The Commissioner will notify Licensee in writing within a reasonable period of time prior to the date that the affected portion of the Premises need to be vacated and the affected operations moved to the Relocation Space. Such notice will be not less than ninety (90) days in advance of the proposed relocation. To the extent practicable, the City will endeavor not to require Licensee to move from the affected Concession Premises being vacated before the City completes the construction and Improvements to the Relocation Space and the Relocation Space is ready to be open for business to the public, but the portion of the Premises being vacated may be needed for other Airport operational purposes prior to the completion of Improvements in the Relocation Space. (No)

(ii) The Department shall use its best efforts to provide Relocation Space which is a comparable location in terms of size, exposure to departing passengers, and the ability to generate the same level of Licensee's Gross Revenues as existed in the portion of the Concession Premises to be vacated. Any such additions, reductions and removals and relocations will be at the sole expense of Licensee. If the Relocation Space is not acceptable in Licensee's reasonable good faith business judgment, Licensee may reject the Relocation Space by notifying the Commissioner in writing no later than thirty (30) days after Licensee receives the Commissioner's notice.

(iii) In the case of a relocation, Licensee must promptly vacate the portion of the Premises required to be vacated and as to which this Agreement is being terminated on the date specified in the Commissioner's notice and return that portion of the Premises in as good condition as existed as of the date that the City gave Licensee possession of the Premises being vacated normal wear and tear and damage by casualty excepted, unless the Commissioner otherwise agrees in writing. Temporary disruptions of Licensee's operations resulting from such additions reduction and removal and/or relocation shall not entitle Licensee to a temporary location elsewhere.

(iv) In the event the Relocation Space is rejected by Licensee or its applicable Licensees and the Agreement is terminated as to the affected portion of the Concession Premises pursuant to (ii) above, then the MAG as of such date will be automatically and equitably adjusted retroactive to the date in which the Concession Premises was required to be vacated in accordance with the following formula: the then current MAG shall be multiplied by a fraction, the numerator of which is the total Gross Revenues generated from the remaining portion of the Concession Premises during the twelve (12) month period immediately following the surrender of the affected portion of Concession Premises and the denominator of which is the total Gross Receipts generated from the Concession Premises during the twelve (12) month period immediately prior to the surrender of the affected portion of the Concession Premises. Any overpayments of the MAG

made by Licensee until such determination of the equitable adjustment shall be made shall be credited against Rent due and owing to the City from Licensee until the full amount of the credit has been applied against Rent.

2.8 Permitted Uses. Subject to prohibitions that follow, the Premises may be used for only those Registered Traveler Services identified in this Agreement. The City will hold the proceeds as a cash Security to secure the full and faithful performance of Licensee's obligations under this Agreement. The Commissioner is not obligated to pay or credit Licensee with interest on any Security.

(iii) The Commissioner also is entitled to draw on the Letter of Credit in whole or in part upon the occurrence of an Event of Default, in which event the Commissioner is entitled to apply all or any part of the proceeds of it or any cash or other Security deposited by Licensee and held by the City for the payment of any obligation of Licensee arising before or after the Event of Default.

(e) Non-Waiver. Notwithstanding anything to the contrary contained in this Agreement, the failure of the Commissioner to draw upon the Letter of Credit required under this Agreement or to require Licensee to replace the Letter of Credit at any time or times when the Commissioner has the right to do so under this Agreement does not waive or modify the Commissioner's rights to draw upon the Letter of Credit and to require Licensee to maintain or, as the case may be, replace the Letter of Credit, all as provided in this **Article 5**.

Except as expressly provided elsewhere in this Agreement, neither this Agreement nor any interest of Licensee in this Agreement or the leasehold created hereby shall be directly or indirectly sublet, sold, assigned, transferred, mortgaged, pledged or otherwise disposed of or encumbered (each considered a "Transfer") without the express written consent of the City. A change in ownership or control of Licensee, either directly or indirectly, shall be deemed a Transfer.

(b) City Consent. Whenever City consent is required, a Transfer of all of Licensee's interest in this Agreement or the leasehold created hereby shall require consent of the City Council of the City of Chicago, which may be withheld in the sole discretion of the City Council, and a Transfer of less than all of Licensee's interest shall require consent of the Commissioner. In determining whether or not to consent to a Transfer, City will take into account, without limitation, the promotion of a competitive environment at the Airport in light of the then-existing circumstances, the proposed use of the Premises by any transferee, the balanced utilization of the Airport facilities, operational considerations relating to the characteristics of the proposed transferee, the financial condition of the proposed transferee and the impact on City's ability to exercise control over the Airport. Consent by City to any type of Transfer shall not in any way be construed to relieve Licensee from obtaining further authorization from City for any subsequent Transfer of any nature whatsoever.

(c) Transfers not requiring City Consent.

(i) Transfers to Affiliates. Licensee may effect a Transfer to an Affiliate of Licensee without City consent with sixty (60) days' prior notice to the City, provided that: (i) the proposed transferee Affiliate is in compliance with all of the legal requirements of this Agreement, (ii) the proposed transferee Affiliate is sufficiently financially responsible, experienced and capable to perform Licensee's obligations under this Agreement, (iii) the proposed transferee Affiliate assumes all of Licensee's obligations under this Agreement, (iv) in the Commissioner's reasonable opinion, the Transfer will not have a material adverse effect upon the Airport or operation of the Terminal, (v) no Event of Default then exists and (vi) the transferee Affiliate executes the City's EDS form and certifies therein compliance with all laws and ordinances referenced.

Transfers that are changes in ownership of Licensee due to trading in or issuance of a parent company's stock or other forms of ownership interests on a national or international exchange shall not be subject to City consent; however, Licensee shall promptly notify the City of any such change in ownership which would

require disclosure of a new owner or disclosure of other changes in percentage ownership on the then-current version of the City's EDS form, and Licensee shall submit revised EDS form(s) accordingly. As used in this provision, "national or international exchange" means the New York Stock Exchange, the American Stock Exchange, NASDAQ or their foreign equivalent.

(d) Licensee to Remain Primarily Liable. Notwithstanding any Transfer, with or without City consent, Licensee shall remain fully liable for the payment of all of its fees and fully responsible for the performance of all of its other obligations hereunder, except where the City Council consents to the Transfer and expressly relieves Licensee of such liability and responsibility.

Upon request by City, Licensee shall provide copies of the proposed documents of Transfer. Requests for City consent to a Transfer shall completely disclose any and all monetary and non-monetary considerations made or to be made to Licensee for said Transfer and shall include completed EDSes from the proposed transferee. Any or all of the requests by Licensee for consents under this Section must be made in writing and provided to the Commissioner (a) at least 60 days prior to the proposed Transfer if the Commissioner's consent is required; and (b) at least 120 days prior to a proposed Transfer if the City Council's consent is required, unless the City determines that more time is required.

(f) City's Right to Collect from Transferee. If any Transfer shall occur, with or without City consent, City may collect fees and other sums to be paid under the Agreement from any assignee, or other transferee of Licensee, and in such event shall apply the net amount collected to the fees and other sums payable by Licensee hereunder without such action by City releasing Licensee from any of its obligations hereunder. If any Transfer requiring City consent shall occur without City consent, and if City collects fees and other sums from the transferee and applies the net amount collected in the manner described in the preceding sentence, such actions by City shall not be deemed to be a waiver of the consent requirement or constitute acceptance of such transferee.

(g) Transfers Without City Consent Void. Any Transfer requiring City consent made without such City consent shall be void and of no effect. Further, any such Transfer shall constitute an Event of Default subject to all remedies, including termination of this Agreement at the City's option, and does not relieve Licensee of any of its obligations under this Agreement for the balance of the Term. This Section applies to prohibit a Transfer, such as an assignment by a receiver or trustee in any federal or state bankruptcy, insolvency or other proceedings or by operation of law. Under no circumstances will any failure by the Commissioner to act on or submit any request by Licensee to City Council or to take any other action as provided in this Agreement be deemed or construed to constitute consent to the Licensee's request by the Commissioner or by the City Council.

(h) Excess Rent. In the event of a permitted Transfer of all or any portion of the Premises or Transfer of all or any portion of the Term, where the fees or rent payable to Licensee exceed the Rent or pro rata portion of the Rent payable by Licensee to City under this Agreement, as the case may be, for the Premises or Term, Licensee must pay the City monthly, as Additional Rent, at the same time as the monthly installments of other Rent under this Agreement that are payable in monthly installments, the excess of the fees or rent payable to Licensee pursuant to the Transfer over the Rent payable to the City under this Agreement.

If Licensee pays an employee the wage for employees who receive gratuities, shall transmit to the City, in a manner provided by regulation, substantial evidence establishing both the amount that the employee received as gratuities during the relevant pay period or periods, and the fact that the employee did not return any part of those gratuities to the Licensee, SubLicensees, or subcontractor. If Licensee is required by the Minimum Wage Law to provide substantially similar data to the Illinois Department of Labor, the City may allow compliance with this requirement by filing the same documentation with the City. The City shall utilize this data to ensure that each employee receives, in combined salary and gratuities, at least the base hourly wage required under Executive Order 2014-1.

However, the Minimum Wage is not required to be paid to categories of employees subject to subsection 4(a)(2), subsection 4(a)(3), subsection 4(d), subsection 4(e), or Section 6 of the Illinois Minimum Wage Law. Nevertheless, the Minimum Wage is required to be paid to those workers described in subsections 4(a)(2)(A) and 4(a)(2)(B) of the Illinois Minimum Wage Law.

Additionally, the Minimum Wage is not required to be paid to employees subject to a collective bargaining agreement that provides for different wages than those required by Executive Order 2014-1, if that collective bargaining agreement was in force prior to October 1, 2014 or if that collective bargaining agreement clearly and specifically waives the requirements of the order.

This Minimum Wage section does not apply if Licensee or SubLicensee is a not-for-profit organization having tax-exempt status under Section 501(c)(3) of the United States Internal Revenue Code and recognized under Illinois law governing not-for-profit corporations.

No construction must take place until the Commissioner has approved the Construction Documents.

#### 8.5 Licensee Construction Costs.

The City reserves the right to require Licensee to provide a list of selected architects, interior designers, and construction managers for prior written approval by the City, which approval shall be timely and shall not be unreasonably withheld.

8.6 No Mechanics' Liens. Licensee must notify its subcontractors that no mechanic's liens under the Illinois Public Mechanic's lien Act, 770 ILCS 60/23 will be permitted to arise, be filed, or maintained against public funds, the work, or any part thereof or any interest therein, or any improvements thereon, or against any monies due or to become due to the SubLicensees on account of any work, labor, services, materials, equipment, or other items performed or furnished for or in connection with the Project; and the SubLicensees, for itself and its subcontractors, does hereby expressly waive, release, and relinquish such liens and all rights to file or maintain such liens; and agrees further that this waiver of liens and waiver of the right to file or maintain such liens will be an independent covenant. Licensee and its SubLicensees must not permit any mechanics' lien for labor or materials furnished or alleged to have been furnished to it to attach to any portion of the Premises, any SubLicensees Premises, the Terminal or the Airport, Licensee's leasehold interest, and interest or this Agreement in any way relating to any work performed by or at the direction of Licensee or SubLicensees. Upon making payments to Contractors, Licensee shall use commercially reasonable efforts to obtain from each Contractor a waiver or mechanics' liens against any portion of the Premises, any SubLicensees Premises, the Airport, Licensee's leasehold interest, or this Agreement arising out of any work done by the Contractor and each and every of the Contractor's materialmen and workmen. If, nonetheless, any such mechanics' lien is filed upon any portion of the Premises, any SubLicensees Premises, the Terminal or the Airport, Licensee's leasehold interest, , or this Agreement, Licensee, or its SubLicensees, as the case may be, shall indemnify, protect, defend and save harmless the City against any loss, liability or expense whatsoever by reason of it and must promptly and diligently proceed with or defend, at its own expense, the action or proceedings as may be necessary to remove the lien. Licensee must deliver notice to the Commissioner of any such lien or claim within fifteen (15) days after Licensee has knowledge of it. Licensee may permit the mechanics' to remain undischarged and unsatisfied during the period of the contest and appeal; provided that, if requested by the Commissioner, Licensee or its SubLicensees must within thirty (30) days following the Commissioner's request post a bond with the City equal to 100% of the amount of the lien. If the lien is stayed and the stay later expires or if by nonpayment of any lien any portion of the Premises, any SubLicensees Premises, the Terminal or the Airport, Licensee's leasehold interest, or this Agreement will be, or is claimed to be, subject to loss or forfeiture, then Licensee or its SubLicensees must immediately pay and cause to be satisfied and discharged the lien. If Licensee or its SubLicensees fails to do so, the Commissioner may, in her sole discretion, draw on the bond and make such payment. If the Commissioner has not requested a bond, then the Commissioner may, in her sole discretion, make such payment out of legally available Airport funds and, in such event, the amount paid shall immediately be payable by Licensee as Additional Rent. Failure to post a bond when requested by the Commissioner or pay such Additional Rent shall be an Event of Default.

The Licensee must give, or cause to be given, a copy of these provisions to all subcontractors and will include these provisions in all contracts with subcontractors and/or give written notice of same to all subcontractors or other persons having oral or written agreements with such subcontractors.

8.7 City Resident Construction Worker Employment Requirement.

- (a) Use of Residents. In connection with and during the construction of the Work,

Licensee, Licensee and its contractors must comply with the provisions of §2-92-330 of the Municipal Code of the City of Chicago ("**Municipal Code**"), as amended from time to time concerning the minimum percentage of total construction worker hours performed by qualified actual residents of the City. At least 50% of the total construction worker hours worked by persons on the site of the Work must be performed by actual residents of the City and 7.5% of the total work hours (which may be included in the 50%) must be performed by residents of neighborhoods surrounding the Airport as defined in paragraph (b). Licensee or its SubLicensees may request a reduction or waiver of this minimum percentage level of Chicagoans in accordance with standards and procedures developed by the Chief Procurement Officer of the City. In addition to complying with this percentage, Licensee, its SubLicensees and any of their respective Contractors are required to make good faith efforts to utilize qualified actual residents of the City in both unskilled and skilled labor positions. "**Actual residents of the City**" means persons domiciled within the City. The domicile is an individual's one and only true, fixed and permanent home. Licensee, its SubLicensees and each of their respective Contractors (for purposes of this subsection, "**Employer**") must provide for the maintenance of adequate employee residency records to ensure that actual Chicago residents are employed. Each Employer will maintain copies of personal documents supportive of every Chicago employee's actual record of residence.

(b) Certified Payroll Reports. In connection with and during the construction of the Work, if requested at the time by the Commissioner, weekly certified payroll reports (U.S. Department of Labor Form WH-347 or equivalent) must be submitted to the Commissioner in triplicate and must identify clearly the actual residence of every employee on each submitted certified payroll. The first time that an employee's name appears on a payroll, the date that the Employer hired the employee should be written in after the employee's name.

(c) Inspection of Records. In connection with and during the construction of the Work, each Employer must provide full access to its employment records to the Chief Procurement Officer, the Commissioner, the Superintendent of the Chicago Police Department, and the Inspector General or any duly authorized representative of any of them. Each Employer must maintain all relevant personnel data and records for a period of at least three (3) years after final acceptance of the Work. At the direction of the Commissioner, affidavits and other supporting documentation may be required of each Employer to verify or clarify an employee's actual address when doubt or lack of clarity has arisen.

(d) Level of Effort. Efforts on the part of each Employer to provide utilization of actual Chicago residents that are not sufficient for the granting of a waiver request as provided for in the standards and procedures developed by the City's Chief Procurement Officer will not suffice to replace the actual, verified achievement of the requirements of this Section concerning the worker hours performed by actual Chicago residents.

(e) Shortfalls; Liquidated Damages. When the Work is completed, in the event that the City has determined that Licensee has failed to ensure the fulfillment of the

requirement of this Section concerning the worker hours performed by actual residents of the City or failed to report in the manner as indicated above, the City will thereby be damaged in the failure to provide the benefit of demonstrable employment to Chicagoans to the degree stipulated in this Section. Therefore, in such a case of non-compliance, it is agreed that 1/20 of 1% of the aggregate hard construction costs of the Improvement Costs (the product of .0005 x such aggregate hard construction costs) (as evidenced by approved contract value for the actual contracts) must be surrendered by Licensee to the City as liquidated damages, and not as a penalty, in payment for each percentage of shortfall toward the stipulated residency requirement. Failure to report the residency of employees entirely and correctly will result in the surrender of the entire liquidated damages as if no actual residents of the City were employed in either of the categories. The willful falsification of statements and the certification of payroll data may subject Licensee, its SubLicensees and/or the Contractors to prosecution. The City may draw against the Security any amounts that appear to be due to the City under this provision pending the City's determination as to the full amount of liquidated damages due on completion of the Work.

(f) Nothing set forth in this Section acts as a limitation upon the "Notice of Requirements for Affirmative Action to Ensure Equal Employment Opportunity, Executive Order 11246" and "Standard Federal Equal Employment Opportunity, Executive Order 11246," or other affirmative action required for equal opportunity under the provisions of this Agreement or related documents, as applicable.

(g) Inclusion in Contracts. Licensee and its SubLicensees must cause or require the provisions of this Section to be included in all construction Contracts related to the Work.

8.8 Licensing of General Contractor. This Agreement is subject to Chapter 4-36 of the Municipal Code which requires all persons acting as a general contractor (as defined in Chapter 4-36) to be licensed as a general contractor by the City. Licensee's failure to ensure that any general contractor working on Improvements complies with Chapter 4-36 of the Municipal Code will be an Event of Default under this Agreement. Licensee shall also include a similar provision in any agreements with contractors and failure to comply with Chapter 4-36 of the Municipal Code will be a default.

8.9 Prevailing Wages. In connection with the construction, repair, and maintenance of Improvements, Licensee must comply with the applicable provisions of 820 ILCS 130/0.01 et seq. regarding the payment of prevailing wages, and the most recent Illinois Department of Labor schedule of prevailing wages, and any successors to them. Licensee shall insert appropriate provisions in all Contracts covering construction work under this Agreement to ensure compliance of all construction Contractors with the foregoing wage statutes and regulations.

8.10 Contractor Certifications. Licensee must require all Contractors performing Work in connection with this Agreement to be bound by the following provision and Licensee must cooperate fully with the City in exercising the rights and remedies described below or otherwise available at law or in equity:

“Contractor certifies and represents that Contractor and any entity or individual that owns or controls, or is controlled or owned by, or is under common control or ownership with Contractor is not currently indebted to the City and will not at any time during the Term be indebted to the City, for or on account of any delinquent taxes, liens, judgments, fees or other debts for which no written agreement or payment plan satisfactory to the City has been established. In addition to any other rights or remedies available to the City at law or in equity, Contractor acknowledges that any breach or failure to conform to this certification may, at the option and direction of the City, result in the withholding of payments otherwise due to Contractor for services rendered in connection with the Agreement and, if the breach or failure is not resolved to the City’s satisfaction within a reasonable time frame specified by the City in writing, may result in the offset of any such indebtedness against the payments otherwise due to Contractor and/or the termination of Contractor for default (in which case Contractor will be liable for all excess costs and other damages resulting from the termination.)”

8.11 Manager. Licensee shall designate an experienced Project Manager acceptable to the Commissioner. He/she shall be responsible for the implementation and management of the day-to-day operations of the services. This individual shall be the single point of contact between the City and Licensee and be involved in the fulfillment of the requirements outlined herein and elsewhere in this Agreement. Within 120 days of the completion of such improvements, Licensee shall furnish the City with a statement certified by an officer of Licensee, subject to audit by the City, detailing the actual costs expended for the investment. Following approval of the costs and expenses for any investment provided for in this Agreement, the approved amounts shall be included in Licensee’s Certified Construction Costs and/or in each applicable SubLicensees Certified Construction Costs, as the case may be.

8.13 Ownership of Improvements. Unless otherwise provided herein, Improvements and any alteration or modification thereto installed in the Premises by Licensee or any of its SubLicensees shall become part of the Premises, and upon completion of the Improvements title thereto shall vest in the City (subject to Licensee’s leasehold interest), except with respect to

Operating Equipment and any other items of personal property in the Premises from time to time. For clarity, Licensee's biometric enrollment and verification devices are not deemed to be Improvements. Upon termination of Licensee's occupancy of the Premises or the expiration of the Term, Licensee shall cause its upon request of the City, to remove any Operating Equipment and personal property repair any damage to the Premises caused by such removal, reasonable wear and tear and damage by casualty excepted. If Licensee does not promptly remove or cause the removal of such Operating Equipment and personal property upon request of the City, the City may, without any obligation to do so, enter the Premises and remove such Operating Equipment and personal property, hold the same for the owners thereof or may place the same in a public warehouse, all at the expense and risk of Licensee and/or the SubLicensees, as the case may be. Licensee shall or shall cause its SubLicensees to reimburse the City for any reasonable expense incurred by the City in connection with such removal, repair and storage. Licensee shall indemnify, release and hold harmless and shall also cause its SubLicensees to indemnify, release and hold harmless the City (and Licensee, in the case of a SubLicensees) from any and all damage, costs and expenses related to said removal, repair and storage. In addition, the City shall have the right, but not the obligation, to dispose of such property as waste or sell such stored property in accordance with law. In the event the actual and reasonable expenses of such removal, repair, storage, disposal and sale shall exceed the proceeds of such sale, Licensee shall pay or cause its SubLicensees, as the case may be, to pay such excess to the City upon demand.

**8.14 Licensee Maintenance and Repair.** Licensee shall, at Licensee's sole cost and expense, keep, maintain and repair or shall cause its SubLicensees to keep, maintain and repair the Premises and each and every part thereof; including all Licensee Improvements, fixtures, facilities, equipment and interior window glass therein (and including any portion of building systems located outside of the Premises but exclusively serving the Premises) in first class, safe, clean, neat, sanitary and lawful order, condition and repair, excepting only (a) reasonable wear and tear that does not negatively affect the appearance of the Premises and any Improvements thereon, (b) damage caused by fire or other casualty or resulting from the exercise of the power of eminent domain, (c) those repairs expressly required to be made by the City and (d) any condition caused solely by an act, neglect, fault, omission, negligence or willful misconduct of the City, or any agent, contractor or employee of the City.

(ii) If any part of the Terminal suffers Major Damage, whether or not including any portion of the Premises located in them, in whole or in part by fire or other casualty, the Commissioner has the right, for a period of six (6) months starting on the date of the occurrence, to elect not to repair the Major Damage as otherwise required under this Section, by giving written notice of the election to Licensee. If the Commissioner notifies Licensee of the Commissioner's election

not to repair the Major Damage, this Agreement will terminate as to the affected Premises effective as of the date of the Major Damage, all Rent due under this Agreement must be prorated to the date of termination, and Licensee must surrender the affected portion of the Premises to the City.

(iii) If any portion of the Premises suffers Major Damage, and if after the occurrence of the damage the Agreement is not terminated, the Commissioner and the Airport architect will estimate the cost of restoration and the length of time that will be required to repair the damage and will notify Licensee of the estimate. If sufficient insurance proceeds are available to repair the damage and the damage can be repaired and the Improvements restored before the Term expires, then Licensee or its SubLicensees, as the case may be, may elect to repair the damage and restore the Improvements. If Licensee determines in its reasonable business judgment not to elect to perform the repair and restoration, then Licensee shall pay to the City all insurance proceeds received as a result of such Major Damage and then this Agreement terminates as to the impacted portion of the Premises as of the date of the Major Damage. The City shall have the right to restore and thereafter Agreement any such locations to other third parties.

(iv) If this Agreement is not terminated in accordance with paragraphs (b)(ii) or (iii) and a casualty has damaged or destroyed any portion of the Shell and Core involving the Premises, the City will restore the Shell and Core to the condition existing on when possession was delivered by the City to Licensee, according to the original as-built plans and specifications. Upon completion of the City's Shell and Core restoration work, if any, Licensee and SubLicensees shall proceed to rebuild the Improvements as nearly as possible to the character of Improvements existing immediately before the occurrence.

(v) Before beginning to replace, repair, rebuild or restore Improvements, Licensee and its SubLicensees must deliver to the Commissioner a report of an independent consultant acceptable to the Commissioner setting forth:

- a. an estimate of the total cost of the Work;
- b. the estimated date upon which the Work will be substantially completed; and
- c. a statement to the effect that insurance proceeds is projected to be sufficient to pay the costs of the Work.

(vi) The Commissioner will use commercially reasonable efforts to provide suitable temporary Relocation Space during the period of restoration subject to the reasonable approval of Licensee or its SubLicensees. Licensee or its SubLicensees must relocate impacted operations to the temporary Relocation Space, and the costs associated with any such relocation, including moving expenses and the cost of reconstructing the Improvements in the temporary

Relocation Space, shall be borne by Licensee and its SubLicensees but only to the extent insurance covers any such costs.

(c) Licensee's Option. If the Concession Premises or a portion of it is subject to Major Damage during the final three (3) years of the Term, Licensee has the right, for a period of sixty (60) days beginning on the date of the occurrence, to elect not to restore the affected Improvements as otherwise required under this Agreement by giving the Commissioner written notice of the election, in which event this Agreement will, as to the portion of the Premises, terminate upon the notice. If Licensee desires to rebuild the affected Premises, it may do so only upon the written approval of the Commissioner. If approved, Licensee will receive the unamortized Improvement Cost of the restoration upon termination or expiration of the Term, with amortization being calculated on a straight-line basis over a period of time equivalent to the original Term.

(d) Insufficient Insurance. In no event will the City, Licensee or any of its SubLicensees be obligated to repair, alter, replace, restore, or rebuild any Improvements, or any portion of them, nor to pay any of the costs or expenses for them. If available insurance proceeds are not sufficient to cover the cost of the restoration as required under this **Article 8**, then this Agreement shall terminate with respect to the portion of the Premise so damaged.

## **ARTICLE 9**

### **UTILITIES**

#### **9.1 Utilities to Premises.**

(a) Licensee shall provide for the installation, distribution and operation of any and all utilities required for the Expedited Traveler License, including any necessary installations outside of the Premises, except those performed by the City or its contractors. All costs incurred by Licensee in the installation of its equipment/fixtures, electrical wiring, cables, electrical conduits and electrical outlets for the operation of the Expedited Traveler License shall be paid by Licensee.

(b) Licensee or its SubLicensees must pay for natural gas, water, sewage, telephone and data transmission and electricity furnished to the Premises, and SubLicensees will be required to install separate meters or check meters in the SubLicensees Premises to properly measure the consumption of all utilities. All other utilities shall be provided without charge to the Licensee or its SubLicensees.

(c) Licensee or its SubLicensees must maintain utility lines to the Premises or SubLicensees Premises as the case may be as follows:

(i) where the utility lines, including gas, electrical, telephone and data transmission, hot and cold water, fire sprinkler, gas, and sewer serve the Premises

and other areas of the Airport. Licensee or its SubLicensees shall only be obligated to maintain those branch lines and facilities that are exclusively serving the Premises, whether located within or outside the Premises but only up to the connection point to the main lines or facilities; and

(ii) where the utility lines are solely for the use of the Premises, Licensee shall be obligated to maintain the utility lines from the Premises up to the main entry point to the Airport. Alternatively, the City may, at the Commissioner's sole discretion, maintain the lines and charge Licensee the reasonable cost of the maintenance. Licensee must maintain all electrical cables, conduits, wiring, fire alarm systems, electrical panels and associated equipment exclusively serving the Premises.

(d) Telephone/Telecommunications. Licensee shall not install any television, license or unlicensed wired or wireless communication equipment including any antenna, conduit, fiber, wires, radio, television equipment, or any other type of telecommunications equipment, inside or outside of the Airport's terminals, without the prior written approval of the Commissioner, and upon such terms and conditions as may be specified by the Commissioner in each and every instance.

Telecommunication facilities and services established and used by Licensee shall not interfere with the Airport's telecommunication facilities and services. All such facilities and services shall comply with FCC licensing regulations, with all building Codes, and with other applicable municipal, state, and federal rules and regulations.

9.2 Licensee's Acts. Licensee shall not and shall not allow its Sub to do or permit to be done anything which may interfere with the effectiveness or accessibility of any drainage and sewerage system, water system, ventilation, air-conditioning and heating systems, communications systems, key card access systems, elevators and escalators, electrical system, fire-protection system, sprinkler system, alarm system, fire hydrants and hoses and other utility and other systems, if any, installed or located on, under, in or adjacent to the Premises now or in the future.

9.3 No Constructive Eviction. The City shall make diligent efforts to supply Licensee with utility services as specified above; however, if the City makes such diligent efforts but fails to provide said utility services, said failure shall not constitute a constructive eviction, and the City shall not be liable to Licensee in damages, nor shall Licensee be entitled to any reduction in Rent except as otherwise provided herein, or otherwise: (i) if any utility shall become unavailable from any public utility company, public authority or any other Person or entity supplying or distributing such utility, or (ii) for any interruption in any service hereunder (including, without limitation, any heating, ventilation or air-conditioning) caused by the making of any necessary repairs or improvements, or (iii) by any cause beyond the reasonable control of the City which is not attributable solely to the negligence or willful misconduct of the City. In no event shall the City be liable to Licensee for indirect or consequential damages.

9.4 Energy Conservation. The City shall have the right to institute such policies, programs and measures as may be reasonably necessary or desirable, in the City's discretion, for the conservation and/or preservation of energy or energy related services, or as may be required to comply with any applicable codes, rules and regulations, whether mandatory or voluntary.

## **ARTICLE 10**

### **ENVIRONMENTAL**

#### 10.1 Definitions.

**"Environmental Agency"** Any federal, state, or local governmental agency or entity having responsibility, in whole or in part, for any matter addressed by any Environmental Law, including, without limitation, enforcement of any Environmental Law. An agency or other entity need not be responsible only for matters addressed by Environmental Law(s) to be an Environmental Agency. A non-exhaustive list of Environmental Agencies includes, without limitation: the Chicago Department of Public Health, the Illinois Emergency Management Agency, Illinois EPA, US EPA, the Illinois Department of Labor/Illinois OSHA, and the US Department of Labor/OSHA.

**"Environmental Claim"** Any type of assertion that any of the following persons is violating or otherwise failing to comply with any Environmental Law, has violated or otherwise failed to comply with any Environmental Law, is directly or indirectly causing or contributing to any type of environmental harm, or has directly or indirectly caused or contributed to any type of environmental harm: Licensee; any SubLicensees; or any employee, agent, Contractor, or licensee of Licensee or any SubLicensees. A non-exhaustive list of Environmental Claims includes, without limitation: demand letters, notices of intent to sue, lawsuits, and citations or charges of any kind. An assertion need not expressly reference an Environmental Law to constitute an Environmental Claim. An Environmental Claim may be made by an Environmental Agency or by any other person.

**"Environmental Law(s)"** Any Law that in any way, directly or indirectly, in whole or in part, bears on or relates to the environment or to health or safety. A non-exhaustive list of statutes and rules and regulations that are some examples of Environmental Laws includes, without limitation: the Comprehensive Environmental Response, Compensation and Liability Act, 42 U.S.C. 9601, et seq., the Resource Conservation and Recovery Act, 42 U.S.C. 6901, et seq., the Hazardous Materials Transportation Authorization Act, 49 U.S.C. 5101, et seq., the Clean Air Act, 42 U.S.C. 7401, et seq., the Federal Water Pollution Control Act, 33 U.S.C. 1251, et seq., the Occupational Safety and Health Act, 29 U.S.C. 651, et seq., the Toxic Substances Control Act, 15 U.S.C. 2601, et seq., the Safe Drinking Water Act, 42 U.S.C. 300(f), et seq., the Illinois Environmental Protection Act, 415 ILCS 5/1, et seq., the Illinois Occupational Safety and Health Act, 820 ILCS 219/1, et seq., and all related rules and regulations.

**“Existing Contamination” Any waste or pollutant:**

(i) that is already on the Premises – including, without limitation, in the soil, air, or groundwater of the Premises – on the date that the City first delivers the Premises to Licensee for Licensee’s occupancy under this Agreement; or

(ii) that, as the result of any discharge or release, migrates onto the Premises – including, without limitation, to the soil, air, or groundwater of the Premises – after the date that the City first delivers the Premises to Licensee for Licensee’s occupancy under this Agreement, if:

(A) the discharge or release occurred before the date that the City first delivers the Premises to Licensee for Licensee’s occupancy under this Agreement; and

(B) no role in causing, contributing to, or exacerbating the discharge or release or effects of the discharge or release is or was played by Licensee, any SubLicensees, or any employee, agent, Contractor, or licensee of Licensee or any SubLicensees; provided, however, that Existing Contamination does not include material of any kind -- including, without limitation, any element, compound, substance, or mixture -- that is present on the date that the City first delivers the Premises to Licensee for Licensee’s occupancy under this Agreement, if the material’s presence and condition on that date are compliant with Environmental Laws. For example, Existing Contamination does not include any asbestos-containing material that is in use and not damaged, friable, or in poor condition on the date that the City first delivers the Premises to Licensee for Licensee’s occupancy under this Agreement.

**“Law(s)”** The word “Law” or “Laws” is intended in the broadest possible sense, including, without limitation, and as may be amended or otherwise modified from time to time, all federal, state and local: statutes; ordinances; codes; rules; regulations; executive, administrative, and judicial orders and directives of any kind; requirements and prohibitions of permits, licenses, and other similar authorizations of any kind; court decisions; common law; and all other legal requirements and prohibitions.

**“Non-Routine”** As applied to reports and notices, “Non-Routine” refers to a report or notice that is required pursuant to any Environmental Law but is not a Routine report or notice.

**“Routine”** As applied to reports and notices, “Routine” refers to a report or notice that, pursuant to any Environmental Law, must be made, submitted or filed on a periodic basis and that in no way arises from an unexpected release of any kind, or from an emergency response situation, or from any actual, possible or alleged noncompliance with any Environmental Law.

**“Subject Material(s)”** “Subject Material” or “Subject Materials” means any material of any kind, including, without limitation, any element, compound, substance, or mixture:

- (i) that is defined as a hazardous substance, extremely hazardous substance, hazardous material, hazardous waste, or pollutant of any kind, in or by any Environmental Law;
- (ii) that is regulated by or under any Environmental Law;
- (iii) the manufacturing, sale, generation, use, storage, treatment, disposal, transportation, or other handling or management of which -- or any type of discharge or release of which -- is regulated by or under, or otherwise subject to requirements of, any Environmental Law; or
- (iv) that due to its amount, concentration, or any characteristic, constitutes or contributes to -- or may reasonably be expected to constitute or contribute to -- a danger or hazard to the environment or to public health, safety, or welfare.

The term Subject Material includes, without limitation, petroleum, including crude oil and any fraction thereof, natural gas, natural gas liquids, liquefied natural gas, synthetic gas, and mixtures of natural and synthetic gas.

10.2 Environmental Laws. Licensee shall observe, obey and cause its employees, agents, Contractors, and licensees to observe and obey all applicable Environmental Laws.

10.3 Subject Materials and Surrender of Premises. Licensee must not cause or allow Subject Materials to enter or be present on the Premises; provided, however, that Licensee may cause and allow reasonable amounts of such Subject Materials as are customarily used or otherwise handled in connection with the concession operations to enter and be present on the Premises. Examples of Subject Materials customarily used or otherwise handled in connection with the concession operations may include cleaning fluids and business equipment materials (e.g., copy machine toner).

Licensee must ensure that all Subject Materials on the Premises are stored, used, disposed of, and otherwise handled and managed in compliance with all applicable Environmental Laws.

Upon the expiration or termination of this Agreement, Licensee must surrender the Premises -- including, without limitation, the soil, air, and groundwater of the Premises -- to the City free from the presence of Subject Materials, waste, and pollution of any kind, other than any Existing Contamination.

10.4 Environmental Representations and Warranties and Other Matters. Licensee expressly warrants, represents, and covenants that Licensee, its SubLicensees, and all employees, agents, Contractors, and licensees of Licensee and all SubLicensees shall strictly comply with all Environmental Laws applicable to or affecting the Premises or concession operations, including, without limitation:

- (i) that Licensee will not conduct, or cause or allow to be conducted, on the Premises -- including, without limitation, in the soil, air, or groundwater of the Premises -

- any activity for which a permit or other authorization is required under any Environmental Law, unless such permit has been issued;

(ii) that Licensee will not cause or allow to exist on the Premises – including, without limitation, in the soil, air, or groundwater of the Premises – any occurrence or condition for which a permit or other authorization is required under any Environmental Law, unless such permit has been issued; and

(iii) that Licensee will ensure that all SubLicensees, and all employees, agents, Contractors, and licensees of Licensee and all SubLicensees comply with the conditions of any and all permits issued under any Environmental Laws.

Licensee shall not be responsible or liable for remediation or removal of any Existing Contamination. Licensee shall not be responsible or liable for any release of Subject Materials, whether located within the Premises or elsewhere, unless Licensee or any SubLicensees, or any employee, agent, Contractor, or licensee of Licensee or any SubLicensees, in any way caused, contributed to, or exacerbated the release or effects of the release by any action, any omission to act, any negligence, or any willful misconduct; provided, however, that Licensee shall be responsible and liable for any release of Subject Material(s), if at the time of the release the Subject Material(s) belonged to, or were in the possession, custody, or control of, Licensee or any SubLicensees, or any employee, agent, Contractor, or licensee of Licensee or any SubLicensees.

10.5 Reports, Notices, Environmental Claims, and Other Matters. Licensee must immediately notify the City in writing of:

(i) any release, suspected release, or threatened release of Subject Material(s) on, in, under, from, or otherwise relating to the Premises -- including, without limitation, the soil, air, or groundwater of the Premises;

(ii) any notice of any kind received by Licensee, any SubLicensees, or any employee, agent, Contractor, or licensee of Licensee or any SubLicensees, from any person, of or relating to any release, suspected release, or threatened release of Subject Material(s) on, in, under, from, or otherwise relating to the Premises -- including, without limitation, the soil, air, or groundwater of the Premises; and

(iii) any action, occurrence, or condition of any kind that in any way relates to the Premises – including, without limitation, to the soil, air, or groundwater of the Premises – or to concession operations, that could reasonably be expected to subject any person to an Environmental Claim or to any restriction in ownership, occupancy, transferability, or use of the Premises under any Environmental Law.

Routine Reports and Notices. Within 24 hours of receiving a written request from the City, Licensee must submit to the City a complete copy of any Routine report or notice that: (i) in any way relates to the Premises – including, without limitation, to the soil, air, or groundwater of the Premises – or to concession operations; and (ii) has been made, submitted, or filed to any

Environmental Agency or other person, by or on behalf of Licensee, any SubLicensees, or any employee, agent, Contractor, or licensee of Licensee or any SubLicensees.

Non-Routine Reports and Notice. If any Environmental Law requires Licensee, any SubLicensees, or any employee, agent, Contractor, or licensee of Licensee or any SubLicensees to make, submit, or file any Non-Routine notice or report of any kind to any Environmental Agency or other person – and the report or notice in any way relates to the Premises – including, without limitation, to the soil, air, or groundwater of the Premises -- or to concession operations, then Licensee must deliver a complete copy of the report or notice (or, in the case of telephonic or other oral reports or notices, a comprehensive written summary of same) to the City within 24 hours of the original report's or notice's having been made, submitted, or filed.

Thereafter, Licensee must notify the City in writing of any and all subsequent developments; each such notification must be made within 24 hours of the earliest development(s) addressed therein.

Environmental Claims. If Licensee, any SubLicensees, or any employee, agent, Contractor, or licensee of Licensee or any SubLicensees receives an Environmental Claim, or any type of notice of threatened or potential Environmental Claim, that in any way relates to the Premises – including, without limitation, to the soil, air, or groundwater of the Premises -- or to concession operations, then within 24 hours of that person's receipt of the Environmental Claim or notice, Licensee must deliver a complete copy of the Environmental Claim or notice to the City. Thereafter, Licensee must notify the City in writing of any and all subsequent developments; each such notification must be made within 24 hours of the earliest development(s) addressed therein.

Other Matters. If Licensee any SubLicensees, or any employee, agent, Contractor, or licensee of Licensee or any SubLicensees receives notice of any kind of any lien filed with respect to the Premises or in any way relating to the Premises or to concession operations, then within 24 hours of that person's receipt of the notice, Licensee must notify the City in writing. Within 24 hours of receiving a written request from the City, Licensee must submit to the City complete copies of all documents that the City has reasonably requested, relating to any release, suspected release, or threatened release of Subject Material(s) on, in, under, from, or otherwise relating to the Premises -- including, without limitation, the soil, air, or groundwater of the Premises, or relating to any non-Routine notice or report, or relating to any Environmental Claim or notice of threatened or potential Environmental Claim, including, without limitation: responses, invoices, reports, photographs, manifests, pleadings, motions, discovery, orders and correspondence. If Licensee believes that the City's request or any portion the City's request is not reasonable, then Licensee must respond in writing to the City, within 24 hours of receiving the request, specifying what Licensee believes to be unreasonable and why.

10.6 Hazardous Substances. Licensee must not use or allow the Premises to be used for the release, storage, use, treatment, disposal or other handling of any hazardous substance, as defined in any Environmental Laws, except in full compliance with all Environmental Laws. Licensee must not use or allow the Premises to be used for the storage of any such hazardous substances except small amounts of cleaning fluids, business equipment materials (such as copy machine

toner) and other small amounts of such hazardous substances customarily handled or used in connection with the concession operations, all of which must be stored and used in compliance with all applicable Environmental Laws. Upon the expiration or termination of this Agreement, Licensee must surrender the Premises to the City free from the presence and contamination of any hazardous substances which were placed therein as a result of actions by Licensee or its SubLicensees.

10.7. No Illegal Dumping. In accordance with Section 11-4-1600(e) of the Municipal Code of Chicago, Licensee warrants and represents that it has not violated and is not in violation of the following sections of the Municipal Code (collectively, the “**Waste Sections**”):

7-28-390 Dumping on public way—Violation—Penalty;

7-28-440 Dumping on real estate without permit;

11-4-1410 Disposal in waters prohibited;

11-4-1420 Ballast tank, bilge tank or other discharge;

11-4-1450 Gas manufacturing residue;

11-4-1500 Treatment and disposal of solid or liquid waste;

11-4-1530 Compliance with rules and regulations required;

11-4-1550 Operational requirements;

11-4-1560 Screening requirements; and

any other sections listed in Section 11-4-1600(e), as it may be amended from time to time.

During the period while this Agreement is executory, Licensee’s violation of the Waste Sections, whether or not relating to the performance of this Agreement constitutes a breach of and an Event of Default under this Agreement, for which the opportunity to cure, if curable, will be granted only at the sole discretion of the Commissioner. Such breach and Event of Default entitles the City to all remedies under the Agreement, at law or in equity. This Section does not limit the Licensee’s duty to comply with all Environmental Laws, in effect now or later, and whether or not they appear in this Agreement. Non-compliance with these terms and conditions may be used by the City as grounds for the termination of this Agreement, and may further affect the Licensee’s eligibility for future City agreements.

10.8 Sustainable Airport Practices. The City encourages Licensee and its SubLicensees to incorporate sustainable design practices in the redevelopment of the Terminal’s Concession Program. The Sustainable Airport Manual attached hereto as **Exhibit M** (“SAM”) should be considered in every aspect of the Redevelopment and concession operations. Licensee and

SubLicensees should include a LEED (Leadership in Energy and Environmental Design) accredited professional on their respective design teams and should consider as part of their main objectives for sustainable design to avoid resource depletion of energy, water, and raw materials; prevent environmental degradation caused by facilities and infrastructure throughout their life cycle; and create built environments that are comfortable, safe and productive. SubLicensees shall be encouraged to use recycled or recyclable materials for the packaging of products sold at the Airport. This shall include bags and boxes that are provided to customers at the time of sale. Further, SubLicensees are encouraged to use recycled or recyclable materials for the pre-packaging of products and any temporary display materials used at the Airport.

## **ARTICLE 11**

### **INSURANCE AND INDEMNITY**

#### **11.1 Licensee's Insurance.**

See **Exhibit N** for all applicable insurance requirements for the Agreement.

#### **11.2 Indemnification.**

(a) Except where this indemnity clause would be found to be inoperative or unenforceable under the Construction Contract Indemnification for Negligence Act, 740 ILCS 35/0.01 et seq. ("**Anti-Indemnity Act**"), Licensee must defend, indemnify, keep and hold harmless the City, its officers, representatives, elected and appointed officials, agents and employees, from and against any and all Losses, except for any Losses which are the result of the negligence or willful misconduct of the City, its employees, agents, contractors and subcontractors.

(b) "**Losses**" means, individually and collectively, liabilities of every kind, including losses, damages, and reasonable costs, payments and expenses (such as, but not limited to, court costs and reasonable attorneys' fees and disbursements), claims, demands, actions, suits, proceedings, judgments or settlements, any or all of which in any way arise out of or relate to the acts or omissions of Licensee, its SubLicensees and their respective employees, agents, and Contractors.

(c) At the City Corporation Counsel's option, Licensee shall defend all suits brought upon all such Losses and must pay all costs and expenses incidental to them, but the City has the right, at its option, to participate, at its own cost, in the defense of any suit, without relieving Licensee of the foregoing indemnity obligations under this Section. Licensee must not make any settlement without the prior written consent to it by the City Corporation Counsel if the settlement requires any action on the part of the City or in any way involving the Airport.

(d) To the extent permissible by law, Licensee and SubLicensees waives any limits to the amount of its obligations to indemnify, defend or contribute to any sums due under any Losses, including any claim by any employee of Licensee that may be subject to the Workers' Compensation Act, 820 ILCS 305/1 et seq or any other related law or judicial decision (such as, *Kotecki v. Cyclops Welding Corporation*, 146 Ill. 2d 155 (1991)). The waiver, however, does not require Licensee to indemnify the City for the City's own negligence or willful misconduct. The City, however, does not waive any limitations it may have on its liability under the Worker's Compensation Act or under the Illinois Pension Code.

(e) The indemnities contained in this Section survive the expiration or earlier termination of this Agreement, for matters occurring or arising during the Term of this Agreement or as the result of or during the holding over of Licensee beyond the Term. Licensee acknowledges that the requirements set forth in this Section to indemnify, keep and save harmless and defend the City are apart from and not limited by the Licensee's duties under this Agreement, including the insurance and Security requirements.

(f) Licensee agrees that these provisions will be included in its Contractor Agreements.

## **ARTICLE 12**

### **COMPLIANCE WITH LAWS**

12.1 Compliance with Laws. Licensee shall, and shall cause its SubLicensees, at all times observe and comply with all applicable laws, statutes, ordinances, rules, regulations, court orders and executive or administrative orders and directives of the federal, state and local government, now existing or later in effect (whether or not the law also requires compliance by other parties), including the Americans with Disabilities Act and Environmental Laws, that may in any manner affect the performance of this Agreement (collectively, "Laws"), and must not use the Premises, or allow the Premises to be used, in violation of any Laws or in any manner that would impose liability on the City, Licensee or the SubLicensees under any Laws. Licensee must notify the City within ten (10) days of receiving notice from a competent governmental authority that Licensee, its SubLicensees or any of their respective Contractors may have violated any Laws. Provisions required by any Law to be inserted in this Agreement are deemed inserted in this Agreement whether or not they appear in this Agreement or, upon application by either party, this Agreement will be amended to make the insertion; however, in no event will the failure to insert the provisions before or after this Agreement is signed prevent its enforcement. Without limiting the foregoing, Licensee covenants that it will comply with all applicable Laws, including but not limited to those Laws identified in this **Article 12**.

12.2 Economic Disclosure Statements and Affidavits. In connection with Section 2-92-320 of the Municipal Code, Licensee has executed an Economic Disclosure Statement and Affidavits which is attached to this Agreement as **Exhibit H** and which contains a certification as required under the Illinois Criminal Code, 720 ILCS 5/33E, and under the Illinois Municipal Code, 65 ILCS 5/8-10-1 et seq. Ineligibility under Section 2-92-320 of the Municipal Code continues for

3 years following any conviction or admission of a violation of Section 2-92-320. For purposes of Section 2-92-320, when an official, agent or employee of a business entity has committed any offense under the section on behalf of such an entity and under the direction or authorization of a responsible official of the entity, the business entity is chargeable with the conduct. If, after Licensee and any SubLicensees enters into a contractual relationship with a Contractor, it is determined that the contractual relationship is in violation of this subsection, Licensee and its SubLicensees, if applicable, must immediately cease to use the Contractor. All Contracts must provide that Licensee is entitled to recover all payments made by it to the Contractor if, before or subsequent to the beginning of the contractual relationship, the use of the Contractor would be volatile of this Section.

12.3 Inspector General and Legislative Inspector General. It is the duty of Licensee and all officers, directors, agents, partners, and employees of Licensee to cooperate with the Inspector General and the Legislative Inspector General of the City in any investigation or hearing undertaken under Chapter 2-55 or Chapter 2-56 of the Municipal Code. Licensee understands and will abide by all provisions of Chapter 2-55 and Chapter 2-56 of the Municipal Code. Licensee must inform all SubLicensees and Contractors of this provision and require under each Sub Agreement and Contract compliance herewith by each SubLicensees and Contractor all of their respective officers, directors, agents, partners and employees.

12.4 Section 2-92-586 of the Municipal Code. The City encourages Licensee to use Contractors that are firms owned or operated by individuals with disabilities, as defined by Section 2-92-586 of the Municipal Code of the City of Chicago, where not otherwise prohibited by federal or state law.

12.5 Airport Security.

(a) This Agreement is expressly subject to the airport security requirements of Title 49 of the United States Code, Chapter 449, as amended ("**Airport Security Act**"), the provisions of which govern airport security, including the rules and regulations promulgated under it. Licensee is subject to, and further must conduct with respect to its Contractors and the respective employees of each, such employment investigations, including criminal history record checks and security threat assessments as the Commissioner, the TSA or the FAA may deem necessary. Further, in the event of any threat to civil aviation, as defined in the Airport Security Act, Licensee must promptly report any known information in accordance with those regulations promulgated by the United States Department of Transportation, the TSA and by the City. Licensee must, notwithstanding anything contained in this Agreement to the contrary, at no additional cost to the City, perform under this Agreement in compliance with those guidelines developed by the City, the TSA and the FAA with the objective of maximum security enhancement. The drawings, plans, and specifications provided by Licensee and its SubLicensees under this Agreement must comply with those guidelines for airport security developed by the City, the TSA and the FAA and in effect at the time of their submission.

3 years following any conviction or admission of a violation of Section 2-92-320. For purposes of Section 2-92-320, when an official, agent or employee of a business entity has committed any offense under the section on behalf of such an entity and under the direction or authorization of a responsible official of the entity, the business entity is chargeable with the conduct. If, after Licensee and any SubLicensees enters into a contractual relationship with a Contractor, it is determined that the contractual relationship is in violation of this subsection, Licensee and its SubLicensees, if applicable, must immediately cease to use the Contractor. All Contracts must provide that Licensee is entitled to recover all payments made by it to the Contractor if, before or subsequent to the beginning of the contractual relationship, the use of the Contractor would be volatile of this Section.

12.3 Inspector General and Legislative Inspector General. It is the duty of Licensee and all officers, directors, agents, partners, and employees of Licensee to cooperate with the Inspector General and the Legislative Inspector General of the City in any investigation or hearing undertaken under Chapter 2-55 or Chapter 2-56 of the Municipal Code. Licensee understands and will abide by all provisions of Chapter 2-55 and Chapter 2-56 of the Municipal Code. Licensee must inform all SubLicensees and Contractors of this provision and require under each Sub Agreement and Contract compliance herewith by each SubLicensees and Contractor all of their respective officers, directors, agents, partners and employees.

12.4 Section 2-92-586 of the Municipal Code. The City encourages Licensee to use Contractors that are firms owned or operated by individuals with disabilities, as defined by Section 2-92-586 of the Municipal Code of the City of Chicago, where not otherwise prohibited by federal or state law.

15.7 Labor Peace Agreement. Licensee has an ongoing obligation to comply with, and ensure that contractors comply with, the Labor Peace Agreement ("LPA") Ordinance, MCC 10-36-210.

**ARTICLE 16****NONDISCRIMINATION AND AFFIRMATIVE ACTION****16.1 Non-Discrimination.**

(a) Licensee for itself, its personal representatives, successors in interest, and assigns, as a part of the consideration of this Agreement, covenants, and agrees with a covenant running with the land that: (i) no person on the grounds of race, color, or national origin will be excluded from participation in, be denied the benefits of, or otherwise be subjected to discrimination in the use of the Premises; (ii) in the construction of any Improvements on, over, or under the Premises and the furnishing of services in them, no person on the grounds of race, color, or national origin will be excluded from participation in, be denied the benefits of, or otherwise be subjected to discrimination; (iii) Licensee will use the Premises in compliance with all other requirements imposed by or under 49 C.F.R. Part 21, Nondiscrimination in Federally Assisted Programs of the Department of Transportation, and as those regulations may be amended and all other requirements imposed by or pursuant to the List of Pertinent Nondiscrimination Authorities (set forth in Appendix E of Appendix 4 of FAA Order 1400.11, Nondiscrimination in Federally-Assisted Programs at the Federal Aviation Administration), and as that List may be amended; and (iv) Licensee shall manage the Concession Program on a fair, equal, and non-discriminatory basis. In addition to complying with Title VI of the Civil Rights Act of 1964, Licensee assures that it will comply and will cause its SubLicensees to comply with all other pertinent statutes, including but not limited to 49 USC 47123, Executive Orders and the rules as are promulgated to assure that no person will, on the grounds of race, creed, color, national origin, sex, age, or handicap be excluded from participating in any activity conducted with or benefitting from federal assistance. In the event of breach of any of the above nondiscrimination covenants, City will have the right to terminate the Agreement and to enter or re-enter and repossess said land and the facilities thereon, and hold the same as if said Agreement had never been made or issued.

(b) It is an unlawful practice for Licensee to, and Licensee must at no time: (i) fail or refuse to hire, or discharge, any individual or discriminate against the individual with respect to his or her compensation, or the terms, conditions, or privileges of his or her employment, because of the individual's race, creed, color, religion, sex, age, handicap or national origin; or (ii) limit, segregate, or classify its employees or applicants for employment in any way that would deprive any individual of employment opportunities or otherwise adversely affect his or her status as an employee, because of the individual's race, creed, color, religion, sex, age, handicap or national origin; or (iii) in the exercise of the privileges granted in this Agreement, discriminate or permit discrimination in any manner, including the use of the Premises, against any person or group of persons because of race, creed, color, religion, national origin, age, handicap, sex or ancestry. Licensee must post in conspicuous places to which its employees or applicants for employment have access, notices setting forth the provisions of this non-discrimination clause.

(c) Licensee must comply with the Civil Rights Act of 1964, 42 U.S.C. § 2000e et seq. (1981), as amended, and to the extent required by the law, must undertake, implement and operate an affirmative action program in compliance with the rules and regulations of the Federal Equal Employment Opportunity Commission and the Office of Federal Contract Compliance, including 14 CFR Part 152, Subpart E. Attention is called to: Exec. Order No. 11,246, 30 Fed. Reg. 12,319 (1965), reprinted in 42 U.S.C. § 2000e note, as amended by Exec. Order No. 11,375, 32 Fed. Reg. 14,303 (1967) and by Exec. Order No. 12,086, 43 Fed. Reg. 46,501 (1978); Age Discrimination Act, 42 U.S.C. §§ 6101-06 (1981); Rehabilitation Act of 1973, 29 U.S.C. §§ 793-94 (1981); Americans with Disabilities Act, 42 U.S.C. § 12101 and 41 CFR Part 60 et seq. (1990) and 49 CFR Part 21, as amended (the “ADA”); and all other applicable federal statutes, regulations and other laws.

(d) Licensee must comply with the Illinois Human Rights Act, 775 ILCS 5/1-101 et seq. as amended and any rules and regulations promulgated in accordance with it, including the Equal Employment Opportunity Clause, 5 Ill. Admin. Code §750 Appendix A. Furthermore, Licensee and its SubLicensees must comply with the Public Works Employment Discrimination Act, 775 ILCS 10/0.01 et seq., as amended, and all other applicable state statutes, regulations and other laws.

(e) Licensee must comply with the Chicago Human Rights Ordinance, sec. 2-160-010 et seq. of the Municipal Code, as amended, and all other applicable City ordinances and rules. Further, Licensee and its SubLicensees must furnish or must cause each of its Contractor(s) to furnish such reports and information as requested by the Chicago Commission on Human Relations.

(f) Licensee must insert these non-discrimination provisions in any agreement by which Licensee or its SubLicensees grants a right or privilege to any person, firm, or corporation to render accommodations and/or services to the public on the Premises. Licensee and its SubLicensees must incorporate all of the above provisions in all agreements entered into, suppliers of materials, furnishers of services, Contractors of any tier, and labor organizations that furnish skilled, unskilled and craft union skilled labor, or that may provide any such materials, labor or services in connection with this Agreement, and Licensee must require them to comply with the law and enforce the requirements. In all solicitations either by competitive bidding or negotiations by Licensee s for work to be performed under a Subcontract, including procurements of materials or Agreements of equipment, each potential Contractor or supplier must be notified by Licensee of the Licensee’s obligations under this Agreement relative to nondiscrimination.

(g) Noncompliance with this Section will constitute a material breach of this Agreement; therefore, in the event of such breach, Licensee authorizes the City to take such action as federal, state or local laws permit to enforce compliance, including judicial enforcement. In the event of Licensee’s noncompliance with the nondiscrimination provisions of this Agreement, the City may impose such sanctions as it or the federal or

state government may determine to be reasonably appropriate, including cancellation, termination or suspension of the Agreement, in whole or in part.

(h) Licensee s must permit access to its books, records, accounts, other sources of information, and its facilities as may be determined by the City, the Commissioner or the Federal government to be pertinent to ascertain compliance with the terms of this Section. Licensee must furnish to any agency of the federal or state government or the City, as required, any and all documents, reports and records required by Title 14, Code of Federal Regulations, Part 152, Subpart E, including an affirmative action plan and Form EEO-1.

16.2 [Intentionally Deleted]

16.3 MBE/WBE Compliance. During the Redevelopment of the Concession Program, Licensee and SubLicensees shall make good faith efforts to meet their commitments with respect to participation of Minority Business Enterprises/Woman-Owned Business Enterprises (“MBE/WBE”) in the design and construction of Licensee’s Base Building Improvements and SubLicensees Fixed Improvements, respectively, as set forth in Exhibit D. The stated goals for MBE\WBE participation consist of the following: (i) Design: [25% MBE and 5% WBE]; and (ii) Construction: [26% MBE and 6% WBE].

16.4 Limited English Proficiency. The City is committed to compliance with federal Executive Order 13166, Improving Access to Services for Persons with Limited English Proficiency (“LEP”), and related FAA guidance. Licensee must cooperate with the City, and require its SubLicensees to cooperate, in updating and implementing the LEP access plan. This may include but is not limited to collecting demographic data and conducting surveys of LEP customers, providing multilingual signage and menus, and hiring multilingual staff.

16.5 Other Provisions. Licensee shall comply with and shall use its best efforts to cause its SubLicensees to comply with all federal and state laws and City regulations pertaining to Civil Rights and Equal Opportunity, including executive orders and rules and regulations of appropriate federal and state agencies unless otherwise exempt therein.

## **ARTICLE 17**

### **DEFAULT, REMEDIES AND TERMINATION**

17.1 Events of Default.

(a) The following constitute Events of Default by Licensee under this Agreement. The Commissioner will notify Licensee in writing of any event that the Commissioner believes to be an Event of Default. Licensee will be given an opportunity to cure the Event of Default within a reasonable period of time, as determined by the Commissioner, but not to exceed thirty (30) days after written notice of the Event of Default; provided, that (i) if a provision of this Agreement provides for a different cure period for a

particular Event of Default, that different cure period will apply; (ii) if a provision of this Agreement does not allow a right to cure a particular Event of Default, there will be no right to cure; and (iii) if neither (i) or (ii) apply and if the promise, covenant, term, condition or other non-monetary obligation or duty cannot be cured within the time period granted by the Commissioner, but Licensee promptly begins and diligently and continuously proceeds to cure the failure within the time period granted and after that continues to diligently and continuously proceed to cure the failure, and the failure is reasonably susceptible of cure within sixty (60) days from delivery of the notice, Licensee will have the additional time, not in any event to exceed sixty (60) days, to cure the failure.

(1) Any material misrepresentation intentionally made by Licensee to the City in the inducement to City to enter this Agreement or in the performance of this Agreement. There is no right to cure this Event of Default.

(2) Licensee's failure to make any payment in full when due under this Agreement and failure to cure the default within ten (10) days after the City gives written notice of the non-payment to Licensee. In addition, Licensee's failure to make any such payment within ten (10) days after the written notice more than three (3) times in any Lease Year constitutes an Event of Default without the necessity of the City giving notice of the fourth failure to Licensee or any opportunity to cure it.

(3) Subject to Force Majeure, Licensee's failure to promptly and fully keep, fulfill, comply with, observe, or perform any promise, covenant, term, condition or other non-monetary obligation or duty of Licensee contained in this Agreement.

(4) Licensee's failure to provide or maintain the insurance coverage required under this Agreement (including any material non-compliance with the requirements) and the failure to cure within five (5) days following written notice from the Commissioner; or, if the noncompliance is non-material, the failure to cure within twenty (20) days after the Commissioner gives written notice. The Commissioner, in her sole discretion, will determine if noncompliance is material.

(5) Subject to Force Majeure, Licensee's failure to cause the Concession Program operations in any Concession Premises at all times Licensee is required to do so under this Agreement.

(6) Subject to Force Majeure, Licensee's failure to begin or to complete its Licensee Improvements (as defined in Article [8] hereof) on a timely basis or to timely open for business in the Premises or any portion of it.

(7) A default by Licensee or any Affiliate under any other agreement it may presently have or may enter into with the City during the Term of this Agreement and failure to cure such default within any applicable cure period.

(8) Licensee does any of the following and the action affects Licensee's ability to carry out the terms of this Agreement: (i) becomes insolvent, as the term is defined under Section 101 of the United States Bankruptcy Code as amended from time to time; or (ii) fails to pay its debts generally as they mature; or (iii) seeks the benefit of any present or future federal, state or foreign insolvency statute; or (iv) makes a general assignment for the benefit of creditors, or (v) files a voluntary petition in bankruptcy or a petition or answer seeking an arrangement of its indebtedness under the United States Bankruptcy Code or under any other law or statute of the United States or of any State or any foreign jurisdiction; or (vi) consents to the appointment of a receiver, trustee, custodian, liquidator or other similar official, of all or substantially all of its property, which remains in effect for a period in excess of sixty (60) days.

(9) An order for relief is entered by or against Licensee under any chapter of the Bankruptcy Code or similar law in any foreign jurisdiction and is not stayed or vacated within sixty (60) days following its issuance.

(10) Licensee is dissolved.

(11) A violation of law that results in a guilty plea, a plea of nolo contendere, guilty finding, or conviction of a criminal offense, by Licensee, or any of its directors, officers, partners or key management employees directly or indirectly relating to this Agreement, and that may threaten, in the sole judgment of Commissioner, Licensee's performance of this Agreement in accordance with its terms.

(12) Subject to Force Majeure, any failure to perform, act, event or omission that is specifically identified as an Event of Default elsewhere in this Agreement.

(13) Failure to meet or maintain the TSA standards for approval and certification as a Registered Travel Service Provider.

**17.2 Remedies.** If an Event of Default occurs and is not cured by Licensee in the time allowed, in addition to any other remedies provided for in this Agreement, including the remedy of Self-help as provided in **Section 17.3**, the City through the Commissioner or other appropriate City official may exercise any or all of the following remedies.

(a) Terminate this Agreement with respect to all or a portion of the Premises and exclude Licensee from that part of the Premises affected by the termination. If the Commissioner elects to terminate this Agreement, the Commissioner may, at the Commissioner's sole option, serve notice upon Licensee that this Agreement ceases and expires and becomes absolutely void with respect to the Premises or that part identified in the notice on the date specified in the notice, to be no less than five (5) days after the date of the notice, without any right on the part of Licensee after that to save the forfeiture by payment of any sum due or by the performance of any term, provision, covenant, agreement or condition broken. At the expiration of the time limit in the notice, this Agreement and the Term of this Agreement, as well as the right, title and interest of Licensee under this Agreement, wholly ceases and expires and becomes void with respect

to the Premises identified in such notice in the same manner and with the same force and effect (except as to Licensee's liability) as if the date fixed in the notice were the date in this Agreement stated for expiration of the Term with respect to the Premises identified in such notice.

(b) Recover all Rent, including Additional Rent and any other amounts due that have accrued and are then due and payable and also all damages available at law or under this Agreement. If this Agreement is terminated, whether in its entirety or with respect to a part of the Premises, the damages will include damages for the balance of the scheduled Term, based upon any and all amounts that Licensee would have been obligated to pay for the balance of the Term with respect to the Premises, or if this Agreement is terminated with respect to a portion of the Premises, that portion of the Premises affected by the termination, calculated as provided in this Agreement or, if not fixed, as reasonably estimated and prorated among the various portions of the Premises. In determining the amount of damages for the period after termination, the Commissioner may make the determination based upon the sum of any future payments that would have been due to the City, for the full Lease Year immediately before the Event of Default. All amounts that would have been due and payable after termination for the balance of the Term with respect to all or a portion of the Premises must be discounted to present value at a rate deemed to be commercially reasonable for such purposes as of the date of termination. To the extent permitted by law, the Commissioner may declare all amounts to be immediately due and payable. Notwithstanding the foregoing, the City shall use its best efforts to mitigate its damages by finding a replacement Licensee for the Premises being terminated paying comparable Rent.

(c) At any time after the occurrence of any uncured Event of Default, whether or not this Agreement has been terminated, reenter and repossess the Premises and/or any part of it with or without process of law, so long as no undue force is used, and the City has the option, but not the obligation, to re-lease all or any part of the Premises. The City, however, is not required to accept any Licensee proposed by Licensee or to observe any instruction given the City about such a re-lease. The failure of the City to re-lease the Premises or any part or parts of it does not relieve or affect Licensee's liability under this Agreement nor is the City liable for failure to re-Agreement. Reentry or taking possession of the Premises does not constitute an election on the City's part to terminate this Agreement unless a written notice of the election by the Commissioner is given to Licensee. Even if the City re-Agreements without termination, the Commissioner may at any time after that elect to terminate this Agreement for any previous uncured Event of Default. For the purpose of re-leasing, the Commissioner may decorate or make repairs, changes, alterations or additions in or to the Premises to the extent deemed by the Commissioner to be necessary to re-let the Premises, and the cost of the decoration, repairs, changes, alterations or additions will be charged to and payable by Licensee as Additional Rent under this Agreement. Any sums collected by the City from any new Licensee obtained on account of Licensee will be credited against the balance of the Rent due under this Agreement. Licensee must pay the City monthly, on the days when payments of Rent would have been payable under this Agreement, the amount due under this Agreement less the amount obtained by the City from the new Licensee, if any.

(d) Enter upon the Premises, distrain upon and remove from it all inventory, equipment, machinery, trade fixtures and personal property of any kind or nature, whether owned by Licensee or by others, and to proceed without judicial decree, writ of execution or assistance or involvement of constables or the City's and Licensee's officers, to conduct a private sale, by auction or sealed bid without restriction. Licensee waives the benefit of all laws, whether now in force or later enacted, exempting any of Licensee's property on the Premises or elsewhere from distrain, levy or sale in any legal proceedings taken by the City to enforce any rights under this Agreement.

(e) Seek and obtain specific performance, a temporary restraining order or an injunction, or any other appropriate equitable remedy.

(f) Seek and obtain monetary damages.

(g) Deem Licensee and Affiliates non-responsible in future contracts or concessions to be awarded by the City.

(h) Declare Licensee and Affiliates in default under any other existing contracts or agreements they might have with the City and to exercise any remedies available under those other contracts or agreements.

(i) Assume the assignment of any and all SubAgreements between Licensee and SubLicensees.

(j) Require Licensee to terminate a SubAgreement or a Contract that is causing an Event of Default under this Agreement which has not been cured.

17.3 Commissioner's Right to Perform Licensee's Obligations.

(a) Upon the occurrence of an Event of Default that Licensee has failed to cure in the time provided, the Commissioner may, but is not obligated to, make any payment or perform any act required to be performed by Licensee under this Agreement in any manner deemed expedient by the Commissioner for the purpose of correcting the condition that gave rise to the Event of Default ("**Self-help**"). The Commissioner's inaction never constitutes a waiver of any right accruing to the City under this Agreement nor do the provisions of this Section or any exercise by the Commissioner of Self-help under this Agreement cure any Event of Default. Any exercise of Self-help does not limit the right of any other City department or agency to enforce applicable City ordinances or regulations.

(b) The Commissioner, in making any payment that Licensee has failed to pay:

(i) relating to taxes, may do so according to any bill, statement or estimate, without inquiry into the validity of any tax, assessment, sale, forfeiture, tax lien or title or claim;

(ii) for the discharge, compromise or settlement of any lien, may do so without inquiry as to the validity or amount of any claim for lien that may be asserted; and

(iii) in connection with the completion of construction, furnishing or equipping of the Premises or the licensing, operation or management of the Premises or the payment of any of its Operating Costs, may do so in such amounts and to such persons as the Commissioner may deem appropriate.

Nothing contained in this Agreement requires the Commissioner to advance monies for any purpose.

(c) If Licensee fails to perform its obligations under this Agreement to maintain the Premises or to manage the Concession Program in accordance with specified standards within sixty (60) days following written notice from the Commissioner, or in the event of a serious health or safety concern or in an emergency (in which case no notice is required) the Commissioner may, but is not obligated to, direct the Department to perform or cause the performance of any such obligation in any manner deemed expedient by the Commissioner for the purpose of correcting the condition in question.

(d) All sums paid by the City under the provisions of this Section and all necessary and incidental costs, expenses and reasonable attorneys' fees in connection with the performance of any such act by the Commissioner, together with interest thereon at the Default Rate, from the date of the City's payment until the date paid by Licensee, are deemed Additional Rent under this Agreement and are payable to the City within ten (10) days after demand therefor, or at the option of the Commissioner, may be added to any Rent then due or later becoming due under this Agreement, and Licensee covenants to pay any such sum or sums with interest at the Default Rate.

#### 17.4 Effect of Default and Remedies.

(a) The City's waiver of any one right or remedy provided in this Agreement does not constitute a waiver of any other right or remedy then or later available to the City under this Agreement or otherwise. A failure by the City or the Commissioner to take any action with respect to any Event of Default or violation of any of the terms, covenants or conditions of this Agreement by Licensee will not in any respect limit, prejudice, diminish or constitute a waiver of any rights of the City to act with respect to any prior, contemporaneous or later violation or Event of Default or with respect to any continuation or repetition of the original violation or Event of Default. The acceptance by the City of payment for any period or periods after an Event of Default or violation of any of the terms, conditions and covenants of this Agreement does not constitute a waiver or diminution of, nor create any limitation upon any right of the City under this Agreement to terminate this Agreement for subsequent violation or Event of Default, or for continuation or repetition of the original violation or Event of Default. Licensee has

no claim of any kind against the City by reason of the City's exercise of any of its rights as set forth in this Agreement or by reason of any act incidental or related to the exercise of rights.

(b) All rights and remedies of the City under this Agreement are separate and cumulative and none excludes any other right or remedy of the City set forth in this Agreement or allowed by law or in equity. No termination of this Agreement or the taking or recovery of the Premises or any portion thereof deprives the City of any of its remedies against Licensee for Rent, including Additional Rent or other amounts due or for damages for the Licensee's breach of this Agreement. Every right and remedy of the City under this Agreement arising out of Licensee's default or indemnification obligations survives the expiration of the Term or the termination of this Agreement.

17.5 Licensee's Right to Perform City Obligations. In the event that the City fails to perform its obligations as landlord (and not as Airport operator or municipality) with respect to the Premises under this Agreement, the Licensee may send City written notice citing the Agreement provision at issue and the facts surrounding the alleged non-performance. If the City does not respond to such notice within sixty (60) days and take timely corrective action as appropriate under the circumstances, Licensee may perform such obligation on behalf of the City. Licensee's reasonable and actual costs in performing may be offset against the following month's Rent.

## ARTICLE 18

### **GENERAL PROVISIONS**

18.1 Entire Agreement. This Agreement contains all the terms, covenants, conditions and agreements between the City and Licensee relating in any manner to the use and occupancy of the Premises and otherwise to the subject matter of this Agreement. No prior or other agreement or understandings pertaining to these matters are valid or of any force and effect. This Agreement supersedes all prior or contemporaneous negotiations, undertakings, and agreements between the parties. No representations, inducements, understandings or anything of any nature whatsoever made, stated or represented by the City or anyone acting for or on the City's behalf, either orally or in writing, have induced Licensee to enter into this Agreement, and Licensee acknowledges, represents and warrants that Licensee has entered into this Agreement under and by virtue of Licensee's own independent investigation.

18.2 Counterparts. This Agreement may be comprised of several identical counterparts and may be fully executed by the parties in separate counterparts. Each such counterpart is deemed to be an original, but all such counterparts together must constitute but one and the same Agreement.

18.3 Amendments. Except as otherwise expressly provided in this Agreement, the provisions of this Agreement may be amended only by a written agreement signed by the City and Licensee. No review or approval by the Commissioner, including approval of Construction

Documents, constitutes a modification of this Agreement (except to the extent that the review or approval expressly provides that it constitutes such a modification or it is apparent on its face that the review or approval, if made in writing, modifies terms or provisions of this Agreement that are within the express powers of the Commissioner under this Agreement to modify), nor excuse Licensee from compliance with the requirements of this Agreement or of any applicable laws, ordinances or regulations. Amendments must be signed by the Mayor, provided that the Commissioner alone may sign amendments to the Exhibits.

18.4 Severability. Whenever possible, each provision of this Agreement must be interpreted in such a manner as to be effective and valid under applicable law. However, notwithstanding anything contained in this Agreement to the contrary, if any provision of this Agreement is under any circumstance prohibited by or invalid under applicable law, the provision is severable and deemed to be ineffective, only to the extent of the prohibition or invalidity, without invalidating the remaining provisions of this Agreement or the validity of the provision in other circumstances.

18.5 Covenants in SubAgreements and Contracts. All obligations imposed on Licensee under this Agreement pertaining to the maintenance and operation of the Premises and compliance with the and M/WBE goals contained in this Agreement are deemed to include a covenant by Licensee to insert appropriate provisions in all SubAgreements and Contracts covering work under this Agreement and to use its commercially reasonable efforts to enforce compliance of all SubLicensees and contractors with the requirements of those provisions.

18.6 Governing Law. This Agreement is deemed made in the state of Illinois and governed as to performance and interpretation in accordance with the laws of Illinois. Licensee irrevocably submits itself to the original jurisdiction of those courts located within Cook County, Illinois, with regard to any controversy arising out of, relating to, or in any way concerning the execution or performance of this Agreement. Licensee consents to service of process on Licensee, at the option of the City, by registered or certified mail addressed to the applicable office as provided for in this Agreement, by registered or certified mail addressed to the office actually maintained by Licensee, or by personal delivery on any officer, director, or managing or general agent of Licensee. If any action is brought by Licensee against the City concerning this Agreement, the action can only be brought in those courts located within Cook County, Illinois.

18.7 Approvals. This Agreement shall be subject to the approval of the (i) Aviation Committee of the City Council of the City of Chicago and the full City Council (the “**City Approvals**”); and (ii) to the Members of Licensee (the “**Licensee Approvals**”) and shall not be valid and enforceable until such City Approvals have been granted and the Licensee Approvals have been obtained.

18.8 Notices. Any notices or other communications pertaining to this Agreement must be in writing and are deemed to have been given by a party if sent by nationally recognized commercial overnight courier or registered or certified mail, return receipt requested, postage prepaid and addressed to the other party. Notices are deemed given on the date of receipt if by personal service, or one (1) day after deposit with a nationally recognized commercial overnight courier, three (3) days after deposit in the U.S. mails sent by certified mail, return receipt

requested, postage prepaid, or otherwise upon refusal of receipt. Unless otherwise directed by Licensee in writing, all notices or communications from City to Licensee will sent to Licensee's notice address as set forth in this Agreement. All notices or communications from Licensee to the City must be addressed to:

Commissioner, Chicago Department of Aviation  
City of Chicago  
O'Hare International Airport  
10510 W. Zemke Rd  
Chicago, Illinois 60666

and with a copy to: First Deputy Commissioner.

If the notice or communication relates to payment of Rent or other payments to the City or relates to the insurance requirements, a copy must be sent to:

City Comptroller  
City of Chicago  
City Hall - Room 501  
121 N. LaSalle Street  
Chicago, Illinois 60602

If the notice or communication relates to a legal matter or the indemnification requirements, a copy must be sent to:

City of Chicago, Department of Law  
Aviation, Environmental, Regulatory and Contracts Division  
30 North LaSalle Street, Suite 1400  
Chicago, Illinois 60602  
Attn: Deputy Corporation Counsel

Either party may change its address or the individual to whom the notices are to be given by a notice given to the other party in the manner set forth above.

**18.9 Successors and Assigns; No Third Party Beneficiaries.** This Agreement inures to the exclusive benefit of, and is binding upon, the parties and their permitted successors and assigns; nothing contained in this Section, however, constitutes approval of an assignment or other transfer by Licensee not otherwise permitted in this Agreement. Nothing in this Agreement, express or implied, is intended to confer on any other person, sole proprietorship, partnership, corporation, trust or other entity, other than the parties and their successors and assigns, any right, remedy, obligation, or liability under, or by reason of, this Agreement unless otherwise expressly agreed to by the parties in writing. No benefits, payments or considerations received by Licensee for the performance of services associated and pertinent to this Agreement must accrue, directly or indirectly, to any employees, elected or appointed officers or representatives, or to any other person or persons identified as agents of, or who are by definition an employee

of, the City. Neither this Agreement nor any rights or privileges under this Agreement are an asset of Licensee or any third party claiming by or through Licensee or otherwise, in any bankruptcy, insolvency or reorganization proceeding.

18.10 Subordination.

(a) This Agreement is subordinate to the provisions and requirements of any existing or future agreements between the City and the United States government or other governmental authority, pertaining to the development, operation or maintenance of the Airport, including agreements the execution of which have been or will be required as a condition precedent to the granting of federal or other governmental funds for the development of the Airport. If the United States government requires modifications, revisions, supplements or deletions of any of the terms of this Agreement, then Licensee consents to the changes to this Agreement. In the event that any such modifications, revisions, supplements or deletions result in either a material increase to Licensee's obligations and liabilities under this Agreement or a material decrease in Licensee's rights under this Agreement or have a material adverse effect on the operation of the Concession Program, then Licensee shall have the right to terminate this Agreement upon prior written notice within ninety (90) days following written notification from the City of the required amendment.

(b) This Agreement and all rights granted to Licensee under this Agreement are expressly subordinated and subject to the International Terminal Use Agreement and the Use Agreement with any airline utilizing the Airport, including the Terminals, and any existing agreement with any airline consortium pertaining to the operation of the Airport, including the Terminals.

(c) To the extent of a conflict or inconsistency between this Agreement and any agreement described in paragraphs (a) and (b) above, those provisions in this Agreement so conflicting must be performed as required by those agreements referred to in paragraphs (a) and (b) except to the extent that any such conflicts or inconsistencies requiring Licensee to perform as required under such other agreements result in either a material increase to Licensee's obligations and liabilities under this Agreement or a material decrease in Licensee's rights under this Agreement or have a material adverse effect on the operation of the Concession Program.

18.11 Conflict. In the event of any conflict between the terms and provisions of this Agreement and the terms and provisions of any SubAgreement or contract between Licensee and its SubLicensees, Contractors and any other third party, the terms and provisions of this Agreement govern and control.

18.12 Offset by Licensee. Whenever in this Agreement the City is obligated to pay Licensee an amount, then the City Comptroller may elect to require Licensee to offset the amount due against Rent or other payments owed by Licensee to the City, in lieu of requiring the City to pay such amount. Licensee shall have no right to offset any amount due to City under this Agreement against amounts due to Licensee by City unless so directed in writing by the City Comptroller.

18.13 Waiver Remedies. No delay or forbearance on the part of any party in exercising any right, power or privilege must operate as a waiver of it, nor does any waiver of any right, power or privilege operate as a waiver of any other right, power or privilege, nor does any single or partial exercise of any right, power or privilege preclude any other or further exercise of it or of any other right, power or privilege. No waiver is effective unless made in writing and executed by the party to be bound by it. The rights and remedies provided for in this Agreement are cumulative and are not exclusive of any rights or remedies that the parties otherwise may have at law, in equity or both, except that the City will not be liable to Licensee for any consequential damages whatsoever related to this Agreement.

18.14 Authority of Commissioner. Unless otherwise expressly stated in this Agreement, any consents and approvals to be given by the City under this Agreement may be made and given by the Commissioner or by such other person as may be duly authorized by the City Council, unless the context clearly indicates otherwise.

18.15 Estoppel Certificate. From time to time upon not less than fifteen (15) days prior request by the other party, a party or its duly authorized representative having knowledge of the following facts, will execute and deliver to the requesting party a statement in writing certifying as to matters concerning the status of this Agreement and the parties' performance under this Agreement, including the following:

- (a) that this Agreement is unmodified and in full force and effect (or if there have been modifications, a description of the modifications and that the Agreement as modified is in full force and effect);
- (b) the dates to which Rental, including Additional Rental, have been paid and the amounts of the Rental most recently paid;
- (c) that the requesting party is not in default under any provision of this Agreement, or, if in default, the nature of it in detail;
- (d) that, to its knowledge, the requesting party has completed all required improvements in accordance with the terms of this Agreement, and Licensee is in occupancy and paying Rental on a current basis with no offsets or claims; and
- (e) in the case of the City's request under this Agreement, such further matters as may be reasonably requested by the City, it being intended that any such statement may be relied upon by third parties.

18.16 No Personal Liability. Neither City nor Licensee, shall charge any elected or appointed official, agent, or employee of the City or Licensee personally or seek to hold him or her personally or contractually liable for any liability or expenses of defense under any provision of this Agreement or because of any breach of its provisions or because of his or her execution, approval, or attempted execution of this Agreement.

18.17 Limitation of City's Liability. Licensee and Contractors must make no claims against the City for damages, charges, additional costs or fees or any lost profits or costs incurred by reason of delays or hindrances by the City in the performance of its obligations under this Agreement. All Licensee, SubLicensees, and Contractor personal property upon the Premises or upon any other part of the Airport, is at the risk of Licensee, SubLicensees, or Contractor respectively only, and the City is not liable for any loss or damage to it or theft of it or from it. The City is not liable or responsible to Licensee, its SubLicensees or Contractors, and Licensee waives, and will cause its SubLicensees and Contractors likewise to waive, to the fullest extent permitted by law, all claims against the City for any loss or damage or inconvenience to any property or person or any lost profits any or all of which may have been occasioned by or arisen out of any event or circumstance, including theft, fire, act of God, public enemy, injunction, riot, strike, insurrection, war, court order, requisition or order of governmental body or authority, or water leakage, steam, excessive heat or cold, falling plaster, or broken glass; or any act or neglect of the City or any occupants of the Airport, including the Terminal or the Premises, or repair or alteration of any part of the Airport, or failure to make any such repairs or any other thing or circumstance, whether of a like nature or a wholly different nature. If the City fails to perform any covenant or condition of this Agreement that the City is required to perform and, notwithstanding the foregoing, Licensee recovers a money judgment against the City, the judgment must be satisfied only out of credit against the Rent and other monies payable by Licensee to the City under this Agreement, and the City is not liable for any deficiency except to the extent provided in this Agreement and to the extent that there are legally available Airport funds.

18.18 Joint and Several Liability. If Licensee, or its successors or assigns, if any, is comprised of more than one individual or other legal entity (or a combination of them), then in that event, each and every obligation or undertaking stated in this Agreement to be fulfilled or performed by Licensee is the joint and several obligation or undertaking of each such individual or other legal entity.

18.19 Non-Recordation. Licensee must not record or permit to be recorded on its behalf this Agreement or a memorandum of this Agreement, in any public office.

18.20 Survival. Any and all provisions set forth in this Agreement that, by its or their nature, would reasonably be expected to be performed after the expiration or termination of this Agreement survive and are enforceable after the expiration or termination. Any and all liabilities, actual or contingent, that have arisen in connection with this Agreement, survive any expiration or termination of this Agreement. Any express statement of survival contained in any section must not be construed to affect the survival of any other section, which must be determined under this Section.

18.21 Force Majeure. Neither party is liable for non-performance of obligations under this Agreement due to Force Majeure. As a condition to obtaining an extension of the period to perform its obligations under this Agreement, the party seeking such extension due to a Force Majeure must notify the other party within twenty (20) days after the occurrence of the Force Majeure. The notice must specify the nature of the delay or interruption and the period of time contemplated or necessary for performance. The foregoing notwithstanding, however, in no

event will Licensee be entitled to an extension of more than ninety (90) days due to a Force Majeure, without the express written consent of the Commissioner.

IN WITNESS WHEREOF, the City and the Licensee have hereto set their duly authorized hand and seals as of the date set forth above.

**SPECIAL CONDITIONS REGARDING MINORITY OWNED BUSINESS ENTERPRISE  
COMMITMENT AND WOMEN OWNED BUSINESS ENTERPRISE COMMITMENT IN  
CONSTRUCTION CONTRACTS**

**I. Policy and Terms**

As set forth in 2-92-650 *et seq.* of the Municipal Code of Chicago (MCC) it is the policy of the City of Chicago that businesses certified as Minority Owned Business Enterprises (MBEs) and Women Owned Business Enterprises (WBEs) in accordance with Section 2-92-420 *et seq.* of the MCC and Regulations Governing Certification of Minority and Women-owned Businesses, and all other Regulations promulgated under the aforementioned sections of the Municipal Code, as well as MBEs and WBEs certified by Cook County, Illinois, shall have full and fair opportunities to participate fully in the performance of this contract. Therefore, bidders shall not discriminate against any person or business on the basis of race, color, national origin, or sex, and shall take affirmative actions to ensure that MBEs and WBEs shall have full and fair opportunities to compete for and perform subcontracts for supplies or services.

Failure to carry out the commitments and policies set forth herein shall constitute a material breach of contract and may result in the termination of the contract or such remedy as the City of Chicago deems appropriate.

Under the City's MBE/WBE Construction program as set forth in MCC 2-92-650 *et seq.* the program-wide aspirational goals are 25% Minority Owned Business Enterprise participation and 5% Women Owned Business Enterprise participation. The City has set goals of 25% and 5% on all contracts in line with its overall aspirational goals, unless otherwise specified herein, and is requiring that bidders make a good faith effort in meeting or exceeding these goals.

**Contract Specific Goals and Bids**

A bid may be rejected as non-responsive if it fails to submit one or more of the following with its bid demonstrating its good faith efforts to meet the Contract Specific Goals by reaching out to MBEs and WBEs to perform work on the contract:

- A. An MBE/WBE compliance plan demonstrating how the bidder plans to meet the Contract Specific Goals (Schedule D); and/or
- B. Documentation of Good Faith Efforts (Schedule H).

If a bidder's compliance plan falls short of the Contract Specific Goals, the bidder must include either a Schedule H demonstrating that it has made Good Faith Efforts to find MBE and WBE firms to participate or a request for a reduction or waiver of the goals.

Accordingly, the bidder or contractor commits to make good faith efforts to expend at least the following percentages of the total contract price (inclusive of any and all modifications and amendments), if awarded the contract:

**MBE Contract Specific Goal: 25%**  
**WBE Contract Specific Goal: 5%**

This Contract Specific Goal provision shall supersede any conflicting language or provisions that may be contained in this document.

For purposes of evaluating the bidder's responsiveness, the MBE and WBE Contract Specific Goals shall be percentages of the bidder's total base bid. However, the MBE and WBE Contract Specific Goals shall apply to the total value of this contract, including all amendments and modifications.

#### **Contract Specific Goals and Contract Modifications**

1. The MBE and WBE Contract Specific Goals established at the time of contract bid shall also apply to any modifications to the Contract after award. That is, any additional work and/or money added to the Contract must also adhere to these Special Conditions requiring Contractor to (sub)contract with MBEs and WBEs to meet the Contract Specific Goals.
  - a. Contractor must assist the Construction Manager or user Department in preparing its "proposed contract modification" by evaluating the subject matter of the modification and determining whether there are opportunities for MBE or WBE participation and at what rates.
  - b. Contractor must produce a statement listing the MBEs/WBEs that will be utilized on any contract modification. The statement must include the percentage of utilization of the firms. If no MBE/WBE participation is available, an explanation of good faith efforts to obtain participation must be included.
2. The Chief Procurement Officer shall review each proposed contract modification and amendment that by itself or aggregated with previous modification/amendment requests, increases the contract value by ten percent (10%) of the initial award, or \$50,000, whichever is less, for opportunities to increase the participation of MBEs or WBEs already involved in the Contract.

#### **II. Definitions**

"Area of Specialty" means the description of a MBE's or WBE's activity that has been determined by the Chief Procurement Officer to be most reflective of the firm's claimed specialty or expertise. Each MBE and WBE letter of certification contains a description of the firm's Area of Specialty. Credit toward the Contract Specific Goals shall be limited to the participation of firms performing within their Area of Specialty. The Department of Procurement Services does not make any representation concerning the ability of any MBE or WBE to perform work within its Area of Specialty. It is the responsibility of the bidder or contractor to determine the capability and capacity of MBEs and WBEs to perform the work proposed.

"B.E.P.D." means an entity certified as a Business enterprise owned or operated by people with disabilities as defined in MCC 2-92-586.

"Broker" means a person or entity that fills orders by purchasing or receiving supplies from a third party supplier rather than out of its own existing inventory and provides no commercially useful function other than acting as a conduit between his or her supplier and his or her customer.

"Chief Procurement Officer" or "CPO" means the chief procurement officer of the City of Chicago or his or her designee.

"Commercially Useful Function" means responsibility for the execution of a distinct element of the work of the contract, which is carried out by actually performing, managing, and supervising the work involved, evidencing the responsibilities and risks of a business owner such as negotiating the terms of (sub)contracts, taking on a financial risk commensurate with the contract or its subcontract, responsibility for acquiring the appropriate lines of credit and/or loans, or fulfilling responsibilities as a joint venture partner as described in the joint venture agreement.

"Construction Contract" means a contract, purchase order or agreement (other than lease of real property) for the construction, repair, or improvement of any building, bridge, roadway, sidewalk, alley, railroad or other structure or infrastructure, awarded by any officer or agency of the City, other than the City Council, and whose cost is to be paid from City funds.

"Contract Specific Goals" means the subcontracting goals for MBE and WBE participation established for a particular contract.

"Contractor" means any person or business entity that has entered into a construction contract with the City, and includes all partners, affiliates and joint ventures of such person or entity.

"Direct Participation" the value of payments made to MBE or WBE firms for work that is done in their Area of Specialty directly related to the performance of the subject matter of the Construction Contract will count as Direct Participation toward the Contract Specific Goals.

"Directory" means the Directory of Minority Business MBEs and WBEs maintained and published by the Chief Procurement Officer. The Directory identifies firms that have been certified as MBEs and WBEs, and includes the date of their last certifications and the areas of specialty in which they have been certified. Bidders and contractors are responsible for verifying the current certification status of all proposed MBEs and WBEs.

"Executive Director" means the executive director of the Office of Compliance or his or her designee.

"Good Faith Efforts" means actions undertaken by a bidder or contractor to achieve a Contract Specific Goal that, by their scope, intensity, and appropriateness to the objective, can reasonably be expected to fulfill the program's requirements.

"Joint venture" means an association of a MBE or WBE firm and one or more other firms to carry out a single, for-profit business enterprise, for which each joint venture partner contributes property, capital, efforts, skills and knowledge, and in which the MBE or WBE is responsible for a distinct, clearly defined portion of the work of the contract and whose share in the capital contribution, control, management, risks, and profits of the joint venture are commensurate with its ownership interest.

"Minority Business Enterprise" or "MBE" means a firm awarded certification as a minority owned and controlled business in accordance with City Ordinances and Regulations as

well as a firm awarded certification as a minority owned and controlled business by Cook County, Illinois.

"Supplier" or "Distributor" refers to a company that owns, operates, or maintains a store, warehouse or other establishment in which materials, supplies, articles or equipment are bought, kept in stock and regularly sold or leased to the public in the usual course of business. A regular distributor or supplier is a firm that owns, operates, or maintains a store, warehouse, or other establishment in which the materials or supplies required for performance of the Contract are bought, kept in stock, and regularly sold to the public in the usual course of business. To be a regular distributor the firm must engage in, as its principal business and in its own name, the purchase and sale of the products in question. A regular distributor in such bulk items as steel, cement, gravel, stone, and petroleum products need not keep such products in stock if it owns or operates distribution equipment.

"Women Business Enterprise" or "WBE" means a firm awarded certification as a women owned and controlled business in accordance with City Ordinances and Regulations as well as a firm awarded certification as a women owned business by Cook County, Illinois.

### **III. Joint Ventures**

The formation of joint ventures to provide MBEs and WBEs with capacity and experience at the prime contracting level, and thereby meet Contract Specific Goals (in whole or in part) is encouraged. A joint venture may consist of any combination of MBEs, WBEs, and non-certified firms as long as one member is an MBE or WBE.

A. The joint venture may be eligible for credit towards the Contract Specific Goals only if:

1. The MBE or WBE joint venture partner's share in the capital contribution, control, management, risks and profits of the joint venture is equal to its ownership interest;
2. The MBE or WBE joint venture partner is responsible for a distinct, clearly defined portion of the requirements of the contract for which it is at risk;
3. Each joint venture partner executes the bid to the City; and
4. The joint venture partners have entered into a written agreement specifying the terms and conditions of the relationship between the partners and their relationship and responsibilities to the contract, and all such terms and conditions are in accordance with the conditions set forth in Items 1, 2, and 3 above in this Paragraph A.

B. The Chief Procurement Officer shall evaluate the proposed joint venture agreement, the Schedule B submitted on behalf of the proposed joint venture, and all related documents to determine whether these requirements have been satisfied. The Chief Procurement Officer shall also consider the record of the joint venture partners on other City of Chicago contracts. The decision of the Chief Procurement Officer

regarding the eligibility of the joint venture for credit towards meeting the Contract Specific Goals, and the portion of those goals met by the joint venture, shall be final.

The joint venture may receive MBE or WBE credit for work performed by the MBE or WBE joint venture partner(s) equal to the value of work performed by the MBE or WBE with its own forces for a distinct, clearly defined portion of the work.

Additionally, if employees of the joint venture entity itself (as opposed to employees of the MBE or WBE partner) perform the work then the value of the work may be counted toward the Contract Specific Goals at a rate equal to the MBE or WBE firm's percentage of participation in the joint venture as described in Schedule B.

The Chief Procurement Officer may also count the dollar value of work subcontracted to other MBEs and WBEs. Work performed by the forces of a non-certified joint venture partner shall not be counted toward the Contract Specific Goals.

C. Schedule B: MBE/WBE Affidavit of Joint Venture

Where the bidder's Compliance Plan includes the participation of any MBE or WBE as a joint venture partner, the bidder must submit with its bid a Schedule B and the proposed joint venture agreement. These documents must both clearly evidence that the MBE or WBE joint venture partner(s) will be responsible for a clearly defined portion of the work to be performed, and that the MBE's or WBE's responsibilities and risks are proportionate to its ownership percentage. The proposed joint venture agreement must include specific details related to:

1. The parties' contributions of capital, personnel, and equipment and share of the costs of insurance and bonding;
2. Work items to be performed by the MBE's or WBE's own forces and/or work to be performed by employees of the newly formed joint venture entity;
3. Work items to be performed under the supervision of the MBE or WBE joint venture partner; and
4. The MBE's or WBE's commitment of management, supervisory, and operative personnel to the performance of the contract.

**NOTE:** Vague, general descriptions of the responsibilities of the MBE or WBE joint venture partner do not provide any basis for awarding credit. For example, descriptions such as "participate in the budgeting process," "assist with hiring," or "work with managers to improve customer service" do not identify distinct, clearly defined portions of the work. Roles assigned should require activities that are performed on a regular, recurring basis rather than as needed. The roles must also be pertinent to the nature of the business for which credit is being sought. For instance, if the scope of work required by the City entails the delivery of goods or services to various sites in the City, stating that the MBE or WBE joint venture partner will be responsible for the performance of all routine maintenance and all repairs required to the vehicles used to deliver such goods or services is pertinent to the nature of the business for which credit is being sought.

IV. Counting MBE and WBE Participation Towards the Contract Specific Goals

Refer to this section when preparing the MBE/WBE compliance plan and completing Schedule D-1 for guidance on what value of the participation by MBEs and WBEs will be counted toward the stated Contract Specific Goals. The "Percent Amount of Participation" depends on whether and with whom a MBE or WBE subcontracts out any portion of its work and other factors.

**Firms that are certified as both MBE and WBE may only be listed on a bidder's compliance plan as either a MBE or a WBE to demonstrate compliance with the Contract Specific Goals.** For example, a firm certified as both a MBE and a WBE may only listed on the bidder's compliance plan under one of the categories, but not both. Additionally, a firm that is certified as both a MBE and a WBE could not self-perform 100% of a contract, it would have to show good faith efforts to meet the Contract Specific Goals by including in its compliance plan work to be performed by another MBE or WBE firm, depending on which certification that dual-certified firm chooses to count itself as.

- A. Only expenditures to firms that perform a **Commercially Useful Function** as defined above may count toward the Contract Specific Goals.
  - 1. The CPO will determine whether a firm is performing a commercially useful function by evaluating the amount of work subcontracted, whether the amount the firm is to be paid under the contract is commensurate with the work it is actually performing and the credit claimed for its performance of the work, industry practices, and other relevant factors.
  - 2. A MBE or WBE does not perform a commercially useful function if its participation is only required to receive payments in order to obtain the appearance of MBE or WBE participation. The CPO may examine similar commercial transactions, particularly those in which MBEs or WBEs do not participate, to determine whether non MBE and non WBE firms perform the same function in the marketplace to make a determination.
- B. Only the value of the dollars paid to the MBE or WBE firm for work that it performs in its **Area of Specialty** in which it is certified counts toward the Contract Specific Goals.

**Only payments made to MBE and WBE firms that meet BOTH the Commercially Useful Function and Area of Specialty requirements above will be counted toward the Contract Specific Goals.**

- C. If the MBE or WBE performs the work itself:
  - 1. 100% of the value of work actually performed by the MBE's or WBE's own forces shall be counted toward the Contract Specific Goals, including the cost of supplies purchased or equipment leased by the MBE or WBE from third parties or second tier subcontractors in order to perform its (sub)contract with its own forces. 0% of the value of work at the project site that a MBE or WBE subcontracts to a non-certified firm counts toward the Contract Specific Goals
- D. If the MBE or WBE is a manufacturer:
  - 1. 100% of expenditures to a MBE or WBE manufacturer for items needed for the Contract shall be counted toward the Contract Specific Goals. A manufacturer is

a firm that operates or maintains a factory or establishment that produces on the premises the materials or supplies obtained by the bidder or contractor.

- E. If the MBE or WBE is a distributor or supplier:
  - 1. 60% of expenditures for materials and supplies purchased from a MBE or WBE that is certified as a regular dealer or supplier shall be counted toward the Contract Specific Goals.
- F. If the MBE or WBE is a broker:
  - 1. 0% of expenditures paid to brokers will be counted toward the Contract Specific Goals.
  - 2. As defined above, Brokers provide no commercially useful function.
- G. If the MBE or WBE is a member of the joint venture contractor/bidder:
  - 1. A joint venture may count the portion of the total dollar value of the contract equal to the distinct, clearly defined portion of the work of the contract that the MBE or WBE performs with its own forces toward the Contract Specific Goals.
    - i. OR if employees of this distinct joint venture entity perform the work then the value of the work may be counted toward the Contract Specific Goals at a rate equal to the MBE or WBE firm's percentage of participation in the joint venture as described in Schedule B.
  - 2. Note: a joint venture may also count the dollar value of work subcontracted to other MBEs and WBEs, however, work subcontracted out to non-certified firms may not be counted.
- H. If the MBE or WBE subcontracts out any of its work:
  - 1. 100% of the value of the work subcontracted to other MBEs or WBEs performing work in its Area of Specialty may be counted toward the Contract Specific Goals.
  - 2. 0% of the value of work that a MBE or WBE subcontracts to a non-certified firm counts toward the Contract Specific Goals (except for the cost of supplies purchased or equipment leased by the MBE or WBE from third parties or second tier subcontractors in order to perform its (sub)contract with its own forces as allowed by C.1. above).
  - 3. The fees or commissions charged for providing a *bona fide* service, such as professional, technical, consulting or managerial services or for providing bonds or insurance or the procurement of essential personnel, facilities, equipment, materials or supplies required for performance of the Contract, may be counted toward the Contract Specific Goals, provided that the fee or commission is determined by the Chief Procurement Officer to be reasonable and not excessive as compared with fees customarily allowed for similar services.
  - 4. The fees charged for delivery of materials and supplies required on a job site (but not the cost of the materials and supplies themselves) when the hauler, trucker, or delivery service is not also the manufacturer of or a regular dealer in the materials and supplies, provided that the fee is determined by the Chief Procurement Officer to be reasonable and not excessive as compared with fees customarily allowed for similar services.
  - 5. The fees or commissions charged for providing any bonds or insurance, but not the cost of the premium itself, specifically required for the performance of the Contract, provided that the fee or commission is determined by the Chief Procurement Officer to be reasonable and not excessive as compared with fees customarily allowed for similar services.

**V. Procedure to Determine Bid Compliance**

The following Schedules and requirements govern the bidder's or contractor's MBE/WBE proposal:

**A. Schedule B: MBE/WBE Affidavit of Joint Venture**

1. Where the bidder's Compliance Plan includes the participation of any MBE or WBE as a joint venture partner, the bidder must submit with its bid a Schedule B and the proposed joint venture agreement. See Section III above for detailed requirements.

**B. Schedule C: MBE/WBE Letter of Intent to Perform as a Subcontractor or Supplier**

The bidder must submit the appropriate Schedule C with the bid for each MBE and WBE included on the Schedule D. The City encourages subcontractors to utilize the electronic fillable format Schedule C, which is available at the Department of Procurement Services website, <http://cityofchicago.org/forms>. Suppliers must submit the Schedule C for Suppliers, first tier subcontractors must submit a Schedule C for Subcontractors to the Prime Contractor and second or lower tier subcontractors must submit a Schedule C for second tier Subcontractors. Each Schedule C must accurately detail the work to be performed by the MBE or WBE and the agreed upon rates/prices. Each Schedule C must also include a separate sheet as an attachment on which the MBE or WBE fully describes its proposed scope of work, including a description of the commercially useful function being performed by the MBE or WBE in its Area of Specialty. If a facsimile copy of the Schedule C has been submitted with the bid, an executed original Schedule C must be submitted by the bidder for each MBE and WBE included on the Schedule D within five (5) business days after the date of the bid opening.

**C. Schedule D: Compliance Plan Regarding MBE and WBE Utilization**

The bidder must submit a Schedule D with the bid. The City encourages bidders to utilize the electronic fillable format Schedule D, which is available at the Department of Procurement Services website, <http://cityofchicago.org/forms>. An approved Compliance Plan is required before a contract may commence.

The Compliance Plan must commit to the utilization of each listed MBE and WBE. The bidder is responsible for calculating the dollar equivalent of the MBE and WBE Contract Specific Goals as percentages of the total base bid. All Compliance Plan commitments must conform to the Schedule Cs.

A bidder or contractor may not modify its Compliance Plan after bid opening except as directed by the Department of Procurement Services to correct minor errors or omissions. Bidders shall not be permitted to add MBEs or WBEs after bid opening to meet the Contract Specific Goals, however, contractors are encouraged to add additional MBE/WBE vendors to their approved compliance plan during the performance of the contract when additional opportunities for participation are identified. Except in cases where substantial, documented justification is provided, the bidder or contractor shall not reduce the dollar commitment made to any MBE or WBE in order to achieve conformity between the Schedule Cs and Schedule D. All

terms and conditions for MBE and WBE participation on the contract must be negotiated and agreed to between the bidder or contractor and the MBE or WBE prior to the submission of the Compliance Plan. If a proposed MBE or WBE ceases to be available after submission of the Compliance Plan, the bidder or contractor must comply with the provisions in Section VII.

**D. Letters of Certification**

A copy of each proposed MBE's and WBE's Letter of Certification from the City of Chicago or Cook County, Illinois, must be submitted with the bid.

A Letters of Certification includes a statement of the MBE's or WBE's area(s) of specialty. The MBE's or WBE's scope of work as detailed in the Schedule C must conform to its area(s) of specialty. Where a MBE or WBE is proposed to perform work not covered by its Letter of Certification, the MBE or WBE must request the addition of a new area at least 30 calendar days prior to the bid opening.

**E. Schedule F: Report of Subcontractor Solicitations**

A Schedule F must be submitted with the bid, documenting all subcontractors and suppliers solicited for participation on the contract by the bidder. Failure to submit the Schedule F may render the bid non-responsive.

**F. Schedule H: Documentation of Good Faith Efforts**

1. If a bidder determines that it is unable to meet the Contract Specific Goals, it must document its good faith efforts to do so, including the submission of Attachment C, Log of Contacts.
2. If the bidder's Compliance Plan demonstrates that it has not met the Contract Specific Goals in full or in part, the bidder must submit its Schedule H no later than three business days after notification by the Chief Procurement Officer of its status as the apparent lowest bidder. Failure to submit a complete Schedule H will cause the bid to be rejected as non-responsive.
3. Documentation must include but is not necessarily limited to:
  - a. A detailed statement of efforts to identify and select portions of work identified in the bid solicitation for subcontracting to MBEs and WBEs;
  - b. A listing of all MBEs and WBEs contacted for the bid solicitation that includes:
    - i. Names, addresses, emails and telephone numbers of firms solicited;
    - ii. Date and time of contact;
    - iii. Person contacted;
    - iv. Method of contact (letter, telephone call, facsimile, electronic mail, etc.).
  - c. Evidence of contact, including:
    - i. Project identification and location;

- ii. Classification/commodity of work items for which quotations were sought;
  - iii. Date, item, and location for acceptance of subcontractor bids;
  - iv. Detailed statements summarizing direct negotiations with appropriate MBEs and WBEs for specific portions of the work and indicating why agreements were not reached.
  - v. Bids received from all subcontractors.
- d. Documentation of bidder or contractor contacts with at least one of the minority and women assistance associations on Attachment A.
- G. Agreements between a bidder or contractor and a MBE or WBE in which the MBE or WBE promises not to provide subcontracting quotations to other bidders or contractors are prohibited.
- H. Prior to award, the bidder agrees to promptly cooperate with the Department of Procurement Services in submitting to interviews, allowing entry to places of business, providing further documentation, or soliciting the cooperation of a proposed MBE or WBE. Failure to cooperate may render the bid non-responsive.
- I. If the City determines that the Compliance Plan contains minor errors or omissions, the bidder or contractor must submit a revised Compliance Plan within five (5) business days after notification by the City that remedies the minor errors or omissions. Failure to correct all minor errors or omissions may result in the determination that a bid is non-responsive.
- J. No later than three (3) business days after receipt of the executed contract, the contractor must execute a complete subcontract agreement or purchase order with each MBE and WBE listed in the Compliance Plan. No later than eight (8) business days after receipt of the executed contract, the contractor must provide copies of each signed subcontract, purchase order, or other agreement to the Department of Procurement Services.

**VI. Demonstration of Good Faith Efforts**

- A. In evaluating the Schedule H to determine whether the bidder or contractor has made good faith efforts, the performance of other bidders or contractors in meeting the goals may be considered.
- B. The Chief Procurement Officer shall consider, at a minimum, the bidder's efforts to:
  - 1. Solicit through reasonable and available means at least 50% (or at least five when there are more than eleven certified firms in the commodity area) of MBEs and WBEs certified in the anticipated scopes of subcontracting of the contract, as documented by the Schedule H. The bidder or contractor must solicit MBEs and WBEs within seven (7) days prior to the date bids are due. The bidder or contractor must take appropriate steps to follow up initial solicitations with interested MBEs or WBEs.
  - 2. Advertise the contract opportunities in media and other venues oriented toward MBEs and WBEs.

3. Provide interested MBEs or WBEs with adequate information about the plans, specifications, and requirements of the contract, including addenda, in a timely manner to assist them in responding to the solicitation.
  4. Negotiate in good faith with interested MBEs or WBEs that have submitted bids. That there may be some additional costs involved in soliciting and using MBEs and WBEs is not a sufficient reason for a bidder's failure to meet the Contract Specific Goals, as long as such costs are reasonable.
  5. Not reject MBEs or WBEs as being unqualified without sound reasons based on a thorough investigation of their capabilities. The MBE's or WBE's standing within its industry, membership in specific groups, organizations, or associations and political or social affiliations are not legitimate causes for rejecting or not soliciting bids to meet the Contract Specific Goals.
  6. Make a portion of the work available to MBE or WBE subcontractors and suppliers and selecting those portions of the work or material consistent with the available MBE or WBE subcontractors and suppliers, so as to facilitate meeting the Contract Specific Goals.
  7. Make good faith efforts, despite the ability or desire of a bidder or contractor to perform the work of a contract with its own organization. A bidder or contractor who desires to self-perform the work of a contract must demonstrate good faith efforts unless the Contract Specific Goals have been met.
  8. Select portions of the work to be performed by MBEs or WBEs in order to increase the likelihood that the goals will be met. This includes, where appropriate, breaking out contract work items into economically feasible units to facilitate MBE or WBE participation, even when the bidder or contractor might otherwise prefer to perform these work items with its own forces.
  9. Make efforts to assist interested MBEs or WBEs in obtaining bonding, lines of credit, or insurance as required by the City or bidder or contractor.
  10. Make efforts to assist interested MBEs or WBEs in obtaining necessary equipment, supplies, materials, or related assistance or services; and
  11. Effectively use the services of the City; minority or women community organizations; minority or women assistance groups; local, state, and federal minority or women business assistance offices; and other organizations to provide assistance in the recruitment and placement of MBEs or WBEs.
- C. If the bidder disagrees with the City's determination that it did not make good faith efforts, the bidder may file a protest pursuant to the Department of Procurement Services Solicitation and Contracting Process Protest Procedures within 10 business days of a final adverse decision by the Chief Procurement Officer.

**VII. Changes to Compliance Plan**

- A. No changes to the Compliance Plan or contractual MBE and WBE commitments or substitution of MBE or WBE subcontractors may be made without the prior written approval of the Chief Procurement Officer. Unauthorized changes or substitutions, including performing the work designated for a subcontractor with the contractor's own forces, shall be a violation of these Special Conditions and a breach of the contract with the City, and may cause termination of the executed Contract for breach, and/or subject the bidder or contractor to contract remedies or other sanctions. The facts supporting the request for changes must not have been known nor reasonably could have been known by the parties prior to entering into the subcontract. Bid shopping is prohibited. The bidder or contractor must negotiate with the subcontractor to resolve the problem. If requested by either party, the Department of Procurement Services shall facilitate such a meeting. Where there has been a mistake or disagreement about the scope of work, the MBE or WBE can be substituted only where an agreement cannot be reached for a reasonable price for the correct scope of work.
- B. Substitutions of a MBE or WBE subcontractor shall be permitted only on the following basis:
  - 1. Unavailability after receipt of reasonable notice to proceed;
  - 2. Failure of performance;
  - 3. Financial incapacity;
  - 4. Refusal by the subcontractor to honor the bid or proposal price or scope;
  - 5. Mistake of fact or law about the elements of the scope of work of a solicitation where a reasonable price cannot be agreed;
  - 6. Failure of the subcontractor to meet insurance, licensing or bonding requirements;
  - 7. The subcontractor's withdrawal of its bid or proposal; or
  - 8. De-certification of the subcontractor as a MBE or WBE. (Graduation from the MBE/WBE program does not constitute de-certification.
- C. If it becomes necessary to substitute a MBE or WBE or otherwise change the Compliance Plan, the procedure will be as follows:
  - 1. The bidder or contractor must notify the Chief Procurement Officer in writing of the request to substitute a MBE or WBE or otherwise change the Compliance Plan. The request must state specific reasons for the substitution or change. A letter from the MBE or WBE to be substituted or affected by the change stating that it cannot perform on the contract or that it agrees with the change in its scope of work must be submitted with the request.
  - 2. The City will approve or deny a request for substitution or other change within 15 business days of receipt of the request.
  - 3. Where the bidder or contractor has established the basis for the substitution to the satisfaction of the Chief Procurement Officer, it must make good faith efforts to meet the Contract Specific Goal by substituting a MBE or WBE subcontractor. Documentation of a replacement MBE or WBE, or of good faith efforts, must meet the requirements in sections V and VI. If the MBE or WBE Contract Specific Goal cannot be reached and good faith efforts have

been made, as determined by the Chief Procurement Officer, the bidder or contractor may substitute with a non-MBE or non-WBE.

4. If a bidder or contractor plans to hire a subcontractor for any scope of work that was not previously disclosed in the Compliance Plan, the bidder or contractor must obtain the approval of the Chief Procurement Officer to modify the Compliance Plan and must make good faith efforts to ensure that MBEs or WBEs have a fair opportunity to bid on the new scope of work.
  5. A new subcontract must be executed and submitted to the Chief Procurement Officer within five business days of the bidder's or contractor's receipt of City approval for the substitution or other change.
- D. The City shall not be required to approve extra payment for escalated costs incurred by the contractor when a substitution of subcontractors becomes necessary to comply with MBE/WBE contract requirements.

**VIII. Reporting and Record Keeping**

- A. During the term of the contract, the contractor and its non-certified subcontractors must submit partial and final waivers of lien from MBE and WBE subcontractors that show the accurate cumulative dollar amount of subcontractor payments made to date. Upon acceptance of the Final Quantities from the City of Chicago, FINAL certified waivers of lien from the MBE and WBE subcontractors must be attached to the contractor's acceptance letter and forwarded to the Department of Procurement Services, Attention: Chief Procurement Officer.
- B. The contractor will be responsible for reporting payments to all subcontractors on a monthly basis in the form of an electronic audit. Upon the first payment issued by the City of Chicago to the contractor for services performed, on the first day of each month and every month thereafter, email and/or fax audit notifications will be sent out to the contractor with instructions to report payments that have been made in the prior month to each MBE and WBE. The reporting of payments to all subcontractors must be entered into the Certification and Compliance Monitoring System (C2), or whatever reporting system is currently in place, on or before the fifteenth (15<sup>th</sup>) day of each month.

Once the prime contractor has reported payments made to each MBE and WBE, including zero dollar amount payments, the MBE and WBE will receive an email and/or fax notification requesting them to log into the system and confirm payments received. All monthly confirmations must be reported on or before the 20<sup>th</sup> day of each month. Contractor and subcontractor reporting to the C2 system must be completed by the 25<sup>th</sup> of each month or payments may be withheld.

All subcontract agreements between the contractor and MBE/WBE firms or any first tier non-certified firm and lower tier MBE/WBE firms must contain language requiring the MBE/WBE to respond to email and/or fax notifications from the City of Chicago requiring them to report payments received for the prime or the non-certified firm.

Access to the Certification and Compliance Monitoring System (C2), which is a web based reporting system, can be found at: <http://chicago.mwdbe.com>

- C. The Chief Procurement Officer or any party designated by the, Chief Procurement Officer shall have access to the contractor's books and records, including without limitation payroll records, tax returns and records and books of account, to determine the contractor's compliance with its commitment to MBE and WBE participation and the status of any MBE or WBE performing any portion of the contract. This provision shall be in addition to, and not a substitute for, any other provision allowing inspection of the contractor's records by any officer or official of the City for any purpose.
- D. The contractor shall maintain records of all relevant data with respect to the utilization of MBEs and WBEs, retaining these records for a period of at least five years after final acceptance of the work. Full access to these records shall be granted to City, federal or state authorities or other authorized persons.

**IX. Non-Compliance**

- A. Without limitation, the following shall constitute a material breach of this contract and entitle the City to declare a default, terminate the contract, and exercise those remedies provided for in the contract at law or in equity: (1) failure to demonstrate good faith efforts; and (2) disqualification as a MBE or WBE of the contractor or any joint venture partner, subcontractor or supplier if its status as an MBE or WBE was a factor in the award of the contract and such status was misrepresented by the contractor.
- B. Payments due to the contractor may be withheld until corrective action is taken.
- C. Pursuant to 2-92-740, remedies or sanctions may include disqualification from contracting or subcontracting on additional City contracts for up to three years, and the amount of the discrepancy between the amount of the commitment in the Compliance Plan, as such amount may be amended through change orders or otherwise over the term of the contract, and the amount paid to MBEs or WBEs. The consequences provided herein shall be in addition to any other criminal or civil liability to which such entities may be subject.
- D. The contractor shall have the right to protest the final determination of non-compliance and the imposition of any penalty by the Chief Procurement Officer pursuant to 2-92-740 of the Municipal Code of the City of Chicago, within 15 business days of the final determination.

**X. Arbitration**

If the City determines that a contractor has not made good faith efforts to fulfill its Compliance Plan, the affected MBE or WBE may recover damages from the contractor.

Disputes between the contractor and the MBE or WBE shall be resolved by binding arbitration before the American Arbitration Association (AAA), with reasonable expenses, including attorney's fees and arbitrator's fees, being recoverable by a prevailing MBE or WBE. Participation in such arbitration is a material provision of the Construction Contract to which these Special Conditions are an Exhibit. This provision is intended for the benefit of any MBE or WBE affected by the contractor's failure to fulfill its Compliance Plan and grants such entity specific third party beneficiary rights. These rights are non-waivable and take precedence over any agreement to the contrary, including but not limited to those contained in a subcontract, suborder, or communicated orally between a contractor and a MBE or WBE. Failure by the Contractor to participate in any such arbitration is a material breach of the Construction Contract.

A MBE or WBE seeking arbitration shall serve written notice upon the contractor and file a demand for arbitration with the AAA in Chicago, IL. The dispute shall be arbitrated in accordance with the Commercial Arbitration Rules of the AAA. All arbitration fees are to be paid *pro rata* by the parties.

The MBE or WBE must copy the City on the Demand for Arbitration within 10 business days after filing with the AAA. The MBE or WBE must copy the City on the arbitrator's decision within 10 business days of receipt of the decision. Judgment upon the arbitrator's award may be entered in any court of competent jurisdiction.

**XI. Equal Employment Opportunity**

Compliance with MBE and WBE requirements will not diminish or supplant equal employment opportunity and civil rights provisions as required by law related to bidder or contractor and subcontractor obligations.

Current Chicago O'Hare International Airport Terminal Map

Overview: "The Unique Design Character of Chicago"

The purpose of these Concessionaire Design Guidelines (CDG) is to communicate an overall design intent and to provide quality, material, signage, lighting and system standards for concessions development at Chicago O'Hare International Airport (ORD).

The design intent is to produce concession spaces that capture an experience comparable to strolling through Chicago, using creative ways to construct a pleasant and notable experience for travelers. The concession spaces should be designed to evoke identifiable architectural elements that reflect the vitality of Chicago's vibrant architecture, diversity, rich heritage and innovation.

It is the Concessionaire's responsibility to field verify all existing conditions and to confirm the location of all built elements, utilities and building systems within or impacted by the Concessionaire's space.

All work shall be accomplished using materials of uniformly high quality and shall be performed in accordance with the very best standards of practice, applicable laws, codes and regulations having jurisdiction and shall be subject to The Chicago Department of Aviation (CDA) approval.

These Concessionaire Design Guidelines for ORD provide aesthetic guidance and technical information to the proposers for this Concession offering. These guidelines illustrate the minimum standards for the design component of the Concession Program.

Taking design questions from the public and providing answers.

Chicago O'Hare International Airport is the third busiest airport in North America and sixth busiest airport in the world in terms of passenger traffic, which serves 70 million people annually. O'Hare is currently a major hub for American Airlines and United Airlines.

#### **Mission Statement:**

The CDA aspires to deliver an exceptional, first-class passenger experience using innovative, diverse and authentic expressions of Chicago's culture and spirit.

The design of a Concessionaire's space shall support these goals through innovative design and first-rate implementation as outlined in this document. The CDA wants passengers to celebrate ORD's stature as a "Global Gateway" that's just a short commute to downtown Chicago.

ORD Concessionaires are encouraged to examine key aspects of the City's heritage, physical environment, cultural life, institutions, icons and monuments to express and celebrate the best of Chicago. Additionally, the City's nightlife, retail establishments, restaurants, and public festivals may be used to provide a framework within which retail facilities will become memorable and entertaining experiences.

Concession areas will include stores, restaurants, food court, kiosks, retail shopping, dining, lounge facilities and spa services.

Thus, ORD seeks to offer award-winning concessions and innovative technology to help its passengers travel smarter and faster, while providing opportunities for a memorable customer experience via a hospitality-inspired aesthetic and attitude.

The design of storefronts and concession spaces should strike a balance between variety and consistency. Design concepts should produce a harmonious feel throughout the terminal. The design of all concession spaces must be respectful of the terminal architecture and not distract from the aesthetic intent of the Airport facilities and way-finding sign system. Concessionaire design must be consistent with the design guidelines and criteria embodied in this document.

The Concessionaire Design Guidelines (CDG) are a basic "set of rules" that the Concessionaire is required to work with and expand upon. These guidelines may be met by proposing contemporary design solutions that reflect the cosmopolitan character and sophistication of the City of Chicago. Designs should capture the "essence" and relay a variety of distinguished characteristics combined together to create the "The Unique Design Character of Chicago" experience.

The CDA, CDA's Point of Contact (CDA POC) and CDA Concessions (CDA-C) are committed to achieving the following goals with the Airport Retail Program. Throughout this CDG all references for the CDA review and approval will imply the CDA's POC review and recommendations to the CDA. Concessions will be required to implement concession design solutions consistent with these goals:

- To create and provide innovative design that supports the Mission Statement, and will be clearly identified with Chicago domestically & internationally.
- To creatively plan concessions that are compatible with the airlines and CDA operational requirements and with passenger convenience. Concessions should be operationally efficient and demonstrate innovative in-unit storage.
- To create concessions which complement the architectural qualities of the airport and are compatible with adjacent tenancies.
- To incorporate environmentally sustainable design practices in the development and build out of concessions and comply with the CDA "Sustainable Airport Manual" (SAM <sup>16</sup>).

process, starting with the CDA and the CDA's POC are the same. The design process begins. As such, the design team is not involved with the physical lease space and review the design and design program presenting to CDA.

### CDA Representation and Design Review

Questions and comments regarding the CDG and of procedures, as well as all tenant concession design submissions for review shall be directed to the CDA Representatives.

The CDA Representative will coordinate design reviews by various divisions of the CDA and any affected airline.

The CDA and its representatives will review each design submission on its individual merit in the context of neighboring premises and Airport design standards. CDA reserves the right to require changes to, or reject elements of, the design.

All designs are reviewed and approved by the CDA.

#### CDA Base Building Finishes

- Ceilings – varying types
- Flooring – existing concrete or terrazzo, stone, wood, porcelain tile.
- Walls – painted gypsum wall board
- Columns – Painted steel, gypsum board, concrete, terrazzo, stainless steel cover, or stone cladding
- Structure – concrete and steel

#### Common Area Elements

CDA provides the following:

- Demising walls
- Terrazzo flooring
- Gypsum wall board and ceilings
- Lighting
- Furnishings for the food court & lounge spaces

#### Concessionaire Requests to Modify the Base Building

If the Concessionaire's requirements for any of the base building elements or services supplied by the CDA exceed the standards or capacities outlined in the Lease and this manual, the Concessionaire may apply to the CDA for upgrading of such elements or services. The CDA will review the application received and may, at its sole discretion, agree to the upgrade, or require the Concessionaire to upgrade the affected base building at their expense.

The Design Control Zone (DCZ) is a creative zone set just inside the storefront glazing on opening and will extend a depth of 4'-0" inside the store. This zone creates a visual break between ORD circulation and the display of merchandise.

Storefront materials should extend into the DCZ and complement both interior finishes and adjacent airport finishes. Mobile display merchandise or advertising will not be allowed in the public circulation zone.

An operable storefront system must be concealed and integrated into the design. Door covers must tie clad with storefront finishes. Refer to Exhibit 3.2 for additional information.

Concessionaires are required to provide a fully lockable closure to their premises to secure their store, and to comply with TSA requirements. Rolling or sliding closures are recommended. Closure should be decorative and translucent.

The closure line needs to occur within the Concessionaire's leased premise.

#### Design Considerations:

- Conceal doors during operating hours.
- Swinging frameless glass doors with top & bottom rails and pivot hinges.
- All door tracks are to be recessed.
- The floor grommets (for security grill) are to be flush with floor finish.
- Merchandise must be visible through the Concessionaire's closure.

### Storefront & Design Control Zone Ceiling Construction and Access

The Concessionaire's ceiling within the DCZ must be constructed with the approved materials. There shall be no combustible materials in the ceiling space. Ceiling design shall incorporate access to all ceiling-mounted CDA and Concessionaire equipment requiring inspection and maintenance. The Concessionaire's designer shall determine the required sizes and locations of access points.

*Ceiling heights should be as high as permitted within Concessionaire spaces.*

### Queuing

Queuing space should be thoughtfully integrated into the design approach. Food and beverage tenants are required to provide means to separate queuing from general circulation and seating. Concession patrons cannot queue into terminal areas or crowd into adjoining spaces.

### Design Considerations:

- Concessionaires' designs should incorporate the horizontal and vertical lines established by the base building design, including window modules, stone joint lines etc.
- Concessionaire materials may not be attached to base building materials in any way. Bolted connections are not acceptable. Damage to base building finishes shall be repaired at the Concessionaire's expense.
- Lighting of the storefront should not compete with the base building lighting. Excessively high light levels are unacceptable. Neon is unacceptable.
- At new storefronts, it is recommended that a luggage guard rail be installed along the base of the wall to avoid damage and breakage. See Exhibit 3.1 for suggested details.
- Maximize natural sunlight into Concession's space

Concessions that are inviting energize the airport experience. Travelers should be provided the highest level of comfort and control in an atmosphere that champions the environment without compromising style and functionality. In order to achieve these goals, the interior visual quality of tenant spaces must incorporate innovation along with high quality workmanship as well as high end, durable materials and finishes.

The use of graphics, detailing, dramatic lighting, color, fixtures and merchandising should be an integral part of the proposed design. Visual quality of retail display and ongoing maintenance must be considered. All Point of Sale (POS) counters, condiment counters, trash/recycling enclosures, and storage requirements must be carefully planned in order to reduce visual clutter.

Concessionaires shall provide a consistent image, signage and finishes package for the entire leased space. Concession spaces should aim to balance the needs of building performance with passenger experience. Concessionaires must develop design concepts that make it easy for passengers to navigate the space.

Sustainability features, lighting, natural greenery, and plants are key features into the design of the space.

#### Design Considerations:

- The use of graphics, detailing, dramatic lighting, color, fixtures and merchandising should be an integral part of the proposed design.
- Visual quality of retail display and ongoing maintenance must be considered.
- All Point of Sale (POS) counters, condiment counters, trash/recycling enclosures, and storage requirements must be carefully planned in order to reduce visual clutter.
- Concessionaires shall provide a consistent image, signage and finishes package for the entire leased space.
- Concession spaces should aim to balance the needs of building performance with passenger experience.
- Concessionaires must develop design concepts that make it easy for passengers to navigate the space.

*The application of brand prototypes will need to be considered. A standard prototypical store may not be allowed.*

*The retail and food/beverage concession interiors must project a high standard of design commensurate with the quality of store interiors found in leading upscale boutiques & shopping centers.*

Store designs must consider high-quality materials and finishes that can withstand high-volume / impact traffic settings, luggage carts, wheel chairs and commercial maintenance equipment. Finish materials up to 30" above the finish floor are susceptible to luggage cart damage and will be considered high-impact zones. Materials should be resistant to scratches, dents, chips and stains at storefront entries. Concessionaires are strongly encouraged to incorporate design and materials that will withstand abuse and maintain an attractive appearance.

Storefront entrances are highly encouraged to be designed with panelized joints, muntins and features that will allow damaged panels to be easily replaced when necessary. Large monolithic painted panels are not allowed.

Counter tops must be fabricated from solid surface or otherwise seamless materials (e.g. marble, natural or artificial stone).

### Storefronts

Concessions must employ high quality materials in the construction of their storefront. Exposed corners should have integral protection and be designed into the overall storefront. Stainless Steel or thin metals shall not be used in high traffic areas where dents or soiled finger printing can occur.

Materials & finishes should reflect the highest level of quality and detail.

The following sections identify materials that may be used in concessions at O'Hare. All materials must be non-combustible, fire resistant, and meet applicable codes.

Suggested storefront wall base materials are natural stone, tile or brushed stainless steel. Alternative materials that are not listed within these guidelines may be presented to CDA for approval.

*All thin clad materials must be fully adhered to stable substrate.*

*Materials that reveal their natural color and texture are highly encouraged.*

### **Color and Texture Through Materials**

The choice of color and materials is one of the most successful ways to achieve a strong relationship with the natural environment of O'Hare's conception design. Stone, polished concrete, metal and wood are all good examples of materials that fit this category.

A relationship to the natural environment & materials listed in this document has been achieved in a variety of ways.

### Flooring

Durable materials are required for flooring throughout retail and food & beverage areas. Natural stone should be installed with eased or chamfered edges and properly grouted and sealed per industry standards. These materials must maintain a friction coefficient of 0.5 when tested in accordance with ASTM C1028.

Where parts of the storefront are recessed behind the lease line, the floor area between the lease line and the storefront is considered part of the DCZ. Concessionaire floor finishes must align vertically with the common area floor finish. Perceived material edge or projections are not allowed. Common area floors may not align with the new Concessionaire's floor. The Concessionaire is responsible to install a common area floor transition to align with the Concessionaire's floor.

At the intersection of the airport flooring and the store interior flooring a thin (1/8" max) stainless steel (SS) separation strip will be allowed. No threshold, reducer strips, or other transition devices shall be permitted.

Any transition in floor level shall not exceed 2% in slope and should occur at the interior side of the Concessionaire's closure line unless otherwise approved by CDA.

### Acceptable Materials:

- Ceramic tile
- Polished concrete
- Natural stone
- Rubber tile
- Sheet vinyl
- Composite rubber flooring
- Case-by-case basis
- Simulated brick
- Unfinished concrete floors

### Elements within the Concessionaire Space

The existing terrazzo floor will remain within the Concessionaire space except for those locations where the new base building work requires removal of the floor. The Concessionaire is responsible for any change, repair and maintenance to the floor material within its space.

### Flooring

#### Unacceptable Materials:

- Rubber tile
- Cork
- Vinyl composite tile (VCT)
- Sheet vinyl or rubber flooring within the area of public view (retracted composite rubber flooring may be acceptable and is reviewed on a case-by-case basis)
- Simulated brick
- Unfinished concrete floors

### Wall Base

The Concessionaire will provide a consistently maintained wall base, a minimum of 6 inches (6") high of an appropriate durable material throughout the visible storefront. All base must be scribed to the floor and fully adhered to the wall. Separate base is required.

### Acceptable Materials (Including Concessionaire's Storefront):

- Ceramic tile
- Polished concrete
- Natural stone
- Rubber tile
- Sheet vinyl
- Composite rubber flooring
- Case-by-case basis
- Simulated brick
- Unfinished concrete floors

### Unacceptable Materials:

- Plastic laminate
- Rubber or vinyl base
- Pre-finished thin metals

### Demising Wall

Demising walls between Concessionaires will be one (1) hour fire-rated construction or as required by code and extend to the underside of the base building structure. All demising walls requires sound attenuating (floor to ceiling). The Concessionaire is responsible for maintaining a uniform demising partition. Existing walls that are deficient shall be repaired by the Concessionaire to the Airport standard. Framing will consist of metal studs ready to receive the Concessionaire's finish. CDA will oversee the coordination of adjacent Concessionaire's use of the demising wall for mechanical and electrical purposes.

- Concessionaire duct work that passes through the demising wall or corridor wall must be equipped with a fire damper at the point of penetration and shall be provided at the Concessionaire's expense. If the Concessionaire plans to use a demising wall for the support of shelf-standards or heavy attachments, then the Concessionaire must reinforce the wall as needed.

### Walls within Concessionaire Space

Walls within the Concessionaire's space shall be provided by the Concessionaire and the wall finish shall extend a minimum of six (6") above the finished ceiling.

All materials used for concessionaire space shall be approved by CDA prior to installation.

### Neutral Piers

Neutral piers are part of the base building architecture and serve to separate individual tenant lease areas. They often contain base building structural columns. The appearance of these piers cannot be altered in any way without CDA approval.

The neutral piers are intended to be part of the overall airport architecture (and not viewed as part of the concession). They should remain visually separate from adjacent storefronts.

Typically, the neutral pier conceals structural and mechanical elements. They cannot be moved. Another common neutral pier type occurs where the neutral pier falls between the structural grid of the concourse and covers no structural element. If no neutral pier exists for the demising wall to tie into, it is the Concessionaire's responsibility to build it. The design of any new piers must match the neutral piers already existing in that concourse or portion of the terminal, subject to CDA approval.

### Sound Transmission Class (STC) Planning Matrix Chart

Concessionaires will be required to maintain a minimum STC rating for the demising walls per the following matrix:

	Office	Public Space	Retail	Grab & Go	News Stand	Concession Storage
Office	40	40	40	40	40	40
Public Space	50	50	50	50	50	50
Retail	52	52	52	52	52	52
Grab & Go	45	45	45	45	45	45
News Stand	45	45	45	45	45	45
Concession Storage	45	45	45	45	45	45

If specific materials are already installed on the opposite side of the demising walls, the Concessionaire shall provide wall materials that maintain the STC rating requirements. If no material is installed on the opposite side of the wall, for the purpose of attaining the STC requirements, the Concessionaire shall assume the final material will be a single layer of 5/8" drywall.

### Fire Ratings

Materials and assemblies must comply with applicable flame-spread ratings and fire resistance requirements. All construction and fire resistive material requirements must comply with all applicable Federal, State and Local codes.

### Expansion Joints

Some concession spaces will have building expansion joints passing through the space. The Concessionaire will provide and install all required expansion joint fillers and covers to conform and align with terminal building expansion joints. The Concessionaire shall be responsible for maintenance of expansion joint.

### Transitions

Merchandise and fixtures when showcased properly can entice passengers to look and linger. Such features can guide or even inspire the design of the facility. Concessionaires are encouraged to provide unique and different experiences throughout the passengers' path. Customer focused design elements are recommended.

#### Design Considerations:

- Visual screens required for all pass through(s) between front public area and back of house zone to prevent direct views into back of house area
- Concessionaire must be familiar with existing conditions
- Provide durable surfaces at outside corners that receive heavy traffic use
- Doors are required between front of house and back kitchens and stock rooms
- Provide details to describe floor, wall, and ceiling transitions at adjacent Concessionaire and airport finishes

#### Merchandise Display

Merchandise display wall panels and metal standards must be independently secured and mounted in accordance with all governing codes and standards. The concessionaire acknowledges that demising walls are not designed to support wall-mounted fixtures or millwork without supplemental support.

Concessionaire must provide supplemental support for wall-mounted fixtures.

### Ceiling

Concessionaire must provide a minimum finish of sealed concrete.

#### Unacceptable Finished Condition:

- Unfinished exposed ceilings open to the structure above unless it is incorporated into the overall design.

#### Material Considerations:

- Storage areas must have a minimum finish of sealed concrete.

- A waterproof membrane must be installed in all wet areas and extend onto the wall at least 12" A.F.F.

#### Food Service Equipment

Any food service equipment that is within sight of the customer must be coordinated and integrated into the design, including the finish and trim on all factory-finished surfaces of cookers, freezers, case work, and other equipment.

#### **Furniture & Fixtures**

Furniture and fixtures must be commercial quality, designed for the intended function and able to withstand heavy customer use. The Concessionaire is advised to pay particular attention to the materials, finishes and construction of the furniture to insure long service-life and attractive appearance. Test samples are required as part of the approval process.

All millwork, counters and furniture, shall be an integral part of the overall design. Each of these elements must comply with ADA regulations.

#### **Counters / Railings**

Recommended countertop and railing materials include stone, quartz, solid surface (Corian, Avonite, etc.), concrete and metal.

#### **Tables**

Table tops and edges should be durable and easily cleaned; e.g.: solid surface, natural stone, stainless steel, appropriately treated solid wood surfaces. Use of plastic laminate is not allowed unless the design, pattern and detailing adds to the overall concept and enhances the concessions environment at the airport. Table bases should be of suitable scale and construction to provide stability and durability.

#### **Seating**

Frames are to be of metal or solid wood. Upholstery, where used, should be selected for its timeless appearance, durability, and ease of maintenance. Fabrics should have a pattern that aids in keeping a clean appearance.

- Concessionaires are required to work with a licensed engineer to ensure designs meet all applicable building and energy codes
- Storefronts should be brightly and dramatically lit to focus attention on merchandise, and contrast with lighting levels in the concourse
- Track lighting in display windows should be recessed in coves or pockets
- Spotlighting may be achieved using recessed, adjustable angle fixtures or track-mounted adjustable spotlights
- Lighting should be designed to illuminate the facility and its products or services, but must not shine into eyes of passengers, cause glare or distraction

#### Window Treatment & Applications

- Window coverings or art work are not allowed without special approval by the CDA

#### Design Considerations:

- Natural lighting may affect the location of merchandising
- Ceiling or wall features may be required to diffuse direct natural lighting

#### Prohibited Lighting Applications

Concessionaires using speakers for the purpose of providing quiet background music for their patrons' enjoyment must take precautions to ensure that any sound or vibration is not transmitted to adjoining spaces. Speakers should be positioned facing away from the concourse so that noise level should not travel past five (5) outside the storefront.

Concessionaires are prohibited from incorporating monitors with broadcast television content in their space. Flat screen displays, if approved, are to be placed uniformly within millwork or adjacent to wall finishes.

Concessionaires security cameras shall be discreetly installed. Freestanding tenant security devices or security systems shall not be installed.

### Trash & Recycling

Concessionaires shall provide an appropriate number of trash and recycling receptacles to maintain a clean and sanitary environment for their passengers. Free standing trash bins are not allowed in public view. All integrated trash bins shall have openings sized to conceal trash. Final design submissions must indicate the location and access to the container within the leased area.

Garbage compaction and/or refrigeration equipment must be installed in the concessions space by the Concessionaire if perishable items are handled and required by applicable governing laws, codes, and/or regulations.

All Retail / Food & Beverage Concessionaires shall incorporate a store front or closet to house employee personal belongings, cleaning supplies, fixtures / stools and limited rubbish or trash.

#### Design Considerations:

- Two signage types are allowed. These consist of a primary internally illuminated sign located above the storefront and an internally illuminated blade sign. Primary signs consist of the Concessionaire's brand name only, in a font/color of tenant's choosing. Blade signs allow for use of tenant's logo.

*Signage should add to the overall creative expression of the space*

Signage is a key component of a concessions brand statement. Signage and associated environmental graphics should complement the architectural design of each Concessionaire's space. These elements should be considered early in the design process, be given significant attention and be integrated into the overall storefront design concept. Each Concessionaire is allowed a primary overhead storefront sign with the option to install a blade sign. The final signage design submittal must include side view renderings or photos, the sign location, the exact dimensions, and an elevation that meets the terminal specific requirements and does not conflict with the airport signage / graphics. Refer to Exhibit 4.1 for more information.

Please note that a sign permit is required, it can only be obtained by a licensed sign contractor.

The Concessionaire must inform the CDA if the project requires building signage be removed, modified, or supplemented. A walk through with CDA will be scheduled to ensure CDA has adequate time to schedule the required signage work to occur during the construction phase. Please note that any CDA signage needing to be removed or relocated within the project area must be performed by CDA. The Concessionaire will be responsible for all costs to relocate or modify building signage. If CDA signage is located within the project area, the Concessionaire must include in the construction documents that the contractor will adequately protect all CDA signage to ensure it is not damaged during construction.

Logos will not be allowed on primary signs located on storefronts. Logos are allowed on blade signs only. For the primary storefront signage, the addition of any extraneous decorations, beyond the allowable backer shape and the Concessionaire's name, is prohibited.

For storefront conditions without adjacent walls, ceilings or a bulkhead element convenient for storefront sign mounting, Concessionaire may propose illuminated signage integrated into their storefront architectural design. Dimensional back lit letters are required for ordinary storefront signs.

### Signage and Graphics: Menu Board

Menu boards are a key aspect in supporting the architectural design of each food and beverage concession. Font and text size shall be easily viewed. The design of these elements must be produced by a professional graphic designer retained by the Concessionaire. In conjunction with this, any food photography must be produced by a professional food stylist. Concessionaires are encouraged to consider menuing as part of the overall composition of their space, and go beyond conventional placement standards. Concessionaires may choose to use LCD technology in their menu boards.

#### Sign Types / Techniques Prohibited:

- Cabinet or "can" signs with illuminated translucent backgrounds, and silhouetted letters

A dining approach drawing elements from high-end cafes and restaurants, is a recommended way to create inviting dining experiences throughout O'Hare.

The intention is to create spaces that capture an experience comparable to dining in one of Chicago's many eateries.

Food and beverage establishments are an integral experience at the airport. The Concessions' design should take into consideration how best to work with and complement the surrounding environment. Eateries should provide a variety of seating allowing passengers to dine, read or relax. A focus on regional and sustainable offerings is encouraged.

*Creativity within food & beverage interior is encouraged*

### Interior Visual Quality: Café Seating within Leased Premises

Public seating inside the lease line must conform to certain guidelines. The seating system must be designed for high traffic and volume. The furniture must consist of minimal parts that are interchangeable between seating groups. Furniture must be free of sharp corners, protruding elements, or any other projections that could create a safety hazard. Furniture cannot be attached to the floor and chairs must have appropriate glides to prevent scratches and damage to finish floors. Test samples are required as part of approval process.

The following criteria govern the design of the Concessionaire's café seating area inside the closure line.

#### Aesthetics:

- Incorporating three dimensional design elements at storefront (i.e., logos, display windows) to accent glazing plane is encouraged
- All storefronts shall be designed, fabricated and installed by the Concessionaire at the Concessionaire's expense
- Excessive use of continuous full height length opaque material will not be permitted

Adhesive labels, of any size, with or without branding, are not allowed if they are in public view. Manufacturer's promotional fixturing is not allowed. Recensed standards for shelving is encouraged.

Adequate storage space for merchandise, cleaning supplies, staff items, and refuse associated with the facility's operation must be integrated into the design. Concessionaires cannot overstock merchandise. Drawings shall indicate quantity of fixtures and locations. Temporary storage of merchandise or refuse outside of the lease line is not allowed.

Concessionaires shall not be allowed to install any signage from the inside and outside are encouraged

**Design Considerations:**

- Creative use & integral displays encouraged
- All merchandise to be visually integrated into design
- High quality grab-n-go cases

- Casters on in-line equipment (i.e. refrigerator, coolers) shall be concealed with a decorative kick plate.
- Visible storage of food items and utensils shall be minimized.
- Beverage display must be integrated into design concept and shall not be placed on top of frontline counter or equipment.
- Coolers shall not use plastic drapes.
- All condiment counters are to be located within the facade and integral with the architectural casework.
- Placement design of kitchen hoods is to be carefully considered. Refer to Concessionaire's Work Letter for more information.

- Provide adequate venting for built-in grab & go units so that no heat does not build up.
- Counters and fascia (kick plates) should be fabricated with 304L surface or natural materials resistant to damage.

### Introduction

Kiosk types are Retail & Beverage. Kiosks are subject to the same guidelines as in-line Concessionaire spaces. Kiosks are defined as free standing concession spaces located within the ORD public space.

- Kiosks are located adjacent to the exterior wall of the terminals along one side of the main circulation aisle way or strategically positioned between multiple circulation aisle ways.
- Kiosks that are "open plan" display merchandise in casework or refrigerated coolers along the back and side walls and in free standing multi-sided display case islands that allow the patrons to enter and move around the Concessionaire area. The Concessionaire sales staff works on the public side of the merchandise to assist and service patrons.
- "Closed concept" Kiosks place the merchandise and refrigerated coolers around the perimeter of the space. The Concessionaire sales staff works behind the merchandise to assist and service patrons.

The design should be inviting to customers. Kiosks shall use quality materials in a simple, yet elegant manner and display the products and services in a clear and sophisticated way such that customer interaction is intuitive. Consideration must be given to the design and finish of all exposed surfaces. Kiosks are especially susceptible to damage from passenger luggage and carts. Careful selection and detailing of materials is essential.

### Kiosk Lighting

The general lighting level varies throughout the Airport and may not be sufficient for the services provided at a kiosk. Therefore, appropriate fixtures should be incorporated into the design to provide adequate lighting for functional and aesthetic purposes. However, the lighting should neither overpower the space nor cause a distraction to passengers moving about the space.

### Design Considerations:

- Display case lighting is seamlessly integrated into the overall design
- Light source is concealed
- Back-lit graphics behind glass on standoffs is encouraged

### Kiosk: Open Plan Concept

- Customers to walk-through and engage with your product

### Kiosk: Closed Plan Concept

- Customers walk around your floating retail unit

#### Summary of Requirements:

- Kiosks designed with a canopy, sign band, or ceiling elements
  - shall have a maximum height of 10'-6" A.F.F.
  - shall be a minimum of 80% open to above
  - shall adjust or provide additional lighting and fire protection for ORD base building
- Creatively integrate signage
- Utilize solid surfaces and damage resistant materials
- An 8' minimum toe-kick is required to protect the floating retail finishes from high foot traffic and cleaning machinery abuse. Toe-kick should incorporate concealed lighting, thus giving the kiosk a 'floating' effect
- Overall display lighting shall be integrated into the kiosk design and concealed from view
- Accommodate for customer traffic flow and queuing
- Under no circumstances may any element of the Concessionaire's design obstruct sight lines to departure gates or terminal signage from any point in the food court common area or concourse
- Conceal electrical cables and conduits with millwork or graphics
- Existing base building floor may not be removed
- Security closures should appear either decorative or hidden during hours of operation. When the kiosk is closed, the security closure should appear as an integrated and attractive part of the design composition
- All storage and equipment, including cash registers, shall be integrated and concealed so not visible to the customer
- Cooking / grilling shall not be allowed
- Food and Beverage Concessionaire's shall have a waterproof membrane the full footprint of the kiosk
- Overhead lighting or canopy may be integrated into the overall design but must relate to the Airport architecture
- Food & Beverage kiosks are encouraged to have a seating area for customers with the lease boundary
- Refer to Exhibit 2.5 for more information

1. The kiosk shall be designed to be integrated into the overall design of the Airport architecture. The kiosk shall be designed to be integrated into the overall design of the Airport architecture. The kiosk shall be designed to be integrated into the overall design of the Airport architecture.

As a part of the CDA standards for barrier free design have been included. It will be every Concessionaire's responsibility to ensure that its store design conforms to current code requirements identified in the Chicago Building Code, Chicago Municipal Code, the Americans with Disabilities Act and the Illinois Accessibility Code. This section does not replace applicable barrier free codes and/or legislation; the more stringent requirement should be followed.

The CDA has made a commitment to persons with disabilities. The design and construction including communications services, choice of finishes, furniture selection, as well as the overall management approach will be reviewed specifically to ensure that people with disabilities will have full use of facilities. Compliance with accessibility standards are more than just a social commitment. The CDA recognizes that society ages and people with disabilities become more and more integrated into the activities of normal daily living. Facilities such as this airport will need to support people of all abilities as a practical reality.

TOUCH CONTROLS MUST BE LOCATED WITHIN THIS AREA FOR ACCESSIBILITY

## Concessionaire Access Recommendations

### Restaurant / Lounges:

Specific recommendations will depend on the exact nature of the restaurant and its decor. However, the following are basic guidelines for restaurant design as it relates to persons with disabilities:

- ☐ Menus (approximately five {5}) are to be provided in alternate formats: large print, Braille and/or audiotape, for persons with low vision or blindness. Where possible, wall mounted menu boards should be at a convenient height for wheelchair users and be well lit with spot lights from track lighting or lit from behind
- ☐ Seating for persons with disabilities should be dispersed throughout the restaurant. Fixed seating such as booths are generally difficult for people with poor mobility, older adults and are inaccessible for wheelchair users. If booths are integral to the design concept, additional moveable seating shall be incorporated, as well as wider aisles to allow wheelchair users and persons using the seating to sit at the table
- ☐ Clear, well-lit directional signage (indicating washrooms, etc.) shall be placed near the entrance
- ☐ Chairs should be light and easy to reposition
- ☐ Seat height should be 18" from the floor, approximately 17" deep x 17" wide, and some chairs should have armrests
- ☐ Supports or cross bracing may not interfere with kick space under the chair

# Design and Construction Concessions Standard Operating Procedures & Exhibits (C-SOP & C-SOP Exhibits)

The CDA reviews, oversees, and approves design and work for all new construction, renovation and remodeling projects at CSD. The Concessionaire's design team shall provide evidence of professional services throughout the design, documentation, and field review stages of the work. Design drawings, documents, materials, and as built(s) shall be prepared, signed, and sealed by a licensed architect and engineer professional to practice in the State of Illinois.

ORD promotes environmental stewardship. Greenhouse gas emissions reduction, energy conservation, renewable energy, water efficiency, air quality, a preservation of natural resources, waste reduction, employee wellness and green building facilities are sustainable attributes Midway values. The SAM™ is a comprehensive guide and manual created by the CDA to incorporate and track sustainability in all project phases, concessions and tenants with minimal impact to project schedules or budgets.

For design, renovations, and construction of tenant projects, only the C-EDC section is applicable (SAM™ C1-DC Credits 1.0 to 7.0 and 16.0).

The SAM™ Checklist submittal is applicable to most concession & tenant projects. The applicability is based mainly on the size and scope of the project. The determination of whether a SAM™ Checklist is required will be made by CDA and will be communicated to the designer in the "Response to the Project Initiation Letter".

**Sustainable Airport Manual (SAM™):** included with each design submittal, the Concessionaire must also submit a Sustainable Airport Manual (SAM™) Checklist. The relevant SAM™ chapter is Concessions & Concessionaires - Design & Construction which can be found along with all its supporting documentation at [www.airportsolutionsgreen.org/SAM](http://www.airportsolutionsgreen.org/SAM).

All Concessionaires are obligated to comply with the SAM™ Guidelines.

### Sustainability Recommendations

The following strategies, although not required, are highly encouraged by ORD:

#### Green Cleaning

- Use cleaning products that are Green Seal or Green Guard certified.

#### Green Practice

- Design the lighting program to be more efficient than required by the energy code
- Specify materials with high recycled content
- Consider the use of rapidly renewable materials such as straw board, bamboo, poplar OSB or wood
- Reduce carbon emissions associated with shipping large distances, specify materials that are extracted, manufactured and assembled locally
- Where wood is used, consider specifying materials that are certified by the Forest Stewardship Council (FSC). The "Seal of Approval" is awarded to forest managers who adopt environmentally and socially responsible forest managerial practices. Companies which manufacture and sell products made from FSC wood are able to gain Chain of Custody (COC) documentation which allows their products to also carry the FSC label

### Sustainability Requirements

All tenants at ORD are required to use the following sustainable strategies as part of their tenant improvements:

- All paints & coatings must not exceed VOC (Volatile Organic Compounds) thresholds
- All Adhesive Sealants must not exceed VOC (Volatile Organic Compounds) thresholds
- All composite wood aggrifiber products (MDF, plywood, etc.) including core materials, must contain no added urea-formaldehyde resins
- Construction waste management practices at ORD target a minimum of 50% of waste diverted from landfills. Concessionaires must hire a construction waste recycling hauler in addition to a typical waste hauler. Diversion reports must be collected from the recycling service to document diversion percentages. Percent of waste is determined by weight or volume
- Install ENERGY STAR ® eligible equipment and appliances, office equipment, electronics and commercial food service equipment (but excluding HVAC and lighting)
- Install low-flow sprayers / faucets

#### Education

**(To Concession Lease And License Agreement With Alclear LLC, Doing Business As CLEAR, At Chicago O'Hare International Airport)**

*Airport Concessions Handbook.*

**INTRODUCTION:**

The City of Chicago ("City") and the Chicago Department of Aviation ("CDA") welcome you to the family of concessionaires operating at the City's airports. Your concession represents an excellent business and professional opportunity to serve the traveling public as well as operate a profitable enterprise. In order to ensure quality and uniformity among all concessions, we have designed a Concessions Program that is outlined in this handbook. It is important that you review and adhere to these standards as they will serve as tools for the successful operation of your concession.

**THE CONCESSIONS PROGRAM:**

The CDA's Airport Concessions Program serves as the primary resource to meet the needs of the traveling public with regard to the provision of quality, reasonably-priced goods and services at Chicago's airports. To this end, CDA is further responsible for the outreach, selection, coordination and monitoring of concessionaires. In order to fulfill these responsibilities, CDA has several functional units that, as part of their overall duties, operate as liaisons to prospective and existing concessionaires. The primary units and their concession-related functions are as follows:

<u>CDA UNIT</u>	<u>FUNCTIONS</u>
Commissioner's Office	Policy generation and resolution.
Managing Deputy Commissioner	Overall coordination of revenue, finance, bonding, insurance, property management and concessions functions/issues including merchandising plans, outreach, proposal generation and evaluation, contract negotiation, and overall coordination and processing.
Assistant Commissioner	Assist in overseeing Concessions, the monitoring program and general airport guidelines.
Concession Management Representative ("CMR")	Entity retained by the CDA to assist in overseeing Concessions, including construction of Improvements at the airport.
Planning/Coordinating Architects	Plan and design review; construction coordination and monitoring.
Finance/Revenue	Financial reporting, review and auditing.
Security	Coordination of security identification and other related issues.

**THE MONITORING PROGRAM:**

The Monitoring Program is designed to provide a process to ensure that concessions operating in the Airports comply with the ordinances and policies of the City, provisions of their respective Lease Agreements and specific airport guidelines as established by the CDA. The primary areas that will be reviewed include financial commitments, maintenance of concession space(s), licensing (where required), and overall adherence to the provisions of the Lease Agreement.

The intent of the Monitoring Program is to benefit the traveling public and other airport visitors, concessionaires and the City.

**THE PRE-MONITORING PROCESS:**

After a prospective concession is selected by CDA there are five stages that precede the commencement of the Monitoring Program.

**STAGE 1 - CITY COUNCIL APPROVAL**

Upon completing lease negotiations with the concessionaire, CDA forwards the lease agreement ("Agreement"), signed by the Tenant, to the City's Law Department. After the Law Department's review of the form and legality of the proposed concession agreement, the proposed tenant is introduced to the full City Council. City Council sends the Agreement to the Aviation Committee for review. The Aviation Committee approves, rejects or requests further information. Once approved by the Aviation Committee, the recommendation is forwarded to the full City Council for final approval. In most cases, recommendations submitted to the full Council by Committee are ratified, usually at the next meeting. This approval is documented in the "Journal of Proceedings." The documented approval and contract are then forwarded to the Mayor and other pertinent City departments for execution.

**STAGE 2 - LEASE AGREEMENT**

The Lease Agreement outlines a concessionaire's contractual relationship with the City. It delineates the responsibilities, expectations and the requirements of both parties, financial and non-financial. During negotiation of the terms of the agreement, you will have cause to interact with individuals from the CDA and the CMR Office. The Managing Deputy Commissioner of Concessions will oversee the processing of the Lease Agreement as well the Monitoring Program.

### STAGE 3 - DESIGN APPROVAL

All concessionaires must submit a conceptual, schematic drawing which shows the general design of the unit. The Planning and Architecture departments will review the concept, and if the approval is given, a letter will be sent giving conceptual approval and requesting 100% architectural drawings including a complete materials board, plans and specifications so the plans meet the CDA requirements and aesthetic appeal. Upon providing approval of the 100% plans, Architecture will send a letter to the concessionaire giving authority to apply to the City Buildings Department for building permits. In no case may construction begin prior to the receipt of this approval. The Planning Unit will also monitor construction in progress.

### STAGE 4 - PRE-CONSTRUCTION APPROVAL

Prior to construction, each concession will meet with the CMR for the purpose of providing the concessionaire with general airport construction guidelines. Examples of these guidelines are locations and times for pick-ups, deliveries, refuse disposal, elevator usage, and badging.

Following the operations meeting, the CMR will schedule a pre-construction meeting with CDA. Prior to the meeting, the General Contractor for the project will submit all documents, permits and approvals to CDA for review. Construction may begin following approval at the pre-construction meeting.

### STAGE 5 - CONSTRUCTION

After the contract is finalized, each concessionaire has a specified period to commence and complete construction based on approved design and construction specifications. During this period each concessionaire has the responsibility to expeditiously begin and obtain all necessary approvals, licenses, insurances, etc. Each concessionaire should maintain communication with the CMR during the process to ensure that all construction and licensing requirements are addressed in a timely fashion. It is important that the concession be open to the public within the time parameters specified in the Agreement.

### **KEY ELEMENTS OF THE MONITORING PROGRAM:**

The Concessions Monitoring Program consists of three primary elements: operations reviews, audits and pricing reports. Operations reviews will be conducted on an ongoing basis by the CMR. The operations review form in Appendix 2 will provide a frame work for this component of the Monitoring Program.

Financial and compliance audits will be conducted on an annual and periodic basis, respectively. Financial audits will review all financial, bonding and insurance related requirements.

As specified in the Agreement, each concession shall submit an annual pricing report.

PHYSICAL INSPECTIONS

The Monitoring Process will include ongoing site inspection of each concession site by the CMR. Typical inspections will consist of reviews of facilities, general maintenance, employee practices, product/price conformity and space utilization. Inspection staff will use the CMR Operation Review Form (Appendix 2) to record their findings and observations. Reviews will be sent to the concession manager for review and follow-up on all review items. Non-compliance could result in liquidated damages being levied and/or commencement of default proceedings, dependent upon the nature of the violation.

FINANCIAL AUDITS

In accordance with the provisions of the standard Concession Lease Agreement, CDA reserves the right to require a certified public and/or City audit of all books, ledgers, journals, accounts and records of its concessions.

COMPLIANCE AUDITS

On a regular basis, the CDA will review compliance with insurance coverage, financial commitments and financial reporting requirements. Non-compliance could result in liquidated damages being levied and/or commencement of default proceedings, dependent upon the nature of the violation. Additionally, compliance with ACDBE Special Conditions will be audited.

SECRET SHOPPING

The CDA, from time to time, may hire an outside contractor to perform "secret shopping" and evaluate employee performance of each concession location. Such reviews shall be used to monitor customer service and cash handling procedures among other things.

**SUMMARY:**

The Monitoring Program will provide a basis of uniformity to all concessions. Adherence to the Concession Lease Agreement as well as the elements of this Handbook will contribute to the successful operation of your business.

The following Appendices will further delineate additional information/requirements stated above.

**ACCOUNTING REQUIREMENTS**

---

On a weekly basis Daily Sales are reported electronically in the CDA Concessions Portal Retail Management System. The daily sales for the previous week are input into the system no later than Tuesday of the following week. Sales input questions can be directed to Dana Clinton at 773-894-3382 or at [dana.miller@unisonretailmng.com](mailto:dana.miller@unisonretailmng.com)

Furthermore, on a monthly basis, you will need to submit a gross receipts report with a copy to the City of Chicago's Comptroller's office along with your payment, if there are any additional amounts due. A copy must also be sent to the Department of Aviation Finance and a copy to Unison Retail Management.

---

**ADA COMPLIANCE/FIXTURE PLACEMENT**

---

Americans with Disabilities Act or Chicago's Human Rights Ordinance requires that every business that serves the general public to make its services, products, and facilities accessible on an equal basis to people with disabilities. Ordinance requirements can be found at [www.ecfr.gov](http://www.ecfr.gov).

Our concessions program must adhere to all ordinance requirements pertaining to equal rights to people with disabilities, all standards for design accessibility and equal service to all patrons with service animals. If a person with disabilities claims you did not provide full or reasonable access to your business or service, they may file a disability discrimination complaint against you at the Commission on Human Relations. The Commission may also initiate a complaint. The Commission investigates and rules on each discrimination complaint through a neutral process which gives you the opportunity to present evidence and legal arguments to support your position. If found guilty fines, attorney fees and injunction may be assessed. It is very important to train your staff on how to manage these situations and keep documented records for any situations that may occur. It will be these records that will help you if a complaint is filed against you.

Please be aware most issues our tenants may come across are accessibility problems. Every location at O'Hare has an approved plan for fixture placement upon opening. If you are looking to add fixtures or change the layout of your store, it must be submitted to Unison's Property Manager to start the approval process.

***For easiest approval follow these procedures:***

- Submit your request, prior to any changes, in writing, to Unison.
- Include all drawings, specification sheets or samples.
- Unison will review the request, submit it to the CDA and respond with written approval or comments.

If fixtures, displays, or signage is added to any location without prior approval you will be asked to remove the fixture until proper approval has been obtained.

---

**BANKING**

---

Seaway Bank has a full service bank in Terminal 2. Services include individual and commercial checking and savings accounts, direct deposits, traveler's checks, and payroll check cashing (Airport employees only).

---

---

**BUSINESS LICENSES**

---

Every location operating at the airport must have its own business license, visibly posted. The original business license must be obtained before opening the location. It could take up to one month to obtain the license, so your corporate offices need to apply in a timely fashion according to construction schedule. Unison must be given a copy of the license before opening.

Food & Beverage operators will need to apply for their license during construction and will have to wait for a City of Chicago Health Department inspection. After approval has been given, the license needs to be picked up at the City of Chicago's Department of Business Affairs office that is located at City Hall on the 8<sup>th</sup> floor.

Please be aware that the Departments of Revenue, Health and Aviation make periodic checks to confirm and fines will be issued for violation. Please provide Unison a copy of your license to keep in your license file.

---

**CONFERENCE ROOM**

---

Unison has a conference room in the mezzanine level of Terminal 3 that is available to tenants at no cost. Information and policies on the conference center are included at the end of this section. Call 773-894-3900 for a reservation.

---

**CONTACT INFORMATION**

---

It is very important that Unison and the Department of Aviation is always kept up to date with contact information and any changes that may occur. A Confidential Retail Concessions Information Directory sheet must be kept on file with Unison and updates or changes must be communicated as soon as possible. We ask that you update this at least every 6 months or sooner if you have changes that occur within your management.

---

**CUSTOMER COMPLAINTS**

---

The City operates a Customer Service Hotline. When a call is received, it is documented and given to CDA Concessions or Unison. You will be advised of the complaint and required to respond. If a customer address was left, you are required to follow up IN WRITING to the customer with copies to the CDA and Unison. If no address was left, you are required to follow up in writing to CDA and Unison as to how the problem was solved. As stated in most license agreements, this follow up must be conducted within 72 hours of your receipt of complaint.

---

**DELIVERY PROCEDURES**

---

---

***APPROVED CARTS***

---

Over the years, the airport has experienced a great deal of damage to expansion joints and terrazzo from carts. Damage costs to the facility have now reached into the millions. When choosing delivery carts, utility carts and trash collection dumpsters, try to adhere to the following specifications:

---

- Full encircling rubber bumpers around lower platform base.
- Handles, bag holders or other portion on carts that can cause damage, are to be protected with 3" revolving, white rubber, non-marking bumpers.
- 8" X 1.75" Semi-Pneumatic rubber wheels.

All equipment that is used to transfer product or trash throughout the airport must be in good condition. Wheels that are not maintained properly can be a nuisance to the property and the traveling public. They cannot scrape, squeal, or bounce on the terrazzo flooring. Those found using non-compliant equipment will be required to make repairs or replacements within 48 hours of notification. This requirement is also extended to any vendors that you may have delivering to you. It is your responsibility as the tenant to make sure these requirements are adhered to by everyone that works within your operation.

When deliveries are moved through the airport it is imperative that we do what we can to prevent passenger/employee injury:

- Product must be secured to the cart. Most tenants will use shrink wrap or ratchet straps.
- CO2 and nitrogen tanks must be moved in approved caged or chained carts that are made for moving hazardous product. Your providers should be able to assist with getting the correct transport carts. Tenant employees will be stopped from proceeding with a delivery until safe transport is provided.
- Merchandise may not be stacked above the shoulder height of the employee moving the cart. The employee must be able to see over the merchandise whether they are pulling or pushing the carts.
- Employees may not wear headphones or use their cell phones while moving through the concourses. They must be able to hear what is going on around them.

***Management must direct their employees to adhere to these safety requirements. Non-compliance could result in loss of badges to the employee and management.***

#### ***COMMON CARRIERS***

---

Many tenants receive their shipments via common carriers such as Federal Express, UPS or DHL. These carriers have authorization to bring shipments directly to your store or storage area. Please remember that you are responsible for promptly receiving and inspecting the delivery when it arrives.

**If any part of the delivery seems abnormal, opened and causes concern, it should be reported directly to the O'Hare Communications Center by calling 773-894-9111.**

#### ***DESIGNATED DELIVERY AREAS AND CONCESSIONAIRE MAGNETOMETERS***

---

All vendor deliveries to the airport are required to be checked in through the Package Claim Delivery Booth on the outer roadway. This area can be accessed from the far right lane as you enter the airport property. Signage and yellow barricade bollards identify this area. Your vendors will need to show delivery logs or receipts for the tenants they will be delivering to and where the delivery will be made.

---

ALL DISTRIBUTORS/VENDORS OR OWNERS WILL NEED TO SUBMIT TO THIS VEHICLE CHECK. THERE ARE NO EXCEPTIONS TO THIS REQUIREMENT, EVEN IF THE DELIVERY IS COMING FROM YOUR CORPORATE WAREHOUSE OR YOUR OWN STAFF. THEY MUST FOLLOW THE SAME PROCEDURE FOR DELIVERING TO THE AIRPORT.

Whether you are receiving food product, dry goods or retail merchandise the following procedures must be followed by your staff to assist in the safety and security of our facility and our airport operations. You must train your staff to receive product in a procedure that is consistent for every delivery that you receive. These procedures should be followed from the outside dock to your storage area and again to the airside space.

Your delivery schedule and order forms will dictate what should be allowed to access the airport facility. Your delivery schedule and order forms should be posted weekly and your on-shift managers will need to check the order forms against the delivery receipts before allowing the delivery to be off-loaded. Your staff needs to understand that they can only accept what is on the order form; all other items must be returned immediately.

Food and beverage concessionaires must follow all proper procedures for receiving perishable product and dry goods. Please check **Proper Food Product Receiving and Storage Procedures** under the Food and Beverage section of this handbook.

**Concessions Delivery Procedure Goals:** The main purpose of this inspection procedure requirement is to protect the safety of our facility, co-workers, passengers, and aircraft. Your managers should be fully trained on your operations so they will be able to identify the following:

- They should realize when something does not belong in the area or within your operation.
- They must be able to identify and know how to protect items on the TSA Prohibited Items List that you must use within your operations.
- You want to train them to be confident in their decision if they feel a threat.

**If a delivery person, item, or procedure seems to be out of order, tampered with or unsecure. Processing of the shipment MUST STOP and management must be contacted along with the O'Hare Communications Center (OCC) at 773-894-9111. An officer will be sent to your delivery location and the item will be checked for safety before it is allowed to continue through processing.**

Delivery managers must be trained in your operations and considered qualified to perform the following procedures for managing your deliveries to the airport facility. Proper inspection does not require use of special equipment, but they are responsible for using their human senses of sight, hearing, smell, and touch. They will be required to use caution when working through the delivery procedure. They can never become distracted by other employees or complacent to the process.

During the inspection of the delivery it is very important to look for inconsistencies or suspicious conditions that show signs of tampering, unexplained or exposed wiring, or inconsistent size, weight or shape of packages or product that normally flows through your operations from a specific vendor. Re-taped boxes, unusual smells, weight balances, stained packaging or discoloration should all cause concern and further check.

If your delivery manager questions any of the above CPD should be contacted at 773-894-9111.

Delivery Procedures:

---

1. Deliveries must be scheduled to start at the required hours of 10:00 p.m. and 6:00 a.m., unless you have been given permission to deliver during the day because of operational requirements. **An unscheduled delivery by an unknown vendor or person should not be accepted by anyone at any time.**
2. All of your employees responsible for managing deliveries to the airport should be aware of the schedule and what will be delivered. The schedule should include the names of the vendors, days and time of delivery and driver's name. The schedule should be posted by management and your employees managing the delivery must be given delivery order forms or logs to check off items that have been ordered once received. Visual check by your delivery managers must happen as the delivery is unloaded off the truck or if the delivery is from a common carrier it must be checked before signing acceptance of the delivery. When sending items through common carrier they will send a receipt for how many boxes should be expected. The product list ordered must match the delivery receipt and all product should be labeled and in good condition.

You must establish a rejection policy with your vendors and your managing employees to ensure accurate, timely, consistent, and effective refusal and return of rejected goods. If anything is suspicious, out of order, crushed or open; that product/merchandise must be rejected immediately. Any items/merchandise that does not appear on the order forms must also be rejected immediately. **Make sure your staff is aware that vendor gifting is not allowed!**

Depending on what is delivered for your operations, checklist options are listed below. Numbers 1 – 13 must appear on everyone's checklist. Food and Beverage locations need to add numbers 14 -16. An example receiving log is attached in the Documents and Forms section of this handbook.

- |   |                                       |
|---|---------------------------------------|
| 1. Date of Delivery                           | 9. Accepted                           |
| 2. Security Sweep Card Collection             | 10. Moved to Tenant Space or Storage  |
| 3. Supplier/Vendor Name                       | 11. Rejected                          |
| 4. Delivery manager's name                    | 12. Comments                          |
| 5. Delivery Invoice received and signed       | 13. Delivery Managers signature       |
| 6. Item Delivered                             | 14. Vehicle Inspected for cleanliness |
| 7. Correct Quantity                           | 15. Temperature Control               |
| 8. Containers Inspected for quality or damage | 16. Food Product Temperature Checked  |

At the end of every delivery your delivery manager should have an Order Form, Delivery Receipt, and a Receiving Checklist that is checked and signed by the tenant's delivery manager. All of these documents should be kept as back-up to your Delivery Schedule that was posted at the beginning of the week and kept on file for at least 3 months.

Once product is delivered into the building your product/merchandise can never be left unattended. If employees are working on bringing stock to your storage rooms from a main hallway or pass through, you must have another employee monitoring that stock to make sure that it is kept secure. If product is found unattended it can be discarded by CDA. Food products left unattended will immediately be considered unsafe and CDA and Unison will require that the product be discarded.

#### CONCESSIONS MAGNATOMETERS AND VENDOR CHECKPOINTS

---

Special private x-ray magnetometers are designated for delivery of goods to airside. Should you receive goods on dedicated trucks or from a local vendor, you must use the delivery posts at Post 7 and 9 to have your product screened before it is allowed on the secured/sterile side of the airport. These x-ray magnetometers are also used for delivery from landside storage areas to secured airside units.

Everyone using these x-ray magnetometers MUST have a green badge (which carries special requirements – see the section on Badging in this handbook) with the proper access code for the x-ray magnetometer specified. No exceptions are given. Access to the vendor checkpoint areas are issued by Unison and the Department of Aviation Concessions Department based on your expected operations throughout the airport.

Access to these x-ray magnetometers is available 24-hours a day. If you find that it is shut down due to repair, please contact Unison immediately so that we may follow-up on repairs.

The vendor checkpoint areas are located in:

#### *DELIVERY AREAS – TERMINAL ONE*

---

Terminal 1 deliveries go to Post 7 (attached to Terminal 2):

- Trucks enter the innermost roadway of the lower level (arrivals) after being checked in at the Package Claim Delivery Booth. The vendor will receive a card by the delivery booth showing proof that the vehicle has been inspected. Your employee managing the delivery must ask for this card before allowing the product to be off loaded from the vehicle.
- Once checked they will be allowed to proceed to Post 7 (just beyond Terminal 1, attached to Terminal 2).
- Trucks are allowed to park in the post area for up to 30 minutes. **Trucks may not be left unattended.**
- Tenant employees or delivery company employees proceed up the freight elevator to the upper level for screening of goods.

This is a private magnetometer for airport tenants, vendors, maintenance, and others making large deliveries. Passengers are not allowed in the area. Everyone screening goods at this location must have a green O'Hare identification badge as stated above. Your goods will be screened and then you will be allowed onto the airside of Terminal 2. Proceed to your store or storage location.

#### *DELIVERY AREA - TERMINAL 2*

Delivery procedures are the same as above. However, if you have a storage space in the lower level of Terminal 2, proceed down the freight elevator instead of up for screening. Storage spaces in Terminal 2 are not airside and goods need not be screened before being taken to your storage area. Screening will take place when product is moved from the storage area to the airside units.

#### *DELIVERY AREAS - TERMINAL 3*

All goods for Terminal 3 follow a different procedure:

---

- Trucks enter the innermost roadway of the lower level (arrivals) after being checked in at the Package Claim Delivery Booth. The vendor will receive a card by the delivery booth showing proof that the vehicle has been inspected. Your employee managing the delivery must ask for this card before allowing the product to be off loaded from the vehicle.
- Post 9 deliveries are allowed but you must deliver your product from the middle roadway, since there is not enough space available to the actual dock. However, your distributors can unload and bring your product across the inner roadway and access the side doors and proceed to the freight elevator to the right of the doors. Your distributors must use care and adhere to all safety requirements when delivering to this area. There is no staging allowed on the roadway and carts or pallets must be unloaded and brought across the inner roadway one at the time so as not to create a safety hazard. Space and time is very limited so your distributors must be staffed appropriately to manage effectively.
- Trucks are allowed to park in the post area for up to 30 minutes. Trucks may not be left unattended.
- If you have a storage space in the lower level of Terminal 3, proceed down without security review.
- If you are making a normal delivery to the store, proceed up the freight elevator to the private security checkpoint.
- Goods are screened at this location (much as at Post 7 detailed above) and then allowed to proceed to airside of the Terminal 3 West building.
- Proceed to your destination.

This policy applies even to goods being delivered to Concourse L and to the upper level storage areas.

If deliveries are required outside of our designated delivery checkpoints at Post 7 and Post 9 your corporate company will need to submit a written request to Unison Retail Management detailing the operational needs. Unison will submit to CDA for approval and or suggestions.

#### **DELIVERY HOURS**

Both private concessionaire magnetometers are open 24 hours. Currently, all tenants that get deliveries from outside vendors to the building are required to deliver between the hours of 10:00 p.m. and 6:00 a.m. If deliveries come from UPS or FED EX this does not apply. Deliveries of this type will be delivered directly to your store. Please remember that deliveries that come this way are to be quickly put away.

**WARNING** – Do not make deliveries from the roadway through the front doors and do not leave your vehicle unattended for even a few minutes. For security purposes, the airport may tow any unattended vehicles on the upper or lower roadways.

*PROPER FOOD PRODUCT RECEIVING AND STORAGE PROCEDURES*

---

**Policy:** All food and beverage deliveries must follow required delivery guidelines that are outlined in the Delivery section of this handbook. All food should be checked for proper conditions prior to delivering into the facility and the storage room. Check that required temperatures have been maintained and product is unadulterated is quality and quantity ordered, and is protected from contamination. Deliveries should be from approved suppliers only and credentials must be verified. Receiving logs must be checked, signed off, and stored on-site for 3-months for audit purposes

General principles for food and perishable product delivery:

- Check to make sure frozen food is solid, and does not show evidence of thawing and re-freezing.
- Check to ensure that refrigerated foods are received at or below 40°F.
- Record the date received on the outside of each package, and a use-by date if applicable. Should be marked on the outside of the box to manage rotation procedure.
- Potentially hazardous foods need to be placed in storage as soon as possible. Your delivery service should be able to provide proof of proper temperature control.
- Reject potentially hazardous foods that are not at acceptable temperature and cannot be proven to be safe.
- Reject foods with damaged packaging such as torn bags or cans with swelled tops or bottoms, leakage, incomplete labels, flawed seals, rust, or dents. These items should not be allowed to stay onsite.
- Evaluate quality of products by odor, sight, and touch. Reject unacceptable products. Products must meet order specifications and quality requirements. If any foods are deemed unacceptable, they should be rejected immediately.
- Assess quantity of delivered foods meets purchase order information.
- If foods must be delivered during non-operating hours, the vendor should be an approved source and product inspected before entering the facility.
- Post the delivery schedule, including the names of vendors, days and times of deliveries, and drivers' names; so that your team and CDA can be informed if necessary.
- Establish a rejection policy with all vendors and train your staff on procedures to ensure accurate, timely, consistent, and effective refusal and return of rejected goods. This should also be posted.
- Organize freezer and refrigeration space, loading docks, and store rooms before deliveries; for exact layout and expectation for ease of your staff.
- Gather product specification lists and purchase orders, temperature logs, calibrated thermometers, pens, flashlights, and clean loading carts before deliveries
- Keep receiving area clean and well lighted.

Receiving Frozen and Refrigerated Foods:

1. Check temperature with a calibrated thermometer to assure that cold foods (especially potentially hazardous foods – foods in which microorganisms are able to grow rapidly – often moist, high in protein, and have a neutral or slightly acidic pH) are below 40°F.
  2. Reject, with the exception of fresh shell eggs or milk (45°F), all foods that should be stored below 40°F that are delivered above 40°F. Note milk should be cooled to below 40°F within 4 hours.
  3. Check at random the temperature of three different refrigerated food items for each delivery. Record date, employee initials, vendor, product name, and temperature of these products in the **Receiving Temperature Log**.
  4. Place foods in the proper storage area (cooler or freezer) quickly to avoid potential bacterial growth. Proper cooler temperatures are 41°F or lower. Proper deep chill storage temperatures are from 26°F to 32°F or below. Proper freezer temperatures keep the food frozen solid, typically about 0°F.
-

5. Use First In First Out (FIFO) inventory rotation of products in all storage areas to assure that the oldest products are used first. Products with the earliest use-by or expiration dates are stored in front of products with later dates. Mixing old food with new food is not acceptable.
6. Keep products in original package until used.

Receiving Dry Goods:

1. Check dry goods for leaks, flaws, or broken packages. Dry goods should be dry, free of mold, and free of insects. If the packages are flawed, they should be rejected and not delivered into the facility.
2. Date boxes and cans with receiving date.
3. Separate chemicals from foods.
4. Check delivery invoice against the items delivered, and the purchase order.
5. Note on the invoice any items rejected.
6. Proper dry storage temperatures are between 50°F and 70°F at 50 to 60 percent humidity.

The restaurant manager will:

1. Assure that all foods come from approved vendors and sources.
  2. Schedule deliveries for off-peak hours and make sure trained staff is available to receive, inspect, document, and store food promptly.
  3. Assure that no home-prepared foods are accepted or used.
  4. Maintain **Receiving Temperature and Product Delivery Logs** to ensure proper procedures are being followed.
  5. Follow-up with staff as necessary for training procedures.
  6. File with HACCP records.

*DELIVERY HOURS*

---

Both private concessionaire magnetometers are open 24 hours. Currently, all tenants that get deliveries from outside vendors to the building are required to deliver between the hours of 10:00 p.m. and 6:00 a.m. If deliveries come from UPS or FED EX this does not apply. Deliveries of this type will be delivered directly to your store. Please remember that deliveries that come this way are to be quickly put away.

**WARNING** – Do not make deliveries from the roadway through the front doors and do not leave your vehicle unattended for even a few minutes. For security purposes, the airport may tow any unattended vehicles on the upper or lower roadways.

---

*LUGGAGE CARTS*

---

Luggage carts are NEVER to be used for tenant deliveries. Smarte Carte is another tenant and by utilizing carts, you are limiting potential revenues.

---

*PROHIBITED ELEVATORS*

---

Tenants (or any other delivery personnel) are not to use the following elevators for carts/deliveries:

Terminal 2 Center - These two passenger elevators ARE NEVER to be used for deliveries under any circumstances.

Terminal 2 Passenger Elevator from Post 7 - A freight elevator is provided for delivery use located directly behind the passenger elevator. The adjacent passenger elevator is not to be used for normal deliveries. However, should the freight elevator be out of service, you may use these elevators with great concern taken to avoid damage. Please contact UNISON if you are required to use this elevator.

Terminal 3 Passenger Elevator from Post 10 – Deliveries made to Post 10 should be moved through baggage claim to the freight elevator at Post 9 on the opposite end of the terminal. Do not use the Post 10 passenger elevator. The Post 10 elevator has incurred significant damage from previous shipments and is monitored by security.

Terminal 3 Center – the passenger elevator accessing the basement is NEVER to be used for deliveries.

---

*VENDOR CHECKPOINT OUTAGES*

---

At times the vendor checkpoints may become inoperable for numerous reasons; electrical outage, magnetometer part repair, or imaging issues. Tenants will need to coordinate delivery through the vendor checkpoint that is working. Your delivery hours will remain the same from 10:00 p.m. to 6:00 a.m., unless you have received approval from CDA Safety and Security to make a delivery in the off hours. Tenants that have storage in the lower level basements that need to bring product airside, will need to follow the same plan. Please be assured that CDA Safety and Security will do everything they can to remedy the issue as soon as possible.

---

---

---

**COURTESY TO PASSENGERS**

---

All employees should at all times respect the flow of passengers within the terminal. This includes giving the right of way to passengers when bringing merchandise through security, when entering an elevator or when steering a cart through a crowded terminal. Riding the carts or horseplay WILL NOT BE TOLERATED. This will be considered endangerment and repeated offenses may result in termination.

---

**DRESS CODES**

---

While some tenants provide uniforms to their employees, we understand that many specialty stores opt for a more casual approach, requiring fashionable clothing that compliments the product being sold. Tenants must always be mindful of the appearance of their employees.

Good taste should guide you in your wardrobe decisions but the following are not considered appropriate: short shorts or skirts, sleeveless or midriff tops, jeans, excessively tight, baggy or revealing clothing, sheer clothing and worn looking clothing or uniform. Suggested are crisply pressed uniforms, comfortable shoes, tasteful jewelry, neatly trimmed fingernails and neatly styled hair.

Food and Beverage locations need to follow the guidelines for managing safe food prep and operations when choosing a uniform. Hair restraints, slip resistant safe shoes and appropriate fitting clothing must be worn.

---

**EMERGENCY EVACUATION PLAN**

---

In the event of an emergency, all companies must have an emergency plan in place that will allow managers to confirm the safety of all employees. All tenants are required to create their own plan that works with their business practices. A copy of the CDA Concessions plan will be given to tenants to help create your plan. Every employee should be informed of your company's emergency plan and the emergency evacuation plan for the Airport as part of their training procedures upon hire. Unison requires that you keep a recorded copy of signed documentation by the employee that they have received and been trained on the plan.

---

**ESCORTING OUTSIDE VENDORS**

---

Your escorting employee must have a valid green badge with escort clearance. Escorts are responsible for the safe and secure conduct of any person they escort at all times within the secure area. Escorted individuals must remain in full view of their escort.

If you are escorting someone for operational purposes, you may bring them through any employee check line.

If the person being escorted through needs to bring in tools or liquids of any sort they must be escorted by a badged employee with escort privileges at the vendor checkpoints at Post 7 or Post 9.

---

**HEALTH DEPARTMENT**

---

The City of Chicago Health Department conducts periodic reviews of all tenants who prepare, handle, sell and/or service food items. If your location is found to be in Critical or Serious Violation of health codes, your unit will be immediately closed until the violation is corrected. Further, fines may be levied at the rate of \$500 per day for Critical Violations; and \$250 per day for Serious and Minor Violations.

---

## HOURS OF OPERATION

### *LICENSE-REQUIRED HOURS*

---

Please review your license agreement for your own required hours of operation. In a typical license agreement, tenants will be required to be open 16 hours a day. If you cannot operate your required hours you must contact the Unison on-call staff immediately.

### *CHANGES IN HOURS OF OPERATION*

---

The CDA and Unison are open to review of these hours based on your sales. Should you choose to petition to have your hours of operation reduced, you must submit one month of hourly sales along with a written request for an alteration in hours. Unison and the CDA will review your request. CDA's decision is final in these matters. Further, these deviations from your license-required hours are always open to revision as flight operations or other conditions change.

### *CHANGES IN FLIGHT OPERATION*

---

Tenants are strongly encouraged to regularly review your hours of operation as flight operations change. If additional flight activity is noticed before or after your normal hours, please experiment with opening early/closing late to maximize sales.

### *FLIGHT DELAYS*

---

Tenants are strongly encouraged to remain open beyond normal business hours if the airport is experiencing delays and passengers are in the terminals beyond normal hours. Often this results in strong sales. The airport does not make formal announcements when they are experiencing delays. Tenants should take notice of flight information monitors to determine when delays occur.

## HOUSEKEEPING/MAINTENANCE ISSUES

---

Please review your license agreement for your requirements for periodic maintenance and pest control.

However, if you come across an issue in the concourses, back hallways or stairways, otherwise referred to as "common areas"; please contact CDA's custodial service, United Maintenance, at 312-446-7265.

If you find a structural problem like a power outage, ceiling leaks, or flooding in the main concourse, gates, restrooms, or within your own spaces, please contact CDA's urgent facility management center (H&R Building) at 773-686-2248.

### *WINDOW CLEANING*

---

Tenants are responsible for cleaning both internal and external (other than airfield) store windows. Windows should be cleaned on a regular (in some cases daily and/or hourly) basis, depending on traffic. CDA/Airlines handle exterior window cleaning on the airfield.

---

---

#### HIRING OUTSIDE SERVICES

Stores may hire service providers such as housekeeping, extermination or telecommunications without prior CDA approval. However, it is required that anyone who may impact airport operations such as electricians, phone repair, plumbers, etc. be pre-approved by CDA/Unison. For ease of operation Unison has put together a list of subcontractors that is attached (See Appendix) who are badged at O'Hare.

**IMPORTANT:** All technicians working on the infrastructure of the building need to be licensed and certified in the work they are performing. Electricians, plumbers, HVAC mechanics, restaurant hood cleaning and maintenance technicians, all carry either a license or a certification. It is the tenants responsibility to get copies of the license and a copy of the CDA User Form, which is attached (See Appendix) to Unison for processing before any work is performed. The User Form informs CDA Trades, Engineers, Terminal Management and Airlines that infrastructure work is taking place. It allows for all parties to plan accordingly. Please remember how important this is. Your tenant space is one very small space within a much larger operation that can not be disrupted unexpectedly.

Anyone caught working in the terminals without following this procedure may lose their privilege to work within the airport and the escorting employee will also lose their privilege and possibly their right to work at O'Hare.

---

#### INVENTORY

We realize that all tenants must perform inventory; however it can never impede service to the passengers. All inventory practices must be done during closing hours. If you need to hire an outside service to perform the inventory you will need to provide a list of the outside service employees to Unison and schedule with TSA to have the employees brought through security by your employees who have escort privileges. Your management is responsible for these unbadged employees at all times while they remain on the secured side of the airport.

---

#### LOST AND FOUND

There is currently no centralized lost and found at the Airport. Please refer the public to the following appropriate numbers, depending on where the item was lost. (All numbers use 773 area code unless otherwise noted)

Common Areas/CPD	686-2385	Restaurants/HMS Host	686-6180
Security Checkpoints/TSA	377-1210	American Airlines	686-4234
Airport Transit System (ATS)	601-1817	US Airways	686-7155
Parking Lot (Standard Parking)	686-7530	United Airlines	601-3295
Interfaith Chapel	686-2636		

With the exception of the airlines and the TSA, all lost and found items are eventually turned over to the Chicago Police Department (CPD). Most stores and restaurants will report lost and found to the CPD.

---

**RECEIPT OF MAIL/PARCEL SERVICE**

United States Postal Service does not deliver mail to O'Hare. Should you choose to rent a post office box, you may do so at the post office located on Irving Park Road on the outer portion of the airfield. All major parcel services (i.e. Fed Ex, UPS) deliver directly to your door. Mail boxes for outgoing mail are located in:

Terminal 1, near gate B9

Terminal 3, near gate K1

Terminal 1, near gate C18

Terminal 3, near gate L2

Terminal 3, near gate H1

**MONTHLY MEETINGS**

CDA Concessions and Unison conduct monthly tenant meetings. Currently, they are scheduled for the fourth Thursday of each month at 10:00 a.m. Meetings are held in the Compliance Conference Room in ID badging below baggage claim of Terminal 3. Call (773) 894-3900 for confirmation of date and time or directions.

Tenants are required to send management or a responsible representative to pass on pertinent information. This meeting is the best way to stay connected with our airport community and stay up to date on what is happening in the airport. We use these meetings as a platform to enforce lease compliance and requirements to CDA standard, however we also put a large focus on discussing our latest programs and achievements, upcoming marketing promotions and how the concessions program can participate. We also work with CDA facilities to inform tenants about airport operations that may affect the program.

**MUSIC**

Permission to offer music is reviewed on an individual basis. Typically, in-line stores are allowed music from a stereo system. In no case, may the volume level cause music to be heard outside your store location. UNISON and CDA reserve the right to ask tenants to decrease volume, and, in the case of multiple violations, require music to be removed.

Playing of music at kiosks is reviewed on an individual basis and must be pre-approved in writing by a member of the Unison management team.

**RETAIL OPERATIONS REVIEWS**

Unison regularly conducts operations reviews of your locations. Unison uses an electronic Retail Management System (RMS) to log all findings on a review. These reviews are meant to be unplanned and they are meant to show how your operation works throughout the day. The reviews are performed by Unison staff members and once complete all findings are shared with the owner, manager and CDA Concessions Department. Overall goal is to make sure that the appearance and maintenance of the location meets CDA Standard Operating requirements for customer service, merchandise levels, and maintenance. Some areas of review are as follow:

- |   |  |
|---|--|
| ▪ ADA Compliance Requirements followed                  | ▪ No tattered signs                      |
| ▪ Floors cleaned/vacuumed and clear of all trip hazards | ▪ Neat/clean cash wrap                   |
| ▪ Pest Control and Abatement Plan being followed        | ▪ Pricing/product review                 |
| ▪ Proper lighting and maintenance                       | ▪ Visual merchandising                   |
| ▪ Displays dusted/cleaned and merchandised              | ▪ Inappropriate stocking and deliveries. |

---

**E-MAIL / INTERNET ACCESS**

---

There is WiFi throughout the airport the airport (SSID = Boingo). You may also refer passengers to the charging stations throughout the airport in Terminals 1, 2 and 3.

---

**PEST CONTROL REQUIREMENT**

---

Tenants are required to hire professional pest control services to monitor their locations and storage rooms on a monthly basis. A copy of your service receipt showing methods of pest control used must be kept in a log book in the space and presented upon monthly inspection by Unison, or other CDA representatives. If activity is found, your service provider must increase visits as necessary until the problem has been resolved. Your pest control service should provide you with best practice and proper placement and use of all controls implemented to provide maximum efficiency. You should check these controls daily to make sure your staff is managing properly.

Please be sure to follow your service providers recommendations with regards to cleanliness and repair suggestions to alleviate having pest control problems. A clean and organized environment is required to alleviate these types of issues. If you do find that you are having trouble please contact Unison immediately. We will coordinate efforts around your area to make sure that treatment is effective.

---

**PRICING REQUIREMENTS**

---

The Department of Consumer Services requires all prepackaged goods to be marked with the current selling price directly on the package.

All non-packaged merchandise must have the current price posted on a sign contiguous to the point of display.

Businesses that have installed Electronic Pricing Devices or scanners and the City has inspected and certified the system then they are exempt from individual price marking. However, prominently displayed signage is still required to allow the consumer proper product information.

Please contact the Department of Business Affairs and Consumer Protection for information on applying for certification.

*Lease Requirements* – All tenants are required to price items according to the guidelines of their lease requirements. Pricing surveys are submitted yearly to Unison and reviewed for accuracy. Prices can not be raised without approval by the Department of Aviation Concessions Department.

---

**REPAIRS AND MAINTENANCE**

---

It is very important to keep up with the standards and expectations of a world class airport. Maintenance and facility upkeep in your leased space is the sole responsibility of the tenant. This includes floors, walls, ceilings, operational equipment and all leased space supporting equipment (HVAC, plumbing, etc.). Tenant must keep their premises and all equipment/fixtures in safe and sanitary condition at all times. All repair work should be done at a time when it does not interrupt your normal lease required operations, so the expectation is that work will be completed after closing.

Stores may hire service providers such as housekeeping, extermination or telecommunications without prior CDA approval. However, it is required that all repairs that may impact airport operations such as electrical, telecommunications, plumbing repair that extends outside of your space, HVAC and exhaust system repairs, etc., be pre-approved by Unison/CDA. For ease of operation, Unison has put together a list of subcontractors that is attached who are badged at O'Hare.

---

**IMPORTANT:** It is not a requirement that you hire/contract with someone from the badged listing of sub-contractors that we have on file; however, all contractors/technicians working on the infrastructure or hazardous equipment in the building need to be licensed and certified in the work they are performing. Electricians, plumbers, HVAC mechanics, cooking equipment and refrigeration technicians, restaurant exhaust cleaning and maintenance technicians, all carry a license or a certification. Also, please be aware that the tenant is responsible for the escort, and enforcement of airport safety procedures. An escorted technician is never to be left alone in secured areas of the airport property.

*It is the tenant's responsibility to get copies of the following documents prior to work being performed and submit to Unison Property Management for review, approval and coordination, if required.*

- *Company Business License (State and/or Municipal)*
- *Company Certificate of Insurance*
- *Verification of technician licensing or certification*
- *State issued identification*
- *Hot Work Permit (if hot work is necessary for repairs)*

If your repair might affect other airport operations, a Notice to Airport User Form must be filled out and submitted to CDA for review, with all the above referenced documents attached. Unison will coordinate this procedure. The User Form informs CDA Trades, Engineers, Terminal Management and Airlines that infrastructure work is taking place. It allows for all parties to plan accordingly. There is a 3-day turnaround for approval, and this requirement should be adhered to unless it is deemed an emergency repair, in which case you must notify Unison Property Management to get assistance quickly. Please remember how important this procedure is, your tenant space is one very small space within a much larger operation that cannot be disrupted unexpectedly.

**Lifts and Ladder Use** - Passenger and employee safety is a top priority in our environment. Lifts and ladders must not be used in your spaces or on concourse during business hours and/or when there is an influx of passengers in the terminals after hours. Therefore, even changing light bulbs, high dusting, high level merchandise stocking, etc., must be done after closing. There are no exceptions to this requirement. If it is an emergency and you must pull out a ladder to make a repair in your space during normal operations, you must contact Unison and then voluntarily close your space while repair is being done. This is for the safety of your technician, employees and your customers. Please see the OSHA standard for ladder safety below:

- Ladders placed in any location where they can be displaced by workplace activities or traffic, such as in passageways, doorways, or shall be secured to prevent accidental displacement, or a barricade shall be used to keep the activities or traffic away from the ladder.
- Ladders shall be inspected by a competent person for visible defects on a periodic basis and after any occurrence that could affect their safe use.

Please understand ... for the safety of our environment, anyone found working in the terminals outside the required guidelines, will be escorted off property and the escorting manager may lose their badging privileges. Please contact Unison if there is ever a question about proper procedure.

If damage is determined to come from the building roof or exterior, contact the H&R building at 773-686-2248 first and then contact Unison so that we may follow-up.

---

#### SHARP OBJECT AUDIT

Since Safety and Security is paramount at O'Hare all tenants are required to submit a monthly sharp object/tools audit. A copy of a form that could be used can be obtained from Unison. You are expected to monitor all sharp objects, tools and hazardous cleaning chemicals that are on the sterile side of the airport on a per-shift daily basis. You must train

---

your staff to check for these items per shift to make sure that they are all still in possession. A documented log must be kept in your spaces and available for inspection by CDA, TSA or Unison.

- All scissors, box cutters, or other sharp items must remain locked up while not in use, and never left unattended while in use.
- All knives or sharp tools used in food preparation must be tethered / tied down to the prep counter area.
- If tools are kept in storage areas that are located on the sterile side of the airport you must also have a log book in those areas showing sign-out when tools are in use. Tenants must never offer prohibited items for sale or use to passengers.
- All chemical products that are flammable must be kept out of passenger reach and stored in a fire safe cabinet. You will also need to have MSDS forms for all chemicals onsite.

**If you find that you are missing one of the audited items you must contact the O'Hare Communications Center (OCC) at 773-894-5000 immediately!**

### **SIGNAGE**

- Unison will review the request, submit it to the CDA and respond with written approval or comments.

Signs that are changed or new installations that are made without prior permission are subject to removal by Unison or CDA.

Signage or any other materials are NEVER to be taped to the window of your store. Due to the high traffic nature of our operations, all signs should be laminated, mounted to foam core or framed. Signage may be hung by monofilament line from ceilings or suction cups.

### SEVERE WEATHER PROTOCOLS

In the case of severe weather meaning high winds, tornados, heavy rain or snow all upper management will be contacted through the OCC Severe Weather Incident notification system. The paging/texting system will notify when severe weather is expected within the airport vicinity. At this point, it's time to keep aware of your surroundings because weather can change quickly.

If the weather worsens another notification will be sent informing you that airport facilities are moving to:

**Weather Plan 1** – For the tenant this weather warning is your standby notification. It means that the expected weather is about 15 to 30 minutes out and we are now waiting for direction. For the Public Safety and Airline officials it means that they are moving into position to manage evacuation of the public to safe areas.

**Weather Plan 2** – Means you are to move into evacuation mode. Proceed to designated safe areas; do not go out of the building. Proceed to lower levels; however, remember your store, restaurant, or storage area may be the closest safe area. The main idea is to move away from the glass.

### STORAGE ROOMS

Many tenants have storage spaces in the airport. Please understand that unescorted deliveries, leaving stock unattended or leaving your storage doors open is not allowed, due to fact that these practices can create a severe security risk.

Storage rooms are to be kept clean and free of debris. Tenants are also responsible for cleaning up left over debris from delivery operations. Storage room requirements are as follows:

- All deliveries to your storage rooms must be received, inspected and signed off by your staff. Per TSA Requirement, delivery logs must be kept for 6-months.
  - All shelving and product should be 8 inches off the floor, and 3 to 6 inches from the wall and 18 inches from the ceiling and sprinkler heads.
  - If you have CO2 tanks in your storage areas they must be securely capped, chained around the belly of the container and secured with a chain that is attached and mounted to the wall. Securing to a fixture or rack is not permitted; it will not be strong enough to hold the CO2 tank in case of explosion.
  - Catch-all pest control must be in place. Tenants are required to keep a copy of the pest control log within the storage space for inspection by facility inspectors. Extermination of your storage is your responsibility, however, if you have a severe problem, or one that is recurring, please call Unison and they will notify the CDA Facilities group and all areas of concern may be addressed at once.
-

- If possible, do not allow items to encroach into the hallway, even temporarily.
- No food preparation is to occur in storage rooms.
- There must be a fire extinguisher properly hung near the exit and tagged.
- All refrigeration that needs to be added to storage must be approved by Unison. Full plan and drawings must be submitted.
- If refrigeration is in the storage space then tenant must have temperature logs to show proper food and beverage cooling requirements.

---

#### TRASH REMOVAL

---

- Trash, wet garbage and waste must be removed with proper care to manage the trash that you are removing. Wet garbage and waste must be transferred in a sealed rolling container, so as not to cause a mess in the concourse.
- Bags can break leaving a mess in common areas, which results in a safety hazard.
- Flat beds should NEVER be used to transfer wet garbage and new food product, this can cause cross contamination.
- Trash can NEVER be left outside of your store or storage rooms. It gives your store a shoddy appearance and violates all City regulations.
- NEVER leave trash piled in back hallways, stairwells or passageways. This violates fire codes and creates a hazard to other employees.
- Always break down boxes prior to placing in the recycling dumpsters located at Terminal 1, B4 dock area, Post 7 and Post 9 and Post 10.
- Never use the trash cans in the terminal for your regular garbage. You, not the custodians, are responsible for disposing of your own refuse.
- Empty trash on a regular basis. Do not allow it to accumulate inside your store or storage area – especially wet garbage. Allowing wet garbage to accumulate may create a pest problem. Controlling your garbage will help combat future pest problems.
- Pallets must be removed off premises by the tenant and are never to be left in common areas or around the trash compactor/delivery areas.

---

#### RESPONSIBILITIES

---

It is always the tenants responsibility to take trash/recycling from your store, kiosk, RMU, office or storage space to the compactor in a safe and secure manor. Whenever possible a gondola should be used to remove wet garbage. DO NOT utilize receptacles in the common area for your garbage. Trash removal procedures may vary depending upon the terminal in which your store is located. As of this printing, the City pays for all emptying and removal of the compactors.

*If tenants are found to be non-compliant with any of the above referenced issues concerning storage, maintenance and trash removal, then citations will be written for all violations. A court appearance and fine will be attached to all violations.*

---

---

*TRASH COMPACTOR LOCATIONS*

---

Terminal 1 - B: Post 7 (exit security; proceed via the T1/T2 link into Terminal 2. Utilize freight elevator down to the Post compactor). This compactor now has a swipe pad; employees must have checkpoint access in order to operate.

Terminal 1 - C: Limited Access: C-20 (utilize freight elevator down to lower level, proceed through United Airlines area to the dock for compactor)

Terminal 2: Exit security; proceed to the Post 7 freight elevator, down to compactor. This compactor now has a swipe pad; employees must have checkpoint access in order to operate.

Terminal 3: The Post 10 compactor is located landside by L concourse. Use the Post 9 freight elevator to the baggage claim level. Proceed to the other end of the building, which is Post 10, to the compactor.

---

*RECYCLING COMPACTORS*

---

Recycling compactors are located at B4 dock area, Post 7, Post 9 and Post 10. Everyone is asked to participate in recycling their dry paper trash. You may compact only cardboard, newspapers, magazines and regular paper in these compactors.

*Compactor Instructions:*

Bags must be placed in one of the gray Rubbermaid carts, and then the cart is rolled into the lift. The lift then dumps the trash into the compactor. Trash can then be compacted as usual. The bags must never be placed directly on the lift for disposal.

The mechanism to operate the lift is mounted next to the compactor control. The knob on top pulls out to turn the lift on. The lift control is directly below the power button, and must be held in the UP position to raise the lift and the DOWN position to lower it. The power button can then either be pushed in to turn it off, or it will turn off automatically.

The recycling compactors can be accessed by opening the door and placing your dry trash in the compactor. You must press the compact button after every use; otherwise it may appear that the compactor is full.

Although currently the City pays for removal of the trash from the compactors at the Posts, it is the tenant's responsibility to transport it properly to the compactors. Always close the door/gate at each compactor site; leaving it open allows odors to escape and rodents to enter.

UNISON and the CDA are always working to improve these procedures. Should tenants have additional ideas for locations, please call UNISON.

**VENDING MACHINES**

---

Your license agreement prohibits the installation or operation of any coin, card, token or otherwise activated vending machines or devices of any kind or type.

## **Proper Procedures for Receiving Perishables and Dry Goods**

**Policy:** All food should be checked for proper conditions prior to delivering into the facility and the storage room. Check that required temperatures have been maintained and product is unadulterated is quality and quantity ordered, and is protected from contamination. Deliveries should be from approved suppliers only and credentials must be verified. Receiving logs must be checked, signed off, and stored on-site for 6-months for audit purposes

General principles for delivered product are outlined below:

- Check to make sure frozen food is solid, and does not show evidence of thawing and re-freezing.
- Check to ensure that refrigerated foods are received at or below 40°F.
- Record the date received on the outside of each package, and a use-by date if applicable. Should be marked on the outside of the box to manage rotation procedure.
- Potentially hazardous foods need to be placed in storage as soon as possible. Your delivery service should be able to provide proof of proper temperature control.
- Reject potentially hazardous foods that are not at acceptable temperature and cannot be proven to be safe.
- Reject foods with damaged packaging such as torn bags or cans with swelled tops or bottoms, leakage, incomplete labels, flawed seals, rust, or dents. These items should not be allowed to stay onsite.
- Evaluate quality of products by odor, sight, and touch. Reject unacceptable products. Products must meet order specifications and quality requirements. If any foods are deemed unacceptable, they should be rejected immediately.
- Assess quantity of delivered foods meets purchase order information.
- If foods must be delivered during non-operating hours, the vendor should be an approved source and product inspected before entering the facility.
- Post the delivery schedule, including the names of vendors, days and times of deliveries, and drivers' names; so that your team and CDA can be informed if necessary.
- Establish a rejection policy with all vendors and train your staff on procedures to ensure accurate, timely, consistent, and effective refusal and return of rejected goods. This should also be posted.
- Organize freezer and refrigeration space, loading docks, and store rooms before deliveries; for exact layout and expectation for ease of your staff.
- Gather product specification lists and purchase orders, temperature logs, calibrated thermometers, pens, flashlights, and clean loading carts before deliveries
- Keep receiving area clean and well lighted.

Receiving Frozen and Refrigerated Foods:

7. Check temperature with a calibrated thermometer to assure that cold foods (especially potentially hazardous foods – foods in which microorganisms are able to grow rapidly – often moist, high in protein, and have a neutral or slightly acidic pH) are below 40°F.
  8. Reject, with the exception of fresh shell eggs or milk (45°F), all foods that should be stored below 40°F that are delivered above 40°F. Note milk should be cooled to below 40°F within 4 hours.
  9. Check at random the temperature of three different refrigerated food items for each delivery. Record date, employee initials, vendor, product name, and temperature of these products in the **Receiving Temperature Log**.
  10. Place foods in the proper storage area (cooler or freezer) quickly to avoid potential bacterial growth. Proper cooler temperatures are 41°F or lower. Proper deep chill storage temperatures are from 26°F to 32°F or below. Proper freezer temperatures keep the food frozen solid, typically about 0°F.
-

11. Use First In First Out (FIFO) inventory rotation of products in all storage areas to assure that the oldest products are used first. Products with the earliest use-by or expiration dates are stored in front of products with later dates. Mixing old food with new food is not acceptable.
12. Keep products in original package until used.

Receiving Dry Goods:

7. Check dry goods for leaks, flaws, or broken packages. Dry goods should be dry, free of mold, and free of insects. If the packages are flawed, they should be rejected and not delivered into the facility.
8. Date boxes and cans with receiving date.
9. Separate chemicals from foods.
10. Check delivery invoice against the items delivered, and the purchase order.
11. Note on the invoice any items rejected.
12. Proper dry storage temperatures are between 50°F and 70°F at 50 to 60 percent humidity.

The restaurant manager will:

7. Assure that all foods come from approved vendors and sources.
  8. Schedule deliveries for off-peak hours and make sure trained staff is available to receive, inspect, document, and store food promptly.
  9. Assure that no home-prepared foods are accepted or used.
  10. Maintain **Receiving Temperature and Product Delivery Logs** to ensure proper procedures are being followed.
  11. Follow-up with staff as necessary for training procedures.
- File with HACCP records.

FOOD OPERATIONS – POWER OUTAGE GUIDELINES

During a power or equipment failure your food service operation is in its most vulnerable state. One of the leading causes of food-borne illness is food being in the temperature danger zone (41 – 140 degrees) for an extended period of time. You want to be prepared. Refrigeration units should be equipped with a working thermometer and refrigeration needs to be maintained at 40 degrees or below for cold food storage. Freezer units should be equipped with a working thermometer kept at zero degrees for frozen food product. Below are some tips to help you maintain product quality and safety.

- If the equipment fails or the power goes out, document the time of the outage.
  - Keep the refrigerator and freezer doors closed as much as possible.
  - The refrigerator will keep food cold for about 4 hours if it is unopened.
  - Move whatever products can be removed to other refrigerated storage.
  - If hot holding equipment goes out, discard any potentially hazardous food out of temperature control for more than 4 hours.
-

## **Food and Beverage Demonstration Guidelines**

We are so happy that you have decided to hold a demonstration of your food product. We always want to encourage you to enhance your customers experience and hope that it builds more awareness of the wonderful products that you have to offer.

Please always keep in mind that the same food safety principles practiced in your licensed food prep kitchens must also be applied at temporary, mobile facilities, and in-store product demonstrations. This same requirement also extends to any vendors that you may have come in to help you demonstrate the products.

In general, food must be protected from:

- Temperature abuse
- Individuals who practice poor personal hygiene and use improper food-handling practices
- Contamination and cross contamination

In effort to minimize potential hazards and demonstrate best practices;

***Employees must use tongs, utensils, or deli tissue to avoid bare hand contact with food. In addition, a hair restraint and disposable gloves must also be used to provide an added barrier against contamination. Gloves must not be viewed as a substitute for proper hand washing when necessary.***

Any concessionaire/vendor that intends to perform an on-site cooking demonstration and food prep outside of the licensed sanitary food prep area; **SHALL NOT SERVE THE FOOD THAT IS USED IN THE COOKING DEMONSTRATION.** Samples and refreshments may be served under the following conditions:

### **Food and Beverage Service:**

1. Coffee that is prepared in a licensed food preparation establishment may be served.
  2. Bulk soft drinks or beverages that are dispensed from an approved dispenser may be served. These soft drink dispensers shall be serviced and filled only at the licensed prep food service establishment used as the base of operations. The drink outlet on all bulk liquid dispensers shall be protected from insects and pests, dust, and contamination by customers. When dispensers are empty they must be taken to back-of-house prep area to be cleaned, sanitized, and refilled.
  3. Milk and dairy products for drinking purposes shall not be provided to the consumer unless refrigeration is at the demonstration site. These products must remain under a temperature controlled environment during storage and prior to being served to customer.
  4. Cream or half and half shall be provided in an individual service container, protected pour-type pitcher, or drawn from a refrigerated dispenser designed for such service.
  5. Only single-service disposable eating and drinking utensils shall be used. Utensils such as cups, straws, knives, forks, spoons and stirrers shall be individually wrapped, kept in a clean place, and handled to prevent soiling or contamination.
  6. If the concessionaire intends to distribute food product to the public for sampling, they must adhere to the following process:
    - The food product must be hermetically sealed prior to opening, unless the food has been prepared in an on-site, licensed food prep area and has been individually proportioned for sampling.
    - All individually wrapped portions or samples of **perishable food** products that are prepared off-site, including sandwiches, pies, dairy and other similar portions, shall be plainly marked by the manufacturer on the wrapper or container in such a manner that plainly identifies the day and the month the individual portion was prepared and wrapped in an establishment licensed by the Department of Public Health.
    - The individual(s) who is serving food product must possess a valid food handler's certificate.
    - The individual(s) must wear gloves, a hair restraint, and have good hygiene, **in addition to** using tongs, utensils, or deli tissue to avoid any potential of contaminating foods.
-

- The individual(s) who is serving food product must only be stationed to pass out product and may not switch tasks during the duration of the demonstration/sampling to prevent cross-contamination (i.e. walk away from demonstration, clean, handle trash/money, talk/text on cell phone, etc.).
  - If the demonstration demands more manpower than the individuals who are serving food samples, more stationed staff members must be available to assist.
7. All condiments such as catsup, mustard, jelly, relish, sugar, salt, and pepper, etc., shall be individually portioned and packaged.
  8. During transport to the demonstration location for service, food and food utensils shall be kept and packed in covered containers or completely wrapped or packaged so as to ensure protection from contamination.
  9. All food sanitation prep and service requirements must be maintained during the entire demonstration.

Equipment:

- **Refrigeration and Heating Equipment:** Adequate mechanical cooking, hot holding and refrigeration equipment, or its equivalent as approved by Health Department standards, must be provided at all times.
  - Refrigeration equipment must be kept at 40°F or below and must be able to accommodate all perishable foods that will be sampled.
  - Heating appliances or oven temperatures must be kept at a minimum temperature of 165°F. Foods that have been properly heated shall have an internal temperature of 140°F during storage and display.
- Any cutting knives or sharp utensils that are in-use must be securely chained to the table that is being used.

Personnel:

- Employees shall maintain a high degree of personal cleanliness and shall conform to good hygienic practices during all working periods of the demonstration.
- Employees shall thoroughly wash their hands and the exposed portions of their arms with soap and warm water before starting the demonstration, during work as often as is necessary to keep them clean, and after eating, drinking, or using the toilet.
- The outer clothing of all employees shall be clean, and employees shall use effective hair restraints to prevent the contamination of food or food-contact surfaces.

Refuse Receptacles:

- The operator of the food demonstration shall maintain a suitable, tight, non-absorbent washable receptacle for refuse. Said refuse receptacle shall be adjacent to space where the demonstration/sampling is being performed.

Licensee shall upgrade any and all equipment and specifications, to the Commissioner's satisfaction, within ten (10) days of the date of the written notification. Questions or complaints regarding the quality of services and/or charges, whether raised by patrons or on the City's own initiative or otherwise, may be submitted to Licensee for response by Licensee within 72 hours of receipt of said questions or complaints. At the request of the Commissioner, Licensee shall meet with the Commissioner to review any complaints or concerns and shall correct any deficiencies as expeditiously as possible, but not more than ten (10) days from the date of the City's request, unless otherwise approved in writing by the Commissioner. The City's determination shall be conclusive.

2.19. Liquidated Damages. THE PARTIES ACKNOWLEDGE AND AGREE THAT THIS AGREEMENT IS ENTERED INTO FOR THE PURPOSE OF ENSURING THAT THE TRAVELLING PUBLIC HAS ACCESS TO REGISTERED TRAVELER SERVICES ON A CONTINUOUS BASIS, AND THAT DAMAGES RESULTING FROM INTERRUPTION OF SUCH SERVICE WOULD BE DIFFICULT TO DETERMINE AND QUANTIFY. LICENSEE AGREES THAT IF, DURING INSPECTIONS BY THE CITY, THE FAILURES BY THE LICENSEE LISTED BELOW ARE FOUND TO EXIST, THE CITY WILL SUFFER DAMAGES. LICENSEE FURTHER AGREES THAT (A) IT IS IMPRACTICAL AND

EXTREMELY DIFFICULT TO FIX THE ACTUAL DAMAGES WHICH THE CITY WOULD SUFFER; (B) THE RESPECTIVE AMOUNTS SET FORTH OPPOSITE EACH FAILURE SHALL CONSTITUTE LIQUIDATED DAMAGES PAYABLE TO THE CITY FOR SUCH FAILURE; (C) THE PAYMENT OF SUCH AMOUNTS TO THE CITY AS LIQUIDATED DAMAGES CONSTITUTES A REASONABLE APPROXIMATION OF THE DAMAGES WHICH WOULD BE SUFFERED BY THE CITY; AND (D) PAYMENT OF SUCH AMOUNTS TO THE CITY AS LIQUIDATED DAMAGES IS NOT INTENDED AS A FORFEITURE OR PENALTY, BUT INSTEAD IS INTENDED TO CONSTITUTE LIQUIDATED DAMAGES TO THE CITY.

Licensee may contest any liquidated damages imposed by delivery of notice to the Commissioner, with ten (10) days of receipt of liquidated damages determination whose sole decision on the matter shall be final. City's failure to impose liquidated damages for any particular occurrence of a failure set forth above shall not constitute a continuing waiver or a waiver of any subsequent failures.

### ARTICLE 3

#### TERM

##### 3.1 Term.

(a) Term. This Agreement is in full force and effect upon the Effective Date. The term of this Agreement ("**Term**") commences on the Commencement Date and ends at 11:59 p.m. on the Expiration Date, unless sooner terminated as provided herein. The Term shall not be extended beyond the expiration or earlier termination of this Agreement due to the inclusion of any additional premises which may be added from time to time during the Term.

(b) Date of Beneficial Occupancy. The Date of Beneficial Occupancy, (DBO) shall be \_\_\_\_\_.

(c) City Council. This Agreement was approved by an ordinance adopted by the Chicago City Council on \_\_\_\_\_, 2019.

- 3.2 Termination. Unless earlier terminated in accordance with its terms, this Agreement shall terminate on \_\_\_\_\_, 2024 without the necessity of notice, and Licensee hereby waives all rights to any notice to terminate, vacate or quit the Premises except as may otherwise be expressly provided for in this Agreement. Licensee hereby waives any and all rights of redemption, granted by or under any present or future laws in the event it is lawfully evicted or dispossessed for any lawful cause, or in the event the City obtains possession of the Premises in any other lawful manner. Such termination of the Agreement, as provided herein, and the removal, restoration and surrender obligations of Licensee shall in no way give rise to any claims for or rights to payment to Licensee by the City, including without limitation, (i) any and all awards in the nature of land damages under applicable Laws, and (ii) any and all rights under the terms of this Agreement, and (iii) incidental, consequential severance damages on account of Licensee's occupancy and/or abandonment of the Premises; and (iv) any reimbursement to Licensee for any Licensee Improvements.

3.3 Holding Over.

(a) Without Commissioner Objection. Except as provided in (b), any holding over following expiration or termination shall constitute a tenancy from month-to-month on the same terms and conditions as this Agreement, including payment of the Rent attributable to the portion of the Premises Licensee continues to occupy. Licensee and its SubLicensees must surrender and vacate any portion of the Premises no later than thirty (30) days following written notice from the Commissioner that the month-to-month tenancy is being terminated.

(b) Commissioner Objection. If the Commissioner notifies Licensee in writing that holding over is not allowed, or if the Commissioner notifies Licensee that any holdover month-to-month tenancy is being terminated as to any portion of the Premises, and Licensee continues to hold over after receipt of such written notice, Licensee must thereafter pay Rent at one hundred fifty percent (150%) the annual rate of the Rent payable, on a per diem basis, during that portion of the last calendar year falling within the Term of this Agreement.

No occupancy of the Premises by Licensee after the expiration or earlier termination of this Agreement (in its entirety or as to the portion of the Premises in question) extends the Term of this Agreement with respect to the portion of the Premises, except as a holdover tenancy. Licensee shall be required to vacate and surrender any portion of the Premises during the holdover tenancy in accordance with notices from the Commissioner from time to time to accommodate any of the City's replacement Licensee's construction and commencement of operations. In the event of any unauthorized and willful occupancy

after such expiration or termination, Licensee must indemnify the City against all damages arising out of the retention of occupancy, and all insurance policies and letters of credit required to be obtained and maintained by Licensee as set forth in this Agreement must continue in effect.

3.4 Surrender.

(a) At the termination or expiration of this Agreement as to any portion of the Premises, Licensee shall promptly, peaceably, quietly and in good order quit, deliver up and return the Premises (or that portion as to which the Agreement has terminated, in the case of a partial termination) in good condition and repair, ordinary wear and tear and damage by fire or other casualty excepted. Except as provided below, Licensee must remove all of Licensee's personal property from the Premises or the affected portions of the Premises within seven (7) days following the date of termination or expiration of this Agreement. All Improvements installed by or for Licensee and each of its SubLicensees shall remain in the Premises and shall in no event be required to be removed by Licensee. Licensee shall repair any damage to the Concession Premises caused by Licensee's or removal of personal property, trade fixtures and other items which Licensee is permitted to remove. All the removal and repair required of Licensee under this Section are at Licensee's sole cost and expense. For clarity, Improvements shall not include any biometric enrollment or verification equipment utilized by Licensee.

(b) If Licensee fails to perform any of its obligations, then the Commissioner may cause the obligations to be performed and Licensee shall pay the cost of the performance, together with interest thereon at the Default Rate from and after the date the costs were incurred until receipt of full payment therefor. Any property of Licensee not removed by Licensee or in accordance herewith is deemed abandoned and the Commissioner may dispose of it as she sees fit, without any liability to Licensee or any other person.

(c) Any Improvements remaining in the Premises shall become property of the City, except that all of Licensee's trade dress, service marks, trademarks and trade names must be removed, obliterated or painted out in a commercially reasonable manner at Licensee's or its SubLicensee's cost, within three (3) days following the expiration or termination of the Term.

3.5 Termination Due to Change in Airport Operations. This Agreement is subject to termination by either party on sixty (60) days written notice in the event of any action by the Federal Aviation Administration ("FAA"), the TSA or any other governmental entity or the issuance of an order by any court of competent jurisdiction which prevents or restrains the use of the Airport, the terminals or a portion thereof for commercial aviation purposes that renders performance under this Agreement by either Party impossible, and which governmental action or court order remains in force and is not stayed by way of appeal or otherwise, for a period of at least ninety (90) days, so long as the action or order is not the direct and specific result of any Event of Default of Licensee.

ARTICLE 4

**RENT, REPORTS AND AUDITS**

4.1 Rent.

(a) Rent. In consideration of Licensee's use of the Concession Premises, and the right to install, develop, market, manage and operate in the Airport, and the associated rights and privileges granted in this Agreement shall pay to City as Premises Rent for each Lease Year the following:

(i) **MAG:**

\$225,000

(ii) **Gross Revenues:** 12% of Gross Revenues from sales and services within the Catchment Area.

The Licensee's Rent obligations shall begin on the Date of Beneficial Occupancy as described in section 1.2 of this Agreement.

(b) Additional Rent. The following items shall be considered as Additional Rent hereunder:

(i) Impositions. Licensee must timely pay, as and when due, any and all taxes, assessments, fees, and charges levied, assessed or imposed by a governmental unit upon this Agreement, the Premises, Licensee's leasehold or upon Licensee's personal property, including but not limited to all permit fees and charges of a similar nature for Licensee's conduct of any business or undertaking in the Premises (collectively, "**Impositions**"). Licensee must provide Commissioner a copy of all notices relating to Leasehold taxes on the Premises within thirty (30) days after receipt and must provide the Commissioner with a receipt indicating payment of Leasehold taxes on the Premises when due. Nothing in this Agreement precludes Licensee from contesting the amount of an Imposition, including those taxes or charges enacted or promulgated by City; but Licensee must not contest the applicability of an Imposition in connection with the Premises. Failure of Licensee to pay any Imposition when due, except to the extent that Licensee is contesting the amount of the Imposition, will constitute an Event of Default.

(ii) Any other amounts expressly identified as Additional Rent in this Agreement.

(c) Common Area Maintenance ("CAM") Licensee shall pay an annual fee of \$4.52 per square foot for the operation, maintenance and repair of the Common Areas.

4.2 Time of Payments.

(a) Commencing on the Date of Beneficial Occupancy, Licensee shall pay to the City on or before twentieth (20<sup>th</sup>) day following the expiration the preceding calendar month commencing with the second (2<sup>nd</sup>) month following the Date of Beneficial Occupancy:

Gross Revenues for the preceding calendar month;

Licensee shall also pay Impositions if and when due following the Date of Beneficial Occupancy.

(b) Commencing on the Date of Beneficial Occupancy, Licensee shall pay to the City:

(i) the MAG, in equal consecutive monthly installments equal to one-twelfth (1/12<sup>th</sup>) of the MAG, which shall be due and payable on or before the first (1<sup>st</sup>) day of each month. The MAG shall be prorated for any partial calendar month; and

(ii) the Additional Rent attributable to the preceding calendar month which shall be due and payable on or before twenty (20) days following the expiration of the preceding calendar month.

(iii) the CAM, as described above.

4.3 No Waiver or Setoff. Payment of Rent other than Impositions by Licensee to the City shall not be considered to be a tax and shall be in addition to and exclusive of all license fees, taxes, or franchise fees which Licensee may now or in the future be obligated to pay to the City. Licensee's obligations to pay Rent hereunder is independent of each and every other covenant and agreement contained in this Agreement and Licensee shall pay all Rent without any setoff, abatement, counterclaims or deduction whatsoever except as otherwise expressly provided in this Agreement. Licensee's obligation to pay Rent shall be absolute and unconditional. Acceptance by the City of any payment or partial payment of Rent, liquidated damages or other fees or charges shall not constitute a waiver of any right on the part of the City. No such payment shall be deemed to be other than a payment on account of the earliest Rent then due, nor shall any endorsement of any check or payment be deemed an accord and satisfaction unless specifically agreed to in writing by the City, and the City may accept such check or payment without prejudicing in any way its right to recover the balance of such Rent.

4.4 Material Underpayment or Late Payment. Without waiving any other remedies available to the City, if: (i) Licensee underpaid Rent due in any calendar year by more than 5%; or (ii) Licensee failed to make any Rent payments within ten (10) days following notice of such nonpayment from the City, then, in either such event, Licensee shall pay, in addition

to the amount due the City as Rent, and late payment at the Default Rate. Late payments shall be considered Additional Rent. The provision for late payment does not constitute an authorization by the City of underpayment or late payment.

4.5 Security Deposit.

(a) Form of Security Deposit.

(i) Licensee must provide the City no later than the sixty (60) days following the execution of this Agreement with an irrevocable, unconditional sight draft Letter of Credit in favor of the City in the amount equal to four months (4) of the MAG. The Letter of Credit and any replacements or renewals of it must be issued with an expiration date of at least one (1) year after the respective dates of issuance or renewal and must be maintained by Licensee, through and including the date that is one hundred twenty (120) days after the expiration of the Term. The Letter of Credit must be reasonably similar to the form set forth in **Exhibit G** or as otherwise approved by the City's Corporation Counsel.

(ii) In lieu of the Letter of Credit, Licensee may provide cash or a cashier's check in the same amount for immediate deposit in the City's accounts. The Letter of Credit, cash or cashier's check, as applicable, is referred to in this Agreement as the "**Security**." The Security secures the faithful performance by Licensee of all of Licensee's obligations under this Agreement. The Commissioner is entitled to draw on any such Letter of Credit unless proof of renewal of the Letter of Credit or a replacement Letter of Credit in form and substance satisfactory to the Corporation Counsel has been furnished to the Corporation Counsel at least thirty (30) days before its expiration date. The City will hold the proceeds as a cash Security to secure the full and faithful performance of Licensee's obligations under this Agreement. The Commissioner is not obligated to pay or credit Licensee with interest on any Security.

(iii) The Commissioner also is entitled to draw on the Letter of Credit in whole or in part upon the occurrence of an Event of Default, in which event the Commissioner is entitled to apply all or any part of the proceeds of it or any cash or other Security deposited by Licensee and held by the City for the payment of any obligation of Licensee arising before or after the Event of Default.

(iv) The Letter of Credit must provide that the Commissioner may draw upon the Letter of Credit in whole or in part upon the delivery by the Commissioner to the issuer of the Letter of Credit of a demand for payment, purportedly signed by the Commissioner, together with a written statement that the Commissioner is entitled to draw upon the Letter of Credit under the terms of this Agreement. If amounts are drawn upon the Letter of Credit or amounts of a cash Security are applied by the Commissioner in accordance with the terms of this Agreement, Licensee must reinstate the Letter of Credit or cash Security to its full amount required in this Agreement within ten (10) days following receipt of written

notification by the Commissioner of the City's draw upon the Letter of Credit or use of the cash Security. The rights reserved to the Commissioner or the City under the Letter of Credit or any cash Security are in addition to any rights they may have under this Agreement or under law.

(b) Qualified Issuers. The Letter of Credit called for in this Agreement must be issued by companies or financial institutions having a rating of "A" or better as determined by Standard and Poor's or by Moody's Investors Service, Inc., or a net worth of at least \$500,000,000.00 unless otherwise approved in writing by the Commissioner. If any draw requires personal appearance by a City representative, such shall occur at a location in Chicago or, if the issuer does not have an office in Chicago, the City shall be entitled to draw on the Letter of Credit for any travel expenses incurred by the City.

(c) Right to Require Replacement of Letter of Credit. If the financial condition of the institution issuing the Letter of Credit materially and adversely changes, the Commissioner may, at any time, require that the Letter of Credit be replaced with a Letter of Credit from another institution and in accordance with the requirements set forth in this Section.

(d) No Excuse from Performance. None of the provisions contained in this Agreement nor in the Letter of Credit required under this Agreement excuse Licensee from faithfully performing in accordance with the terms and conditions of this Agreement or limit the liability of Licensee under this Agreement for any and all damages in excess of the amounts of the Letter of Credit.

(e) Non-Waiver. Notwithstanding anything to the contrary contained in this Agreement, the failure of the Commissioner to draw upon the Letter of Credit required under this Agreement or to require Licensee to replace the Letter of Credit at any time or times when the Commissioner has the right to do so under this Agreement does not waive or modify the Commissioner's rights to draw upon the Letter of Credit and to require Licensee to maintain or, as the case may be, replace the Letter of Credit, all as provided in this **Article 5**.

#### 5.6 Reports.

(a) Monthly. Licensee must furnish to the Commissioner on or before the fifteenth business day (15<sup>th</sup>) day of each month falling wholly or in part within the Term of this Agreement, a complete statement, certified by an authorized representative of Licensee, showing in all reasonable detail, the amount of Gross Revenues derived from each Concession Location during the preceding month and the amount due from Licensee for the preceding month (the "**Monthly Certified Statement**").

Licensee must also furnish a balance scorecard with key performance indicators including, but not limited to, customer satisfaction, point of purchase, incremental sales, average purchase value, and sales per enplanement.

(b) Quarterly.

Licensee must furnish to the Commissioner on or before the tenth (10<sup>th</sup>) business day of April, July, October, and January a presentation on the following:

Quarterly analysis of Sales and Revenue by location and by category; and

Report of passengers using biometric usage at each unit when "checking in"

(c) Annually.

(i) Licensee also must furnish to Commissioner no later than one hundred twenty (120) days following the end of each Lease Year and within one hundred twenty (120) days after the expiration or termination of this Agreement, a complete statement of the amount of Concession Rent payable by Licensee for such Lease Year certified by an independent certified public accountant engaged by Licensee, showing in all reasonable detail the amount of the MAG and Gross Revenues, due from Licensee for the preceding Lease Year (the "**Annual Certified Statement**"). The Commissioner may, from time to time, reasonably require upon not less than thirty (30) days prior written notice to Licensee, copies of all returns and other information filed with respect to Illinois sales and use taxes as well as such copies of the respective annual certified statements and other reasonable financial and statistical reports as requested.

(ii) Licensee's Annual Certified Statement shall include a standard non-qualified opinion of an independent certified public accountant as to the accuracy of the Annual Certified Statement.

(d) All such reports and statements described in this **Article 5** shall be prepared on a form approved by the Commissioner, such approval not to be unreasonably withheld. If Licensee fails to timely furnish to the Commissioner any Monthly Certified Statement or Annual Certified Statement required under this Agreement or if the independent certified public accountant's opinion is qualified or conditioned in any material manner, the Commissioner has the right (but is not obligated) without notice, to conduct an audit of Licensee's and, as needed, SubLicensees' books and records and to prepare the statements at Licensee's sole cost and expense. Licensee must also provide the Commissioner with such other reasonable financial or statistical reports and information concerning the Concession Program or any part thereof, in the form as may be reasonably required from time to time by the Commissioner.

5.7 Adjustments Based Upon Annual Certified Statements. In the event that the Annual Certified Statement required under **Article 5** indicates an underpayment for any Lease Year or portion thereof of the Term, Licensee shall pay the difference between the amounts paid under **Article 5** and the amount due based on the Annual Certified Statement and if such underpayment is in excess of two percent (2%), Licensee shall also

pay interest thereon at the Default Rate from the date or dates when such amounts were originally due. Such payment shall be made no later than fifteen (15) days from the time that the Annual Certified Statement is due. In the event that the Annual Certified Statement indicates an overpayment for any Lease Year or portion thereof during the Term, the City, upon approval of such Annual Certified Statement, shall reimburse Licensee, for the difference between the amounts paid by Licensee under **Article 5** and the amount due based upon the Annual Certified Statement or as a credit against future payments of Rent hereunder until fully applied. In the event that this Agreement is terminated in accordance with the terms hereof, such reimbursement shall be made as a lump sum payment within ninety (90) days after the expiration or earlier termination of this Agreement.

5.8 Books, Records and Audits.

(a) Except as provided below, Licensee shall maintain at its principal business offices located in the United States and to make the same available for inspection in Chicago full, complete and proper books, records and accounts in accordance with generally accepted accounting procedures relating to and setting forth the Gross Revenues, both for cash and on credit, and must require and cause its operations personnel to prepare and keep books, source documents, records and accounts sufficient to substantiate those kept by the Licensee. The books and source documents to be kept by the SubLicensees shall include true copies of all federal, state and local tax returns and reports, daily receipts from all sales and other pertinent original sales records and records of any other transactions conducted in or from the Concession Premises by anyone conducting business in or from the Concession Premises. Pertinent original sales records are to include: such records that would normally be examined by an independent accountant under accepted auditing standards in performing an audit of the Gross Revenues. Licensee or its SubLicensees (as the case may be) must maintain any such books, records, and source documents in a secure location for a period of five (5) years following the expiration of each Lease Year during this Agreement and for the same period following the final Lease.

(b) Licensee shall record the time of each, in the presence of the customer, all receipts from the sale or other transaction, whether for cash, credit or otherwise, in a FMS having a cumulative total that must be sealed in a manner approved by the Commissioner and that must possess such other features as reasonably required by the Commissioner. The books, records and accounts, including any sales tax reports that Licensee may be required to furnish to any government or governmental agency, must at all reasonable times be open to the inspection (including the making of copies or extracts) of the Commissioner, the Commissioner's auditor or other authorized representative or agent at Licensee's principal business office located in the United States (with copies thereof to be made available for inspection within the City of Chicago, if so requested by the Commissioner) for a period of at least three (3) years after the expiration of each calendar year falling wholly or in part within the Term. All of the costs and expenses incurred in any such examination or inspection by the City shall be at the City's sole cost and expense except as otherwise provided in this Agreement.

(c) The acceptance by the Commissioner of payments of any Rent is without prejudice to the Commissioner's right to conduct an examination of the Licensee's books and records related to Rent and/or its SubLicensee's books and records relating to Gross Revenues at the Concession Premises, in order to verify the amount of Rent due hereunder and to verify the amount of Gross Revenues made in and from the Concession Premises.

(d) After providing Licensee at least three (3) days prior written notice, the Commissioner may inspect the books and records of Licensee. Further, at its option, the Commissioner may at any reasonable time, upon no less than ten (10) days prior written notice to Licensee cause a complete audit to be made of Licensee's entire records relating to the Concession Premises for the period covered by any statement issued by Licensee as above set forth. If the audit discloses that Licensee's statement of Rent is understated to the extent of:

(i) Three percent (3%) or more, Licensee must promptly pay the City the cost of the audit in addition to the deficiency (**plus** any interest on the deficiency at the Default Rate), which deficiency is payable in any event; and if

(ii) Five percent (5%) or more due to Licensee's fraudulent or willful misconduct, an Event of Default is considered to have occurred, and the City shall have in addition to all other remedies available under this Agreement, at law, or in equity, the Commissioner has the right to terminate this Agreement immediately upon giving notice to Licensee, without any opportunity for Licensee to cure.

In addition to the foregoing, and in addition to all other remedies available to the City, if Licensee or the City's auditor schedules a date for an audit of Licensee's records and Licensee fails to be available or otherwise fails to comply with the reasonable requirements for the audit, Licensee must pay all reasonable costs and expenses associated with the scheduled audit.

- 5.9 Lien. In addition to any liens as may arise under Illinois law, the City has a contractual lien under this Agreement on all property, including Licensee's personal property located on the Premises, as security for non-payment of any Rents due, excluding biometric enrollment and verification equipment.

## **ARTICLE 6**

### **TRANSFERS**

- 6.1 City.

The City expressly reserves the right to sell, assign or otherwise transfer all or any part of its interest under this Agreement, at any time and to any third party. Upon the effective

date of such a sale, assignment or transfer, the City is forever relieved, from and after such date of any and all obligations arising under or out of this Agreement to the extent such obligations are assumed by the buyer, assignee or transferee.

6.2 Licensee.

(a) Transfers. Except as expressly provided elsewhere in this Agreement, neither this Agreement nor any interest of Licensee in this Agreement or the leasehold created hereby shall be directly or indirectly sublet, sold, assigned, transferred, mortgaged, pledged or otherwise disposed of or encumbered (each considered a "Transfer") without the express written consent of the City. A change in ownership or control of Licensee, either directly or indirectly, shall be deemed a Transfer.

(b) City Consent. Whenever City consent is required, a Transfer of all of Licensee's interest in this Agreement or the leasehold created hereby shall require consent of the City Council of the City of Chicago, which may be withheld in the sole discretion of the City Council, and a Transfer of less than all of Licensee's interest shall require consent of the Commissioner. In determining whether or not to consent to a Transfer, City will take into account, without limitation, the promotion of a competitive environment at the Airport in light of the then-existing circumstances, the proposed use of the Premises by any transferee, the balanced utilization of the Airport facilities, operational considerations relating to the characteristics of the proposed transferee, the financial condition of the proposed transferee and the impact on City's ability to exercise control over the Airport. Consent by City to any type of Transfer shall not in any way be construed to relieve Licensee from obtaining further authorization from City for any subsequent Transfer of any nature whatsoever.

(c) Transfers not requiring City Consent.

(i) Transfers to Affiliates. Licensee may effect a Transfer to an Affiliate of Licensee without City consent with sixty (60) days' prior notice to the City, provided that: (i) the proposed transferee Affiliate is in compliance with all of the legal requirements of this Agreement, (ii) the proposed transferee Affiliate is sufficiently financially responsible, experienced and capable to perform Licensee's obligations under this Agreement, (iii) the proposed transferee Affiliate assumes all of Licensee's obligations under this Agreement, (iv) in the Commissioner's reasonable opinion, the Transfer will not have a material adverse effect upon the Airport or operation of the Terminal, (v) no Event of Default then exists and (vi) the transferee Affiliate executes the City's EDS form and certifies therein compliance with all laws and ordinances referenced.

(ii) Transfers Due to Trading on a National or International Exchange. Transfers that are changes in ownership of Licensee due to trading in or issuance of a parent company's stock or other forms of ownership interests on a national or international exchange shall not be subject to City consent; however, Licensee shall promptly notify the City of any such change in ownership which would

require disclosure of a new owner or disclosure of other changes in percentage ownership on the then-current version of the City's EDS form, and Licensee shall submit revised EDS form(s) accordingly. As used in this provision, "national or international exchange" means the New York Stock Exchange, the American Stock Exchange, NASDAQ or their foreign equivalent.

- (d) Licensee to Remain Primarily Liable. Notwithstanding any Transfer, with or without City consent, Licensee shall remain fully liable for the payment of all of its fees and fully responsible for the performance of all of its other obligations hereunder, except where the City Council consents to the Transfer and expressly relieves Licensee of such liability and responsibility.
- (e) Requests for City Consent. Any and all requests by Licensee for City consent to a Transfer shall be made in writing to City. Upon request by City, Licensee shall provide copies of the proposed documents of Transfer. Requests for City consent to a Transfer shall completely disclose any and all monetary and non-monetary considerations made or to be made to Licensee for said Transfer and shall include completed EDSes from the proposed transferee. Any or all of the requests by Licensee for consents under this Section must be made in writing and provided to the Commissioner (a) at least 60 days prior to the proposed Transfer if the Commissioner's consent is required; and (b) at least 120 days prior to a proposed Transfer if the City Council's consent is required, unless the City determines that more time is required.
- (f) City's Right to Collect from Transferee. If any Transfer shall occur, with or without City consent, City may collect fees and other sums to be paid under the Agreement from any assignee, or other transferee of Licensee, and in such event shall apply the net amount collected to the fees and other sums payable by Licensee hereunder without such action by City releasing Licensee from any of its obligations hereunder. Nevertheless, the Minimum Wage is required to be paid to those workers described in subsections 4(a)(2)(A) and 4(a)(2)(B) of the Illinois Minimum Wage Law.

Additionally, the Minimum Wage is not required to be paid to employees subject to a collective bargaining agreement that provides for different wages than those required by Executive Order 2014-1, if that collective bargaining agreement was in force prior to October 1, 2014 or if that collective bargaining agreement clearly and specifically waives the requirements of the order.

This Minimum Wage section does not apply if Licensee or SubLicensee is a not-for-profit organization having tax-exempt status under Section 501(c)(3) of the United States Internal Revenue Code and recognized under Illinois law governing not-for-profit corporations.

Licensee and its SubLicensees must not permit any mechanics' lien for labor or materials furnished or alleged to have been furnished to it to attach to any portion of the Premises, any SubLicensees Premises, the Terminal or the Airport, Licensee's leasehold interest, and interest or this Agreement in any way relating to any work performed by or at the direction of Licensee or SubLicensees. Upon making payments to Contractors, Licensee shall use commercially reasonable efforts to obtain from each Contractor a waiver or mechanics' liens against any portion of the Premises, any SubLicensees Premises, the Airport, Licensee's leasehold interest, or this Agreement arising out of any work done by the Contractor and each and every of the Contractor's materialmen and workmen. The Licensee must give, or cause to be given, a copy of these provisions to all subcontractors and will include these provisions in all contracts with subcontractors and/or give written notice of same to all subcontractors or other persons having oral or written agreements with such subcontractors.

8.7 City Resident Construction Worker Employment Requirement.

- (a) Use of Residents. In connection with and during the construction of the Work,

Licensee, Licensee and its contractors must comply with the provisions of §2-92-330 of the Municipal Code of the City of Chicago (“**Municipal Code**”), as amended from time to time concerning the minimum percentage of total construction worker hours performed by qualified actual residents of the City. At least 50% of the total construction worker hours worked by persons on the site of the Work must be performed by actual residents of the City and 7.5% of the total work hours (which may be included in the 50%) must be performed by residents of neighborhoods surrounding the Airport as defined in paragraph (b). Licensee or its SubLicensees may request a reduction or waiver of this minimum percentage level of Chicagoans in accordance with standards and procedures developed by the Chief Procurement Officer of the City. In addition to complying with this percentage, Licensee, its SubLicensees and any of their respective Contractors are required to make good faith efforts to utilize qualified actual residents of the City in both unskilled and skilled labor positions. “**Actual residents of the City**” means persons domiciled within the City. The domicile is an individual’s one and only true, fixed and permanent home. Licensee, its SubLicensees and each of their respective Contractors (for purposes of this subsection, “**Employer**”) must provide for the maintenance of adequate employee residency records to ensure that actual Chicago residents are employed. Each Employer will maintain copies of personal documents supportive of every Chicago employee’s actual record of residence.

(b) Certified Payroll Reports. In connection with and during the construction of the Work, if requested at the time by the Commissioner, weekly certified payroll reports (U.S. Department of Labor Form WH-347 or equivalent) must be submitted to the Commissioner in triplicate and must identify clearly the actual residence of every employee on each submitted certified payroll. The first time that an employee’s name appears on a payroll, the date that the Employer hired the employee should be written in after the employee’s name.

(c) Inspection of Records. In connection with and during the construction of the Work, each Employer must provide full access to its employment records to the Chief Procurement Officer, the Commissioner, the Superintendent of the Chicago Police Department, and the Inspector General or any duly authorized representative of any of them. Each Employer must maintain all relevant personnel data and records for a period of at least three (3) years after final acceptance of the Work. At the direction of the Commissioner, affidavits and other supporting documentation may be required of each Employer to verify or clarify an employee’s actual address when doubt or lack of clarity has arisen.

(d) Level of Effort. Efforts on the part of each Employer to provide utilization of actual Chicago residents that are not sufficient for the granting of a waiver request as provided for in the standards and procedures developed by the City’s Chief Procurement Officer will not suffice to replace the actual, verified achievement of the requirements of this Section concerning the worker hours performed by actual Chicago residents.

(e) Shortfalls; Liquidated Damages. When the Work is completed, in the event that the City has determined that Licensee has failed to ensure the fulfillment of the

requirement of this Section concerning the worker hours performed by actual residents of the City or failed to report in the manner as indicated above, the City will thereby be damaged in the failure to provide the benefit of demonstrable employment to Chicagoans to the degree stipulated in this Section. Therefore, in such a case of non-compliance, it is agreed that 1/20 of 1% of the aggregate hard construction costs of the Improvement Costs (the product of .0005 x such aggregate hard construction costs) (as evidenced by approved contract value for the actual contracts) must be surrendered by Licensee to the City as liquidated damages, and not as a penalty, in payment for each percentage of shortfall toward the stipulated residency requirement. Failure to report the residency of employees entirely and correctly will result in the surrender of the entire liquidated damages as if no actual residents of the City were employed in either of the categories. The willful falsification of statements and the certification of payroll data may subject Licensee, its SubLicensees and/or the Contractors to prosecution. The City may draw against the Security any amounts that appear to be due to the City under this provision pending the City's determination as to the full amount of liquidated damages due on completion of the Work.

Licensee or its SubLicensees shall acknowledge and will cause the artist to acknowledge that such removal, storage, relocation, reinstallation or transfer of the Artwork may result in the destruction, distortion, mutilation or other modification of the Artwork. Further, the Licensee or its SubLicensees shall acknowledge and consent and will cause the artist to acknowledge and consent that the Artwork may be incorporated or made part of a building or other structure in such a way that removing, storing, relocating, reinstalling or transferring the Artwork will cause the destruction, distortion, mutilation or other modification of the Artwork.

(i) **"Major Damage"** means any damage or destruction that, based on reasonable estimates made by the Department within sixty (60) days after the occurrence of the damage or destruction, in order to be repaired to the condition existing before the damage or destruction:

a. would cost, with respect to the Improvements, in excess of fifty percent (50%) of the replacement cost value of all Improvements; or, if within the last five (5) years of the Term, in excess of twenty-five percent (25%) of such replacement cost; and

b. would cost, with respect to the Shell and Core, in excess of fifty percent (50%) of the replacement cost of the Shell and Core, or would require, in the sole judgment of the Commissioner, more than nine (9) months to complete.

(ii) If any part of the Terminal suffers Major Damage, whether or not including any portion of the Premises located in them, in whole or in part by fire or other casualty, the Commissioner has the right, for a period of six (6) months starting on the date of the occurrence, to elect not to repair the Major Damage as otherwise required under this Section, by giving written notice of the election to Licensee. (iii) If any portion of the Premises suffers Major Damage, and if after the occurrence of the damage the Agreement is not terminated, the Commissioner and the Airport architect will estimate the cost of restoration and the length of time that will be required to repair the damage and will notify Licensee of the estimate. If sufficient insurance proceeds are available to repair the damage and the damage can be repaired and the Improvements restored before the Term expires, then Licensee or its SubLicensees, as the case may be, may elect to repair the damage and restore the Improvements. If Licensee determines in its reasonable business judgment not to elect to perform the repair and restoration, then Licensee shall pay to the City all insurance proceeds received as a result of such Major Damage and then this Agreement terminates as to the impacted portion of the Premises as of the date of the Major Damage. The City shall have the right to restore and thereafter Agreement any such locations to other third parties.

(iv) If this Agreement is not terminated in accordance with paragraphs (b)(ii) or (iii) and a casualty has damaged or destroyed any portion of the Shell and Core involving the Premises, the City will restore the Shell and Core to the condition existing on when possession was delivered by the City to Licensee, according to the original as-built plans and specifications. Upon completion of the City's Shell and Core restoration work, if any, Licensee and SubLicensees shall proceed to rebuild the Improvements as nearly as possible to the character of Improvements existing immediately before the occurrence.

Licensee or its SubLicensees must relocate impacted operations to the temporary Relocation Space, and the costs associated with any such relocation, including moving expenses and the cost of reconstructing the Improvements in the temporary

Relocation Space, shall be borne by Licensee and its SubLicensees but only to the extent insurance covers any such costs.

(c) Licensee's Option. If the Concession Premises or a portion of it is subject to Major Damage during the final three (3) years of the Term, Licensee has the right, for a period of sixty (60) days beginning on the date of the occurrence, to elect not to restore the affected Improvements as otherwise required under this Agreement by giving the Commissioner written notice of the election, in which event this Agreement will, as to the portion of the Premises, terminate upon the notice. If Licensee desires to rebuild the affected Premises, it may do so only upon the written approval of the Commissioner. If approved, Licensee will receive the unamortized Improvement Cost of the restoration upon termination or expiration of the Term, with amortization being calculated on a straight-line basis over a period of time equivalent to the original Term.

(d) Insufficient Insurance. In no event will the City, Licensee or any of its SubLicensees be obligated to repair, alter, replace, restore, or rebuild any Improvements, or any portion of them, nor to pay any of the costs or expenses for them. If available insurance proceeds are not sufficient to cover the cost of the restoration as required under this **Article 8**, then this Agreement shall terminate with respect to the portion of the Premise so damaged.

9.3 No Constructive Eviction. The City shall make diligent efforts to supply Licensee with utility services as specified above; however, if the City makes such diligent efforts but fails to provide said utility services, said failure shall not constitute a constructive eviction, and the City shall not be liable to Licensee in damages, nor shall Licensee be entitled to any reduction in Rent except as otherwise provided herein, or otherwise: (i) if any utility shall become unavailable from any public utility company, public authority or any other Person or entity supplying or distributing such utility, or (ii) for any interruption in any service hereunder (including, without limitation, any heating, ventilation or air-conditioning) caused by the making of any necessary repairs or improvements, or (iii) by any cause beyond the reasonable control of the City which is not attributable solely to the negligence or willful misconduct of the City. In no event shall the City be liable to Licensee for indirect or consequential damages.

(iii) that Licensee will ensure that all SubLicensees, and all employees, agents, Contractors, and licensees of Licensee and all SubLicensees comply with the conditions of any and all permits issued under any Environmental Laws.

Licensee shall not be responsible or liable for remediation or removal of any Existing Contamination. Licensee shall not be responsible or liable for any release of Subject Materials, whether located within the Premises or elsewhere, unless Licensee or any SubLicensees, or any employee, agent, Contractor, or licensee of Licensee or any SubLicensees, in any way caused, contributed to, or exacerbated the release or effects of the release by any action, any omission to act, any negligence, or any willful misconduct; provided, however, that Licensee shall be responsible and liable for any release of Subject Material(s), if at the time of the release the Subject Material(s) belonged to, or were in the possession, custody, or control of, Licensee or any SubLicensees, or any employee, agent, Contractor, or licensee of Licensee or any SubLicensees.

10.5 Reports, Notices, Environmental Claims, and Other Matters. Licensee must immediately notify the City in writing of:

(i) any release, suspected release, or threatened release of Subject Material(s) on, in, under, from, or otherwise relating to the Premises -- including, without limitation, the soil, air, or groundwater of the Premises;

(ii) any notice of any kind received by Licensee, any SubLicensees, or any employee, agent, Contractor, or licensee of Licensee or any SubLicensees, from any person, of or relating to any release, suspected release, or threatened release of Subject Material(s) on, in, under, from, or otherwise relating to the Premises -- including, without limitation, the soil, air, or groundwater of the Premises; and

(iii) any action, occurrence, or condition of any kind that in any way relates to the Premises – including, without limitation, to the soil, air, or groundwater of the Premises – or to concession operations, that could reasonably be expected to subject any person to an Environmental Claim or to any restriction in ownership, occupancy, transferability, or use of the Premises under any Environmental Law.

Routine Reports and Notices. Within 24 hours of receiving a written request from the City, Licensee must submit to the City a complete copy of any Routine report or notice that: (i) in any way relates to the Premises – including, without limitation, to the soil, air, or groundwater of the Premises – or to concession operations; and (ii) has been made, submitted, or filed to any

Environmental Agency or other person, by or on behalf of Licensee, any SubLicensees, or any employee, agent, Contractor, or licensee of Licensee or any SubLicensees.

Non-Routine Reports and Notice. If any Environmental Law requires Licensee, any SubLicensees, or any employee, agent, Contractor, or licensee of Licensee or any SubLicensees to make, submit, or file any Non-Routine notice or report of any kind to any Environmental Agency or other person – and the report or notice in any way relates to the Premises – including, without limitation, to the soil, air, or groundwater of the Premises -- or to concession operations, then Licensee must deliver a complete copy of the report or notice (or, in the case of telephonic or other oral reports or notices, a comprehensive written summary of same) to the City within 24 hours of the original report's or notice's having been made, submitted, or filed.

Thereafter, Licensee must notify the City in writing of any and all subsequent developments; each such notification must be made within 24 hours of the earliest development(s) addressed therein.

Environmental Claims. If Licensee, any SubLicensees, or any employee, agent, Contractor, or licensee of Licensee or any SubLicensees receives an Environmental Claim, or any type of notice of threatened or potential Environmental Claim, that in any way relates to the Premises – including, without limitation, to the soil, air, or groundwater of the Premises -- or to concession operations, then within 24 hours of that person's receipt of the Environmental Claim or notice, Licensee must deliver a complete copy of the Environmental Claim or notice to the City. Thereafter, Licensee must notify the City in writing of any and all subsequent developments; each such notification must be made within 24 hours of the earliest development(s) addressed therein.

Other Matters. If Licensee, any SubLicensees, or any employee, agent, Contractor, or licensee of Licensee or any SubLicensees receives notice of any kind of any lien filed with respect to the Premises or in any way relating to the Premises or to concession operations, then within 24 hours of that person's receipt of the notice, Licensee must notify the City in writing. Within 24 hours of receiving a written request from the City, Licensee must submit to the City complete copies of all documents that the City has reasonably requested, relating to any release, suspected release, or threatened release of Subject Material(s) on, in, under, from, or otherwise relating to the Premises -- including, without limitation, the soil, air, or groundwater of the Premises, or relating to any non-Routine notice or report, or relating to any Environmental Claim or notice of threatened or potential Environmental Claim, including, without limitation: responses, invoices, reports, photographs, manifests, pleadings, motions, discovery, orders and correspondence. If Licensee believes that the City's request or any portion the City's request is not reasonable, then Licensee must respond in writing to the City, within 24 hours of receiving the request, specifying what Licensee believes to be unreasonable and why.

**10.6 Hazardous Substances.** Licensee must not use or allow the Premises to be used for the release, storage, use, treatment, disposal or other handling of any hazardous substance, as defined in any Environmental Laws, except in full compliance with all Environmental Laws. Licensee must not use or allow the Premises to be used for the storage of any such hazardous substances except small amounts of cleaning fluids, business equipment materials (such as copy machine

toner) and other small amounts of such hazardous substances customarily handled or used in connection with the concession operations, all of which must be stored and used in compliance with all applicable Environmental Laws. Upon the expiration or termination of this Agreement, Licensee must surrender the Premises to the City free from the presence and contamination of any hazardous substances which were placed therein as a result of actions by Licensee or its SubLicensees.

10.7 No Illegal Dumping. In accordance with Section 11-4-1600(e) of the Municipal Code of Chicago, Licensee warrants and represents that it has not violated and is not in violation of the following sections of the Municipal Code (collectively, the “**Waste Sections**”):

7-28-390 Dumping on public way—Violation—Penalty;

7-28-440 Dumping on real estate without permit;

11-4-1410 Disposal in waters prohibited;

11-4-1420 Ballast tank, bilge tank or other discharge;

11-4-1450 Gas manufacturing residue;

11-4-1500 Treatment and disposal of solid or liquid waste;

11-4-1530 Compliance with rules and regulations required;

11-4-1550 Operational requirements;

11-4-1560 Screening requirements; and

any other sections listed in Section 11-4-1600(e), as it may be amended from time to time.

During the period while this Agreement is executory, Licensee’s violation of the Waste Sections, whether or not relating to the performance of this Agreement constitutes a breach of and an Event of Default under this Agreement, for which the opportunity to cure, if curable, will be granted only at the sole discretion of the Commissioner. Such breach and Event of Default entitles the City to all remedies under the Agreement, at law or in equity. This Section does not limit the Licensee’s duty to comply with all Environmental Laws, in effect now or later, and whether or not they appear in this Agreement. Non-compliance with these terms and conditions may be used by the City as grounds for the termination of this Agreement, and may further affect the Licensee’s eligibility for future City agreements.

10.8 Sustainable Airport Practices. The City encourages Licensee and its SubLicensees to incorporate sustainable design practices in the redevelopment of the Terminal’s Concession Program. The Sustainable Airport Manual attached hereto as **Exhibit M** (“SAM”) should be considered in every aspect of the Redevelopment and concession operations. Licensee and

SubLicensees should include a LEED (Leadership in Energy and Environmental Design) accredited professional on their respective design teams and should consider as part of their main objectives for sustainable design to avoid resource depletion of energy, water, and raw materials; prevent environmental degradation caused by facilities and infrastructure throughout their life cycle; and create built environments that are comfortable, safe and productive. SubLicensees shall be encouraged to use recycled or recyclable materials for the packaging of products sold at the Airport. This shall include bags and boxes that are provided to customers at the time of sale. Further, SubLicensees are encouraged to use recycled or recyclable materials for the pre-packaging of products and any temporary display materials used at the Airport.

#### ARTICLE 11

#### INSURANCE AND INDEMNITY

##### 11.1 Licensee's Insurance.

See **Exhibit N** for all applicable insurance requirements for the Agreement.

##### 11.2 Indemnification.

(a) Except where this indemnity clause would be found to be inoperative or unenforceable under the Construction Contract Indemnification for Negligence Act, 740 ILCS 35/0.01 et seq. ("**Anti-Indemnity Act**"), Licensee must defend, indemnify, keep and hold harmless the City, its officers, representatives, elected and appointed officials, agents and employees, from and against any and all Losses, except for any Losses which are the result of the negligence or willful misconduct of the City, its employees, agents, contractors and subcontractors.

(b) "**Losses**" means, individually and collectively, liabilities of every kind, including losses, damages, and reasonable costs, payments and expenses (such as, but not limited to, court costs and reasonable attorneys' fees and disbursements), claims, demands, actions, suits, proceedings, judgments or settlements, any or all of which in any way arise out of or relate to the acts or omissions of Licensee, its SubLicensees and their respective employees, agents, and Contractors.

(c) At the City Corporation Counsel's option, Licensee shall defend all suits brought upon all such Losses and must pay all costs and expenses incidental to them, but the City has the right, at its option, to participate, at its own cost, in the defense of any suit, without relieving Licensee of the foregoing indemnity obligations under this Section. Licensee must not make any settlement without the prior written consent to it by the City Corporation Counsel if the settlement requires any action on the part of the City or in any way involving the Airport.

(d) To the extent permissible by law, Licensee and SubLicensees waives any limits to the amount of its obligations to indemnify, defend or contribute to any sums due under any Losses, including any claim by any employee of Licensee that may be subject to the Workers' Compensation Act, 820 ILCS 305/1 et seq or any other related law or judicial decision (such as, *Kotecki v. Cyclops Welding Corporation*, 146 Ill. 2d 155 (1991)). The waiver, however, does not require Licensee to indemnify the City for the City's own negligence or willful misconduct. The City, however, does not waive any limitations it may have on its liability under the Worker's Compensation Act or under the Illinois Pension Code.

(e) The indemnities contained in this Section survive the expiration or earlier termination of this Agreement, for matters occurring or arising during the Term of this Agreement or as the result of or during the holding over of Licensee beyond the Term. Licensee acknowledges that the requirements set forth in this Section to indemnify, keep and save harmless and defend the City are apart from and not limited by the Licensee's duties under this Agreement, including the insurance and Security requirements.

(f) Licensee agrees that these provisions will be included in its Contractor Agreements.

## ARTICLE 12

### COMPLIANCE WITH LAWS

12.1 Compliance with Laws. Licensee shall, and shall cause its SubLicensees, at all times observe and comply with all applicable laws, statutes, ordinances, rules, regulations, court orders and executive or administrative orders and directives of the federal, state and local government, now existing or later in effect (whether or not the law also requires compliance by other parties), including the Americans with Disabilities Act and Environmental Laws, that may in any manner affect the performance of this Agreement (collectively, "Laws"), and must not use the Premises, or allow the Premises to be used, in violation of any Laws or in any manner that would impose liability on the City, Licensee or the SubLicensees under any Laws. Licensee must notify the City within ten (10) days of receiving notice from a competent governmental authority that Licensee, its SubLicensees or any of their respective Contractors may have violated any Laws. Provisions required by any Law to be inserted in this Agreement are deemed inserted in this Agreement whether or not they appear in this Agreement or, upon application by either party, this Agreement will be amended to make the insertion; however, in no event will the failure to insert the provisions before or after this Agreement is signed prevent its enforcement. Without limiting the foregoing, Licensee covenants that it will comply with all applicable Laws, including but not limited to those Laws identified in this **Article 12**.

12.2 Economic Disclosure Statements and Affidavits. In connection with Section 2-92-320 of the Municipal Code, Licensee has executed an Economic Disclosure Statement and Affidavits which is attached to this Agreement as **Exhibit H** and which contains a certification as required under the Illinois Criminal Code, 720 ILCS 5/33E, and under the Illinois Municipal Code, 65 ILCS 5/8-10-1 et seq. Ineligibility under Section 2-92-320 of the Municipal Code continues for

3 years following any conviction or admission of a violation of Section 2-92-320. For purposes of Section 2-92-320, when an official, agent or employee of a business entity has committed any offense under the section on behalf of such an entity and under the direction or authorization of a responsible official of the entity, the business entity is chargeable with the conduct. If, after Licensee and any SubLicensees enters into a contractual relationship with a Contractor, it is determined that the contractual relationship is in violation of this subsection, Licensee and its SubLicensees, if applicable, must immediately cease to use the Contractor. All Contracts must provide that Licensee is entitled to recover all payments made by it to the Contractor if, before or subsequent to the beginning of the contractual relationship, the use of the Contractor would be volatile of this Section.

12.3 Inspector General and Legislative Inspector General. It is the duty of Licensee and all officers, directors, agents, partners, and employees of Licensee to cooperate with the Inspector General and the Legislative Inspector General of the City in any investigation or hearing undertaken under Chapter 2-55 or Chapter 2-56 of the Municipal Code. Licensee understands and will abide by all provisions of Chapter 2-55 and Chapter 2-56 of the Municipal Code. Licensee must inform all SubLicensees and Contractors of this provision and require under each Sub Agreement and Contract compliance herewith by each SubLicensees and Contractor all of their respective officers, directors, agents, partners and employees.

12.4 Section 2-92-586 of the Municipal Code. The City encourages Licensee to use Contractors that are firms owned or operated by individuals with disabilities, as defined by Section 2-92-586 of the Municipal Code of the City of Chicago, where not otherwise prohibited by federal or state law.

12.5 Airport Security.

(a) This Agreement is expressly subject to the airport security requirements of Title 49 of the United States Code, Chapter 449, as amended ("**Airport Security Act**"), the provisions of which govern airport security, including the rules and regulations promulgated under it. Licensee is subject to, and further must conduct with respect to its Contractors and the respective employees of each, such employment investigations, including criminal history record checks and security threat assessments as the Commissioner, the TSA or the FAA may deem necessary. Further, in the event of any threat to civil aviation, as defined in the Airport Security Act, Licensee must promptly report any known information in accordance with those regulations promulgated by the United States Department of Transportation, the TSA and by the City. Licensee must, notwithstanding anything contained in this Agreement to the contrary, at no additional cost to the City, perform under this Agreement in compliance with those guidelines developed by the City, the TSA and the FAA with the objective of maximum security enhancement. The drawings, plans, and specifications provided by Licensee and its SubLicensees under this Agreement must comply with those guidelines for airport security developed by the City, the TSA and the FAA and in effect at the time of their submission.

(b) Further, Licensee shall comply with, and require compliance by its Contractors, suppliers of materials and furnishers of services and employees with all present and future laws, rules, regulations, or ordinances promulgated by the City, the TSA or the FAA, or other governmental agencies to protect the security and integrity of the Airport, and to protect against access by unauthorized persons. Licensee shall adopt procedures to control and limit access to the Airport and the Premises by Licensee and its Contractors, suppliers of materials and furnishers of services, employees, in accordance with all present and future City, TSA and FAA laws, rules, regulations, and ordinances. At all times during the Term, Licensee must have in place and in operation a security program for the Premises that complies with all applicable laws and regulations.

(c) Gates and doors located on the Premises, if any, that permit entry into restricted areas at the Airport must be kept locked by Licensee or its SubLicensees at all times when not in use. Gate or door malfunctions must be reported to the Commissioner or the Commissioner's designee without delay and must be kept under constant surveillance by Licensee or the applicable SubLicensees, as the case may be, until the malfunction is remedied.

(d) In connection with the implementation of its security program, Licensee may receive, gain access to or otherwise obtain certain knowledge and information related to the City's overall Airport security program. Licensee acknowledges that all such knowledge and information is of a highly confidential nature. Licensee covenants that no person will be permitted to gain access to such knowledge and information, unless the person has been approved by the Commissioner in advance in writing.

(e) To the extent any of Licensee's employees require identification badges or security clearance for access at the Terminal, Licensee shall be responsible at its expense for securing such badges or clearance. Licensee will cause SubLicensees to be similarly responsible for their personnel under the Sub Agreements, and will monitor compliance by SubLicensees with required badging and security clearances and the screening of SubLicensees goods, products, equipment, materials and supplies to the extent required in the Terminal. SubLicensees will deliver any badge applications for SubLicensees employees to Licensee which shall forward them to the Department. Licensee will apply fines, penalties or default remedies under Sub Agreements as required to remedy violations or other deficiencies by SubLicensees, but shall not have any other responsibility or liability with respect to security issues relating to such SubLicensees employee badging and security clearance requirements and the screening of any such SubLicensees goods, products, equipment materials and supplies. SubLicensees shall be billed directly by the City for all costs for such badging of personnel and security clearances. If at any time more than five percent (5%) of all issued unexpired badges for any non-public area are lost, stolen, or otherwise unaccounted for, and the Department is required to reissue badges for that non-public area per the TSA, the Licensee shall be liable to the City for the cost of that reissuance. The City acknowledges that Licensee has no obligation to conduct screening or inspection of goods, products, equipment, materials or supplies brought to the Terminal, Premises or Airport by or on behalf of SubLicensees.

(f) Licensee further must indemnify, hold harmless and defend the City from and against any and all claims, reasonable costs, reasonable expenses, damages and liabilities, including all reasonable attorney's fees and costs, resulting directly from the breach of Licensee's covenants and agreements as set forth in this Section.

12.6 Prohibition on Certain Contributions (Mayoral Executive Order No. 201 5-4).

(1) Licensee, any person or entity who directly or indirectly has an ownership or beneficial interest in Licensee of more than 7.5 percent ("**Owners**"), spouses and domestic partners of such Owners, Licensee's Contractors, any person or entity who directly or indirectly has an ownership or beneficial interest in any Contractor of more than 7.5 percent ("**Sub-owners**") and spouses and domestic partners of such Sub-owners (Licensee and all the other preceding classes of persons and entities are together, the "**Identified Parties**"), shall not make a contribution of any amount to the Mayor of the City of Chicago (the "**Mayor**") or to his political fund-raising committee (i) after execution of this bid, proposal or Agreement by Licensee, (ii) while this Agreement or any Other Contract is executory, (iii) during the term of this Agreement or any Other Contract between Licensee and the City, or (iv) during any period while an extension of this Agreement or any Other Contract is being sought or negotiated.

(2) Licensee represents and warrants that since the date of public advertisement of the specification, request for qualifications, request for proposals or request for information (or any combination of those requests) or, if not competitively procured, from the date the City approached the Licensee or the date the Licensee approached the City, as applicable, regarding the formulation of this Agreement, no Identified Parties have made a contribution of any amount to the Mayor or to his political fund-raising committee.

(3) Licensee agrees that it shall not: (a) coerce, compel or intimidate its employees to make a contribution of any amount to the Mayor or to the Mayor's political fund-raising committee; (b) reimburse its employees for a contribution of any amount made to the Mayor or to the Mayor's political fund-raising committee; or (c) bundle or solicit others to bundle contributions to the Mayor or to his political fund-raising committee.

(4) Licensee agrees that the Identified Parties must not engage in any conduct whatsoever designed to intentionally violate this provision or Mayoral Executive Order No. 2011-4 or to entice, direct or solicit others to intentionally violate this provision or Mayoral Executive Order No. 2011-4.

(5) Licensee agrees that a violation of, non-compliance with, misrepresentation with respect to, or breach of any covenant or warranty under this provision or violation of Mayoral Executive Order No. 2011-4 constitutes a breach and default under this Agreement, and under any Other Contract for which no opportunity to cure will be granted. Such breach and default entitles the City to all remedies (including without limitation termination for default) under this Agreement, under Other Contract, at law

and in equity. This provision amends any Other Contract and supersedes any inconsistent provision contained therein.

(6) If Licensee violates this provision or Mayoral Executive Order No. 2011-4 prior to award of the Agreement resulting from this specification, the Chief Procurement Officer may reject Licensee's bid.

(7) For purposes of this provision:

**"Bundle"** means to collect contributions from more than one source which is then delivered by one person to the Mayor or to his political fund-raising committee.

12.7 City Ethics Ordinance. Licensee covenants that no payment, gratuity or offer of employment must be made in connection with this Agreement by or on behalf of any Contractors or higher tier Contractors or anyone associated with them as an inducement for the award of a Subcontract or order; and Licensee further acknowledges that any agreement entered into, negotiated or performed in violation of any of the provisions of Chapter 2-156 of the Municipal Code is voidable as to the City.

12.8 Business Relations with Elected Officials. Pursuant to Section 2-156-030(b) of the Municipal Code, it is illegal for any elected official of the City, or any person acting at the direction of such official, to contact, either orally or in writing, any other city official or employee with respect to any matter involving any person with whom the elected official has a business relationship, or to participate in any discussion in any city council committee hearing or in any city council meeting or to vote on any matter involving the person with whom an elected official has a business relationship. **Violation of §2-156-030(b) by any elected official with respect to this Agreement is grounds for termination of this Agreement.** Section 2-156-080 defines a “business relationship” as any contractual or other private business dealing of an official, or his or her spouse, or of any entity in which an official or his or her spouse has a financial interest, with a person or entity which entitles an official to compensation or payment in the amount of \$2,500 or more in a calendar year; provided, however, a financial interest will not include: (1) any ownership through purchase at fair market value or inheritance of less than one percent of the share of a corporation, or any corporate subsidiary, parent or affiliate thereof, regardless of the value of or dividends on such shares, if such shares are registered on a securities exchange pursuant to the Securities Exchange Act of 1934, as amended; (2) the authorized compensation paid to an official or employee for his office or employment; (3) any economic benefit provided equally to all residents of the city; (4) a time or demand deposit in a financial institution; or (5) an endowment or insurance policy or annuity contract purchased from an insurance company. A “contractual or other private business dealing” will not include any employment relationship of an official’s spouse with an entity when such spouse has no discretion concerning or input relating to the relationship between that entity and the City.

Failure by the Licensee or any controlling person (as defined in Section 1-23-010 of the Municipal Code of Chicago) thereof to maintain eligibility to do business with the City as required by Section 1-23-030 of the Municipal Code of Chicago shall be grounds for termination of this Agreement.

(a) To inspect the Premises during regular business hours upon reasonable advance notice (or at any time in the case of emergency, in which case no notice shall be required) to ascertain the condition of the Premises and to determine Licensee's compliance with the terms of this Agreement. The right of inspection shall impose on the City no duty to inspect and shall impart no liability upon the City for failure to inspect.

(b) To perform any obligation, to perform maintenance and make repairs and replacements in any event where Licensee is obligated to do so under this Agreement and has failed to perform such obligation following any applicable notice and cure periods provided for in this Agreement or to initiate such repairs and maintenance within the time periods provided for in this Agreement, if applicable, or, if no time period is provided, within thirty (30) days after written notice from the City, and thereafter to diligently complete such obligations, repairs or replacements, or at any time with or without written notice, in the event that the City, in its sole discretion, deems that it is necessary or prudent to do so to preserve all or any part of the Terminal from damage or to correct any condition likely to lead to injury or damage.

(d) In the event of a conflict between this Agreement and an applicable ASP Amendment or AOSSP Amendment, the ASP Amendment or AOSSP Amendment shall apply.

### 13.2 Accommodation of Airport Construction.

(a) Licensee acknowledges that from time to time the City may undertake construction, repair or other activities related to the operation, maintenance and repair of the Airport that will require temporary accommodation by Licensee and its SubLicensees. In addition, the City reserves the right to permanently reconfigure the Common Areas and the Premises as necessary to accommodate the construction of connections at the Airport or relocate or reconfigure the Terminal Gates and Ramp Area. The City agrees to use reasonable efforts to minimize disruption in Licensee's and its SubLicensees' business operations during such period of construction. Without limiting the generality of the

foregoing, the City may temporarily or permanently close, alter, change, modify and/or relocate any entrances, passageways, doors and doorways, corridors, elevators, escalators or other parts of the Common Areas ; and the City may at any time and from time to time make such changes, alterations, additions, improvements, repairs or replacements in or to the Airport, as well as in or to the entrances, passages, elevators, escalators, and stairways thereof; as it may deem necessary or desirable, and to change the arrangement and/or location of entrances, passageways, doors and doorways, and corridors, elevators, stairs, rest rooms, or other public parts of the Common Areas or the Airport (other than the Premises), and may stop or interrupt any service or utility system, when necessary by reason of accident or emergency or construction work until the necessity for the interruption or stoppage has ended. The City will endeavor to give Licensee advance notice of such work whenever possible (except in the case of an emergency, in which case no notice shall be required).

(b) Licensee further acknowledges that such improvements may require substantial construction work in the Airport during normal business hours, which may disrupt Licensee's and its SubLicensee's business operations and create noise, dust and other concomitants of construction work. Licensee agrees that it shall have no right except as expressly provided herewith, to any abatement of Rent, Additional Rent or other compensation or to any claim of breach of the City's covenant of quiet enjoyment (express or implied) or an actual or constructive eviction or for loss of business or inconvenience, or in any event for consequential damages on account of any such construction work, and without incurring any liability to Licensee or otherwise affecting Licensee's obligations under this Agreement. Licensee agrees to accommodate and shall cause its SubLicensees to accommodate the City in such activities even though the Licensee's and its SubLicensees' own operations may be inconvenienced or partially impaired.

(c) In the event the City elects to exercise its rights under this Section to close any portion of the Premises, it shall give Licensee not less than fifteen (15) days' notice (except in the case of an emergency in which case no notice shall be required) of the City's intent to temporarily close any portion of the Premises, which portion shall be described in such notice.

It is clearly understood by Licensee that no right or privilege has been granted that would operate to prevent any person, firm, or corporation operating aircraft on the Airport from performing any services on its own aircraft with its own regular employees (including maintenance and repair) that it may choose to perform.

14.2 Airport Landing Area. The City reserves the right to further develop or improve the landing area of the Airport as it sees fit, regardless of the desires or view of Licensee or its SubLicensees, and without interference or hindrance. The City reserves the right, but is not obligated to, to maintain and keep in repair the landing area of the Airport and all publicly-owned facilities of the Airport, together with the right to direct and control all activities of Licensee and its SubLicensees in this regard.

14.3 No Obstructions. Licensee must comply with applicable notification and review requirements covered in Part 77 of the Federal Aviation Regulations if any future structure or building is planned for the Premises, or in the event of any planned modification or alteration of any present or future building or structure situated on the Premises. Licensee, by accepting the Agreement, expressly agrees for itself, its successors and assigns that it will not erect nor permit the erection of any structure or object nor permit the growth of any tree on the Premises above the applicable mean sea level elevation set forth in Part 77 of the Federal Aviation Regulations. If the covenants contained herein are breached, the City serves the right to enter upon the Premises and to remove the offending structure or object and/or cut down the offending tree, all of which will be at the expense of Licensee.

14.4 Aviation Easement. There is reserved to the City, its successors and assigns for the use and benefit of the public, a right of flight for the passage of aircraft in the airspace above the Premises. This public right of flight includes the right to cause in the airspace any noise inherent in the operation of any aircraft used for navigation or flight through the airspace or landing at, taking off from, or operation on the Airport. Licensee by accepting this Agreement agrees for itself, its SubLicensees, its successors, and assigns that it will not make use of the Premises in any manner that might interfere with the landing and taking off of aircraft from Airport or otherwise constitute a hazard. If the covenants contained herein are breached, the City reserves the right to enter upon the Premises and cause the abatement of the interference at the expense of Licensee.

14.5 National Emergency. This Agreement and all the provisions of this Agreement are subject to whatever right the United States Government now has or in the future may have or

Licensee shall faithfully observe and comply, and shall cause its SubLicensees to faithfully observe and comply, with any reasonable rules which the City may from time to time make provided that such rules apply to all similarly situated Licensees, licensees or Licensees, if any, and are related to the safety, care, appearance, reputation, operation or maintenance of the Airport, the Premises, the Terminal or the Common Areas or the comfort of Licensees or others using such areas or facilities. The City shall uniformly enforce such rules and regulations as to all similarly-situated Licensees, including Licensee and its SubLicensees, but shall not have any duty or obligation to Licensee to enforce such rules or the terms and conditions in any other Agreement as against any other Licensees and the City shall not be liable to Licensee for violations of the same by other Licensees, their employees, contractors, agents or licensees.

Among other things, the 2014 City Hiring Plan prohibits the City from hiring persons as governmental employees in non-exempt positions on the basis of political reasons or factors.

(b) Licensee is aware that City policy prohibits City employees from directing any individual to apply for a position with Licensee, either as an employee or as a subcontractor, and from directing Licensee to hire an individual as an employee or as a subcontractor. Accordingly, Licensee must follow its own hiring and contracting procedures, without being influenced by City employees. Any and all personnel of Licensee in connection with this Agreement are employees or subcontractors of Licensee, not employees of the City of Chicago. (c) Licensee will not condition, base, or knowingly prejudice or affect any term or aspect of the employment of any personnel associated with this Agreement, or offer employment to any individual to provide services associated with this Agreement, based upon or because of any political reason or factor, including, without limitation, any individual's political affiliation, membership in a political organization or party, political

(b) Said provisions of this Agreement shall be included in all requests for bids and/or proposals and shall be explicitly included in all contracts or subcontracts of whatsoever tier by all contractors and subcontractors; provided that the total project value excess \$25,000.00. In the event of breach of any of the above nondiscrimination covenants, City will have the right to terminate the Agreement and to enter or re-enter and repossess said land and the facilities thereon, and hold the same as if said Agreement had never been made or issued.

(b) It is an unlawful practice for Licensee to, and Licensee must at no time: (i) fail or refuse to hire, or discharge, any individual or discriminate against the individual with respect to his or her compensation, or the terms, conditions, or privileges of his or her employment, because of the individual's race, creed, color, religion, sex, age, handicap or national origin; or (ii) limit, segregate, or classify its employees or applicants for employment in any way that would deprive any individual of employment opportunities or otherwise adversely affect his or her status as an employee, because of the individual's race, creed, color, religion, sex, age, handicap or national origin; or (iii) in the exercise of the privileges granted in this Agreement, discriminate or permit discrimination in any manner, including the use of the Premises, against any person or group of persons because of race, creed, color, religion, national origin, age, handicap, sex or ancestry. Licensee must post in conspicuous places to which its employees or applicants for employment have access, notices setting forth the provisions of this non-discrimination clause.

(c) Licensee must comply with the Civil Rights Act of 1964, 42 U.S.C. § 2000e et seq. (1981), as amended, and to the extent required by the law, must undertake, implement and operate an affirmative action program in compliance with the rules and regulations of the Federal Equal Employment Opportunity Commission and the Office of Federal Contract Compliance, including 14 CFR Part 152, Subpart E. (d) Licensee must comply with the Illinois Human Rights Act, 775 ILCS 5/1-101 et seq. as amended and any rules and regulations promulgated in accordance with it, including the Equal Employment Opportunity Clause, 5 Ill. Admin. Code §750 Appendix A. (f) Licensee must insert these non-discrimination provisions in any agreement by which Licensee or its SubLicensees grants a right or privilege to any person, firm, or corporation to render accommodations and/or services to the public on the Premises. Licensee and its SubLicensees must incorporate all of the above provisions in all agreements entered into, suppliers of materials, furnishers of services, Contractors of any tier, and labor organizations that furnish skilled, unskilled and craft union skilled labor, or that may provide any such materials, labor or services in connection with this Agreement, and Licensee must require them to comply with the law and enforce the requirements. In all solicitations either by competitive bidding or negotiations by Licensee s for work to be performed under a Subcontract, including procurements of materials or Agreements of equipment, each potential Contractor or supplier must be notified by Licensee of the Licensee’s obligations under this Agreement relative to nondiscrimination.

In the event of Licensee’s noncompliance with the nondiscrimination provisions of this Agreement, the City may impose such sanctions as it or the federal or

state government may determine to be reasonably appropriate, including cancellation, termination or suspension of the Agreement, in whole or in part.

(h) Licensee s must permit access to its books, records, accounts, other sources of information, and its facilities as may be determined by the City, the Commissioner or the Federal government to be pertinent to ascertain compliance with the terms of this Section. 16.2 [Intentionally Deleted]

## ARTICLE 17

### **DEFAULT, REMEDIES AND TERMINATION**

17.1 Events of Default.

(a) The following constitute Events of Default by Licensee under this Agreement. The Commissioner will notify Licensee in writing of any event that the Commissioner believes to be an Event of Default. Licensee will be given an opportunity to cure the Event of Default within a reasonable period of time, as determined by the Commissioner, but not to exceed thirty (30) days after written notice of the Event of Default; provided, that (i) if a provision of this Agreement provides for a different cure period for a

particular Event of Default, that different cure period will apply; (ii) if a provision of this Agreement does not allow a right to cure a particular Event of Default, there will be no right to cure; and (iii) if neither (i) or (ii) apply and if the promise, covenant, term, condition or other non-monetary obligation or duty cannot be cured within the time period granted by the Commissioner, but Licensee promptly begins and diligently and continuously proceeds to cure the failure within the time period granted and after that continues to diligently and continuously proceed to cure the failure, and the failure is reasonably susceptible of cure within sixty (60) days from delivery of the notice, Licensee will have the additional time, not in any event to exceed sixty (60) days, to cure the failure.

(1) Any material misrepresentation intentionally made by Licensee to the City in the inducement to City to enter this Agreement or in the performance of this Agreement. There is no right to cure this Event of Default.

(2) Licensee's failure to make any payment in full when due under this Agreement and failure to cure the default within ten (10) days after the City gives written notice of the non-payment to Licensee. In addition, Licensee's failure to make any such payment within ten (10) days after the written notice more than three (3) times in any Lease Year constitutes an Event of Default without the necessity of the City giving notice of the fourth failure to Licensee or any opportunity to cure it.

(3) Subject to Force Majeure, Licensee's failure to promptly and fully keep, fulfill, comply with, observe, or perform any promise, covenant, term, condition or other non-monetary obligation or duty of Licensee contained in this Agreement.

(4) Licensee's failure to provide or maintain the insurance coverage required under this Agreement (including any material non-compliance with the requirements) and the failure to cure within five (5) days following written notice from the Commissioner; or, if the noncompliance is non-material, the failure to cure within twenty (20) days after the Commissioner gives written notice. The Commissioner, in her sole discretion, will determine if noncompliance is material.

(5) Subject to Force Majeure, Licensee's failure to cause the Concession Program operations in any Concession Premises at all times Licensee is required to do so under this Agreement.

(6) Subject to Force Majeure, Licensee's failure to begin or to complete its Licensee Improvements (as defined in Article [8] hereof) on a timely basis or to timely open for business in the Premises or any portion of it.

(7) A default by Licensee or any Affiliate under any other agreement it may presently have or may enter into with the City during the Term of this Agreement and failure to cure such default within any applicable cure period.

(8) Licensee does any of the following and the action affects Licensee's ability to carry out the terms of this Agreement: (i) becomes insolvent, as the term is defined under Section 101 of the United States Bankruptcy Code as amended from time to time; or (ii) fails to pay its debts generally as they mature; or (iii) seeks the benefit of any present or future federal, state or foreign insolvency statute; or (iv) makes a general assignment for the benefit of creditors, or (v) files a voluntary petition in bankruptcy or a petition or answer seeking an arrangement of its indebtedness under the United States Bankruptcy Code or under any other law or statute of the United States or of any State or any foreign jurisdiction; or (vi) consents to the appointment of a receiver, trustee, custodian, liquidator or other similar official, of all or substantially all of its property, which remains in effect for a period in excess of sixty (60) days.

(9) An order for relief is entered by or against Licensee under any chapter of the Bankruptcy Code or similar law in any foreign jurisdiction and is not stayed or vacated within sixty (60) days following its issuance.

(10) Licensee is dissolved.

(11) A violation of law that results in a guilty plea, a plea of nolo contendere, guilty finding, or conviction of a criminal offense, by Licensee, or any of its directors, officers, partners or key management employees directly or indirectly relating to this Agreement, and that may threaten, in the sole judgment of Commissioner, Licensee's performance of this Agreement in accordance with its terms.

(12) Subject to Force Majeure, any failure to perform, act, event or omission that is specifically identified as an Event of Default elsewhere in this Agreement.

(13) Failure to meet or maintain the TSA standards for approval and certification as a Registered Travel Service Provider.

17.2 Remedies. If an Event of Default occurs and is not cured by Licensee in the time allowed, in addition to any other remedies provided for in this Agreement, including the remedy of Self-help as provided in **Section 17.3**, the City through the Commissioner or other appropriate City official may exercise any or all of the following remedies.

(a) **Terminate this Agreement with respect** to all or a portion of the Premises and exclude Licensee from that part of the Premises affected by the termination. If the Commissioner elects to terminate this Agreement, the Commissioner may, at the Commissioner's sole option, serve notice upon Licensee that this Agreement ceases and expires and becomes absolutely void with respect to the Premises or that part identified in the notice on the date specified in the notice, to be no less than five (5) days after the date of the notice, without any right on the part of Licensee after that to save the forfeiture by payment of any sum due or by the performance of any term, provision, covenant, agreement or condition broken. At the expiration of the time limit in the notice, this Agreement and the Term of this Agreement, as well as the right, title and interest of Licensee under this Agreement, wholly ceases and expires and becomes void with respect

to the Premises identified in such notice in the same manner and with the same force and effect (except as to Licensee's liability) as if the date fixed in the notice were the date in this Agreement stated for expiration of the Term with respect to the Premises identified in such notice.

(b) Recover all Rent, including Additional Rent and any other amounts due that have accrued and are then due and payable and also all damages available at law or under this Agreement. If this Agreement is terminated, whether in its entirety or with respect to a part of the Premises, the damages will include damages for the balance of the scheduled Term, based upon any and all amounts that Licensee would have been obligated to pay for the balance of the Term with respect to the Premises, or if this Agreement is terminated with respect to a portion of the Premises, that portion of the Premises affected by the termination, calculated as provided in this Agreement or, if not fixed, as reasonably estimated and prorated among the various portions of the Premises. In determining the amount of damages for the period after termination, the Commissioner may make the determination based upon the sum of any future payments that would have been due to the City, for the full Lease Year immediately before the Event of Default. All amounts that would have been due and payable after termination for the balance of the Term with respect to all or a portion of the Premises must be discounted to present value at a rate deemed to be commercially reasonable for such purposes as of the date of termination. To the extent permitted by law, the Commissioner may declare all amounts to be immediately due and payable. Notwithstanding the foregoing, the City shall use its best efforts to mitigate its damages by finding a replacement Licensee for the Premises being terminated paying comparable Rent.

(c) At any time after the occurrence of any uncured Event of Default, whether or not this Agreement has been terminated, reenter and repossess the Premises and/or any part of it with or without process of law, so long as no undue force is used, and the City has the option, but not the obligation, to re-lease all or any part of the Premises. The City, however, is not required to accept any Licensee proposed by Licensee or to observe any instruction given the City about such a re-lease. The failure of the City to re-lease the Premises or any part or parts of it does not relieve or affect Licensee's liability under this Agreement nor is the City liable for failure to re-Agreement. Reentry or taking possession of the Premises does not constitute an election on the City's part to terminate this Agreement unless a written notice of the election by the Commissioner is given to Licensee. Even if the City re-Agreements without termination, the Commissioner may at any time after that elect to terminate this Agreement for any previous uncured Event of Default. For the purpose of re-leasing, the Commissioner may decorate or make repairs, changes, alterations or additions in or to the Premises to the extent deemed by the Commissioner to be necessary to re-let the Premises, and the cost of the decoration, repairs, changes, alterations or additions will be charged to and payable by Licensee as Additional Rent under this Agreement. Any sums collected by the City from any new Licensee obtained on account of Licensee will be credited against the balance of the Rent due under this Agreement. Licensee must pay the City monthly, on the days when payments of Rent would have been payable under this Agreement, the amount due under this Agreement less the amount obtained by the City from the new Licensee, if any.

(d) Enter upon the Premises, distrain upon and remove from it all inventory, equipment, machinery, trade fixtures and personal property of any kind or nature, whether owned by Licensee or by others, and to proceed without judicial decree, writ of execution or assistance or involvement of constables or the City's and Licensee's officers, to conduct a private sale, by auction or sealed bid without restriction. Licensee waives the benefit of all laws, whether now in force or later enacted, exempting any of Licensee's property on the Premises or elsewhere from distraint, levy or sale in any legal proceedings taken by the City to enforce any rights under this Agreement.

(e) Seek and obtain specific performance, a temporary restraining order or an injunction, or any other appropriate equitable remedy.

(f) Seek and obtain monetary damages.

(g) Deem Licensee and Affiliates non-responsible in future contracts or concessions to be awarded by the City.

(h) Declare Licensee and Affiliates in default under any other existing contracts or agreements they might have with the City and to exercise any remedies available under those other contracts or agreements.

(i) Assume the assignment of any and all SubAgreements between Licensee and SubLicensees.

(j) Require Licensee to terminate a SubAgreement or a Contract that is causing an Event of Default under this Agreement which has not been cured.

17.3 Commissioner's Right to Perform Licensee's Obligations.

(a) Upon the occurrence of an Event of Default that Licensee has failed to cure in the time provided, the Commissioner may, but is not obligated to, make any payment or perform any act required to be performed by Licensee under this Agreement in any manner deemed expedient by the Commissioner for the purpose of correcting the condition that gave rise to the Event of Default ("**Self-help**"). The Commissioner's inaction never constitutes a waiver of any right accruing to the City under this Agreement nor do the provisions of this Section or any exercise by the Commissioner of Self-help under this Agreement cure any Event of Default. Any exercise of Self-help does not limit the right of any other City department or agency to enforce applicable City ordinances or regulations.

(b) The Commissioner, in making any payment that Licensee has failed to pay:

(i) relating to taxes, may do so according to any bill, statement or estimate, without inquiry into the validity of any tax, assessment, sale, forfeiture, tax lien or title or claim;

(ii) for the discharge, compromise or settlement of any lien, may do so without inquiry as to the validity or amount of any claim for lien that may be asserted; and

(iii) in connection with the completion of construction, furnishing or equipping of the Premises or the licensing, operation or management of the Premises or the payment of any of its Operating Costs, may do so in such amounts and to such persons as the Commissioner may deem appropriate.

Nothing contained in this Agreement requires the Commissioner to advance monies for any purpose.

(c) If Licensee fails to perform its obligations under this Agreement to maintain the Premises or to manage the Concession Program in accordance with specified standards within sixty (60) days following written notice from the Commissioner, or in the event of a serious health or safety concern or in an emergency (in which case no notice is required) the Commissioner may, but is not obligated to, direct the Department to perform or cause the performance of any such obligation in any manner deemed expedient by the Commissioner for the purpose of correcting the condition in question.

(d) All sums paid by the City under the provisions of this Section and all necessary and incidental costs, expenses and reasonable attorneys' fees in connection with the performance of any such act by the Commissioner, together with interest thereon at the Default Rate, from the date of the City's payment until the date paid by Licensee, are deemed Additional Rent under this Agreement and are payable to the City within ten (10) days after demand therefor, or at the option of the Commissioner, may be added to any Rent then due or later becoming due under this Agreement, and Licensee covenants to pay any such sum or sums with interest at the Default Rate.

#### 17.4 Effect of Default and Remedies.

(a) The City's waiver of any one right or remedy provided in this Agreement does not constitute a waiver of any other right or remedy then or later available to the City under this Agreement or otherwise. A failure by the City or the Commissioner to take any action with respect to any Event of Default or violation of any of the terms, covenants or conditions of this Agreement by Licensee will not in any respect limit, prejudice, diminish or constitute a waiver of any rights of the City to act with respect to any prior, contemporaneous or later violation or Event of Default or with respect to any continuation or repetition of the original violation or Event of Default. The acceptance by the City of payment for any period or periods after an Event of Default or violation of any of the terms, conditions and covenants of this Agreement does not constitute a waiver or diminution of, nor create any limitation upon any right of the City under this Agreement to terminate this Agreement for subsequent violation or Event of Default, or for continuation or repetition of the original violation or Event of Default. Licensee has

no claim of any kind against the City by reason of the City's exercise of any of its rights as set forth in this Agreement or by reason of any act incidental or related to the exercise of rights.

(b) All rights and remedies of the City under this Agreement are separate and cumulative and none excludes any other right or remedy of the City set forth in this Agreement or allowed by law or in equity. No termination of this Agreement or the taking or recovery of the Premises or any portion thereof deprives the City of any of its remedies against Licensee for Rent, including Additional Rent or other amounts due or for damages for the Licensee's breach of this Agreement. Every right and remedy of the City under this Agreement arising out of Licensee's default or indemnification obligations survives the expiration of the Term or the termination of this Agreement.

17.5 Licensee's Right to Perform City Obligations. In the event that the City fails to perform its obligations as landlord (and not as Airport operator or municipality) with respect to the Premises under this Agreement, the Licensee may send City written notice citing the Agreement provision at issue and the facts surrounding the alleged non-performance. If the City does not respond to such notice within sixty (60) days and take timely corrective action as appropriate under the circumstances, Licensee may perform such obligation on behalf of the City. Licensee's reasonable and actual costs in performing may be offset against the following month's Rent.

## **ARTICLE 18**

### **GENERAL PROVISIONS**

18.1 Entire Agreement. This Agreement contains all the terms, covenants, conditions and agreements between the City and Licensee relating in any manner to the use and occupancy of the Premises and otherwise to the subject matter of this Agreement. No prior or other agreement or understandings pertaining to these matters are valid or of any force and effect. This Agreement supersedes all prior or contemporaneous negotiations, undertakings, and agreements between the parties. No representations, inducements, understandings or anything of any nature whatsoever made, stated or represented by the City or anyone acting for or on the City's behalf, either orally or in writing, have induced Licensee to enter into this Agreement, and Licensee acknowledges, represents and warrants that Licensee has entered into this Agreement under and by virtue of Licensee's own independent investigation.

18.2 Counterparts. This Agreement may be comprised of several identical counterparts and may be fully executed by the parties in separate counterparts. Each such counterpart is deemed to be an original, but all such counterparts together must constitute but one and the same Agreement.

18.3 Amendments. Except as otherwise expressly provided in this Agreement, the provisions of this Agreement may be amended only by a written agreement signed by the City and Licensee. No review or approval by the Commissioner, including approval of Construction

Documents, constitutes a modification of this Agreement (except to the extent that the review or approval expressly provides that it constitutes such a modification or it is apparent on its face that the review or approval, if made in writing, modifies terms or provisions of this Agreement that are within the express powers of the Commissioner under this Agreement to modify), nor excuse Licensee from compliance with the requirements of this Agreement or of any applicable laws, ordinances or regulations. Amendments must be signed by the Mayor, provided that the Commissioner alone may sign amendments to the Exhibits.

18.4 Severability. Whenever possible, each provision of this Agreement must be interpreted in such a manner as to be effective and valid under applicable law. However, notwithstanding anything contained in this Agreement to the contrary, if any provision of this Agreement is under any circumstance prohibited by or invalid under applicable law, the provision is severable and deemed to be ineffective, only to the extent of the prohibition or invalidity, without invalidating the remaining provisions of this Agreement or the validity of the provision in other circumstances.

18.5 Covenants in SubAgreements and Contracts. All obligations imposed on Licensee under this Agreement pertaining to the maintenance and operation of the Premises and compliance with the and M/WBE goals contained in this Agreement are deemed to include a covenant by Licensee to insert appropriate provisions in all SubAgreements and Contracts covering work under this Agreement and to use its commercially reasonable efforts to enforce compliance of all SubLicensees and contractors with the requirements of those provisions.

18.6 Governing Law. This Agreement is deemed made in the state of Illinois and governed as to performance and interpretation in accordance with the laws of Illinois. Licensee irrevocably submits itself to the original jurisdiction of those courts located within Cook County, Illinois, with regard to any controversy arising out of, relating to, or in any way concerning the execution or performance of this Agreement. Licensee consents to service of process on Licensee, at the option of the City, by registered or certified mail addressed to the applicable office as provided for in this Agreement, by registered or certified mail addressed to the office actually maintained by Licensee, or by personal delivery on any officer, director, or managing or general agent of Licensee. If any action is brought by Licensee against the City concerning this Agreement, the action can only be brought in those courts located within Cook County, Illinois.

18.7 Approvals. This Agreement shall be subject to the approval of the (i) Aviation Committee of the City Council of the City of Chicago and the full City Council (the “**City Approvals**”); and (ii) to the Members of Licensee (the “**Licensee Approvals**”) and shall not be valid and enforceable until such City Approvals have been granted and the Licensee Approvals have been obtained.

18.8 Notices. Any notices or other communications pertaining to this Agreement must be in writing and are deemed to have been given by a party if sent by nationally recognized commercial overnight courier or registered or certified mail, return receipt requested, postage prepaid and addressed to the other party. Notices are deemed given on the date of receipt if by personal service, or one (1) day after deposit with a nationally recognized commercial overnight courier, three (3) days after deposit in the U.S. mails sent by certified mail, return receipt

requested, postage prepaid, or otherwise upon refusal of receipt. Unless otherwise directed by Licensee in writing, all notices or communications from City to Licensee will sent to Licensee's notice address as set forth in this Agreement. All notices or communications from Licensee to the City must be addressed to:

Commissioner, Chicago Department of Aviation  
City of Chicago  
O'Hare International Airport  
10510 W. Zemke Rd  
Chicago, Illinois 60666

and with a copy to: First Deputy Commissioner.

If the notice or communication relates to payment of Rent or other payments to the City or relates to the insurance requirements, a copy must be sent to:

City Comptroller  
City of Chicago  
City Hall - Room 501  
121 N. LaSalle Street  
Chicago, Illinois 60602

If the notice or communication relates to a legal matter or the indemnification requirements, a copy must be sent to:

City of Chicago, Department of Law  
Aviation, Environmental, Regulatory and Contracts Division  
30 North LaSalle Street, Suite 1400  
Chicago, Illinois 60602  
Attn: Deputy Corporation Counsel

Either party may change its address or the individual to whom the notices are to be given by a notice given to the other party in the manner set forth above.

**18.9 Successors and Assigns; No Third Party Beneficiaries.** This Agreement inures to the exclusive benefit of, and is binding upon, the parties and their permitted successors and assigns; nothing contained in this Section, however, constitutes approval of an assignment or other transfer by Licensee not otherwise permitted in this Agreement. Nothing in this Agreement, express or implied, is intended to confer on any other person, sole proprietorship, partnership, corporation, trust or other entity, other than the parties and their successors and assigns, any right, remedy, obligation, or liability under, or by reason of, this Agreement unless otherwise expressly agreed to by the parties in writing. No benefits, payments or considerations received by Licensee for the performance of services associated and pertinent to this Agreement must accrue, directly or indirectly, to any employees, elected or appointed officers or representatives, or to any other person or persons identified as agents of, or who are by definition an employee

of, the City. Neither this Agreement nor any rights or privileges under this Agreement are an asset of Licensee or any third party claiming by or through Licensee or otherwise, in any bankruptcy, insolvency or reorganization proceeding.

18.10 Subordination.

(a) This Agreement is subordinate to the provisions and requirements of any existing or future agreements between the City and the United States government or other governmental authority, pertaining to the development, operation or maintenance of the Airport, including agreements the execution of which have been or will be required as a condition precedent to the granting of federal or other governmental funds for the development of the Airport. If the United States government requires modifications, revisions, supplements or deletions of any of the terms of this Agreement, then Licensee consents to the changes to this Agreement. In the event that any such modifications, revisions, supplements or deletions result in either a material increase to Licensee's obligations and liabilities under this Agreement or a material decrease in Licensee's rights under this Agreement or have a material adverse effect on the operation of the Concession Program, then Licensee shall have the right to terminate this Agreement upon prior written notice within ninety (90) days following written notification from the City of the required amendment.

(b) This Agreement and all rights granted to Licensee under this Agreement are expressly subordinated and subject to the International Terminal Use Agreement and the Use Agreement with any airline utilizing the Airport, including the Terminals, and any existing agreement with any airline consortium pertaining to the operation of the Airport, including the Terminals.

(c) To the extent of a conflict or inconsistency between this Agreement and any agreement described in paragraphs (a) and (b) above, those provisions in this Agreement so conflicting must be performed as required by those agreements referred to in paragraphs (a) and (b) except to the extent that any such conflicts or inconsistencies requiring Licensee to perform as required under such other agreements result in either a material increase to Licensee's obligations and liabilities under this Agreement or a material decrease in Licensee's rights under this Agreement or have a material adverse effect on the operation of the Concession Program.

18.11 Conflict. In the event of any conflict between the terms and provisions of this Agreement and the terms and provisions of any SubAgreement or contract between Licensee and its SubLicensees, Contractors and any other third party, the terms and provisions of this Agreement govern and control.

18.12 Offset by Licensee. Whenever in this Agreement the City is obligated to pay Licensee an amount, then the City Comptroller may elect to require Licensee to offset the amount due against Rent or other payments owed by Licensee to the City, in lieu of requiring the City to pay such amount. Licensee shall have no right to offset any amount due to City under this Agreement against amounts due to Licensee by City unless so directed in writing by the City Comptroller.

18.13 Waiver Remedies. No delay or forbearance on the part of any party in exercising any right, power or privilege must operate as a waiver of it, nor does any waiver of any right, power or privilege operate as a waiver of any other right, power or privilege, nor does any single or partial exercise of any right, power or privilege preclude any other or further exercise of it or of any other right, power or privilege. No waiver is effective unless made in writing and executed by the party to be bound by it. The rights and remedies provided for in this Agreement are cumulative and are not exclusive of any rights or remedies that the parties otherwise may have at law, in equity or both, except that the City will not be liable to Licensee for any consequential damages whatsoever related to this Agreement.

18.14 Authority of Commissioner. Unless otherwise expressly stated in this Agreement, any consents and approvals to be given by the City under this Agreement may be made and given by the Commissioner or by such other person as may be duly authorized by the City Council, unless the context clearly indicates otherwise.

18.15 Estoppel Certificate. From time to time upon not less than fifteen (15) days prior request by the other party, a party or its duly authorized representative having knowledge of the following facts, will execute and deliver to the requesting party a statement in writing certifying as to matters concerning the status of this Agreement and the parties' performance under this Agreement, including the following:

- (a) that this Agreement is unmodified and in full force and effect (or if there have been modifications, a description of the modifications and that the Agreement as modified is in full force and effect);
- (b) the dates to which Rental, including Additional Rental, have been paid and the amounts of the Rental most recently paid;
- (c) that the requesting party is not in default under any provision of this Agreement, or, if in default, the nature of it in detail;
- (d) that, to its knowledge, the requesting party has completed all required improvements in accordance with the terms of this Agreement, and Licensee is in occupancy and paying Rental on a current basis with no offsets or claims; and
- (e) in the case of the City's request under this Agreement, such further matters as may be reasonably requested by the City, it being intended that any such statement may be relied upon by third parties.

18.16 No Personal Liability. Neither City nor Licensee, shall charge any elected or appointed official, agent, or employee of the City or Licensee personally or seek to hold him or her personally or contractually liable for any liability or expenses of defense under any provision of this Agreement or because of any breach of its provisions or because of his or her execution, approval, or attempted execution of this Agreement.

18.17 Limitation of City's Liability. Licensee and Contractors must make no claims against the City for damages, charges, additional costs or fees or any lost profits or costs incurred by reason of delays or hindrances by the City in the performance of its obligations under this Agreement. All Licensee, SubLicensees, and Contractor personal property upon the Premises or upon any other part of the Airport, is at the risk of Licensee, SubLicensees, or Contractor respectively only, and the City is not liable for any loss or damage to it or theft of it or from it. The City is not liable or responsible to Licensee, its SubLicensees or Contractors, and Licensee waives, and will cause its SubLicensees and Contractors likewise to waive, to the fullest extent permitted by law, all claims against the City for any loss or damage or inconvenience to any property or person or any lost profits any or all of which may have been occasioned by or arisen out of any event or circumstance, including theft, fire, act of God, public enemy, injunction, riot, strike, insurrection, war, court order, requisition or order of governmental body or authority, or water leakage, steam, excessive heat or cold, falling plaster, or broken glass; or any act or neglect of the City or any occupants of the Airport, including the Terminal or the Premises, or repair or alteration of any part of the Airport, or failure to make any such repairs or any other thing or circumstance, whether of a like nature or a wholly different nature. If the City fails to perform any covenant or condition of this Agreement that the City is required to perform and, notwithstanding the foregoing, Licensee recovers a money judgment against the City, the judgment must be satisfied only out of credit against the Rent and other monies payable by Licensee to the City under this Agreement, and the City is not liable for any deficiency except to the extent provided in this Agreement and to the extent that there are legally available Airport funds.

18.18 Joint and Several Liability. If Licensee, or its successors or assigns, if any, is comprised of more than one individual or other legal entity (or a combination of them), then in that event, each and every obligation or undertaking stated in this Agreement to be fulfilled or performed by Licensee is the joint and several obligation or undertaking of each such individual or other legal entity.

18.19 Non-Recordation. Licensee must not record or permit to be recorded on its behalf this Agreement or a memorandum of this Agreement, in any public office.

18.20 Survival. Any and all provisions set forth in this Agreement that, by its or their nature, would reasonably be expected to be performed after the expiration or termination of this Agreement survive and are enforceable after the expiration or termination. Any and all liabilities, actual or contingent, that have arisen in connection with this Agreement, survive any expiration or termination of this Agreement. Any express statement of survival contained in any section must not be construed to affect the survival of any other section, which must be determined under this Section.

18.21 Force Majeure. Neither party is liable for non-performance of obligations under this Agreement due to Force Majeure. As a condition to obtaining an extension of the period to perform its obligations under this Agreement, the party seeking such extension due to a Force Majeure must notify the other party within twenty (20) days after the occurrence of the Force Majeure. The notice must specify the nature of the delay or interruption and the period of time contemplated or necessary for performance. The foregoing notwithstanding, however, in no

event will Licensee be entitled to an extension of more than ninety (90) days due to a Force Majeure, without the express written consent of the Commissioner.

IN WITNESS WHEREOF, the City and the Licensee have hereto set their duly authorized hand and seals as of the date set forth above.

CONSTRUCTION CONTRACTS**

**I. Policy and Terms**

As set forth in 2-92-650 *et seq.* of the Municipal Code of Chicago (MCC) it is the policy of the City of Chicago that businesses certified as Minority Owned Business Enterprises (MBEs) and Women Owned Business Enterprises (WBEs) in accordance with Section 2-92-420 *et seq.* of the MCC and Regulations Governing Certification of Minority and Women-owned Businesses, and all other Regulations promulgated under the aforementioned sections of the Municipal Code, as well as MBEs and WBEs certified by Cook County, Illinois, shall have full and fair opportunities to participate fully in the performance of this contract. Therefore, bidders shall not discriminate against any person or business on the basis of race, color, national origin, or sex, and shall take affirmative actions to ensure that MBEs and WBEs shall have full and fair opportunities to compete for and perform subcontracts for supplies or services.

Failure to carry out the commitments and policies set forth herein shall constitute a material breach of contract and may result in the termination of the contract or such remedy as the City of Chicago deems appropriate.

Under the City's MBE/WBE Construction program as set forth in MCC 2-92-650 *et seq.* the program-wide aspirational goals are 25% Minority Owned Business Enterprise participation and 5% Women Owned Business Enterprise participation. The City has set goals of 25% and 5% on all contracts in line with its overall aspirational goals, unless otherwise specified herein, and is requiring that bidders make a good faith effort in meeting or exceeding these goals.

**Contract Specific Goals and Bids**

A bid may be rejected as non-responsive if it fails to submit one or more of the following with its bid demonstrating its good faith efforts to meet the Contract Specific Goals by reaching out to MBEs and WBEs to perform work on the contract:

- A. An MBE/WBE compliance plan demonstrating how the bidder plans to meet the Contract Specific Goals (Schedule D); and/or
- B. Documentation of Good Faith Efforts (Schedule H).

If a bidder's compliance plan falls short of the Contract Specific Goals, the bidder must include either a Schedule H demonstrating that it has made Good Faith Efforts to find MBE and WBE firms to participate or a request for a reduction or waiver of the goals.

Accordingly, the bidder or contractor commits to make good faith efforts to expend at least the following percentages of the total contract price (inclusive of any and all modifications and amendments), if awarded the contract:

**MBE Contract Specific Goal: 25%**  
**WBE Contract Specific Goal: 5%**

This Contract Specific Goal provision shall supersede any conflicting language or provisions that may be contained in this document.

For purposes of evaluating the bidder's responsiveness, the MBE and WBE Contract Specific Goals shall be percentages of the bidder's total base bid. However, the MBE and WBE Contract Specific Goals shall apply to the total value of this contract, including all amendments and modifications.

#### **Contract Specific Goals and Contract Modifications**

1. The MBE and WBE Contract Specific Goals established at the time of contract bid shall also apply to any modifications to the Contract after award. That is, any additional work and/or money added to the Contract must also adhere to these Special Conditions requiring Contractor to (sub)contract with MBEs and WBEs to meet the Contract Specific Goals.
  - a. Contractor must assist the Construction Manager or user Department in preparing its "proposed contract modification" by evaluating the subject matter of the modification and determining whether there are opportunities for MBE or WBE participation and at what rates.
  - b. Contractor must produce a statement listing the MBEs/WBEs that will be utilized on any contract modification. The statement must include the percentage of utilization of the firms. If no MBE/WBE participation is available, an explanation of good faith efforts to obtain participation must be included.
2. The Chief Procurement Officer shall review each proposed contract modification and amendment that by itself or aggregated with previous modification/amendment requests, increases the contract value by ten percent (10%) of the initial award, or \$50,000, whichever is less, for opportunities to increase the participation of MBEs or WBEs already involved in the Contract.

## **II. Definitions**

"Area of Specialty" means the description of a MBE's or WBE's activity that has been determined by the Chief Procurement Officer to be most reflective of the firm's claimed specialty or expertise. Each MBE and WBE letter of certification contains a description of the firm's Area of Specialty. Credit toward the Contract Specific Goals shall be limited to the participation of firms performing within their Area of Specialty. The Department of Procurement Services does not make any representation concerning the ability of any MBE or WBE to perform work within its Area of Specialty. It is the responsibility of the bidder or contractor to determine the capability and capacity of MBEs and WBEs to perform the work proposed.

"B.E.P.D." means an entity certified as a Business enterprise owned or operated by people with disabilities as defined in MCC 2-92-586.

"Broker" means a person or entity that fills orders by purchasing or receiving supplies from a third party supplier rather than out of its own existing inventory and provides no commercially useful function other than acting as a conduit between his or her supplier and his or her customer.

"Chief Procurement Officer" or "CPO" means the chief procurement officer of the City of Chicago or his or her designee.

"Commercially Useful Function" means responsibility for the execution of a distinct element of the work of the contract, which is carried out by actually performing, managing, and supervising the work involved, evidencing the responsibilities and risks of a business owner such as negotiating the terms of (sub)contracts, taking on a financial risk commensurate with the contract or its subcontract, responsibility for acquiring the appropriate lines of credit and/or loans, or fulfilling responsibilities as a joint venture partner as described in the joint venture agreement.

"Construction Contract" means a contract, purchase order or agreement (other than lease of real property) for the construction, repair, or improvement of any building, bridge, roadway, sidewalk, alley, railroad or other structure or infrastructure, awarded by any officer or agency of the City, other than the City Council, and whose cost is to be paid from City funds.

"Contract Specific Goals" means the subcontracting goals for MBE and WBE participation established for a particular contract.

"Contractor" means any person or business entity that has entered into a construction contract with the City, and includes all partners, affiliates and joint ventures of such person or entity.

"Direct Participation" the value of payments made to MBE or WBE firms for work that is done in their Area of Specialty directly related to the performance of the subject matter of the Construction Contract will count as Direct Participation toward the Contract Specific Goals.

"Directory" means the Directory of Minority Business MBEs and WBEs maintained and published by the Chief Procurement Officer. The Directory identifies firms that have been certified as MBEs and WBEs, and includes the date of their last certifications and the areas of specialty in which they have been certified. Bidders and contractors are responsible for verifying the current certification status of all proposed MBEs and WBEs.

"Executive Director" means the executive director of the Office of Compliance or his or her designee.

"Good Faith Efforts" means actions undertaken by a bidder or contractor to achieve a Contract Specific Goal that, by their scope, intensity, and appropriateness to the objective, can reasonably be expected to fulfill the program's requirements.

"Joint venture" means an association of a MBE or WBE firm and one or more other firms to carry out a single, for-profit business enterprise, for which each joint venture partner contributes property, capital, efforts, skills and knowledge, and in which the MBE or WBE is responsible for a distinct, clearly defined portion of the work of the contract and whose share in the capital contribution, control, management, risks, and profits of the joint venture are commensurate with its ownership interest.

"Minority Business Enterprise" or "MBE" means a firm awarded certification as a minority owned and controlled business in accordance with City Ordinances and Regulations as

well as a firm awarded certification as a minority owned and controlled business by Cook County, Illinois.

"Supplier" or "Distributor" refers to a company that owns, operates, or maintains a store, warehouse or other establishment in which materials, supplies, articles or equipment are bought, kept in stock and regularly sold or leased to the public in the usual course of business. A regular distributor or supplier is a firm that owns, operates, or maintains a store, warehouse, or other establishment in which the materials or supplies required for performance of the Contract are bought, kept in stock, and regularly sold to the public in the usual course of business. To be a regular distributor the firm must engage in, as its principal business and in its own name, the purchase and sale of the products in question. A regular distributor in such bulk items as steel, cement, gravel, stone, and petroleum products need not keep such products in stock if it owns or operates distribution equipment.

"Women Business Enterprise" or "WBE" means a firm awarded certification as a women owned and controlled business in accordance with City Ordinances and Regulations as well as a firm awarded certification as a women owned business by Cook County, Illinois.

### **III. Joint Ventures**

The formation of joint ventures to provide MBEs and WBEs with capacity and experience at the prime contracting level, and thereby meet Contract Specific Goals (in whole or in part) is encouraged. A joint venture may consist of any combination of MBEs, WBEs, and non-certified firms as long as one member is an MBE or WBE.

A. The joint venture may be eligible for credit towards the Contract Specific Goals only if:

1. The MBE or WBE joint venture partner's share in the capital contribution, control, management, risks and profits of the joint venture is equal to its ownership interest;
2. The MBE or WBE joint venture partner is responsible for a distinct, clearly defined portion of the requirements of the contract for which it is at risk;
3. Each joint venture partner executes the bid to the City; and
4. The joint venture partners have entered into a written agreement specifying the terms and conditions of the relationship between the partners and their relationship and responsibilities to the contract, and all such terms and conditions are in accordance with the conditions set forth in Items 1, 2, and 3 above in this Paragraph A.

B. The Chief Procurement Officer shall evaluate the proposed joint venture agreement, the Schedule B submitted on behalf of the proposed joint venture, and all related documents to determine whether these requirements have been satisfied. The Chief Procurement Officer shall also consider the record of the joint venture partners on other City of Chicago contracts. The decision of the Chief Procurement Officer

regarding the eligibility of the joint venture for credit towards meeting the Contract Specific Goals, and the portion of those goals met by the joint venture, shall be final.

The joint venture may receive MBE or WBE credit for work performed by the MBE or WBE joint venture partner(s) equal to the value of work performed by the MBE or WBE with its own forces for a distinct, clearly defined portion of the work.

Additionally, if employees of the joint venture entity itself (as opposed to employees of the MBE or WBE partner) perform the work then the value of the work may be counted toward the Contract Specific Goals at a rate equal to the MBE or WBE firm's percentage of participation in the joint venture as described in Schedule B.

The Chief Procurement Officer may also count the dollar value of work subcontracted to other MBEs and WBEs. Work performed by the forces of a non-certified joint venture partner shall not be counted toward the Contract Specific Goals.

**C. Schedule B: MBE/WBE Affidavit of Joint Venture**

Where the bidder's Compliance Plan includes the participation of any MBE or WBE as a joint venture partner, the bidder must submit with its bid a Schedule B and the proposed joint venture agreement. These documents must both clearly evidence that the MBE or WBE joint venture partner(s) will be responsible for a clearly defined portion of the work to be performed, and that the MBE's or WBE's responsibilities and risks are proportionate to its ownership percentage. The proposed joint venture agreement must include specific details related to:

1. The parties' contributions of capital, personnel, and equipment and share of the costs of insurance and bonding;
2. Work items to be performed by the MBE's or WBE's own forces and/or work to be performed by employees of the newly formed joint venture entity;
3. Work items to be performed under the supervision of the MBE or WBE joint venture partner; and
4. The MBE's or WBE's commitment of management, supervisory, and operative personnel to the performance of the contract.

**NOTE:** Vague, general descriptions of the responsibilities of the MBE or WBE joint venture partner do not provide any basis for awarding credit. For example, descriptions such as "participate in the budgeting process," "assist with hiring," or "work with managers to improve customer service" do not identify distinct, clearly defined portions of the work. Roles assigned should require activities that are performed on a regular, recurring basis rather than as needed. The roles must also be pertinent to the nature of the business for which credit is being sought. For instance, if the scope of work required by the City entails the delivery of goods or services to various sites in the City, stating that the MBE or WBE joint venture partner will be responsible for the performance of all routine maintenance and all repairs required to the vehicles used to deliver such goods or services is pertinent to the nature of the business for which credit is being sought.

**IV. Counting MBE and WBE Participation Towards the Contract Specific Goals**

Refer to this section when preparing the MBE/WBE compliance plan and completing Schedule D-1 for guidance on what value of the participation by MBEs and WBEs will be counted toward the stated Contract Specific Goals. The "Percent Amount of Participation" depends on whether and with whom a MBE or WBE subcontracts out any portion of its work and other factors.

**Firms that are certified as both MBE and WBE may only be listed on a bidder's compliance plan as either a MBE or a WBE to demonstrate compliance with the Contract Specific Goals.** For example, a firm certified as both a MBE and a WBE may only listed on the bidder's compliance plan under one of the categories, but not both. Additionally, a firm that is certified as both a MBE and a WBE could not self-perform 100% of a contract, it would have to show good faith efforts to meet the Contract Specific Goals by including in its compliance plan work to be performed by another MBE or WBE firm, depending on which certification that dual-certified firm chooses to count itself as.

- A. Only expenditures to firms that perform a **Commercially Useful Function** as defined above may count toward the Contract Specific Goals.
  - 1. The CPO will determine whether a firm is performing a commercially useful function by evaluating the amount of work subcontracted, whether the amount the firm is to be paid under the contract is commensurate with the work it is actually performing and the credit claimed for its performance of the work, industry practices, and other relevant factors.
  - 2. A MBE or WBE does not perform a commercially useful function if its participation is only required to receive payments in order to obtain the appearance of MBE or WBE participation. The CPO may examine similar commercial transactions, particularly those in which MBEs or WBEs do not participate, to determine whether non MBE and non WBE firms perform the same function in the marketplace to make a determination.
- B. Only the value of the dollars paid to the MBE or WBE firm for work that it performs in its **Area of Specialty** in which it is certified counts toward the Contract Specific Goals.

**Only payments made to MBE and WBE firms that meet BOTH the Commercially Useful Function and Area of Specialty requirements above will be counted toward the Contract Specific Goals.**

- C. If the MBE or WBE performs the work itself:
  - 1. 100% of the value of work actually performed by the MBE's or WBE's own forces shall be counted toward the Contract Specific Goals, including the cost of supplies purchased or equipment leased by the MBE or WBE from third parties or second tier subcontractors in order to perform its (sub)contract with its own forces. 0% of the value of work at the project site that a MBE or WBE subcontracts to a non-certified firm counts toward the Contract Specific Goals
- D. If the MBE or WBE is a manufacturer:
  - 1. 100% of expenditures to a MBE or WBE manufacturer for items needed for the Contract shall be counted toward the Contract Specific Goals. A manufacturer is

a firm that operates or maintains a factory or establishment that produces on the premises the materials or supplies obtained by the bidder or contractor.

- E. If the MBE or WBE is a distributor or supplier:
  - 1. 60% of expenditures for materials and supplies purchased from a MBE or WBE that is certified as a regular dealer or supplier shall be counted toward the Contract Specific Goals.
- F. If the MBE or WBE is a broker:
  - 1. 0% of expenditures paid to brokers will be counted toward the Contract Specific Goals.
  - 2. As defined above, Brokers provide no commercially useful function.
- G. If the MBE or WBE is a member of the joint venture contractor/bidder:
  - 1. A joint venture may count the portion of the total dollar value of the contract equal to the distinct, clearly defined portion of the work of the contract that the MBE or WBE performs with its own forces toward the Contract Specific Goals.
    - i. OR if employees of this distinct joint venture entity perform the work then the value of the work may be counted toward the Contract Specific Goals at a rate equal to the MBE or WBE firm's percentage of participation in the joint venture as described in Schedule B.
  - 2. Note: a joint venture may also count the dollar value of work subcontracted to other MBEs and WBEs, however, work subcontracted out to non-certified firms may not be counted.
- H. If the MBE or WBE subcontracts out any of its work:
  - 1. 100% of the value of the work subcontracted to other MBEs or WBEs performing work in its Area of Specialty may be counted toward the Contract Specific Goals.
  - 2. 0% of the value of work that a MBE or WBE subcontracts to a non-certified firm counts toward the Contract Specific Goals (except for the cost of supplies purchased or equipment leased by the MBE or WBE from third parties or second tier subcontractors in order to perform its (sub)contract with its own forces as allowed by C.1. above).
  - 3. The fees or commissions charged for providing a *bona fide* service, such as professional, technical, consulting or managerial services or for providing bonds or insurance or the procurement of essential personnel, facilities, equipment, materials or supplies required for performance of the Contract, may be counted toward the Contract Specific Goals, provided that the fee or commission is determined by the Chief Procurement Officer to be reasonable and not excessive as compared with fees customarily allowed for similar services.
  - 4. The fees charged for delivery of materials and supplies required on a job site (but not the cost of the materials and supplies themselves) when the hauler, trucker, or delivery service is not also the manufacturer of or a regular dealer in the materials and supplies, provided that the fee is determined by the Chief Procurement Officer to be reasonable and not excessive as compared with fees customarily allowed for similar services.
  - 5. The fees or commissions charged for providing any bonds or insurance, but not the cost of the premium itself, specifically required for the performance of the Contract, provided that the fee or commission is determined by the Chief Procurement Officer to be reasonable and not excessive as compared with fees customarily allowed for similar services.

**V. Procedure to Determine Bid Compliance**

The following Schedules and requirements govern the bidder's or contractor's MBE/WBE proposal:

**A. Schedule B: MBE/WBE Affidavit of Joint Venture**

1. Where the bidder's Compliance Plan includes the participation of any MBE or WBE as a joint venture partner, the bidder must submit with its bid a Schedule B and the proposed joint venture agreement. See Section III above for detailed requirements.

**B. Schedule C: MBE/WBE Letter of Intent to Perform as a Subcontractor or Supplier**

The bidder must submit the appropriate Schedule C with the bid for each MBE and WBE included on the Schedule D. The City encourages subcontractors to utilize the electronic fillable format Schedule C, which is available at the Department of Procurement Services website, <http://cityofchicago.org/forms>. Suppliers must submit the Schedule C for Suppliers, first tier subcontractors must submit a Schedule C for Subcontractors to the Prime Contractor and second or lower tier subcontractors must submit a Schedule C for second tier Subcontractors. Each Schedule C must accurately detail the work to be performed by the MBE or WBE and the agreed upon rates/prices. Each Schedule C must also include a separate sheet as an attachment on which the MBE or WBE fully describes its proposed scope of work, including a description of the commercially useful function being performed by the MBE or WBE in its Area of Specialty. If a facsimile copy of the Schedule C has been submitted with the bid, an executed original Schedule C must be submitted by the bidder for each MBE and WBE included on the Schedule D within five (5) business days after the date of the bid opening.

**C. Schedule D: Compliance Plan Regarding MBE and WBE Utilization**

The bidder must submit a Schedule D with the bid. The City encourages bidders to utilize the electronic fillable format Schedule D, which is available at the Department of Procurement Services website, <http://cityofchicago.org/forms>. An approved Compliance Plan is required before a contract may commence.

The Compliance Plan must commit to the utilization of each listed MBE and WBE. The bidder is responsible for calculating the dollar equivalent of the MBE and WBE Contract Specific Goals as percentages of the total base bid. All Compliance Plan commitments must conform to the Schedule Cs.

A bidder or contractor may not modify its Compliance Plan after bid opening except as directed by the Department of Procurement Services to correct minor errors or omissions. Bidders shall not be permitted to add MBEs or WBEs after bid opening to meet the Contract Specific Goals, however, contractors are encouraged to add additional MBE/WBE vendors to their approved compliance plan during the performance of the contract when additional opportunities for participation are identified. Except in cases where substantial, documented justification is provided, the bidder or contractor shall not reduce the dollar commitment made to any MBE or WBE in order to achieve conformity between the Schedule Cs and Schedule D. All

terms and conditions for MBE and WBE participation on the contract must be negotiated and agreed to between the bidder or contractor and the MBE or WBE prior to the submission of the Compliance Plan. If a proposed MBE or WBE ceases to be available after submission of the Compliance Plan, the bidder or contractor must comply with the provisions in Section VII.

**D. Letters of Certification**

A copy of each proposed MBE's and WBE's Letter of Certification from the City of Chicago or Cook County, Illinois, must be submitted with the bid.

A Letters of Certification includes a statement of the MBE's or WBE's area(s) of specialty. The MBE's or WBE's scope of work as detailed in the Schedule C must conform to its area(s) of specialty. Where a MBE or WBE is proposed to perform work not covered by its Letter of Certification, the MBE or WBE must request the addition of a new area at least 30 calendar days prior to the bid opening.

**E. Schedule F: Report of Subcontractor Solicitations**

A Schedule F must be submitted with the bid, documenting all subcontractors and suppliers solicited for participation on the contract by the bidder. Failure to submit the Schedule F may render the bid non-responsive.

**F. Schedule H: Documentation of Good Faith Efforts**

1. If a bidder determines that it is unable to meet the Contract Specific Goals, it must document its good faith efforts to do so, including the submission of Attachment C, Log of Contacts.
2. If the bidder's Compliance Plan demonstrates that it has not met the Contract Specific Goals in full or in part, the bidder must submit its Schedule H no later than three business days after notification by the Chief Procurement Officer of its status as the apparent lowest bidder. Failure to submit a complete Schedule H will cause the bid to be rejected as non-responsive.
3. Documentation must include but is not necessarily limited to:
  - a. A detailed statement of efforts to identify and select portions of work identified in the bid solicitation for subcontracting to MBEs and WBEs;
  - b. A listing of all MBEs and WBEs contacted for the bid solicitation that includes:
    - i. Names, addresses, emails and telephone numbers of firms solicited;
    - ii. Date and time of contact;
    - iii. Person contacted;
    - iv. Method of contact (letter, telephone call, facsimile, electronic mail, etc.).
  - c. Evidence of contact, including:
    - i. Project identification and location;

- ii. Classification/commodity of work items for which quotations were sought;
  - iii. Date, item, and location for acceptance of subcontractor bids;
  - iv. Detailed statements summarizing direct negotiations with appropriate MBEs and WBEs for specific portions of the work and indicating why agreements were not reached.
  - v. Bids received from all subcontractors.
- d. Documentation of bidder or contractor contacts with at least one of the minority and women assistance associations on Attachment A.
- G. Agreements between a bidder or contractor and a MBE or WBE in which the MBE or WBE promises not to provide subcontracting quotations to other bidders or contractors are prohibited.
- H. Prior to award, the bidder agrees to promptly cooperate with the Department of Procurement Services in submitting to interviews, allowing entry to places of business, providing further documentation, or soliciting the cooperation of a proposed MBE or WBE. Failure to cooperate may render the bid non-responsive.
- I. If the City determines that the Compliance Plan contains minor errors or omissions, the bidder or contractor must submit a revised Compliance Plan within five (5) business days after notification by the City that remedies the minor errors or omissions. Failure to correct all minor errors or omissions may result in the determination that a bid is non-responsive.
- J. No later than three (3) business days after receipt of the executed contract, the contractor must execute a complete subcontract agreement or purchase order with each MBE and WBE listed in the Compliance Plan. No later than eight (8) business days after receipt of the executed contract, the contractor must provide copies of each signed subcontract, purchase order, or other agreement to the Department of Procurement Services.

**VI. Demonstration of Good Faith Efforts**

- A. In evaluating the Schedule H to determine whether the bidder or contractor has made good faith efforts, the performance of other bidders or contractors in meeting the goals may be considered.
- B. The Chief Procurement Officer shall consider, at a minimum, the bidder's efforts to:
  - 1. Solicit through reasonable and available means at least 50% (or at least five when there are more than eleven certified firms in the commodity area) of MBEs and WBEs certified in the anticipated scopes of subcontracting of the contract, as documented by the Schedule H. The bidder or contractor must solicit MBEs and WBEs within seven (7) days prior to the date bids are due. The bidder or contractor must take appropriate steps to follow up initial solicitations with interested MBEs or WBEs.
  - 2. Advertise the contract opportunities in media and other venues oriented toward MBEs and WBEs.

3. Provide interested MBEs or WBEs with adequate information about the plans, specifications, and requirements of the contract, including addenda, in a timely manner to assist them in responding to the solicitation.
  4. Negotiate in good faith with interested MBEs or WBEs that have submitted bids. That there may be some additional costs involved in soliciting and using MBEs and WBEs is not a sufficient reason for a bidder's failure to meet the Contract Specific Goals, as long as such costs are reasonable.
  5. Not reject MBEs or WBEs as being unqualified without sound reasons based on a thorough investigation of their capabilities. The MBE's or WBE's standing within its industry, membership in specific groups, organizations, or associations and political or social affiliations are not legitimate causes for rejecting or not soliciting bids to meet the Contract Specific Goals.
  6. Make a portion of the work available to MBE or WBE subcontractors and suppliers and selecting those portions of the work or material consistent with the available MBE or WBE subcontractors and suppliers, so as to facilitate meeting the Contract Specific Goals.
  7. Make good faith efforts, despite the ability or desire of a bidder or contractor to perform the work of a contract with its own organization. A bidder or contractor who desires to self-perform the work of a contract must demonstrate good faith efforts unless the Contract Specific Goals have been met.
  8. Select portions of the work to be performed by MBEs or WBEs in order to increase the likelihood that the goals will be met. This includes, where appropriate, breaking out contract work items into economically feasible units to facilitate MBE or WBE participation, even when the bidder or contractor might otherwise prefer to perform these work items with its own forces.
  9. Make efforts to assist interested MBEs or WBEs in obtaining bonding, lines of credit, or insurance as required by the City or bidder or contractor.
  10. Make efforts to assist interested MBEs or WBEs in obtaining necessary equipment, supplies, materials, or related assistance or services; and
  11. Effectively use the services of the City; minority or women community organizations; minority or women assistance groups; local, state, and federal minority or women business assistance offices; and other organizations to provide assistance in the recruitment and placement of MBEs or WBEs.
- C. If the bidder disagrees with the City's determination that it did not make good faith efforts, the bidder may file a protest pursuant to the Department of Procurement Services Solicitation and Contracting Process Protest Procedures within 10 business days of a final adverse decision by the Chief Procurement Officer.

VII. Changes to Compliance Plan

- A. No changes to the Compliance Plan or contractual MBE and WBE commitments or substitution of MBE or WBE subcontractors may be made without the prior written approval of the Chief Procurement Officer. Unauthorized changes or substitutions, including performing the work designated for a subcontractor with the contractor's own forces, shall be a violation of these Special Conditions and a breach of the contract with the City, and may cause termination of the executed Contract for breach, and/or subject the bidder or contractor to contract remedies or other sanctions. The facts supporting the request for changes must not have been known nor reasonably could have been known by the parties prior to entering into the subcontract. Bid shopping is prohibited. The bidder or contractor must negotiate with the subcontractor to resolve the problem. If requested by either party, the Department of Procurement Services shall facilitate such a meeting. Where there has been a mistake or disagreement about the scope of work, the MBE or WBE can be substituted only where an agreement cannot be reached for a reasonable price for the correct scope of work.
- B. Substitutions of a MBE or WBE subcontractor shall be permitted only on the following basis:
1. Unavailability after receipt of reasonable notice to proceed;
  2. Failure of performance;
  3. Financial incapacity;
  4. Refusal by the subcontractor to honor the bid or proposal price or scope;
  5. Mistake of fact or law about the elements of the scope of work of a solicitation where a reasonable price cannot be agreed;
  6. Failure of the subcontractor to meet insurance, licensing or bonding requirements;
  7. The subcontractor's withdrawal of its bid or proposal; or
  8. De-certification of the subcontractor as a MBE or WBE. (Graduation from the MBE/WBE program does not constitute de-certification.
- C. If it becomes necessary to substitute a MBE or WBE or otherwise change the Compliance Plan, the procedure will be as follows:
1. The bidder or contractor must notify the Chief Procurement Officer in writing of the request to substitute a MBE or WBE or otherwise change the Compliance Plan. The request must state specific reasons for the substitution or change. A letter from the MBE or WBE to be substituted or affected by the change stating that it cannot perform on the contract or that it agrees with the change in its scope of work must be submitted with the request.
  2. The City will approve or deny a request for substitution or other change within 15 business days of receipt of the request.
  3. Where the bidder or contractor has established the basis for the substitution to the satisfaction of the Chief Procurement Officer, it must make good faith efforts to meet the Contract Specific Goal by substituting a MBE or WBE subcontractor. Documentation of a replacement MBE or WBE, or of good faith efforts, must meet the requirements in sections V and VI. If the MBE or WBE Contract Specific Goal cannot be reached and good faith efforts have

been made, as determined by the Chief Procurement Officer, the bidder or contractor may substitute with a non-MBE or non-WBE.

4. If a bidder or contractor plans to hire a subcontractor for any scope of work that was not previously disclosed in the Compliance Plan, the bidder or contractor must obtain the approval of the Chief Procurement Officer to modify the Compliance Plan and must make good faith efforts to ensure that MBEs or WBEs have a fair opportunity to bid on the new scope of work.
  5. A new subcontract must be executed and submitted to the Chief Procurement Officer within five business days of the bidder's or contractor's receipt of City approval for the substitution or other change.
- D. The City shall not be required to approve extra payment for escalated costs incurred by the contractor when a substitution of subcontractors becomes necessary to comply with MBE/WBE contract requirements.

**VIII. Reporting and Record Keeping**

- A. During the term of the contract, the contractor and its non-certified subcontractors must submit partial and final waivers of lien from MBE and WBE subcontractors that show the accurate cumulative dollar amount of subcontractor payments made to date. Upon acceptance of the Final Quantities from the City of Chicago, FINAL certified waivers of lien from the MBE and WBE subcontractors must be attached to the contractor's acceptance letter and forwarded to the Department of Procurement Services, Attention: Chief Procurement Officer.
- B. The contractor will be responsible for reporting payments to all subcontractors on a monthly basis in the form of an electronic audit. Upon the first payment issued by the City of Chicago to the contractor for services performed, on the first day of each month and every month thereafter, email and/or fax audit notifications will be sent out to the contractor with instructions to report payments that have been made in the prior month to each MBE and WBE. The reporting of payments to all subcontractors must be entered into the Certification and Compliance Monitoring System (C2), or whatever reporting system is currently in place, on or before the fifteenth (15<sup>th</sup>) day of each month.

Once the prime contractor has reported payments made to each MBE and WBE, including zero dollar amount payments, the MBE and WBE will receive an email and/or fax notification requesting them to log into the system and confirm payments received. All monthly confirmations must be reported on or before the 20<sup>th</sup> day of each month. Contractor and subcontractor reporting to the C2 system must be completed by the 25<sup>th</sup> of each month or payments may be withheld.

All subcontract agreements between the contractor and MBE/WBE firms or any first tier non-certified firm and lower tier MBE/WBE firms must contain language requiring the MBE/WBE to respond to email and/or fax notifications from the City of Chicago requiring them to report payments received for the prime or the non-certified firm.

Access to the Certification and Compliance Monitoring System (C2), which is a web based reporting system, can be found at: <http://chicago.mwdbe.com>

- C. The Chief Procurement Officer or any party designated by the, Chief Procurement Officer shall have access to the contractor's books and records, including without limitation payroll records, tax returns and records and books of account, to determine the contractor's compliance with its commitment to MBE and WBE participation and the status of any MBE or WBE performing any portion of the contract. This provision shall be in addition to, and not a substitute for, any other provision allowing inspection of the contractor's records by any officer or official of the City for any purpose.
- D. The contractor shall maintain records of all relevant data with respect to the utilization of MBEs and WBEs, retaining these records for a period of at least five years after final acceptance of the work. Full access to these records shall be granted to City, federal or state authorities or other authorized persons.

**IX. Non-Compliance**

- A. Without limitation, the following shall constitute a material breach of this contract and entitle the City to declare a default, terminate the contract, and exercise those remedies provided for in the contract at law or in equity: (1) failure to demonstrate good faith efforts; and (2) disqualification as a MBE or WBE of the contractor or any joint venture partner, subcontractor or supplier if its status as an MBE or WBE was a factor in the award of the contract and such status was misrepresented by the contractor.
- B. Payments due to the contractor may be withheld until corrective action is taken.
- C. Pursuant to 2-92-740, remedies or sanctions may include disqualification from contracting or subcontracting on additional City contracts for up to three years, and the amount of the discrepancy between the amount of the commitment in the Compliance Plan, as such amount may be amended through change orders or otherwise over the term of the contract, and the amount paid to MBEs or WBEs. The consequences provided herein shall be in addition to any other criminal or civil liability to which such entities may be subject.
- D. The contractor shall have the right to protest the final determination of non-compliance and the imposition of any penalty by the Chief Procurement Officer pursuant to 2-92-740 of the Municipal Code of the City of Chicago, within 15 business days of the final determination.

If the City determines that a contractor has not made good faith efforts to fulfill its Compliance Plan, the affected MBE or WBE may recover damages from the contractor.

Disputes between the contractor and the MBE or WBE shall be resolved by binding arbitration before the American Arbitration Association (AAA), with reasonable expenses, including attorney's fees and arbitrator's fees, being recoverable by a

prevailing MBE or WBE. Participation in such arbitration is a material provision of the Construction Contract to which these Special Conditions are an Exhibit. This provision is intended for the benefit of any MBE or WBE affected by the contractor's failure to fulfill its Compliance Plan and grants such entity specific third party beneficiary rights. These rights are non-waivable and take precedence over any agreement to the contrary, including but not limited to those contained in a subcontract, suborder, or communicated orally between a contractor and a MBE or WBE. Failure by the Contractor to participate in any such arbitration is a material breach of the Construction Contract.

A MBE or WBE seeking arbitration shall serve written notice upon the contractor and file a demand for arbitration with the AAA in Chicago, IL. The dispute shall be arbitrated in accordance with the Commercial Arbitration Rules of the AAA. All arbitration fees are to be paid *pro rata* by the parties.

The MBE or WBE must copy the City on the Demand for Arbitration within 10 business days after filing with the AAA. The MBE or WBE must copy the City on the arbitrator's decision within 10 business days of receipt of the decision. Judgment upon the arbitrator's award may be entered in any court of competent jurisdiction.

**XI. Equal Employment Opportunity**

Compliance with MBE and WBE requirements will not diminish or supplant equal employment opportunity and civil rights provisions as required by law related to bidder or contractor and subcontractor obligations.

## Introduction

Overview: "The Unique Design Character of Chicago"

The purpose of these Concessionaire Design Guidelines (CDG) is to communicate an overall design intent and to provide quality, material, signage, lighting and system standards for concessions development at Midway International Airport (MDW).

The design intent is to produce concession spaces that capture an experience comparable to strolling through Chicago, using creative ways to construct a pleasant and notable experience for travelers. The concession spaces should be designed to evoke identifiable architectural elements that reflect the vitality of Chicago's vibrant architecture, diversity, rich heritage and innovation.

It is the Concessionaire's responsibility to field verify all existing conditions and to confirm the location of all built elements, utilities and building systems within or impacted by the Concessionaire's space.

All work shall be accomplished using only new materials of uniformly high quality and shall be performed in accordance with the very best standards of practice, applicable laws, codes and regulations having jurisdiction and shall be subject to The Chicago Department of Aviation (CDA) approval.

These Concessionaire Design Guidelines for MDW provide aesthetic guidance and technical information to the proposers for this Concession offering. These guidelines illustrate the minimum standards for the design component of the Concession Program.

## Introduction

### Mission Statement

Chicago Midway International Airport is one of the busiest airports in the United States, serving approximately 21 million passengers per year. Midway is owned by the City of Chicago and operated by the CDA. MDW is one of the fastest growing airports in North America.

#### Mission Statement:

The CDA aspires to deliver an exceptional, first class passenger experience using innovative, diverse and authentic expressions of Chicago's culture and spirit.

The design of a Concessionaire's space shall support these goals through imaginative design and first-rate implementation as outlined in this document. The CDA wants passengers to celebrate MDW's stature as a "Global Gateway" that's just a short commute to downtown Chicago.

MDW Concessionaires are encouraged to examine key aspects of the City's heritage, physical environment, cultural life, institutions, icons and monuments to express and celebrate the best of Chicago. Additionally, the City's nightlife, retail establishments, restaurants, and public festivals may be used to provide a framework within which retail facilities will become memorable and entertaining experiences.

Concession areas will include stores, restaurants, food court, kiosks, retail shopping, dining, lounge facilities and spa services.

Thus, MDW seeks to offer award-winning concessions and innovative technology to help its passengers travel smarter and faster, while providing opportunities for a memorable customer experience via a hospitality-inspired aesthetic and attitude.

## Design Intent

The design of storefronts and concession spaces should strike a balance between variety and consistency. Design concepts should produce a harmonious feel throughout the terminal. The design of all concession spaces must be respectful of the terminal architecture and not distract from the aesthetic intent of the Airport facilities and way-finding sign system. Concessionaire design must be consistent with the design guidelines and criteria embodied in this document.

The Concessionaire Design Guidelines (CDG) are a basic "set of rules" that the Concessionaire is required to work with and expand upon. These guidelines may be met by proposing contemporary design solutions that reflect the cosmopolitan character and sophistication of the City of Chicago. Designs should capture the "essence" and relay a variety of distinguished characteristics combined together to create the "The Unique Design Character of Chicago" experience.

The CDA, CDA's Point of Contact (CDA POC) and CDA Concessions (CDA-C) are committed to achieving the following goals with the Airport Retail Program. Throughout this CDG all references for the CDA review and approval will imply the CDA's POC review and recommendations to the CDA. Concessionaires will be required to implement concession design solutions consistent with these aims

- To create and provide innovative design that supports the Mission Statement, and will be clearly identified with Chicago domestically & internationally.
- To creatively plan concessions that are compatible with the airlines and CDA operational requirements and with passenger convenience. Concessions should be operationally efficient and demonstrate innovative in-unit storage.
- To create concessions which complement the architectural qualities of the airport and are compatible with adjacent tenancies.
- To incorporate environmentally sustainable design practices in the development and build out of concessions and comply with the CDA "Sustainable Airport Manual" (SAM™).

Concessionaires are required to follow and resources, the CDA and the CDA's POC are committed to achieving the following goals with the Airport Retail Program. Throughout this CDG all references for the CDA review and approval will imply the CDA's POC review and recommendations to the CDA. Concessionaires will be required to implement concession design solutions consistent with these aims

## Design Intent

### CDA Representation and Design Review

Questions and comments regarding the CDG and of procedures, as well as all tenant concession design submissions for review shall be directed to the CDA Representatives.

The CDA Representative will coordinate design reviews by various divisions of the CDA and any affected airline.

The CDA and its representatives will review each design submission on its individual merit, in the context of neighboring premises and Airport design standards. CDA reserves the right to require changes to, or reject elements of, the design.

All designs are reviewed and approved by the CDA.

The CDA will review the application received and may, at its sole discretion, agree to the upgrade, or require the Concessionaire to upgrade the affected base building at their expense.

## Design Guidelines

### Storefront & Design Control Zone

The Design Control Zone (DCZ) is a creative zone set just inside the storefront glazing or opening and will extend a depth of 4'-0" inside the store. This zone creates a visual break between MDW circulation and the display of merchandise.

Storefront materials should extend into the DCZ and complement both interior finishes and adjacent airport finishes. Mobile display merchandise or advertising will not be allowed in the public circulation zone.

An operable storefront system must be concealed and integrated into the design. Door covers must be clad with storefront finishes. Refer to Exhibit 3.2 for additional information.

Concessionaires are required to provide a fully, lockable closure to their premises to secure their store, and to comply with TSA requirements. Rolling or sliding closures are recommended. Closure should be decorative and translucent.

The closure line needs to occur within the Concessionaire's leased premise.

#### Design Considerations:

- Conceal doors during operating hours.
- Swinging frameless glass doors with top & bottom rails and pivot hinges.
- All door tracks are to be recessed.
- The floor grommets (for security grill) are to be flush with floor finish.
- Merchandise must be visible through the Concessionaire's closure.

#### Permitted Enclosure Types

- Sliding Glass Doors
- Swinging Glass Doors
- Rolling Shutter Doors

## Design Guidelines

### Storefront & Design Control Zone

#### Storefront & Design Control Zone Ceiling Construction and Access

The Concessionaire's ceiling within the DCZ must be constructed with the approved materials. There shall be no combustible materials in the ceiling space. Ceiling design shall incorporate access to all ceiling-mounted CDA and Concessionaire equipment requiring inspection and maintenance. The Concessionaire's designer shall determine the required sizes and locations of access points.

*Ceiling heights should be as high as permitted within Concessionaire spaces.*

#### Queuing

Queuing space should be thoughtfully integrated into the design approach. Food and beverage tenants are required to provide means to separate queuing from general circulation and seating. Concession patrons cannot queue into terminal areas or crowd into adjoining spaces.

#### Design Considerations:

- Concessionaires' designs should incorporate the horizontal and vertical lines established by the base building design, including window modules, stone joint lines etc.
- Concessionaire materials may not be attached to base building materials in any way. Bolted connections are not acceptable. Damage to base building finishes shall be repaired at the Concessionaire's expense.
- Lighting of the storefront should not compete with the base building lighting. Excessively high light levels are unacceptable. Neon is unacceptable.
- At new storefronts, it is recommended that a luggage guard rail be installed along the base of the wall to avoid damage and breakage. See Exhibit 3.1 for suggested details.

**Design Guidelines**

Interior Visual Quality: General

Concessions that are inviting, energize the airport experience. Travelers should be provided the highest level of comfort and control in an atmosphere that champions the environment without compromising style and functionality. In order to achieve these goals, the interior visual quality of tenant spaces must incorporate innovation along with high quality workmanship as well as high end, durable materials and finishes.

The use of graphics, detailing, dramatic lighting, color, fixtures and merchandising should be an integral part of the proposed design. Visual quality of retail display and ongoing maintenance must be considered. All Point of Sale (POS) counters, condiment counters, trash/recycling enclosures, and storage requirements must be carefully planned in order to reduce visual clutter.

Concessionaires shall provide a consistent image, signage and finishes package for the entire leased space. Concession spaces should aim to balance the needs of building performance with passenger experience. Concessionaires must develop design concepts that make it easy for passengers to navigate the space.

Sustainability features, lighting, natural greenery, and plants are key features into the design of the space.

**Design Considerations**

- 
- 
- 
- 
- 

*The application of brand prototypes will need to be considered. A standard prototypical store may not be allowed.*

## Design Guidelines

### Interior Visual Quality: Material & Finishes

*The retail and food/beverage concession interiors must project a high standard of design commensurate with the quality of store interiors found in leading upscale boutiques & shopping centers.*

Store designs must consider high-quality materials and finishes that can withstand high-volume / impact traffic settings: luggage carts, wheel chairs and commercial maintenance equipment. Finish materials up to 30" above the finish floor are susceptible to luggage cart damage and will be considered high-impact zones. Materials should be resistant to scratches, dents, chips and stains at storefront entries. Concessionaires are strongly encouraged to incorporate design and materials that will withstand abuse and maintain an attractive appearance.

Storefront entrances are highly encouraged to be designed with panelized joints / reveals and features that will allow damaged panels to be easily replaced when necessary. Large monolithic painted panels are not allowed.

Counter tops must be fabricated from solid surface or otherwise seamless materials (e.g., metal, natural or artificial stone).

## Design Guidelines

Interior Visual Quality: Material & Finishes

Materials & finishes should reflect the highest level of quality and detail.

The following sections identify materials that may be used in concessions at Midway. All materials must be non-combustible, fire resistant, and meet applicable codes.

Suggested storefront wall base materials are natural stone, tile or brushed stainless steel. Alternative materials that are not listed within these guidelines may be presented to CDA for approval.

*All thin clad materials must be fully adhered to stable substrate.*

*Materials that reveal their natural color and texture are highly encouraged.*

### Color and Texture Through Materials

The choice of color and materials is one of the most successful ways to achieve a strong relationship with the natural environment of Midway's concession design. Stone, polished concrete, metal and wood are all good examples of materials that fit this category.

A relationship to the natural environment & materials listed in this section can be achieved in a variety of ways.

## Design Guidelines

### Interior Visual Quality: Material & Finishes

#### Storefronts

Durable materials are required for flooring throughout retail and food & beverage areas. Natural stone should be installed with eased or chamfered edges and properly grouted and sealed per industry standards. These materials must maintain a *friction coefficient* of 0.6 when tested in accordance with ASTM C1028.

Where parts of the storefront are recessed behind the lease line, the floor area between the lease line and the storefront is considered part of the DCZ. Concessionaire floor finishes must align vertically with the common area floor finish. Perceived material edge or projections are not allowed. Common area floors may not align with the new Concessionaire's floor. The Concessionaire is responsible to install a common area floor transition to align with the Concessionaire's floor.

At the intersection of the airport flooring and the store interior flooring a thin (1/8" max) stainless steel (SS) separation strip will be allowed. No threshold, reducer strips, or other transition devices shall be permitted.

## Design Guidelines

### Interior Visual Quality: Materials & Finishes

#### Transitions

Merchandise and fixtures, when showcased properly, can enhance presentation and linger. Such features can guide or even inspire the design of the environment. Concessionaires are encouraged to provide unique and different experiences throughout the passengers' path. Customer focused design elements are recommended.

#### Design Considerations:

- Visual screens required for all pass through(s) between front public area and back of house zone to prevent direct views into back of house area
- Concessionaire must be familiar with existing conditions
- Provide durable surfaces at outside corners that receive heavy traffic use
- Doors are required between front of house and back kitchens and stock rooms
- Provide details to describe floor, wall, and ceiling transitions at adjacent Concessionaire and airport finishes

#### Merchandise Display

Merchandise display wall panels and metal standards must be independently designed and mounted in accordance with all governing codes. All merchandise in a concessionaire acknowledges that demising walls are not designed to support wall-mounted fixtures or millwork without supplemental support.

An unexpected or unique use of fixtures is encouraged. These elements can elevate the look and feel of a retail environment.

#### Ceiling

##### Acceptable Materials:

- Wood - natural, stained, painted, certified by the Forest Stewardship Council (FSC) or the Sustainable Forestry Initiative (SFI)

##### Unacceptable Finished Condition:

- Unfinished exposed ceilings open to the structure above unless it is incorporated into the overall design.

##### Material Considerations:

- Storage areas must have a minimum finish of sealed concrete.
- In all wet areas where water is used, such as kitchens, wait station, bars and service areas, the tenant must provide a durable and cleanable flooring surface with a minimum six-inch (6") high cove base. Tile must use epoxy grout and sealed.
- A waterproof membrane must be installed in all wet areas and extend onto the wall at least 12" A.F.F.

#### Food Service Equipment

Any food service equipment that is within sight of the customer must be coordinated and integrated into the design, including the finish and trim on all factory-finished surfaces of coolers, freezers, casework, and other equipment.

## Design Guidelines

### Interior Visual Quality, Materials & Finishes

Midway International Airport

### Furniture & Fixtures

Furniture and fixtures must be commercial quality, designed for the intended function and able to withstand heavy customer use. The Concessionaire is advised to pay particular attention to the materials, finishes and construction of the furniture to insure long service-life and attractive appearance. Test samples are required as part of the approval process.

All millwork, counters and furniture, shall be an integral part of the overall design. Each of these elements must comply with ADA regulations.

### Counters / Railings

Recommended countertop and railing materials include stone, quartz, solid surface (Corian, Avonite, etc.), concrete and metal.

### Tables

Table tops and edges should be durable and easily cleaned; e.g., solid surface, natural stone, stainless steel, appropriately treated solid wood surfaces. Use of plastic laminate is not allowed unless the design, pattern and detailing adds to the overall concept and enhances the concessions environment at the airport. Table bases should be of suitable scale and construction to provide stability and durability.

### Seating

Frames are to be of metal or solid wood. Upholstery, where used, should be selected for its timeless appearance, durability, and ease of maintenance. Fabrics should have a pattern that aids in keeping a clean appearance.

## Design Guidelines

### Interior Visual Quality: Materials & Finishes

#### Sound Transmission Class (STC) Planning Matrix Chart

Concessionaires will be required to maintain a minimum STC rating for the demising walls per the following matrix:

	Concession	Storage	News Stand	Grab & Go	Restaurant	Retail	Public Space	Toilet	Office
Concession	40	40	40	40	40	40	40	50	40
Storage									
News Stand	40	40	40	40	45	40	40	50	45
Grab & Go	40	40	40	40	40	40	40	50	45
Restaurant	40	45	40	45	45	45	45	52	45
Retail	40	40	40	40	45	40	45	52	45
Public Space	40	40	40	40	45	45	0	50	50
Toilet	50	50	50	50	52	52	50	45	50
Office	40	45	45	45	45	45	50	50	40

If specific materials are already installed on the opposite side of the demising wall, the Concessionaire shall provide wall materials that maintain the STC rating requirements. If no material is installed on the opposite side of the wall for the purpose of providing the STC requirements, the Concessionaire shall assume the final material will be a single layer of 5/8" drywall.

#### Fire Ratings

Materials and assemblies must comply with applicable flame-spread ratings and fire resistance requirements. All construction and fire resistive material assemblies must comply with all applicable Federal, State and Local codes.

#### Expansion Joints

Some concession spaces will have building expansion joints passing through the space. The Concessionaire will provide and install all required expansion joint details that comply to conform and align with terminal building expansion joints. The Concessionaire shall be responsible for maintenance of expansion joint.

#### Demising Wall

Demising walls between Concessionaires will be one (1) hour fire-rated construction or as required by code and extend to the underside of the base building structure. All demising walls require sound attenuating (floor to ceiling). The Concessionaire is responsible for maintaining a uniform demising partition. Existing wall's that are deficient shall be repaired by the Concessionaire to the Airport standard. Finishing will consist of metal studs ready to receive the Concessionaire's finish. CDA will oversee the coordination of adjacent Concessionaire's use of the demising wall for mechanical and electrical purposes.

- Concessionaire must work that passes through the demising wall or corridor wall must be equipped with a fire damper at the point of penetration and shall be provided at the Concessionaire's expense. If the Concessionaire plans to use a demising wall for the support of shelf-standards or heavy attachments, then the Concessionaire must reinforce the wall as needed.

#### Walls within Concessionaire Space

Walls within the Concessionaire's space shall be provided by the Concessionaire and the wall finish shall extend a minimum of six (6") above the finished ceiling.

**All materials used for construction shall be new materials. "Used" materials for architectural effect will be scrutinized carefully during the design review, and subject to approval.**

#### Neutral Piers

Neutral piers are part of the base building architecture and serve to separate individual tenant lease areas. They often contain base building structural columns. The appearance of these piers cannot be altered in any way without CDA approval.

The neutral piers are intended to be part of the overall airport architecture (and not viewed as part of the concession). They should remain visually separate from adjacent storefronts.

Typically, the neutral pier conceals structural and mechanical elements. They cannot be moved. Another common neutral pier type occurs where the neutral pier falls between the structural grid of the concourse and covers no structural element. If no neutral pier exists for the demising wall to tie into, it is the Concessionaire's responsibility to build it. The design of any new piers must match the neutral piers already existing in that concourse or portion of the terminal, subject to CDA approval.

### Design Considerations:

- Concessionaires are encouraged to use a lighting designer to assist in employing the most current and effective lighting techniques while minimizing electrical consumption
- Concessionaires are required to work with a licensed engineer to ensure designs meet all applicable building and energy codes
- Storefronts should be brightly and dramatically lit to focus attention on merchandise, and contrast with lighting levels in the concourse
- Track lighting in display windows should be recessed in coves or pockets
- Spot lighting may be achieved using recessed, adjustable angle fixtures or track-mounted adjustable spotlights
- Lighting should be designed to illuminate the facility and its products or services, but must not shine into eyes of passengers, cause glare or distraction

## Design Considerations

### Prohibited Lighting Applications

- Surface-mounted fixtures with exposed lamps, except for those of a decorative nature
- Fluorescent fixtures, with the exception of compact fluorescent, will not be permitted within the retail zones, unless specifically approved.
- Exposed raceways, conduits, transformers and other equipment shall not be visible to the public
- Moving lights or components, strobe or flashing lights.
- Any light source with a CRI less than 80
- Linear fluorescent greater than four (4') length fixtures

### Lighting density allowances are as follows:

- Basic office tenant: 1.1 VA/SQ FT
- Retail sales area: 1.7 VA/SQ FT
- Food preparation: 1.2 VA/SQ FT
- Active storage: 0.8 VA/SQ FT
- Bar lounge / dining area: 1.4 VA/SQ FT

### Natural Light and Windows

Concessionaires are encouraged to allow natural lighting into public spaces next to exterior windows wherever possible. Concessionaire designs should pay particular attention to natural lighting within and adjacent to the Concessionaire's spaces. In some cases natural lighting is limited while others receive considerable natural light.

### Window Treatment & Applications

- Window coverings or art work are not allowed without special approval by the CDA

### Design Considerations:

- Natural lighting may affect the location of merchandising
- Ceiling or wall features may be required to diffuse direct natural lighting

### Media & Technology

#### Trash & Recycling

Concessionaires shall provide an appropriate number of built-in or freestanding receptacles to maintain a clean and sanitary environment for their patrons. Freestanding trash bins are not allowed in public view. All integrated built-in trash can openings sized to conceal trash. Final design submissions must include the location and access to the container within the leased area.

Garbage compaction and/or refrigeration equipment must be installed in the concessions space by the Concessionaire if perishable items are handled in a manner required by applicable governing laws, codes, and/or regulations.

All Retail / Food & Beverage Concessionaires shall incorporate a storage room or closet to house employee personal belongings, cleaning supplies, foodware, paper and limited rubbish or trash.

Unattended stocking cartons / boxes cannot be on the floor (public areas) during open hours of operation.

Concessionaires using speakers for the purpose of providing quiet background music for their patrons' enjoyment must take precautions to ensure that any sound or vibration is not transmitted to adjoining spaces. Speakers should be positioned facing away from the concourse so that noise level should not travel past five (5) outside the storefront.

Concessionaires are prohibited from incorporating monitors with broadcast television content in their space. Flat screen displays, if approved, are to be placed uniformly within millwork or adjacent to wall finishes.

Concessionaires security cameras shall be discreetly installed. Freestanding tenant security devices or security systems shall not be installed.

Concessionaires are encouraged to provide Wi-Fi within their space especially in areas where the airport Wi-Fi is weak. Food & Beverage Concessionaires are also encouraged to provide charging stations within their space.

## Design Guidelines Signage and Graphics Element

### Design Considerations:

- Two signage types are allowed. These consist of a primary internally illuminated sign located above the storefront and an internally illuminated blade sign. Primary signs consist of the Concessionaire's brand name only in a font/color of tenant's choosing. Blade signs allow for use of tenant's logo.
- All sign illumination must be hidden from view. No hot spots will be allowed.
- Creativity in the design of the tenant signage is encouraged.
- Concessionaire signage shall not have a total length exceeding 1/2 of the premises frontage dimension.
- Concessionaire to identify location of Chicago Building Code posted occupancy signage.

Signage should add to the overall creative expression of the space

Signage design adds to the overall creative expression of the space. Like the architecture of the City, there are certain elements of signage design that reflect the marketplace concept.

Signage is a key component of a concessions brand statement. Signage and associated environmental graphics should complement the architectural design of each Concessionaire's space. These elements should be considered early in the design process, be given significant attention and be integrated into the overall storefront design concept. Each Concessionaire is allowed a primary overhead storefront sign with the option to install a blade sign. The final signage design submittal must include side view renderings or photos, the sign location, the exact dimensions, and an elevation that meets the terminal specific requirements and does not conflict with the airport signage / graphics. Refer to Exhibit 4.1 for more information.

Please note that a sign permit is required, it can only be obtained by a licensed sign contractor.

The Concessionaire must inform the CDA if the project requires building signage be removed, modified, or supplemented. A walk through with CDA will be scheduled to ensure CDA has adequate time to schedule the required signage work to occur during the construction phase. Please note that any CDA signage needing to be removed or relocated within the project area must be performed by CDA. The Concessionaire will be responsible for all costs to relocate or modify building signage. If CDA signage is located within the project area, the Concessionaire must include in the construction documents that the contractor will adequately protect all CDA signage to ensure it is not damaged during construction.

Logos will not be allowed on primary signs located on storefronts. Logos are allowed on blade signs only. For the primary storefront signage, the addition of any extraneous decorations, beyond the allowable backer shape and the Concessionaire's name, is prohibited.

For storefront conditions without adjacent walls, ceilings or a bulkhead element convenient to storefront sign mounting, Concessionaire may propose illuminated signage integrated into their storefront architectural design. Dimensional back lit letters are required for primary storefront signs.

## Design Guidelines Signage and Graphics General

### Signage and Graphics: Menu Board

Menu boards are a key aspect in supporting the architectural design of each food and beverage concession. Font and text size shall be easily viewed. The design of these elements must be produced by a professional graphic designer retained by the Concessionaire. In conjunction with this, any food photography must be produced by a professional food stylist. Concessionaires are encouraged to consider menuing as part of the overall composition of their space, and go beyond conventional placement standards. Concessionaires may choose to use LCD technology in their menu boards.

#### Sign Types / Techniques Prohibited:

- Cabinet or "can" signs with illuminated translucent backgrounds and silhouette letters
- Flashing, moving, sequencing, audible or odor-producing signs
- Stickers or trademarks
- Internally illuminated awnings
- Vinyl signs such as the stick-on or decal type graphics
- Charge card signs & hours of operations cannot be attached to storefront glazing or storefront itself
- Injection-molded plastic box signs, or vacuum formed signs
- Noise-making signs or signs with moving parts or animated lighting effects
- Exposed neon, neon tube applied directly to fascia element or other exposed light source
- Exposed lamps
- Temporary signs banners
- Frameless paper signs

A dining approach, drawing elements from high-end cafes and restaurants, is a recommended way to create inviting dining experiences throughout Midway.

The intention is to create spaces that capture an experience comparable to dining in one of Chicago's many eateries.

Food and beverage establishments are an integral experience at the airport. The Concessionaire's design should take into consideration how best to work with and complement the surrounding environment. Eateries should provide a variety of seating allowing passengers to dine, read or relax. A focus on regional and sustainable offerings is encouraged.

*Creativity within food & beverage interior is encouraged!*

Concessionaire Design Guidelines

Public seating inside the lease line must conform to certain guidelines. The seating system must be designed for high traffic and volume. The furniture must consist of minimal parts that are interchangeable between seating groups. Furniture must be free of sharp corners, protruding elements or any other projections that could create a safety hazard. Furniture cannot be attached to the floor and chairs must have appropriate glides to prevent scratches and damage to finish floors. Test samples are required as part of approval process.

The following criteria govern the design of the Concessionaire's café seating area inside the closure line.

- Seating areas should be separated from the main circulation path with partial height walls and /or partial height railings
- Mobile merchandising units are not allowed outside of the lease line
- Access to views and wayfinding are of paramount importance for a pleasant passenger experience

## Design Guidelines Merchandising & Equipment Situated Retail

Display of all merchandise must be integrated into the design concept. All store front displays must maximize a light and open presence in the adjacent public space every day.

- Incorporating three dimensional design elements at store front (e.g., display windows) to accent glazing plans is encouraged
- All storefronts shall be designed, fabricated and installed by the Concessionaire at the Concessionaire's expense
- Excessive use of continuous full height opaque material will not be permitted

Permanent appliances, fixtures, and equipment shall not display any manufacturer sponsorship text, or branding of merchandise larger than nine square feet. Adhesive labels, of any size, with or without branding, are not allowed if they are in public view. Manufacturer's promotional fixtures is not allowed. Excessive shelving is encouraged.

Adequate storage space for merchandise, cleaning supplies, and other items associated with the facility's operation must be maintained in a secure area. Concessionaires cannot overstock merchandise. Drawings of all proposed fixtures, fixtures and locations. Temporary storage of merchandise or materials in public space line is not allowed.

Retail windows that are organized and appealing from the inside and outside are encouraged.

### Design Considerations:

- Provide minimum of 80% transparency from the public area into the Lease space except where noted otherwise
- Provide an individual look while implementing the overall design intent of the project
- Create an inviting impression for the users
- Use high quality, durable materials i.e.:
  - safety glass
  - finished metals
  - stone
  - high impact painted drywall
- Utilize 100% transparent material wherever possible on storefront
- Emphasize entries, display windows and merchandise
- Incorporate high quality graphics in displays and sales areas
- Accent merchandise with lighting

**Design Guidelines**  
**Merchandising & Equipment: Food and Beverage**

**Design Considerations:**

- Creative use & integral displays encouraged
- All merchandise to be visually integrated into design
- High quality grab-n-go cases

Showcase food presentation in a fresh, imaginative manner consistent with an overall branding approach. Fresh foods and photography may be used to reinforce the presentation.

**Summary of Requirements:**

Kiosks: Retail, Food and Beverage

### Kiosk: Open Plan Concept

- Customers to walk-through and engage with your product

### Kiosk: Closed Plan Concept

- Customers walk around your floating retail unit

### Introduction

Kiosk types are Retail or Food & Beverage. Kiosks are subject to the same guidelines as in-line Concessionaire spaces. Kiosks are defined as free standing concession spaces located within the MDW public space.

- Kiosks are located adjacent to the exterior wall of the terminals along one side of the main circulation aisle way or strategically positioned between multiple circulation aisle ways.
- Kiosks that are "open plan" display merchandise in casework or refrigerated coolers along the back and side walls and in free standing multi-sided display case islands that allow the patrons to enter and move around the Concessionaire area. The Concessionaire sales staff works on the public side of the merchandise to assist and service patrons.
- "Closed concept" Kiosks place the merchandise and refrigerated coolers around the perimeter of the space. The Concessionaire sales staff works behind the merchandise to assist and service patrons.

The design should be inviting to customers. Kiosks shall use quality materials in a simple, yet elegant scheme, and display the products and services in a clear and sophisticated way such that customer interaction is intuitive. Consideration must be given to the design and finish of all exposed surfaces. Kiosks are especially susceptible to damage from passenger luggage and carts. Careful selection and detailing of materials is essential.

### Kiosk Lighting

The general lighting level varies throughout the Airport and may not be sufficient for the services provided at a kiosk. Therefore, appropriate fixtures should be incorporated into the design to provide adequate lighting for functional and aesthetic purposes. However, the lighting should neither overpower the space nor cause a distraction to passengers moving about the space.

### Design Considerations:

- Display case lighting is seamlessly integrated into the overall design
- Light source is concealed
- Back-lit graphics behind glass on standoffs is encouraged

## Design Guidelines

Kiosks: Retail, Food and Beverage

Concessionaires must carefully plan their operation with respect to display and storage of merchandise and trash handling. Adequately enclosed storage, cleaning supplies, staff items and trash. These materials may not be left on the floor either inside or outside the kiosk. A clean, inviting appearance must be maintained at all times.

### Summary of Requirements:

- Kiosks designed with a canopy, sign band, or ceiling elements
  - shall have a maximum height of 10'-6" A.F.F.
  - shall be a minimum of 80% open to above
  - shall adjust or provide additional lighting and fire protection for MDW base building
- Creatively integrate signage
- Utilize solid surfaces and damage resistant materials
- An 8' minimum toe-kick is required to protect the floating retail finishes from high foot traffic and cleaning machinery abuse. Toe-kick should incorporate concealed lighting, thus giving the kiosk a 'floating' effect
- Overall display lighting shall be integrated into the kiosk design and concealed from view
- Accommodate for customer traffic flow and queuing
- Under no circumstances may any element of the Concessionaire's design obstruct sight lines to departure gates or terminal signage from any point in the food court common area or concourse
- Conceal electrical cables and conduits with millwork or graphics
- Existing base building floor may not be removed
- Security closures should appear either decorative or hidden during hours of operation. When the kiosk is closed, the security closure should appear as an integrated and attractive part of the design composition
- All storage and equipment, including cash registers, shall be integrated and concealed so not visible to the customer
- Cooking/grilling shall not be allowed
- Food and Beverage Concessionaire's shall have a waterproof membrane the full footprint of the kiosk
- Overhead lighting or canopy may be integrated into the overall design but must relate to the Airport architecture
- Food & Beverage kiosks are encouraged to have a seating area for customers with the lease boundary
- Refer to Exhibit 2.5 for more information

TOUCH CONTROLS MUST BE  
LOCATED WITHIN THIS AREA  
FOR ACCESSIBILITY

The CDA intends to promote the accessibility aspects of its facilities, and encourage persons with disabilities to use its services; maintaining good access for persons with disabilities within concession spaces is required. Following are guidelines for providing a barrier free environment in your Premises.

As a part of the CDC, standards for barrier free design have been included. It will be every Concessionaire's responsibility to ensure that its store design conforms to current code requirements identified in the Chicago Building Code, Chicago Municipal Code, the Americans with Disabilities Act and the Illinois Accessibility Code. This section does not replace applicable barrier free codes and/or legislation; the more stringent requirement of code be followed.

The CDA has made a commitment to persons with disabilities. The design and construction including communications services, choice of finishes, furniture selection, as well as the overall management approach will be reviewed specifically to ensure that people with disabilities will have full use of facilities. Compliance with accessibility standards are more than just a social commitment. The CDA recognizes that society agrees that people with disabilities become more and more integrated into the activities of normal society. Facilities such as this airport will need to support people of all abilities as a

CONCESSIONS DESIGN GUIDELINES

## Concessionaire Access Recommendations

### Restaurant/Lounges:

Good recommendations will depend on the exact nature of the restaurant and its decor, however the following are basic guidelines for restaurant design as it relates to persons with disabilities:

- Aisleways (approximately five (5)) are to be provided in alternate formats: large print, Braille and/or auditory for persons with low vision or blindness. Where possible, wall mounted menu boards should be at a convenient height for wheelchair users and be well lit with spot lights from track lighting or lit from behind
- Seating for persons with disabilities should be dispersed throughout the restaurant. Fixed seating such as booths are generally difficult for people with poor mobility, adults, adults and are inaccessible for wheelchair users. If booths are integral to the design concept, additional moveable seating shall be incorporated, as well as wider aisles to allow wheelchair users and persons using the seating to sit at the table
- Clear, well-lit directional signage (indicating washrooms, etc.) shall be placed near the entrance
- Chairs should be light and easy to reposition
  - Seat height should be 18" from the floor, approximately 17" deep x 17" wide, and some chairs should have armrests
- Supports or cross bracing may not interfere with kick space under the chair
- An aisle width of 35" minimum needs to be maintained to allow wheelchair access
- To accommodate wheelchairs, a minimum clearance of 27" under tables and 30" between legs is important. Minimum clearances for seating and tables should be a minimum of 30" x 48" x 27".
- Corner legs on tables are preferred, however if round tables with center posts are used for dining, the minimum diameter of these tables should be 48"
- In consideration of older adults and others with limited strength and/or poor dexterity, tableware and accessories should be selected that is easy to use, or be available on request, e.g. flatware with larger diameter handles, four pronged forks - not three prong, glasses and cups should have broad stable bases, glasses with pattern or texture are easier to grip, etc.
- Handing trays should be available on request
- Pre-managed combinations are difficult for people with poor dexterity. Alternatives should be available on request
- To serve wheelchair users, people with walkers, or people with balance and/or other difficulties, self-serve areas require a counter for trays that is 34" from the floor, 46" wide (42" is preferred), provides knee space under the counter and be continuous from entrance to cashier and within accessible reach range

City of Chicago Department of Public Health

## Design Guidelines

Interim Design Guidelines

### Restaurant/Lounges Cont'd:

- To be within reach for wheelchair users, people with limited reach, motion and others, food on shelves should be no higher than 27" and placed no further than 20" from edge of the counter. Displays should be placed to suit designer's choice
- Power doors or low resistance doors, automatic doors are recommended
- Minimum aisle widths shall be 35" and kept clear of displays
- Displays shall generally be kept at eye level
- Counters shall have low sections or cutouts to accommodate people with disabilities, on both the public side and the working or operating side
- POS counters shall be accessible and free of clutter and displays
- Informational signage shall be high contrast, lettering generally mounted at eye level. Floor surface should be slip resistant
- Multiple choice merchandise should be displayed within accessible reach
- Bars should have lowered section for wheelchair users, avoid people unable to use high stools
- Small tables need a minimum clearance of 27" under the table with a diameter of approximately 26" to be accessible to persons with disabilities

Disability Awareness Training is recommended for lounge servers and greeters.

## Green Goals & Directives

### Sustainable Airport Manual™

MDW promotes environmental stewardship. Greenhouse gas emissions reduction, energy conservation, renewable energy, water efficiency, air quality, preservation of natural resources, waste reduction, employee wellness and green building initiatives are sustainable attributes Midway values. The SAM™ is a comprehensive guidance manual created by the CDA to incorporate and track sustainability in administrative concessions and tenants with minimal impact to project schedules or budgets.

For design, renovations, and construction of tenant projects, only the CT-DC section is applicable (SAM™ CT-DC Credits 1.0 to 7.0 and 16.0).

The SAM™ Checklist submittal is applicable to most concession & tenant projects. The applicability is based mainly on the size and scope of the project. The determination of whether a SAM™ Checklist is required will be made by CDA and will be communicated to the designer in the "Response to the Project Initiation Letter".

**Sustainable Airport Manual (SAM™):**  
Included with each design submittal, the Concessionaire must also submit a Sustainable Airport Manual (SAM™) Checklist. The relevant SAM™ chapter is Concessions & Concessionaires - Design & Construction which can be found along with all its supporting documentation at [www.airportsgoinggreen.org/SAM](http://www.airportsgoinggreen.org/SAM).

All Concessionaires are obligated to comply with Sustainable Performance Goals as outlined in the SAM™ Guidelines.

## Green Goals & Guidelines Concessionaire Requirements & Recommendations

### Sustainability Recommendations

The following strategies, although not required, are highly encouraged by MDW:

### Green Practice

- Design the lighting program to be more efficient than required by the energy code
- Specify materials with high recycled content
- Consider the use of rapidly renewable materials such as straw board, bamboo, poplar OSB or wood
- Reduce carbon emissions associated with shipping large distances, specify materials that are extracted, manufactured and assembled locally
- Where wood is used, consider specifying materials that are certified by the Forest Stewardship Council (FSC). The "Seal of Approval" is awarded to forest managers who adopt environmentally and socially responsible forest managerial practices. Companies which manufacture and sell products made from FSC wood are able to gain Chain of Custody (COC) documentation which allows their products to also carry the FSC label

### Sustainability Requirements

All tenants at MDW are required to use the following sustainable strategies to promote tenant improvements:

1. All paints & coatings must not exceed VOC (Volatile Organic Compounds) thresholds
2. All Adhesive Sealants must not exceed VOC (Volatile Organic Compounds) thresholds
3. All composite wood aggrifiber products (MDF, plywood, etc.) including core materials, must contain no added urea-formaldehyde resins
4. Construction waste management practices at MDW target a minimum of 50% of waste diverted from landfills. Concessionaires must take construction waste recycling hauler in addition to a typical waste transfer. Diversion reports must be collected from the recycling service to document diversion percentages. Percent of waste is determined by weight, not volume
5. Install ENERGY STAR ® eligible equipment, such as lighting, power equipment, electronics and communication about service equipment that excluding HVAC and lighting)
6. Install low-flow sprayers / faucets

### Education:

Concessionaires are required to communicate the benefits of the facility's green benefits to the patrons. This should be done through messaging that tells the story of the tenants' unique contributions to the responsibility beyond standard practices.

## Engineering Guidelines

## Engineering Guidelines

### Structural

- Core drilling, cutting of floors, walls or roofs may be required for tenants needing plumbing and/or additional mechanical HVAC provisions. Under no circumstances shall the Concessionaire or its contractor(s), at any time be permitted to drill or cut conduit, pipe sleeves, chases or duct equipment openings in the floor, columns, walls or roofs of the structure without prior review and acceptance of the proposed locations and sizes by the CDA's structural consultant. Concessionaire is required to x-ray the area prior to beginning work utilizing a 3D ground penetrating radar and will provide a copy of x-ray results to CDA.
- The consultant's fees for these reviews are at the Concessionaire's expense. The CDA may, at its option, perform the work at the Concessionaire's expense.
- Under no circumstances shall the Concessionaire, its employees, or its contractor(s) enter onto any roof or steel deck of the Building, or make any opening in the roof without the prior written approval of CDA. No roof-mounted antenna or satellite receiving dish antenna is permitted unless approved in writing by the CDA with respect to location and detail.
- The Concessionaire and its contractor(s) shall not impose a greater load on any concrete floor than the uniformly distributed design live load or point loads stipulated by the CDA. No unusual loads may be applied or suspended from the underside of the roof structure without CDA's structural consultant's prior written approval. The consultant's fees for these reviews are at the Concessionaire's expense.
- No electrical wiring or conduit will be permitted through or under the main floor slab without written approval by the CDA.

(Sub)Exhibit "I".  
(To Concession Lease And License Agreement With Alclear LLC, Doing  
Business As CLEAR, At Chicago Midway International Airport)

*Airport Concession Handbook.*

**INTRODUCTION:**

The City of Chicago ("City") and the Chicago Department of Aviation ("CDA") welcome you to the family of concessionaires operating at the City's airports. Your concession represents an excellent business and professional opportunity to serve the traveling public as well as operate a profitable enterprise. In order to ensure quality and uniformity among all concessions, we have designed a Concessions Program that is outlined in this handbook. It is important that you review and adhere to these standards as they will serve as tools for the successful operation of your concession.

**THE CONCESSIONS PROGRAM:**

The CDA's Airport Concessions Program serves as the primary resource to meet the needs of the traveling public with regard to the provision of quality, reasonably-priced goods and services at Chicago's airports. To this end, CDA is further responsible for the outreach, selection, coordination and monitoring of concessionaires. In order to fulfill these responsibilities, CDA has several functional units that, as part of their overall duties, operate as liaisons to prospective and existing concessionaires. The primary units and their concession-related functions are as follows:

<u>CDA UNIT</u>	<u>FUNCTIONS</u>
Commissioner's Office	Policy generation and resolution.
Managing Deputy Commissioner	Overall coordination of revenue, finance, bonding, insurance, property management and concessions functions/issues including merchandising plans, outreach, proposal generation and evaluation, contract negotiation, and overall coordination and processing.
Assistant Commissioner	Assist in overseeing Concessions, the monitoring program and general airport guidelines.
Concession Management Representative ("CMR")	Entity retained by the CDA to assist in overseeing Concessions, including construction of Improvements at the airport.
Planning/Coordinating Architects	Plan and design review; construction coordination and monitoring.
Finance/Revenue	Financial reporting, review and auditing.
Security	Coordination of security identification and other related issues.

**THE MONITORING PROGRAM:**

The Monitoring Program is designed to provide a process to ensure that concessions operating in the Airports comply with the ordinances and policies of the City, provisions of their respective Lease Agreements and specific airport guidelines as established by the CDA. The primary areas that will be reviewed include financial commitments, maintenance of concession space(s), licensing (where required), and overall adherence to the provisions of the Lease Agreement.

The intent of the Monitoring Program is to benefit the traveling public and other airport visitors, concessionaires and the City.

**THE PRE-MONITORING PROCESS:**

After a prospective concession is selected by CDA there are five stages that precede the commencement of the Monitoring Program.

**STAGE 1 - CITY COUNCIL APPROVAL**

Upon completing lease negotiations with the concessionaire, CDA forwards the lease agreement ("Agreement"), signed by the Tenant, to the City's Law Department. After the Law Department's review of the form and legality of the proposed concession agreement, the proposed tenant is introduced to the full City Council. City Council sends the Agreement to the Aviation Committee for review. The Aviation Committee approves, rejects or requests further information. Once approved by the Aviation Committee, the recommendation is forwarded to the full City Council for final approval. In most cases, recommendations submitted to the full Council by Committee are ratified, usually at the next meeting. This approval is documented in the "Journal of Proceedings." The documented approval and contract are then forwarded to the Mayor and other pertinent City departments for execution.

**STAGE 2 - LEASE AGREEMENT**

The Lease Agreement outlines a concessionaire's contractual relationship with the City. It delineates the responsibilities, expectations and the requirements of both parties, financial and non-financial. During negotiation of the terms of the agreement, you will have cause to interact with individuals from the CDA and the CMR Office. The Managing Deputy Commissioner of Concessions will oversee the processing of the Lease Agreement as well the Monitoring Program.

**STAGE 3 - DESIGN APPROVAL**

All concessionaires must submit a conceptual, schematic drawing which shows the general design of the unit. The Planning and Architecture departments will review the concept, and if the approval is given, a letter will be sent giving conceptual approval and requesting 100% architectural drawings including a complete materials board, plans and specifications so the plans meet the CDA requirements and aesthetic appeal. Upon providing approval of the 100% plans, Architecture will send a letter to the concessionaire giving authority to apply to the City Buildings Department for building permits. In no case may construction begin prior to the receipt of this approval. The Planning Unit will also monitor construction in progress.

**STAGE 4 - PRE-CONSTRUCTION APPROVAL**

Prior to construction, each concession will meet with the CMR for the purpose of providing the concessionaire with general airport construction guidelines. Examples of these guidelines are locations and times for pick-ups, deliveries, refuse disposal, elevator usage, and badging.

Following the operations meeting, the CMR will schedule a pre-construction meeting with CDA. Prior to the meeting, the General Contractor for the project will submit all documents, permits and approvals to CDA for review. Construction may begin following approval at the pre-construction meeting.

**STAGE 5 - CONSTRUCTION**

After the contract is finalized, each concessionaire has a specified period to commence and complete construction based on approved design and construction specifications. During this period each concessionaire has the responsibility to expeditiously begin and obtain all necessary approvals, licenses, insurances, etc. Each concessionaire should maintain communication with the CMR during the process to ensure that all construction and licensing requirements are addressed in a timely fashion. It is important that the concession be open to the public within the time parameters specified in the Agreement.

**KEY ELEMENTS OF THE MONITORING PROGRAM:**

The Concessions Monitoring Program consists of three primary elements: operations reviews, audits and pricing reports. Operations reviews will be conducted on an ongoing basis by the CMR. The operations review form in Appendix 2 will provide a frame work for this component of the Monitoring Program.

Financial and compliance audits will be conducted on an annual and periodic basis, respectively. Financial audits will review all financial, bonding and insurance related requirements.

As specified in the Agreement, each concession shall submit an annual pricing report.

**PHYSICAL INSPECTIONS**

The Monitoring Process will include ongoing site inspection of each concession site by the CMR. Typical inspections will consist of reviews of facilities, general maintenance, employee practices, product/price conformity and space utilization. Inspection staff will use the CMR Operation Review Form (Appendix 2) to record their findings and observations. Reviews will be sent to the concession manager for review and follow-up on all review items. Non-compliance could result in liquidated damages being levied and/or commencement of default proceedings, dependent upon the nature of the violation.

**FINANCIAL AUDITS**

In accordance with the provisions of the standard Concession Lease Agreement, CDA reserves the right to require a certified public and/or City audit of all books, ledgers, journals, accounts and records of its concessions.

**COMPLIANCE AUDITS**

On a regular basis, the CDA will review compliance with insurance coverage, financial commitments and financial reporting requirements. Non-compliance could result in liquidated damages being levied and/or commencement of default proceedings, dependent upon the nature of the violation. Additionally, compliance with ACDBE Special Conditions will be audited.

**SECRET SHOPPING**

The CDA, from time to time, may hire an outside contractor to perform "secret shopping" and evaluate employee performance of each concession location. Such reviews shall be used to monitor customer service and cash handling procedures among other things.

**SUMMARY:**

The Monitoring Program will provide a basis of uniformity to all concessions. Adherence to the Concession Lease Agreement as well as the elements of this Handbook will contribute to the successful operation of your business.

The following Appendices will further delineate additional information/requirements stated above.

**ACCOUNTING REQUIREMENTS**

---

On a weekly basis Daily Sales are reported electronically in the CDA Concessions Portal Retail Management System. The daily sales for the previous week are input into the system no later than Tuesday of the following week. Sales input questions can be directed to Dana Clinton at 773-894-3382 or at [dana.miller@unisonretailmng.com](mailto:dana.miller@unisonretailmng.com)

Furthermore, on a monthly basis, you will need to submit a gross receipts report with a copy to the City of Chicago's Comptroller's office along with your payment, if there are any additional amounts due. A copy must also be sent to the Department of Aviation Finance and a copy to Unison Retail Management.

---

**ADA COMPLIANCE/FIXTURE PLACEMENT**

---

Americans with Disabilities Act or Chicago's Human Rights Ordinance requires that every business that serves the general public to make its services, products, and facilities accessible on an equal basis to people with disabilities. Ordinance requirements can be found at [www.ecfr.gov](http://www.ecfr.gov).

Our concessions program must adhere to all ordinance requirements pertaining to equal rights to people with disabilities, all standards for design accessibility and equal service to all patrons with service animals. If a person with disabilities claims you did not provide full or reasonable access to your business or service, they may file a disability discrimination complaint against you at the Commission on Human Relations. The Commission may also initiate a complaint. The Commission investigates and rules on each discrimination complaint through a neutral process which gives you the opportunity to present evidence and legal arguments to support your position. If found guilty fines, attorney fees and injunction may be assessed. It is very important to train your staff on how to manage these situations and keep documented records for any situations that may occur. It will be these records that will help you if a complaint is filed against you.

Please be aware most issues our tenants may come across are accessibility problems. Every location at O'Hare has an approved plan for fixture placement upon opening. If you are looking to add fixtures or change the layout of your store, it must be submitted to Unison's Property Manager to start the approval process.

***For easiest approval follow these procedures:***

- Submit your request, prior to any changes, in writing, to Unison.
- Include all drawings, specification sheets or samples.
- Unison will review the request, submit it to the CDA and respond with written approval or comments.

If fixtures, displays, or signage is added to any location without prior approval you will be asked to remove the fixture until proper approval has been obtained.

---

**BANKING**

---

Seaway Bank has a full service bank in Terminal 2. Services include individual and commercial checking and savings accounts, direct deposits, traveler's checks, and payroll check cashing (Airport employees only).

---

### BUSINESS LICENSES

---

Every location operating at the airport must have its own business license, visibly posted. The original business license must be obtained before opening the location. It could take up to one month to obtain the license, so your corporate offices need to apply in a timely fashion according to construction schedule. Unison must be given a copy of the license before opening.

Food & Beverage operators will need to apply for their license during construction and will have to wait for a City of Chicago Health Department inspection. After approval has been given, the license needs to be picked up at the City of Chicago's Department of Business Affairs office that is located at City Hall on the 8<sup>th</sup> floor.

Please be aware that the Departments of Revenue, Health and Aviation make periodic checks to confirm and fines will be issued for violation. Please provide Unison a copy of your license to keep in your license file.

---

### CONFERENCE ROOM

---

Unison has a conference room in the mezzanine level of Terminal 3 that is available to tenants at no cost. Information and policies on the conference center are included at the end of this section. Call 773-894-3900 for a reservation.

---

### CONTACT INFORMATION

---

It is very important that Unison and the Department of Aviation is always kept up to date with contact information and any changes that may occur. A Confidential Retail Concessions Information Directory sheet must be kept on file with Unison and updates or changes must be communicated as soon as possible. We ask that you update this at least every 6 months or sooner if you have changes that occur within your management.

---

### CUSTOMER COMPLAINTS

---

The City operates a Customer Service Hotline. When a call is received, it is documented and given to CDA Concessions or Unison. You will be advised of the complaint and required to respond. If a customer address was left, you are required to follow up IN WRITING to the customer with copies to the CDA and Unison. If no address was left, you are required to follow up in writing to CDA and Unison as to how the problem was solved. As stated in most license agreements, this follow up must be conducted within 72 hours of your receipt of complaint.

### DELIVERY PROCEDURES

---

---

#### APPROVED CARTS

---

Over the years, the airport has experienced a great deal of damage to expansion joints and terrazzo from carts. Damage costs to the facility have now reached into the millions. When choosing delivery carts, utility carts and trash collection dumpsters, try to adhere to the following specifications:

- Full encircling rubber bumpers around lower platform base.
- Handles, bag holders or other portion on carts that can cause damage, are to be protected with 3" revolving, white rubber, non-marking bumpers.
- 8" X 1.75" Semi-Pneumatic rubber wheels.

All equipment that is used to transfer product or trash throughout the airport must be in good condition. Wheels that are not maintained properly can be a nuisance to the property and the traveling public. They cannot scrape, squeal, or bounce on the terrazzo flooring. Those found using non-compliant equipment will be required to make repairs or replacements within 48 hours of notification. This requirement is also extended to any vendors that you may have delivering to you. It is your responsibility as the tenant to make sure these requirements are adhered to by everyone that works within your operation.

When deliveries are moved through the airport it is imperative that we do what we can to prevent passenger/employee injury:

- Product must be secured to the cart. Most tenants will use shrink wrap or ratchet straps.
- CO2 and nitrogen tanks must be moved in approved caged or chained carts that are made for moving hazardous product. Your providers should be able to assist with getting the correct transport carts. Tenant employees will be stopped from proceeding with a delivery until safe transport is provided.
- Merchandise may not be stacked above the shoulder height of the employee moving the cart. The employee must be able to see over the merchandise whether they are pulling or pushing the carts.
- Employees may not wear headphones or use their cell phones while moving through the concourses. They must be able to hear what is going on around them.

***Management must direct their employees to adhere to these safety requirements. Non-compliance could result in loss of badges to the employee and management.***

#### ***COMMON CARRIERS***

---

Many tenants receive their shipments via common carriers such as Federal Express, UPS or DHL. These carriers have authorization to bring shipments directly to your store or storage area. Please remember that you are responsible for promptly receiving and inspecting the delivery when it arrives.

If any part of the delivery seems abnormal, opened and causes concern, it should be reported directly to the O'Hare Communications Center by calling 773-894-9111.

#### ***DESIGNATED DELIVERY AREAS AND CONCESSIONAIRE MAGNETOMETERS***

---

All vendor deliveries to the airport are required to be checked in through the Package Claim Delivery Booth on the outer roadway. This area can be accessed from the far right lane as you enter the airport property. Signage and yellow barricade bollards identify this area. Your vendors will need to show delivery logs or receipts for the tenants they will be delivering to and where the delivery will be made.

ALL DISTRIBUTORS/VENDORS OR OWNERS WILL NEED TO SUBMIT TO THIS VEHICLE CHECK. THERE ARE NO EXCEPTIONS TO THIS REQUIREMENT, EVEN IF THE DELIVERY IS COMING FROM YOUR CORPORATE WAREHOUSE OR YOUR OWN STAFF. THEY MUST FOLLOW THE SAME PROCEDURE FOR DELIVERING TO THE AIRPORT.

Whether you are receiving food product, dry goods or retail merchandise the following procedures must be followed by your staff to assist in the safety and security of our facility and our airport operations. You must train your staff to receive product in a procedure that is consistent for every delivery that you receive. These procedures should be followed from the outside dock to your storage area and again to the airside space.

Your delivery schedule and order forms will dictate what should be allowed to access the airport facility. Your delivery schedule and order forms should be posted weekly and your on-shift managers will need to check the order forms against the delivery receipts before allowing the delivery to be off-loaded. Your staff needs to understand that they can only accept what is on the order form; all other items must be returned immediately.

Food and beverage concessionaires must follow all proper procedures for receiving perishable product and dry goods. Please check **Proper Food Product Receiving and Storage Procedures** under the Food and Beverage section of this handbook.

**Concessions Delivery Procedure Goals:** The main purpose of this inspection procedure requirement is to protect the safety of our facility, co-workers, passengers, and aircraft. Your managers should be fully trained on your operations so they will be able to identify the following:

- They should realize when something does not belong in the area or within your operation.
- They must be able to identify and know how to protect items on the TSA Prohibited Items List that you must use within your operations.
- You want to train them to be confident in their decision if they feel a threat.

**If a delivery person, item, or procedure seems to be out of order, tampered with or unsecure. Processing of the shipment MUST STOP and management must be contacted along with the O'Hare Communications Center (OCC) at 773-894-9111. An officer will be sent to your delivery location and the item will be checked for safety before it is allowed to continue through processing.**

Delivery managers must be trained in your operations and considered qualified to perform the following procedures for managing your deliveries to the airport facility. Proper inspection does not require use of special equipment, but they are responsible for using their human senses of sight, hearing, smell, and touch. They will be required to use caution when working through the delivery procedure. They can never become distracted by other employees or complacent to the process.

During the inspection of the delivery it is very important to look for inconsistencies or suspicious conditions that show signs of tampering, unexplained or exposed wiring, or inconsistent size, weight or shape of packages or product that normally flows through your operations from a specific vendor. Re-taped boxes, unusual smells, weight balances, stained packaging or discoloration should all cause concern and further check.

If your delivery manager questions any of the above CPD should be contacted at 773-894-9111.

Delivery Procedures:

1. Deliveries must be scheduled to start at the required hours of 10:00 p.m. and 6:00 a.m., unless you have been given permission to deliver during the day because of operational requirements. An **unscheduled delivery by an unknown vendor or person should not be accepted by anyone at any time.**
2. All of your employees responsible for managing deliveries to the airport should be aware of the schedule and what will be delivered. The schedule should include the names of the vendors, days and time of delivery and driver's name. The schedule should be posted by management and your employees managing the delivery must be given delivery order forms or logs to check off items that have been ordered once received. Visual check by your delivery managers must happen as the delivery is unloaded off the truck or if the delivery is from a common carrier it must be checked before signing acceptance of the delivery. When sending items through common carrier they will send a receipt for how many boxes should be expected. The product list ordered must match the delivery receipt and all product should be labeled and in good condition.

You must establish a rejection policy with your vendors and your managing employees to ensure accurate, timely, consistent, and effective refusal and return of rejected goods. If anything is suspicious, out of order, crushed or open; that product/merchandise must be rejected immediately. Any items/merchandise that does not appear on the order forms must also be rejected immediately. **Make sure your staff is aware that vendor gifting is not allowed!**

Depending on what is delivered for your operations, checklist options are listed below. Numbers 1 – 13 must appear on everyone's checklist. Food and Beverage locations need to add numbers 14 -16. An example receiving log is attached in the Documents and Forms section of this handbook.

- |   |                                       |
|---|---------------------------------------|
| 1. Date of Delivery                           | 9. Accepted                           |
| 2. Security Sweep Card Collection             | 10. Moved to Tenant Space or Storage  |
| 3. Supplier/Vendor Name                       | 11. Rejected                          |

| 7. Correct Quantity                           | 15. Temperature Control               |
| 8. Containers Inspected for quality or damage | 16. Food Product Temperature Checked  |

**At the end of every delivery your delivery manager should have an Order Form, Delivery Receipt, and a Receiving Checklist that is checked and signed by the tenant's delivery manager. All of these documents should be kept as back-up to your Delivery Schedule that was posted at the beginning of the week and kept on file for at least 3 months.**

Once product is delivered into the building your product/merchandise can never be left unattended. If employees are working on bringing stock to your storage rooms from a main hallway or pass through, you must have another employee monitoring that stock to make sure that it is kept secure. If product is found unattended it can be discarded by CDA. Food products left unattended will immediately be considered unsafe and CDA and Unison will require that the product be discarded.

#### **CONCESSIONS MAGNATOMETERS AND VENDOR CHECKPOINTS**

Special private x-ray magnetometers are designated for delivery of goods to airside. Should you receive goods on dedicated trucks or from a local vendor, you must use the delivery posts at Post 7 and 9 to have your product screened before it is allowed on the secured/sterile side of the airport. These x-ray magnetometers are also used for delivery from landside storage areas to secured airside units.

Everyone using these x-ray magnetometers MUST have a green badge (which carries special requirements -- see the section on Badging in this handbook) with the proper access code for the x-ray magnetometer specified. No exceptions are given. Access to the vendor checkpoint areas are issued by Unison and the Department of Aviation Concessions Department based on your expected operations throughout the airport.

Access to these x-ray magnetometers is available 24-hours a day. If you find that it is shut down due to repair, please contact Unison immediately so that we may follow-up on repairs.

The vendor checkpoint areas are located in:

#### *DELIVERY AREAS – TERMINAL ONE*

---

Terminal 1 deliveries go to Post 7 (attached to Terminal 2):

- Trucks enter the innermost roadway of the lower level (arrivals) after being checked in at the Package Claim Delivery Booth. The vendor will receive a card by the delivery booth showing proof that the vehicle has been inspected. Your employee managing the delivery must ask for this card before allowing the product to be off loaded from the vehicle.
- Once checked they will be allowed to proceed to Post 7 (just beyond Terminal 1, attached to Terminal 2).
- Trucks are allowed to park in the post area for up to 30 minutes. **Trucks may not be left unattended.**
- Tenant employees or delivery company employees proceed up the freight elevator to the upper level for screening of goods.

This is a private magnetometer for airport tenants, vendors, maintenance, and others making large deliveries. Passengers are not allowed in the area. Everyone screening goods at this location must have a green O'Hare identification badge as stated above. Your goods will be screened and then you will be allowed onto the airside of Terminal 2. Proceed to your store or storage location.

#### *DELIVERY AREA - TERMINAL 2*

Delivery procedures are the same as above. However, if you have a storage space in the lower level of Terminal 2, proceed down the freight elevator instead of up for screening. Storage spaces in Terminal 2 are not airside and goods need not be screened before being taken to your storage area. Screening will take place when product is moved from the storage area to the airside units.

#### *DELIVERY AREAS - TERMINAL 3*

All goods for Terminal 3 follow a different procedure:

- Trucks enter the innermost roadway of the lower level (arrivals) after being checked in at the Package Claim Delivery Booth. The vendor will receive a card by the delivery booth showing proof that the vehicle has been inspected. Your employee managing the delivery must ask for this card before allowing the product to be off loaded from the vehicle.
- Post 9 deliveries are allowed but you must deliver your product from the middle roadway, since there is not enough space available to the actual dock. However, your distributors can unload and bring your product across the inner roadway and access the side doors and proceed to the freight elevator to the right of the doors. Your distributors must use care and adhere to all safety requirements when delivering to this area. There is no staging allowed on the roadway and carts or pallets must be unloaded and brought across the inner roadway one at the time so as not to create a safety hazard. Space and time is very limited so your distributors must be staffed appropriately to manage effectively.
- Trucks are allowed to park in the post area for up to 30 minutes. Trucks may not be left unattended.
- If you have a storage space in the lower level of Terminal 3, proceed down without security review.
- If you are making a normal delivery to the store, proceed up the freight elevator to the private security checkpoint.
- Goods are screened at this location (much as at Post 7 detailed above) and then allowed to proceed to airside of the Terminal 3 West building.
- Proceed to your destination.

This policy applies even to goods being delivered to Concourse L and to the upper level storage areas.

If deliveries are required outside of our designated delivery checkpoints at Post 7 and Post 9 your corporate company will need to submit a written request to Unison Retail Management detailing the operational needs. Unison will submit to CDA for approval and or suggestions.

#### **DELIVERY HOURS**

Both private concessionaire magnetometers are open 24 hours. Currently, all tenants that get deliveries from outside vendors to the building are required to deliver between the hours of 10:00 p.m. and 6:00 a.m. If deliveries come from UPS or FED EX this does not apply. Deliveries of this type will be delivered directly to your store. Please remember that deliveries that come this way are to be quickly put away.

**WARNING** – Do not make deliveries from the roadway through the front doors and do not leave your vehicle unattended for even a few minutes. For security purposes, the airport may tow any unattended vehicles on the upper or lower roadways.

PROPER FOOD PRODUCT RECEIVING AND STORAGE PROCEDURES

---

Policy: All food and beverage deliveries must follow required delivery guidelines that are outlined in the Delivery section of this handbook. All food should be checked for proper conditions prior to delivering into the facility and the storage room. Check that required temperatures have been maintained and product is unadulterated is quality and quantity ordered, and is protected from contamination. Deliveries should be from approved suppliers only and credentials must be verified. Receiving logs must be checked, signed off, and stored on-site for 3-months for audit purposes

General principles for food and perishable product delivery:

- Check to make sure frozen food is solid, and does not show evidence of thawing and re-freezing.
- Check to ensure that refrigerated foods are received at or below 40°F.
- Record the date received on the outside of each package, and a use-by date if applicable. Should be marked on the outside of the box to manage rotation procedure.
- Potentially hazardous foods need to be placed in storage as soon as possible. Your delivery service should be able to provide proof of proper temperature control.
- Reject potentially hazardous foods that are not at acceptable temperature and cannot be proven to be safe.
- Reject foods with damaged packaging such as torn bags or cans with swelled tops or bottoms, leakage, incomplete labels, flawed seals, rust, or dents. These items should not be allowed to stay onsite.
- Evaluate quality of products by odor, sight, and touch. Reject unacceptable products. Products must meet order specifications and quality requirements. If any foods are deemed unacceptable, they should be rejected immediately.
- Assess quantity of delivered foods meets purchase order information.
- If foods must be delivered during non-operating hours, the vendor should be an approved source and product inspected before entering the facility.
- Post the delivery schedule, including the names of vendors, days and times of deliveries, and drivers' names; so that your team and CDA can be informed if necessary.
- Establish a rejection policy with all vendors and train your staff on procedures to ensure accurate, timely, consistent, and effective refusal and return of rejected goods. This should also be posted.
- Organize freezer and refrigeration space, loading docks, and store rooms before deliveries; for exact layout and expectation for ease of your staff.
- Gather product specification lists and purchase orders, temperature logs, calibrated thermometers, pens, flashlights, and clean loading carts before deliveries
- Keep receiving area clean and well lighted.

Receiving Frozen and Refrigerated Foods:

1. Check temperature with a calibrated thermometer to assure that cold foods (especially potentially hazardous foods – foods in which microorganisms are able to grow rapidly – often moist, high in protein, and have a neutral or slightly acidic pH) are below 40°F.
2. Reject, with the exception of fresh shell eggs or milk (45°F), all foods that should be stored below 40°F that are delivered above 40°F. Note milk should be cooled to below 40°F within 4 hours.
3. Check at random the temperature of three different refrigerated food items for each delivery. Record date, employee initials, vendor, product name, and temperature of these products in the Receiving Temperature Log.
4. Place foods in the proper storage area (cooler or freezer) quickly to avoid potential bacterial growth. Proper cooler temperatures are 41°F or lower. Proper deep chill storage temperatures are from 26°F to 32°F or below. Proper freezer temperatures keep the food frozen solid, typically about 0°F.

5. Use First In First Out (FIFO) inventory rotation of products in all storage areas to assure that the oldest products are used first. Products with the earliest use-by or expiration dates are stored in front of products with later dates. Mixing old food with new food is not acceptable.
6. Keep products in original package until used.

Receiving Dry Goods:

1. Check dry goods for leaks, flaws, or broken packages. Dry goods should be dry, free of mold, and free of insects. If the packages are flawed, they should be rejected and not delivered into the facility.
2. Date boxes and cans with receiving date.
3. Separate chemicals from foods.
4. Check delivery invoice against the items delivered, and the purchase order.
5. Note on the invoice any items rejected.
6. Proper dry storage temperatures are between 50°F and 70°F at 50 to 60 percent humidity.

The restaurant manager will:

1. Assure that all foods come from approved vendors and sources.
2. Schedule deliveries for off-peak hours and make sure trained staff is available to receive, inspect, document, and store food promptly.
3. Assure that no home-prepared foods are accepted or used.
4. Maintain **Receiving Temperature and Product Delivery Logs** to ensure proper procedures are being followed.
5. Follow-up with staff as necessary for training procedures.
6. File with HACCP records.

*DELIVERY HOURS*

---

Both private concessionaire magnetometers are open 24 hours. Currently, all tenants that get deliveries from outside vendors to the building are required to deliver between the hours of 10:00 p.m. and 6:00 a.m. If deliveries come from UPS or FED EX this does not apply. Deliveries of this type will be delivered directly to your store. Please remember that deliveries that come this way are to be quickly put away.

**WARNING** – Do not make deliveries from the roadway through the front doors and do not leave your vehicle unattended for even a few minutes. For security purposes, the airport may tow any unattended vehicles on the upper or lower roadways.

---

*LUGGAGE CARTS*

---

Luggage carts are NEVER to be used for tenant deliveries. Smarte Carte is another tenant and by utilizing carts, you are limiting potential revenues.

---

*PROHIBITED ELEVATORS*

---

Tenants (or any other delivery personnel) are not to use the following elevators for carts/deliveries:

Terminal 2 Center - These two passenger elevators ARE NEVER to be used for deliveries under any circumstances.

Terminal 2 Passenger Elevator from Post 7 - A freight elevator is provided for delivery use located directly behind the passenger elevator. The adjacent passenger elevator is not to be used for normal deliveries. However, should the freight elevator be out of service, you may use these elevators with great concern taken to avoid damage. Please contact UNISON if you are required to use this elevator.

Terminal 3 Passenger Elevator from Post 10 – Deliveries made to Post 10 should be moved through baggage claim to the freight elevator at Post 9 on the opposite end of the terminal. Do not use the Post 10 passenger elevator. The Post 10 elevator has incurred significant damage from previous shipments and is monitored by security.

Terminal 3 Center – the passenger elevator accessing the basement is NEVER to be used for deliveries.

---

*VENDOR CHECKPOINT OUTAGES*

---

At times the vendor checkpoints may become inoperable for numerous reasons; electrical outage, magnetometer part repair, or imaging issues. Tenants will need to coordinate delivery through the vendor checkpoint that is working. Your delivery hours will remain the same from 10:00 p.m. to 6:00 a.m., unless you have received approval from CDA Safety and Security to make a delivery in the off hours. Tenants that have storage in the lower level basements that need to bring product airside, will need to follow the same plan. Please be assured that CDA Safety and Security will do everything they can to remedy the issue as soon as possible.

---

---

*COURTESY TO PASSENGERS*

---

All employees should at all times respect the flow of passengers within the terminal. This includes giving the right of way to passengers when bringing merchandise through security, when entering an elevator or when steering a cart through a crowded terminal. Riding the carts or horseplay **WILL NOT BE TOLERATED**. This will be considered endangerment and repeated offenses may result in termination.

---

**DRESS CODES**

---

While some tenants provide uniforms to their employees, we understand that many specialty stores opt for a more casual approach, requiring fashionable clothing that compliments the product being sold. Tenants must always be mindful of the appearance of their employees.

Good taste should guide you in your wardrobe decisions but the following are not considered appropriate: short shorts or skirts, sleeveless or midriff tops, jeans, excessively tight, baggy or revealing clothing, sheer clothing and worn looking clothing or uniform. Suggested are crisply pressed uniforms, comfortable shoes, tasteful jewelry, neatly trimmed fingernails and neatly styled hair.

Food and Beverage locations need to follow the guidelines for managing safe food prep and operations when choosing a uniform. Hair restraints, slip resistant safe shoes and appropriate fitting clothing must be worn.

---

**EMERGENCY EVACUATION PLAN**

---

In the event of an emergency, all companies must have an emergency plan in place that will allow managers to confirm the safety of all employees. All tenants are required to create their own plan that works with their business practices. A copy of the CDA Concessions plan will be given to tenants to help create your plan. Every employee should be informed of your company's emergency plan and the emergency evacuation plan for the Airport as part of their training procedures upon hire. Unison requires that you keep a recorded copy of signed documentation by the employee that they have received and been trained on the plan.

---

**ESCORTING OUTSIDE VENDORS**

---

Your escorting employee must have a valid green badge with escort clearance. Escorts are responsible for the safe and secure conduct of any person they escort at all times within the secure area. Escorted individuals must remain in full view of their escort.

If you are escorting someone for operational purposes, you may bring them through any employee check line.

If the person being escorted through needs to bring in tools or liquids of any sort they must be escorted by a badged employee with escort privileges at the vendor checkpoints at Post 7 or Post 9.

---

**HEALTH DEPARTMENT**

---

The City of Chicago Health Department conducts periodic reviews of all tenants who prepare, handle, sell and/or service food items. If your location is found to be in Critical or Serious Violation of health codes, your unit will be immediately closed until the violation is corrected. Further, fines may be levied at the rate of \$500 per day for Critical Violations; and \$250 per day for Serious and Minor Violations.

## HOURS OF OPERATION

### *LICENSE-REQUIRED HOURS*

---

Please review your license agreement for your own required hours of operation. In a typical license agreement, tenants will be required to be open 16 hours a day. If you cannot operate your required hours you must contact the Unison on-call staff immediately.

### *CHANGES IN HOURS OF OPERATION*

---

The CDA and Unison are open to review of these hours based on your sales. Should you choose to petition to have your hours of operation reduced, you must submit one month of hourly sales along with a written request for an alteration in hours. Unison and the CDA will review your request. CDA's decision is final in these matters. Further, these deviations from your license-required hours are always open to revision as flight operations or other conditions change.

### *CHANGES IN FLIGHT OPERATION*

---

Tenants are strongly encouraged to regularly review your hours of operation as flight operations change. If additional flight activity is noticed before or after your normal hours, please experiment with opening early/closing late to maximize sales.

### *FLIGHT DELAYS*

---

Tenants are strongly encouraged to remain open beyond normal business hours if the airport is experiencing delays and passengers are in the terminals beyond normal hours. Often this results in strong sales. The airport does not make formal announcements when they are experiencing delays. Tenants should take notice of flight information monitors to determine when delays occur.

## HOUSEKEEPING/MAINTENANCE ISSUES

---

Please review your license agreement for your requirements for periodic maintenance and pest control.

However, if you come across an issue in the concourses, back hallways or stairways, otherwise referred to as "common areas"; please contact CDA's custodial service, United Maintenance, at 312-446-7265.

If you find a structural problem like a power outage, ceiling leaks, or flooding in the main concourse, gates, restrooms, or within your own spaces, please contact CDA's urgent facility management center (H&R Building) at 773-686-2248.

### *WINDOW CLEANING*

---

Tenants are responsible for cleaning both internal and external (other than airfield) store windows. Windows should be cleaned on a regular (in some cases daily and/or hourly) basis, depending on traffic. CDA/Airlines handle exterior window cleaning on the airfield.

---

#### HIRING OUTSIDE SERVICES

---

Stores may hire service providers such as housekeeping, extermination or telecommunications without prior CDA approval. However, it is required that anyone who may impact airport operations such as electricians, phone repair, plumbers, etc. be pre-approved by CDA/Unison. For ease of operation Unison has put together a list of subcontractors that is attached (See Appendix) who are badged at O'Hare.

**IMPORTANT:** All technicians working on the infrastructure of the building need to be licensed and certified in the work they are performing. Electricians, plumbers, HVAC mechanics, restaurant hood cleaning and maintenance technicians, all carry either a license or a certification. It is the tenants responsibility to get copies of the license and a copy of the CDA User Form, which is attached (See Appendix) to Unison for processing before any work is performed. The User Form informs CDA Trades, Engineers, Terminal Management and Airlines that infrastructure work is taking place. It allows for all parties to plan accordingly. Please remember how important this is. Your tenant space is one very small space within a much larger operation that can not be disrupted unexpectedly.

Anyone caught working in the terminals without following this procedure may lose their privilege to work within the airport and the escorting employee will also lose their privilege and possibly their right to work at O'Hare.

---

#### INVENTORY

---

We realize that all tenants must perform inventory; however it can never impede service to the passengers. All inventory practices must be done during closing hours. If you need to hire an outside service to perform the inventory you will need to provide a list of the outside service employees to Unison and schedule with TSA to have the employees brought through security by your employees who have escort privileges. Your management is responsible for these umbadged employees at all times while they remain on the secured side of the airport.

---

#### LOST AND FOUND

---

There is currently no centralized lost and found at the Airport. Please refer the public to the following appropriate numbers, depending on where the item was lost. (All numbers use 773 area code unless otherwise noted)

Common Areas/CPD	686-2385	Restaurants/HMS Host	686-6180
Security Checkpoints/TSA	377-1210	American Airlines	686-4234
Airport Transit System (ATS)	601-1817	US Airways	686-7155
Parking Lot (Standard Parking)	686-7530	United Airlines	601-3295
Interfaith Chapel	686-2636		

With the exception of the airlines and the TSA, all lost and found items are eventually turned over to the Chicago Police Department (CPD). Most stores and restaurants will report lost and found to the CPD.

### RECEIPT OF MAIL/PARCEL SERVICE

United States Postal Service does not deliver mail to O'Hare. Should you choose to rent a post office box, you may do so at the post office located on Irving Park Road on the outer portion of the airfield. All major parcel services (i.e. Fed Ex, UPS) deliver directly to your door. Mail boxes for outgoing mail are located in:

Terminal 1, near gate B9

Terminal 3, near gate K1

Terminal 1, near gate C18

Terminal 3, near gate L2

Terminal 3, near gate H1

### MONTHLY MEETINGS

CDA Concessions and Unison conduct monthly tenant meetings. Currently, they are scheduled for the fourth Thursday of each month at 10:00 a.m. Meetings are held in the Compliance Conference Room in ID badging below baggage claim of Terminal 3. Call (773) 894-3900 for confirmation of date and time or directions.

Tenants are required to send management or a responsible representative to pass on pertinent information. This meeting is the best way to stay connected with our airport community and stay up to date on what is happening in the airport. We use these meetings as a platform to enforce lease compliance and requirements to CDA standard, however we also put a large focus on discussing our latest programs and achievements, upcoming marketing promotions and how the concessions program can participate. We also work with CDA facilities to inform tenants about airport operations that may affect the program.

### MUSIC

Permission to offer music is reviewed on an individual basis. Typically, in-line stores are allowed music from a stereo system. In no case, may the volume level cause music to be heard outside your store location. UNISON and CDA reserve the right to ask tenants to decrease volume, and, in the case of multiple violations, require music to be removed.

Playing of music at kiosks is reviewed on an individual basis and must be pre-approved in writing by a member of the Unison management team.

### RETAIL OPERATIONS REVIEWS

Unison regularly conducts operations reviews of your locations. Unison uses an electronic Retail Management System (RMS) to log all findings on a review. These reviews are meant to be unplanned and they are meant to show how your operation works throughout the day. The reviews are performed by Unison staff members and once complete all findings are shared with the owner, manager and CDA Concessions Department. Overall goal is to make sure that the appearance and maintenance of the location meets CDA Standard Operating requirements for customer service, merchandise levels, and maintenance. Some areas of review are as follow:

- |   |  |
|---|--|
| ▪ ADA Compliance Requirements followed                  | ▪ No tattered signs                      |
| ▪ Floors cleaned/vacuumed and clear of all trip hazards | ▪ Neat/clean cash wrap                   |
| ▪ Pest Control and Abatement Plan being followed        | ▪ Pricing/product review                 |
| ▪ Proper lighting and maintenance                       | ▪ Visual merchandising                   |
| ▪ Displays dusted/cleaned and merchandised              | ▪ Inappropriate stocking and deliveries. |

---

#### **E-MAIL / INTERNET ACCESS**

There is WiFi throughout the airport the airport (SSID = Boingo). You may also refer passengers to the charging stations throughout the airport in Terminals 1, 2 and 3.

---

#### **PEST CONTROL REQUIREMENT**

Tenants are required to hire professional pest control services to monitor their locations and storage rooms on a monthly basis. A copy of your service receipt showing methods of pest control used must be kept in a log book in the space and presented upon monthly inspection by Unison, or other CDA representatives. If activity is found, your service provider must increase visits as necessary until the problem has been resolved. Your pest control service should provide you with best practice and proper placement and use of all controls implemented to provide maximum efficiency. You should check these controls daily to make sure your staff is managing properly.

Please be sure to follow your service providers recommendations with regards to cleanliness and repair suggestions to alleviate having pest control problems. A clean and organized environment is required to alleviate these types of issues. If you do find that you are having trouble please contact Unison immediately. We will coordinate efforts around your area to make sure that treatment is effective.

---

#### **PRICING REQUIREMENTS**

The Department of Consumer Services requires all prepackaged goods to be marked with the current selling price directly on the package.

All non-packaged merchandise must have the current price posted on a sign contiguous to the point of display.

Businesses that have installed Electronic Pricing Devices or scanners and the City has inspected and certified the system then they are exempt from individual price marking. However, prominently displayed signage is still required to allow the consumer proper product information.

Please contact the Department of Business Affairs and Consumer Protection for information on applying for certification.

*Lease Requirements* – All tenants are required to price items according to the guidelines of their lease requirements. Pricing surveys are submitted yearly to Unison and reviewed for accuracy. Prices can not be raised without approval by the Department of Aviation Concessions Department.

---

#### **REPAIRS AND MAINTENANCE**

It is very important to keep up with the standards and expectations of a world class airport. Maintenance and facility upkeep in your leased space is the sole responsibility of the tenant. This includes floors, walls, ceilings, operational equipment and all leased space supporting equipment (HVAC, plumbing, etc.). Tenant must keep their premises and all equipment/fixtures in safe and sanitary condition at all times. All repair work should be done at a time when it does not interrupt your normal lease required operations, so the expectation is that work will be completed after closing.

Stores may hire service providers such as housekeeping, extermination or telecommunications without prior CDA approval. However, it is required that all repairs that may impact airport operations such as electrical, telecommunications, plumbing repair that extends outside of your space, HVAC and exhaust system repairs, etc., be pre-approved by Unison/CDA. For ease of operation, Unison has put together a list of subcontractors that is attached who are badged at O'Hare.

**IMPORTANT:** It is not a requirement that you hire/contract with someone from the badged listing of sub-contractors that we have on file; however, all contractors/technicians working on the infrastructure or hazardous equipment in the building need to be licensed and certified in the work they are performing. Electricians, plumbers, HVAC mechanics, cooking equipment and refrigeration technicians, restaurant exhaust cleaning and maintenance technicians, all carry a license or a certification. Also, please be aware that the tenant is responsible for the escort, and enforcement of airport safety procedures. An escorted technician is never to be left alone in secured areas of the airport property.

*It is the tenant's responsibility to get copies of the following documents prior to work being performed and submit to Unison Property Management for review, approval and coordination, if required.*

- *Company Business License (State and/or Municipal)*
- *Company Certificate of Insurance*
- *Verification of technician licensing or certification*
- *State issued identification*
- *Hot Work Permit (if hot work is necessary for repairs)*

If your repair might affect other airport operations, a Notice to Airport User Form must be filled out and submitted to CDA for review, with all the above referenced documents attached. Unison will coordinate this procedure. The User Form informs CDA Trades, Engineers, Terminal Management and Airlines that infrastructure work is taking place. It allows for all parties to plan accordingly. There is a 3-day turnaround for approval, and this requirement should be adhered to unless it is deemed an emergency repair, in which case you must notify Unison Property Management to get assistance quickly. Please remember how important this procedure is, your tenant space is one very small space within a much larger operation that cannot be disrupted unexpectedly.

**Lifts and Ladder Use** - Passenger and employee safety is a top priority in our environment. Lifts and ladders must not be used in your spaces or on concourse during business hours and/or when there is an influx of passengers in the terminals after hours. Therefore, even changing light bulbs, high dusting, high level merchandise stocking, etc., must be done after closing. There are no exceptions to this requirement. If it is an emergency and you must pull out a ladder to make a repair in your space during normal operations, you must contact Unison and then voluntarily close your space while repair is being done. This is for the safety of your technician, employees and your customers. Please see the OSHA standard for ladder safety below:

- Ladders placed in any location where they can be displaced by workplace activities or traffic, such as in passageways, doorways, or shall be secured to prevent accidental displacement, or a barricade shall be used to keep the activities or traffic away from the ladder.
- Ladders shall be inspected by a competent person for visible defects on a periodic basis and after any occurrence that could affect their safe use.

Please understand ... for the safety of our environment, anyone found working in the terminals outside the required guidelines, will be escorted off property and the escorting manager may lose their badging privileges. Please contact Unison if there is ever a question about proper procedure.

If damage is determined to come from the building roof or exterior, contact the H&R building at 773-686-2248 first and then contact Unison so that we may follow-up.

---

#### **SHARP OBJECT AUDIT**

Since Safety and Security is paramount at O'Hare all tenants are required to submit a monthly sharp object/tools audit. A copy of a form that could be used can be obtained from Unison. You are expected to monitor all sharp objects, tools and hazardous cleaning chemicals that are on the sterile side of the airport on a per-shift daily basis. You must train

your staff to check for these items per shift to make sure that they are all still in possession. A documented log must be kept in your spaces and available for inspection by CDA, TSA or Unison.

- All scissors, box cutters, or other sharp items must remain locked up while not in use, and never left unattended while in use.
- All knives or sharp tools used in food preparation must be tethered / tied down to the prep counter area.
- If tools are kept in storage areas that are located on the sterile side of the airport you must also have a log book in those areas showing sign-out when tools are in use. Tenants must never offer prohibited items for sale or use to passengers.
- All chemical products that are flammable must be kept out of passenger reach and stored in a fire safe cabinet. You will also need to have MSDS forms for all chemicals onsite.

**If you find that you are missing one of the audited items you must contact the O'Hare Communications Center (OCC) at 773-894-5000 immediately!**

### SIGNAGE

---

- All signs must comply with CDA design specifications and all applicable codes and standards. They must be submitted to CDA Concessions Management and CDA Planning and Development for written approval.

- No promotions activities or events may be conducted with out review and prior written approval from CDA Concessions.

***For easiest approval follow these procedures:***

- Submit your request, prior to any changes, in writing, to Unison.

- Include all drawings, specification sheets or samples.
- Unison will review the request, submit it to the CDA and respond with written approval or comments.

Signs that are changed or new installations that are made without prior permission are subject to removal by Unison or CDA.

Signage or any other materials are NEVER to be taped to the window of your store. Due to the high traffic nature of our operations, all signs should be laminated, mounted to foam core or framed. Signage may be hung by monofilament line from ceilings or suction cups.

### SEVERE WEATHER PROTOCOLS

In the case of severe weather meaning high winds, tornados, heavy rain or snow all upper management will be contacted through the OCC Severe Weather Incident notification system. The paging/texting system will notify when severe weather is expected within the airport vicinity. At this point, it's time to keep aware of your surroundings because weather can change quickly.

If the weather worsens another notification will be sent informing you that airport facilities are moving to:

**Weather Plan 1** – For the tenant this weather warning is your standby notification. It means that the expected weather is about 15 to 30 minutes out and we are now waiting for direction. For the Public Safety and Airline officials it means that they are moving into position to manage evacuation of the public to safe areas.

**Weather Plan 2** – Means you are to move into evacuation mode. Proceed to designated safe areas; do not go out of the building. Proceed to lower levels; however, remember your store, restaurant, or storage area may be the closest safe area. The main idea is to move away from the glass.

---

### STORAGE ROOMS

Many tenants have storage spaces in the airport. Please understand that unescorted deliveries, leaving stock unattended or leaving your storage doors open is not allowed, due to fact that these practices can create a severe security risk.

Storage rooms are to be kept clean and free of debris. Tenants are also responsible for cleaning up left over debris from delivery operations. Storage room requirements are as follows:

- All deliveries to your storage rooms must be received, inspected and signed off by your staff. Per TSA Requirement, delivery logs must be kept for 6-months.
- All shelving and product should be 8 inches off the floor, and 3 to 6 inches from the wall and 18 inches from the ceiling and sprinkler heads.
- If you have CO2 tanks in your storage areas they must be securely capped, chained around the belly of the container and secured with a chain that is attached and mounted to the wall. Securing to a fixture or rack is not permitted; it will not be strong enough to hold the CO2 tank in case of explosion.
- Catch-all pest control must be in place. Tenants are required to keep a copy of the pest control log within the storage space for inspection by facility inspectors. Extermination of your storage is your responsibility, however, if you have a severe problem, or one that is recurring, please call Unison and they will notify the CDA Facilities group and all areas of concern may be addressed at once.

- If possible, do not allow items to encroach into the hallway, even temporarily.
- No food preparation is to occur in storage rooms.
- There must be a fire extinguisher properly hung near the exit and tagged.
- All refrigeration that needs to be added to storage must be approved by Unison. Full plan and drawings must be submitted.
- If refrigeration is in the storage space then tenant must have temperature logs to show proper food and beverage cooling requirements.

---

#### TRASH REMOVAL

---

- Trash, wet garbage and waste must be removed with proper care to manage the trash that you are removing. Wet garbage and waste must be transferred in a sealed rolling container, so as not to cause a mess in the concourse.
- Bags can break leaving a mess in common areas, which results in a safety hazard.
- Flat beds should NEVER be used to transfer wet garbage and new food product, this can cause cross contamination.
- Trash can NEVER be left outside of your store or storage rooms. It gives your store a shoddy appearance and violates all City regulations.
- NEVER leave trash piled in back hallways, stairwells or passageways. This violates fire codes and creates a hazard to other employees.
- Always break down boxes prior to placing in the recycling dumpsters located at Terminal 1, B4 dock area, Post 7 and Post 9 and Post 10.
- Never use the trash cans in the terminal for your regular garbage. You, not the custodians, are responsible for disposing of your own refuse.
- Empty trash on a regular basis. Do not allow it to accumulate inside your store or storage area – especially wet garbage. Allowing wet garbage to accumulate may create a pest problem. Controlling your garbage will help combat future pest problems.
- Pallets must be removed off premises by the tenant and are never to be left in common areas or around the trash compactor/delivery areas.

---

#### RESPONSIBILITIES

---

It is always the tenants responsibility to take trash/recycling from your store, kiosk, RMU, office or storage space to the compactor in a safe and secure manor. Whenever possible a gondola should be used to remove wet garbage. DO NOT utilize receptacles in the common area for your garbage. Trash removal procedures may vary depending upon the terminal in which your store is located. As of this printing, the City pays for all emptying and removal of the compactors.

*If tenants are found to be non-compliant with any of the above referenced issues concerning storage, maintenance and trash removal, then citations will be written for all violations. A court appearance and fine will be attached to all violations.*

---

#### *TRASH COMPACTOR LOCATIONS*

---

Terminal 1 - B: Post 7 (exit security; proceed via the T1/T2 link into Terminal 2. Utilize freight elevator down to the Post compactor). This compactor now has a swipe pad; employees must have checkpoint access in order to operate.

Terminal 1 - C: Limited Access: C-20 (utilize freight elevator down to lower level, proceed through United Airlines area to the dock for compactor)

Terminal 2: Exit security; proceed to the Post 7 freight elevator, down to compactor. This compactor now has a swipe pad; employees must have checkpoint access in order to operate.

Terminal 3: The Post 10 compactor is located landside by L concourse. Use the Post 9 freight elevator to the baggage claim level. Proceed to the other end of the building, which is Post 10, to the compactor.

---

#### *RECYCLING COMPACTORS*

---

Recycling compactors are located at B4 dock area, Post 7, Post 9 and Post 10. Everyone is asked to participate in recycling their dry paper trash. You may compact only cardboard, newspapers, magazines and regular paper in these compactors.

##### *Compactor Instructions:*

Bags must be placed in one of the gray Rubbermaid carts, and then the cart is rolled into the lift. The lift then dumps the trash into the compactor. Trash can then be compacted as usual. The bags must never be placed directly on the lift for disposal.

The mechanism to operate the lift is mounted next to the compactor control. The knob on top pulls out to turn the lift on. The lift control is directly below the power button, and must be held in the UP position to raise the lift and the DOWN position to lower it. The power button can then either be pushed in to turn it off, or it will turn off automatically.

The recycling compactors can be accessed by opening the door and placing your dry trash in the compactor. You must press the compact button after every use; otherwise it may appear that the compactor is full.

Although currently the City pays for removal of the trash from the compactors at the Posts, it is the tenant's responsibility to transport it properly to the compactors. Always close the door/gate at each compactor site; leaving it open allows odors to escape and rodents to enter.

UNISON and the CDA are always working to improve these procedures. Should tenants have additional ideas for locations, please call UNISON.

---

#### **VENDING MACHINES**

---

Your license agreement prohibits the installation or operation of any coin, card, token or otherwise activated vending machines or devices of any kind or type.

- Check to ensure that refrigerated foods are received at or below 40°F.
- Record the date received on the outside of each package, and a use-by date if applicable. Should be marked on the outside of the box to manage rotation procedure.
- Potentially hazardous foods need to be placed in storage as soon as possible. Your delivery service should be able to provide proof of proper temperature control.
- Reject potentially hazardous foods that are not at acceptable temperature and cannot be proven to be safe.
- Reject foods with damaged packaging such as torn bags or cans with swelled tops or bottoms, leakage, incomplete labels, flawed seals, rust, or dents. These items should not be allowed to stay onsite.

### Receiving Frozen and Refrigerated Foods:

7. Check temperature with a calibrated thermometer to assure that cold foods (especially potentially hazardous foods – foods in which microorganisms are able to grow rapidly – often moist, high in protein, and have a neutral or slightly acidic pH) are below 40°F.
8. Reject, with the exception of fresh shell eggs or milk (45°F), all foods that should be stored below 40°F that are delivered above 40°F. Note milk should be cooled to below 40°F within 4 hours.
9. Check at random the temperature of three different refrigerated food items for each delivery. Record date, employee initials, vendor, product name, and temperature of these products in the Receiving Temperature Log.
10. Place foods in the proper storage area (cooler or freezer) quickly to avoid potential bacterial growth. Proper cooler temperatures are 41°F or lower. Proper deep chill storage temperatures are from 26°F to 32°F or below. Proper freezer temperatures keep the food frozen solid, typically about 0°F.

11. Use First In First Out (FIFO) inventory rotation of products in all storage areas to assure that the oldest products are used first. Products with the earliest use-by or expiration dates are stored in front of products with later dates. Mixing old food with new food is not acceptable.
12. Keep products in original package until used.

Receiving Dry Goods:

7. Check dry goods for leaks, flaws, or broken packages. Dry goods should be dry, free of mold, and free of insects. If the packages are flawed, they should be rejected and not delivered into the facility.
8. Date boxes and cans with receiving date.
9. Separate chemicals from foods.
10. Check delivery invoice against the items delivered, and the purchase order.
11. Note on the invoice any items rejected.
12. Proper dry storage temperatures are between 50°F and 70°F at 50 to 60 percent humidity.

The restaurant manager will:

7. Assure that all foods come from approved vendors and sources.
  8. Schedule deliveries for off-peak hours and make sure trained staff is available to receive, inspect, document, and store food promptly.
  9. Assure that no home-prepared foods are accepted or used.
  10. Maintain **Receiving Temperature and Product Delivery Logs** to ensure proper procedures are being followed.
  11. Follow-up with staff as necessary for training procedures.
- File with HACCP records.

FOOD OPERATIONS – POWER OUTAGE GUIDELINES

---

During a power or equipment failure your food service operation is in its most vulnerable state. One of the leading causes of food-borne illness is food being in the temperature danger zone (41 – 140 degrees) for an extended period of time. You want to be prepared. Refrigeration units should be equipped with a working thermometer and refrigeration needs to be maintained at 40 degrees or below for cold food storage. Freezer units should be equipped with a working thermometer kept at zero degrees for frozen food product. Below are some tips to help you maintain product quality and safety.

- If the equipment fails or the power goes out, document the time of the outage.
- Keep the refrigerator and freezer doors closed as much as possible.
- The refrigerator will keep food cold for about 4 hours if it is unopened.
- Move whatever products can be removed to other refrigerated storage.
- If hot holding equipment goes out, discard any potentially hazardous food out of temperature control for more than 4 hours.

## Food and Beverage Demonstration Guidelines

We are so happy that you have decided to hold a demonstration of your food product. We always want to encourage you to enhance your customers experience and hope that it builds more awareness of the wonderful products that you have to offer.

Please always keep in mind that the same food safety principles practiced in your licensed food prep kitchens must also be applied at temporary, mobile facilities, and in-store product demonstrations. This same requirement also extends to any vendors that you may have come in to help you demonstrate the products.

In general, food must be protected from:

- Temperature abuse
- Individuals who practice poor personal hygiene and use improper food-handling practices
- Contamination and cross contamination

In effort to minimize potential hazards and demonstrate best practices;

***Employees must use tongs, utensils, or deli tissue to avoid bare hand contact with food. In addition, a hair restraint and disposable gloves must also be used to provide an added barrier against contamination. Gloves must not be viewed as a substitute for proper hand washing when necessary.***

Any concessionaire/vendor that intends to perform an on-site cooking demonstration and food prep outside of the licensed sanitary food prep area; **SHALL NOT SERVE THE FOOD THAT IS USED IN THE COOKING DEMONSTRATION.** Samples and refreshments may be served under the following conditions:

### Food and Beverage Service:

1. Coffee that is prepared in a licensed food preparation establishment may be served.
2. Bulk soft drinks or beverages that are dispensed from an approved dispenser may be served. These soft drink dispensers shall be serviced and filled only at the licensed prep food service establishment used as the base of operations. The drink outlet on all bulk liquid dispensers shall be protected from insects and pests, dust, and contamination by customers. When dispensers are empty they must be taken to back-of-house prep area to be cleaned, sanitized, and refilled.
3. Milk and dairy products for drinking purposes shall not be provided to the consumer unless refrigeration is at the demonstration site. These products must remain under a temperature controlled environment during storage and prior to being served to customer.
4. Cream or half and half shall be provided in an individual service container, protected pour-type pitcher, or drawn from a refrigerated dispenser designed for such service.
5. Only single-service disposable eating and drinking utensils shall be used. Utensils such as cups, straws, knives, forks, spoons and stirrers shall be individually wrapped, kept in a clean place, and handled to prevent soiling or contamination.
6. If the concessionaire intends to distribute food product to the public for sampling, they must adhere to the following process:
  - The food product must be hermetically sealed prior to opening, unless the food has been prepared in an on-site, licensed food prep area and has been individually proportioned for sampling.
  - All individually wrapped portions or samples of ***perishable food*** products that are prepared off-site, including sandwiches, pies, dairy and other similar portions, shall be plainly marked by the manufacturer on the wrapper or container in such a manner that plainly identifies the day and the month the individual portion was prepared and wrapped in an establishment licensed by the Department of Public Health.
  - The individual(s) who is serving food product must possess a valid food handler's certificate.
  - The individual(s) must wear gloves, a hair restraint, and have good hygiene, ***in addition to*** using tongs, utensils, or deli tissue to avoid any potential of contaminating foods.

- The individual(s) who is serving food product must only be stationed to pass out product and may not switch tasks during the duration of the demonstration/sampling to prevent cross-contamination (i.e. walk away from demonstration, clean, handle trash/money, talk/text on cell phone, etc.).
  - If the demonstration demands more manpower than the individuals who are serving food samples, more stationed staff members must be available to assist.
7. All condiments such as catsup, mustard, jelly, relish, sugar, salt, and pepper, etc., shall be individually portioned and packaged.
  8. During transport to the demonstration location for service, food and food utensils shall be kept and packed in covered containers or completely wrapped or packaged so as to ensure protection from contamination.
  9. All food sanitation prep and service requirements must be maintained during the entire demonstration.

Equipment:

- **Refrigeration and Heating Equipment:** Adequate mechanical cooking, hot holding and refrigeration equipment, or its equivalent as approved by Health Department standards, must be provided at all times.
  - Refrigeration equipment must be kept at 40°F or below and must be able to accommodate all perishable foods that will be sampled.
  - Heating appliances or oven temperatures must be kept at a minimum temperature of 165°F. Foods that have been properly heated shall have an internal temperature of 140°F during storage and display.
- Any cutting knives or sharp utensils that are in-use must be securely chained to the table that is being used.

Personnel:

- Employees shall maintain a high degree of personal cleanliness and shall conform to good hygienic practices during all working periods of the demonstration.
- Employees shall thoroughly wash their hands and the exposed portions of their arms with soap and warm water before starting the demonstration, during work as often as is necessary to keep them clean, and after eating, drinking, or using the toilet.
- The outer clothing of all employees shall be clean, and employees shall use effective hair restraints to prevent the contamination of food or food-contact surfaces.

Refuse Receptacles:

- The operator of the food demonstration shall maintain a suitable, tight, non-absorbent washable receptacle for refuse. Said refuse receptacle shall be adjacent to space where the demonstration/sampling is being performed.

**COMMITTEE ON HEALTH AND HUMAN RELATIONS.**

---

**CALL ON U.S. IMMIGRATION AND CUSTOMS ENFORCEMENT AGENCY TO  
CEASE MASS DEPORTATIONS OF IMMIGRANT FAMILIES.**

[R2019-594]

The Committee on Health and Human Relations submitted the following report:

CHICAGO, September 18, 2019.

*To the President and Members of the City Council:*

Your Committee on Health and Human Relations, for which a meeting was held on September 4, 2019, having had under consideration a resolution calling for officials and agents of U.S. Immigration and Customs Enforcement to cease mass deportations of immigrant families, begs leave to recommend that this Honorable Body *Adopt* said resolution which is transmitted herewith.

This recommendation was concurred in by a viva voce vote of the Committee on Health and Human Relations.

Respectfully submitted,

(Signed) RODERICK T. SAWYER,  
*Chairman.*

On motion of Alderman Sawyer, the said proposed resolution transmitted with the foregoing committee report was *Adopted* by yeas and nays as follows:

*Yeas* -- Aldermen La Spata, Hopkins, Dowell, King, Hairston, Sawyer, Mitchell, Harris, Beale, Sadlowski Garza, Thompson, Cárdenas, Quinn, Burke, Lopez, Coleman, Moore, Curtis, O'Shea, Taylor, Brookins, Rodriguez, Tabares, Scott, Sigcho-Lopez, Maldonado, Burnett, Ervin, Taliaferro, Reboyras, Cardona, Waguespack, Rodriguez-Sanchez, Austin, Ramirez-Rosa, Villegas, Mitts, Sposato, Nugent, Vasquez, Napolitano, Reilly, Smith, Tunney, Gardiner, Cappleman, Martin, Osterman, Hadden, Silverstein -- 50.

*Nays* -- None.

Alderman Thompson moved to reconsider the foregoing vote. The motion was lost.

The following is said resolution as adopted:

WHEREAS, After the City of Chicago endured the threat of raids to arrest and displace undocumented families who reside here, it is incumbent on this august body to forcefully condemn the actions of the federal Immigration and Customs Enforcement agency (ICE) and to reaffirm unwavering commitment to Chapter 2, Section 173 of the Municipal Code of the City of Chicago, commonly known as the Welcoming City Ordinance; and

WHEREAS, On Thursday July 18, 2019, three female children, ages 9, 10 and 13, all of whom are United States citizens by birthright, were detained at O'Hare International Airport by U.S. Customs and Border Protection (CBP) officials shortly after their arrival from Mexico for the apparent purpose of luring their undocumented parents to the airport and arresting them for deportation. As they were minors, U.S. Congresswoman Jan Schakowsky, who happened to be on the scene, raised the question of whether this incident might be legally considered as kidnapping. Additionally, many experts note that children can suffer psychological harm when detained or separated from their families by such an extraordinary action. Although the Welcoming City Ordinance does not currently apply here, it certainly violates its spirit; and

WHEREAS, Maria Ines Zamudio is an award-winning investigative reporter for local public radio station WBEZ. Recently, she interviewed more than a dozen veterans who were deported and are now stranded in Mexico, India, and Kenya. They all came to the United States as children with their families as legal permanent residents. When they became adults, they joined the military with the promise of expedited citizenship which was never kept even though they all saw active duty. Once they were discharged, they got into legal trouble which is common for many veterans who saw action. However, unlike citizen veterans, legal permanent residents can be deported despite their service to this nation. They are now forced to live in a country where the language and customs are foreign to them, far from their families and without access to the mental and medical help many of them so desperately need; and

WHEREAS, One such individual Ms. Zamudio interviewed is a 74-year-old Vietnam-era veteran that was deported last year. He was arrested for a felony, but the charges were subsequently dropped. However, deportation proceedings were initiated anyway. He tried to fight it until he ran out of money to pay the lawyers, so he moved to Tijuana. Still, he doesn't understand why he was deported because he was only charged with a crime but never prosecuted; and

WHEREAS, The opaque, capricious and arbitrary immigration policies that have led to these situations must be challenged by all citizens of good will. In this nation of immigrants, such unconscionable conduct is inexcusable. The appointed and elected officials in charge of agencies such as ICE and CBP should be seeking to promulgate and promote ways to welcome rather than spurn and shun those who seek asylum, as did many of their own ancestors in the not too distant past, as well as those who just seek to continue living the only life they have ever known; now, therefore,

*Be It Resolved*, That we, the undersigned members of the City of Chicago City Council, gathered here this 18<sup>th</sup> day of September 2019 A.D., demand that officials and agents of Immigration and Customs Enforcement cease threatening mass deportation of Chicago's immigrant families thereby creating great unease and extreme tension in Chicago's many diverse communities; and

*Be It Further Resolved*, That suitable copies of this resolution be prepared and presented to the local officials of Immigration and Customs Enforcement and the U.S. Customs and Border Protection agency, as well as Acting Homeland Security Secretary Kevin McAleenan and Acting Homeland Security Deputy Secretary David Pekoske.

(a) Unless a greater percentage is provided for in the declaration or bylaws, not less than 85 percent of the unit owners of a condominium property may, by affirmative vote at a meeting of unit owners duly called for such purpose, elect to sell the property. Such action shall be binding upon all unit owners, and it shall thereupon become the duty of every unit owner to execute and deliver such instruments and to perform all acts as in manner and form may be necessary to effect such sale, provided, however, that any unit owner who did not vote in favor of such action and who has filed written objection thereto with the manager or board of managers within 20 days after the date of the meeting at which such sale was approved shall be entitled to receive from the proceeds of such sale an amount equivalent to the greater of: (i) the value of his or her interest, as determined by a fair appraisal, less the amount of any unpaid assessments or charges due and owing from such unit owner or (ii) the outstanding balance of any bona fide debt secured by the objecting unit owner's interest which was incurred by such unit owner in connection with the acquisition or refinance of the unit owners interest, less the amount of any unpaid assessments or charges due and owing from such unit owner. WHEREAS, The City of Chicago ("City") is a home rule unit of government by virtue of the provisions of the Constitution of the State of Illinois of 1970 and, as such, may exercise any power and perform any function pertaining to its government and affairs; and

WHEREAS, The City, through the foreclosure of demolition liens, tax sales and other methods of acquisition, has acquired title to numerous parcels of real property which are of minimal value and costly to clean up and maintain, and because title to such properties was vested in the City, the properties were exempted from real estate taxes, thus depriving the City of revenue; and

WHEREAS, Pursuant to an ordinance (the "Original Program Ordinance") adopted by the City Council of the City ("City Council") on March 6, 1981 and published on pages 5584 and 5585 of the *Journal of the Proceedings of the City Council of the City of Chicago* ("*Journal*") for such date, the City established a program for the disposition of certain vacant real property owned by the City known as the Adjacent Neighbors Land Acquisition Program; and

WHEREAS, The Original Program Ordinance was amended by ordinances adopted on July 23, 1982 and published in the *Journal* for such date at pages 11830 -- 11833, and on January 7, 1983 and published in the *Journal* for such date at pages 14803 -- 14805 (the Original Program Ordinance and such two amending ordinances, collectively, the "Original ANLAP Ordinances"); and

WHEREAS, Pursuant to an ordinance adopted by the City Council on September 14, 1994 and published in the *Journal* for such date at pages 56195 -- 56198, the City Council repealed the Original ANLAP Ordinances, and established a new program, also known as

the Adjacent Neighbors Land Acquisition Program, for the disposition of certain vacant real property owned by the City, which ordinance was subsequently amended by ordinances adopted on September 4, 2002 and published in the *Journal* for such date at pages 92771 -- 92773, and on July 28, 2010 and published in the *Journal* for such date at pages 97370 -- 97374, and on June 25, 2014 and published in the *Journal* for such date at pages 83533 -- 83535 (such new program, as amended, the "ANLAP Program"); and

WHEREAS, Pursuant to the ANLAP Program, any deed conveying a parcel pursuant thereto shall contain covenants which: (1) prohibit the grantee from conveying, assigning or otherwise transferring the parcel except in conjunction with the sale of the real estate on which grantee's primary residence is located; and (2) require that the parcel be improved with landscaped open space within six (6) months of the conveyance of such parcel and prohibit the construction of any permanent improvements on the parcel, excluding only improvements made by the grantee on the parcel that constitute an integrated addition to the grantee's primary residence, or a garage appurtenant thereto; and (3) require the grantee to maintain the parcel in accordance with the provisions of the Municipal Code of Chicago. [O2019-6189]

WHEREAS, The City of Chicago ("City") is a home rule unit of government by virtue of the provisions of the Constitution of the State of Illinois of 1970 and, as such, may exercise any power and perform any function pertaining to its government and affairs; and

WHEREAS, The City is the owner of the vacant parcels of property located at 5220 -- 5242 West Kinzie Street and 5241 West Ferdinand Street, Chicago, Illinois 60644, which are legally described on Exhibit A attached hereto (the "Properties"); and

WHEREAS, Pursuant to ordinances adopted by the City Council of the City ("City Council") on September 29, 1999, and published at pages 11501 through 11663 in the *Journal of the Proceedings of the City Council of the City of Chicago* for such date, the City Council approved a certain redevelopment plan and project for the Madison/Austin Redevelopment Project Area ("TIF Area"); and

WHEREAS, The Properties are located in the TIF Area; and

WHEREAS, By the Hand Club for Kids (the "Grantee"), which has a business address of 415 North Laramie Avenue, Chicago, Illinois 60644, has offered to purchase the Properties from the City for the sum of One Hundred Sixty Thousand and no/100 Dollars (\$160,000.00), such amount being the appraised fair market value of the Properties, to improve with landscaped open space thereon; and

WHEREAS, Pursuant to Resolution Number 19-023-21 adopted on April 18, 2019 and Resolution Number 19-036-21 adopted on June 20, 2019, by the Plan Commission of the City (the "Commission"), the Commission approved the negotiated sale of the Properties to the Grantee; and

WHEREAS, Public notice advertising the City's intent to enter into a negotiated sale of the Properties with the Grantee and requesting alternative proposals appeared in the *Chicago Sun-Times*, a newspaper of general circulation, on March 5 and March 12, 2019; and

WHEREAS, No alternative proposals were received by the deadline indicated in the aforesaid notice; now, therefore,

*Be It Ordained by the City Council of the City of Chicago:*

SECTION 1. The City Council of the City hereby approves the sale of the Properties to the Grantee for the amount of One Hundred Sixty Thousand and no/100 Dollars (\$160,000.00).

SECTION 2. The Mayor or her proxy is authorized to execute, and the City Clerk or Deputy City Clerk is authorized to attest, a quitclaim deed conveying the Properties to the Grantee. The quitclaim deed shall contain language substantially in the following form:

This conveyance is subject to the express condition that: the Properties are improved with landscaped open space within six (6) months of the date of this deed. In the event that the condition is not met, the City of Chicago may re-enter the Properties and revest title in the City of Chicago. Grantee, at the request of the City of Chicago, covenants to execute and deliver to the City a reconveyance deed to the Properties to further evidence such revesting of title. This right of reverter in favor of the City of Chicago shall terminate upon the issuance of a certificate of completion, release or similar instrument by the City of Chicago.

The Grantee acknowledges that if the Grantee develops the Properties with a residential housing project, as defined under and that is subject to Section 2-44-080 of the Municipal Code of the City (the "2015 Affordable Requirements Ordinance"), the Grantee and such project shall be obligated to comply with the 2015 Affordable Requirements Ordinance.

The quitclaim deed also shall contain language substantially in the following form as such language may be amended by the Commissioner of the City's Department of Fleet and Facility Management, or his designee, which shall bind the Grantee and its successors and assigns:

"No construction, buildings, permanent structures or obstructions, other than a paved parking lot, shall occur or be placed over the Properties, or any portion thereof, unless and until the following environmental requirements have been satisfied:

Grantee shall obtain and provide the City with a Phase I Environmental Site Assessment ("Phase I ESA") compliant with ASTM E-1527-13 for the Properties. In the event that the Phase I ESA for the Properties identifies any Recognized Environmental Conditions ("RECs"), Grantee shall obtain a Phase II Environmental Site Assessment ("Phase II ESA") to ascertain the presence of any environmental impacts that may be associated with the RECs. The City shall have the right to review and approve the scope of work prior to the Phase II ESA being conducted. The Phase II ESA, if required, must be approved by the City. Upon the City of Chicago Department of Fleet and Facility Management's ("2FM") request, Grantee shall perform additional studies and tests for the purpose of determining whether any environmental or health risks would be associated with the development of the Properties, including, without limitation, updating or expanding the Phase I ESA and performing initial or additional Phase II testing.

Grantee shall cooperate and consult with the City at all relevant times (and in all cases upon the City's request) with respect to environmental matters. 2FM shall have the right to review and approve the sufficiency of the Phase I and Phase II ESAs (if needed). The City must be named in a reliance letter for all environmental assessment reports produced concerning the Properties.

If contamination is above residential remediation objectives as determined by Title 35 of the Illinois Administrative Code ("IAC") Part 742, then Grantee must enroll the Properties (or any portion thereof) in the Illinois Environmental Protection Agency ("IEPA") Site Remediation Program ("SRP"), unless the City determines that it is not necessary to enroll the Properties in the SRP.

If Grantee enrolls (or is required to enroll) the Properties in the SRP, Grantee acknowledges and agrees that it may not commence construction on the Properties until the IEPA issues a Remedial Action Plan Approval Letter ("RAP Approval Letter") for the Properties.

Upon receipt of the RAP Approval Letter for the Properties, Grantee covenants and agrees to complete, or cause to be completed, all investigation, sampling, monitoring, testing, removal, response, disposal, storage, remediation, treatment and other activities (collectively, "Remediation Work") necessary to obtain a Final Comprehensive residential No Further Remediation ("NFR") Letter for the Properties. The City shall have the right to review in advance and approve all documents submitted to the IEPA under the SRP, as amended or supplemented from time to time, including, without limitation, the Properties Investigation and Remediation Objectives Report, the Remedial Action Plan, the Remedial Action Completion Report, and any and all related correspondence, data and other information prepared by Grantee or its environmental consultants, and any changes thereto, and Grantee's estimate of the cost to perform the Remediation Work. Grantee shall bear sole responsibility for all

costs of the Remediation Work necessary to obtain the Final Comprehensive residential NFR Letter, and the costs of any other investigative and cleanup costs associated with the Properties. Grantee shall promptly transmit to the City copies of all environmental documents prepared or received with respect to the Remediation Work, including, without limitation, any written communications delivered to or received from the IEPA or other regulatory agencies. Grantee acknowledges and agrees that the City may withhold building permits and will not permit occupancy on the Properties until the IEPA has issued, and Grantee has recorded with the Cook County Recorder of Deeds, and the City has approved, a Final Comprehensive residential NFR Letter for the Properties (to the extent required), which approval shall not be unreasonably withheld. If Grantee fails to obtain the Final Comprehensive residential NFR Letter within six (6) months of the submission of the Remedial Action Completion Report to the IEPA, then the City shall have the right to all available remedies at law and in equity, including the recording of a notice of default of this restrictive covenant against the Properties”.

SECTION 3. If any provision of this ordinance shall be held to be invalid or unenforceable for any reason, the invalidity or unenforceability of such provision shall not affect any of the other provisions of this ordinance.

SECTION 4. All ordinances, resolutions, motions or orders inconsistent with this ordinance are hereby repealed to the extent of such conflict.

SECTION 5. This ordinance shall take effect upon its passage and approval.

[Sublease Agreement immediately follows  
Section 2 of this ordinance.]

SECTION 2. This ordinance shall be effective from and after the date of its passage and approval.

Sublease Agreement referred to in this ordinance reads as follows:

*Sublease No. 10085.*

**THIS SUBLEASE** (this “Sublease”) is made and entered into this \_\_\_\_ day of \_\_\_\_\_, 2019 (the “**Sublease Commencement Date**”), by and between the **CITY OF CHICAGO**, an Illinois Municipal Corporation and Home Rule Unit of Government, (hereinafter referred to as “**City**” or “**Subtenant**”), and **SINAI HEALTH SYSTEM**, an Illinois Not-for-Profit Corporation (hereinafter referred to as “**Sublandlord**”).

**RECITALS**

**WHEREAS**, pursuant to that certain Lease dated July 29, 2013 (a redacted copy of which is attached hereto as **Exhibit B**, the “**Master Lease**”; unless otherwise defined herein, the capitalized terms used in this Sublease shall have the meanings set forth in the Master Lease) between Sublandlord, as tenant, and Eleven Eleven Management LLC, an Illinois limited liability company, as landlord (“**Master Landlord**”), Sublandlord leases from Master Landlord approximately 6,486 rentable square feet of space located on the first floor (as more particularly described in the Master Lease, the “**Master Lease Premises**”) of the building commonly known as 1111 South Western Avenue, Chicago, Illinois (the “**Building**”); and

**WHEREAS**, subject to the terms and conditions of the Master Lease, the term of the Master Lease is currently scheduled to expire on January 31, 2024; and

**WHEREAS**, Sublandlord has agreed to sublease to the City, and the City has agreed to sublease from Sublandlord, a certain portion of the Master Lease Premises comprised of approximately 4,072 square feet of space (as depicted on the floorplan attached hereto as **Exhibit A**, the “**Sublease Premises**”) upon the terms and subject to the conditions and provisions set forth in this Sublease; and

**NOW THEREFORE**, in consideration of the covenants, terms and conditions set forth herein, the parties hereto agree and covenant as follows:

**SECTION 1. GRANT**

Sublandlord hereby subleases to the City, and the City hereby subleases from Sublandlord, the Sublease Premises for the term and rental and upon the other terms and conditions hereinafter set forth.

**SECTION 2. SUBLEASE TERM**

2.1 Sublease Term. The term of this Sublease (the “**Sublease Term**”) shall commence on the Sublease Commencement Date and shall terminate on January 31, 2024, or such earlier date as the Master Lease may be terminated in accordance with its terms or this Sublease may be terminated in accordance with the terms hereof (the “**Sublease Termination Date**”).

2.2 Option to Extend Sublease Term. The parties acknowledge that pursuant to Section 2.05 [Option to Extend] of the Master Lease, Sublandlord has the option to extend the term of the Master Lease for an additional five (5) years beyond January 31, 2024, subject to the terms and conditions of the Master Lease. In the event that Sublandlord (in Sublandlord's sole discretion), so elects to exercise its option to extend the term of the Master Lease in accordance with the terms and provisions of the Master Lease, then Subtenant shall also have the option to extend the Sublease Term for an additional period of five (5) years commencing on February 1, 2024 and expiring on January 31, 2029, provided, Subtenant shall notify Sublandlord in writing of its desire to so extend the Sublease Term no later than January 31, 2023 (time being of the essence), and the effectiveness of any such election to so extend the Sublease Term shall subject to the written approval of Sublandlord (which Sublandlord approval may be granted or withheld in Sublandlord's sole discretion). If Sublandlord so elects to extend the term of the Master Lease, if Subtenant so elects to extend the Sublease Term, and if Sublandlord so approves the extension of the Sublease Term in writing, then the Sublease Term shall be so extended through and including January 31, 2029 (subject to any sooner termination in accordance with this Sublease or the Master Lease) on all the terms and provisions of this Sublease, including, without limitation, Subtenant's obligation to pay Sublease Gross Rent in accordance with Section 3.1(f) through Section 3.1(j) of this Sublease.

### **SECTION 3. RENT, TAXES, AND UTILITIES**

3.1 Sublease Gross Rent. Commencing on the Sublease Commencement Date and thereafter during the Sublease Term, Subtenant shall pay to Sublandlord monthly gross rent ("**Sublease Gross Rent**") for the Sublease Premises in the applicable amount per month set forth below, in lawful money of the United States of America. If the Sublease Term begins or ends on a day other than the last day of a month, Sublease Gross Rent for such month shall be prorated. Notwithstanding anything written herein to the contrary, the first monthly installment of Sublease Gross Rent shall be due and payable no later than the Sublease Commencement Date.

The City shall pay Sublandlord Gross Rent for the Sublease Premises in the amount of:

- (a) Eight Thousand Eighty-Six and 00/100 Dollars (\$8,086.00) per month for the period beginning on the Sublease Commencement Date and ending on December 31, 2019.
- (b) Eight Thousand Two Hundred Eighty-Eight and 00/100 Dollars (\$8,288.00) per month for the period beginning on January 1, 2020 and ending on December 31, 2020.
- (c) Eight Thousand Four Hundred Ninety-Five and 00/100 Dollars (\$8,495.00) per month for the period beginning on January 1, 2021 and ending on December 31, 2021.

- (e) Eight Thousand Nine Hundred Twenty-Five and 00/100 Dollars (\$8,925.00) per month for the period beginning on January 1, 2023 and ending on January 31, 2024.

*If the Sublease Term is extended pursuant to Section 2.2 above, as may be applicable:*

- (f) Nine Thousand One Hundred Forty-Eight and 00/100 Dollars (\$9,148.00) per month for the period beginning on February 1, 2024 and ending on January 31, 2025.
- (g) Nine Thousand Three Hundred Seventy-Seven and 00/100 Dollars (\$9,377.00) per month for the period beginning on February 1, 2025 and ending on January 31, 2026.
- (h) Nine Thousand Six Hundred Eleven and 00/100 Dollars (\$9,611.00) per month for the period beginning on February 1, 2026 and ending on January 31, 2027.
- (i) Nine Thousand Eight Hundred Fifty-One and 00/100 (\$9,851.00) per month for the period beginning on February 1, 2027 and ending on January 31, 2028.
- (j) Ten Thousand Ninety-Seven and 00/100 (\$10,097.00) per month for the period beginning on February 1, 2028 and ending on January 31, 2029.

3.2 Time and Place of Payment. All amounts payable by Subtenant under this Sublease are collectively referred to herein as "**Rent**". All Rent shall be paid to Sublandlord at Sinai Health System, Attn: Accounting, 2621 West 15th Place, Chicago, Illinois 60608, or at such place as Sublandlord may from time to time, designate in writing to the City. Regular installments of Sublease Gross Rent shall be paid no later than the first (1st) day of each month. Notwithstanding the foregoing, the parties agree that Sublease Gross Rent, as applicable to the calendar month of January only, shall be due and payable no later than the thirty-first (31st) day of each January occurring during the Sublease Term. Subtenant's covenant to pay Rent shall be independent of every other covenant in this Sublease, and Rent shall be paid without any prior demand or notice therefor (except as expressly provided herein) and without any deduction, set-off or counterclaim, or relief from any valuation or appraisal laws.

3.3 Utilities and Telecommunications. Commencing on the Sublease Commencement Date and thereafter during the Sublease Term, the City shall assume responsibility for separately metered utilities that serve the Sublease Premises including gas, electricity, and telecommunications service. Further, the City shall be responsible for the maintenance and repair of any telephone or telecommunications devices required by the City for the City's operations within the Sublease Premises.

3.4 Additional Services. Subtenant shall pay Master Landlord on or before the applicable due dates under the Master Lease for any and all services requested by Subtenant (including, without limitation, any "extra or additional services" requested by Subtenant in accordance with Section 6.01(d) of the Master Lease) which are billed by Master Landlord directly to Subtenant rather than Sublandlord.

**SECTION 4. CONDITION AND ENJOYMENT OF PREMISES, SURRENDER**

4.1 Condition of Sublease Premises upon Delivery of Possession. Sublandlord shall deliver possession of the Sublease Premises to Subtenant in its current, "AS-IS, WHERE-IS" condition upon the full execution and delivery of this Sublease. By occupying the Sublease Premises, Subtenant shall be deemed to have accepted the Sublease Premises in its condition as of the date of such occupancy. Except as may be expressly provided in this Sublease to the contrary, no representation or warranty regarding the condition of the Sublease Premises or the Building has been made by or on behalf of Sublandlord to Subtenant.

4.2 Covenant of Quiet Enjoyment. To the extent within Sublandlord's control, Sublandlord covenants and agrees that the City, upon paying the Rent, and upon observing and keeping the covenants, agreements and conditions of this Sublease on its part to be kept, observed and performed, shall lawfully and quietly hold, occupy and enjoy the Sublease Premises during the Term without hindrance or molestation by Sublandlord (subject to the provisions of this Sublease and the Master Lease).

4.3 Use of the Sublease Premises. Unless otherwise approved by Master Landlord in writing, the City shall use the Sublease Premises only for the Permitted Use as set forth in Section 5.01 of the Master Lease. Sublandlord acknowledges that Subtenant intends on operating a mental health clinic at the Sublease Premises, and Sublandlord (for itself only and without making any representation or warranty on behalf of Master Landlord) shall not object to such use as a violation of Section 5.01 of the Master Lease.

4.4 Surrender of Sublease Premises. Upon the Sublease Termination Date, or, if sooner, upon the date of termination of Subtenant's right to possession of the Sublease Premises, Subtenant shall surrender the Sublease Premises to Sublandlord in the condition required by the applicable surrender provisions of the Master Lease (including, without limitation, Article 8 [Return of Premises] thereof).

**SECTION 5. THE MASTER LEASE**

5.1 Incorporation of the Master Lease Generally. This Sublease and all rights of Subtenant hereunder are subject and subordinate to the terms, conditions, provisions and restrictions of the Master Lease, and Subtenant shall be bound by all of the terms, conditions, provisions and restrictions of the Master Lease, and responsible for performance thereof and compliance therewith, except as explicitly set forth in this Sublease. In addition, Subtenant acknowledges that upon any termination of the Master Lease, this Sublease shall terminate, unless Master Landlord elects to have Subtenant attorn to Master Landlord. In the event that the Master Lease is terminated, Sublandlord shall notify Subtenant of such termination of the Master Lease. Except as otherwise provided in this Sublease, all of the terms, conditions, provisions and restrictions of the Master Lease are hereby incorporated into this Sublease by reference and constitute additional terms, conditions, provisions and restrictions of this Sublease, except, however: wherever in the Master Lease the word "Tenant" appears, for purposes of this Sublease, the word "Subtenant" shall be substituted; wherever in the Master Lease the word "Landlord" appears, for purposes of this Sublease, the word "Sublandlord" shall be substituted.

(subject to the limitations hereinafter provided); wherever in the Master Lease the word "**Premises**" appears, the words "**Sublease Premises**" shall be substituted; wherever in the Master Lease the word "**Term**" appears, the word "**Sublease Term**" shall be substituted; wherever in the Master Lease the phrase "**Base Rent**" appears, the phrase "**Sublease Gross Rent**" shall be substituted; and wherever in the Master Lease the word "**Rent**" is used, for the purposes of this Sublease, such term shall mean "**Rent**" as defined in this Sublease. Subtenant hereby assumes and agrees to perform faithfully and be bound by all of Sublandlord's obligations, covenants, agreements and liabilities under the Master Lease (as "Tenant" thereunder), and all terms and provisions thereof, all to the extent applicable to the Sublease Premises; provided, however, notwithstanding anything herein to the contrary, the following provisions of the Master Lease are **not** incorporated into this Sublease by reference: the final two (2) grammatical sentences of Article 1 [Grant of Lease; Premises], Article 2 [Term; Possession], Article 3 [Base Rent], Article 4 [Rent Adjustments], the second (2nd) grammatical sentence of Section 5.01 [Permitted Use], Section 5.02 [Exclusive Use], the second (2nd) grammatical paragraph of Article 7 [Condition and Care of Premises], Section 12.01 [Landlord's Work and Tenant's Work], Section 12.02 [Tenant Allowance], Section 12.04 [Signs], Article 24 [Real Estate Brokers], Article 25 [Notices], Article 27 [Security Deposit], Exhibit B [Floor Plan for the Premises], Exhibit C [Stipulation of Term of Lease], Exhibit E [Tenant's Signs], and Workletter.

5.2 Clarifications Regarding Incorporation of the Master Lease. Without limitation of the foregoing (and notwithstanding anything to the contrary in any of the provisions of the Master Lease which are incorporated herein by reference):

(a) Subtenant shall not make any alterations, additions or improvements (collectively, "**Alterations**") in or to the Sublease Premises without (i) Sublandlord's prior written consent, which may be withheld in Sublandlord's reasonable discretion, (ii) the prior written approval of Master Landlord to the proposed Alterations and the proposed general contractor performing the Alterations (to the extent required under the Master Lease), (iii) complying with all of the applicable terms and provisions of the Master Lease with respect to Alterations (including, without limitation, Section 12.03 of the Master Lease), and (iv) payment of any and all costs and expenses incurred by Sublandlord and Master Landlord in connection with the Alterations (including any and all fees payable pursuant to the Master Lease);

(b) If Subtenant desires to take any other action and the Master Lease would require that Sublandlord obtain the consent of Master Landlord before undertaking any action of the same kind, Subtenant shall not undertake the same without the prior written consent of Sublandlord, which consent shall be given or withheld in accordance with the applicable standard set forth in the Master Lease (e.g., if the Master Lease provides Master Landlord can act in its sole discretion, Sublandlord may act in its sole discretion or if the Master Lease requires Master Landlord to be reasonable, Sublandlord must also act reasonably). In all events, Sublandlord may condition its consent on the consent of Master Landlord being obtained, provided Sublandlord shall make commercially reasonable efforts to assist Subtenant in obtaining Master Landlord's consent at no additional cost to Sublandlord;

(c) All rights, privileges, options, reservations and remedies, granted or allowed to or held by Master Landlord under the Master Lease (including, without limitation, any right to enter the Sublease Premises), shall inure to the benefit of Sublandlord with respect to this Sublease;

(d) Subtenant shall maintain insurance of the kinds and in the amounts required to be maintained by Sublandlord under the Master Lease, or (provided that Master Landlord does not object) shall self-insure for the same kinds and amounts of insurance that are required to be maintained by Sublandlord under the Master Lease. All policies of insurance to be maintained by Subtenant hereunder, except to the extent that adjustment is required to account for self-insurance, shall comply with the provisions of the Master Lease. All policies of liability insurance, as applicable, shall name as additional insureds the Master Landlord and Sublandlord and any other parties required to be so named under the Master Lease, or as otherwise requested by Sublandlord. On or prior to the date that Subtenant takes possession of the Sublease Premises, Subtenant shall, if not self-insuring, deliver to Sublandlord and Master Landlord certificates of insurance satisfactory to Sublandlord and Master Landlord evidencing the coverages required under the Master Lease, and no later than thirty (30) days prior to the expiration of any such policies, Subtenant will provide Sublandlord and Master Landlord with reasonable evidence of the renewal thereof. If Subtenant elects to self-insure, Subtenant shall provide Sublandlord and Master Landlord with a self-insurance letter;

(e) Subtenant shall not do anything, or suffer or permit anything to be done, which could result in a default under the Master Lease or permit the Master Lease to be cancelled or terminated; and

(f) In addition to the provisions of Article 13 [Assignment and Subletting] of the Master Lease which are incorporated herein by reference, the following provisions shall apply with respect to any proposed assignment or subletting:

(i) If Subtenant desires to assign this Sublease or to sublet all or any portion of the Sublease Premises, Subtenant shall give Sublandlord written notice of the proposed assignment or subletting, containing the name of the proposed assignee or subtenant, a description of the proposed assignee's or subtenant's business, certified financial statements of the proposed assignee or subtenant, all of the information required under Article 13 [Assignment and Subletting] of the Master Lease and such other information with respect to the assignee and/or subtenant and/or assignment transaction as Sublandlord and/or Master Landlord may reasonably require, along with a copy of the proposed assignment or sublease document.

(ii) In addition to any other reasonable basis upon which Sublandlord may withhold its consent, it shall not be deemed unreasonable for Sublandlord to withhold its consent to any proposed assignment or subletting if (A) any of the conditions to Master Landlord's approval of an assignment or subletting under Article 13 [Assignment and Subletting] of the Master Lease are not satisfied, or

(B) Master Landlord does not approve the proposed assignment or subletting (and Sublandlord may condition Sublandlord's consent upon the receipt of a consent from Master Landlord in form reasonably satisfactory to Sublandlord).

(iii) Subtenant shall, upon demand, reimburse Sublandlord for all reasonable out-of-pocket expenses (including reasonable attorneys' fees) incurred by Sublandlord in connection with any requested consent for assignment or subletting (whether or not such consent is granted), and without limiting the foregoing, Subtenant shall be responsible for any charges owed by Sublandlord to Master Landlord under the Master Lease on account of any request for assignment or subletting made by Subtenant.

5.3 Limitations on the Incorporation of the Master Lease. Notwithstanding anything herein or in the Master Lease to the contrary (including, without limitation, the provisions of the Master Lease which have been incorporated by reference), Sublandlord and Subtenant hereby agree as follows:

(a) No Rent due and payable under this Sublease shall abate (nor shall Subtenant have any right to terminate this Sublease) by reason of any damage to, destruction of, or condemnation with respect to, the Sublease Premises or the Building or any part thereof, or as the result of any interruption in any services provided to the Sublease Premises, unless, and then only to the extent that, rental actually abates under the Master Lease on account of such event;

(b) Subtenant shall not have any right to any portion of the proceeds of any award for a condemnation or other taking, or a conveyance in lieu thereof, of all or any portion of the Building or the Sublease Premises, provided that Subtenant may, to the extent permitted under the Master Lease, assert a separate claim for Subtenant's moving expenses or personal property taken in connection with such condemnation event;

(c) Subtenant shall not have any right to exercise, and shall not have any right to cause Sublandlord to exercise, any option under the Master Lease, including, without limitation, any option to extend the term of the Master Lease, any option to expand the Master Lease Premises or any option to terminate the Master Lease;

(d) As between Sublandlord and Subtenant, in the event of any conflict between the terms, conditions and provisions of the Master Lease and the terms, conditions and provisions of this Sublease, the terms, conditions and provisions of this Sublease shall, in all instances, govern and control;

(e) Subtenant is not required to pay Base Rent or Rent Adjustments payable under the Master Lease (as Subtenant is required to pay Rent to Sublandlord only in accordance with the terms and provisions of this Sublease; subject, in any case, to Section 3 above);

(f) Except as expressly provided in this Sublease, any provisions in the Master Lease allowing (or purporting to allow) Sublandlord any rent concessions, abatements or construction allowances do not apply to this Sublease;

(g) Any obligation of Master Landlord to obtain certain insurance policies in accordance with the Master Lease shall not be obligations of Sublandlord under this Sublease; and

(h) Notwithstanding anything in Article 1 [Grant of Lease; Premises] of the Master Lease to the contrary, the City shall be permitted to utilize a proportionate share of the Parking Spaces available to Sublandlord pursuant to the Master Lease (i.e., as of the Effective Date, the City shall be permitted to utilize eleven (11) of the twenty-two (22) total Parking Spaces so available to Sublandlord), all subject to any applicable parking rules and regulations as may be established by Master Landlord for the parking lot serving the Building from time to time.

5.4 Limitation on Sublandlord Obligations. It is expressly understood and agreed that notwithstanding the incorporation by reference of certain terms and provisions of the Master Lease into this Sublease, Sublandlord does not assume and shall not have any of the obligations or liabilities of Master Landlord under the Master Lease, including, without limitation, any obligation to perform services, maintenance or any other act respecting the Sublease Premises which are the responsibility of Master Landlord under the Master Lease (including, without limitation, any obligations or liabilities of Master Landlord to provide services in accordance with Article 6 [Services] of the Master Lease); and further, Sublandlord is not making any representations or warranties made by Master Landlord in accordance with the Master Lease, and Sublandlord is not providing any indemnities made or provided by Master Landlord in accordance with the Master Lease. With respect to work, services, repairs and restoration or the performance of other obligations required of Master Landlord under the Master Lease, whether or not such provisions are incorporated into this Sublease by reference, Sublandlord's sole obligation with respect thereto shall be to request the same, upon written request from Subtenant, and to use commercially reasonable efforts to obtain the same from Master Landlord. Such efforts shall consist of, upon Subtenant's request, promptly notifying Master Landlord of any applicable non-performance under the Master Lease (upon obtaining actual knowledge thereof or upon receipt of written notice thereof from Subtenant) and requesting that Master Landlord perform its obligations under the Master Lease. Sublandlord shall not be liable in damages, nor shall Rent abate hereunder, for or on account of any failure by Master Landlord to perform the obligations and duties imposed on it under the Master Lease, unless, and then only to the extent that, rental and other payments actually abate under the Master Lease on account of such failure.

5.5 Maintenance of Master Lease. Sublandlord will maintain the Master Lease in full force and effect during the Sublease Term (to the extent that the same is within Sublandlord's control) and will not cause or knowingly allow to be caused any default by Sublandlord under the Master Lease which shall remain uncured at the expiration of the applicable cure period set forth therein; provided, however, that nothing contained herein shall be deemed to be obligate Sublandlord to cure any default under the Master Lease which was caused by any act or omission of Subtenant or any failure of Subtenant to perform the obligations of Sublandlord under the Master Lease that have been assumed by Subtenant under, or incorporated into, this Sublease.

5.6 No Privity Between Subtenant and Master Landlord. Nothing contained in this Sublease shall be construed to create privity of estate or contract between Subtenant and Master Landlord, except the agreements of Subtenant in Section 3.4 and Section 7 hereof in favor of Master Landlord, and then only to the extent of the same.

#### **SECTION 6. DEFAULT**

6.1 Events of Default. For the purposes of this Sublease, a “Default” by Subtenant shall be deemed to have occurred in any or all of the following events and/or occurrences:

(a) Any event or occurrence (after any applicable period of notice and cure) which would constitute an “Default” under the terms of Article 17 [Default] of the Master Lease, but only if such event or occurrence relates to or arises from (A) any act, failure to act or negligence of Subtenant or any of its agents, officers, employees, guests, servants, invitees, customers or contractors, or (B) any obligation of Subtenant under this Sublease, including, without limitation, any obligation of Subtenant under the terms of the Master Lease incorporated into this Sublease in accordance with Section 5 above.

(b) Any event or occurrence which causes Sublandlord, as “Tenant” under the Master Lease, to commit a “Default” under the Master Lease, but only if such event or occurrence relates to or arises from (A) any act, failure to act or negligence of Subtenant or any of its agents, officers, employees, guests, servants, invitees, customers or contractors, or (B) any obligation of Subtenant under this Sublease, including, without limitation, any obligation of Subtenant under the terms of the Master Lease incorporated into this Sublease in accordance with Section 6 above.

6.2 Remedies. In the event of any Default pursuant to Section 6.1 above, Sublandlord may exercise, without limitation of any other rights and remedies available to it hereunder or at law or in equity, any and all rights and remedies available to Master Landlord under the Master Lease in the event of an “Default” by Sublandlord as “Tenant” thereunder.

#### **SECTION 7. WAIVER OF SUBROGATION AND CERTAIN CLAIMS; INDEMNITIES**

7.1 Waiver of Subrogation. Sublandlord and Subtenant agree to have all fire and extended coverage and other property damage insurance which may be carried by either of them endorsed with a clause providing that any release from liability of or waiver of claim for recovery from the other party entered into in writing by the insured thereunder prior to any loss or damage shall not affect the validity of such policy or the right of the insured to recover thereunder, and providing further that the insurer waives all rights of subrogation which such insurer might have against the other party. Without limiting any release or waiver of liability or recovery set forth elsewhere in this Sublease, and notwithstanding anything in this Sublease which may appear to be to the contrary, each of the parties hereto waives all claims for recovery from the other party for any loss or damage to any of its property insured under valid and collectible insurance policies to the extent of any recovery collectible under such insurance policies. Notwithstanding the foregoing or anything contained in this Sublease to the contrary, any release or any waiver of claims shall not be operative, nor shall the foregoing endorsements be required, in any case where the effect of such release or waiver is to invalidate insurance

coverage or to invalidate the right of the insured to recover thereunder or to increase the cost thereof (provided that in the case of increased cost, the other party shall have the right, within ten (10) days following written notice thereof, to pay such increased cost and thereby keep such release or waiver in full force and effect).

7.2 Waiver of Certain Claims. To the extent permitted by law, and except in the case of the negligence or willful misconduct of the applicable benefiting party, Sublandlord and/or Master Landlord and/or any of their respective employees, agents or contractors shall not be liable to Subtenant, or any person claiming by, through or under Subtenant, and Subtenant waives all claims for damage to person or property sustained by Subtenant, or any person claiming by, through or under Subtenant, resulting from any accident, occurrence, business interruption, or any loss or damage to property or injury to or death of persons occurring in the Sublease Premises or the Building or in any manner growing out of or connected with Subtenant's use and occupation of the Sublease Premises or the Building or the condition thereof, including, but not limited to, claims for resulting from: (i) any equipment or appurtenances becoming out of repair; (ii) Sublandlord's failure to keep the Sublease Premises or the Building in repair; (iii) injury or damage done or occasioned by wind, water, or other natural element; (iv) any defect in or failure of plumbing, heating, ventilating, or air-conditioning equipment, electric wiring or installation thereof, gas, water and steam pipes, stairs, railings, or walks; (v) broken glass; (vi) the backing up of any sewer pipe or downspout; (vii) the bursting, leaking or running of any tank, tub, washstand, sprinkler system, water closet, waste pipe, drain or any other pipe or tank in, upon, or about such the Sublease Premises or the Building; (viii) the escape of steam or hot water; (ix) water, snow or ice being upon or coming through the roof, skylight, trapdoor, stairs, walks or any other place upon or near such the Sublease Premises or the Building or otherwise; (x) the falling of any fixtures, plaster or stucco; and (xi) any act, omission or negligence of tenants or of other persons or occupants of the Building or of adjoining or contiguous buildings or of owners of adjacent or contiguous property (or their respective employees, agents, invitees, licensees or contractors). Subtenant agrees to have all insurance which may be carried by Subtenant endorsed with a clause providing that any release from liability of or waiver of claim for recovery from Sublandlord and/or Master Landlord entered into by Subtenant prior to any loss or damage shall not affect the validity of said policy or the right of the insured to recover thereunder and providing further that the insurer waives all rights of subrogation which such insurer might have against the other party.

7.3 Damage Caused by Subtenant's Neglect. If any damage to the Sublease Premises or the Building or any equipment or appurtenance therein belonging to Sublandlord and/or Master Landlord results from any act or neglect of Subtenant, its employees, agents, contractors, or licensees, Subtenant shall be liable therefor and Sublandlord and/or Master Landlord, at its option, may repair such damage and Subtenant, upon demand by Sublandlord and/or Master Landlord (as applicable), shall reimburse the applicable demanding party for all costs of such repairs and damages in excess of amounts, if any, paid to Sublandlord and/or Master Landlord, as applicable, under insurance covering such damage.

7.4 Subtenant Responsible for Personal Property. All personal property belonging to Subtenant or any occupant of the Sublease Premises that is in the Building or the Sublease

To the extent not prohibited expressly by law and subject to Section 7.1 above, except for liability caused by the negligence or willful acts of the applicable indemnified parties, Subtenant agrees to hold Sublandlord, Master Landlord and each of their respective beneficiaries, if any, and each of their respective agents, servants and employees, harmless, defend, and to indemnify each of them against claims and liabilities, including reasonable attorneys' fees, for injuries to all persons and damage to or theft, misappropriation or loss of property occurring in or about the Sublease Premises arising from Subtenant's occupancy of the Sublease Premises or the conduct of its business or from any activity, work or thing done, permitted or suffered by Subtenant in or about the Sublease Premises or from any breach or default on the part of Subtenant in the performance of any covenant or agreement on the part of Subtenant to be performed pursuant to the terms of this Sublease or due to any other act or omission of Subtenant, its agents, contractors, licensees or employees, but only to the extent of Sublandlord's liability, if any, in excess of amounts, if any, paid to Sublandlord under insurance covering such claims or liabilities. Subtenant's obligations and liabilities pursuant to this Section shall survive the expiration or earlier termination of this Sublease. The indemnification provided in this Section 7.5 will not be effective until this Sublease is approved by the City Council of the City of Chicago as contemplated in Section 9.10 below, and Subtenant makes no warranties that City Council will approve this Sublease.

7.6 Indemnification by Sublandlord. Sublandlord's obligations and liabilities pursuant to this Section shall survive the expiration or earlier termination of this Sublease. The indemnification provided in this Section 7.6 will not be effective until this Sublease is approved by the City Council of the City of Chicago as contemplated in Section 9.10 below.

9.8 No Principal/Agent or Partnership Relationship. Nothing contained in this Sublease shall be deemed or construed by the parties hereto nor by any third party as creating the relationship of principal and agent or of partnership or of joint venture between the parties hereto.

The parties executing this Sublease hereby represent and warrant that its duly authorized and acting representative(s) have executed this Sublease and this Sublease the binding obligation of Sublandlord and the City respectively, subject to no contingencies or conditions except as specifically provided herein.

9.10 Termination of Agreement. Approval of this Sublease by the City Council of the City of Chicago is required for continuation of the Term beyond the initial one hundred eighty (180) days from the Sublease Commencement Date, and the City shall have a right to terminate this Sublease by providing five (5) days' prior written notice if this Sublease is not so approved by the City Council prior to one hundred seventy-five (175) days after the Sublease Commencement Date. Further, the City shall have the right to terminate this Sublease without

cause by providing no less than one hundred eighty (180) days prior written notice to Sublandlord (provided in no event shall any such notice be delivered sooner than January 1, 2020). Any such early termination as provided in this Section 9.10 shall be without prepayment or penalty.

The "**prevailing party**" shall be determined based upon an assessment of which party's major arguments or positions taken in the action or proceeding could fairly be said to have prevailed (whether by compromise, settlement, abandonment by the other party of its claim or defense, final decision after any appeals, or otherwise) over the other party's major arguments or positions on major disputed issues. Any fees and cost incurred in enforcing a judgment shall be recoverable separately from any other amount included in the judgment and shall survive and not be merged in the judgment.

#### **SECTION 11. SUBLANDLORD DISCLOSURES AND AFFIRMATIONS**

11.1 Business Relationships. Sublandlord acknowledges (a) receipt of a copy of Section 2-156-030 (b) of the Municipal Code of Chicago, (b) that it has read such provision and understands that pursuant to such Section 2-156-030 (b) it is illegal for any elected official of the City, or any person acting at the direction of such official, to contact, either orally or in writing, any other the City official or employee with respect to any matter involving any person with whom the elected City official or employee has a "Business Relationship" (as described in Section 2-156-080 of the Municipal Code of Chicago), or to participate in any discussion in any City Council committee hearing or in any City Council meeting or to vote on any matter involving the person with whom an elected official has a Business Relationship, and (c) notwithstanding anything to the contrary contained in this Sublease, that a violation of Section 2-156-030 (b) by an elected official, or any person acting at the direction of such official, with respect to any transaction contemplated by this Sublease shall be grounds for termination of this Sublease and the transactions contemplated hereby. Sublandlord hereby represents and warrants that no violation of Section 2-156-030 (b) has occurred with respect to this Sublease or the transactions contemplated hereby.

11.2 Patriot Act Certification. Sublandlord represents and warrants that neither Sublandlord nor any Affiliate (as hereafter defined) thereof is listed on any of the following lists maintained by the Office of Foreign Assets Control of the U.S. Department of the Treasury, the Bureau of Industry and Security of the U.S. Department of Commerce or their successors, or on any other list of persons or entities with which the City may not do business under any applicable Laws: the Specially Designated Nationals List, the Denied Persons List, the Unverified List, the

Entity List and the Debarred List. As used in this Section, an “**Affiliate**” shall be deemed to be a person or entity related to Sublandlord that, directly or indirectly, through one or more intermediaries, controls, is controlled by or is under common control with Sublandlord, and a person or entity shall be deemed to be controlled by another person or entity, if controlled in any manner whatsoever that results in control in fact by that other person or entity (or that other person or entity and any persons or entities with whom that other person or entity is acting jointly or in concert), whether directly or indirectly and whether through share ownership, a trust, a contract or otherwise.

11.3 Prohibition on Certain Contributions-Mayoral Executive Order No. 2011-4. Sublandlord agrees that Sublandlord, any person or entity who directly or indirectly has an ownership or beneficial interest in Sublandlord of more than 7.5 percent (“**Owners**”), spouses and domestic partners of such Owners, Sublandlord’s contractors (i.e., any person or entity in direct contractual privity with Sublandlord regarding the subject matter of this Sublease) (“**Contractors**”), any person or entity who directly or indirectly has an ownership or beneficial interest in any Contractor of more than 7.5 percent (“**Sub-owners**”) and spouses and domestic partners of such Sub-owners (Sublandlord and all the other preceding classes of persons and entities are together the “**Identified Parties**”), shall not make a contribution of any amount to the Mayor of the City of Chicago (the “**Mayor**”) or to his political fundraising committee (a) after execution of this Sublease by Sublandlord, (b) while this Sublease or any Other Contract (as hereinafter defined) is executory, (c) during the Sublease Term of this Sublease or any Other Contract, or (d) during any period while an extension of this Sublease or any Other Contract is being sought or negotiated. This provision shall not apply to contributions made prior to May 16, 2011, the Sublease Commencement Date of Executive Order 2011-4.

Sublandlord represents and warrants that from the later of (a) May 16, 2011, or (b) the date the City approached Sublandlord, or the date Sublandlord approached the City, as applicable, regarding the formulation of this Sublease, no Identified Parties have made a contribution of any amount to the Mayor or to his political fundraising committee.

Sublandlord agrees that it shall not: (a) coerce, compel or intimidate its employees to make a contribution of any amount to the Mayor or to the Mayor’s political fundraising committee; (b) reimburse its employees for a contribution of any amount made to the Mayor or to the Mayor’s political fundraising committee; or (c) bundle or solicit others to bundle contributions to the Mayor or to his political fundraising committee.

Sublandlord agrees that the Identified Parties must not engage in any conduct whatsoever designed to intentionally violate this provision or Mayoral Executive Order No. 2011-4 or to entice, direct or solicit others to intentionally violate this provision or Mayoral Executive Order No. 2011-4.

Notwithstanding anything to the contrary contained herein, Sublandlord agrees that a violation of, non-compliance with, misrepresentation with respect to, or breach of any covenant or warranty under this Sublease or violation of Mayoral Executive Order No. 2011-4 constitutes a breach and default under this Sublease, and under any Other Contract for which no opportunity to cure will be granted, unless the City, in its sole discretion, elects to grant such an opportunity

to cure. Such breach and default entitles the City to all remedies (including, without limitation, termination for default) under this Sublease, and under any Other Contract, at law and in equity. This provision amends any Other Contract and supersedes any inconsistent provision contained therein.

If Sublandlord intentionally violates this provision or Mayoral Executive Order No. 2011-4 prior to the Closing, the City may elect to decline to close the transaction contemplated by this Sublease.

For purposes of this provision:

(a) **"Bundle"** means to collect contributions from more than one source, which contributions are then delivered by one person to the Mayor or to his political fundraising committee.

(b) **"Other Contract"** means any other agreement with the City to which Sublandlord is a party that is (i) formed under the authority of Chapter 2-92 of the Municipal Code of Chicago; (ii) entered into for the purchase or Sublease of real or personal property; or (iii) for materials, supplies, equipment or services which are approved or authorized by the City Council.

(c) **"Contribution"** means a **"political contribution"** as defined in Chapter 2-156 of the Municipal Code of Chicago, as amended.

(d) Individuals are **"domestic partners"** if they satisfy the following criteria:

(i) they are each other's sole domestic partner, responsible for each other's common welfare; and

(ii) neither party is married; and

(iii) the partners are not related by blood closer than would bar marriage in the State of Illinois; and

(iv) each partner is at least 18 years of age, and the partners are the same sex, and the partners reside at the same residence; and

(v) two of the following four conditions exist for the partners:

(1) The partners have been residing together for at least 12 months.

(2) The partners have common or joint ownership of a residence.

(3) The partners have at least two of the following arrangements:

(A) joint ownership of a motor vehicle;

- (B) joint credit account;
  - (C) a joint checking account;
  - (D) a Sublease for a residence identifying both domestic partners as landlords.
- (4) Each partner identifies the other partner as a primary beneficiary in a will.

(e) **“Political fundraising committee”** means a **“political fundraising committee”** as defined in Chapter 2-156 of the Municipal Code of Chicago, as amended.

**11.4 Waste Ordinance Provisions.** In accordance with Section 11-4-1600(e) of the Municipal Code of Chicago, Sublandlord warrants and represents that, to the best of its actual knowledge without inquiry or investigation, Sublandlord and its contractors and subcontractors, have not violated and are not in violation of any provisions of Section 7-28 or Section 11-4 of the Municipal Code (the **“Waste Sections”**). During the period while this Sublease is executory, Sublandlord’s, any general contractor’s or any subcontractor’s violation of the Waste Sections, whether or not relating to the performance of this Sublease, constitutes a breach of and an event of default under this Sublease, for which the opportunity to cure, if curable, will be granted only at the sole designation of the Commissioner of the Department of Fleet and Facility Management. Such breach and default entitles the City to all remedies under the Sublease, at law or in equity. This section does not limit Sublandlord’s, general contractor’s and its subcontractors’ duty to comply with all applicable federal, state, county and municipal laws, statutes, ordinances and executive orders, in effect now or later, and whether or not they appear in this Sublease. Non-compliance with these terms and conditions may be used by the City as grounds for the termination of this Sublease, and may further affect Sublandlord’s eligibility for future contract awards. In accordance with Section 11-4-1600(e) of the Municipal Code of Chicago, a violation of Section 7-28-390, 7-28-440, 11-4-1410, 11-4-1420, 11-4-1450, 11-4-1500, 11-4-1530, 11-4-1550, or 11-4-1560 by the Sublandlord, whether or not in the performance of this Sublease, shall be a breach of this Sublease.

**11.5 Failure to Maintain Eligibility to do Business with City.** Failure by Sublandlord or any controlling person (as defined in Section 1-23-010 of the Municipal Code of Chicago) thereof to maintain eligibility to do business with the City of Chicago as required by Section 1-23-030 of the Municipal Code of Chicago shall be grounds for termination of this Sublease and the transactions contemplated thereby. Sublandlord shall at all times comply with Section 2-154-020 of the Municipal Code of Chicago.

**11.6 Cooperation with Office of Inspector General.** It is the duty of Sublandlord and all officers, directors, agents, partners, and employees of Sublandlord to cooperate with the Inspector General in any investigation or hearing undertaken pursuant to Chapter 2-56 of the Municipal Code. Sublandlord represents and warrants that it understands and will abide by all provisions of Chapter 2-56 of the Municipal Code.

11.7 2014 Hiring Plan Prohibitions.

(i) The City is subject to the June 16, 2014 "City of Chicago Hiring Plan", as amended (the "**2014 City Hiring Plan**") entered in *Shakman v. Democratic Organization of Cook County*, Case No 69 C 2145 (United States District Court for the Northern District of Illinois). Among other things, the 2014 City Hiring Plan prohibits the City from hiring persons as governmental employees in non-exempt positions on the basis of political reasons or factors.

(ii) Sublandlord is aware that City policy prohibits City employees from directing any individual to apply for a position with Sublandlord, either as an employee or as a subcontractor, and from directing Sublandlord to hire any individual as an employee or as a subcontractor. Accordingly, Sublandlord must follow its own hiring and contracting procedures, without being influenced by City or City employees. Any and all personnel provided by Sublandlord under this Sublease are employees or subcontractors of Sublandlord, not employees of the City. This Lease is not intended to and does not constitute, create, give rise to, or otherwise recognize an employer-employee relationship of any kind between the City and any personnel provided by Sublandlord.

(iii) Sublandlord will not condition, base, or knowingly prejudice or affect any term or aspect to the employment of any personnel provided under this Sublease, or offer employment to any individual to provide services under this Sublease, based upon or because of any political reason or factor, including, without limitation, any individual's political affiliation, membership in a political organization or party, political support or activity, political financial contributions, promises of such political support, activity or financial contributions, or such individual's political sponsorship or recommendation. For purposes of this Sublease, a political organization or party is an identifiable group or entity that has as its primary purpose the support of or opposition to candidates for elected public office. Individual political activities are the activities of individual persons in support of or in opposition to political organizations or parties or candidates for elected public office.

(iv) In the event of any communication to Sublandlord by a City employee or City official in violation of paragraph (ii) above, or advocating a violation of paragraph (iii) above, Sublandlord will, as soon as is reasonably practicable, report such communication to the Hiring Oversight Section of the City's Office of the Inspector General ("**OIG Hiring Oversight**"), and also to the head of the relevant City department utilizing services provided under this Sublease. Sublandlord will also cooperate with any inquiries by **OIG Hiring Oversight**.

11.8 Non-Discrimination. Sublandlord shall not discriminate on the basis of race, color, sex, gender identity, age, religion, disability, national origin, ancestry, sexual orientation, marital status, parental status, military discharge status, source of income, nor against anyone seeking contraceptive or family planning services from the City, in its provision of services or with respect to any individual seeking access to the City's Sublease Premises in the Building or in the administration of this Sublease.

**SECTION 12. CONSENT TO SUBLEASE**

Sublandlord and Subtenant acknowledge that the Master Lease requires Sublandlord to obtain the written consent of Master Landlord to this Sublease, and Sublandlord and Subtenant agree that this Sublease shall not be effective until such written consent is obtained from Master Landlord. In the event that, within sixty (60) days after the execution hereof, Master Landlord's written consent to this Sublease has not been obtained, then this Sublease may be terminated by either of Sublandlord or Subtenant upon written notice to the other party (provided such notice is delivered prior to any actual delivery of Master Landlord's consent to this Sublease), and upon such termination neither party hereto shall have any further rights against or obligations to the other party hereto, and Sublandlord shall promptly return any prepaid Rent to Subtenant.

**IN WITNESS WHEREOF**, the parties have executed this Sublease as of the day and year first above written.

### AMERICANS WITH DISABILITIES ACT

The parties acknowledge that the Americans With Disabilities Act of 1990 (42 U.S.C. '12101 et seq.) and regulations and guidelines promulgated thereunder, as all of the same may be amended and supplemented from time to time (collectively referred to herein as the "ADA") establish requirements under Title III of the ADA ("Title III") pertaining to business operations,

accessibility and barrier removal, and that such requirements may be unclear and may or may not apply to the Premises and the Building depending on, among other things: (1) whether Tenant's business operations are deemed a "place of public accommodation" or a "commercial facility," (2) whether compliance with such requirements is "readily achievable" or "technically infeasible," and (3) whether a given alteration affects a "primary function area" or triggers so-called "path of travel" requirements. The parties acknowledge and agree that Tenant has been provided an opportunity to inspect the Premises and the Building sufficient to determine whether or not the Premises and the Building in their condition current as of the date hereof deviate in any manner from the ADA Accessibility Guidelines ("ADAAG") or any other requirements under the ADA pertaining to the accessibility of the Premises or the Building. Tenant further acknowledges and agrees that except as may otherwise be specifically provided herein, Tenant accepts the Premises and the Building in "as-is" condition and agrees that Landlord makes no representation or warranty as to whether the Premises or the Building conform to the requirements of the ADAAG or any other requirements under the ADA pertaining to the accessibility of the Premises or the Building. Tenant has prepared or reviewed the plans and specifications for the Tenant's Work and has independently determined that such plans and specifications are in conformance with the ADAAG and any other requirements of the ADA. Tenant further acknowledges and agrees that to the extent that Landlord prepared, reviewed or approved any of those plans and specifications, such action shall in no event be deemed any representation or warranty that the same comply with any requirements of the ADA. Notwithstanding anything to the contrary in this Lease, the parties hereby agree to allocate responsibility for Title III compliance as follows: (a) Tenant shall be responsible for all Title III compliance and costs in connection with the Premises, including structural work, if any, and including any leasehold improvements or other work to be performed in the Premises under or in connection with this Lease, but excluding any matters with respect to exterior entrances to the Premises which Landlord shall perform and the costs of which shall be includable in Expenses, and (b) with respect to areas in the Project outside of the Premises, Landlord shall perform, and Tenant shall be responsible for the cost of, any so-called Title III "path of travel" requirements triggered by any construction activities or alterations in the Premises, but excluding matters in the parking lot serving the Building and included within Landlord's Work. Except as set forth above with respect to Landlord's Title III obligations, Tenant shall be solely responsible for all other requirements under the ADA relating to the Tenant or any affiliates or persons or entities related to the Tenant (Collectively, "Affiliates"), operations of the Tenant or Affiliates, or the Premises, including, without limitation, requirements under Title I of the ADA pertaining to Tenant's employees.

If not so exercised, Tenant's option to extend shall thereupon expire.

(b) Rent payable during the Extension Periods with respect to the Premises shall be increased each Lease Year during the Extension Periods as described in Section 3.01.

(c) Tenant may only exercise its option to extend and an exercise thereof shall only be effective, if at the time of Tenant's exercise of the option and on the commencement date of the Extension Period, this Lease is in full force and effect and no event or circumstance exists which, with the giving of notice or the passage of time, or both, could constitute a default by Tenant beyond any notice or cure period under this Lease, and, inasmuch as this option is intended only for the original Tenant named in this Lease and any Permitted Transferees (as hereinafter defined), the entire Premises are then occupied by the original Tenant herein or its Permitted Transferees, and Tenant has not assigned this Lease or sublet any portion of the Premises to any party other than a Permitted Transferee. Notwithstanding anything contained in this clause (c) to the contrary:

(i) The cost of any capital improvements to the Building made after the date of this Lease amortized over the reasonably expected useful life of such improvement, together with interest on the unamortized cost of any such improvement (at the prevailing construction loan rate available to Landlord on the date the cost of such improvement was incurred) shall be included in Expenses, but only to the extent such capital improvements were (y) required pursuant to applicable governmental laws, statutes, ordinances, rules, and/or regulations enacted after the Lease Date, and/or (z) made to reduce Expenses, in Landlord's reasonable discretion.

(ii) If the Building is not at least ninety-five percent (95%) occupied by tenants during all or a portion of any Adjustment Year, or if during all or a portion of any Adjustment Year Landlord is not furnishing to any tenant or tenants any particular service, the cost of which, if furnished by Landlord, would be included in Expenses, then Landlord may elect to make an adjustment for such year of components of Expenses and the amounts thereof which may vary depending upon the occupancy level of the Building or the number of tenants using the service. Any such adjustments shall be deemed costs and expenses paid or incurred by Landlord and included in Expenses for such year, as if the Building had been ninety-five percent (95%) occupied during the entire Adjustment Year, Landlord had furnished such service at its expense to all tenants for the entire Adjustment Year and Landlord had paid or incurred such costs and expenses for such year.

(iii) If any item of Expenses, although paid or incurred in one year, relates to more than one calendar year, at the option of Landlord, such item may be allocated proportionately among such related calendar years.

(iv) Expenses shall not include costs of repairs, alterations or replacements caused by casualty losses for which Landlord is compensated through proceeds of insurance or for which Landlord would have been compensated had Landlord maintained commercial property insurance on the Building required to be maintained by Landlord; attorneys' fees, costs and disbursements incurred in connection with the negotiation, execution and enforcement of leases with other tenants or prospective tenants of the Building; costs incurred due to violation by Landlord of the terms of any lease for space in the Building or costs of any indemnity payments made by Landlord pursuant to any such lease because of a violation by Landlord of the terms of such other lease; any payments made to subsidiaries of Landlord or entities under common control with Landlord except if such payments are for services or goods on, to or for the Project, and only to the extent that the cost of such services and goods do not exceed market rates; accounting fees (including those for the preparation of Landlord's income taxes), except accounting fees incurred in connection with the operation and management of the Building; costs of removal or remediation of any Hazardous Material existing at the Property (and not related to Tenant's obligations under Article 26 hereof); transaction costs incurred in connection with the sale, financing, refinancing, mortgaging, or other change of ownership of the Building;

Landlord's general overhead and administrative costs and expenses not related to operation of the Building; costs arising from the gross negligence or willful misconduct of Landlord, its agents, employees or contractors; costs arising from Landlord's charitable or political contributions; and bad debt loss, rent loss (except for the premiums, if any, for rent loss insurance), or reserves.

(d) "Taxes" shall mean real estate taxes, general or special assessments, sewer and water rents, rates and charges, transit and transit district taxes, taxes based upon the receipt of rent, and any other federal, state or local governmental charge, whether general, special, ordinary or extraordinary (but not including income, transfer, or franchise taxes or any other taxes imposed upon or measured by Landlord's income or profits, except as provided herein), which may now or hereafter be levied, assessed or imposed against the Real Property, and reasonable fees and costs incurred by Landlord in seeking the reduction of Taxes.

Notwithstanding anything contained in this clause (d) to the contrary:

(i) If at any time the method of taxation then prevailing is altered so that any new or additional tax, assessment, levy, imposition or charge or any part thereof is imposed upon Landlord in place or partly in place of any such Taxes or contemplated increase therein, or in lieu of Taxes or any portion thereof, and is measured by or is based in whole or in part upon the Real Property or the rents or other income therefrom, then all such new taxes, assessments, levies, impositions or charges or part thereof, to the extent that they are so measured or based, shall be included in Taxes levied, assessed or imposed against the Real Property to the extent that such items would be payable if the Real Property were the only property of Landlord subject thereto and the income received by Landlord from the Real Property were the only income of Landlord.

(ii) Notwithstanding the year for which any such taxes or assessments are levied, (A) in the case of taxes or special assessments which may be paid in installments, the amount of each installment, plus any interest payable thereon, paid during a calendar year shall be included in Taxes for that year and (B) if any taxes or assessments payable during any calendar year shall be computed with respect to a period in excess of twelve (12) calendar months, then taxes or assessments applicable to the excess period shall be included in Taxes for that year. Except as provided in the preceding sentence, all references to Taxes "for" a particular year shall be deemed to refer to taxes levied, assessed or otherwise imposed for such year without regard to when such taxes are payable.

(iii) Taxes shall also include any personal property taxes (attributable to the calendar year in which paid) imposed upon the furniture, fixtures, machinery, equipment, apparatus, systems and appurtenances which are components of the Project.

(e) "Rentable Area of the Building" shall mean the sum of the areas on all floors of the Building computed by measuring to the center line of the exterior glass and excluding only public stairs, elevator shafts, flues, stacks, pipe shafts and vertical ducts ("vertical penetrations").

No deduction shall be made for columns or projections. The Rentable Area of the Building shall be deemed to be thirteen thousand eight hundred thirty-six (13,836) square feet of rentable space.

(f) "Rentable Area of the Premises" shall mean (i) if this Lease is for an entire floor, the area of the entire floor measured to the center line of the exterior glass, excluding vertical penetrations, plus a proportionate share of mechanical space and lobby and common service areas in the Building or (ii) if this Lease is for less than an entire floor, the area measured from the center line of the exterior glass to the center line of all demising partitions and to the outside face of corridor partitions plus (A) a proportionate share of public areas (including corridors, toilets, elevator lobby or lobbies, mechanical spaces and electrical and telephone closets) on the floor on which the Premises are located and (B) a proportionate share of mechanical space and lobby and common service areas in the Building. No deduction shall be made for columns or projections. The Rentable Area of the Premises shall be deemed to be six thousand four hundred eighty six (6,486) rentable square feet.

(g) "Tenant's Proportionate Share" shall mean forty seven percent (47%), which is the percentage obtained by dividing the Rentable Area of the Premises by the Rentable Area of the Building.

(h) "Rent Adjustments" shall mean all amounts determined pursuant to this Article, including all amounts payable by Tenant to Landlord on account thereof.

4.03 Computation of Rent Adjustments. Tenant shall pay Rent Adjustments for each Adjustment Year determined as hereinafter set forth. Rent Adjustments payable by Tenant with respect to each Adjustment Year during which an Adjustment Date falls shall include the following amounts:

(a) the product of Tenant's Proportionate Share multiplied by the amount of Taxes for such Adjustment Year (said product being hereinafter referred to as the "Tax Adjustment"); plus

(b) the product of Tenant's Proportionate Share multiplied by the amount of Expenses for such Adjustment Year (said product being hereinafter referred to as the "Expense Adjustment").

Tenant agrees and acknowledges that Landlord has made no representation, warranty or guaranty relating to the amount of Taxes and Expenses. Tenant has had an opportunity to consult with Landlord with respect to the Taxes and Expenses projected for the operation of the Building but has not relied upon any statements or representations of Landlord or of any agent or affiliate of Landlord in regard thereto in executing this Lease and in agreeing to perform the terms and covenants hereof and shall make no claim against Landlord based thereon.

4.04 Payments of Rent Adjustments; Projections. Tenant shall pay Rent Adjustments to Landlord in the manner hereinafter provided.

(a) Tax Adjustment and Expense Adjustment. Tenant shall make payments on account of Tax Adjustment and Expense Adjustment (the aggregate of such payments with

respect to any Adjustment Year being hereinafter referred to as the "Rent Adjustment Deposit") as follows:

(i) Prior to each Adjustment Date and from time to time during the Adjustment Year in which such Adjustment Date falls, Landlord may deliver to Tenant a written notice or notices (each such notice being hereinafter referred to as a "Projection Notice") setting forth (A) Landlord's reasonable estimates, forecasts or projections (collectively, the "Projections") of either or both of Taxes and Expenses for such Adjustment Year and (B) Tenant's Rent Adjustment Deposits with respect to the Tax Adjustment and Expense Adjustment components of Rent Adjustments for such Adjustment Year based upon the Projections. Landlord's budgets of Expenses and the Projections based thereon may assume ninety-five percent (95%) occupancy of the Building and that Landlord will furnish all services included in Expenses to all tenants of the Building. Landlord shall use commercially reasonable efforts to deliver a Projection Notice not later than thirty (30) days prior to commencement of the applicable Adjustment Year and Landlord shall be entitled to deliver one (1) or more additional Projection Notices, as may be commercially reasonable, during such Adjustment Year to account for unanticipated increases in Expenses or Taxes.

(ii) Tenant shall commence payments of monthly installments of Rent Adjustment Deposits on the first day of the first calendar month during the Term following Landlord's delivery of the first Projection Notice hereunder. On such date, and on or before the first day of each calendar month thereafter of the Adjustment Year covered by such Projection Notice, Tenant shall pay to Landlord one-twelfth (1/12) of the Rent Adjustment Deposits shown in the Projection Notice. Within fifteen (15) days following Landlord's delivery of a Projection Notice for an Adjustment Year in progress, Tenant also shall pay Landlord a lump sum equal to the Rent Adjustment Deposits shown in the Projection Notice less the sum of (A) any previous payments on account of Rent Adjustment Deposits made with respect to such Adjustment Year and (B) monthly installments on account of Rent Adjustment Deposits due for the remainder of such Adjustment Year. Until such time as Landlord furnishes a Projection Notice for an Adjustment Year, Tenant shall continue to pay monthly installments of Rent Adjustment Deposits in the amount shown by the most recent Projection Notice or, if the Tax and Expense Adjustment for the Adjustment Year covered by such Projection Notice has been determined, one-twelfth (1/12) of such Tax and Expense Adjustment, whichever is greater.

4.05 Readjustments. The following readjustments shall be made by Landlord and Tenant for Expense Adjustment and Tax Adjustment:

(a) Within one hundred eighty (180) days following the end of each Adjustment Year, except as to matters beyond Landlord's reasonable control, Landlord shall determine the actual amount of Expenses to be used in calculating the Expense Adjustment for such Adjustment Year, and Landlord shall notify Tenant in writing (any such notice hereinafter referred to as "Landlord's Expense Statement") of such Expenses and Tenant's Expense Adjustment for such Adjustment Year (provided, Landlord's failure to do so shall not affect

Tenant's obligations pursuant to this Lease). If the Expense Adjustment owed for such Adjustment Year exceeds the Expense Adjustment component of the Rent Adjustment Deposits paid by Tenant during such Adjustment Year, then Tenant, within thirty (30) days after the date of Landlord's Expense Statement, shall pay to Landlord an amount equal to the excess of the Expense Adjustment over the Expense Adjustment component of the Rent Adjustment Deposits paid by Tenant during such Adjustment Year. If the Expense Adjustment component of the Rent Adjustment Deposits paid by Tenant during such Adjustment Year exceeds the Expense Adjustment owed for such Adjustment Year, then Landlord shall credit such excess to Rent payable after the date of Landlord's Expense Statement, or, at its option, may credit such excess to any Rent theretofore due and owing, until such excess has been exhausted. If this Lease expires or is terminated prior to full application of such excess, Landlord shall pay to Tenant the balance thereof not theretofore applied against Rent and not reasonably required for payment of Rent for the Adjustment Year in which this Lease expires, subject to Tenant's obligations under Section 4.08 hereof, provided Tenant has vacated the Premises and otherwise has surrendered the Premises to Landlord in accordance with this Lease and Tenant is not then in default under this Lease.

(b) Within one hundred eighty (180) days following the end of each Adjustment Year, except as to matters beyond Landlord's control, Landlord shall determine the actual amount of Taxes to be used in calculating the Tax Adjustment for such Adjustment Year, and Landlord shall notify Tenant in writing (any such notice hereinafter referred to as "Landlord's Tax Statement") of such Taxes for such Adjustment Year (provided, Landlord's failure to do so shall not affect Tenant's obligations pursuant to this Lease). If the Tax Adjustment owed for such Adjustment Year exceeds the Tax Adjustment component of the Rent Adjustment Deposits paid by Tenant during such Adjustment Year, then Tenant, within thirty (30) days after the date of Landlord's Tax Statement, shall pay to Landlord an amount equal to the excess of the Tax Adjustment over the Tax Adjustment component of the Rent Adjustment Deposits paid by Tenant during such Adjustment Year. If the Tax Adjustment component of the Rent Adjustment Deposits paid by Tenant during such Adjustment Year exceeds the Tax Adjustment owed for such Adjustment Year, then Landlord shall credit such excess to Rent payable after the date of Landlord's Tax Statement, or, at its option, may credit such excess to any Rent theretofore due and owing, until such excess has been exhausted. If this Lease expires or is terminated prior to full application of such excess, Landlord shall pay to Tenant the balance thereof not theretofore applied against Rent and not reasonably required for payment of Rent for the Adjustment Year in which this Lease expires, subject to Tenant's obligations under Section 4.08 hereof, provided Tenant has vacated the Premises and otherwise has surrendered the Premises to Landlord in accordance with this Lease and Tenant is not then in default under this Lease.

No interest or penalties shall accrue on any amounts which Landlord is obligated to credit or pay to Tenant pursuant to this Section.

4.06 Books and Records. Landlord shall maintain books and records showing Taxes and Expenses in accordance with sound accounting and management practices. Tenant or its representative shall have the right to examine Landlord's books and records showing Taxes and Expenses upon reasonable prior notice and during normal business hours at any time within thirty sixty (60) days following the furnishing by Landlord to Tenant of Landlord's Expense

Statement or Landlord's Tax Statement, as the case may be, provided for in Section 4.05. Unless Tenant takes written exception to any item within sixty (60) days after the furnishing of Landlord's Expense Statement or Landlord's Tax Statement, as the case may be, containing such item, such Landlord's Statement shall be considered final and accepted by Tenant.

4.07 Audit Procedures. If Tenant notifies Landlord within such sixty (60) day period that Tenant disputes any specific item or items in any Landlord's Expense Statement or Landlord's Tax Statement, as the case may be, and such dispute is not resolved between Landlord and Tenant within thirty (30) days after the date such notice is given by Tenant, either party, during the fifteen (15) day period following the expiration of the thirty (30) day period commencing on the date such notice is given, may refer such disputed item or items for determination to an independent certified public accountant selected by such party and approved by the other party, which approval shall not be withheld unreasonably, and the determination of such accountant shall be final, conclusive and binding upon Landlord and Tenant. Tenant agrees to pay all costs involved in such determination except in the case of Tax Adjustment and Expense Adjustment for any Adjustment Year where it is determined that Landlord has overcharged Tenant for a Tax Adjustment or Expense Adjustment for such Adjustment Year by more than four percent (4%), in which case Landlord shall pay such costs.

4.08 Proration and Survival. With respect to any Adjustment Year which does not fall entirely within the Term, Tenant shall be obligated to pay as Expense Adjustment and Tax Adjustment for such Adjustment Year only a pro rata share of Expense Adjustment and Tax Adjustment as hereinabove determined, based upon the number of days of the Term falling within the Adjustment Year. Following expiration or termination of this Lease, Tenant shall pay any Rent Adjustments due to Landlord within thirty (30) days after the date of each Landlord's Statement sent to Tenant. Without limitation of other obligations of Tenant which shall survive the expiration of the Term, the obligation of Tenant to pay Rent Adjustments provided for in this Article accruing during the Term shall survive the expiration or termination of this Lease.

4.09 No Decrease In Base Rent. In no event shall any Rent Adjustments result in a decrease of Base Rent payable hereunder.

4.10 Additional Rent. All amounts payable by Tenant as or on account of Rent Adjustments shall be deemed to be additional rent becoming due under this Lease.

### USE OF PREMISES

5.01 Permitted Use. Tenant may use and occupy the Premises for general medical office purposes consisting of patient visits, medical examination, interventional radiology outpatient procedures, sales and marketing office support, home dialysis training, and sales and marketing office support (hereinafter referred to as the "Exclusive Use") or for general office purposes but for no other use or purpose (collectively, the "Permitted Use"). Landlord acknowledges that Tenant shall operate two (2) separate medical offices within the Premises and that each such separate office shall have its own entrance to the Premises. Tenant shall not

perform any acts or carry on any practices which may injure the Premises or the Building, violate any certificate of occupancy affecting same, constitute a public or private nuisance or a menace to other tenants in the Building, produce undue noise, create obnoxious fumes or odors or otherwise cause unreasonable interference with other tenants of the Building. In addition, Tenant shall not (a) permit any unlawful or immoral practice to be carried on or committed in the Premises; (b) make any use of or allow the Premises to be used for any purpose that might invalidate or increase the rate of insurance thereof; (c) keep or use, or permit to be kept or used, in the Premises any inflammable fluids or explosives; (d) deface or injure the Premises or the Building; (e) overload the floors, walls or ceilings of the Premises; (f) sell or consume, or allow the sale or consumption of, alcoholic beverages in the Premises; (g) permit the accumulation of trash or debris in or on or around the Premises or the Building; (h) permit the flow of traffic (pedestrian or vehicular) to be excessive or unreasonably interfere with other tenants in the Building; or (i) commit or suffer any waste in or about the Premises.

5.02 Exclusive Use. Provided that this Lease is in full force and effect and no default by Tenant exists under this Lease beyond any applicable notice or cure period, no other tenant or occupant of the Building shall use its premises for any use included within the Exclusive Use (limited to the matters enumerated in Section 5.01) as a primary use in such space; primary use shall be deemed to be a use which generates more than fifteen percent (15%) of the gross revenues in any calendar year from such space and Landlord will not (except with Tenant's prior approval, which may be granted or withheld in Tenant's sole discretion) let other space in the Building to any tenant or occupant for such use. Landlord agrees to use commercially reasonable efforts to enforce the terms of this provision. Except as expressly provided in this Section there shall be no limitations on Landlord's right to let other space in the Building and Tenant shall not, in any event, have any right of approval with respect to any such letting. Without limitation of the foregoing, no sublessee or assignee of Tenant, other than a Permitted Transferee, shall be entitled to enforce the terms of this provision, and the terms of this provision shall not be effective if Tenant assigns this Lease or subleases any portion of the Premises to any party other than a Permitted Transferee.

## ARTICLE 6

### SERVICES

#### 6.01 Services.

(a) Provided that this Lease is in full force and effect and no default by Tenant exists under this Lease beyond any applicable notice or cure period, Landlord shall furnish domestic water in common with other tenants for drinking, lavatory and toilet purposes drawn through fixtures installed by Landlord, or by Tenant in the Premises with Landlord's written consent. The cost for such service is includable in Expenses. Tenant shall pay Landlord as additional rent at Landlord's scheduled rates for domestic water and hot water furnished for any other purpose. Tenant shall not waste or permit the waste of water.

(b) Electricity and gas shall not be furnished by Landlord, but shall be furnished by utility companies serving the area in which the Building is located. Landlord will provide (or

arrange for the provision of) and maintain (or arrange for the maintenance of) the infrastructure on the Land and within the Building up to but not including within the Premises for electricity and gas service (by way of illustration of infrastructure, pipes, wires, conduit, and the like), the cost of which is includable in Expenses. Without limitation of the foregoing, air conditioning and heating shall not be furnished by Landlord. Landlord shall permit Tenant to receive such services directly from such utility companies at Tenant's cost, and shall permit Landlord's wire and conduits, to the extent available, suitable, safe and capable, to be used for such purposes. Tenant shall make all necessary arrangements with the utility companies for metering of and paying for electric current and gas furnished by them to Tenant and Tenant shall pay for all charges for electric current and gas consumed on the Premises during the Term. Tenant shall make no alterations or additions to any of the systems or fixtures with respect to such services without the prior written consent of Landlord in each instance which shall not be withheld unreasonably. Tenant also agrees to purchase from Landlord or its agents all lamps, bulbs, ballasts and starters used in the Premises during the Term. Tenant covenants and agrees that at all times its use of electric current shall never exceed the capacity of the feeders to the Building or the risers or wiring installed thereon.

(c) Tenant shall be solely responsible for and pay when due, all charges for heat, light, gas, telephone, electricity or any other utility services used or consumed in the Premises (excluding domestic water as proved in this Article), including, without limitation, payment for meters, submeters, meter installation (except as provided hereinafter), deposits, service connections and service charges. Provided, to the extent separate meters for the Premises are not available for electric or gas service, Landlord will at its expense have such meters installed.

(d) Landlord may provide such extra or additional services as it reasonably determines and as Tenant may request from time to time, within a reasonable period after the time such extra or additional services are requested. Tenant shall pay, for such extra or additional services, an amount equal to one hundred five percent (105%) of Landlord's actual cost reasonably incurred in providing such additional services, such amount to be considered additional rent hereunder. All charges for such extra or additional services shall be due and payable at the same time as the installment of Base Rent with which they are billed, or if billed separately, shall be due and payable within thirty (30) days after such billing. Any such billings for extra or additional services shall include an itemization of the extra or additional services rendered, and the charge for each such service.

6.02 Failure to Pay for Services. Failure by Tenant to pay Landlord's proper charges for extra or additional services within the time periods specified herein shall give Landlord, upon not less than ten (10) days' notice, the right to discontinue furnishing the services, and no such discontinuance shall be deemed an eviction or disturbance of Tenant's use of the Premises or render Landlord liable for damages or relieve Tenant from performance of Tenant's obligations under this Lease.

6.03 Failure to Furnish Services. Tenant agrees that Landlord and its beneficiaries and their agents shall not be liable in damages, by abatement of Rent or otherwise, for failure to furnish or for delay in furnishing any service when such failure or delay is occasioned, in whole or in part, by repairs, renewals or improvements, by any strike, lockout or other labor trouble, by

inability to secure electricity, gas, water or other fuel at the Building after reasonable effort to do so, by any accident or casualty whatsoever, by the act or default of Tenant or other parties, or by any cause beyond the reasonable control of Landlord; and such failures or delays shall never be deemed an eviction or disturbance of Tenant's use or possession of the Premises or relieve Tenant from paying Rent or performing any of its obligations under this Lease. Provided that in the event any such service is suspended or interrupted as a result of the negligence or willful misconduct of Landlord (or its agents, contractors, employees, or manager) and such suspension or interruption continues for five (5) consecutive business days after receipt by Landlord of notice from Tenant of such event, and Tenant is required to cease its use of the Premises (or such affected portion thereof) as a result of such interruption, then all Rent attributable to the portion of the Premises rendered unusable shall abate until such service is restored.

6.04 Regulations Regarding Utilities Services. Tenant agrees to cooperate fully, at all times, with Landlord in abiding by all reasonable regulations and requirements which Landlord may prescribe for the proper functioning and protection of all utilities and services reasonably necessary for the operation of the Premises and the Building. Throughout the Term of this Lease, Landlord shall have free access to any and all mechanical installations, and Tenant agrees that there shall be no construction of partitions or other obstructions which might interfere with access to or the moving of servicing equipment to or from the enclosures containing said installations. Tenant further agrees that neither Tenant nor its employees, agents, licensees, invitees or contractors shall at any time tamper with, adjust or otherwise in any manner affect Landlord's mechanical installations.

#### ARTICLE 7

##### CONDITION AND CARE OF PREMISES

Tenant's taking possession of the Premises or any portion thereof shall be conclusive evidence against Tenant that the portion of the Premises taken possession of was then in good order and satisfactory condition, subject to completion of the Landlord's Work. No promises of Landlord to alter, remodel, improve, repair, decorate or clean the Premises or any part thereof have been made, and no representation respecting the condition of the Premises, the Building or the Land, has been made to Tenant by or on behalf of Landlord except as expressly set forth herein. Tenant, at its own expense, shall keep the Premises in good repair and tenantable condition and all times maintain the entire Premises (including, but not limited to, all exterior entrances and windows) and all floors, ceilings, interior walls, partitions, doors, fixtures, equipment and appurtenances thereof (including, but not limited to, all lighting, plumbing fixtures and heating, air conditioning, ventilating, electrical and fire protection systems installed by Tenant or exclusively serving the Premises and including space around ducts, pipes, vents or other parts of the heating, air conditioning, ventilating and plumbing systems which protrude through the roof of the Premises) in good order, appearance, condition and repair, including, but not limited to, all necessary replacements of any of such matters. Provided that this Lease is then in full force and effect and Tenant is not in default under this Lease beyond all applicable periods of cure, upon the expiration of this Lease, Landlord will provide to Tenant a refund in an amount equal to the unamortized cost of any heating, air conditioning, and ventilating system for which Tenant paid and was installed in the Premises, calculated as follows: the cost of any such system times a

fraction, with the numerator being the period of the useful life left of such system projected as remaining after the termination of this Lease, and with the denominator being the period of the useful life of such system projected from its installation. Tenant shall promptly and adequately repair all damage to the Premises caused by Tenant or any of its employees, contractors, agents, invitees or licensees, including replacing or repairing all damaged or broken glass, fixtures and appurtenances resulting from any such damage, under the supervision and with the approval of Landlord and within any reasonable period of time specified by Landlord. Tenant shall obtain, at Tenant's expense, and shall maintain throughout the Term, a service and maintenance contract, with a contractor reasonably acceptable to Landlord, for the repair and maintenance of the heating, air conditioning and ventilating systems exclusively serving the Premises (the "HVAC System"), such contract to conform to the requirements under the warranty(s), if any, on said systems; Tenant shall deliver a copy of such contract to Landlord upon Landlord's request. Notwithstanding Tenant's obligation to maintain the HVAC System, provided that Tenant has maintained the HVAC System as required herein, in the event any component of the HVAC System cannot be reasonably repaired following a service failure, and such failure was not the consequence of the negligent or intentional misconduct of Tenant or that of its employees, agents, contractors, or invitees, and licensees, or its violations of its duties and obligations pursuant to this Lease, Landlord shall promptly replace such component with a new component of similar or better quality as the original and such cost shall be deemed a capital expenditure and includable in the Expenses to the extent permitted under this Lease. If Tenant does not comply with the foregoing obligations promptly and adequately, Landlord may, but need not, make such repairs and replacements and Tenant shall pay Landlord the cost thereof on demand. Without modification of any other term or condition of this Lease, Tenant shall be responsible for obtaining and/or providing on a daily basis all janitorial, cleaning, and trash removal services for the Premises, performed by a janitor(s), contractor(s), or employee(s) at all times satisfactory to Landlord and at Tenant's sole cost and expense.

Landlord shall repair, replace and maintain, in good and sanitary condition, working order and repair during the Term (to the extent any of the following exist in the Project during the Term) the external and structural parts of the Building, including without limitation, the Premises (except to the extent the obligation of Tenant), and janitor and equipment closets and shafts within the Premises designated by Landlord for use by it in connection with the operation and maintenance of the Building, and all common areas of the Project, including, without limitation, restrooms in the core of the Building on floors leased in their entirety by Tenant, the foundation, floor/ceiling slabs, roof, curtain wall, exterior glass and mullions, columns, beams, shafts, stairs, parking areas, landscaping, fountains, exterior signage of the Building (excluding any exterior signage for Tenant or other tenants), stairwells, elevator cabs, plazas, Building mechanical, electrical and telephone closets, and all common and public areas, including the base building restrooms and washrooms and the base building mechanical, electrical, life safety, plumbing, sprinkler systems, and any other building-wide facilities or systems, including, but not limited to those which serve in part (but not exclusively) the Premises. Landlord shall perform such repairs, replacements, and maintenance with reasonable dispatch during regular business hours on business days, in a good and workmanlike manner. The cost for such repairs, replacements, and maintenance are includable in Expenses to the extent permitted under this Lease.

## ARTICLE 8

## RETURN OF PREMISES

8.01 Surrender of Possession. Upon the expiration or earlier termination of this Lease or Tenant's possession hereunder (by lapse of time or otherwise), Tenant shall at its sole cost and expense (a) peaceably leave and surrender the Premises to Landlord broom-clean and otherwise in the condition in which the Premises are required to be maintained by the terms of this Lease subject to casualty and ordinary wear and tear, and (b) shall surrender all keys for the Premises to Landlord at the place then fixed for the payment of rent and shall inform Landlord of all combinations on locks, safes and vaults, if any, in the Premises. Tenant shall, at its expense, on or prior to such expiration or earlier termination of this Lease or Tenant's possession hereunder (by lapse of time or otherwise), repair any damage caused by any of the foregoing. Any property which Tenant is required to remove and not so removed upon Tenant's surrender of possession may, at Landlord's election and without limiting Landlord's right to compel removal thereof, be deemed abandoned, and title to such property shall vest immediately in Landlord upon the expiration of the Term without further action of the parties hereto. Landlord may cause such property to be removed from the Premises and any cost incurred by Landlord for such removal, repair any damage caused by any of the foregoing, and/or the cost incurred by Landlord as a consequence of any failure of Tenant with respect to any of the foregoing covenants, will be charged to Tenant and said obligation shall survive the expiration or earlier termination of this Lease or Tenant's possession hereunder (by lapse of time or otherwise).

8.02 Installations and Additions. All installations, additions, partitions, hardware, light fixtures, non-trade fixtures and improvements, whether temporary or permanent, except Tenant's trade fixtures and movable furniture and equipment belonging to Tenant, in or upon the Premises, whether placed there by Tenant or Landlord, shall be Landlord's property and, upon termination of this Lease by lapse of time or otherwise, or of Tenant's right of possession without termination of this Lease, shall remain upon the Premises, all without compensation, allowance or credit to Tenant; provided, however, that if not less than sixty (60) days prior to such termination, Landlord so directs by notice, Tenant, at Tenant's sole cost and expense, shall promptly remove such of the installations, additions, partitions, hardware, light fixtures, non-trade fixtures and improvements placed in the Premises by Tenant as are designated in such notice and repair any damage to the Premises caused by such removal, failing which Landlord may remove the same and repair the Premises and Tenant shall pay the cost thereof to Landlord on demand. Provided, however, upon Tenant's submission of plans and its request for approval of any alterations or improvements, Tenant may request whether any such improvements shall be removed at the end of the Term and, unless Landlord identifies in writing at the time it approves such improvements which improvements shall be removed upon the expiration or earlier termination of the Term, all such improvements or installations approved by Landlord to be installed in the Premises may remain in the Premises upon the expiration or earlier termination of the Term. Notwithstanding anything herein to the contrary, Landlord hereby confirms that Tenant shall not be required to remove any of the initial improvements to be installed by Tenant as part of the Tenant's Work, other than Tenant's trade fixtures and all movable personal property.

8.03 Trade Fixtures and Personal Property. Tenant shall also remove Tenant's furniture, machinery, safes, trade fixtures and other items of movable personal property of every kind and description from the Premises and repair any damage to the Premises caused thereby, such removal and repair to be performed prior to the end of the Term or within ten (10) days following termination of this Lease or Tenant's right of possession, whichever is earlier. If Tenant fails to remove such items, Landlord may do so, and thereupon the provisions of Section 17.06 shall apply and Tenant shall pay to Landlord upon demand the cost of removal and of repairing any damage resulting from such removal.

8.04 Survival. All obligations of Tenant under this Article shall survive the expiration of the Term or earlier termination of this Lease.

#### ARTICLE 9

#### HOLDING OVER

Tenant shall pay Landlord for each day Tenant retains possession of the Premises or any part thereof after termination of this Lease, by lapse of time or otherwise, or of Tenant's right to possession of the Premises, an amount which is 150% of the amount of Base Rent and Rent Adjustments for a day based upon the annual rate of Base Rent set forth in Section 3.01 and on Rent Adjustments provided for in Article 4 for the period in which such possession occurs, calculated as though such period were within the Term, and Tenant shall also pay all damages, sustained by Landlord by reason of such retention, provided that Tenant shall not be responsible for any consequential damages resulting from such holdover unless and until such holdover exceeds thirty (30) days. Upon Landlord's election thereof, such holding over shall constitute a renewal of this Lease on a month-to-month basis or tenancy at Landlord's sufferance, as so elected by Landlord, at the rate which would have been in effect for such additional period of time if the Term had included an additional year. Acceptance by Landlord of rent after such termination shall not of itself constitute a renewal. Nothing contained in this Section shall be construed or shall operate as a waiver of Landlord's right of reentry or any other right or remedy of Landlord.

#### RULES AND REGULATIONS

Tenant agrees to observe and not to interfere with the rights reserved to Landlord in Article 11 and agrees, for itself, its employees, agents, contractors, invitees (using commercially reasonable efforts, only), and licensees, to comply with the rules and regulations set forth in Exhibit D attached to this Lease and made a part hereof and such other rules and regulations as may be adopted by Landlord pursuant to Section 11.01(l) of this Lease. Any violation by Tenant of any of the rules and regulations contained in Exhibit D or in any Section of this Lease, or as may hereafter be adopted by Landlord pursuant to Section 11.01(l) of this Lease, may be restrained; but whether or not so restrained, Tenant acknowledges and agrees that it shall be and shall remain liable for all damages, loss, costs and expenses resulting from any violation by Tenant of any of said rules and regulations. Nothing contained in this Lease shall be construed to impose upon Landlord any duty or obligation to enforce said rules and regulations or the terms, covenants and conditions of any other lease

against any other tenant or any other persons, and Landlord and its beneficiaries shall not be liable to Tenant for violation of the same by any other tenant, its employees, agents or invitees, or by any other person provided Landlord shall enforce all rules and regulations, on a non-discriminatory basis among the tenants and occupants of the Project. Landlord reserves the right to adopt additional reasonable rules and regulations with respect to the conduct of Tenant's activities in the Premises and the Building which, upon adoption, shall be deemed incorporated herein, provided that Tenant is given notice thereof and provided such additional rules and regulations do not unreasonably interfere with Tenant's ability to use the Premises for the Permitted Use.

## ARTICLE 11

### RIGHTS RESERVED TO LANDLORD

11.01 Rights Reserved to Landlord. Landlord reserves the following rights, exercisable without notice and without liability to Tenant for damage or injury to property, person or business and without effecting an eviction or disturbance of Tenant's use or possession or giving rise to any claim for setoff or abatement of Rent or affecting any of Tenant's obligations under this Lease:

- (a) To change the name or street address of the Building;
- (b) To install and maintain signs on the exterior and interior of the Building;
- (c) To prescribe the location and style of the suite number and identification sign or lettering for the Premises;
- (d) To retain at all times, and to use in appropriate instances, pass keys to the Premises;
- (e) To grant to anyone the exclusive right to conduct any business or render any service in the Building, or the nonexclusive right to use any premises in the Building except as provided by Article 5;
- (f) To exhibit the Premises at reasonable hours during the final twelve (12) months of the Term and after no less than 24-hours' notice to Tenant, except in the event that Tenant has vacated or abandoned the Premises, in which case no notice is required. Notwithstanding, Landlord shall be permitted to enter the Premises without 24-hours' notice to Tenant in the event of an emergency, but using commercially reasonable efforts to provide as much notice as may be practicable.
- (g) To enter the Premises at reasonable hours for reasonable purposes, including inspection and supplying service to be provided to Tenant hereunder provided Landlord provides 48-hours' advance notice to Tenant;
- (h) To require all persons entering or leaving the Building during such hours as Landlord may reasonably determine from time to time to identify themselves to security personnel by registration or otherwise in accordance with security controls, and to establish their

right to enter or to leave in accordance with the provisions of Exhibit D. Landlord shall not be liable in damages for any error with respect to admission to or eviction or exclusion from the Building of any person. In case of fire, invasion, insurrection, mob, riot, civil disorder, public excitement or other commotion, or threat thereof, Landlord reserves the right to limit or to prevent access to the Building during the continuance of the same, to shut down elevator service, to activate elevator emergency controls, or otherwise to take such action or preventive measures deemed necessary by Landlord for the safety or security of the tenants or other occupants of the Building or for the protection of the Building and the property in the Building. Tenant agrees to cooperate with any reasonable safety or security program developed by Landlord;

(i) To regulate access to telephone, electrical and other utility closets in the Building and to require use of designated contractors for any work involving access to the same;

(j) To control and prevent access to common areas and other non-general public areas of the Building pursuant to Exhibit D;

(k) Provided that reasonable access to the Premises shall be maintained at all times and the business of Tenant shall not be interfered with unreasonably, to rearrange, relocate, enlarge, reduce or change corridors, exits, entrances in or to the Building and to decorate and, at its own expense, to make repairs, alterations, additions and improvements, structural or otherwise, in or to the Building or any part thereof, and any adjacent building, land, street or alley, including for the purpose of connection with or entrance into or use of the Building in conjunction with any adjoining or adjacent building or buildings, now existing or hereafter constructed, and may for such purposes erect scaffolding and other structures reasonably required by the character of the work to be performed, and during such operations may enter upon the Premises and take into and upon or through any part of the Building, including the Premises, all materials that may be required to make such repairs, alterations, improvements or additions, and in that connection, Landlord may temporarily close public entry ways, other public spaces, stairways or corridors and interrupt or temporarily suspend any services or facilities agreed to be furnished by Landlord, all without the same constituting an eviction of Tenant in whole or in part and without abatement of Rent by reason of loss or interruption of the business of Tenant or otherwise and without in any manner rendering Landlord liable for damages or relieving Tenant from performance of Tenant's obligations under this Lease. Landlord, at its option, may make any repairs, alterations, improvements and additions in and about the Building and the Premises during ordinary business hours and, if Tenant desires to have such work done at times other than business hours, Tenant shall pay all overtime and additional expenses resulting therefrom; and

(l) From time to time to make and to adopt such reasonable rules and regulations, in addition to or other than or by way of amendment or modification of the rules and regulations contained in Exhibit D or other Sections of this Lease, for the protection and welfare of the Building and its tenants and occupants, as Landlord may determine, and Tenant agrees to abide by and comply with all such rules and regulations. Landlord agrees to enforce all rules and regulations on a non-discriminatory basis among the tenants and occupants of the Project.

11.02 Use of Roof and Land. This Lease does not grant any rights to light or air.

## ARTICLE 12

### IMPROVEMENTS AND ALTERATIONS

12.01 Landlord's Work and Tenant's Work. Landlord shall construct the improvements in the Premises identified as "Landlord's Work" in the Workletter and in accordance with the standards set forth therein, if any, at Landlord's sole cost and expense. All other improvements to the Premises necessary for Tenant's use or occupancy thereof shall be completed by Tenant, at Tenant's expense, and shall hereinafter, be referred to as "Tenant's Work." Tenant's Work shall be completed by Tenant in conformity with the specifications set forth in the Workletter. Tenant agrees to submit to Landlord, on or before the times set forth in the Workletter, plans and specifications covering Tenant's Work in such detail as Landlord may require, and Tenant agrees not to commence work on any of Tenant's Work until Landlord has approved such plans and specifications, as well as any contracts with respect to same with respect to improvement projects which exceed \$50,000 in aggregate expense, such approval may be conditioned upon a requirement that Tenant provide to Landlord with appropriate evidence of Tenant's ability to pay for such work and materials in full and a bond or indemnity or other security in favor of Landlord, in an amount and form satisfactory to Landlord, securing Landlord with respect to potential lien rights affecting the Premises or the Building that could be raised at any time by any contractor, subcontractor, material supplier or others and to assure the completion of all such work and payment for such materials free and clear of liens. All such permitted alterations, improvements, and changes in the Premises shall (i) be at Tenant's expense, (ii) be performed in strict accordance with the plans and specifications approved by Landlord, (iii) comply with all insurance requirements and with all applicable governmental laws, statutes, ordinances, rules, and regulations, and (iv) be completed in compliance with the terms and conditions of this Lease. All such alterations, improvements and changes shall become upon completion the property of Landlord, unless otherwise agreed to by Landlord.

12.02 Tenant Allowance. Provided this Lease is in full force and effect and no event or circumstance exists which, with the giving of notice or the passage of time, or both, could constitute a default by Tenant under this Lease (provided that if Tenant cures such failure or circumstance within any applicable notice or cure period, Landlord shall resume funding the Tenant Allowance, as hereinafter defined), Tenant is the original Tenant named in this Lease, and the entire Premises are then occupied by the original Tenant herein, Landlord will provide to Tenant an allowance of [REDACTED]

Dollars to be used in completing alterations, additions or improvements to the Premises (the "Tenant Allowance") which shall be given to Tenant in the form of a payment from Landlord paid only after (i) after the completion of Tenant's Work, (ii) after Tenant commences the operation of its business from the Premises, and (iii) upon receipt by Landlord of paid and receipted final receipts, contractors' affidavits, final waivers of lien and such other matters, in form and content reasonably satisfactory to Landlord and covering all labor and materials expended and used, to demonstrate to Landlord that no lien of mechanics or materialmen has or will be placed upon or against the Building, the Premises or against Tenant's leasehold interest in the Premises; payment of the Tenant Allowance shall be made fifteen (15) days after the satisfaction of the foregoing matters. Provided, in the event Tenant elects to increase the Base Rent from the Commencement Date through the first (1<sup>st</sup>) Lease Year from [REDACTED] per rentable square foot to [REDACTED] per rentable square [pursuant to Section 3.01 (b)] the Tenant Allowance shall be increased to [REDACTED] and all other terms and conditions of this shall remain in effect. In the event Tenant is in default of its obligations pursuant to this Lease beyond any applicable notice or cure period and Landlord is entitled and elects to terminate this Lease, Landlord shall have the right to recapture from Tenant the unamortized portion of the Tenant Allowance as of the date of such default along with interest thereon using the Default Rate of Interest (as hereinafter defined), which amount shall be due and payable to Landlord from Tenant, immediately upon such termination, in the same manner as any other amount due Landlord pursuant to this Lease. In the event the foregoing conditions to the payment by Landlord to Tenant of the Tenant Allowance have been satisfied and the amount due remains unpaid for thirty (30) days after receipt by Landlord of a demand for payment, Tenant shall be entitled to a credit against Rent payable after such thirty (30) period until the Tenant Allowance has been exhausted.

**12.03 Alterations.** Other than the Tenant's Work and as expressly provided in this Section, Tenant shall not make, without the prior written consent of Landlord, which shall not be withheld unreasonably, any alterations, additions or improvements to the Premises. Landlord's decision to refuse such consent shall be conclusive. If Landlord consents to such alterations, additions or improvements, before commencement of the work or delivery of any materials onto the Premises or into the Building, Tenant shall furnish to Landlord for approval plans and specifications, names and addresses of contractors, copies of contracts, necessary permits and licenses, and instruments of indemnification against any and all claims, costs, expenses, damages and liabilities which may arise in connection with such work, all in such form, substance and amount as may be satisfactory to Landlord. In addition, prior to commencement of any such work or delivery of any materials into the Premises, Tenant shall provide Landlord with appropriate evidence of Tenant's ability to pay for such work and materials in full, and if requested by Landlord, shall deposit with Landlord at such time such security for the payment of said work and materials as Landlord may require. All alterations, additions and improvements shall be installed in a good, workmanlike manner and only new, materials of high quality shall be used. All such work shall be done only by contractors or mechanics approved by Landlord, which shall not be withheld unreasonably, and shall be subject to Landlord's scheduling requirements and regulations. Tenant further agrees to hold Landlord harmless from any and all liabilities of every kind and description which may arise out of or be connected in any way with said alterations, additions or improvements. Before commencing any work in connection with such alterations, additions or improvements, Tenant shall furnish Landlord

with certificates of insurance from all contractors performing labor or furnishing materials insuring Landlord against any and all liabilities which may arise out of or be connected in any way with said alterations, additions or improvements. Tenant shall permit Landlord to supervise construction operations in connection with the foregoing work if Landlord requests to do so. Tenant shall pay the cost of all such alterations, additions and improvements, as well as the cost of decorating and repairing any damage to the Building, including the Premises, occasioned by such alterations, additions and improvements, including the cost of labor and materials, contractors' profits, overhead and general conditions, and a reasonable fee to Landlord not to exceed three (3%) of the hard costs of the work being performed. Upon completing any alterations, additions or improvements, Tenant shall furnish Landlord with contractors' affidavits in form required by law, and full and final waivers of lien and receipted bills covering all labor and materials expended and used. All alterations, additions and improvements shall comply with all insurance requirements and with all city and county ordinances and regulations and with the requirements of all state and federal statutes and regulations. All such alterations, improvements and changes, other than any trade fixtures, shall become upon completion the sole property of Landlord, unless otherwise determined by Landlord. Notwithstanding the foregoing, the prior written consent of Landlord shall not be required for the completion by Tenant of alterations, additions, or improvements to the Premises which are cosmetic in nature, not structural, do not affect the systems of the Premises or Building, do not exceed in the aggregate \$50,000.00 in any calendar year, and are otherwise in compliance with the terms and conditions of this Lease, so long as Tenant provides notice to Landlord of such matters not later than ten (10) days prior to their commencement.

12.04 Signs. As part of the Landlord's Work, Landlord agrees to install two (2) signs on the exterior of the Building. One such exterior sign shall be installed on the western face of the Building over Western Avenue and the other exterior sign shall be installed on the northern face of the Building (collectively, the "Building Signs"). The Building Signs shall substantially conform with the diagram attached on Exhibit E hereto. Tenant shall be entitled to use fifty percent (50%) of the available area on each Building Sign (in positions determined by Landlord, acting reasonably) and, subject to the terms of this Section 12.04, Tenant may have designed and installed (pursuant to the terms and conditions of this Lease) up to two (2) panels thereon to identify Tenant's respective clinics operating within the Premises. In addition to the foregoing, Tenant shall have the exclusive right to install and use a sign above the new exterior entrance to the Premises to be constructed by Tenant as part of the Tenant's Work (the "New Entrance Sign"). Tenant shall be solely responsible for all costs associated with the installation, maintenance, repair, replacement, and removal of the New Entrance Sign and the same shall comply with the terms of this Section 12.04. Prior to the installation of Tenant's permanent signage pursuant to this section, Tenant may install temporary signage (i.e. "Coming Soon" and "Grand Opening" banners professionally prepared and subject to such reasonable rules, regulations, and restrictions as Landlord may impose) at the Premises, provided that such temporary signs comply with the terms of this Section 12.04. The size, style, appearance and location of all exterior signs and all interior signs visible from the exterior of the Premises shall be subject to the approval of Landlord (in its reasonable discretion) prior to installation and must be in compliance with all governmental statutes, laws, rules, orders, regulations and ordinances affecting same as well as Landlord's reasonable sign criteria. Landlord shall have the right to remove any unapproved sign if Tenant fails to remove or correct such sign within five (5) business days after receipt of notice thereof, and Tenant shall pay Landlord's cost of removal

within five (5) days after demand. Tenant shall, at its own expense, maintain and keep in good repair its sign panels on the Building Signs and the New Entrance Sign, and upon expiration or earlier termination of this Lease or Tenant's possession hereunder, shall remove all such sign panels and the New Entrance Sign and repair any damage caused thereby. All of Tenant's sign panels on the Building Signs and the New Entrance Sign shall be fabricated, installed, maintained, and removed at Tenant's sole cost and expense. Upon completion of the installation of the Building Signs and Tenant's panels as provided herein, Tenant shall reimburse Landlord for one-half (1/2) of the cost to install the Building Signs (in distinction of the cost of Tenant's sign panels thereon), up to a maximum amount of [REDACTED]. All costs to maintain, repair and replace the Building signs (exclusive of the initial installation costs, which shall be apportioned as provided in this Section 12.04), shall be included as Expenses, as and to the extent permitted under Section 4.02 hereof.

12.05 Construction Escrow. Prior to the commencement of Tenant's Work, or any other alterations, additions, or improvements the cost of which exceeds \$150,000.00 in the aggregate, Tenant shall furnish to Landlord cost estimates for the construction of such work and proof of ability to pay such costs. Additionally, payments with respect to Tenant's Work, or any other alterations, additions, or improvements the cost of which exceeds \$150,000.00 in the aggregate, shall be made through a construction escrow (the "Construction Escrow") with a title company approved by Landlord and pursuant to an escrow agreement governing the Construction Escrow in form and substance reasonably acceptable to Landlord and Tenant and pursuant to which Landlord may, but shall not be required to, become a party. The Construction Escrow shall be administered pursuant to the standard form of the escrowee's construction escrow agreement revised to also include the following terms: (i) prior to the commencement of Tenant's Work, or any other alterations, additions, or improvements the cost of which exceeds \$150,000.00 in the aggregate, Tenant shall deposit in the Construction Escrow an amount equal to fifty percent (50%) of the total aggregate cost of Tenant's Work, or any other alterations, additions, or improvements the cost of which exceeds \$150,000.00 in the aggregate, (ii) upon presentation of reasonable documentation to Landlord demonstrating that Tenant has already paid for (outside of the Construction Escrow) at least fifty (50%) of the total aggregate cost of Tenant's Work, or any other alterations, additions, or improvements the cost of which exceeds \$150,000.00 in the aggregate, Tenant shall then be entitled to draw upon the Construction Escrow to pay for the remaining cost of Tenant's Work, or any other alterations, additions, or improvements the cost of which exceeds \$150,000.00 in the aggregate, (iii) all interest accrued on any amounts deposited in the Construction Escrow shall inure to the benefit of Tenant.

## ARTICLE 13

### ASSIGNMENT AND SUBLETTING

13.01 Assignment and Subletting. Tenant, without the prior written consent of Landlord in each instance, shall not (a) assign, transfer, mortgage, pledge, hypothecate or encumber or subject to or permit to exist upon or be subjected to any lien or charge, this Lease or any interest under it, (b) allow to exist or occur any transfer of or lien upon this Lease or Tenant's interest herein by operation of law, (c) sublet the Premises or any part thereof, (d) permit the use or occupancy of the Premises or any part thereof for any purpose not provided for under Article 5 of this Lease or by anyone other

than Tenant and Tenant's agents and employees, or (e) cause, suffer or permit to occur any "Change of Control" (as such term is defined in Section 13.08 hereof). Landlord has the right to reasonably withhold its consent to any proposed assignment or sublet, except as herein expressly provided to the contrary, and no permitted assignment or subletting shall relieve Tenant of its covenants and agreements hereunder. In no event shall this Lease be assigned or assignable by voluntary or involuntary bankruptcy proceedings or otherwise, and in no event shall this Lease or any rights or privileges hereunder be an asset of Tenant under any bankruptcy, insolvency or reorganization proceedings.

13.02 Rentals Based on Net Income. Without limiting the generality of the foregoing provisions of this Article, Tenant expressly covenants and agrees not to enter into any lease, sublease, license, concession or other agreement for use, occupancy or utilization of the Premises which provides for rental or other payment for such use, occupancy or utilization based in whole or in part on the net income or profits derived by any person from the property leased, used, occupied or utilized (other than an amount based upon a fixed percentage or percentages of receipts or sales), and that any such purported lease, sublease, license, concession or other agreement shall be absolutely void and ineffective as a conveyance of any right or interest in the possession, use, occupancy or utilization of any part of the Premises.

13.03 Tenant to Remain Obligated. Consent by Landlord to any assignment, subletting, use, occupancy or transfer shall not operate to relieve Tenant from any covenant or obligation hereunder except to the extent, if any, expressly provided for in such consent, or be deemed to be a consent to or relieve Tenant from obtaining Landlord's consent to any subsequent assignment, transfer, lien, charge, subletting, use or occupancy. Tenant shall bear all costs and expenses, including but not limited to attorneys' fees, incurred by Landlord with respect to any proposed assignment, sublease, transfer, lien, charge, or the like or a request for consent to same, as well as pay to Landlord an fee in the amount of One Thousand and No/100 Dollars (\$1,000.00), whether or not consent is granted. Tenant agrees that all advertising by Tenant or on Tenant's behalf with respect to the assignment of this Lease or subletting of space must be approved in writing by Landlord prior to publication.

13.04 Tenant's Notice; Landlord's Right to Terminate. Tenant, by notice in writing, shall advise Landlord of its intention from, on and after a stated date (which shall not be less than thirty (30) days after the date of Tenant's notice) to assign this Lease or sublet any part or all of the Premises for the balance or any part of the Term, and, in such event, Landlord shall have the right, to be exercised by giving written notice to Tenant within ten (10) days after receipt of Tenant's notice, to recapture the space described in Tenant's notice and provided Tenant does not send notice rescinding its original notice to Landlord within five (5) days of receipt of Landlord's recapture notice, such recapture notice, if given, shall terminate this Lease with respect to the space therein described as of the date stated in Tenant's notice. Tenant's notice shall state the name and address of the proposed subtenant or assignee, and a true and complete copy of the proposed sublease or assignment and sufficient information to permit Landlord to determine the financial responsibility and character of the proposed subtenant or assignee shall be delivered to Landlord with said notice. If Tenant's notice covers all of the space hereby demised, and if Landlord gives its recapture notice with respect thereto and Tenant does not rescind its original notice as herein provided, the Term of this Lease shall expire on the date stated in Tenant's notice as fully and completely as if that date had been herein definitely fixed for the expiration of the Term. If, however, this Lease is terminated

pursuant to the foregoing with respect to less than the entire Premises, Base Rent and Tenant's Proportionate Share as defined herein shall be adjusted on the basis of the number of rentable square feet retained by Tenant, and this Lease as so amended shall continue thereafter in full force and effect. In such event, Landlord shall pay all costs in connection with the physical subdivision of any portion of the Premises.

13.05 Landlord's Consent. If Landlord, upon receiving Tenant's notice with respect to any such space, does not exercise its right to terminate as aforesaid, Landlord will not unreasonably withhold its consent to Tenant's assignment of this Lease or subletting the space covered by its notice. Landlord shall not be deemed to have unreasonably withheld its consent to a sublease of part or all of the Premises or an assignment of this Lease if its consent is withheld because: (a) Tenant is then in default hereunder and fails to cure such default within any applicable notice or cure period; (b) any notice of termination of this Lease or termination of Tenant's possession was given under Article 17; (c) the portion of the Premises which Tenant proposes to sublease, including the means of ingress thereto and egress therefrom and the proposed use thereof, or the remaining portion of the Premises, or both, will violate any city, state or federal law, ordinance or regulation, including, without limitation, any applicable building code or zoning ordinances; (d) the proposed use of the Premises by the subtenant or assignee does not conform with the Permitted Use; (e) in the reasonable judgment of Landlord, the proposed subtenant or assignee is of a character or is engaged in a business which would be deleterious to the reputation of the Building, or the subtenant or assignee is not sufficiently financially responsible to perform its obligations under the proposed sublease or assignment; (f) the proposed subtenant or assignee is a government or a government agency; or (g) the proposed subtenant or assignee is an occupant of the Building; provided, however, that the foregoing are merely examples of reasons for which Landlord may withhold its consent and shall not be deemed exclusive of any permitted reasons for reasonably withholding consent, whether similar to or dissimilar from the foregoing examples.

13.06 Profits. If Tenant, having first obtained Landlord's consent to any sublease or assignment, or if Tenant or a trustee in bankruptcy for Tenant pursuant to the Bankruptcy Code, assigns this Lease or sublets the Premises, or any part thereof, at a rental or for other consideration in excess of the Rent or pro rata portion thereof due and payable by Tenant under this Lease, then Tenant shall pay to Landlord as additional rent fifty percent (50%) of such excess rent or other monetary consideration (after deducting therefrom all allowances, rent abatements, concessions, brokerage commission, attorneys' fees and other costs reasonably incurred to complete such transaction) immediately upon receipt under any such assignment or, in the case of a sublease, (a) on the first day of each month during the term of any sublease fifty percent (50%) of the excess of all rent and other consideration due from the subtenant for such month (after deducting the foregoing costs) over the portion of the Rent then payable to Landlord pursuant to the provisions of this Lease for said month which is allocable on a square footage basis to the space sublet) and (b) promptly following receipt thereof, fifty percent (50%) of any other consideration realized by Tenant from such subletting; it being agreed, however, that Landlord shall not be responsible for any deficiency if Tenant assigns this Lease or sublets the Premises or any part thereof at a rental less than that provided for herein.

13.07 Assignee to Assume Obligations. If Tenant assigns this Lease as permitted herein, the assignee shall expressly assume all of the obligations of Tenant hereunder in a written instrument

satisfactory to Landlord and furnished to Landlord not later than fifteen (15) days prior to the effective date of the assignment. If Tenant subleases the Premises as permitted herein, Tenant shall obtain and furnish to Landlord, not later than fifteen (15) days prior to the effective date of such sublease and in form satisfactory to Landlord, the written agreement of such subtenant to the effect that the subtenant, at Landlord's option and written request, will attorn to Landlord in the event this Lease terminates before the expiration of the sublease.

13.08 Change of Control. Notwithstanding anything to the contrary in this Article, if Tenant is a corporation (other than a corporation the stock of which is publicly traded) the term "Change of Control" shall mean any change in the ownership of the shares of stock which constitute control of Tenant other than by reason of gift or death. The term "control" as used herein means the power, directly or indirectly, to direct or cause the direction of the management or policies of Tenant. If Tenant is a partnership, whether general or limited, the term "Change of Control" shall mean any change in the ownership of the partnership interests which constitute control of Tenant other than by reason of gift or death.

13.09 Permitted Transferee. Notwithstanding anything in this Article 13 to the contrary, Tenant may, without the prior consent of Landlord, but upon not less than ten (10) days' notice, assign this Lease or sublet all or any portion of the Premises to any Permitted Transferee (as hereinafter defined) of Tenant, provided that (1) Tenant is not then in default under this Lease beyond any applicable notice or cure period at the time of giving notice thereof or on the effective date of such sublease or assignment, (2) Tenant delivers to Landlord copies of such assignment or sublease and information establishing, in Landlord's reasonable determination, that the proposed assignee or sublessee is (and qualifies as) a Permitted Transferee, (3) Tenant notifies Landlord in writing thereof not less than ten (10) days in advance of the effective date of the proposed assignment or sublease, (4) in the case of an assignment, such entity assumes the obligations of Tenant hereunder by written assignment in form and substance reasonably acceptable to Landlord, and (5) in the case of a sublease, such entity agrees to subordinate such sublease, and otherwise observe and be bound by the terms and provisions of this Lease, by written agreement in form and substance reasonably acceptable to Landlord. In the event of an assignment or sublet pursuant to this Section 13.09, such assignment or sublet shall not operate to relieve Tenant from any covenant or obligation hereunder and such assignment or sublease shall in all other respects be subject to the terms and conditions of this Lease, including, but not limited to Article 13. For purposes of the foregoing, "Permitted Transferee" shall mean: (i) any subsidiary or parent company of Tenant or Tenant's parent; (ii) any company in which Tenant or Tenant's parent has a controlling interest or is under common control with Tenant; or (iii) any successor corporation, whether by merger, consolidation, or otherwise, or to any person who purchases all or substantially all of Tenant's assets (including, in each such case and without limitation, all rights and obligations of Tenant under this Lease). For the purposes of this Section 13.09, the term "control" (including the terms "controlling", "controlled by", "controlling interest", and "under common control with") shall mean the possession, direct or indirect, of the power to direct or cause the direction of the management and policies of an entity, whether through the ownership of voting securities, by contract or otherwise.

Tenant agrees to have all insurance which may be carried by Tenant endorsed with a clause providing that any release from liability of or waiver of claim for recovery from Landlord entered into by Tenant prior to any loss or damage shall not affect the validity of said policy or the right of the insured to recover thereunder and providing further that the insurer waives all rights of subrogation which such insurer might have against the other party.

14.02 Damage Caused by Tenant's Neglect. If any damage to the Premises or the Building or any equipment or appurtenance therein belonging to Landlord results from any act or neglect of Tenant, its employees, agents, contractors, or licensees, Tenant shall be liable therefor and Landlord, at its option, may repair such damage and Tenant, upon demand by Landlord, shall reimburse Landlord for all costs of such repairs and damages in excess of amounts, if any, paid to Landlord under insurance covering such damage.
